

Monday, May 4, 1987 Week 6 of Spring Term

Editor: Diane Prokop, ext. 2591

BUDGET DATA AVAILABLE - Persons wishing to read the handouts from last week's Board of Education work session on budget cuts will find them at the Reserve Desk (#9400) at the Library. The packet includes President Turner's opening and closing statements, a question and answer document, and statements by Vice Presidents Belcher, Carter, and Colvin and Executive Dean Warford.

ELECTRONIC DAILY? - It has been suggested via the Idea Exchange that the Daily be distributed through Electronic Mail. Since only 126 staff are hooked into the E-Mail system at present, it could mean that one person in each work unit would be delegated to retrieve The Daily and then post it or make duplicates and distribute them. Photos and graphics might have to be eliminated, but some duplicating costs could be saved. The most important question is whether an E-Mail Daily would be read; if not, communication could be diminished and the purpose of the publication defeated. Send a note with your reaction to the idea of an E-Mail Daily to Diane Prokop, in care of The Daily, or give her a call at ext. 2591. Thanks for sharing your views. Larry Romine, Institutional Advancement

BUDGET MEETINGS OPEN - Last week's work session of the LCC Board of Education included discussion on the best way for the LCC Budget Committee to gain input from the LCC community. Staff is advised that there are two Budget Committee meetings scheduled. They are on Wednesday, May 6 and May 13. At the May 6 meeting time will be provided for statements from the audience. In an effort to make optimum use of time and to give everyone the opportunity for input the following basis guidelines will be following the opportunity for input, the following basic guidelines will be followed:

- Individuals wishing to make statements will be asked to sign up 2) beginning at 7:15 p.m. on May 6 outside the Board Room. (The Budget Committee meets at 8 p.m.)
- 3) It is preferred that statements be written and 12 copies presented
- at the time the person addresses the Budget Committee. If several individuals indicate they wish to address the same issue, they may be asked to make their statement only if they have information 4) on that issue that has not been presented by another speaker.

Questions should be directed to the Office of the President at ext. 2200.

A FRIEND WE'LL MISS - Richard Lee Farrell, a custodian for the College from 1979 to 1984 died April 30. He had been on long-term disability leave since 1984 until his death. There will be no funeral but the family will announce the date of a memorial service soon. 80 Years of Honoring Mothers:

It was on her Mother's birthday in 1907 that Anna Jarvis of Philadelphia got the idea for a special day to honor Mothers. That day, she suggested that everyone attending her church wear a white carnation in honor of their own Mothers. The following year, churchgoers throughout the city followed her lead. The custom spread so rapidly that by 1911, every state in the Union was reported to have had some sort of Mother's Day observance on the second Sunday in May.

In 1914, when Congress made Mother's Day a national boliday, most women held only one job—"mothering." Today more than half the nation's married women work outside the home. Here's a toast to all our hard-working mothers! We appreciate your efforts!

Editor: Diane Prokop, ext. 2591

TODAY - Marketing Council Meeting, 10 a.m., Board Room - Budget Committee Meeting, 7 p.m., Performing Arts Theatre

BUDGET COMMITTEE MEETS TONIGHT - LCC's Budget Committee could approve the proposed 1987-88 College budget this evening at a 7 p.m. session in the Performing Arts Theatre. The agenda includes reports from the four budget sub-committees and then provides for requests for additional information, if needed, or approval of the document. If a third meeting is needed, it will be held on Wednesday, May 20, at 7 p.m. in the Board Room.

BOARD OF EDUCATION MEETS THURSDAY - To allow plenty of time for the Budget Committee to do its work, LCC's Board has postponed its regular Wednesday session to Thursday. It will convene at 7 p.m. in Forum 308-9. The agenda includes a possible 5 percent tuition increase, a possible funding election, adoption of a policy on life-threatening diseases, and staff reports on a community image survey, investment report, self-supporting classes, and a report on faculty load.

GRADUATION STORIES? - I would like to hear about students who are graduating this June - especially the ones who are not typical college graduates. INNOVATOR OF THE YEAR CHOSEN - Linda Riepe, instructor and coordinator for the Early Childhood Education Program, has been named LCC's League for Innovation "Innovator of the Year." Riepe, who joined the LCC faculty in 1973, was nominated for her work in developing a new degree program designed to train nannies. This makes LCC the first community college to provide a two-year degree program for nannies. Other community colleges throughout the country are recognizing our nanny program and are requesting the curriculum. The program will graduate four students this year. However, as a result of an aggressive publicity campaign and recruiting program by Riepe, enrollment is projected to double next fall to 40 or 50 students. The award is given annually to one individual from each of the 19 League member college districts. It is designed to recognize a staff member who has designed and implemented a significant innovation during the past year. Other nominees were Bob Prokop, Mass Communications; Greg Harpole, Business; David Marotta, Computer Services.

- OF NOTE Cynde Leathers, Telecourse Coordinator, was recently given a plaque from the Oregon Community College Telecommunications Consortium in appreciation for commitment and unselfish support in the advancement of distant learning by telecourse.
 - Alan Siporin of KLCC was a winner in the 1986 Pacific Northwest Excellence in journalism competition. Siporin won six awards in the categories of sport news reporting, feature news reporting, business and economics reporting, investigative reporting, and sports reporting. Alan Siporin is a reporter/producer at KLCC and is host of the popular "Blue Plate Special" news and public affairs program weekdays at noon.

STUDENTS SPEAK OUT - Student speakers will be addressing the topic, "LCC: The Way To Go," at a public forum sponsored by the English and Foreign Language Department at 12-noon, Wednesday, May 20, in Forum 308. Speakers will focus on LCC's success stories, and make suggestions for what improvements need to be made. A discussion session will follow. Everyone is invited.

NOMINATIONS SOUGHT - Don't forget to nominate a staff person who has performed an outstanding service to the College for the Classified/Support Staff Award. That person must be a classified/support staff who is currently employed 20 hours or more per week with a minimum of three years of continuous employment at LCC at the time of nomination. The deadline for nomination is May 22. A form is provided on the back of The Daily; it should be returned to the President's Office.

BOARD APPROVES TUITION INCREASE - A unanimous decision was made last Thursday night by the LCC Board of Education to increase tuition rates for 1987-88. In-state tuition will increase to \$22 per credit hour and out-of-state tuition goes to \$84 per credit hour. Non-credit students in Adult Education will now pay \$1.15 per class hour and \$35 a class for High School Completion. The Board also passed a proposal of policy for Life-Threatening Illnesses regarding students and employees. It states that employees and students with life-threatening illnesses, including but not limited to cancer, heart disease, and AIDS, may continue to engage in as many of their normal pursuits as their condition allows as long as they are able to meet acceptable performance standards, and medical evidence indicates that their conditions are not a threat to themselves or others. In other business, the Board approved a change in the academic calendar. Dates for 1987 Summer Registration will be: Continuing Students - June 9-10-11; New and Returning Students - June 10-11-12; and Open Registration - June 13 through June 21.

- OF NOTE LCC Board of Education member Barbara Doster was recently named Oregon Postmaster of the Year.
 - Donna Scott, Electronic Services Department Secretary, was given a plaque from Cooperative Work Experience in appreciation and recognition for providing the CWE program with outstanding support and service.

SUCCESS REWARDED - The Broadcasting Productivity Council of the National Association of Broadcasters has chosen Lane County for one of six pilot markets to benefit from a public awareness broadcasting campaign that will focus on skills up-grading for all workers - those laid off as well as those currently employed. LCC's Dislocated Worker Program, the Southern Willamette Private Industry Council and select community leaders will be meeting with Don LeBrecht, Executive Director, on May 21 to discuss implementation of the program. Mr. LeBrecht cited LCC's innovative training and assistance programs as persuasive factors in their decision.

ELECTRONIC OVERLOAD - Due to an overwhelming response, another class has been scheduled for those interested in learning the electronic mail system. It scheduled for Thursday, May 21st from 8 to 10 a.m. in PE 122B. Space is limited to the first 30 people who sign up. Documentation cost is \$2. No appointment is necessary and wheelchair access is available. If you would like to take advantage of this opportunity to plan a senior activity for Thursday, call Sharon Hagan at the Dental Clinic, ext. 2206.

Thanks to Margie Holland-Lorence and Corilee Heinis for the "super excellent" job they are doing with the Transitions to Success students. What you do in those classes is described by many of the students as magical." Twenty-one of the twenty-five students have enrolled in training programs and two have gotten jobs. After only three weeks into the new term, I see signs of the transformation your class creates. The new group has more confidence and is becoming more self-assured every day. What you do is invaluable to the campus and community and is greatly appreciated by both staff and students. I also want to thank all of the LCC staff and departments who have helped in making this program a success: Financial Aid (especially Dorothy and Susan); Admissions (Sharon, Jean, Christine and Carol - thanks, you've been wonderful); Counseling, thank you for your concern and help for students in this program. Last but not least, a big thank you to Word Processing. You have been essential to our progress and the loss of your services will be irreplaceable. Charleen Maclean, Transitions to Success

"Here rests in honored glory an American soldier known but to God."

Legend inscribed on the Tomb of the Unknown Soldier Just outside Washington, D.C., lies Arlington National Cemetery, the quiet resting place for some of America's greatest heroes and some of the dead from every U.S.

place for some of America's greatest heroes and some of the dead from every U.S. war. The history of Arlington goes back to George Washington. Without children him-self, he adopted the two youngest grandchildren of his wife Martha. Young George Washington Parke Custis idolized his adopted father, and after Washington's death in 1799, decided to build a memorial to him. He used land he owned along the Potomac River to build a mansion that he named Arlington. Custis filled the beauti-ful home with relics from Mount Vernon. In 1831, his only surviving child, Mary Anne Custis, married a young army officer at the Arlington Mansion. Her new hus-band, Robert E. Lee, grew to love Arlington as much as the Custis family and devoted himself to making the estate a successful farm. In April of 1861 Robert E. Lee made probably the hardest decision of his life. He turned down the command of the Union Army and cast his lot with his native state of Virginia. For this decision, he was hated by two men—Secretary of War Edwin M. Stanton and Quartermaster General Montgomery Meigs. Very soon Arlington was taken over by Union troops and used as an officers' headquarters. Stanton and Meigs saw Arlington as a means of revenge on Lee, so Meigs recommended, and Stanton approved, the use of the grounds as a cemetery. In fact, graves were so close to the house that it would be impossible to use Arlington as a home again. The first soldiers were buried there on May 13, 1864. A month later, the home and 200 acres around it were officially declared a National Cemetery. The remains of many Americans from earlier wars were moved to Arlington and, of course, the dead from subsequent wars have been buried there. Some of the famous Ameri-cans buried in Arlington include Philip Kearny from the Mexican and Civil Wars; Philip Sheridan, William Rosencrans, and Joseph Wheeler from the Civil War; Philip Sheridan, William Rosencrans, and Joseph Wheeler from the Civil Wars; Philip Sheridan, World War I; Presidents William Jennings Bryan; Supreme Court

Secretaries of State John Foster Dulles and William Jennings Bryan; Supreme Court Justice Oliver Wendell Holmes; and thousands of others who served or gave their lives in service to their country. Occupying a central position in Arlington National Cemetery is the Tomb of the Unknown Soldier. The tomb, holding the body of a soldier chosen randomly and buried with full military honors, is guarded continuously by a special Honor Guard Company of the 3rd Infantry from nearby Fort Myer Army Base. Every hour, 24 hours a day, every day of the year, the honor guard is changed during an inspiring ceremony, generally open to the public. Burials continue at Arlington today. Service men and women who die during active duty, retired service personnel with at least 20 years of service, and veterans who received the nation's highest military decorations are eligible to be buried there or at any one of approximately 80 other military cemeteries around the coun-try. All such burials are free of charge and include a funeral service befitting the

try. All such burials are free of charge and include a funeral service befitting the military status of the deceased. The Custis-Lee Mansion is open to tourists. It remains a permanent memorial to Robert E. Lee and a museum to life in the first half of the 19th century.

The ll-week program makes LCC the first college in Oregon to do so. Oatman hopes to continue providing this service to the National Guard. He says, "Earning a G.E.D. is important to the soldiers for many reasons; a soldier needs the degree to pursue further training and to be eligible for some promotions."

Therefore, the next three Spotlights will focus on the other three fantastic innovators that were finalists.

Greg Harpole, Business Department instructor, has been with the College since 1974. According to Jack Kreitz, "Harpole has established himself as an innovator of Office Occupations in Oregon." He has devoted significant energies to gathering and listing over 800 competencies needed to succeed in office occupations and charged a task force that integrated these tasks into the Office Administration courses. He also developed a district articulation model that would allow Business Education high school students to receive credit for passing challenge examinations for LCC Business Education classes with agreement with all the District superintendents. In addition, Harpole developed a Lane County Business Education task force to standardize competencies in Business Education between high schools and the College and developed a pilot 2+2 program for the County and District. His dedication was recognized last year when the Oregon Business Education Association, made him Oregon's Teacher of the Year. - EMPLOYMENT OPPORTUNITIES -

Last January he was hired as Programming Manager. In this job he oversees the projects of the staff computer programmers and communicates their activities to the rest of the College. Recently, Marotta was nominated for the Innovator of the Year award because of his work integrating the microcomputer and the symphony language with the mainframe computer. He has developed easy to use download programs so that a faculty member can access his/her class information to an IBM-compatible machine straight into a grading program. In addition, Dave has written outstanding user documentation to help faculty and staff with Electronic Mail, Bulletin Board, DOS, and Symphony Macros. Finally, he has spent countless hours conducting workshops that have helped hundreds of faculty, staff and managers. The open house at the Heceta House was a big success! Over 2,000 people visited during Rhododendron Days. A grand sum of \$900 was earned selling books and T-shirts; a large portion of this sum goes to the restoration of the house. The success was due to the contributions of the people in Campus Services and to the hostesses who spent the entire weekend giving tours of the great old house. The hostesses were: Darlene Turpin, Personnel; Velma Jesser, Business; and Carol Beckley, Administrative Services. Thanks for doing such a great job! Dave Wienecke, Campus Services
