COLLEGE CLOSURE WILL BE BRIEF - The College will be closed on Monday, September 10, from 8-10:30 a.m. for the annual all-staff meeting. Most offices will be closed for $2\frac{1}{2}$ hours; a few may have someone answering telephones or offering minimal counter services. The closure is being minimized this year to cause the least possible inconvenience to students.

JOIN YOUR FRIENDS FOR BREAKFAST - Managers will prepare and serve a no-charge breakfast to staff from 7:30 to 8:45 a.m. on Monday, September 10 in the main campus cafeteria. Volunteer workers include cooks Steve Barton, Verne Whittaker, Diane Dann and Sandy Ing; servers Jerry Moskus, Larry Warford, Ron Mitchell, and Jim Ellison; toast makers James Cagney and Tom Reimer; table bussers Dick Hillier, Jay Jones, Larry Brown, and Pat John; coffee servers Joe Farmer and Larry Romine; and others to be named.

PRESENTERS NAMED - Program for the all-staff meeting, which begins at 9 a.m. on Monday, September 10, in the Performing Arts Theatre, includes: Jim Pitney, chairman of the Board of Education and representative of the Junction City Cultural Society; President Jerry Moskus; reports from the Governance Task Force and Planning/Budgeting Task Force; announcements from LCC Foundation and United Way; and recognition of the Innovator of the Year, the Instructor of the Year, and the Classified Support Person of the Year.

FACULTY MEETS - The faculty will meet at 10:30 a.m. on Monday, September 10, in the Performing Arts Theatre.

PROGRAM MAILED - The complete program for this year's in-service and professional development activities was sent to all staff last Friday via U.S. Mail and inter/intracampus mail. If you didn't get a copy, call Laura Tamura at ext. 2301.

GET THE PRESIDENT ON YOUR CLUB'S AGENDA - Jerry Moskus is available to talk to organizations about LCC all year-long, but would particularly like opportunities during this month and next. Contact the program chair of your group and have that person call 726-2200 to schedule the President. He also will talk to groups at coffee hours held in homes, churches, etc. He will chat informally or present Significant Pursuit, an audience participation quiz about LCC. Be an arranger; help get the LCC story to the community.

WHAT HAPPENS IF... - College Council's agenda today at 1:30 p.m. in ADM 216 includes a discussion on the possible consequences if LCC's tax measure on the November 6 ballot is rejected by voters.

WORKER ORIENTATION SCHEDULED - Training & Development will be holding orientation sessions on September 10-11 for 400 laid off Weyerhaeuser workers and their spouses. The sessions will run from 9 a.m. to 10 p.m. both days in the Forum auditorium. Services to dislocated workers will be explained, but it isn't known at this point how much money will be available to retrain these people, who are mostly Springfield residents.

PARTICIPATION INVITED - The Classified Council Organizing Committee has been meeting to decide on mission, goals, structure, and processes for the new Classified Council. The Council is being organized to give all Classified staff a voice in campus decision making. The Organizating Committee is interested in your ideas. We particularly want input on how members of the Council should be selected. Our meetings are open and we encourage you to take part. Our next meeting is Tuesday, September 11, at 3 p.m. in the Board Room. Or, you may contact any member of the Organizing Committee: Rosemary Busby, Pat Chase, Charlotte Kudlemyer, Elaine Matchett, Marie Matsen, Mary Michaud, Roberta Opdenweyer, Jessica Overturf, Phil Powers, Jerry Sirois, Jane Wojcik, Carol Woodman, Kathy Worth. - Marie Matsen, ext. 2364

September 24-28 is the week for Fall Welcome. There are many activities planned for the first week of classes and I hope you will join in the fun.

The Student Resource Center is making welcome banners for departments. If you have not already received your banner, please call the Student Resource Center, Ext. 2342 or Joyce Kofford, Ext. 2315. They will be happy to help you.

An information booth will be located in front of the PE building again this year. We will need staffing from 8 AM until 7 PM, Monday, Tuesday and Wednesday. The prizes may be claimed at a sock hop Friday evening in the gymnasium or in Student Services during the next week. There will be bands Wednesday and Friday during the noon hour and a BBQ lunch on Friday. The Snack Bar and the Cafeteria will also be open.

We encourage all staff to wear "Ask Me" buttons the first week of classes, which is helpful to students and visitors to our campus. You can ask your departments about the buttons or call Joyce Kofford.

We appreciate your help in providing a warm and welcoming atmosphere for students and staff at LCC. We are all set for a great time.

A CHANCE TO HELP - LCC will have information booths in the community on two weekends in September and needs help staffing them. Call Charlene Blinn now at ext. 2235 to get your name on the list. Sign up for a one to two-hour shift, or more if you can share the time. No special knowledge required, just a positive interest in LCC. A booth will be at Valley River Center on Saturday and Sunday, September 15-16. Saturday hours are 10 a.m. to 9 p.m.; Sunday hours are 11 a.m. to 6 p.m. The other opportunity to help is at the Eugene Celebration in downtown Eugene on Saturday or Sunday, September 22-23. THE DAILY

Published for the staff of Lane Community College Editor: Wendell Anderson, Ext. 2591

DAILY NOW ON MORE FREQUENT SCHEDULE - Starting today, The Daily will be published each Monday, Wednesday, and Thursday. Deadline is 12-noon the working day before publication. Send items to Larry Romine in ADM 211 or place them in the basket marked "Daily" in front of ADM 210. If sufficient news is received, The Daily will add Tuesday or Friday issues as needed. Practice openness; share your department or program news through The Daily.

APPOINTED - In the absence of Bob Marshall, who is recovering from back surgery, John Bernham is serving as acting vice president for Student Services. President Jerry Moskus has named Dr. John Winquist as interim director of Counseling. He will serve through June 30, 1991. Winquist has been a counselor at Lane for 20 years. He also teaches community college counseling at the University of Oregon.

UNDERWAY - Fall In-Service and Professional Development started today with a breakfast in the cafeteria and all-staff meeting in the theatre. Check the booklet, "Bridges to 25 more years of accomplishments," for the complete schedule of activities that runs through this week and next. Fifty-four sessions are scheduled.

CORRECTION - The left-hand page of the centerfold in the printed In-Service schedule should say "Monday, September 17," at the top. The programs on that page include Written Test Construction; Open House, Teaching & Learning Center; and "Leading Collaborative Consensus Decision-Making for Faculty."

FACULTY OPEN ENROLLMENT - If you're a FACULTY employee and are interested in changing from one medical insurance plan to another--or adding a dependent to your medical or dental insurance coverage--you may do so during open enrollment from September 1 to September 28. New enrollment forms may be picked up at the receptionist's desk in Personnel Services. All changes and additions received by Marie Nelson, Personnel Services, by 5 p.m. September 28 will be effective October 1, 1990. Representatives from OEA Choice Trust and Select-Care will be available to answer any coverage questions on Wednesday, September 19, from 9 a.m. to 12 p.m. in the northeast corner of the cafeteria.

KEEP THOSE CHANGES COMING - Changes and corrections for the Directory are being accepted through Friday, September 21. Send them to Larry Romine in ADM 211.

OPEN PROCESS PROMISED - If Lane has to cut \$2.3 million from its budget next spring, the process will be very open, President Moskus told College Council last week. He expects the cutting to focus on what does the least harm to students and employees. It should reflect a vision, he said, "of what we want the College to be, rather than the status quo." In another discussion, the Council was unenthusiastic about a Jefferson, Oregon, developer's request for support for his plan to build 300 units of low-cost housing on the land next to the northeast corner of the 30th Avenue campus. The land is zoned for farming and the developer wants Lane to say his housing is an essential school use so that he can get a permit to build without a zone change.

APPRECIATION - Thanks to Training & Development Chair Patti Basconcillo for sharing the dislocated worker story last week before the Eugene Downtown Lions Club. Among the data she presented was this description of the dislocated wood products worker: 90 percent are male, average age is 42 (range is 22-65), 12th grade education, worked 16+ years in mills, earned wages of \$10+ per hour, wants to stay in this area, believes in American dream of economic stability in return for honest work, and, yes, would eat a spotted owl (preferably fried).

GOT A QUESTION ABOUT SUPPLIES? For information about the new Boise Cascade Office Products supply system, ask Karen Evans of that company on Tuesday, September 11 in Health 269 from 10 a.m. to 12-noon.

STAFFING NEEDED - Call Charlene Blinn at ext. 2235 to help staff booths: September 15-16, VRC; September 22-23, Eugene Celebration; September 24-25-26 Fall Welcome.

DISLOCATED WORKERS ON CAMPUS - About 400 Weyerhaeuser employees and their spouses are visiting Lane today and Tuesday to attend job retraining and career-life planning orientations. Training and Development Chair Patti Basconcillo says her staff and representatives from Weyerhaeuser and the Oregon Employment Division will share what's available for dislocated workers. The sessions are scheduled for 1 p.m. and 7 p.m. today and 9 a.m., 1 p.m., and 7 p.m. on Tuesday, in Forum 308-309. Each will last from one to three hours depending on how many attend and ask questions. Child care is being offered. Weyerhaeuser has helped make arrangements and is funding the sessions.

ROAD BY FOUNTAIN CLOSED - The road next to the fountain on the west side of the 30th Avenue campus, and its parking spaces, are closed to traffic all this week, September 10-14. LTD buses are using the driveway as a loading zone. The regular bus driveway and loading zone are closed for completion of new LTD shelters. Security officers are available along the driveway from 7 a.m. to 3 p.m. to redirect traffic and assist with handicapped parking. The closure won't interfere with access to the west or south parking lots. Questions: Paul Chase, Security manager, ext. 2561.

PLEASE REQUEST CLASS MATERIALS EARLY - Printing/Graphics is experiencing the usual flood of duplication requests prior to the beginning of a term. Please submit work orders for material needed the first day of fall term by this Friday, September 14, to assure delivery. Thanks for your consideration.

He died August 31 of a heart attack at the age of 67. Kocher came to Lane after 28 years service in the Air Force, from which he retired at the rank of Lt. Colonel. He taught here 15 years. About 4½ years ago he married Trish Hawkins of Personnel Services, who survives. Memorial contributions may be sent to the Eugene Symphony at 45 W. Broadway, Eugene 97401 or to Obsidians, Inc., P.O. Her topic is "Writing Across the Curriculum: Researching Spike Lee's Do the Right Thing in a Computer Classroom." Call 726-2255 for further information.

BET YOU DIDN'T KNOW THIS ABOUT CWE - The Cooperative Work Experience Department is in the fourth year of an insurance carrier-funded effort to rehabilitate disabled workers. About 100 people a year are placed in jobs and combine them with courses relevant to the assigned work. The program will begin to offer similar services to disabled veterans this year. Some 90 percent of the job placements are turning out to be permanent.

Ory is a former Lane music student and was a secretary in New Mexico before joining Lane three years ago. She was chosen by a committee which included Steven Myers, Mathematics; Sharon Moore, Admissions; Pat Riggs, Board of Education; Edna Kennel, P/G; and Scott Carpenter, Eugene businessman.

REPORTS WANTED - The Daily wants to expand its coverage of happenings in departments and programs. To that end, here's a report from Mathematics.

PROJECT: SOFTWARE SUPPORT FOR UNDERPREPARED COLLEGE STUDENTS

By Tom Reimer, Chair, Mathematics and Data Processing

The League for Innovation in the Community College and IBM have jointly sponsored a project designed to improve instructional services. The project is to review software for incoming college students who need remediation in the basic skills of reading, writing, and mathematics. The project was written so that participating institutions identify the software for review. A guiding principle is that the software is readily available for a reasonable fee.

Seventy-five reviewers from colleges like Lane Community College were given a computer work station from IBM on permanent loan for software review, with the intention of turning over title at a later date. Each participating institution was to designate reviewers from the three disciplines. At LCC we negotiated for all the machines to be in the Mathematics Department after other departments opted to not participate in the project.

Five Mathematics Department members volunteered to be reviewers: Alice Kaseberg, Dwight Miller, Steven Myers, John Nelson, and Robert Thompson. Their review of software packages has been in addition to their regular teaching loads. Much of the work has been completed this past summer. By their participation, the Mathematics Department at LCC received three computer systems: one each of Model 30-286 80286 CPU, 2 Mb RAM, 1.44 floppy, 30 Mb hard disk, mouse, color monitor, and Proprinter III. Each system is estimated to be worth \$5800.

Each LCC review team member has arranged with software producers for complementary copies of packages to be sent to them for review. A standard review grid was developed by Miami-Dade Community College (MDCC), the League college responsible for implementation of the project. The grid is completed by reviewers for each software package reviewed, and sent to MDCC for compilation. All participating institutions benefit by the hardware they receive, by having direct input to the process of solving the problem of making software available to underprepared students, and will receive the final compilation from all reviewers.

Mechanics Chair Ted Kotsakis says Lane joined Southern Willamette Private Industry Council and 10 area businesses to design the program. It's limited at present to dislocated workers; most of the first class comes from Bohemia's Culp Creek mill. Kotsakis says there are 200 unfilled jobs statewide at present. Lane is the fourth such program in the nation; others are at San Diego, Kirkland, Wash., and Orlando, Fla.

PEOPLE WANT TO STUDY AT LANE - A recent survey by Mar%Stat of Eugene says 45 percent of Eugene-Springfield adults want to take courses and most want to attend Lane. Few have child care problems. More on this in future Dailies.

PRESIDENT PRAISED - The continuing praise for the administrative style of President Jerry Moskus was heard again at last week's Board of Education meeting. George Alvergue, Social Science, said he has "never seen morale or spirit as high as it is at this time." He attributes it to Dr. Moskus' "outstanding and very impressive leadership." Darrell Allyn, former president of LCCEF, said "the morale of classified people on this campus is the highest I've ever seen it." He said people "really feel good" about shared decision-making. Current LCCEF President Jerry Sirois shared a "vote of confidence" from that group's executive board. Moskus "has demonstrated that he is a person of vision with strong leadership skills," Sirois said. LCCEA President Jay Marston congratulated the President and College for not commenting publicly about the change in Flight Technology leadership to protect due process. "We see an Administration that respects and demonstrates the value of decency and ethical behavior," he said, "...and finally we see an Administration that protects the rights of due process."

CONCERN EXPRESSED - Gerald Coldeen, a former member of the Flight Technology Advisory Committee, told the Board of Education of his concern about changes in Flight Tech and about its future. He asked that changes be stopped or that the College consider "selling the property while it still has some value." College Attorney Tim Harold advised the Board that it could not respond at this time because the Board is the last step in a grievance process initiated by the former Flight Tech chair. "The Board has a responsibility to maintain neutrality," he said. It was explained at the meeting that Flight Tech officially has no advisory committee at this time because the terms of its members expired June 30 (along with other College advisory committees) and the department failed to nominate anyone last spring for new or continuing membership for the year which began July 1.

NINE HIRED - The Board of Education has approved these staff appointments: John E. del Nero, instructor, Social Science; Robert A. Farrand, interim chair of Flight Technology; Jean A. Geiger, instructor, Business; Stanton Richard Swank, instructor, Science; Joyce E. Garibay, instructor, Health Occupations; James L. Fuller, instructor, Electronics; Jane M. Scheidecker, director of Small Business Development Center; Russell R. Bowen and Alan B. Clark, instructors, Mechanics.

respondents were registered voters.

This sample provides a reliable indication of the community's response to Lane's questions.

Findings

Lane had five questions on the survey, focusing on child care needs and future education or training needs. The results are:

* Child care needs:

77% of the respondents have no child care problems.

- child care problems prevented 15 (3.8%) of the respondents

from attending school or college.

- those with problems found (a) child care to be too costly, (b) the options to be limited, or (c) the quality to be uncertain or poor.

* Changing jobs or occupations:

approximately 25% of the respondents are considering

changing jobs or occupations.
- 62 (16% of total respondents) would need additional training

to support their job change.

- many of those needing further training were uncertain as to the specific field in which they would seek training.

- Lane was the college of choice for nearly 40% of this group. The next most frequently mentioned college was the University of Oregon (26%).

- Lane was chosen because it is less expensive and convenient and provides good training.

* Taking courses for personal or job skill enhancement:

· 45% of the respondents are considering taking some courses for personal or job skill enrichment.

- the respondents provided a long list of desired areas of study. The most frequently mentioned areas were computers, business general studies, and art.

- Lane was the college of choice for nearly 60% of this group.

The next most frequently mentioned college was the

University of Oregon (9%).

- Lane was chosen because it is less expensive and convenient, provides good training, and has a good reputation.
Respondents also liked Lane's variety of classes and the ability to fit LCC's classes into their work schedules (i.e., night courses).

A copy of the tabulation of responses is available in our office. Data are available on the responses by gender, by age group, and by voter registration status.

Summary

Between a quarter and a half of the Eugene-Springfield residents over age 18 are considering further studies for career or personal enrichment reasons. Lane Community College is the institution of choice for these people. Lane is favored because of its cost, convenience, variety of offerings, and reputation.

With a few exceptions, child care problems are not preventing people from pursuing further education or training.

YOUR REACTION/THOUGHTS SOLICITED - The President's vision and guidelines are central to the planning process. As part of the planning process, the President and the Planning-Budgeting Task Force are seeking feedback. Please review President Moskus' "Thoughts" from the September 10 in-service presentation. Will these items give guidance to planning and delivering services in your area? What modifications are needed? Send your reactions to Jerry Moskus in ADM 214 or Julie Aspinwall-Lamberts in ADM 117 by Friday, September 28.

Some Thoughts by President Jerry Moskus

from remarks at all-staff meeting on September 10, 1990

Lane's strengths through the years:

commitment, innovative spirit, heroic individuals, quality teaching and learning, collaboration Suggested additions: sense of community, openness with civility

What Lane needs to do:

Strengthen the environment for teaching and learning

Improve buildings and grounds.

Eliminate obstacles to student success.

Support Welfare Reform Act participants.

Expand services to dislocated workers.

Expand offerings in outlying areas.

Expand services to senior citizens.

Expand offerings for transfer students.

Include more members of ethnic minorities in teaching and learning.

Build a caring community

Include everyone in decision-making.

- Everyone has a right and a responsibility to be involved in a meaningful way in the decision-making process.
- People who are directly affected by a decision should have input into the decision.
- Decision-making should be conducted openly by consensus rather than through a political process. Decisions should be "win-win" rather than "win-lose."
- Decisions should be made at the appropriate level by authorized or empowered individuals.
- For shared decision-making to work, people must have a sense of the whole institution, not just themselves or their part of it.

Get our financial house in order

Inform voters of services and needs.

Eliminate unnecessary duplication.

Increase partnerships with business and industry.

Reduce expenditures in areas that do the least harm to students.

Reduce student attrition.

Involve everyone in reducing costs and increasing revenues.

I dream of a Lane Community College:

- where people trust each other, respect each other, and work together to provide quality learning experiences;
- where people are empowered to contribute and can become leaders in their own right;
- where the community values and supports us;
- where people experience the joy of teaching and learning.

CONSERVATORY DEDICATED - LCC at Florence dedicated "The Nature Conservatory" in Wednesday ceremonies at its campus at 3149 Oak St. Ribbon cutting was done by Lucy Schafer, chair of the Foundation Committee for Innovation which funded work at the site, and Al Owens, retired director of the Florence center. Named and officially opened were the Eldon G. Schafer Botanical Trail, the Al Owens Forest Corridor trail, and the Dr. Albert Brauer Classroom Grove. The trails are each about a half mile long; the grove is an open area with benches. Eldon Schafer was LCC president from 1970-1985; Al Brauer was a charter LCC Board of Education member from 1964-1976. Further development of the Conservatory is expected in future years, since the campus is only beginning to exploit its nearly 20 acres.

ENROLLMENT UP 20 PERCENT! LCC already has enrolled 20 percent more full-time equivalent students for fall term than a year ago, with another week of registration to go. "We didn't expect this at all," says Interim Registrar Sharon Moore. "We're just swamped!" Moore says a couple hundred additional head-count wouldn't have surprised her, but she now expects about four times that number. Enrollment has doubled in Flight Technology and is up 20 percent or more in Social Science, Electronics, Mechanics, Health and Physical Education, English and Foreign Language, and Data Processing. Almost as large gains are occurring in Business, Mathematics and Science and nearly every instructional department is expected to grow to some extent. Students will be registering through the term for some classes, but 98 percent of them will have signed up by September 28, Moore says.

ALMOST HALF-WAY - The United Way effort is almost half-way toward the goal of \$12,645. Jane Wojcik, campaign chair, reports that contributions total \$6,012 from 86 people. We're 47.5 percent up the chart at right, with about 14 working days left until the October 12 deadline. If you're waiting until payday at the end of this week to send a check or make a pledge, be sure to mark your calendar to remind yourself. Payroll deduction is possible, too. If you've misplaced the pledge card or information material, call Jane at 2627 or one of the other members of the campaign team: Mary Beth Wilde, Kay Mueller, and nursing student Linda Fiske. They're all at Health Occupations at ext. 2617. Thanks for lending a hand to help all the people in this community who are in difficult times.

THIS IS FALL WELCOME WEEK - An information and welcome booth will be located outside between the Health & P.E. and Administration buildings on Monday, Tuesday and Wednesday. Free popcorn and friendly faces are promised students and staff who drop by, says Joyce Kofford of Student Services, who has organized the events. During the noon hours on Wednesday and Friday, bands will play on the north side of the Center building, facing Bristow Square. On Friday, about 11:50 a.m., a helicopter from Flight Tech will carry Maureen Shine, KMTR-TV anchor, over Bristow Square so she can drop about 3,000 numbered ping pong balls. Each can be exchanged for a prize at either a sock hop dance at 7 that night in the downstairs gym or at Joyce Kofford's desk in front of ADM 206 during the week of October 1-5. And, also, there will be a barbeque lunch served Friday noon on the north side of the Center building. Staff are invited to be part of these festivities, though they're not eligible to win prizes unless enrolled in classes. Joyce also asks that staff who possess "Ask Me" buttons wear them this week so students will be encouraged to ask for help as needed.

FEE NOW ASSESSED - Non-student users of Physical Education locker room facilities are now required to pay a fee. For staff, it's \$12 per term; for non-staff, it's the equivalent of a one credit class at \$23. Fees must be paid at Financial Services and receipts submitted to locker room supervisors by the end of the second week of the term (October 5 for fall). Lockers will be cleared after that time. Personal items removed will be held in the issue rooms for one week before being discarded. Questions? Call Lori Bell, ext. 2557, or Bill Schmutz, ext. 2272, equipment rooms supervisors.

FACULTY: LAST WEEK TO CHANGE - If you are interested in changing from one medical insurance plan to another, or adding a dependent to your medical or dental insurance coverage, you may do so during open enrollment through September 28. THE UNITED WAY— IT BRINGS OUT THE BEST IN ALL OF US

The United Way is a network of services that touches all of us in some way.

United Way stretches the community service dollar by coordinating individual and corporate contributions with the community service organizations that can turn those dollars into action. The United Way distributes your donations to agencies and programs in your community. This distribution is carried out by volunteers—some may even be your neighbors.

United Way dollars help provide these and other community services:

- Adoption, children's homes, family service centers, human resource services
- Drug and alcohol abuse centers
- Child and spouse abuse aid, runaway hotlines
- Counseling and mental health services
- Crisis hotlines, traveler's aid societies
- Child care programs
- Emergency shelter, food centers
- Job training, employment assistance
- Disaster relief
- Handicapped services
- Health services, home health services
- Personal development programs (such as YWCAs and YMCAs)
- Senior's services

It's good to know the United Way is working to help agencies to provide these services in our community—and it's good to know we can help the United Way, too! You will help when called on, won't you?
