## \*\* TICKS AND PLAGUE \*\*

'Tis spring, and as you take to the woods, WATCH OUT for:

1. Colorado Tick Fever which occurs in Oregon from April until September. This is a benign viral infection which can occur following a tick bite. After an incubation period of about five days, the bitten person abruptly becomes ill with chills and high fever, severe backache, headache, malaise, and nausea. Classically, these symptoms go away after two or three days, only to come back after a two or three day remission. There is no specific therapy. Treatment is supportive. The best prevention is avoidance of tick bites.

2. Plague is now occurring in Western Oregon. It is a naturally occurring disease of wild rodents and can be transmitted from infected chipmunks, ground squirrels, and mice through the bite of an infected flea, or by direct contact with tissue and blood from infected animals to humans. Prevention is as follows: Do not handle wild rodents or rabbits; do not eat wild squirrels or rabbits; avoid camping in areas where large numbers of rodent burrows are evident, as fleas in these burrows may bite persons; keep house dwelling pets (dogs and cats) that hunt and consume field rodents free of fleas. Pets can bring rodent fleas into your home. The incubation period ranges from two to six days and is treated with streptomycin, tetracyclines, and chloramphenicol.

#1 above is from the Oregon Communicable Disease Summary, April 15, 1978. #2 above is from the Oregon Health Bulletin, February 1978.

## \*\* TRAVEL FOR THE HANDICAPPED \*\*

In Travel and Leisure, Louise Weiss, author of the definitive book Access to the World: A Travel Guide for the Handicapped, states that the key to mobility for a handicapped person is knowledge. Knowing what facilities are available and what problems he can expect to encounter, he can practice "defensive traveling" - seeking out those places that can accommodate his needs and coping with inevitable difficulties in a world filled with obstacle courses.

Among the topics covered in the article are air travel and airports, buses, ships, railroads, rental cars, access guidebooks, hotels and motels and tours for the handicapped. Some of the information is surprising. How many of us know, for instance, that the major car rental companies can supply hand-controlled cars at no extra charge, that tours are available for kidney patients, diabetics and deaf people, as well as for those confined to wheelchairs, or that some hotel chains have Braille menus, Braille telephones and special rooms for paraplegics? The major bus companies allow a companion to travel free with a handicapped person, Amtrak has a toll-free teletypewriter reservations and information service for the deaf, and the airlines (given advance notice) can provide meals not only for diabetics, but also for 33 other types of restricted diets?

Besides enumerating many of the travel facilities geared for the handicapped, Travel and Leisure provides addresses and telephone numbers for obtaining additional information about all the services mentioned.

In the first year the law was in effect, 13 state agencies were reviewed and 3 were axed. Combined annual budget of the terminated agencies was \$6,810; cost to administer the sunset law was \$212,000. --From Willamette Valley Observer, June 2, 1978, p.3.

CATALOG--The 1978-79 college catalog is on campus; departments wanting supplies of individual booklets should inquire at the Admissions Office. The 376-page catalog was printed in 21 booklets this year. Major changes included the creation of Booklet 21, which has all the transfer programs; movement of the index to Booklet 1; movement of advisory committee listings from #1 to the pertinent instructional booklet; and some heavy rewriting. Check out Performing Arts, which has some interesting faculty photos; the photos in Science and Language Arts; and the cover photos of Study Skills.

SUMMER THEATRE--Tickets for the summer production of "Fiddler on the Roof" go on sale today at the Theatre Box Office from 10 a.m. to 12 p.m. This is the time during which mail orders, group orders and cast orders are filled and LCC staff and students may purchase tickets now at \$4.50 each. Tickets will go on sale to the general public next Monday.

LCCEF (CLASSIFIED)--If you have a new address and have not notified the LCCEF, please do so by June 16. It's time for new membership cards and we're sure you'd like yours to be correct. Please contact Vicki March, ext. 255, for any changes.

OCCA LEVY SITUATION (OCCA DIGEST) --Southwestern Oregon votes June 27 on a \$319,174 levy, down \$107,127 from a levy rejected May 23....Blue Mountain votes June 27 on a \$1.9 million levy which is down \$43,859 from a levy rejected May 23, and that one was down \$43,020 from a levy rejected April 4. Intercollegiate cross country and golf have been eliminated....Mt. Hood votes June 27 on a \$2.5 million levy. The same amount was rejected April 4 and May 23. Gresham is the territory of the property tax limitation initiative folks....Central Oregon lost a \$2.1 million levy on March 14 and lost a base measure on May 23. The Board meets June 14 to decide when to try again....Umpqua lost a \$1.3 million levy on April 4, a similar measure on May 23, and will try again August 8.

AND IN CALIFORNIA, IT PASSED--California voters passed Proposition 13 by a 2-1 margin last week. It cut property taxes an average 57 percent. Most of the savings will go to businesses. Community colleges had about a third of their income lopped off, on the average, though some had much more cut. Unless the governor and legislature find ways to soften the fiscal blow, we'll probably be getting inquiries from California faculty members seeking jobs up this way.

KING TUT--Tentative plans for two-day excursion to visit the King Tut Exhibition in Seattle are in the makings at the Downtown Center. Naomi Soules, Community Education coordinator, is coordinating arrangements for a possible trip August 25, 26 and 27. Approximate cost is \$80. This includes transportation, two nights lodging, exhibition admission, one meal and other activities. What she needs is a headcount of persons interested in making the trip. If you would like to go please call the Downtown Center, ext. 620 and leave your name and the number planning to attend with Susan Cochran or Naomi. Please call this week as arrangements and costs need to be finalized.

Deadline for contributions is 3 p.m. each day for the  
following day.  
Coordinator: Kathy Dave, ext. 340.*

WEEK OF  
June 12-16, 1978

**APPOINTED--**Bob Radcliff, a member of the Health and Physical Education faculty since 1969, has been named department head for the 1978-79 college year. He succeeds Dick Newell, who moves to a coordinator post in Community Education. Radcliff was LCC athletic director from 1970-1976. He came to LCC from Linn-Benton Community College.

**AND TO WIN, JUST CALL...--**We need volunteers to telephone voters in favorable precincts on election day (June 27) reminding them to vote. Call Kathy Dave, ext. 340 for a list of names and numbers. Most volunteers find they can call 20 to 30 people in around half an hour. That's all there is to it--we'll even tell you what to say. Sign up soon, the election is only 2 weeks away.

**SETTLEMENT NEAR--**Tentative agreement was reached last Friday between college negotiators and the ABE/HSC employees as to salaries and benefits for this year and next. Employee ratification will be sought by mail and the results put before the Board of Education this month or next. The agreement calls for an 8.2 percent retroactive pay increase from September 1977 and a 3.2 percent pay increase next fiscal year. The 49 people (22.7 FTE) also get a health insurance package for the first time, based on the number of hours worked.

**COUNTY FAIR--**After an absence of several years, LCC will be part of the August Lane County Fair. The classroom bus will be the center of the exhibit/activities. If your department can help out, contact Jolene Bowers, Admissions, ext. 235.

**PRECINCT REPORT--**Historical voting patterns were repeated at the May 23 election. The Yes vote of 47% was the best first election support in the 1970's. LCC won 51 precincts (30%); 48 were in Eugene and 3 in Springfield. South, southeast, and central Eugene were carried by the college as usual. These sections of the city gave us 40% of the total Yes vote. Support fell off as usual in north Eugene. The question was asked as to whether outreach activities tend to increase the percentage of the Yes vote. The Yes percentages around the Siuslaw Skills Center included these: Florence 1, 30; Florence 2, 29; Glenada, 25; Dunes City, 28.

**LET'S MEET FOR LUNCH--**There have been requests for the Women's Caucus brown bag luncheons to continue through the summer. Let's get together Monday, June 19 from 11:30 a.m. to 1 p.m. in the Board Room for more feedback on continuing the luncheons. Hope to see many of you there.

**SHUT THE DOOR AND STAY COOL--**The college prides itself on an "open door" policy, but the practice of actually leaving doors open during these warm days makes our attempts to air condition areas fruitless. Please make staff and students in your office or department aware of this problem and try to keep doors shut. The air distribution systems in the building zones can then function correctly. Thanks for your cooperation.

**HOT & COLD, WE'LL BE BOTH--**Work on the new Health & P.E. addition has reached the stage of construction where it must tie in with the air distribution systems. THURSDAY, the Health and P.E., Administration, Performing Arts and Campus Services buildings will be without heat. These same buildings will also be without air conditioning on FRIDAY. On one of these two days it will also be necessary to shut off both the hot and cold water for a time.
