**NEW OFFICERS**--Last Thursday at its first meeting of the school year, the Faculty Council elected Roger Jay, Mathematics, as vice chairman; Marjorie Bassett, Health and P.E., as secretary, and Ted Romoser, Language Arts, as parliamentarian. Jim Bacon, Language Arts, is the president of the organization. In other business, the Council formed an ad hoc committee to study the proposed College Master Plan, voted to conduct a survey to determine the concerns of part-time teachers, and agreed to meet informally with the Board of Education on Nov. 10 from 7 to 8 p.m. Faculty members who wish to participate in this informal session should contact their Faculty Council delegate, or call Jim Bacon, ext. 285, before 3 p.m. Wednesday, Nov. 3.

**OFFER HELP**--If someone looks confused. Today is registration for Six Week Classes which run through Dec. 10. To register, students should go to the Registrar's Office in Room 201 of the Center Building. A complete class schedule appeared in the Oct. 27 Register-Guard and copies are available at the Information Desk in the Administration Building.

**BEGINS TODAY**--"The Book Through the Ages" is the title of the exhibit in the Mezzanine Gallery in the Library. The show, which surveys the book arts (typography, binding and illustration) with examples from the earliest periods to modern times, went on display today.

**ALSO IN THE LIBRARY**--A show of recent watercolor paintings and graphic design by Edna Kennel-Clement will be on display and sale on the main floor of the Library from Nov. 1 through 19. Also included in the show is a display of paintings done by Edna when she was 8-to 14-years-old.

**PROGRAMS CONSIDERED**--The Office of Instruction Curriculum Approval Committee will meet at 5 p.m. today in Administration 202 to consider revisions to the Flight Technology program and a new program in Community Services. Program developers and department heads are urged to attend.

**OSU VISITS**--Representatives of Oregon State University will be on campus Wednesday, Nov. 3, to talk with prospective students. The OSU people will meet with students in the Foodservice area.

**RECYCLING DROPS**--Various receptacles are located around campus by the Student Resource Center to aid in paper recycling. The students hope to have paper recycling receptacles in every office soon. BRING also has receptacles in the parking lot for bottles, glass, etc. for recycling.

**RAPE INFORMATION**--The Associated Lane Interagency Rape Team (ALIRT) has just published an "Information Packet for Teachers." The packet contains lesson plans, prevention tips for males and females, handouts on the myths of rape, and other information pertinent to all students. The packets are available through the Women's Center, ext. 350 or 391. They are free. And by way of introduction, the Women's Center ask that the following be reprinted.

## **"WAS HE ASKING FOR IT?"**

Recently, *Harper's Weekly* carried an item from the American Bar Association *Journal* declaring that few rapists are punished for their crime: only one in five rapes is reported and only one out of eight reported rapes ends in conviction. In a dialogue to demonstrate why most rape victims prefer not to press charges, the article asks us to imagine a robbery victim undergoing the same sort of cross-examination that a rape victim does:

"Mr. Smith, you were held up at gunpoint on the corner of First and Main?"

"Yes."

"Did you struggle with the robber?"

"No."

"Why not?"

"He was armed."

"Then you made a conscious

decision to comply with his demands rather than resist?"

"Yes."

"Did you scream? Cry out?"

"No. I was afraid."

"I see. Have you ever been held up before?"

"No."

"Have you ever given money away?"

"Yes, of course."

"And you did so willingly?"

"What are you getting at?"

"Well, let's put it like this, Mr. Smith. You've given money away in the past. In fact you have quite a reputation for philanthropy. How can we be sure you weren't contriving to have your money taken by force?"

"Listen, if I wanted--"

"Never mind. What time did this holdup take place?"

"About 11 P.M."

"You were out on the street at 11 P.M.? Doing what?"

"Just walking."

"Just walking? You know that it's dangerous being out on the street that late at night. Weren't you aware that you could have been held up?"

"I hadn't thought about it."

"What were you wearing?"

"Let's see--a suit. Yes, a suit."

"An expensive suit?"

"Well--yes. I'm a successful lawyer, you know."

"In other words, Mr. Smith, you were walking around the streets late at night in a suit that practically advertised the fact that you might be a good target for some easy money, isn't that so? I mean, if we didn't know better, Mr. Smith, we might even think that you were asking for this to happen, mightn't we?"

**ELECTION DAY--**The time has come to make a decision. Be sure to find time today to visit the polling place in your precinct. LCC has a tax base election on the ballot, as does Linn-Benton and Treasure Valley Community Colleges. LCC's tax base election measure is No. 14 on the rather lengthy ballot. The Board of Education has indicated that if the tax base is approved by voters, LCC would not need to ask for another tax levy outside the six percent limitation for at least two years.

**UNDER WAY--**The first of the multimedia first aid training sessions will be held this afternoon and tonight. It is hoped about 100 staff members will complete the first aid and CPR training during the available sessions. Once the staff members have completed the training, LCC will be the safest community college campus in the nation on which to have a heart attack--at least one person in every area should be knowledgeable in correct treatment procedures.

**INSURANCE QUESTIONS--**Archie Zarewski will be on campus at 2 p.m. today. Call (ext. 258) or come by Personnel Services if you would like to talk with him.

**NEW SANDWICH, NEW HOURS--**The snack bar has begun this week selling Souvlaki sandwiches. The Greek sandwich is made with pocket bread filled with meat, onion, parsley, tomato and a special cucumber-yogurt sauce. The snack bar people recommend it. The snack bar is now open for breakfast, coffee and donuts from 7 to 10 a.m. weekdays. It then reopens from 10:30 a.m. and remains open until 9:30 p.m. The cafeteria opens at 7:30 a.m. for breakfast, coffee and donuts and closes at 10:30 a.m. The cafeteria reopens at 11 a.m. and remains open through 1:30 p.m. for lunch.

WEDNESDAY  
November 3, 1976

**GOOD NEWS FOR LCC--**Voters gave LCC a new tax base at yesterday's election -- by a margin of 56 percent yes. The unofficial total was 56,576 yes votes to 42,741 no. LCC is the only school district in Lane County to get voter approval of a new tax base in the last 18 years -- and we've done it three times. The tax base will allow the College to operate two years without asking voters for a tax levy.

Most of the other race outcomes are old news by now but two community college tax base elections might be of interest. Linn-Benton won its bid for a new tax base but Treasure Valley will have to wait a while to know the results of its election. As of 7:30 this morning, a spokesperson at that school said "the election is still too close to call."

**ON CAMPUS--**Oregon State University representatives are at LCC today talking with students. The OSU people are in the Foodservice area until 3 p.m. The University of Oregon representatives will visit campus on Monday from 10 a.m. to 2 p.m. They will also be the Foodservice area.

**INSURANCE BOOKLETS--**Pamphlets explaining the new Aetna insurance coverage have arrived in Personnel Services. The booklets may be picked up in that office on the first floor of the Administration Building.

**PAYROLL DEADLINES MOVED UP--**Payroll change requests received prior to Nov. 10 will be processed time for the change to be reflected on the November worksheet. The cut-off date for processing payroll action requests is the 17th of this month. The deadlines have been moved up due to the Thanksgiving holiday.

**NEW ART SHOWS--**Twenty-seven women will display art works in all medias during the Women's Art Exhibit Nov. 5-23 in the LCC main gallery. A reception will be held for the exhibiting artists from 8 to 10 p.m. on Nov. 5. The public is invited to attend. "The Book Through the Ages" is the exhibit currently on display in the Mezzanine Gallery of the LCC library. The exhibit will close Nov. 19.

**WHAT'S FOR LUNCH--**The cafeteria menu for today includes Italian spaghetti with meat sauce, breaded veal cutlet with cream gravy; the vegetarian entree is President's vegetable loaf, and the snack bar features breaded veal with cream gravy.

### \*\* LONGEVITY \*\*

Comparative gains in longevity, 1900 - 1973: While American men were extending their average life span by 21.3 years, American women extended theirs by 27 years.

### \* THESE CORONARY RISK FACTORS ARE CONTROLLABLE \*

1) Smoking, 2) high blood pressure, 3) elevated cholesterol, 4) elevated triglycerides, 5) overweight, 6) lack of regular substantial exercise: all of these factors can be controlled with diet and exercise. (RN, Sept, 1976)

### \*\*NEUROSIS? NO, CAFFEINE \*\*

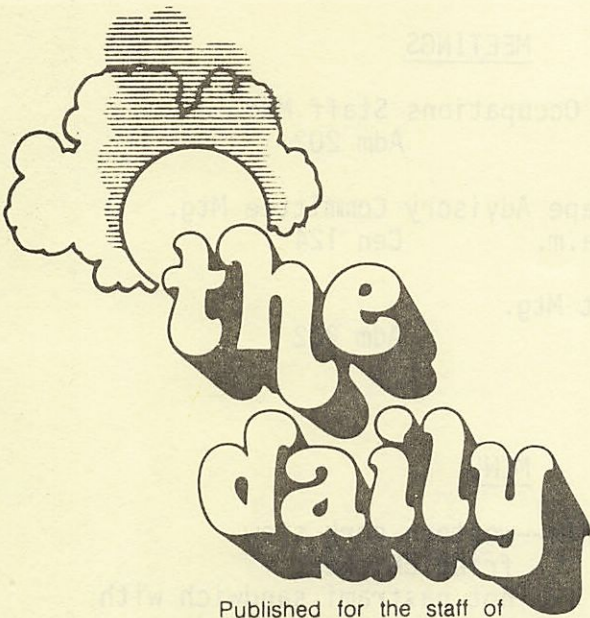

The patient is feeling anxious, not sleeping well; his hands shake slightly. Before discussing his nerves, ask how much coffee, tea and cola he drinks. High doses of caffeine can produce central-nervous-system symptoms that are essentially indistinguishable from those of anxiety attack. So reports Dr. John F. Greden, until recently director of psychiatric research at Walter Reed Army Medical Center. Over 250 milligrams of caffeine a day is considered a large amount, but a person who consumes three cups of coffee, two "headache tablets" containing caffeine, and a cola drink before lunch has taken approximately 500 mg. of caffeine.

Dr. Greden's cases of caffeinism include a nurse with a three-week history of light-headedness, tremulousness, headache and irregular heartbeat. She had been consuming 10-12 cups of coffee - more than 1000 mg. of caffeine - a day. Her symptoms disappeared within 36 hours after she stopped drinking coffee. (Adapted from Journal of the American Medical Association.)

### \*\* DRUG USE \*\*

The analysis of ten years of national hepatitis reporting (1966-1975) shows an almost ten-fold rise in drug-related hepatitis cases. In the last three years, the number of cases has declined but remains substantially higher than pre-epidemic levels. The rise began in the 60's among minority groups living in center cities of the East and West Coasts and spread during the 70's into suburbs of these cities and into metropolitan areas throughout the United States. (From American Journal of Public Health, Vol. 66: 872-877, 1976.)

**BOARD OF EDUCATION**--Without ever reaching the body of the lengthy agenda, the LCC Board adjourned at midnight Wednesday, agreeing to continue the meeting the next week. The topic receiving the most time and comment was the proposed change in staff at KLCC. The Mass Communication Dept. and the Administration has proposed replacing several present KLCC staff members with persons holding college degree and thus able to teach LCC classes. Several persons, including KLCC staff members, spoke in opposition to that reorganization. At midnight, the board ask that the item be carried over to the Nov. 18 session, and no decision was made.

Other items of discussion included: a request for a report on the concerns of part-time faculty and classified employees; an agreement to work with the South Lane School District in providing some alternatives while that district is without a budget election; passage of several course revisions and approval of a new degree program in Community Service, and the architect's presentation of the proposed aquatic center which would be constructed only if a federal grant is received.

**ENROLLMENT**--While recent media reports have indicated that enrollment in all of Oregon's community colleges has dropped significantly, actual enrollment at the 13 schools has stayed about the same as that of last year. Jack Carter, Dean of Students, says that enrollment figures at LCC show a total of slightly more than 13,000 individuals enrolled in credit and non-credit classes this fall, which is about the same as last year. Carter says that for the last several years, community college enrollments have been climbing at a fairly rapid rate but that trend appears to have leveled off this year.

**BOARD OF EDUCATION--**The LCCEF gave the Board notice last night that it plans to file formal grievance procedures against the College on two issues concerning the termination of five present KLCC radio station staff members. The Administration had terminated the staff to make way for hiring persons able to teach LCC classes as well as operate the FM station. The Board did vote to consider the input of the persons who spoke during the three hour session when writing new job descriptions for the positions.

In other business, the Board agreed to locate an information and service desk at the Valley River Center on a six-month trial basis to provide more access to the College. The proposed booth will open prior to winter term.

And, David Redfox and Beverly Ficek were appointed to the College Budget Committee.

**UNITED WAY--**Mark Rocchio reported to the Board Wednesday night that LCC has passed its goal of \$6,000. So far, \$6,100 has been collected. He indicated that that is about a 20-25 percent increase over last year. Good work.

The Student Health Service learned this week from Jim Beyer, County coordinator for the Swine Flu clinics, that a second dose of monovalent vaccine will be necessary for those in the 18-24 age group. The second dose is given a minimum of 30 days from the first, and arrangements are being made for these to be given at LCC shortly after the first of the year.

# IMPORTANT INFORMATION ABOUT SWINE INFLUENZA (FLU) VACCINE (MONOVALENT)

## The Disease

Influenza (flu) is caused by viruses. When people get flu they may have fever, chills, headache, dry cough or muscle aches. Illness may last several days or a week or more, and complete recovery is usual. However, complications may lead to pneumonia or death in some people. For the elderly and people with diabetes or heart, lung, or kidney diseases, flu may be especially serious. It is unlikely that you have adequate natural protection against swine flu, since it has not caused widespread human outbreaks in 45 years.

## The Vaccine

The vaccine will not give you flu because it is made from killed viruses. Today's flu vaccines cause fewer side effects than those used in the past. In contrast with some other vaccines, flu vaccine can be taken safely during pregnancy.

One shot will protect most people from swine flu during the next flu season; however, either a second shot or a different dosage may be required for persons under age 25. If you are under 25 and a notice regarding such information is not attached, this information will be provided to you wherever you receive the vaccine.

## Possible Vaccine Side Effects

Most people will have no side effects from the vaccine. However, tenderness at the site of the shot may occur and last for several days. Some people will also have fever, chills, headache, or muscle aches within the first 48 hours.

## Special Precautions

As with any vaccine or drug, the possibility of severe or potentially fatal reactions exists. However, flu vaccine has rarely been associated with severe or fatal reactions. In some instances people receiving vaccine have had allergic reactions. You should note very carefully the following precautions:

- Children under a certain age should not routinely receive flu vaccine. Please ask about age limitations if this information is not attached.
- People with known allergy to eggs should receive the vaccine only under special medical supervision.
- People with fever should delay getting vaccinated until the fever is gone.
- People who have received another type of vaccine in the past 14 days should consult a physician before taking the flu vaccine.

*If you have any questions about flu or flu vaccine, please ask.*

## REGISTRATION FORM

*I have read the above statement about swine flu, the vaccine, and the special precautions. I have had an opportunity to ask questions, including questions regarding vaccination recommendations for persons under age 25, and understand the benefits and risks of flu vaccination. I request that it be given to me or to the person named below of whom I am the parent or guardian.*
