FRAN FRITZ'S SON, Bobbie Horton, wrote his impression of "First Day of School" for the Springfield Junior High Rebel Review last October; and, first days being first days in schools the world over, Fran thought you might enjoy it:

On September 5, 1972, it happened. . .at first they came only in small groups, but soon they were to come in hordes. They soon had invaded and taken over the whole school.

This is the impression I got as I walked down the hall on that fateful morning, if you could call it walking. Personally I call it getting stomped, tripped, kicked, slugged, and in general getting beat up. With a little luck and a lot of fighting back I made it to my classes with very few tardies.

The most popular sport of the day seemed to be getting lost. You would think that only the seventh graders would get lost because of the new surroundings, however, there were 8th and 9th graders wandering around in a daze.

Actually, I considered myself lucky to get out of the whole mess alive, however it would have been nice to have had a bulldozer in my pocket to help get past the groups of people blocking the halls.

PRESIDENT SCHAFER SENDS a note to remind us that the new year will bring higher Social Security deductions for both employers and employees. As of January 1, the rate will be 5.85 percent on a wage base of \$10,800, up from the present 5.2 percent on \$9,000. Note that your contribution is matched in the same amount by the college. In other words, a total of 11.70 percent of your salary, up to \$10,800, is being paid into the Federal Insurance Contributions Act on your account.

Or, looking at the very brightest side, you just got an addition to your fringe benefit package of 0.65 percent.

TITANS LOSE - DARN! Rod Cross earned 20 points; and LCC got double-figure scoring from four others. . .but it wasn't enough, as the Linfield College JV's handed the Titans a 100-92 basketball loss in the December 23 game on Linfield's home court.

WILLIAM G. CARR Scholarship 1973-74 award deadline is February 1, 1973. The scholarship was established by the National Education Association in the name of its former executive secretary to perpetuate two of his great interests: international education and the strengthening of independent professional organizations. The Scholarship program is designed to encourage and develop capable and constructive leadership needed by the teaching profession to achieve its goal of quality education. The award of \$1,500 is given in alternate years to persons qualifying as:

- 1/ an officer or a staff member of a local or state professional organization to pursue or complete graduate education designed to improve some aspect of professional association work
- 2/ a graduate student in the United States studying international or comparative education, or a teacher from this or another country interested in aiding and studying teachers associations in other countries

The 1973-74 Scholarship will be awarded in the second category. Deadline for applications is February 1, with announcement of the winning candidate by May. Applications and requests for information should be directed to Robert W. Miner, NEA Executive Office, 1201 Sixteenth N.W., Washington DC 20036. For further details, see notice posted on bulletin board, ADM.

AGENDA FOR TODAY'S Curriculum Committee Meeting will include review of initial studies for a Language Lab proposed by John Howard; of application for Anesthesiology course developed by Muriel Peterson; and of minor revisions in Seminar in Occupational Development, Business Mathematics/Statistics, and Techniques of Business Decisions, proposed by Jack Kreitz. Muriel Peterson's revised proposal for Dental Procedures 5 will be taken up as an information item.

IT ALL SEEMS to have been in vain. Memories are short and appetites for power and glory are insatiable. Old tyrants depart. New ones take their place. Old allies become the foe. The recent enemy becomes the friend. It is all very baffling and trying. . . we cannot lose hope, we cannot despair. For it is all too obvious that if we do not abolish war on this Earth, then surely, one day, war will abolish us from the Earth.

JAN 3 1973

TED NAPIER, a 1970 graduate, has been appointed manager of American Sheet Metal's southern division plant in Doraville, Georgia. In a letter to President Schafer, Ted says:

I would like to take this opportunity to introduce myself to you. My name is Ted Napier and I attended LCC from 1968 to 1970, after returning home from the service. (Ed.: Ted served in the Marine Corps.)

My high school days were very rewarding socially, but left much to be desired academically. I was refused admission to the University of Oregon, because of my high school grade point average. When I entered Lane Community College, I was having trouble connecting fractions to decimals, but after two years I was holding my own in calculus. This progress was also true in other subjects.

After graduating from Lane Community College, I went to work for a local steel fabricator, as a sales engineer trainee. My duties included engineering, estimating, and sales. After working for this firm for two years, they opened another plant and I was appointed General Manager. I left that job to accept a position as Southern Division Manager for American Sheet Metal, Inc. They are the largest sheet metal contractor in the country, involved in material handling systems and air pollution systems.

My purpose in writing this letter is to call to your attention that this limited success would not have been possible had I not had the opportunity to attend Lane Community College.

I want especially to thank O. J. Merrill, Buck Bailey, E. C. Alford and Dave Ruff (Ed.: Dave Roof). Without their constant help, encouragement, and practical approach to education, I doubt if I would have continued. . .

Right on, Ted.

A BOOK DETECTION system that electronically scans each book removed from the library and automatically locks an exit gate if the book hasn't been properly checked out. . . what will they think of next?

The new system, installed at a cost of \$17,000, is expected to virtually halt theft from the LCC library; Administration was concerned, however, to preserve the school's philosophy of openness and free access; before accepting the new system, they demanded and got a feature which assures that personal books, and books already processed, will not cause the gate to lock. And a special gate was installed alongside the main exit, to allow wheelchair students access to and from the library.

Book loss from the library has exceeded 4,000 copies during the past four years; estimated list value of the loss, \$40,000. But Del Matheson points out that replacement costs would exceed that sum, because of labor and research costs borne by the college.

AMERICAN FEDERATION OF Teachers Seminar: A headcount of persons planning to attend the seminar, to be held in Salem on January 20, is needed. Please call Ralph Cook, X-392, if you are planning to be there. Exact time will be published in a later issue.

STATE BOARD OF Ospirg is meeting at LCC on Sunday, January 7. This will be an all-day meeting, starting at 10 a.m. Anyone interested in the work of the group is invited to attend. Representatives from 18 colleges throughout Oregon will be present for a free-wheeling discussion of current, and proposed new, projects. It will be at least another 18 months before the LCC campus will be host to the State Board, so this should be worth attending.

Meeting will be in the cafeteria area.

LARRY ROMINE sends a paragraph about a new publication called, "How to Murder Your Husband." The point made is that women outlive men by an average of 10 years. "Any wife can speed up a husband's demise by several forms of murder - all socially acceptable," it states. "Here's all you have to do: feed him excessively, raise his cholesterol, get him to smoke, don't let him exercise, don't let him take an annual physical, never let him go to bed early, spend his money foolishly, don't let him take a vacation. . ."

Then, of course, there's the old wheeze about "married people don't really live longer. . .it just seems longer."

IN LAST NIGHT'S meeting the SPPC and Board of Education reviewed what has transpired since the two exchanged packages on November 1, 1972. The SPPC requested the Board to provide specific justification for the items in their package which represented a loss in potential earnings to the college employees. The SPPC expressed its dissatisfaction with the Board's lack of qualifying their responses.

The two major specific items which were discussed pertained to the conversion of the classified employees from an 8-step to a 6-step schedule, reducing the salaries at the top of the respective 6-step schedules; and, second, contracted personnel's part-time rate of pay.

The SPPC also directed questions to the Board pertaining to the Board's position on the summer school term and the Board's philosophy pertaining to the Evening Program. The SPPC indicated its desire for this information in order to prepare a counter proposal. The Board indicated that this information would be discussed in an open meeting, and felt that it was irrelevant to information requested for negotiating sessions.

Complete minutes of the meeting are available to staff members upon request of SPPC chairman, Debbie Daggett.

**STAFF THEATRE PARTY:** If the evening of Friday, February 2, is not bespoke, better hold it for the annual LCC staff dinner/theatre party. Cost per ticket is \$3.25; and besides a really super musical, it will include a buffet dinner catered by North's Chuck Wagon. Plan to come and bring your spouse/girlfriend/boyfriend/sugar daddy. . . guests and family of staff members welcome too!

Dinner will be served from 6:30 to 8:15. Curtain-time, for this performance only, will be at 8:30. Tickets will be available at Wendy's desk beginning Monday, January 8.

Remember: \$3.25 covers the cost of the entire evening of dinner and theatre. . . and "Where's Charley?" is a doll of a show.

**AT YESTERDAY'S INSTRUCTIONAL** Council meeting Registrar Bob Marshall distributed printouts corrected as of January 2, showing a total enrollment for the fall term of 4,900, as compared to 5,280 for the fall term. Full-time equivalent: 1,428.

Anne Stewart spoke briefly to the meeting regarding her liason work with the high school's of the district for Jack Carter's office, requesting cooperation of all instructional staff.

Dean Case spoke regarding the organizational proposal, which he sees as centering on the two questions of: 1/ summer term; and 2/ evening program.

Regarding the summer term, he raised the question as to whether we should cease considering it the fourth quarter of the regular academic year and recognize that in this term we are actually serving a quite different class of student. Regarding the evening program, he mentioned the frequently-heard complaint that the program is not, as presently set up, meeting the needs of night school students. In the discussion which followed:

. . . Ron Byers noted that his program had turned students away last summer because his budget simply would not permit him to enroll them.

. . . John Jacobs noted that, historically, the difficulties encountered were lack of students and difficulty in obtaining qualified instructors.

. . . Nile Williams noted that the reasons for proposing placement of the evening program and the summer term under the office of Community Education where wholly economic.

. . . Dean Rasmussen spoke of the feeling on the part of students that they were somewhat unfairly treated, as compared with the day students.

. . . Bill Beals observed that in addition to administrative accessibility, the evening program should have such supportive services as the library and the audio-visual department.

. . . Dean Rasmussen recommended that an identifiable amount be allocated in the budget for the evening program and the summer term.

A motion was made to appoint a sub-committee to study the various suggestions and come back with a recommendation on an organizational proposal or policy. Motion carried.

LCC CAMPUS NEWSLETTER

Deadline for the following  
day's issue: 3 p.m.

We hope you fared better than your Editor in yesterday's storm; we arrived on campus at 9:30 and, having missed mail distribution, declared a "No Daily Day."

YESTERDAY'S CABINET MEETING considered, among other items, schedule for Board of Education meetings for the balance of the fiscal year. The Board holds many meetings besides the regular monthly meetings: work sessions, budget committee meetings (the Board comprises part of the LCC budget committee), meetings with advisory committees and with various sections or departments of the college.

One of the Chairman's cherished plans will be activated this season: Informal discussion meetings to be held in the outlying areas of the education district. The first of these will be held at AshLane on January 24. Mr. Mention hopes to have at least two Board members present, as well as representative LCC staff.

AGENDA FOR TONIGHT'S Board meeting will include, in addition to the schedule, discussion of Board Policy Series 4100 and Long Range Plan progress report. Marston Morgan will present "A Preliminary Report on the West Lane Project and Comprehensive Planning Strategies for Lane Community College."

The meeting will be kept short in order to allow the first of the "Informal Discussion" meetings with various sections of the staff, which have become an annual event, to begin at 9 o'clock. The first meeting will be with Department Chairmen. Later meetings are planned with Classified/Administrative and Faculty/Students.

SELECTION OF VETERANS' Coordinator: Of the three applicants interviewed by the Selection Committee (a woman, a member of an ethnic minority, and a Civil Service employee) it was the unanimous decision to recommend Barbara Harmon for the position. The background of experience Barbara has built up in the past years as clerk in charge of veterans' programs seemed to make her the logical choice for the position.

In making the recommendation to Dean Carter, the committee stated that serious consideration was given to LCC's commitment to Affirmative Action, "including upward career mobility for women." The Daily would like to add that the committee could not have made a more popular choice. Cheers, Barbara!

RALPH COOK, CHAIRMAN of the Classified Section, finds that the effort to elect Area Representatives for the section has created some questions. Since some departments have 1 or 2 classified employees, and others have a considerable number, it has been deemed more logical to divide representation by geographical area, thusly:

Bookstore, Business Office, Data Processing, President's Office. . .1 each  
College Facilities: 1-office staff; 1-maintenance; 1-each shift, custodians  
Food Services and Student Personnel (Administration & Counseling). .2 each

Instructional Areas:

Mechanics, Art & Applied Design, Math., Electronics, Perform. Arts. . .1  
Science, Mass Comm., Industrial Tech., Business Tech. . . . .1  
Coop. Work Experience, Health/PE, Nursing, Home Ec., Special Trng. . .1  
Social Science, Study Skills, Comm. Skills, Student Activ., Regis. . .1

Ballots are to be returned by 5 p.m. today to the desk of Lee Savage, Secretary, Kitty Seymour, Vice-Chairman, or Ralph.

NOMINATING PETITIONS are available for election of OCCA delegates for both the Faculty and Administrative Sections - six delegates for each section. In conformance with the by-laws of the Staff Association, it is necessary that nominees be dues-paying members in order to run for the office; also, you should make sure that, if nominated, they will consent to run.

Petitions should be returned to your Department Secretary or to Mabel Armstrong by 5 p.m. Friday, January 12.

PRESIDENT SCHAFER, WITH other Presidents from the 4- and 2-year colleges of Oregon, met at Willamette University with Representative John Dellenback Monday morning to give him background which will be helpful to him in representing Oregon on the newly-formed National Commission of Financing of Post-Secondary Education. Representative Dellenback is one of two members of the House who will serve with two Senators on the commission.

LIFE, HEALTH AND YOU series, which began last evening, is the joint project of LCC's Continuing Education and Health and P.E. departments. Next week's speaker, on Food Fads and Fallacies will be Ms. Janet Calvert of Lane County Extension.

**TEXTBOOK ORDERING PROCEDURES:** A special meeting will be held today from 11 to 12 in ADM202 for all departmental secretaries involved with the ordering of textbooks. Georgia Henrickson, Bookstore Manager, Dean Carter, and Bill Watkins, Business Manager, will be present to review current ordering procedures and to discuss ways to handle some of the problems in the process.

AT LAST NIGHT'S Board meeting Marston Morgan presented a progress report on the Long Range Plan, this one on the West Lane, or Florence, project. Points in favor of going ahead with outreach programs in the more remote geographical areas of the LCC district, he said, could be described as philosophical, political, and fiscal. First, there is the philosophical commitment of LCC as an educational institution which offers opportunity for higher education to persons who would not otherwise have such opportunity; second, surveys bear out the observation that geographically remote areas are less likely to be supportive of the college; and last, if the posture of continuing growth is to be maintained, these are the areas from which it can most logically be expected. President Schafer noted that he is holding a series of meetings with the school districts in which the approach is to seek input as to what is desired in education rather than the more usual approach of informing the meeting as to what is offered.

Steve John, Staff Association President, pointed out that the schedule of paid holidays adopted for LCC in 1971 called for the day before and the day after Christmas to be holidays, for a total of ten paid holidays per year; and that this year staff members had been denied the last working day before Christmas as a holiday. He suggested adjusting this (as Linn-Benton has done) by allowing personnel to add a day to their paid vacation. . . such day to be any day of their choice. Chairman Mention requested that Mr. John meet with administration on this question and report back at a later meeting.

Board Member Ackerman noted his intention to question management of AshLane at their dinner meeting scheduled for January 24 regarding the basis for the rent schedule and contemplated increases in it, if any.

At Chairman Mention's request, action on appointments to the Advisory Committees was withheld until the Board can study lists of the complete membership of the committees. Mr. Mention spoke of the desirability to have good balance in the membership, which he defined as participation by students, representative workers in the employment area, middle-management or supervisory personnel, and management. As presently formed, he feels some advisory committees are over-represented with management.

Discussion of Board Policy Series 4100 revisions led to a question of how much the policy should reflect LCC policy on Affirmative Action; since the question is one of considerable complexity, it was postponed until a later date.

Dean Carter reported on Winter Term enrollment for the credit program: 5,150 head count as of the second week, compared to 5,288 head count for Fall Term (although this is subject to some adjustment). FTE for Winter Term stands at 1,446 as compared to 1,427 for Fourth Week of Fall Term. Figures on the Community Education program should be ready shortly.

Steve John spoke regarding the report on Job Description for Department Chairmen; staff, he said, feels that this represents a very great step in the right direction.

Jon West, reporting on the Affirmative Action program, read into the minutes of the meeting a report from the Status of Women Staff Committee.

OREGON ACADEMY OF Science will hold its 31st annual meeting in Corvallis on February 24, 1973. Papers are invited from LCC scientists. Organized sections are: Anthropology, Biology, Chemistry, Geography, Geology, Mathematics, and Physics. If you intend to submit a paper, please contact Paula Lutz in Anthropology, X-240.

PAINTINGS, PRINTS, AND sculptures by eleven local artists are on display at the art gallery in AAD until February 2. Four of the artists exhibiting are LCC instructors: Bill Blix, Bruce Dean, Harold Hoy, and Craig Spilman. Work of the other seven, Tom Cappuccio, Ed Koch, Margaret Kemp, Madeleine Liepe, Bill Roy, Walt Stevens, and Ken Paul, is well known to art buffs of the area.

The display will be open to the public daily from 8 am to 9 pm.

AGENDA ITEMS FOR today's Faculty Council meeting: 1/ Language Arts Department proposal on evaluation of administrative personnel; 2/ faculty evaluation; and 3/ criteria for release of staff in the event of enrollment decline.

PRESIDENT SCHAFFER'S BUSY schedule, which took him, together with Laura Oswalt, Dean Carter, and Chuck Packnett to Salem Tuesday for the Coordinating Committee meeting of OCCA, continues with a trip to Portland today for the two-day meeting of Community College Presidents of Washington and Oregon.

STAN NIELSEN, PRESIDENT of the LCC chapter of the junior college honors society, Phi Theta Kappa, called to say that LCC will host the Northwest Region meeting on Saturday, January 13. Meeting will be held in the Board Room, ADM202; the morning session, 10-12 o'clock, will be devoted to a discussion of new chapters and membership, and the afternoon session, 1-3 o'clock, to a business meeting, during which plans will be made for the 1974 convention in Seattle. This will be only the second time in its fifty-year history that a West Coast city has been chosen as the site of the national convention.

Phi Theta Kappa was founded to promote scholastic achievement. To become eligible for membership, it is necessary that a student attain a GPA of 3.5 or better. The initiation fee is \$15, and there are no further dues. The LCC chapter, Sigma Zeta, has a present members of about 125; since opening the chapter here four years ago, between 400 and 500 LCC students have been members.

Delegates from Washington, Idaho, and Oregon two-year colleges will be present at Saturday's regional meeting; also, the State President, and representatives of the Northwest Region advisory committee and the National Committee. Anyone interested in becoming better acquainted with the work of Phi Theta Kappa is encouraged to attend. Weekly meetings of the LCC chapter are held on Tuesdays at 4 p.m. in CEN 124 and usually feature a guest speaker.

DR. JOHN DUNN, Chancellor of Foothill College, Los Altos Hills, California, will be a special guest on LCC campus next Wednesday, the 17th. Dr. Dunn is currently serving as Chairman of the League for Educational Innovation.

LCC'S WRESTLING TEAM will meet Clatsop this evening at 7, here on campus. Tomorrow, Saturday, they travel to Coos Bay to try their might against SWOCC. So far, LCC has beaten Columbia Christian (25-6) and bowed to Mt. Hood (14-36).

In basketball, the Titans are meeting Judson Baptist on their home court in Portland tonight; and tomorrow SWOCC is sending its team here for a game at 7:30 p.m.

HELENA DE OLIVEIRA, of Victoria, Brazil, is a recent addition to the campus community. Helena, who has her Bachelor's degree, is here for the Winter quarter under the sponsorship of Springfield Rotary to pursue her objective of becoming a translator in her native country.

Irene Parent has coordinated a program for Helena which includes Typing I with Donna Forell; Speech with Mary Forestieri; and English Comp. with Britta Hansen. She also puts in a half-day in the Study Skills area working under the supervision of Lois Erickson. She is making her home with Ms. Forell.

Irene describes Helena's command of our language as very good. Her reading of the language is excellent; she has a few problems with the spoken word which she will work to eliminate while at LCC. . .and, presto! there goes another charming accent.

It's a pleasure to have you with us, Helena. . .pronounced, by the way, Elena.

AGENDA FOR CURRICULUM Committee meeting tomorrow at 4 p.m., CEN124, includes:

JAN 17 1973

ALL-STAFF MEETING to discuss progress of the SPPC/Board negotiations has been called for Thursday, January 18, at noon in FOR301.

FEBRUARY 15 IS the cutoff date for applications under Title VI of the Higher Education Act. Title VI provides funding for the purchase of equipment and materials to improve undergraduate instruction. Application may be made in either of two categories:

- . . .Category I - Laboratory and other special equipment, material, and minor remodeling
- . . .Category II- Television equipment, materials, and minor remodeling for closed circuit

Only one application in each category will be accepted; however, requests from several departments may be combined into one application.

It should be noted that President Nixon made no provision for funding of this program in his budget request for DHEW. The Educational Coordinating Council would like institutions which have participated in previous years to submit applications. They believe Congress will include some funding in its revised budget; and, also, they believe that an indication of institutional need will provide support for funding when appropriations come under consideration.

For copies of the guidelines and application forms, call Lisl Fenner, X-334.

AT YESTERDAY'S CABINET/meeting the question raised by Staff President Steve John regarding paid holidays received further discussion. Bert Dotson stated that research of the Board Policy appeared to bear out Steve's contention that the intent of the policy was to give staff 10 paid holidays per year; and President Schafer suggested that a recommendation be made to the Board that, in future years, the Christmas Holiday be scheduled:

- . . .when Christmas falls on Sunday, Monday, or Tuesday: Monday-Tuesday-Wednesday be taken as paid holidays
- . . .when Christmas falls on Wednesday, Thursday, Friday, or Saturday: Wednesday-Thursday-Friday be taken as paid holidays

To recompense personnel for the holiday not taken at Christmas this year, it was suggested that, within each department, arrangements be worked out to add one day to the vacation leave of all 12-month personnel.

President Schafer reported on the two-day meeting of Community College Presidents from Washington and Oregon held in Portland last week. Among many items discussed there, he mentioned:

. . .the Hill Foundation plans a grant of \$50,000 to be made to the Oregon Community College system for development of innovative programs. Dr. Shelton, Executive Secretary of OCCA, is writing the proposal and is requesting material from the individual colleges

. . .vocational programs: funds are available through March, Mr. Kunzman informed the meeting; but there is talk of a 16% cut in appropriations. Mr. Kunzman also indicated that interpretation of LEEP funding may be revised. It would appear that only in Region X are the regulations interpreted as permitting LEEP support only for transfer courses

. . .course numbering system is under review and, hopefully, an improved system will be developed.

THE LCC MEN'S BASKETBALL team won last night's game against Central Oregon, 80-74. This gives our team 4 wins and 1 loss in the conference, as of today.

CHAIRMAN DEBBIE DAGGETT reports on last night's SPPC/Board session:

Prior to last night's SPPC/Board session, Chairman Mention and Debbie Daggett agreed to confine the discussion to clarification of items, implementation, and cost per item.

The first part of the session was spent discussing and suggesting ideas pertaining to the terms "educational increment," "productivity," "arithmetic mean," and "median." The Board clarified that their proposal for the classified staff was a 6-step salary guide. The 2% increment was not intended to apply to classified staff. The cost of living, based on a 3-year Oregon Consumers' Index (COL) average applied to all staff.

Chairman Mention indicated the Board intended to offer the SPPC a tempered package at the negotiating session of January 31 and, based on the proceedings of that meeting, the Board would announce their decision regarding the hiring of a professional negotiator.

There will be an all-staff meeting today at noon in FOR301 at which Staff Association President Steve John and SPPC Chairman Debbie Daggett will appear for further discussion of the negotiations. All staff members are urged to be present.

NOTICE OF VACANCY on the two positions open in Financial Aids have been posted on the bulletin board in ADM, and a more detailed description will appear in tomorrow's Daily. The blue application form available at the office of the Business Manager can be picked up any time and should be returned completed to that office.

JILL HEILPERN, COORDINATOR of the LCC Child Development Centers (both on-campus and in the community) was misquoted in a recent issue of the Eugene Register-Guard as saying that cuts in 4C support would not affect parents of children in our Child Development Centers. Jill wishes to correct this unfortunate misunderstanding. Actually, she has no idea as yet just how many parents might be affected by the new eligibility requirements for subsidized child care.

APPRENTICESHIP POLICIES and rules for conducting apprenticeship-related training in Oregon schools: Proposed revisions will be given a first reading at the State Board of Education meeting to be held at the Board offices Monday, January 22, starting at 9 a.m.

IN KEEPING WITH Dr. Parnell's oft-quoted dictum: "All administrators should teach from time to time because teaching and learning are the only reasons for the existence of everyone involved in education," about a dozen members of the State Department of Education are returning to the classroom this term:

. . .Willard Bear, Director of Accreditation and Certification, is teaching a 3-week course in creative reading in two Salem schools, McNary High and Whiteaker Junior High

. . .Les Adkins, Director of Student Services, is working with counselors at Crescent Valley High in Corvallis

. . .Leonard Kunzman, Director of Career Education, is serving on the staff of Portland Community College

A PRIDEFUL MEMO from Jack Kreitz reminds us that The Daily has not yet told of the happy conclusion of Cecile Edmiston's experience getting her name properly noted on the President's List for Fall Quarter. Seems by some happenstance her name was omitted from the list as published in the Register-Guard; and, as all who know her are aware, Ceil has a low boiling point. She stormed into the President's office the morning after that list was published and wanted to know, "How come?" While this point was being straightened out at Helen Haynie's desk, the alert ear of David Butler caught the hint of a "story." Consequence? Our volatile Ceil is becoming a local celebrity. The paper Jack sent us was the "Springfield News" of January 15, with a 4-column feature on page 1 captioned: "She finally got credit for all A's." David had it all in there. . .even an account of Ceil's musical talents, which are so well-known on campus.

And, notes Business Department Chairman Kreitz, "she's one of our girls."

BEGINNING WITH THE second week of the Winter Quarter, the Special Training Programs office in the Apprenticeship Building will be open Monday through Thursday, 5:30 to 9:30 in the evening to handle services formerly provided by the Admissions Office and the Business Office evening personnel. The Special Training Programs office will be equipped to handle all late admissions, registrations, dropouts, add-ons, withdrawals, collection of fees, and general information for the Evening Program.

SOME FURTHER NOTES from President Schafer's report on last week's meeting of the Community College Presidents:

... State Department of Education is developing a paper on allocation of preparatory and vocational programs

... instructor and course approval procedures are being updated and should be ready for review shortly

... the question of whether community colleges should join the public schools in PERS or go it alone was discussed; as things stand at present, there is some advantage in the community colleges maintaining a separate status because the median age of staff in the community colleges is somewhat below that of the public schools; therefore, the community college system will participate in PERS as a separate entity.

Published daily Mon.-Fri. a.m.

Deadline for the following  
day's issue: 3 p.m.

PEOPLE AROUND CAMPUS are talking about the excellent job David Butler did with his first issue of Feathers. He's pulled together a lot of bright, newsy articles about staff, students, and events on campus, and combined it with a lot of information about the college which will make the paper valuable to just about anyone in the education district.

In an article on "Nadine Hack: Grease Monkeyette" David speaks of LCC as "an institution known for encouraging career training for both sexes in all programs." Leaving a meeting at UofO campus, where we were briefed on the recently enacted amendments to the Higher Education Act of 1965, we thought of that; and of Marston Morgan speaking to the Board at the meeting of January 10, and saying that LCC was "developed primarily to provide educational opportunities not readily available elsewhere. . . ." And to tell the truth, your Editor was just a bit depressed. Federal support of education, particularly the kind represented by LCC, looks just a bit bleak at the moment. So much funding authorized, and so little appropriated!

Bob Wynia, who has joined the State Department of Education as Coordinator of Federal and Temporary Programs, was here to describe changes in the structuring of DHEW (Department of Health, Education and Welfare) and to analyze those provisions of interest to postsecondary education. Particularly, he recommended that all of us with an interest in education be aware of and follow the actions taken by:

. . . the National Institute of Education, which will comprise the National Center on Educational Communication, the National Center on Educational Research and Development, the Experimental Schools program, and some components of the Career Education Program. Under the Education Amendments of 1972, the NIE "was established to provide leadership in the conduct and support of scientific inquiry into the educational process."

. . . the Postsecondary Education Commission. Under the new amendments, each state is required to set up a Postsecondary Education Commission to serve as the administering agent under the law. Governor McCall has designated the Educational Coordinating Council to fill this role in Oregon.

. . . the federal Appropriations Committee, on which that tough fighter and courageous friend of education, Edith Green, is now serving.

LAST NIGHT'S REGISTER-GUARD notes "apparent discrimination" in the administering of retirement funds under PERS. "Retired women state employees get less money in their Public Employees Retirement System annuity checks than men," the Guard article states, "and they put the same amount in during their working years."

The news item concerned the appearance of Eleanor Meyers, director of Oregon's Women's Equal Employment Opportunity Division in the Bureau of Labor before the Senate Committee on Consumer and Business Affairs. A bill before that committee would change the present law to use the same life expectancy figure for both men and women employees. Senator Keith Burbidge, sponsor of the bill, notes that actuarial tables presently in use lump women workers with non-workers; and may for this reason be presenting a false picture of life expectancies.

THE NEW TELEPHONE BOOKS are available in the Mailroom; and BRING will pick up old telephone directories from the college, if we collect them in some central spot. Therefore, College Facilities is asking that, when you come to pick up your new directory, or directories, you bring your old one(s) and leave them for recycling.

You'll find everything stacked and ready beside the Xerox machine.

DUE TO PRESSURE of work and lack of help, the Library will discontinue carrying printouts of new legislation introduced during this session. They will be obtainable, as before, in the Office of Community Services. Any member of the campus community wishing to consult these documents is welcome to visit OCS and work with them as long as he wishes.

This seems a good time to mention also that there is a considerable body of source material on legislation and funding opportunities available in OCS. Most of it cannot be taken away from the office; but any student or staff member may work with it at the office at his convenience.

ORIENTATION SESSION for the Miss Lane County Scholarship Pageant will be held Wednesday, January 24, at 7:30 p.m. at 735 East 21st, Eugene. Entrants must be between 18 and 28, citizen of U.S., resident or student in Lane County, never been married, and be a high school graduate by September of this year. The awards will be: \$500 to first winner, \$200 to the second, and \$100 to the entrant placing third. Participation in the pageant, which is scheduled for March 17, is limited to 10. Deadline for entry is February 2, eliminations to be held on February 4. For further details, call 896-3267.

AGENDA FOR THE Board Work Session to be held at the AshLane Apartment complex:

- . . .6 p.m. Board will dine with officials of AshLane, during which AshLane will respond to the various questions which have been posed both by Board members and by students. Following dinner, there will be a short tour of the units.
- . . .7:30 Board discussion with interested citizens, to be held in the Common Building at Pheasant and Lindale. After the general discussion, there will be a continuation of the discussion on Long Range Planning.

AT LAST THURSDAY'S Instructional Council, Larry Murray presented a memorandum on the Process for Program Evaluation, Addition and Deletion developed by the Program Evaluation, Addition and Deletion Committee. In part, his report read: "Program evaluation is difficult, and as a consequence, programs should be evaluated in the most objective manner possible. To do this would require that an appropriate process be established." Suggested alternatives, to be selected by the department, were listed as:

...an independent lay advisory committee(s), each including 2 professional staff appointees of the President, for every vocational program (class) and/or college transfer course.

...a program or course departmental self study, similar to the process used for the College's accreditation.

...a departmental request of peers from other departments to establish an internal evaluation of the program or course.

Criteria for program evaluation, once the process was identified, would include: employment needs, salary considerations, comparison with the programs and/or courses offered at other institutions, and such economic factors as revenue generated cost per FTE over 3 academic years, program/course break-even point, and direct and indirect costs involved.

LCC CAMPUS NEWSLETTER  
Published daily Mon.-Fri. a.m.

Deadline for the following  
day's issue: 3 p.m.

OREGON COMMUNITY COLLEGES will again take part in a statewide effort to inform Oregonians on how to benefit from the Howeowners' Property Tax Relief Law. A meeting was held in Salem on January 8 to bring participating personnel up-to-date on changes in the law.

DIVISION A, under Associate Dean of Instruction Gerald Rasmussen, will hold at least one Division Council Meeting per month for the remainder of the academic year. Meeting scheduled for the rest of the Winter Quarter:

January 25, 1:30 p.m. - Board Room  
February 8, 1:30 p.m. - Board Room  
March 8, 1:30 p.m. - Board Room

Other meetings will be scheduled as the need arises.

LCC'S DISPLAY RACKS and their multi-colored fliers about instructional programs have caught the attention of the Pacific Northwest District of the American College Public Relations Association (ACPRA). The displays, which are being placed in the 23 District high schools and other public places, will be the topic of a special discussion session at the ACPRA annual conference February 2 at Coeur d'Alene. Larry Romine, Director of Information and Publications, will describe the project, which was inspired by President Schafer and Dean Carter and implemented by such Printing Graphics stalwarts as Don Johnson, Edna Clement, and Nancy Paulus. Anne Stewart is the leggy, fast-moving staffer who sees that the racks are kept filled.

As readers of The Daily are probably aware, Larry is in the forefront of the ACPRA membership striving to bring community college representation on a par with that of 4-year colleges in the organization. His shot at editing the ACPRA publication, The Relator, last fall was a "first" and the very favorable reception it received is a triumph for all public relations people working in the community college field as well as for Larry. We've been holding a congratulatory letter from Chuck Charnquist, Director of Public Information at Lewis and Clark College, Portland; and this seems the propitious moment for sharing it:

Dear Larry,

Great job on the latest edition of The Relator!

It's a super example of getting maximum communication mileage out of a minimum budget.

And the message is well taken. Shame on those of us who failed (yes, and even sometimes refused) to recognize the share community college people are taking in the vital role of relating higher education to the public. I for one would like to hear much, much more from community colleges at upcoming ACPRA functions.

The organization has done a disservice by giving the community colleges a "poor relative" treatment. Your edition of The Relator should forever dash any such attitudes and should foster enthusiastic inclusion in future ACPRA affairs. . . .

YESTERDAY'S CABINET meeting was given over almost entirely to a discussion of what appears to be a downward trend in college enrollment throughout the country and, in particular, what such a trend portends for LCC. Dean Carter noted that, at this time and at LCC, there seems to be a leveling process taking effect: as interest in transfer programs declines, the career education programs are showing a corresponding increase in enrollments. President Schafer noted that, much as he appreciated this trend, it could not be expected to show a favorable reaction in the college's fiscal picture. Staff Association President Steve John wondered if the college were sufficiently responsive to the needs and desires of prospective students; and, following this train of thought, Larry Murray suggested it might be desirable to speed up the process of changing curriculums.

LCC CAMPUS NEWSLETTER

Ed. Lisl Fenner, Ext. 337  
Deadline for the following  
day's issue: 3 p.m.

"Historically, one set of committees in the House and Senate creates programs and another set actually provides the money for them. The political incentive for a member of an authorizing committee is to pass bills with big price tags—and much publicity—to show he 'cares about solving problems,'" said Elliot L. Richardson, former Secretary of Health, Education and Welfare, in a final report on his stewardship (he has been nominated Secretary of Defense).

Richardson explained that the figures on the authorization price tags are higher than anything the President can in good conscience request, and higher than appropriations committees are willing to provide. He said that this results in an "authorization-appropriation gap."

"For the public, the authorization-appropriation process has become, in a sense, a shell game. Hopes are raised by attention to the authorizing hoopla, only to be dashed by the less flamboyant hand of the appropriations process," Richardson noted.

Secretary Richardson might have added that the name of the third walnut shell is "impound." It works like this: Authorize \$20 million, appropriate \$3 million, and "impound" \$1 million.

ANOTHER QUOTATION OF interest to all of us involved with education, this one from Leon Contos, senior editor of Saturday Review, which was recently split into four separate publications devoted to Education, Art, Science, and The Society: "During the past two decades, the U.S. has increasingly become a knowledge society," he said. "One half of the output of U.S. society will be in the knowledge industry. How do you communicate to a society that is increasingly interested in knowledge and its acquisitions? How does a knowledge-hungry society get satisfied? Audiences have become increasingly differentiated, and so," Mr. Contol concludes, "publications have to change to appeal to the different interests of society."

A SYMPOSIUM ON Large Group Instruction is to be presented at De Anza College, Cupertino, California, on March 2 and 3. Outstanding LGI instructors from the California Community College system will be present demonstrating techniques that work; and there will be discussions of such topics as media utilization in LGI, cost effectiveness of LGI, stage presence, and small groups and individualization. For details, see bulletin posted second floor ADM.

A NOTE FROM Laura Oswalt, Student Health Nurse, thanking us for printing Governor McCall's proclamation making yesterday National School Nurse Day. "We like to feel we are important to the learning process," she says, "not merely the band-aid applier!"

IF YOU'VE BEEN reading about the Reverend Jim Coppedge, pastor of Asbury United Methodist Church, and his clashes with the law, and you've been wondering. . .well, you're right. The Reverend Jim is indeed Bev Coppedge's husband.

Jim Coppedge has been working two-and-a-half years trying to get public support and legal changes for what he feels is a great inequity in the law. He holds a bachelor's degree in Psychology, and a Masters' in Theology. If you support his views - "Equal privileges or equal punishment" - he suggests you call your District Attorney and let him know how you feel.

THE LATEST FROM Karen: Two letters posted on the bulletin board in the Language Arts Department office keep us informed on the adventures of LCC's girl in Old Blighty: Christmas in Bunratty Castle, the medieval walled city of Dubrovnik. . . In their ardent desire to omit no opportunity for adventure and experience, Karen says, she and Paul are giving the family exchequer a beating. They expect to leave England for home sometime around July 10. . .possibly, she hints, via Old Inner Tube.

Just let us know when you plan to hit the briny, Karen, and we'll hang out our sea-lamps.

HELEN HAYNIE HAD a cutie in yesterday's mail: four pieces of promotional literature, all from the same firm, were delivered for Dr. Dale Parnell, Dean Bill Hein, Dean "Bud" Hakanson, and "Slats" Obitz. Wonder where they got their mailing list?

FRAN THOMAS, instructor in the Department of Health & P.E., teaches a class in consumer health. She became so interested in the subject, that she asked for and obtained a small allocation (\$50) from the department budget for instructional materials to pursue her inquiries. The original \$50 and a subsequent exchange of letters with the regional office of FDA Fran has parlayed into as fascinating a collection of curiosas as can be imagined:

Item: Ellis Micro-Dynameter, a most impressive electric device with knobs and levers and graduated scales which purports to be an effective treatment for cancer. Actually, it just delivers a low-level electric shock.

Item: An even more awesome machine housed in a teal-colored cabinet and equipped with a sort of electric tuning fork and a metal plate. By grounding himself with the metal plate, the patient uses the tuning fork to deliver slight electric shocks; he can even choose the level he fancies most palliative. And the claims made for this all-purpose home health treatment center indicate that it will cure more human ills than Dr. Gruesome's Genuine Guaranteed Original Snakebite Potion.

Items (various): Bust Developers. . .some mildly, some wildly hilarious.

Item: "Calories Don't Count," sold in conjunction with bottled safflower oil. The author of this optimistic volume went to jail for writing it.

In fact, according to Fran and Dick Newell, who showed your editor around the collection, all of the inventors, developers, and promoters of these machines, unguents, publications, etc., wound up in jail, since their presence in the collection indicates seizure by agents of FDA. The most impressive items in Fran's collection (described above) were delivered this morning to the Health and Physical Education Department from the office of Joan Bergy, FDA Consumer Specialist for Region X, in

Seattle. Ms. Bergy is coming to LCC campus on Friday, February 2, in response to Fran's invitation, to make three 20-minute video tapes covering three aspects of the consumer education field:

- 1/ The structure and function of the FDA
- 2/ Consumer problems affecting college students
- 3/ How to recognize quacks and frauds, and what action to take

Taping will be done in the Health Education classes, which are for students of those classes only; however, the tapes will later be made available for use by other groups on campus.

KEN OMLID, LANE County Commissioner, will appear as Moderator for the two programs on "Project Foresight" to be presented next Tuesday. There will be a morning program, starting at 9 o'clock, in FORUM 309; and an evening program, starting at 7, in the Board Room.

In his kick-off speech at the Portland-Sheraton last October, Secretary of State Clay Myers said:

I agreed to accept the assignment as Chairman of the Council Steering Committee. . .for three basic reasons; 1/ I believe in the need for land use planning. . .; 2/ I knew that Project Foresight was going to attempt a revolutionary approach, never tried anywhere before, with an effort to get people actively involved in an "alternative futures" approach to planning; 3/ I have made my home for most of my life in the Willamette Valley, and I recognize that if we are to succeed in "saving" Oregon, that success will have to be centered in the Valley, our great heartland where 70% of us now live, and which is the certain target of future immigrants to this state.

Through the "alternative futures" approach, the Secretary said, the people of the Willamette Valley will be actively involved in deciding for themselves how they want the Valley to look in 30 years. Two basic tools were prepared, a slide show and a book, and teams of Council members and staff have been touring the Valley since October presenting the alternative futures approach, hoping by this means to stimulate public awareness of the problems and decisions involved in planning the growth and development of the Willamette Valley for the next three decades.

The morning program is planned primarily for students and staff; all members of the community concerned with the problems of unplanned growth are invited to the evening program.

READING MR. PASEMAN'S account of the somewhat heated discussion of the proposed Skills Center in Florence which occurred at Wednesday evening's Board Work Session in the AshLane student housing complex reminded us that we had still to correct a rather serious misstatement in Mr. Paseman's report in the January 12 issue of Eugene Register-Guard. Mr. Paseman's article concludes:

From an analysis aimed at developing a "specific strategy for identifying the needs of the college district," Morgan said it was determined that the western Lane County area seemed "to be getting the least educational services or...had the most critical unemployment and other social problems."

Thus," he said, "it was decided to recommend that area for the first planning priority." He noted that the federal Overall Economic Development Program is studying the same area "for these same reasons." (LCC has a grant from that agency to help finance an educational skills center in the Florence area.)

When LCC was consulted by L-CUG in January 1972 for its input into the Overall Economic Development Program proposal for Lane County, we wrote a proposal for a construction grant for a Skills Center to be built on a 20-acre site adjacent to the high school facility of the Siuslaw School District in Florence. Our proposal reads: "Upon completion of the Florence project, similar proposals might be made for the cities listed (in the title) 'subsequent centers.'" Subsequent centers were listed, in order of priority: Oakridge, Junction City, Cottage Grove, McKenzie Valley, Downtown Eugene, and Downtown Springfield.

Contrary to Mr. Paseman's statement, there has been no announcement of any grant award under OEDP.

SEVERAL INCIDENTS HAVE been reported of the theft of handbags from desks and offices. Female students and staff personnel. . .in fact, all members of the campus community who carry valuables in an easily accessible "tote". . .are urged to be aware of the danger and take proper precautions.

My Administrative Assistant, Bert Dotson, will start his 10th year of service to LCC this Thursday, February 1. This makes him the College's oldest employee. . . in terms of service, that is! Bert joined the staff before there was a college, back when he was assigned by the Eugene and Springfield school districts to roam around the county to find out if a college was wanted, and to set up an election to let the people decide.

Asked if there was anything he'd like to remember the occasion by, Bert said, "oh, how about a nice gold Mickey Mouse watch." But don't anyone start shopping around. . . Bert the Antiques Collector owns the only genuine, original Mickey Mouse watch I know of.

LCC WILL HOST a visit from Michael Holland, Acting Director of Admissions, Marylhurst College, tomorrow, January 31. Mr. Holland will be at the table in the Lounge Area between the Cafeteria and the Restaurant from 9 o'clock in the morning until 2, to answer student questions regarding transfer opportunities at Marylhurst.

Marylhurst College is a 4-year liberal arts college for women located about 10 miles south of Portland. Degree programs are offered in Medical Technology, Pre-Physical Therapy, Medical Social Work, Education (elementary, secondary, and pre-school), Home Economics, Music, Art, History, Psychology, Foreign Languages, Sociology, Physical Education, among others.

ARCHIE ZAREWSKI, INSURANCE representative, will be on campus today at 4.

A READER CHIDES us for quoting David Butler's interview with Nadine Hack in Feathers: "LCC is an institution known for encouraging career training for both sexes in all programs." "The only programs known to this writer for actively recruiting members of both sexes," the letter reads, "are Nursing and Home Economics (Early Childhood Education)" and notes that both of these are "female" departments. How about that!

We assume that by Nursing program our correspondent refers to all programs of the Paradental/Paramedical Department, since the recent grant under Bureau of Health Manpower Education is specifically intended to train returning Vietnam veterans. . .presumably, of either sex.

KATHY SMITH, WHOM many on campus will remember as one of the President's Office complex a year or so back, stopped last Thursday to say "good-bye." Kathy is off to Chicago to train as an airline hostess with United.

SID AUSTIN IS being interviewed by Dan Sellard of Register-Guard today, for a Lincoln's Birthday feature.

JAN JOHN, Information & Publications secretary and radio personality, has learned anew about the impact of the broadcast media. On her Friday "LCC Today" show on KUGN, she reported about an impending discussion of "Godfather" and "Deliverance" in a new film class. On Monday she received a call from a Paramount official in Seattle, who demanded to know from whom the films would be rented for the class. Her caller was advised that the films were only to be discussed, not screened. That satisfied him. Meanwhile, Jan is still in awe at the news that, when she closes with "have a nice day," she is telling everybody between here and the Puget Sound.

THE DAILY APOLOGIZES: Our report on Jan Brandstrom's presentation to the Cabinet of her paper on the status of women will appear tomorrow, along with several other news items that have accumulated. Between the pressures of our own office work and handling arrangements for the Staff Theatre Party, we've simply run out of time. For now, we'll just say that Jan's presentation was well received and the ensuing discussion brought out a few points which will, we believe, be of interest.

A very few tickets remain for Friday's affair; but they're going fast.
