Week Two of Fall Term

UNITED WAY - LCC has reached 78 percent of its United Way campaign goal. Thanks go to 134 staff members for their gifts and pledges totalling \$12,863. Please fill out your pledge card and return it now. If you need one, contact Jane Wojcik, Family & Health Careers, ext. 2627. Thank you for your continued support for this extremely worthwhile program!

BUDGET PRIORITIES IDENTIFIED - Seven areas would get priority treatment in a proposed supplemental budget this year if the Legislature funds LCC's tax base increase passed in 1990. College Council reviewed the list Tuesday. It calls for

spending on 1) academic areas of rapid growth; 2) repair and remodeling of buildings; 3) replacement of outdated and worn out equipment and furniture; 4) technology such as software to upgrade instruction and services; 5) development of professional/technical options that involve laddering, shorter programs, unblocked curricula, 2+2 agreements and updated curricula; 6) staff development; and 7) support of revenue-generating activities.

In other business, Council heard about a <u>Parking Alternatives</u>
<u>Committee</u> which is seeking ways to help DTC students facing increased city
parking fees. Larry Warford is the chair; other members include Larry
Murray, Dick Hillier, Bob Marshall, Eileen McCormack, Donna Peoples, Ernie
Woodland, Thad Cowdin, Ron Van Scoyoc, Russ Brink, and Scott Luell.

Subcommittees are being formed to deal with specific areas of possible <u>duplication</u> within the college identified by last year's Duplication Task Force. The Daily will report as names are firmed up.

A <u>Shared Decision Making Evaluation Design Team</u> is being formed to look at LCC's progress in this area. A proposal to produce a staff/student report on shared governance is being referred to that team.

Council agreed to support present <u>admissions requirements</u> to programs such as those in Family & Health Careers. That department uses point systems to determine who gets admitted. A suggestion has been made that older students be given special consideration for admittance.

President Jerry Moskus has written a summary of the Sept. 21 work session of the Board of Education, College Council, Executive Council, and resource people. Titled "Lane Community College in the Next Five Years: A Vision," it talks about prioritizing the needs of the college and proposes guidelines for spending new monies that might come from tax base funding. Copies are available from members of the College Council or The Daily.

DALE PARNELL REPORTS ENROLLMENT UP STATEWIDE - Dale Parnell, Oregon community college commissioner, says first-week reports from the state's 16 two-year colleges show a headcount of 99,468, more than eight percent higher than at the same time last year. The schools report more full-time students with a significant increase of recent high school graduates.

First-week tallies of credit students by college: Blue Mountain 2,624 up 18 percent; Central Oregon 3,070 up 4 percent; Chemeketa 11,704 up 15 percent; Clackamas 12,584 no change; Clatsop 1,555 up 1 percent; Columbia Gorge 1,025 up 24 percent; Lane 9,400 up 10 percent; Linn-Benton 7,732 up 6 percent; Mt. Hood 9,229 up 4 percent; Oregon Coast 1,461 up 9 percent; Portland 27,000 up 7 percent; Rogue 2,780 up 19 percent; Southwestern Oregon 2,831 up 43 percent; Tillamook Bay 632 up 9 percent; Treasure Valley 1,628 up 9 percent; and Umpqua 4,123 down 5 percent.

HEADCOUNT UPDATE - Benchmarks prepared by Research, Planning & Evaluation show that over the past six years, from 1985-86 through 1990-91, there has been a 17.8 percent increase in credit student headcount. Non-credit student headcount has increased by 13.4 percent for the same time period. The total unduplicated headcount shows a 14.2 percent increase. It reached an all-time high last year at 33,212.

MORE ACTION TAKEN ON APPRENTICESHIP BUILDING - The college will expand its current and planned efforts to remove possible health hazards in the Apprenticeship Building in response to the results of OSHA testing reported this week.

Director of Campus Services Paul Colvin says OSHA tests done in July have revealed significant levels of lead in dust found in the building, although all air samples have tested clean. OSHA said improvements already underway should help considerably, but will issue three citations to the college to increase housekeeping efforts, to provide training to affected current employees about lead exposure, and to convene a safety committee. Affected staff met Wednesday with an OSHA representative and members of the administration, and will be provided continued information and services.

The college has spent about \$52,000 since June in improvements. Ceiling tiles have been replaced, portable exhaust hoods for welding units have been purchased and are in use, a cutter blade on a large saw has been replaced with an odor-reducing blade, and air filters have been changed and are being monitored. Still in progress is relocation of an air intake duct. Ducts will be cleaned by a specialist contractor next Thursday and Friday and the building will be closed for that purpose.

The college is offering blood tests for employees to check for lead s. It also will have an industrial hygienist from SAIF examine the building today or tomorrow and determine whether it should be closed. If the building need not be closed, the college set up an aggressive monitoring

program, add housekeeping staff and efforts, and spot test other buildings.

Although welding activity is suspected to be causing the lead dust, the source is not certain and more testing will follow.

'BUTT OUT,' SAY RESPONDENTS - Most LCC staff would ban smoking indoors, according to a survey conducted in recent weeks by Jerome Garger of the English and Social Science faculties. The survey resulted in a 57 percent return, a very high rate according to survey analyst Dan Hodges of Testing.

return, a very high rate according to survey analyst Dan Hodges of Testing.

Some 79 percent of the 536 respondents want a total ban of smoking in their work areas. Majorities also asked for bans elsewhere: in restrooms, 91 percent; in elevators, 96 percent; in cafeteria and snack bar, 62 percent; in lounges, 74 percent; in conference rooms, 91 percent; in stairwells, 90 percent. Reasons suggested for the ban: health effects, 80 percent; clothes and hair smell, 69 percent; eye irritation, 63 percent; coughing, 48 percent; headaches, 40 percent.

Respondents by a 68 percent margin said the college should offer free programs to help employees stop smoking. But, only 25 percent of the smokers said they'd be willing to attend such a program. Some 36 percent said maybe

and 39 percent said no.

A sample of non-smokers' comments: I do not use our cafeteria because of the smoke... How can the college ignore the fact that second-hand smoke is carcinogenic?... Makes me sick to my stomach... Should be smoking in offices where students may be seeking services... Clean indoor air would be part of the "total quality" movement Dr. Moskus is urging.

part of the "total quality" movement Dr. Moskus is urging.

A sample of smokers' comments: Personally, I am offended by the fragrance of most perfumes, soaps, and colognes because of my allergic reaction. Possibly, we could have designated places on campus for those choosing to wear a fragrance?... Being forced to not smoke only makes some people want to smoke more... Exaggerated thinking and exaggerated claims... There will always be whiners that can never be satisfied.

College Council will discuss a process for making a recommendation on smoking policy at its Oct. 22 meeting (see above).

COLLEGE COUNCIL REPORT - Lane will participate in the validated parking program for downtown Eugene, said Larry Warford at College Council yesterday. The college will provide a subsidy so that students will pay only 25 cents per hour. He said the city will be asked to change now-metered parking spaces to validated spaces in the lot directly across from the DTC. In the meantime, a study of alternatives continues.

In other business, council agreed that an annual progress report on shared decision-making at Lane should be postponed until completion of an evaluation of the process.

Council supported President Jerry Moskus' suggestion to keep the task force on ethnic diversity going as an advisory committee. Moskus said recruitment for an affirmative action officer is underway and that he felt having a trained specialist on board would serve the college better than having affirmative action issues decided at the council level; council agreed.

Arriving at a process for creating a smoking policy took the longest discussion and included several comments from guests who identified themselves as student smokers. Council decided that students should be given more time to respond through ASLCC efforts to include a survey, and that their response, plus the staff survey already conducted by Jerome Garger, be discussed at faculty and classified councils, and one more time at college council. The issue should be put to the Board of Education for discussion at its December meeting which may make an apparature of final decision on at its December meeting, which may make or postpone a final decision on smoking policy at that time.

Council meets again on Thursday, Nov. 7, from 3-5 p.m., location to be announced.

This will apply where early intervention of a case manager can affect costs, and on diagnoses/procedures that have been identified as having high potential for overutilization.

Blue Cross continues to recommend that all inpatient stays at nonparticipating and out-of-state facilities be precertified. This will protect you from post-hospitalization cutbacks due to services not being medically necessary.
