**ACADEMIC FAIR TODAY** - Students may obtain information about LCC programs and spring term classes at the Academic Fair, planned in the cafeteria from 10 a.m. to 2 p.m. today and Tuesday. Twenty departments will be participating. Staff will be on hand to answer questions. Videotapes and displays will be featured.

**VOLUNTEER LEADER'S SERVICE RECOGNIZED AT NORTHWEST CONFERENCE** - Elizabeth Boyington, project director of the Senior Companion Program of Lane County was honored Feb. 11 by ACTION, the federal volunteer agency, during a four-state conference in Seattle of Northwest volunteer project leaders. Boyington was presented with an award certificate marking five years of "individual contributions and service" to the 15-year-old umbrella agency's older American programs in the region. Boyington says she was deeply honored to be singled out for the award. Congratulations!

**ANOTHER LEAGUE FELLOWS PROJECT** - Marie Wiles, acting associate department head for Health Occupations, has completed a project for the League for Innovation in the Community College. Entitled "Maternal-Child and Mental Health-Psychiatric Nursing Content in ADN Education: How Much is Enough?" the project involved a survey of League and regional colleges offering associate degree nursing programs. According to Wiles, analysis of the data shows there exists a wide variation in the number of clinical hours assigned to the areas of maternal-child and mental health-psychiatric care. To obtain a copy of the report, contact Larry Warford in the President's Office, ext. 2302.

**HOYAS TAKE TOURNEY** - The Hoyas have become the bigwigs of intramural activities at LCC. The team took first place in the intramural bowling tournament held Feb. 21, its second such victory. On the undefeated team are students George Serna (leading scorer with a high game of 226), Ervey Dominquez and Dan Vidos. The tournament went well, and you're invited to drop by the intramural office for information about upcoming events. Call ext. 2559 for details.

**TORCH EDITORS TAKE L.A.** - Two LCC Torch staff members took top honors at a student journalism conference held in Los Angeles last month. Ann Van Camp, Torch feature editor, was awarded a first-place prize, and Karen Irmsher, TORCH editor, placed third in the Los Angeles Times On-Site Writing Competition. Only one other winner was from a two-year school. About 150 student writers from 45 colleges, using only pen and paper, participated. Information for the contest articles written was obtained from a press packet and a 45-minute press conference on the "Hands Across America" project sponsored by U.S.A. for Africa.

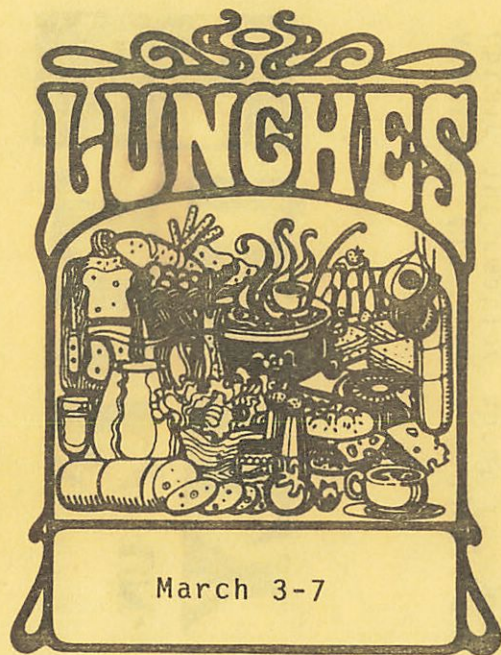

**TWO BAC WORKSHOPS OFFER HELP** - This Wednesday, LCC instructor Tom Birkenhead will lead a workshop on dealing with difficult situations. It's planned at the Red Lion Motor Inn from 10 a.m. to 3 p.m. The price, \$17.50 for LCC staff, covers lunch.

Rosemary Pryor, a public information specialist for the City of Eugene, will head a workshop on Tuesday evenings, March 11 and 18. She'll discuss writing ad copy that sells. Participants are encouraged to bring samples of their promotional materials. The workshop fee is \$10 for LCC staff.

For information about these Business Assistance Center offerings, call Debra Carroll at ext. 2923.

**ECONOMIST TO SPEAK ON CAMPUS FRIDAY** - Bradley Schiller, the author of the economics textbook used by LCC students, will be on the main campus this Friday for a seminar. The author of "The Economics of Poverty and Discrimination," he will be at LCC to talk about the Gramm-Rudman bill and current events in Washington, D.C. Interested students and staff are invited to hear him in Forum 310 at 11 a.m. Friday.

**SOFTWARE WORKSHOP** - New Trends in Software for the IBM-PC has been rescheduled for Thursday, March 6, from 3 to 5 p.m. in Forum 308. Call Staff Development at ext. 2577 by 5 p.m. on Wednesday to preregister. This session will include information and a product demonstration.

**ECONOMIST VISITING CAMPUS** - Economist Bradley Schiller will be speaking at 11 a.m. in Forum 310 this Friday. The author of "Economics Today," the textbook used by LCC students, Schiller will discuss Gramm-Rudman and current events in Washington, D.C. Schiller is a professor at American University and has been a consultant to Congress, executive branch agencies, and private business. LCC economics teachers are coordinating his visit.

**ART ON MAIN CAMPUS** - Wildlife and western acrylic paintings by local artist Ken McClellan are on display in the mezzanine gallery of the library. In the Art Department gallery, artists Robert Gibney and Frank Fox exhibit their assemblage sculpture. If you haven't seen the show, "Lead Head," you should find it fun.

**DANCER COMING TO LCC** - The public is invited to a free lecture/demonstration at noon on Wednesday, March 12, with Bill Evans -- nationally acclaimed dancer, master teacher and choreographer. The event will be held in LCC's main gym. While in town next week, Evans will lead afternoon workshops, Tuesday through Friday, and will give a solo performance at the WOW Hall on March 13. For information, call Marcia McCaffrey at ext. 2816.

**HELP CHILDREN EAT WELL** - It can be difficult for parents to assure their children get the most nutritious diet. Such things as sugar in breakfast cereals, food allergies, food costs and changing eating habits complicate the issue. That's why the Kidsfood Faire is planned for Saturday, March 15, from 10 a.m. to 2 p.m. Sponsored by a number of local agencies, including LCC's Home Economics Department and dental programs, the free event is for adults and children of all ages. Watch this space for more information or call Beth Naylor at ext. 2533.

**SCHEDULES COMING SOON** - Spring classes begin the week of March 31, but LCC's class schedules should begin arriving in area homes around March 7. The accompanying LCC Report features stories about Ed Ragozzino and "Baby" and about LCC's advisory committees.

**WELLNESS SPACE** - The Tame Your Habit contest still is going strong and we have both weekly winners and successful program participants to report this week. If you've been keeping an eye on this column, you know that the Wellness Task Force, in coordination with the Oregon Research Institute, has put together several events to help LCC employees quit smoking.

We would like to congratulate Diane Engle, Mari Reed, Cendrina Young, Sharon Mastin and Wendell Anderson for successfully stopping their smoking during the six-week program. Several other participants made significant strides toward controlling their smoking.

The second drawing for "Quitter of the Week" was held Friday, and Sharon Mastin's name was drawn from among the qualified applicants. She won \$25 worth of automotive work for her car. Congratulations, Sharon, and keep up the great work!

The winner of the most recent "Good Buddy" award is Bob McCorkle who won a \$5 gift certificate to G. Willicker's. Prize drawings will be held weekly until March 12. For more information about the contest and help for smoking control, please call 484-2123, ext. 130.

The ASVAB Test is being offered free of charge to the first 50 students at 8 a.m. on Thursday, April 20, in Forum 308. Students should plan on needing three hours for the test. The 1983 award went to Spanish instructor Arden Woods. In 1984, it went to Velma Jesser of the Business Department and, in 1985, it went to Bill Mullins in Social Science. The presenter will be Tom Birkenhead from the Business Department. He promises the session will be light on theory and heavy on practical techniques that work. DID YOU SEE ADVISORY COMMITTEE AD? - During February, at the suggestion of the LCC board, we made a special effort to recognize members of our advisory committees. One way we did this was through a large ad in The Register-Guard, paid for by the LCC Foundation. The ad listed all 592 advisory committee members. Help us out by providing feedback. Did you see the ad? Did you read it? Did anyone mention it to you? We would be particularly interested in hearing from those of you who serve with advisory committees. Did any of your members mention the ad? Thanks for you help.

THANKS - Thanks to Ray Nott and electronics students for the fast turnaround time in fixing my dryer. It works great!

**WELLNESS SPACE**

Do you know house plants are good to have around because they "breathe" in carbon dioxide and return a small amount of oxygen to the air? Besides that, they add a little moisture and a fair amount of cheer to the atmosphere. Some plants - in particular the hardy spider plant - actually remove certain pollutants from indoor air.

# INNOVATION

AT LANE COMMUNITY COLLEGE

March 11, 1986

A N N O U N C I N G  
LEAGUE FOR INNOVATION  
INNOVATOR OF THE YEAR AWARD

The League for Innovation in the Community College has created an award that is designed to recognize League College staff members who have designed and implemented a significant innovation during this past year. The recognition is known as the Innovator of the Year Award and is given annually to one individual from each of the 19 League member college districts. Any current Lane Community College employee, part-time or full-time, may be considered for the award.

The recipient of the Innovator of the Year Award will receive a plaque from the League for Innovation to be presented at an appropriate LCC function. The award winner will also be featured in the League publication, Innovator.

Last year's award went to Bill Mullin, of Social Science, who helped develop a computer-managed instruction/testing system. In 1984, Velma Jesser of Business won for developing a new Integrated Office Systems vocational program for the College. In 1983, Spanish instructor Arden Woods for developing a program that assists teachers in correcting subjective writing.

The deadline for nominations is April 4.

## CALL FOR NOMINATIONS

### WHO MAY NOMINATE?

Nominations may come from anyone either inside or outside the College.

### WHAT ARE THE SELECTION CRITERIA?

The award will be given to an individual who has designed and implemented a significant innovation at LCC. The League has established the following criteria for making the selection from among nominees. PLEASE NOTE THAT ONE OR MORE OF THE CRITERIA SHOULD BE MET, BUT IT IS NOT NECESSARY THAT ANY NOMINEE SHOULD MEET ALL CRITERIA.

1. Quality - Students and/or staff agree that the innovation increases quality in the course program, office, or institution. Evidence of quality may include student ratings or letters of support from colleagues.

(over)

## INNOVATOR OF THE YEAR AWARD

2. Efficiency - There is evidence that the innovation or outstanding program contributes to a more efficient way of doing things. Student ratings, perceptions of outside consultants, and pre- and post-comparison of time involved are examples of evidence.
3. Cost effectiveness - There is evidence that the innovation adds a value to the institution while at the same time containing or reducing costs. Cost data will serve as evidence.
4. Replication - The program selected can be used by other institutions with a minimum of difficulty. The description of the program should include any conditions necessary for replication.
5. Creativity - The selected program should be as original as possible or the adaptation should at least be creative. The description of the program or letters from experts are examples of evidence.
6. Timeliness - The award-winning program should not be more than five years old at that institution, but it must have been around long enough to have been tested so that it meets most of the criteria.

### HOW WILL THE WINNER BE SELECTED?

LCC's Innovator of the Year Award Selection Committee will review the nomination and supporting materials and select one award winner by April 30. The committee will invite and encourage high-quality nominations, and in the event no nominations are deemed to be of a caliber worthy of nationwide recognition, no award will be made.

The selection committee consists of three LCC employees representing management, faculty and classified personnel, and two members from the community. Larry Warford, League representative, chairs the committee.

### HOW ARE NOMINATIONS MADE?

Nominations should consist of the name and department of the innovator and a one-page description of the project, process, item, or activity supported by relevant materials. If materials are visual, or in some other form, it may be necessary for the nominee to make arrangements for the Award Selection Committee to have access for viewing purposes.

Nominations should be directed to League representative Larry Warford (Office of the President, Administration Building).

### WHAT IS THE DEADLINE FOR NOMINATIONS?

April 4.

If there are any questions about this award, please contact Larry Warford, ext. 2302.

Published for Lane Community College staff.

Editor: Kelli M. Osborn, ext. 2591.

**BOARD HIKES TUITION, OKAYS FACULTY CONTRACT** - The LCC Board of Education Wednesday night voted 5-2 to raise student tuition beginning this summer. The two dissenting votes belonged to Larry Perry and Bob Bowser. For in-state students, credit tuition will go to \$21 per credit hour (from \$19), or \$231 for full-time students (up from \$209 this year). For out-of-state and foreign students, tuition will go to \$80 per credit hour, or \$880 per term. Rates for noncredit, adult education courses also will increase. They will be set at \$1.10 per clock hour, which translates to \$33 for a 30-hour class - a class which costs \$30 this year.

The board also approved a new, two-year LCC Education Association contract, ratified last week by faculty. The new contract is retroactive to July 1, 1985, and continues through June 30, 1987.

Under its terms, LCC faculty who work less than half time will receive a 6 percent salary increase for the 1985-86 year. In the 1986-87 year, these part-time faculty will receive a 5 percent salary increase, as well as steps on the salary schedule. Faculty working half time and more will receive a salary increase of 2-3/4 percent, as well as an across-the-board sum of \$785, for the 1985-86 year. During the 1986-87 year, these half-time and more faculty will receive a salary increase of about 3.8 percent, plus steps on the salary schedule - if they are eligible. The new contract also includes changes in such areas as early retirement and professional development. One issue remains open - faculty workload. Negotiators for both the college and faculty will be meeting in an attempt to settle this issue. The LCCEA retains the right to strike over the issue if a satisfactory agreement is not worked out by Dec. 31, 1986. (Contract information provided by Hank Doua, Employee Relations director.)

The board also accepted a resignation by Deborah Holmes, coordinator of the Central Area Center in Cottage Grove, who will be leaving LCC at the end of May.

**WELLNESS SPACE - Tips for losing weight:** Eat three simply prepared, well-balanced meals a day. Eat sitting down, eat slowly and stop eating just BEFORE you are full. Don't skip meals. Severely restrict sugary foods, fats and oils (whole milk, cheeses, cooking vegetable oils, bread spreads, and sauces) packaged and convenience foods, fried foods and fast foods.

Complex carbohydrates (vegetables, fruit, whole grains) should be the focal point of your meals; serve meat as a garnish or side dish. Eat a whole piece of fruit, have a glass of nonfat milk if you need a snack. Drink six to eight glasses of water a day. Get an hour of aerobic exercise every day.

A number of vendors will be here making presentations, including Cleveland Wheel and Brake, Wall Colmonoy Corporation (exhaust systems), Aviall (PT-6 turbine engine), Teledyne Continental Motors (fuel injection), and Engine Components, Inc. (engine break-in), and the FAA.

The annual seminar gives students a chance to meet experienced aircraft mechanics and learn about their field.

For more information, call David Wienecke at ext. 2564.

The calendar is intended to show college-initiated marketing, recruitment and retention activities, as well as the dates for community fairs and other marketing opportunities. It is intended to help the council and others on campus in their planning. At the moment, the calendar consists of a box of chronologically ordered index cards in the Public Relations office. We hope to eventually put it on computer.

**WELLNESS SPACE - 1-800-4-CANCER..** - ..Sometimes, it's too hard for people to talk about diseases, especially cancer, even if what they chiefly are interested in is prevention. That's why more than two million people have dialed 1-800-4-CANCER, the free cancer information service provided by the National Cancer Institute. They call about symptoms, treatment, detection methods, and the effects of diet on cancer. The service's staff members can't diagnose, but they can answer many of those often terrifying questions and give emotional support. Since calling the hotline puts you in contact with your local branch of the National Cancer Institute, the staff members also can provide information on community resources and services.
