LAST CALL--Anybody need a photo for the catalog? It's late already. Call or drop by College/Community Relations (first floor of the Administration Building) this week. Thanks.

DIRECTORIES--The new staff directories should be in your office. If you need more, drop by College/Community Relations.

HONOR ROLL--A total of 1,976 students (an appropriate number for the last term of the Bicentennial year), including 328 with perfect 4.0 averages, were named to the fall term honor roll. Of the total, 699 are on the President's List (3.5 to 3.99) and 949 are on the Dean's List (3.0 to 3.49). Last fall only 1,112 students were on the honor roll, even though the total number of students was about the same.

DEVELOPMENT OFFICE NUMBER--The telephone number of the Development Office at the downtown Montgomery Ward building is 484-2123, ext. 210. Make a note in your directory.

TECHNOLOGICAL INNOVATION MONEY--The Technological Innovation in Education Program of the National Science Foundation will support the exploration, development, and evaluation of: (1) computer and related communication technologies and techniques; (2) computer-based concepts, applications, and courseware (instructional material); and (3) prototype computer-based systems for effective and efficient instruction. Submission is open. For more information, call Lisl Fenner, ext. 334.

A MESSAGE FROM PRINTING/GRAPHICS--Production in Printing/Graphics Services is in high demand at this time. They have a system of calling every order as it is completed and placed on the pick-up shelf. If your work is not on the shelf it is not yet completed. Please make sure that messages from the printshop are getting through to the person in your department responsible for picking up print jobs. When you call to find out if work is completed you are taking a production person away from completion of someone's work order. Calls to Printing/Graphics are at a nuisance level. The shop begs your patience and understanding.

CLASSIFIED ADVERTISING POLICY--Ads are printed free on a space available basis for part and full-time employees and students. Ads must include the first and last name and department of advertisers. Ads for ongoing part or full-time businesses cannot be accepted. The Daily editor is the judge of what will be accepted; appeals in writing may be made to the College President.

TUESDAY  
January 4, 1977

REGISTRATION CONTINUES--The gym foyer was a busy place yesterday with new students registering and returning students adding and dropping classes. The registration for new students will continue throughout this week. Enrollment as of last Friday was 5,681 students in credit classes (that figure does not include Community Education classes). The winter term enrollment is down about 500 from fall term and down about 400 students from winter term last year. Dean of Students Jack Carter said it appears the major drop in enrollment is in evening credit classes rather than day enrollment.

INSURANCE--Archie Zarewski will be on campus Wednesday at 2 p.m. to help with insurance problems. Call Lorraine at ext. 258 for an appointment.

NOTE CHANGE--Bud Proctor reports that the home phone number list for him in the new directory is in error -- the correct number is 998-2543.

BOARD OF EDUCATION--The Board will meet Wednesday in the Boardroom to meet with part-time personnel. Part-time classified staff are welcome to discuss their concerns with Board members from 7:30 to 9 p.m., and part-time faculty can meet with the Board from 9:15 to 10:30 p.m. Anyone is welcome to attend.

MISPRINT--Aetna Health Insurance booklets contain a misprint. Dependents of classified and management employees do not have physical examination coverage. For questions or further explanations, call Lorraine, ext. 258.

ANSWER--To receive an answer from the Answer service, one must include his or her name on the form. The identity of the questioner will be kept confidential but without a name, a reply cannot be made. Forms for Answer and more information about the program are available at the Information Desk (first floor of the Administration Building).

The four most important words: "What is your opinion?"

The three most important words: "If you please."

The two most important words: "Thank you."

The one most important word: "We."

**PRIZEWINNERS**--David Joyce (black and white) and Sharon Clancy (color) are the \$100 award winners in the Photography Contest. Second place of \$50 went to Laurelee Mangers (black and white) and Sajean Eng (color) and third place of \$25 was received by Susan Klein (black and white) and John Kocker (color). Professional newspaper and portrait photographers made the selections. The Development Fund helped to supply to the award money. Honorable mention certificates went to Steve Miller, Jeffrey Hayden, Dei Zumwalt, and Cheryl Shrum in the black and white category, and Sajean Eng, John Kocker, Mitch Stepanovich, and Peg Crockett in the color category.

**OKAY WHO CHANGED THE MONTH?**--This editor has been very conscientious about remembering the year is 1977, but somehow yesterday she managed to get the wrong month at the top of the Daily. Maybe it is one of those situations where you can't win...

**ANOTHER PHONE CORRECTION**--Lisl Fenner's home phone number is 484-0134 not 343-7054 as listed in the staff directory. Please make the correction.

**COLLEGES TO VISIT**--Oregon Institute of Technology representatives will be on campus Jan. 12 from 10 a.m. to 2 p.m. in the cafeteria. And Oregon State University representatives will meet with prospective students Monday, Jan. 24, from 9 a.m. to 2:30 p.m. in the cafeteria.

**BLOODMOBILE**--Twenty-two donors are needed to donate blood when the Bloodmobile visits campus Monday. Call the Science Dept., ext. 381, to make an appointment.

**EVERYBODY LOSES**--The Oregon School Board Association publication "Outlook and Review" points out that the whole town loses when schools are forced to close for lack of a tax levy. Eagle Point has noted that teachers resign, many students leave the community, other students just leave school, and business activity has dropped off in several areas of the community and particularly hard hit is the housing industry. Students are not the only losers when school close.

**ENROLLMENT**--Figures for winter term (as of last Friday) show 6,425 students have registered in credit programs. Dean of Students Jack Carter indicates that that number will probably increase to a total of 6,725 students this term. That compares with 7,066 students fall term of this year and 7,315 students winter term a year ago.

The state figures enrollment for financial purposes on FTE (45 credit hours or 680 clock hours equal one FTE per year). Last year's actual reimbursable FTE totaled 7,522. This year's projected FTE is expected to be between 7,300 and 7,350, or a decrease of about 2.3 to 3 percent in FTE from last year.

**DIRECTORY CHANGES**--Wilner Moon was left out of the staff directory. He should be included under the Business Department and in the alphabetical listing. **BOARD OF EDUCATION**--Plans for a swimming pool at LCC appear to have sunk after the Board learned that the construction project failed to receive a sought-after federal grant. The Board stopped further development of plans for the PE and aquatic center since federal Economic Development Act funds were not awarded to the project. The architect was paid with the plans about half complete, and it appears the project will be shelved unless another source of funding is found.

The board also voted to refuse to voluntarily recognize part-time High School Completion and Adult Basic Education instructors as a collective bargaining unit. The faculty group now has the option of having a hearing and election to determine formation and representation. (The hearing is scheduled for Thursday, Feb. 3, at 1 p.m.)

Other items receiving Board attention included approval of a Board policy concerning employment of family members and of the academic calendar for 1977-78; and acceptance of resignations from Patrick Fraleigh, Counseling, effective March 15, and Randy Mafit, archives, effective Feb. 11. Randy indicated he would go to work for Lane County.

The Board also ask President Schafer to appoint a part-time faculty member to attend a Feb. 7-9 conference in Dallas, Texas, on Part-time Instructors in the Community College.

**DIRECTORY CHANGES**--It is now getting to the point where we are publishing the corrections to the corrections. So...in an upcoming Daily we will print all of the corrections made thus far to the directory so you can cut that part off and paste it on the back cover of the book. (We wonder if Ma Bell has these problems.) But for today, Mary Jeanne Jacobsen's listing should include extension 326 and 327 (not 325 as listed in yesterday's Daily) as well as extension 201 already listed in the directory. And she should be listed under the Office of Instruction as well as alphabetically. Bob Hoffman, Financial Aids clerk, ask that we include his name since he was employed after the directory was published. His campus extension is 225, and his home is at 2022 S. Shasta Loop, Eugene, and telephone, 485-0180.

**STUDENT SEGUE**--The January Segue Performance is today at 11 a.m. in the Performing Arts Theatre. A clarinet trio, vocal solo, and flute duet are among the entertainment scheduled.

**CITY CODE**--The Library now has the current updated version of the Eugene City Code in the Reference Collection for anyone who wishes to consult it.

**POSTPONED**--The Human Awareness Council get-together which was scheduled for today has been changed to Wednesday, Jan. 19, at 4 p.m. There will be a charge of \$1.50 per person to cover the cost of light snacks and wine. **KLCC HEARING--**About 250 people, several television cameras, radio microphones, and print media literally spilled from the Boardroom last night for the hearing on the future direction of KLCC. Conversation centered primarily on the conflict between serving community needs versus meeting the educational requirements of the College, and the future of the programming at the station. The about 20 speakers indicated a strong desire for the continuation of the jazz, classical, public affairs programming the station has been known for. And many of the speakers indicated a desire to see the station be responsible to the community rather than as a training ground for broadcast students.

The group, though large, was orderly and, for the most part, prepared in the many presentations. Speakers included devoted listeners; Ellie Gruman, Head of the Friends of Public Broadcasting; Fred Webb, Chairman of the Mass Communications Citizens Advisory Committee; and past employees of the station.

The hearing, which was broadcast over KLCC, ended after three hours with the Board indicating the matter would be discussed at a future meeting.

## GERMS OF INTEREST

from Student Health Services

**\*\* LONG LIFE - SHORT LIFE \*\***

Through a study of nearly 7000 adults, followed for 5 1/2 years, Doctors Brelow and Belloc demonstrated life expectancy and better health are significantly related to some basic health habits. These included:

1. Three meals a day at regular times instead of snacks.
2. Breakfast every day.
3. Moderate exercise two or three times a week (long walks, gardening, bike riding, swimming).
4. Seven or eight hours sleep a night.
5. No smoking.
6. Moderate weight.
7. No alcohol or only in moderation.

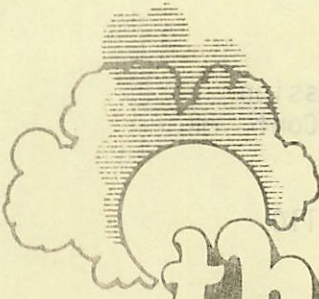

Among the specific findings:

1. A 45 year old man who practices 0-3 of these habits has a life expectancy of 21.6 years - he can expect to live to about 67. A 45 year old man who practices 6-7 of these habits can look forward to 33.1 years - he can expect to live to about 78. The magnitude of this difference of more than 11 years is better understood if we consider that the increase in life expectancy of white men in the U.S.A. between 1900 and 1960 was only three years.
2. The physical health status of those reported following all seven good health practices was consistently about the same as those 30 years or younger who follow none or few of these practices.

### Summary

The primary barrier to good health in America is not lack of financial access. Certainly there are many Americans who do not have access to quality care and there is need for improvement in health care delivery, and in the education and distribution of health manpower.

The fact remains, however, that the primary cause of poor health and premature death in America cannot be attributed to the above deficits. "Living a long life is essentially a do-it-yourself proposition" says a New York Times writer. The formal medical system merely patches up victims of heart attacks, automobile accidents, and attempted murder usually without affecting the underlying problems of poor diet, poor driving, or pent-up violence. A direct attack on the primary causes can only be made by efforts at prevention and health education. (From the report of the task force on Consumer Health Education, Anne R. Sommers, Chairman, Aspen Publications, 1976.)

**BUDGET COMMITTEE MEETING**--In its preliminary meeting, the Budget Committee re-elected Jerry Brown, chairman; Donna Sprecher, vice chairwoman, and Jim Pitney, secretary. The 11 members (three were absent) completed the agenda which included reviews of budget calendar preparations (May 4 will be the first official budget meeting), procedures for budget development and other housekeeping matters. In addition to the formal business, the group discussed the projected enrollment and funding for CETA employees. About 10 people, other than the committee, were present.

**LEGISLATIVE BULLETIN**--Bills introduced in the Oregon Legislature in the past weeks which would have an affect on community colleges include:

- \* HB 5010 would increase reimbursement rates to community colleges for operation from \$835 to \$960 for the first 1,100 students and from \$670 to \$770 for each student over 1,100 for the first year of the biennium. The amounts are adjusted to \$1,020 and \$820, respectively, for the second year. The bill also appropriates \$10.3 million for community college capital construction projects.

- \* SB 173 limits the scope of collective bargaining in the public sector to exclude: job classification specification, elements of personnel management, Public Employee Retirement System benefits and other subject areas which directly impose costs upon other levels of government, and the mission and goals of state agencies.

- \* SB 261 requires community colleges to include in budget summaries and election notices information relating to expenditures of state funds for payment of unmet obligations for community college capital construction. It also requires such state funds to be used for new capital construction to be voted on as a separate item in a budget election, and prohibits use of such funds for any billed construction not already approved by the state legislature, or for student health facilities, non-instructional portions of student centers or recreational facilities.
