FARM EQUIPMENT SERVICE

One of the new programs that will be offered Fall Term at LCC is the Farm Equipment Service Program. This course was requested for Oregon by the farm implement industry because of a serious shortage of trained personnel in this field.

This will be a two-year program with an Associate of Science degree awarded upon completion. The summer between the first and second year of the program will be scheduled for supervised work experience with a farm implement dealer or serviceman. Staff members will assist in placement on an entry job after completion of this training.

Instructor for the new program will be Mr. Paul Patrick, who recently completed 25 years in agricultural education. Mr. Patrick comes to LCC from McMinnville where he has been an instructor in agricultural courses.
