TIP WANTS YOU: The TIP (Teaching Improvement Process) Program, administered through the Staff Development Office, is a system of peer tutoring directed at identifying and improving classroom skills. The process involves a one-on-one interchange between faculty members and takes one full term to complete. During the term, the Teaching Consultant uses interviews, classroom observations, student evaluations, self-evaluations, videotapes, and analysis of course materials to help the Faculty Client come to a better understanding of his or her own teaching techniques. Participation in the process is voluntary and confidential; it isn't associated in any way with administrative faculty evaluation. All materials resulting from participation are given to the client.

Joyce Fish, Math, (ext. 2392); John Kocher, Social Science, (ext. 2286); John Loughlin, Math, (ext. 2397) and Sharon Thomas, Social Science, (ext. 2419) are LCC faculty members who have been trained in the Teaching Improvement Process. They are available to act as Teaching Consultants to other LCC faculty, and **now have space for clients this coming spring and fall term.**

To find out more about TIP, plan to attend **How to Assess Your Own Teaching Effectiveness**, on **Thursday, Feb. 21 from noon to 1** in the **Board Room**. Joyce Fish and Sharon Thomas will be the presentors; the activity will include looking at a definition of a "good teacher," resources available to get feedback, and how to get the most benefit from the feedback.

Want more information? Contact the **Staff Development Office at 2577** or any of the Teaching Consultants at the above extensions.

FACULTY EXCHANGE CENTER. Can you picture yourself living and teaching somewhere else besides our beloved Oregon? How does New Zealand, Australia, Canada, Spain, or any other country where the language of instruction is English sound as an alternative? The **Faculty Exchange Center** is an organization which serves as a clearinghouse and publishes a directory containing the names of other instructors interested in exchanges, as well as their institutions, rank, and field of specialization. The directory also mentions the region where the faculty members prefer to teach and travel, whether they are retired, and if they are willing to exchange houses.

The current **Faculty Exchange Directory** has listings for ten LCC employees who took advantage of this opportunity last year. The college maintains a membership in FEC which entitles us to submit **ten** listings per year to the directory at no charge to the faculty member involved. The Staff Development Office is **now accepting applications** from faculty members who wish to be listed in the **Fall 1985 issue** of the directory, for exchange in the above mentioned foreign countries or within the United States. Applications should be completed by the end of February to insure inclusion. Remember: we only have **ten** spaces to fill, so call Staff Development at ext. 2577 as soon as possible to reserve a spot on this year's list.

LATEST IN THE STAFF DEVELOPMENT RESOURCE CENTER-- If you're interested in **faculty evaluation**, come take a look at the newest issue of The Journal of Staff, Program & Organization Development. The whole edition is devoted to the subject of faculty evaluation. Some evaluation techniques explored include class interviews, student evaluation, and evaluating dissemination efforts. Lots of good information in this one. Give Staff Development a call at 2577 and we'll check it out to you by mail.

The Health Alliance of Lane County--which includes as members the University of Oregon, LCC, the Lane County Medical Society, and several county hospitals--is the overall sponsor. The cost for attendance is \$40. The big draw is keynote speaker **Norman Cousins**. Cousins is adjunct professor of the medical humanities at the UCLA School of Medicine. Formerly editor for 35 years of Saturday Review magazine, Cousins used humor in healing himself. For information about this special, one-day conference, call Sheila Gardipee at ext. 2617.
