

ROUNDUP

STAFF ASSOCIATION
TO MEET FEB. 20.

News briefs

Friday, Feb. 7, 1969

A short summary of the Board of Education meeting, Feb. 5, 1969 includes the following:

- *The Board approved claims for January in the amount of \$62,415.23.

- *Approved Construction claims in the amount of \$184,089. The Board also approved change orders No. 8 and 9.

- *Purchased a Piper Arrow four-place retractable aircraft for use in the flight technology program.

- *Approved several Advisory Committee appointments.

- *Approved the construction of acoustical walls in the Science Building to aid in the acoustics problem during classes.

- *Hired--MERLIN AMES as Food Services Director, effective July 1, 1969. JAY MARSTON MORGAN as Facilities Planner. Jay is an art professor.

- *Approved the acceptance of the land donation from the city and school district in Florence. Instructed Administrators to take the appropriate steps to formally accept and receive the gift.

The state conference for outdoor education will be hosted by LCC on Saturday, Feb. 15, beginning with registration at 9 a.m. in the Forum Building. The newly formed Oregon Association for Outdoor Education and Conservation is sponsoring the conference. The registration fee is \$6 which includes several workshop sessions and a banquet. The guest speaker at the 6:30 p.m. dinner will be Dr. Sterling Ellsworth, a well known psychologist.

Any staff member interested in Conservation Education are encouraged to come and spend the day in a free-choice of nine workshop sessions. Membership applications for the Association will be available at the conference.

The closing date for student applications for the 1969-70 classes in the nursing and dental programs at LCC is March 1. The programs have limited space and students must apply and be accepted before entering the programs.

The Associate Degree Nursing Program will be selecting up to 50 applicants, the Licensed Practical Nursing Program will take 30 applicants, the dental programs will be taking a maximum of 16 in the dental hygiene program and 30 in the dental assistant course.

The qualifications for all four groups are a high school diploma or the equivalent. Men and women are both eligible to apply. Students can make written application at the registrar's office.

Proposed Raises

SPPC Chairman EASY ALFORD presented the 1969-70 salary proposal to the Board of Education at an informal dinner meeting Wednesday evening. The proposal asks for a \$273 cost-of-living raise for teachers in keeping with the National Consumer Price Index rise for 1968.

This would mean that the present \$5,800 starting salary for a teacher with a bachelor's degree would be raised 4.7 percent.

Five, 10 and 15 percent raises are also being asked for the classified staff members.

A formal, public presentation of the pay proposals will be made at a scheduled Board of Education meeting Feb. 19.

Childrens' science classes are being held on the LCC campus on Saturday mornings as of last Saturday, Jan. 11. The classes are for ages 5-13 years old. They are sponsored by the Southwest Oregon Museum of Science and Industry.

The Staff Association meeting scheduled for Jan. 30, has been rescheduled for Thursday Feb. 20 at 11:30 a.m. in the main gym. Staff members have complained of the length of the meetings going over the allotted time. President BUCK BAILEY has asked that staff members make arrangements to lunch before, during, or after the meeting, but please come. There are several items of business to be discussed and following the regular business meeting, the acting chairmen of the sub-sections of the association will meet with their respective groups in an organizational session.

Due to the snow storm the SPPC salary proposal briefings were cancelled on the 23rd of Jan. In an attempt to answer any questions raised by staff members, SPPC Chairman EVAN ALFORD will brief the proposal and then open the floor for questions.

Staff members interested in joining the newly formed LCC Book Discussion Club can sign up in the Bookstore when they pick up their copy of the first book for discussion, Snow Country. The book is available at the campus bookstore and all interested staff are invited to the first meeting which will be held at the home of Associate Dean GERRY RASMUSSEN, Feb. 28. Gerry lives at 751 Dane Lane in Junction City. The discussion will begin at 8 p.m.

The group will discuss Snow Country and then hold a short organizational meeting and decide on the next book for discussion.

Enrollment Increase

Enrollment in the Mathematics Department has increased 48.7% over the Winter Term Math enrollment for 1967-68.

Bookstore Manager ADA ZINSER reports that the Christian Science Monitor is on sale daily at the campus bookstore for 10¢ a copy.

FOR SALE: two acres on 30th Ave. on the hill northwest of the campus. Faculty only. 550 ft. road frontage, corner lot. Call DOUG CAPPS at 344-9678.

We extend belated birthday greetings to the last half of the January Birthday list and hope that all had a Happy Birthday during the storm; EDNA JILLSON, accounts receivable clerk, Jan. 21; and NORMAN DELUE, speech prof, MARY FIROENTINO, nursing chairman, and VELMA SMALL, bookstore clerk, Jan. 30.

We wish happy February birthdays to RAY NOTT, electronics prof, 1; DICK EYMANN, funding specialist, 3; MEL KRAUSE, physical education prof and IRIS PATTLE, performing arts secretary, 4; WENDELL PEPPERDINE, science prof, 5; and VIRGINIA ROLES, adult education secretary, 7.

Switchboard Operators WENDY WESTFALL and PAT LOHN, and Receptionist KITTY SEYMOUR were kept busy during the first two days of classes for Winter Term.

The girls answered 234 calls on Tuesday for the Adult Education Department alone. The day before was even busier. They took an estimated 300 calls per hour on Monday and Tuesday.

There was one half-hour period when all ten outside lines were busy with calls. Each time a call would disconnect, another call would come through on top of the disconnect before the cord could be pulled out. Kitty had a 17-minute tie-up and all three girls reported several 10 minute-periods called "sock ins" where the outside trunks were all busy at once.

Besides operating the board, the girls take turns giving out directions to classes and answering questions by students and visitors. After a hectic morning at the switchboard, Wendy was helping Kitty with information. A man came up to the desk and Wendy looked him squarely in the eyes and said, "Lane Community College," (the phrase used in answering calls) realizing the error Wendy amended her statement with, "Well, at least you know where you are."

SHERRI LAWRENCE joins the LCC staff as secretary to HOWARD BIRD, developmental education director. Sherri will replace SHARON DINGMAN.

PAM HOBBS, secretary to Audiovisual Coordinator HOWARD LINDSTROM, is moving to Portland where her husband has been transferred by his firm.

Dean of Students BUD HAKANSON reminds instructors that today (Feb. 7) is the last day to withdraw from class and be eligible for a tuition refund. Students have until the end of the seventh week to voluntarily withdraw but today is the last day to receive refunds on tuition. Instructors should remind students of this date.

names in the news

Mechanics Prof HERB PRUETT and wife BETTY celebrated their 25th wedding anniversary Jan. 22. Their daughter came to the campus that snowy day to bring cupcakes to her father and associates and suffered the misfortune of skidding her car into an LCC curb and bending a couple of wheels.

Herb says being a member of the LCC staff the past five years has given him "time to live." He formerly ran himself ragged as the operator of four mechanics shops in California.

Plant Supervisor WALT VAN ORDEN officially accepted two geese and four ducks from the Eugene Sertoma Club Jan. 22 and released them at the sewage lagoon. His waterfowl count is now four geese, 20 assorted ducks and numerous transient mud hens.

A couple of swans are still being sought but, other than them, Walt says he will duck any more gifts of waterfowl.

A closer look at LCC's Adult Basic Education program will be presented to the public in a taped presentation on KVAL-TV's "Periscope Show," Saturday Feb. 15, at 12:30 p.m. The show will include discussions with students enrolled in the program and former students, and also a short history of the ABE program. LARRY MURRAY, director of the Special Training Programs and ROSA MARKS, former ABE instructor and consultant will also be on the show.

Mechanics Prof HERB PRUETT attended the executive board meeting of the Oregon Industrial Education Association in Salem Jan. 24. The board planned a program for the Oregon Vocational Association meeting Feb. 6-7.

ROSA MARKS, study skills instructor for Adult Basic Education, is taking her aviators ground school training in Cottage Grove. Rosa is very interest in flight technology and was invited to attend a luncheon sponsored by a Women's Flying Group, the Niner's.

Dr. Sylvia Lee, director of the Home Economics Department at OSU in Corvallis, was on campus Tuesday to visit the Home Economics department here and also to confer with RON DAUGHERTY, administrative intern.

While here, Dr. Lee reviewed several proposals for new home economics programs, according to Chairman GLADYS BELDEN.

President HAMILL was a guest on the KORE "Tally Ho Show" Jan. 7.

Have I made serious efforts to communicate with those who do not share my views? Or do I write them off as hopeless? Taken from: Christopher News Notes. Contributed by BUD HAKANSON.

"English in an Era of Protest," the Pacific Northwest Regional Conference on English in the Two-Year College, will be held Feb. 28 - March 1, at the Eugene Hotel with LCC as the host. Language Arts Chairman JOHN HOWARD and English Prof KAREN LANSDOWNE have been working with members of the regional committee for several months on the program. The group will tour the LCC campus and attend study groups on literature, teacher preparation, etc.

The conference is open to all English teachers interested in improving the English program in the two-year colleges in the Pacific Northwest.

Harold Kennedy, husband of MABEL KENNEDY, student records clerk, died Saturday, Jan. 11, following a long illness. Funeral services were held Tuesday in Junction City.

Torch Editor JERRY FOSTER received a photo credit in the Eugene Register-Guard for a photo he snapped of Plant Supervisor WALT VAN ORDEN placing donations of water fowl in the school's sewage lagoon. The photo appeared in a recent issue of the Guard.

The secretarial classes for educational secretaries being taught on campus were mentioned in the January issue of "Today's Education," the journal of the National Education Association, in an article on the education of educational secretaries. The article told of the work of the secretaries with the college in developing and promoting a course for educational secretaries.

ROUNDUP

Round the campus

Science Chairman JOHN JACOBS reports that the District Meeting of all secondary science instructors at LCC will be held March 1. The Science Department has been working on the meeting for several weeks and they hope that it will help in the communications with high schools in the LCC district.

John says, "We invited each of the science teachers in the 23 schools and we hope to have representatives from all of them."

The meeting will begin at 9 a.m. in the Forum Building 301 with a general session and discussion. The group will break up into subject matter groups such as chemistry, biology, botany, etc. The instructors will tour the facilities in the subject matter groups and then meet for a coffee hour. At 11 a.m. the subject area groups will meet to discuss and exchange ideas for that particular area.

The matter of which teachers will be offered five-year continuing appointments this spring is expected to be settled in the next month or so. A procedural plan is being developed in the Office of Instruction and should be announced soon. Department chairmen are expected to have the big voice in the decision-making, with the associate deans overseeing the activity.

The George Duke Trio, a classic Jazz group, entertained at an on-campus convocation Tuesday at 11 a.m. The convocations are set up for students in an attempt to make available some of the different well known lecturers and entertaining groups in the nation. The guests are sponsored by CAPES and the college pays a considerable amount to get these people to come. The turn out of students at these convocations is very poor. According to NILE WILLIAMS, coordinator of public events through the Adult Ed. Department, "the students chose the groups that they wanted to come to the campus, but now they never seem to come to the convocations."

\$170 of student-body money has been contributed to help pay the campaign deficit of Dr. DALE PARSELL, State Superintendent of Public Instruction.

Representatives voted in favor of the donation at the Feb. 6, Senate meeting.

Friday, Feb. 14, 1969

Business Prof Hospitalized

RUTH THYGESEN, business prof, was hospitalized with bruises and a possible back injury Monday following a two car collision on campus. David Hester, driver of the other car, and son of LEN HESTER, LCC's laundry supervisor was not injured.

According to State Police, Ruth failed to yield the right of way when entering the parking area west of the campus, and collided with the Hester vehicle. Extensive damage was done to both the 1968 Dodge wagon driven by Hester and Ruth's 1968 Cougar.

News Briefs

Winter Term classes will run through the first four days of Exam Week, March 17-18-19-20. Teachers will have Friday and Saturday, March 21 and 22, to prepare course grades.

Teachers will be asked to work their final exams into their courses. Associate Dean GERRY RASMUSSEN is preparing a procedural plan to help avoid too many tests being scheduled for the same day.

Instructional Council developed the plan last week and President's Cabinet concurred on Tuesday. The plan makes it possible to make up most of the class time lost to The Great Snow of '69.

There will be an adult basic education teacher's meeting in the Board room Friday, Feb. 21, at 7 p.m. Coffee will be served at 7 followed by the meeting at 7:30 p.m.

Dr. Eric Haughton from the University of Oregon will present a demonstration on "Precision Teaching."

The Nursing Department will have a half dozen reserved spaces in the northwest parking lot, the President's Cabinet decided Tuesday.

Chairman MARY FIORENTINO sought the spaces for nursing instructors who commute between Sacred Heart Hospital and the campus on particularly tight schedules.

Planner Chosen

MARSTON MORGAN, LCC's art prof-turned-planner, got his five-month research job underway this week. He's located in president BOB HAMILL's private "cubby hole" work room near the Board Room.

Marston is gathering the data on which completion of the campus will be based. A utilization inventory will provide data to revise the original educational specifications and to project future space needs.

It is expected that a need for as many as eight more buildings will be established. Marston's data will help the Board of Education to decide what goes where and in what order.

"I know that all staff members concerned will cooperate fully with Marston," said President Hamill.

Marston, 28, had been teaching five sections of Survey of Visual Arts in the Fine and Applied Arts Department. His classes were taken by TERRY CONRAD, A U of O graduate student from Montana.

The new planner has an architecture degree from U of O and did graduate work at the University of the Americas in Mexico. While studying, he found time to open an architecture office and to design several schools.

Returning to Eugene, he free lanced for three years as a designer and site planner before joining LCC last fall.

Marston and his wife, Lotus, live about five miles south of Cottage Grove in what used to be the Waldon School. They're remodeling it and already have installed such conveniences as indoor plumbing. A stream on the property has been dammed to provide a tree-hidden swimming pool.

Counselor on Loan

BILL WRIGHT, counselor-instructor, has been "loaned" to the State Department of Education for a two-month period in which he will stimulate and coordinate the efforts of Oregon community colleges to hold "Career Fairs".

The colleges have been working through the State Board on this and it was decided to hire Bill to work as the State level with representatives from Treasure Valley Community College, Mt. Hood Community College, Clatsop Community College, Portland Community College and LCC on the organization and development of the fairs.

Bill will work out of the Salem office and visit the different colleges to plan with their representatives on their campuses.

The regular counseling duties of Bill will be assumed by an LCC counselor, however an exact substitute has not been named. Bill has a counseling station in the Science Department.

LCC First to Buy Plane

Lane Community College has once again lead the way in the vocational area with the purchased aircraft for the Flight Technology program. The Board of Education authorized the purchase of a four-place retractable Piper Arrow aircraft at the Feb. 5, Board meeting.

Friday noon Feb. 7, MARV HOVLAND and BERT DOTSON flew to San Francisco to make the official payment and bring the aircraft back up to Eugene. At San Francisco, they were met by the manager of the company with whom the transaction was being handled and flew to San Jose to complete the necessary paper work and arrange the registration transfer etc. At this time, LCC officially became the first college in Oregon to own an aircraft to be used in the instruction of flight technology students.

After the transactions were completed, the group then flew over to Merced, to pick up the aircraft and fly it back to Eugene. Due to the weather conditions, the flight home was a little longer than was planned, because they had to stay over in Red Bluff. Saturday, they tried again to bring the plane on home, but were unable to get further than Klamath Falls.

Marv and Bert came home on Saturday evening by bus and returned Monday afternoon to bring the aircraft on to Eugene.

The Piper will be used for instruction for intermediate and advanced flight students and its main use will be for check rides. These rides are periodical flights by students with instructors along to judge their progress.

Finance and Planning Committee budgeting for 1969-70 is underway, with sessions open to staff members.

names in the news

Mechanics Prof MARV WINGER has been taking a course on Volkswagen engine repair at Riviera Motors in Beaverton. His picture was in the Volkswagen newsletter "Wagen Wheels", which is published by the Riviera Co. The caption mentioned that Marv was an instructor at LCC and that many of the technical-vocational schools and colleges were receiving training and instruction in volkswagen repair.

MARGE BLOOD, former secretary to BERT DOTSON, is working on campus in the Office of Instruction. Marge is substituting for Associate Dean GERRY RASMUSSEN's secretary EVELYN TENNIS. Evelyn has been quite ill for several weeks.

NANCY BELK, library clerk, has been hired as Audiovisual secretary to replace PAM HOBBS. Nancy will be working with Coordinator HOWARD LINDSTROM.

BETTY LLOYD has been hired to replace Nancy in the library. Betty has been working in the library part-time and also as a work-study employee.

WALLY ROWLAND, campus police, has resigned as traffic officer for LCC. The resignation cited personal reasons for leaving.

Funding Specialist DICK EYMANN and wife EMILY celebrated their silver wedding anniversary last week.

Happy February 15 birthday to Social Science Prof PAUL MALM.

President BUCK BAILEY is pushing hard on preparation of the Staff Association Handbook. It should be ready for distribution within a week or so.

Twenty-five Flight Technology students flew to Seattle Wednesday to tour the airplane division of Boeing Co. The students flying in groups of 2-4 left the Eugene Airport at 8 a.m. Also flying to Seattle were Flight instructors MARV HOVLAND, MEL GASKILL and Associate Dean RAY LAGRANDEUR.

Marv and the other instructors took the new Piper-Arrow which was recently purchased for the program from a dealer in California.

The students toured the facilities and also the new 747 mock-up. As part of their course work, students arranged their own flight plans and plotted their own courses. Each member of the crews shared in flying the plane. This was done by setting up segments of time, each student flying a certain segment of the time in flight.

Don't forget to tune in to "Periscope" on KVAL-TV (ch. 13) tomorrow at 12:30 p.m. for a closer look at the Adult Basic Education Program.

The Faculty Wives Association of LCC are holding the second annual sweetheart's dinner Saturday, Feb. 15, at the Lauralwood Club beginning at 7:30 p.m.

Staff members who are planning to attend should make reservations with JANE BAILEY before tomorrow.

The dinner is semi-formal and those who wish are invited to attend the Winter Snow Dance sponsored by the Student Senate on campus.

The Committee is taking the departments one at a time today (Friday), Saturday and Monday. Each department is being given about 45 minutes to document its needs.

FRIDAY, Feb. 14, 1969

Mathematics	8:30- 9:15 a.m.
Electronics	9:15- 10:00 a.m.
Nursing	10:00- 10:45 a.m.
Language Arts	10:45- 11:30 a.m.

Health & P. E.	1:30- 2:15 p.m.
Home Economics	2:15- 3:00 p.m.
Business	3:00- 3:45 p.m.
Paradental	3:45- 4:30 p.m.
Fine & Applied Art	4:30- 5:15 p.m.

Science	7:30- 8:15 p.m.
Performing Arts	8:15- 9:00 p.m.
Office of Instruction	9:00- 9:45 p.m.

SATURDAY, Feb. 15, 1969

Food Technology	8:30- 9:15 a.m.
Social Science	9:15- 10:00 a.m.
Industrial Technology	10:00- 10:45 a.m.
Mass Communications	10:45- 11:30 a.m.

Special Train. Prog.	1:30- 2:15 p.m.
Mechanics	2:15- 3:00 p.m.
Data Processing	3:00- 3:45 p.m.
Adult Education	3:45- 4:30 p.m.

MONDAY, Feb. 17, 1969

Administration	8:30- 11:30 a.m.
Student Personnel	1:30- 4:30 p.m.
College Services	7:30- 9:30 p.m.

ROUNDUP

BOARD SUMMARY FEB. 19

Departments within the college will finish out the college year with reduced expenditure in the budget due to a reduction in state reimbursements and over-projection of enrollment for the 1968-69 year.

The decision was reached by the Board of Education at the regular meeting Wednesday evening following a progress report on budgeted expenditures and revenues.

Other items covered at the meeting include:

- *Report by Taxpayers Protective Association. Representatives presented evidence of eight areas showing deficiency in construction. The Administration and Board were already aware of these and contractors are repairing the areas.

- *Approved claims for February amounting to \$24,951.45.

- *Approved change order No. 35.

- *Toured the Science, Electronics, and Forum Buildings for acceptance. Accepted all three Buildings from contractors as complete. This completes the acceptance of all of the buildings except the Learning Resource Building. It was also toured to observe the progress.

- *Report and discussion of 1967-68 audit.

- *Adopted curriculum of two new courses for the 1969-70 academic year. A math course, Introduction to Numerical Computation and a Medical Office Assistant course in the Paramedical department.

- *Heard insurance report on new college-owned aircraft.

- *Heard progress report on vocational education. LCC has two representatives working with the Lane County Association to develop a recommendation on how to better articulate vocational education beginning in the high schools.

- *Discussion of Accreditation Evaluation Committee. The self-study steering committee gave a report on their reaction to the report submitted by the evaluating team. Also, department chairmen were in attendance to discuss the various areas mentioned in the report.

- *Travel request and approval. Travel was approved for Home Economics Chairman Gladys Belden to attend a Consumer and Homemaker Conference in Nebraska Feb. 24-26. Also, Dr. Hamill will be attending a visitation of the Fifteenth Air Force at March AFB, Feb. 25-26.

- *Personnel--Approved the decision to offer contracts to two professors for the 1969-70 academic year. Raymond Liedlieh, an English prof and Roy Mullin, a sociology prof.

Friday, Feb. 21, 1969

New Cop Hired

JOHN MILES, a reserve officer of the Lane County Sheriff's Department, is LCC's new "campus cop." John was on the job beginning Monday.

John hails from Pennsylvania where he sold pharmaceuticals for several years and also in Texas and Eugene. He has also gained nine years of experience in police work as a reserve officer.

He and his wife have three teenage children.

already on the job

According to Campus Cop JOHN MILES the amount of personal property stolen from cars on LCC parking lots has exceeded the \$10,000 figure. This is only in the last few months.

The administration urgently requests the assistance and cooperation of the staff in reporting any irregularities seen, IMMEDIATELY. This includes such things as persons loitering near cars, persons trying to open a car without a key, or persons working on a car. If you do see any such irregularities, please call ext. 301 or the switchboard immediately.

Here are a few tips to follow in the future to help curb the problem.

- 1) ALWAYS lock your car, if you don't, it's an "open" invitation.
- 2) Leave your valuables at HOME.
- 3) Valuables of a necessary nature should be locked in the trunk.

Fellowship Offered

Staff members interested in applying for a fellowship grant for graduate study should see Dean CASE. The Northwestern Region Soroptimist Federation of the Americas, Inc., is offering a \$2500 fellowship for the 1969-70 academic year. It is good for any field of study in an accredited college or university in the U.S.

The requirements asked that the applicant be established in a business or profession, hold a master's or a bachelor's degree from an accredited college and must submit a plan of worthwhile post-graduate study leading to an advanced degree.

Data Processing Installs Computer

The newest & most modern computer available, the IBM 360 System - model 25 has arrived in the Data Processing Department and is currently being installed.

Servicemen have been busy lifting the floor in the computer room and laying the cables which connect the different units in the system to the central control unit. The cables hold hundreds of miles of wiring which transfers the instructions from the control unit to the various machines. If they were laid on the upper floor, it would be impossible for anyone to move in the computer room without tripping over the cables.

The system has four separate units, the central process or control unit, the disk drive, the card reader, and the printer. Each of the last three units are operated through the control unit by programming instructions to the units.

Every job operates on programs and unless a program is loaded in the central process unit the system cannot work. A supervisory program is made on a system which is already set up and working and is then loaded in the new system so that it will have a program from which to get the initial instructions for jobs. A program is the instructions for the central unit to use in completing jobs. Each job must have a program no matter whether it is long and complex or simple.

A system like the 360 is a great work reliever in keeping records on students etc., however the system is not being purchased for LCC. According to Data Processing Chairman Floyd Wilkes, "It is not in the best interest to purchase a system of this type because the chance of still using this same system five years from now is almost impossible. Five years from now LCC will probably have a large computer system, but the 360 System will not be able to keep up with the changing needs of the college."

The 360 is on lease from the IBM Center. Systems similar to the 360 are rarely purchased by colleges unless they know that the same system will be in use for at least five years. LCC's 360 is only the second of its kind to be installed in Oregon.

The printer can print 600 words per minute, the reader can read and sort in a very short time much faster than the old system, and more jobs can be completed in less time.

The 360 will be used for instructional purposes and later for student records and other administrative information.

News Briefs

Electronics Chairman ROGER HOUGLUM reports word has been received from the Federal Communications Commission that the station license for KLCC has been renewed for another three-year period.

KLCC is LCC's FM educational broadcast station.

The fifth annual "Career Day in Home Economics" will be held at LCC, Feb. 22. Registration will begin at 12:30 p.m. with the activities to include a tour of the campus, a panel discussion and a guest speaker.

Home Economics Chairman GLADYS BELDEN and instructor JUNE GRABINSKI are on the planning committee.

Mechanics Profs GEORGE MAST and DARYL JOSSART traveled to Portland Wednesday to attend a demonstration of a maxidyne engine at the Mac Truck Co. The demonstration was to familiarize instructors with the operating principles of the new diesel engine. The instructors attending were guests of the engine distributors.

The Airframe and Powerplant section of the Mechanics Department hosted a meeting of the Experimental Aircraft Association last Friday at 7 p.m. on campus.

Students and staff members presented demonstrations on sheet metal for home aircraft builders, and discussed several ideas concerning the subject.

The purpose was to acquaint the group with the airframe and powerplant program. They discussed the possibility of an evening adult education class on aircraft sheet metal.

There were about 40 members of the association present. LCC staff members attending were Airframe and Powerplant Instructors GERMAN ELLSWORTH, LARRY DAVIS, CARL LEMKE and Chairman MEL GASKILL.

LOUIS LOMAX

The next regular convocation scheduled for Feb. 28, at 8 p.m. will feature LOUIS LOMAX, well-known author and lecturer. Lomax has written many magazine articles and five books. He will also address the English teachers at the Pacific Northwest Regional English Conference meeting at the Eugene Hotel Feb. 28 - March 1. The 8 p.m. lecture will be in the Forum and is open to the public.

Merrill commends committee

Editor's Note: The following letter was submitted for publication by staff member JED MERRILL in recognition of the good job being done by the Finance and Planning Committee on the budget meetings.

For the past few weeks the Finance and Planning Committee has listened to department faculty and staff in discussing future planning needs and budget matters. This approach in getting to the problems is truly the democratic way. The committee needs our support and judgments committed to the purposes of college operations.

The complexities of community college operations demand the sharing of responsibilities among staff, and we must respond with integrity and enthusiasm in this democratic process.

I am sure much will be saved and with better understanding among all concerned.

I commend the President and the committee for their efforts and considerations in this democratic approach to decision making.

Jed Merrill

Birthdays

Happy February Birthday to: ROGER HOUGLUM, electronics chairman, 17; VIRGINIA DECHANE, mass communications chairman, 18; VERN SCHWIN, math prof, 19; AL TARPENNING, physical education prof, 20; MURIEL PETERSON, dental hygiene prof, 21; ROBERT BOETTCHER, science prof, 22; and FLORENCE HEDDEN, secretary to Dean CASE, 23.

names in the news

Business Chairman JOHN KREITZ has been elected to a four-year term as a community college representative for the Oregon Business Education Association (OBEA) for the coming year.

John is also a member of the executive council, representing community colleges in Oregon.

GARY CHASE, physical education prof, wrote an article on "Oxygen Utilization in Swimming" and it was published in the January issue of "Swimming Techniques." A second part of the article will appear in the April issue.

SUSAN PIPKINS, the former Susan Howard, is back at her desk in the President's Office following her marriage to Sgt. THOMAS PIPKINS, Feb. 8, in Bandon, Ore.

Industrial Tech Prof BOB ALLEN is back in the hospital as the result of a high fever. Bob fell during the icy weather and broke his left hip. He had just been released from the McKenzie-Willamette Hospital last week, but was re-admitted when his temperature rose above 104 degrees. Bob said the doctors had not said whether it was a flu-bug or if it was caused from something else. Bob can have visitors and he would welcome anyone who drops by. He is in Rm 14 at McKenzie-Willamette. He also has a phone in his room in case friends care to call.

Dean of Students BUD HAKANSON has been elected Chairman of the Board of the Lane County Family Counseling Service. Bud previously served as vice-chairman.

He has also been elected to the Board of Directors of the Lane County Chest, Inc. for a three-year term. The Chest is a company which raises funds for various community activities.

LARRY ROMINE, director of information & publications, and MOLLY CONLIN, director of professional services at the Home Health Services Agency, are to be wed in May at Vancouver, B.C.

Counselor RALPH BURNS was seen sipping his morning coffee through a straw Tuesday following a cup of very hot coffee on Monday morning. It seems that the first cup was too hot and burned his lips, forcing him to use a straw on Tuesday. Your counselor friends are all wishing you a speedy recovery.

MEL GASKILL, mechanics chairman, recently spoke to a group of junior high students from Cascade Jr. High on the opportunities in airframe and powerplant mechanics. The specific interest point was aircraft engine mechanics.

Thank You

On behalf of Tom and myself, I want to thank the staff members for the wedding shower and gifts we received on my last day of work before the wedding. We appreciate every gift and we can use all of them. Thank you each and everyone.

Susan and Tom Pipkins

Monday, March 3, campus traffic regulations will once again be enforced. Your cooperation will be appreciated and it will do away with a large amount of ticket writing.

ROUNDUP

Staff Association divides into sections

The division of the Staff Association into three sub-sections was the main item of business at the Feb. 20 meeting. The group met in the main gym and then broke down into their separate sections for an organizational discussion.

The Administrative section selected GERRY RASMUSSEN, associate dean of instruction, as their chairman and BOB MARSHALL, registrar, as recording secretary.

Classified staff members selected Secretary JEAN SPECHT as their chairman with PAT WRIGHT, from purchasing as recording secretary.

Social Science Prof PAUL MALM will chair the faculty section of the Staff Association, with Drafting Prof JED MERRILL as vice-chairman and English Prof KAREN LANSLOW as recording secretary.

The sections discussed the recent salary proposal and also the selection of OCCA delegates.

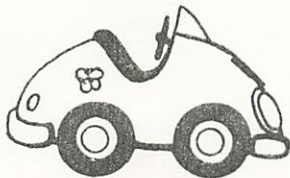

Other business on the agenda for the staff as one section included an Insurance report and teaching loads.

The next regularly scheduled Staff Association meeting will be April 29 in the gym.

Book Discussion Cancelled

The Book Discussion Club scheduled to meet tonight at the GERRY RASMUSSEN home has been cancelled. It was decided by several members of the group because of illness of members and the Louis Lomax lecture in the gym at 8 p.m. tonight.

Gerry reports that the meeting will be re-scheduled and all interested persons will be notified of the new date.

- 1) Read your Campus Driving Regulations... if you don't have a copy stop by the office and I'll see that you have a personal copy.
- 2) The campus speed limit is 20 mph. Observe it please.

Friday, Feb. 28, 1969

News Briefs

Louis Lomax, widely read author on Black Literature, is lecturing on campus at 8 p.m. The convocation is open to the public free of charge.

The Science Department is hosting a meeting of all secondary science instructors in the LCC district tomorrow in the Science Building beginning at 9 a.m. The group will tour the new science facilities and then break up into subject matter groups.

The Pacific Northwest Regional English Conference is meeting today and tomorrow at the Eugene Hotel. English teachers from the Northwest are invited to attend.

Marty Enters Finals

MARTY RAVELETTE, LCC's armless custodian, has been selected as one of seven finalists vying for the 1968 Handicapped American of the Year Award to be presented at the President's Committee Meeting in May.

Marty, armless from birth, won several local contests before competing at the national level. "It's been a long climb, city, county, state, regional, and now the big one," said Marty, "Now I am up against people like 'Little Stevie Wonder,' the top recorder and Congressman Charles Bennett."

The other four contestants, include a successful business man who is confined to a wheelchair with muscular dystrophy, a newspaper editor from Colorado born with cerebral palsy, a Negro counselor-teacher working for the Neighborhood Youth Corp Program in Chicago who lost both legs in a football accident in 1945, and a young pilot who collided with another plane and received such extensive burns, that he completely lost his face--no eyes, nose, ear or scalp. He has since become a psychology technician at a Veteran's Hospital in Florida.

Hand Closes on Budget

The iron fist of austerity has clamped shut on items totaling \$212,160 in this year's College budget.

Relaxation of the Stop-Hold ordered by President BOB HAMILL will hinge on the College finding itself with more state and federal contributions that are presently expected.

The cutback was made necessary by under-realized revenues and unanticipated expenditures. Under-enrollment chopped projected income by \$95,000. Unexpected expenditures included snow removal, high electricity costs and the presidential search.

To make up the deficit, the President is taking \$69,050 from the Office of Instruction, \$44,150 from Adult Education, \$62,500 from the contingency fund, and the other \$36,460 from various administrative funds.

For the Office of Instruction, the hold amounts to a loosening up of the purse strings. Dean of Instruction LEW CASE had been sitting on about \$100,000 to cover possible shortages.

The cutback is expected to trim ranks of part-time teachers during Spring Term. Associate Dean GERRY RASMUSSEN is seeking ways to combine sections, etc., to effect savings.

Round the campus

The cash balance in the College Aid Fund after a seven-month period (July 1, 1968 - Jan. 31, 1969) is \$196.12. During the past seven months the Fund brought in revenues of \$981.20 and paid expenses amounting to \$990.45. The fund had a previous balance of \$205.39.

The Spring Term schedules are completed and in the hands of counselors and other instructors, reports GERRY RASMUSSEN, associate dean.

Budget requests submitted by department heads for the 1969-70 fiscal year are \$2.4 million beyond projected resources, President BOB HAMILL told the Cabinet on Tuesday.

The Finance and Planning Committee is already busy wielding the ax. The cutting is being done in the presence of the department heads, however, to give them opportunity for rebuttal.

Budget requests B.C.(before cutting) total \$6.4 million.

names in the news

Business Chairman JOHN KREITZ, and Business Profs GORDON WEHNER, MARYLYN HAUGEN, SUE TRAUTWEIN, BOB JOHNSON, MAURINE BAYES, HELEN LYNN, MARY MERRILL and ROSEMARY GRANT attended a meeting of business professors of community and senior colleges in Oregon, Saturday, Feb. 22. BERT DOTSON, administrative assistant, attended the American Association of Junior Colleges (AAJC) Community Service Conference Wednesday and Thursday at the Hilton Hotel in San Francisco

Memo from your "Campus Fuzz"

I would like to thank the staff members for their cooperation in our attempt to straighten out the traffic problems here at LCC. If at any time you have questions concerning traffic regulations (parking too), don't hesitate to come in and see me about them. I have a desk in the College Services office with MARGARET KNUTSON and DELORES HERMAN. If I am out on the campus, leave a message.

The gravel parking lot on the west side of the campus has been worked on and is now suitable for parking.

JOHN MILES

FIRE LANES: Both entrance roads to the west parking lots are considered "fire lanes"; also the road connecting the west and south lots, and the county road between the south lot and the east parking areas. These roads must be kept clear at all times. These are strictly "NO PARKING" areas. If necessary cars parked here will be towed away at the owners expense.

BIRTHDAYS

Happy February birthday to: GEORGE GYORGYFALVY, physical education prof, 22; LUCILLE JOHNSON, clerk for the business office, 25.

March birthdays include: RICHARD ROMANEK, electronics prof, 2; MARY MERRILL, business prof, 13; JACK SCALES, science prof, 14; and JEAN SPECHT, secretary to LRC Director KEITH HARKER, 15.

Meet Your Co-workers

Editor's note:

In hopes that the staff may become better acquainted, a new column has been added to the weekly Roundup. "Meet your co-workers." This week the Roundup introduces Staff Association President BUCK BAILEY.

As Director of the Student Placement Office, Buck's main concern is jobs for jobless students. When a student walks through the door, he's usually looking for work. When he leaves--he usually knows where he can find it.

"I am in contact with employment agencies and employers day-in and day-out. They tell me what kind of guy they need and I find a student or students to fit the job, says Buck.

At present, there are more than 600 students registered with the Placement Office. The students don't have to be enrolled currently to come in and sign up, many of the alumni students check in regularly.

"We follow the progress of our former students, checking to see if they are practicing the skills they learned while at Lane." If a student goes for an interview on a job he learned about from the Placement Office, both the student and the job are registered in the Placement Office. "You might say we are a "free" employment agency."

Before becoming Director of Student Placement, Buck was a counselor for Lane's Manpower Development Training Act. "I was here when they raised the flag in 1965," Buck said. "I had just received my degree from Penn State in '64, when a classmate, Bob Marshall (Director of Admissions at LCC) persuaded me to come west."

So, Buck packed up his wife, Jane and their two sons (they have since added a daughter) and came to Oregon.

During the course of his career, Buck has put together several publications of book length. He is currently working on a Counselor's Handbook, but as Staff Association President, he just hasn't had the time to do too much writing.
