OUTSTANDING INSTRUCTORS - LCC instructors John Loughlin and Nita Bunnell were honored at Wednesday night's LCC Board of Education meeting as LCC's Outstanding Instructors of the Year for 1983. The two have worked together on the teacher improvement program. Bunnell joined the Study Skills Learning Center in September 1979. About her, a colleague wrote, "She is beloved by her students, admired and respected by her colleagues and is the essence of what LCC is and can be." Loughlin has been an instructor in the Mathematics Department since September 1968. He started LCC's first off-campus math offerings (in Cottage Grove) in 1970. One person nominating him for the award said, "He is one of the most dedicated in terms of being sure students understand. He spent days puzzling over a method to make an involved concept meaningful for students." Other finalists for this year's award were Richard Eno, Business; Jan Kinman, Nursing; and Peggy Marston, Language Arts/Cooperative Work Experience. Congratulations to all.

WORKSHOP - The aircraft maintenance program has a one-day workshop on Friday, with students and 35 vendors from Oregon and southern Washington expected to attend. The National Aeromotive Corporation, which sells the Allison 250 turbine engine, will provide information about that engine. Weather permitting, a helicopter will land near the Forum Building before 8 a.m. and remain there until after the workshop. The session is scheduled from 9 a.m. to 5 p.m. in Forum 308. Today, aviation maintenance students will meet from 9 to 11, with Aaron Largeant from the National Aeromotive Corporation, to get a jobs forecast. For information about any of this, contact Jim Brooks at ext. 2379.

INNOVATOR OF THE YEAR - Spanish instructor Arden Woods has been named Innovator of the Year for 1983. An instructor at LCC since 1965, Woods earned Bachelor of Arts and Master of Arts degrees from the University of Oregon. Woods developed a method of teaching which forces students to begin talking Spanish to each other the very first day of class and includes daily papers written in Spanish describing everyday activities. To improve this approach, she recently spent more than two years learning about computers and devising and writing a program which enables her to grade more than 100 papers a day and to present each student with a computer printout showing errors and the correction for each. The program is being adapted to other uses at LCC and could be used by other colleges and universities. The Innovator of the Year Award is new this year. It was created by the League for Innovation in the Community College, and will be given annually to one individual from each of the 18 League member college districts. President Eldon G. Schafer presented Arden Woods the award at a Wednesday afternoon reception. Other nominees for the 1983 award were Velma Jesser, Business; Dwight Miller, Mathematics; Anne Stewart, Staff Development; and Bill Tweedie, Small Business Management Program.

BABY - Phyllis Ryan, Counseling, and husband Mike are the parents of a new boy. Jason Leroy was born Monday. Ryan is on a year's leave of absence.

DISTRIBUTION OF PAYROLL CHECKS FOR MAY and JUNE will continue through the departments for those who did not choose LADD. All mid-month payroll for May will be by paper check and distributed through the departments. The initial LADD payroll will be the May month-end payroll on May 31, 1983. Beginning June 15, 1983, those who have chosen LADD will have their mid-month pay directly deposited to their account.

UPCOMING ELECTION - Don't forget to vote next Tuesday. Lane County will have a one-year operating levy on the ballot, the Eugene School District will have a one-year special operating levy (outside the tax base) on the ballot, and two Eugene School Board positions are up for election. The McKenzie School District has operating levies on the ballot, and the Junction City School District has a budget levy for the consideration of voters. The Incredible Edible Feast (tribute to Jay Marston)

Thirty incredible people from Lane
Went gathering mud clams one day in the rain.
Then feasted on violets, cattails and plantain.

Led by a remarkable leader named Jay
In charge of the fantastic activities that day,
They gathered some mussels and peas from the beach
and about other wild edibles he also did teach

They brought them all back and put into a stew,
At a place at the edge of a lake called Siltcoo.
It took four kitchens of people just chopping and peeling!
They all worked so hard their heads began reeling.

Such a sumptuous feast! It was really incredible!
By nightfall the thirty from Lane were all fedible!

--Marjorie Kocher

BUSINESS STUDENT HONORED - Patty Branson, a second-year student in Office Administration (legal secretary option), has been picked Outstanding Business Student for 1983. Branson, a Springfield resident, will be honored in a ceremony Wednesday. President Schafer will present her with a plaque. Branson has a 3.71 grade point average, and works part-time for two attorneys. She also is the president of the LCC Association of Legal Students, and participated in a recent mock trial as an attorney. Branson graduated in 1981 from Burns High School.

If interested, contact the Productivity Center at ext. 2803 - before May 28.

AN OPTION FOR VOC-TECH TEACHERS - The industrial education program at Oregon State University has developed an option to the trade and industrial education degree that specifically is designed to meet the needs of employed community college vocational-technical instructors. Time required on the Oregon State University campus can be reduced to about one year; so, with careful use of summers and a possible sabbatical or leave of absence, this program should better meet time constraints for fully employed vocational-technical instructors. A copy of the degree program brochure is available in the Staff Development Office, Center 238. A representative from OSU plans to visit LCC to provide individual counseling for interested instructors.

Q. Does LCC use herbicide sprays on campus grass and shrubs? Some mornings when we come to work, there is a strong smell on the grounds. Some staff members are having breathing difficulties after walking through area.

A. In reviewing our records the only substance which has been recently applied on campus on some of the shrubs was Bacillus thuringiensis, a bacterial insecticide formulation for control of lepidopterous larval insect pest organisms. This material is very target specific to insects but does contain some odor. Spray formulations are applied between the hours of 12 midnight and 6 a.m. based upon guidelines established by President Schafer, Dean Berry, Walt Van Orden and Dave Wienecke. (Ed. note: Bacillus thuringiensis is considered an organic substance.) (Walt Van Orden, Plant Services, responded.)
