FRIDAY

~~March 32~~, 1977

April 1,

NEED A TOUCH UP?--The auto painting class is in session, if your vehicle is in need of either spot or panel painting, please bring it to the auto paint lab for inspection any Friday between 1 and 3 p.m. and ask for John Haurigan. He will make an appointment for your vehicle at that time. No complete paint jobs will be scheduled.

STAFF DEVELOPMENT--A staff development program is being offered through College/Community Relations and Adult Education for classified staff members. The program will help participants to manage their time better and communicate more effectively. Topics include elements of supervision, effective listening, defensive communication, time management, and oral and written communication. The course will be offered from noon to 2 p.m. on Tuesdays and Thursdays for six weeks beginning April 12. It will be in Math 205. Classified staff members can register, with permission of their supervisor, by attending the first class. Bring a signed tuition waiver with you (tuition waivers are available in Personnel Services, 1st floor, Administration Bldg.). For more information, contact Joyce Nichols, ext. 208, C/CR.

"THE LADY'S NOT FOR BURNING"--LCC's musical comedy production will be performed on Sunday, May 1, at 5 p.m. Dick Reid says it is hoped the Sunday performance will draw people who don't usually attend local plays. Staff can purchase tickets to the show before they go on sale to the general public April 11. The production will be April 29, 20, May 1, 6 and 7. Other than the May 1 presentation, the play time is at 8 p.m. Tickets are \$3 each, and all seats are reserved.

CURRICULUM PROPOSALS DEADLINE--All curriculum proposals intended for summer of fall 1977 implementation must be submitted to Mary Jeanne Jacobsen by April 19. The deadline to submit workshop applications for summer term is May 24 and for fall term is Sept. 1. If you need information or forms, contact Mary Jeanne by stopping by her office on the library mezzanine or by calling ext. 201, or by leaving a message at ext. 326.

NOT OBSERVED--Since only fools enjoy April 1, Congress has decided to abolish the day and add a March 32 in its place. It is rumored, however, there has been opposition to elimination of the day for tricksters, so beware.

-----  
NATIONAL RECOGNITION--Even Dear Abby is aware of the value of community colleges:

DEAR ABBY: I can't believe the unemployment figures. On one side, people are screaming they can't find jobs, and on the other side, just try to find someone to do carpentry, painting or remodeling.

We've been trying to get someone to add a bathroom to our house, and were told we will have to wait for at least six months. My sister tried to get someone to remodel her kitchen, and she hasn't had any luck, either.

Everyone who does work like that is "busy" and can't get to it for another six months at least. That doesn't sound to me like there are a lot of unemployed people who are eager to get to work. Where are they? Something is wrong somewhere, Abby.

PUZZLED IN FLORIDA

DEAR PUZZLED: National studies show an acute shortage of tradesmen capable (or willing) to undertake home repairs. Most of those qualified to do carpentry, painting or remodeling will accept only larger jobs. Few such craftsmen are to be found among the unemployed.

This particular shortage (estimated by the Wall Street Journal to be in the thousands) is causing a rush on community colleges and vocational schools by homeowners learning to do their own work.

**SOUND OF MUSIC**--The Swing Choir, directed by Terry Gilliam, will perform for civic organizations and service clubs on request. **OVERFLOWING WITH HONORS**--Joan Wick was elected Northwest Regional Vice President of Phi Theta Kappa at the group's recent convention in Minneapolis. Past National President Jeff Arnold won a scholarship to the Honors Institute, and one more representative from LCC will be selected to attend on the scholarship accompanying the National Service Award which LCC won for its disaster simulation. Phi Theta Kappa advisor George Alvergue was elected vice president of the National Sponsor's Advisory Council. FROM OREGON NEWSPAPERS--A Blue Ribbon Commission on Athletics and Activities at Mt. Hood CC says spending for sports is at an acceptable level. Critics had complained that only 9 of 72 on the football team and 3 of 18 on the basketball team were in-district students ....Douglas County has agreed tentatively to fund a new bus run from downtown Roseburg to Umpqua CC....Legislator Rick Gustafson has written a letter to the Gresham Outlook to assure that he and his fellow lawmakers fully intend to see that community colleges are paid the unmet obligations construction monies due them....A University of Cincinnati researcher says two-year college enrollment dropped off this year because many students found jobs as a result of the improving economy. Expiration of GI benefits and a tightening up on veterans' restrictions also decreased enrollment.

THURSDAY  
April 7, 1977

RECAP--Dean of Students Jack Carter says it now appears that LCC will generate 7,350 FTE students this year. That's 147 fewer than last year, a 1.9 percent decrease. And it's 283 fewer than this year's budget was built upon, a 3.7 percent drop. The cost of this unrealized FTE is about \$283,000. This means that the College must underspend by that amount to make this year's budget come out even. As for next year, LCC is budgeting for 7,633. We'll need about 300 more FTE to make the goal, about a 4 percent increase. Prospects are for a greater influx than usual of June high school graduates. And Lane County is growing about 4 percent a year.

TODAY--A dramatic presentation of writings by Tennessee Williams will be presented by Jacquie McClure and Carol Thibeau from 3 to 4 p.m. today in the LCC Lab Theatre. Staff and students are invited to attend the hour-long, free performance.

PROFESSIONAL DEVELOPMENT LEAVE NOTICE--The Professional Development Committee will meet on Thursday, May 19, to consider requests for professional development leave for fall and winter quarters 1977-78. Applications must be submitted to Gerald Rasmussen, Dean of Instructional Operations, by 5 p.m. on May 18. Application blanks and guidelines are available from the Office of Instruction.

LEGISLATIVE BREAKFAST--Senator Betty Browne will discuss revisions in the juvenile code, revenue and school finance, the increased cost of Workmen's Compensation, and other issues of concern to teachers during a no-host breakfast speech at 9 a.m. Saturday, April 9, at the Thunderbird on Coburg Road. If you are interest in attending the breakfast, sponsored by the Eugene Education Association and Lane County Uniserv, call the Uniserv office and leave your name today.

WHERE, OH WHERE--Foodservice has lost its xerox key. If found, please call Teresa, ext. 202.

RETIRING?--The Oregon Public Employees Retirement System will have a meeting April 14 from 7:30 to 10:30 p.m. at Roosevelt Junior High School, Room E-3, 680 E. 24th Ave., to provide general information to the PERS members. Although the meeting is designed for the total membership, it is expected that it may be of special interest to those of you who are nearing retirement age.

IN-SERVICE QUESTIONNAIRE--All staff members are asked to fill out the following questionnaire and return it as soon as possible to the Office of Instruction. Your answers will help to make next fall's in-service tailored to your needs and interests.

We are planning activities to be offered for In-Service next Fall. The plan at present is to have one week of In-Service scheduled at the discretion of individual departments. The remaining week, September 19-23, will be on campus, all-staff present. Monday, September 19, will be scheduled with information sessions by the Administration, by LCCEA, and LCCEF. Thursday and Friday, September 22, and 23, will be for individual instructor preparation. The remaining two days, Tuesday (20) and Wednesday (21) are to be given to staff improvement workshops. The plan is to offer a number of workshops on those two days, and have individual staff members create their own schedule, choosing those of most interest to them. We have generated the list of suggestions below. Please check those that are interesting to you, and add your suggestions in the comment section. PLEASE CHECK NO MORE THAN SIX (6).

**CLARIFICATION**--For those confused as to where the aquatics addition stands in the college's future plans, the minutes of the March 23 Board meeting indicate that the Board consensus is to complete the college master plan. Board Chairman Jim Martin wants the Board to ask voters for a special levy rather than use state construction monies if federal funding can't be secured. Board Member Larry Perry wants to avoid duplicating existing community facilities. Paul Colvin, research and planning director, told the Board that existing similar facilities in the community are already used to the extent they're available. Yes, the addition includes a swimming pool; but, that's only one part of the project, which includes such items as covered handball and raquetball courts.

**SEX EQUITY**--This coming weekend, there will be a "Sex Equity in Educational Leadership" conference at U of O. Or, call 686-5074 for information and to register.

**SCHEDULE CHANGE**--The first portion of the Classified Staff Development course has been changed. The course begins today from noon to 2 pm in Math 205. Participants are asked to bring a signed tuition waiver with them to class.

QUESTIONS INVITED--Staff members who would like to ask a question of one of the LCC Board of Education candidates may do so by calling the Torch Office, ext. 234, or sending the question in writing to the office by 2 pm today. The Torch staff will make every effort to get answers to the questions for Thursday's edition. Names of persons asking questions will be withheld.

FROM THE RAGAN REPORT--The Houston Better Business Bureau reports that a bureaucrat was talking about "ERISA" at President Carter's first cabinet meeting. President Carter is said to have asked, "What is ERISA?" Somebody answered: "It stands for 'Every Ridiculous Idea Since Adam'." After several telephone calls it was determined that ERISA is the Labor Department's Retirement Income Security Agency.

GROWTH PROJECTED--Oregon community colleges will generate some enrollment growth in the next couple of years, says the State Department of Education. **HONORED--**Governor Bob Straub will present representatives of LCC with the Governor's Energy Conservation Award in ceremonies Thursday at 10 a.m. in the Governor's office in Salem. The presentation will mark the first time the state has presented such awards for "significant contributions to energy savings." LCC was selected for the award for its 30 percent savings of energy over the past three years as a result of its energy management program. Over 4,000 kilowatt hours of electricity have been saved during the three years, according to the Eugene Water and Electric Board which nominated LCC for the award. Four others will also be honored Thursday for their conservation efforts. LCC Director of Business Operations Tony Birch and possibly LCC President Eldon Schafer will travel to Salem to accept the award.

**VOTE TODAY--**The polls will be open from 8 a.m. to 8 p.m. today for the election of an LCC Board of Education member from Zone 3. It is a window with a center panel and two side panels which close over the center.

**CONSERVATION MEASURES--**Due to the lack of rainfall, conservation measures are being adopted to insure adequate drinking water at Christenson's Resort, south of Florence. Showers will not be operable and toilets will rely on lake water for flushing to conserve drinking water. These measures will be in effect until further notice.

DULY RECOGNIZED--"These are the kinds of achievements that set examples for all of us to follow," Governor Bob Straub said as he presented the first Governor's Energy Conservation Awards yesterday. President Schafer received the award for LCC. The Department of Energy screened the nominees and selected LCC because "the college has achieved energy savings of more than 30 percent over the past three years. A complete energy management program includes storage of heat produced in off-peak periods, recovery of waste heat and a computerized monitoring system. LCC reduced consumption of 4,000 kilowatt hours annually representing a savings to district taxpayers as well as freeing that bloc of energy for other uses."
