Please call the Foundation at ext. 2810 to let us know if you plan to attend.

VOCATIONAL AWARDS BESTOWED - Linda Newberry of Florence and Gary Valde of Eugene have been named Outstanding Vocational Educators of the Year at LCC. Outstanding Vocational Advisory Committee Member of the Year is Jim Reeves of Cottage Grove. The trio received awards Friday night, April 26, says Bob Way, head of Cooperative Education.

Newberry oversees health services instruction for LCC's Florence area campus. She developed the curriculum, established practicum sites at local health facilities, and organized on-campus instructional labs, says LCC Florence Director Bill Porter. Newberry's procedures in the Nursing Assistant program were recognized by the Oregon Department of Health and the Board of Nursing for their innovation, professionalism, and overall excellence. Many of Newberry's students have found employment with local health care businesses.

Valde has served as instructor and coordinator of the Farm Business Management Program at the college's Small Business Development Center since 1982. He has earned the respect and admiration of his clients and colleagues for his dedication, warmth, integrity, sense of responsibility, technical expertise and teaching and research skill. He teaches farmers business practices and computer skills that result in improved profit margins, as shown in a comprehensive annual report of the program that Valde produces on his own time for the benefit of clients, agencies and others interested in local farming.

Reeves has guest-lectured in classes, written grants for funding, made presentations, worked at open houses, donated funds, and advocated for Lane's tax requests in 1988 and 1990. He hires LCC graduates, and has sent his employees to the college for CPR training, says Strahan. BUDGET NEWS - LCC's proposed \$43 million budget for 1991-92 is focused upon serving as many students as this year and deferring until 1992-93 possible major cuts which could total \$3.8 million. No significant program cuts are proposed for 1991-92 and layoffs are limited to one half-time position, says V.P. for Administrative Services Dick Hillier.

The budget assumes state backfill of \$1,062,000. If the state fully funds the tax base approved by voters in November, an additional \$3 million in revenue could be realized. The budget also accounts for \$600,000 in additional tuition revenue from charging for every credit hour and other tuition changes approved by the Board of Education in April.

The 1991-92 budget is designed to serve 8,600 full-time equivalent (FTE) students, compared to this year's projected 8,477 FTE. An enrollment cap at the U.O. and workers seeking retraining are expected to continue driving enrollment at Lane.

The 1991-92 budget was presented to the Budget Committee on April 30. The committee meets again on Wednesday, May 15, at 6:30 p.m. in the Board Room, followed by the Board of Education meeting. Guests are welcome.

INSURANCE REMINDER - For faster, more efficient and accurate processing of insurance claims, carry your identification card with you at all times. You will need the group number and your I.D. RV STUDENTS PASS STATE EXAM, PREPARE TO GRADUATE - Seventeen former millworkers retraining as recreational vehicle service technicians at Lane Community College passed a State Fire Marshall's Office licensing exam for gas fitters on April 2 in Salem. They will graduate this spring with certification from the Recreational Vehicle Industry Association (RVIA). A ceremony will be held Friday, June 14, at 7:30 p.m. in the Performing Arts theater on main campus in Eugene. Three have made the honor roll, and four already are working in local businesses.

Mechanical Technologies Department Chair Ted Kotsakis led the effort to launch the RV program last fall in response to a need for skilled labor in the industry. Funding was provided by the Dislocated Worker Program and thus limited to its participants. Kotsakis has requested general funding to open the program to all students.

There are only eight training programs in the U.S., with only two others on the west coast besides LCC, near San Diego, Calif., and Kirkland, Wash. RVIA will be donating equipment and teaching aids and already is providing nationwide job leads. Kotsakis estimates about 50 local jobs are available, and about 200 statewide.

The program will be mentioned in a story about the Northwest's economy on NBC's "Sunday Today" program at 7 a.m. on Sundays on KMTR Channel 16/Cable 6. An NBC crew filming last Tuesday said they didn't know the specific date but it probably would be May 12 or later.

YEAR-END BUDGET REMINDER - Budget administrators should be aware that Friday, May 17 is the cutoff date for receipt of inter-campus order forms requesting correction of all materials and services and capital outlay transactions previously charged July 1990 through April 1991 to incorrect account numbers. If you get close to deadline, please hand-carry your forms to Financial Services. - Linda Sue McDonald

FACULTY NEED TO MEET EARLY AT GRADUATION - Faculty attending the graduation ceremony on May 31 need to assemble in the Jacobs Community Room by 6:45 p.m. Julie Aspinwall-Lamberts from Research, Planning & Evaluation will be the "Faculty Captain" and direct the faculty march. SUMMER TERM NEARS - The summer term schedule of classes goes to the printer this week and is due to be delivered by mail to district homes by May 27. Registration begins June 4; classes start June 17.

Other relevant dates coming up: Memorial Day Holiday is Monday, May 27; graduations are May 30 and 31; and spring term exam week starts June 3.

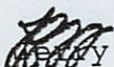

HAPPY NEWS FOR THOSE ATTENDING SUMMER TERM - The new tuition changes don't go into effect until fall term.

NAME CHANGES ALMOST OFFICIAL - Eight instructional departments are using new names these days. The titles become official with the publication of the new catalog (which is due from the printer, Springfield News, by May 22). New names include: Cooperative Education Dept., formerly CWE; Computer Information Technology Dept., formerly Data Processing; English, Foreign Language and Speech Dept., formerly E & FL; Family and Health Careers Dept., formerly Health Occupations; Industrial Technology Dept., formerly IT Programs; Media Arts and Technology, formerly Mass Communication; Mechanical Technologies, formerly Mechanics; and Library, formerly Learning Resources Center.

JUST THE FAX - A few more fax machines would be added around the main campus to take the heat off Purchasing Services, if recommendations of a Fax Committee are followed. Purchasing presently sends and receives faxes for most main campus departments. Additional machines would relieve Purchasing of some of the clerical load and reduce the time departments spend sending staff to pick up faxes received. A Fax Committee appointed by V.P. Dick Hiller met last Friday and agreed that the present combination of a fax center plus satellites should be continued.

RE: Shared Decision-Making

On Tuesday, April 30, the College Council reviewed the responses of the administrative branches, Faculty Council, and Classified Council to the report of the Shared Decision-Making Task Force. Many questions emerged, among them:

Is there really a shared understanding of what shared decision making is?

Is the goal of implementing shared decision-making realistic?

How can we prepare all stakeholders to implement shared decision-making?

It is easy to be critical of the Task Force's report for its idealism, its lack of detail on implementation, and its tendency to ignore the existing administrative structure. The truth is, however, that the Task Force was working in uncharted territory, and their report, taken as a whole, is a remarkable piece of work. It provides a solid philosophical basis for our continuing efforts to make better decisions by involving more people in the process.

We don't have all the answers yet, nor do we have all the structures in place. But I believe we have the will and the commitment to make shared decision-making work. Therefore, all of us on the College Council agreed that shared decision-making should be the process by which LCC will operate now and in the future.

To begin to implement this new order, we need to do the following:

1. Select members for the 1991-92 College Council, as constituted in the Task Force report. The selection processes will be the responsibility of Classified Council for the three classified representatives, ASLCC for the three students, Faculty Council for the three faculty, and Executive Council for the four managers. Seventh Week of Spring Term

THE DAILY

Edited by Joan Aschim

Published for the staff of Lane Community College
747-4501; Ext. 2591

TODAY: FUNDRAISERS MEETING - The LCC Foundation is holding a meeting for all staff on campus who are doing fundraising for a campus department or program, today, 12-Noon in the Board Room, brown-bag style.

OLD GROWTH ISSUES TO BE DISCUSSED - Karen Wood for Earth First! and Jim McCauley for Associated Oregon Loggers will debate old growth issues on Monday, May 13, from 1-1:50 p.m. in Jerome Garger's Peace & Conflict Studies class, Center 446. Their topic: "Deciding the Fate of Opal Creek." Guests are invited.

GRADUATES EARN MORE - Students who complete LCC programs and receive certificates or degrees earn more money when employed than students who leave before completing requirements. That applies to both transfer and vocational students and is particularly true for the latter.

In comparisons of students who left in 1985-86 and in 1986-87, vocational students who graduated were earning \$59 to \$80 a week more by 1988-89 than those who left without graduating. The graduates started at higher pay rates and moved up the pay scale faster as time passed.

The numbers came out of LCC's portion of the Oregon Automated Follow-up (OAF) Study. Dr. Larry Brown of Research, Planning & Evaluation conducted the study for LCC.

RECEPTION TO HONOR LONG-TERM EMPLOYEES - A reception to honor retiring employees and those who have served 10 or 20 years is planned for Thursday, May 16, in the cafeteria. Refreshments will be served at 3 p.m. The program will begin at 3:30 p.m. If you have flowers to help decorate the reception, please bring them to the President's Office that morning.

COMMUNITY & ECONOMIC DEVELOPMENT BRANCH FORMING

President Jerry Moskus announces the formation of a fourth administrative branch, Community & Economic Development, effective May 31. It will be headed by Executive Dean Larry Warford.

The restructuring will relieve the administrative overload of the vice president for Instruction by shifting most of the responsibility for serving nearly 20,000 non-credit students per year to the new branch. It also will make it unnecessary to fill two vacant assistant to the vice president for Instruction positions, and dean for evening and weekend college, thus avoiding the spending of \$200,000 a year. And it will facilitate increasing emphasis upon economic development, which is one of Dr. Warford's areas of expertise.

Dr. Moskus said a possible promotion of Dr. Warford to vice president, a title used by the other three branch heads, will await an affirmative action review by an outside expert to be named. "It appears that there is no affirmative action issue in this change," Dr. Moskus said, "because it involves moving existing staff." He has received requests from staff for a review, however, and therefore will pursue the question.

The new 500-person branch will have a \$9.8 million budget. The latter includes \$5.5 million in grants, contracts, and gifts. From the Community Education and Economic Development Division will come six departments, 13 programs, 25 full-time faculty, 400 part-time faculty, 40 classified staff, and nine managers.

Several CEED departments won't be part of the new branch. Instead they'll report directly to the President. Oregon Small Business Development Network works primarily with other community college presidents. LCC at Cottage Grove and LCC at Florence will report to the President "as a way of sending a message to those communities of their importance," Dr. Moskus said.

Moving into the new branch along with Dr. Warford are departments which have been reporting to him. Included are Research, Planning & Evaluation, Institutional Advancement, and KLCC. Involved are 26 people and a \$2.5 million budget; most of the latter comes from gifts and contracts.

Dr. Warford, 50 on May 10, has been at LCC since 1978. He has served as assistant dean of Instruction, executive assistant to the President, and since 1986 as executive dean. Before coming to LCC, he taught business, was an assistant dean for vocational education, and was a dean of adult and community education, all in Iowa. He also was a field associate and consultant for the American Association of Community and Junior Colleges. His dissertation for a Ph.D. degree from the University of Oregon focused on contract training.

AFFIRMATIVE ACTION OFFICER RECOMMENDED - The 22-member Task Force on Ethnic Diversity, which is preparing a report to the President, reportedly will recommend that a full-time affirmative action officer be hired. President Jerry Moskus told the College Board of Education last week that he "strongly supports" the suggestion, though the 1991-92 budget doesn't include money for the position.

BUDGET TENTATIVELY APPROVED - LCC's Budget Committee last week gave approval to a \$42.9 million budget for the fiscal year which begins July 1. That's up \$2.7 million (6.8%) over this year. Most of the increase accommodates negotiated salary hikes. The growth is made possible by a projected 4% increase in tax revenues, an increase in tuition and fees, and higher than projected carryover revenues. The budget will finance serving 8,600 full-time equivalent students. This year's budget was built to serve 8,200 FTE, but projections suggest the College actually will serve 8,600. Looking ahead to 1992-93, it appears that the difference between projected revenues and projected expenditures will be about \$4 million. That could change, says Vice President for Administrative Services Dick Hillier, as the state allocation picture becomes clearer.

WHAT COURSE DOES THIS DESCRIBE?

"One and two foot glides, swizzles,
wiggles, crossovers, stops, and starts."

This is part of an actual description of a new course approved by the Board of Education at its meeting last week. Is the course College Administration, Shared Governance, How to Organize a Faculty or Classified Council, or something else? It's Ice Skating Beginning, one of 13 new courses (one in Business, two in Health & Physical Education, and 10 in Mechanical Technologies). The Board also approved six revised courses, two new certificate programs (Cabinetmaking and Recreational Vehicle Service Technician) and four new programs (Technical Communication, Manufacturing Technology: Computer Numerical Control Technician Option, Auto Body and Fender Technology: Auto Paint Option, and Auto Body and Fender Technology: Auto Collision Option.

BOARD BUYS SERVICES - Bid awards at last week's Board of Education meeting included: a contract for printing of the quarterly schedule of classes to News-Register Publishing of McMinnville for \$67,500 a year; purchase of a \$47,158 theatre lighting control system for Performing Arts from ColorTran, Inc., of Burbank, CA; a contract to SAIF Corporation of Eugene to provide workers' compensation insurance for 1991-94; appointment of Corroon and Black Insurance of Eugene as the College's general insurance agent of record for 1991-94 for a fee of \$25,000 for the first year, with the fees for subsequent years to be negotiated.

TODAY

A public hearing will be held today, May 21, from 2-3 p.m., in ADM 216, on the question of whether LCC should eliminate baseball, volleyball and men's and women's cross country in order to better support those sports that remain. LCC would be left with basketball and track and field, each for both men and women.

An Athletic Study Group appointed by Vice President for Student Services Bob Marshall met six times in April and May. Bob Creed, chair of Health & Physical Education and Athletics, chaired the group, which included: students J.R. Bonebrake, Marie Stafford, and Amy Bruhn; Pat Williams, International Student advisor; Marie Matsen, Research, Planning & Evaluation; Marilyn Rholl, Business; Jim Keizur, Computer Services; and Don Wilson, Social Science.

The group made four recommendations:

- 1."That NO athletic teams be eliminated..., as this is as important an educational program as any other on campus. Four teams were eliminated in 1982 (men's and women's tennis, soccer, and wrestling) and this is interpreted as lack of support for the athletic program. More financial support is needed.
- 2."Full-time coaches should be hired campus-wide as vacancies occur. The burden of full-time faculty/coaches should not fall entirely on the Health & P.E./Athletic Departments.
- 3."There should be a balance of full-time coaches among the men's and women's athletic teams.
- 4."That an advisory committee of shareholders of the College and lay citizens be formed to support/advise the athletic program...."

Harland Yriarte, former track and field coach, told The Daily that the coaches disagree with the Athletic Study Group. They would prefer to have fewer sports than to struggle with inadequate budgets. Marshall backs the coaches' position. Following the public hearing, he will give his recommendation to President Jerry Moskus, who will take it to the Board of Education at its June 10 meeting. Dr. Moskus has described the situation as making a choice between quality programs and providing playing opportunities for the most students.

PUBLIC HEARING ON VALUE STATEMENTS - Testimony will be taken today, May 21, on the proposed value statements that will be used to guide instructional cutbacks a year from now if the College has a several million dollar shortfall for fiscal year 1992-93. The Instructional Branch Reshaping Task Force created the values list and distributed it college-wide. The public hearing starts at 3:30 p.m. in FOR 309. Vice President for Instruction Jim Ellison says he'll be present to listen to suggestions and concerns.

COLLEGE COUNCIL MEETS TODAY - College Council will meet today, May 21, from 3-5 p.m. in ADM 216. The agenda includes: an update on administrative restructuring, Classified professional development proposal, special fees increase, student information center, smoking issue, Apprenticeship Building ventilation.

The Classified Professional Development Team is proposing such recommendations as these: Each employee should attend a half-day workshop four times a year. A Classified Employee of the Month award should be initiated. Cross-training and job switch options should be explored. A budget for professional development should be established.

Members of the Team include: Frank Marshall, Financial Aid, chair; Alen Bahret, Computer Services; Julie Baker, Curriculum Scheduling; Debora Coelho, High School Completion; Zendra Cates, Financial Services; Phil Powers, Audiovisual Services; Vicki Ramsey, Adult Education/DTC; Wendy Westfall, Security & Auxiliary Services; Jane Wojcik, Health Occupations; and Ginger Yamamoto, Testing/Counseling.

COLLEGE COUNCIL AGENDA, continued from page one

Dozens of instructional fees presently exist and the instructional departments are proposing that all be retained and, in addition, that 71 fees be added or increased. Vice President for Instruction Jim Ellison supports the new or changed fees.

The Student Information Center issue relates to a call from marketing staff for a central telephone number and place where students and prospective students can be referred to get information about College programs and services.

The ventilation issue comes from staff in the Apprenticeship Building who believe their health and safety are being compromised. They cite illnesses they believe are linked to fumes and odors from the welding shop on the first floor of the building and to vehicle exhaust fumes which may be finding their way into the ventilation system.

LCCEA ELECTS MICKEN AS PRESIDENT - Donald H. Micken, instructor of technical drafting at LCC since 1975, has been elected to head the faculty union for 1991-92. He succeeds Jay Marston, Science, who has led the group for the past two years. Micken earned a bachelor of architecture degree at Montana State University and an M.S. and Ph.D. in educational psychology at the University of Oregon. He has worked as an architect, homebuilder and carpenter.

Although turnout was low at the hearing, those in attendance generally supported the task force's direction. Tom Birkenhead, business instructor, suggested evaluating programs from a traditional business "return on investment" point of view, or looking at how much FTE is generated per dollar, in addition to evaluating programs on a cost per FTE basis.

The next hearing scheduled for June 4 will address criteria for evaluating programs. Further plans call for the task force to identify potential reductions during summer, notify at-risk programs in September, hold another hearing in October, and announce reductions for 1992-93 in mid-November. Planning is dependent on state funding, said Ellison.

Interested staff may get a copy of the task force' preliminary report and its detailed list of value statements by contacting their vice presidents.

MORE CASH CARRY-FORWARD EXPECTED - Because budget administrators are avoiding spending where possible, the College's year-end cash carry-forward may be \$300,000 to \$500,000 greater than expected. The actual figure will be known this summer or later as the 1990-91 audit is done. Vice President Dick Hillier shared the good news with College Council Tuesday.

In other business, the Council was advised that Vice President Bob Marshall will recommend to President Jerry Moskus that athletics be limited next year to men's and women's basketball and track. Administrative Services is studying the possibility of converting part of the College's electrical load to gas as a hedge against rising rates. Administration is looking for means to fund the hiring of an affirmative action officer. President Moskus announced that Jeanette Pai, state affirmative action officer, and Jorge Espinosa, Portland Community College affirmative action director, will visit today to help determine if there is an affirmative action issue in the appointment of a vice president for Community and Economic Development. Discussion of childcare for students' children will continue at a meeting Friday, May 31, 3:30 p.m., ADM 216. Council's June 4 meeting has been cancelled. Council meets next on June 18. 3 p.m., ADM 216.

BETTER AIR ON THE WAY - Paul Colvin, director of Campus Services, says his staff is looking for ways to get better quality air into the Apprenticeship Building. Air intake systems are being examined. Alterations may be done by fall. Meanwhile, testing indicates that air quality in the building is within acceptable limits by OSHA standards.

SMOKING FORUM PLANNED - Jerome Garger, English and Social Science instructor, is organizing a forum on smoking to be held during fall in-service.

CALL FOR NOMINATIONS TO COLLEGE COUNCIL

Faculty Council and Classified Council call for nominations for the classified and faculty at-large positions on College Council (one each). Nominations must be returned to the Daily by Tuesday, June 4, for processing by councils' representatives.

Classified Council decided to fill its three positions on College Council from the classified union, the classified council, and from classified staff at-large, reports facilitator Rosemary Busby. Faculty Council teamed up with Classified Council for the same purpose and decided to use the Daily to solicit nominations and votes.

With the implementation of shared-governance across campus, it is essential that faculty and classified be fully represented, says newly-elected LCCEA President Donald Micken.

Please use the form below. A follow-up call for votes will run in the Wednesday, June 5 issue of the Daily and will be due Friday, June 7.
