## Open letter from the Board

On behalf of the Board of Education, we would like to commend the efforts of everyone involved in making the recent Legislative Forum so successful.

The three hour session was well-organized and well-executed. The format used to discuss the complex issues of access, work force and literacy worked extremely well. The cross section of participants, which included community leaders in government and industry, legislators, college personnel, board members and students, were able to provide input on these issues. The format also crystallized key aspects of these issues to focus on when planning our legislative strategy for next year's session.

The success of the event merely reflects the high caliber of the many dedicated faculty, staff, students and administrators who were involved in the planning and facilitating of this meeting. Special thanks to Larry Warford, Julie Aspinwall-Lamberts and the College Legislative Task Force. We would also like to thank the Culinary Arts students who prepared the attractive and delicious hors d'oeuvres.

Hopefully, the outcome of this forum, and others like it conducted at other Oregon community colleges, will pay off with increased support of community college programs and services in the future. Again, kudos on a job well done!

## A success story

After my separation from my former husband, I needed to gain skills and confidence so that I could get a job to support myself and my two children. I couldn't see any possible way that I could go to college until, while shopping at Valley River Center last February, I spoke to people at the LCC open house. They showed me the light at the end of the tunnel. With little money, and on pure faith, I started school in March. I'm still enrolled and taking classes to prepare myself to enter the nursing program. Thanks so much.

-- Linda Fiske, student.

Institutional Research, Planning & Evaluation is now Research, Planning, & Evaluation. LCC Siuslaw Center at Florence is now Lane Community College at Florence. The new faculty development office is the Teaching and Learning Center (TLC). The Employment/Placement Office is now the Job Placement Office. Carter said

changes in instructional names will await a reorganization in that branch.

## Women's program lauded

*From a letter recently received at the college.*

"Lane Community College has one of the largest and finest women's programs in the state of Oregon. You are to be congratulated for maintaining the majority of services provided by this program even through times of major budget cuts. . . . It is with a sense of pride and congratulations that I write this letter today. While area employers, community agencies, and, of course, educational institutions are preparing for the future, I feel Lane Community College is once again a leader with foresight in anticipating the needs of women in tomorrow's working community. I sincerely hope Lane will not only continue to support but will step up its efforts to expand this very important program." (Signed) Nancy Bailey, job service representative, Oregon Employment Division.

## Welcome planned

Lane's Education Association, Employee Federation, Management Group, and Associated Students are sponsoring a welcome reception for new President Jerry Moskus. It will be held in the cafeteria on Thursday, March 8, starting at 3 p.m. All staff are invited. Making arrangements for the host groups are Jay Marston, faculty; Jerry Sirois, classified; John Bernham, managers; and Andy Harris, students.

## Staff notes

- Linda Myers, CWE coordinator, has been selected to participate in the "Leaders" program, an international leadership training program for two-year college women administrators sponsored by the League for Innovation in Community Colleges. During the year-long program, participants are paired with mentors to work on projects to aid their institutions and foster individual professional growth. Myers' project is developing seminars for international students to acquaint them with American work ethics and to teach them job hunting skills. She will attend the 1990 Leaders Conference March 2 - 9 in Ft. Lauderdale, Fla.
- Among its recent acquisitions, the Library acquired "Biographical Dictionary of American Sports: Outdoor Sports" and "Biographical Dictionary of American Sports: Football." Dennis Clark, instructor in the LEAP program, was a major contributor to both books. He researched and wrote several dozen entries for each volume.
- English and Folklore Instructor Linda Danielson, and her musical partner Ann Wheeler, have just issued their first recording, "The Joy of Twin Fiddlin'!" on Yahoo Records. The twin fiddlers play close harmonies in a wide range of styles from old-time jigs and reels to waltzes and Gaelic music: a total of 28 tunes. Tapes are available from Balladeer Music in the First Street Public Market or from Danielson, ext. 2419 or 345-8156.
- Glenn Butler, superintendent of Siuslaw School District No 97-J, recently wrote to Larry Murray, dean of Community Education, commending Jean Spriggs, instructor at LCC at Florence. The letter reads, in part: "On January 11, 12 your instructor, Jean Spriggs, instructed a dozen Siuslaw School District Employees in the use of IBM's WordPerfect. The workshop was a success because Mrs. Spriggs is an excellent teacher. ... Our thanks to Lane Community College for having someone on their staff like Jean who can benefit so many."

## Board agrees to faculty contract

At its February meeting, the LCC Board of Education voted to accept a contract agreement with LCCEA, the faculty association, which amounts to approximately a five percent increase in the total wage/benefit package for full- and part-time faculty. The new three-year contract will cost the college about \$481,000 the first year.

In other action, the Board: Agreed to fund payroll costs of the LCC Foundation for the remainder of the fiscal year and for fiscal year 1990-91. Accepted audits of college operations for 1988-89, KLCC, the Student Financial Assistance program, and a general audit by the accounting firm of Coopers & Lybrand. Approved the sale of helicopter for a price not less than \$40,00. Accepted bid awards for a hot bond repair system and a robotic welding system. Authorized purchase of equipment to install and operate a translator for KLCC's Newport/Deope Bay site. Adopted a resolution authorizing the college to enter into an agreement with Lane County to install a traffic signal at Schafer Drive and 30th Avenue and to add a third lane to Schafer Drive. Agreed to continue general fund support of the Talent Grant, ASLCC Tuition Grant, and International Scholarship programs.

## Child care on agenda

## Resources for ED-NET are concern

Initial respondents to the recent ED-NET survey said Lane shouldn't participate because of limited resources, according to a preliminary report by Marie Matsen, Research, Planning, & Evaluation. A final report to include data from surveys received too late for inclusion in the first count will be forthcoming. The original respondents included 31 full-time faculty, seven part-time faculty, 17 classified, and 14 managers.

Sixty-five percent said "no" to participation in ED-NET. Of those, 73 percent cited limited resources, 58 percent said it's too expensive, and 29 percent said they're philosophically opposed. Some 51 percent would like to see the proposal re-evaluated if the college's financial situation improves.

Those who want Lane in ED-NET voted 20 to 4 in favor of both sending and receiving rather than receiving only.

Activities seen as practical for transmission and reception on ED-NET include special workshops, cited by 68 percent of respondents; staff development, 56 percent; regular courses, 48 percent; and meetings, 48 percent.

## Survey deadline extended

Because of delays in mail delivery during the recent inclement weather, the deadline for returning ED-NET surveys is extended to noon today. Surveys received after that time will not be included in the final analysis. Bring your completed survey to Marie Matsen, Research, Planning, & Evaluation, ADM 116.

## ED-NET to get hearing

College Council is sponsoring two hearings to solicit your comments regarding Lane's participation in ED-NET. The hearings will be held Tuesday and Wednesday, Feb. 27 and 28, from 2:30 to 3:30 p.m. in the Board Room.

## Remembering Marie

Funeral services for Marie Twitty were held on Saturday. Marie, who was 62 years old, started with the college as a CETA worker in 1977, and became a full-time staff member in January 1978. She has been on disability leave since August 1989. Marie spent her entire career at Lane as a switchboard operator, first at the Downtown Center, later on main campus. We'll remember her distinctive voice, her impish grin, and her elegant style. She will be missed.

## Volunteers wanted for levy campaign

Volunteers are needed to help get out information on the LCC serial levy. You can lend a hand in either or all of these activities.

- Make phone calls to remind people to vote on the evenings of March 12 through 15. (This is not asking for a "yes" vote.) To volunteer, call Laura Tamura, ext. 2301.
- Deliver fliers to homes on Saturday, March 10. Be at Amazon Community Center, 2700 Hilyard St., at 10 a.m. This is simply dropping off fliers, not knocking on doors. Let your bargaining unit head know if you can make it.

### Questions about serial levy?

**Q.** What are voters asked to approve?

**A.** Taxpayers are asked to continue providing the college \$725,000 a year more than the current tax base for four years starting July 1991. Total amount raised over the four years will be \$2,900,000. Call ext. 2202 for more information.

## Business supports education

Oregon's post-secondary students should do a better job of learning basic skills, and four- and two-year colleges should be given more money to teach them. That's the advice of the Oregon Business Council, which surveyed business leaders statewide and presented the results this month to the Governor's Commission on Higher Education.

Businesses need employees with stronger basic competencies, such as ability to communicate, calculate, compute, analyze, reason, solve problems, and understand global issues, the report says.

Sixty-six percent of respondents agreed that today's educational offerings won't meet the needs of the year 2000 work force.

Some 89 percent advocated more resources for core education, which was defined as basic science, literature, math, and civilization. Seventy-five percent want more money for community colleges, and 74 percent want more resources for four-year schools.

Respondents see post-secondary education as having a key role in the economy (96%), business as dependent on improved post-secondary education (91%), continuing education as important to business (82%), and retraining of adult workers as needing a larger percentage of resources (83%).
