Week 1 of winter term

Budget hearings scheduled for staff and students

As promised by Executive Cabinet, hearings have been set to allow staff and students more opportunities to comment on the budget reduction process and recommendations. Cabinet announced its initial recommendations in an all-staff meeting on Dec. 16. Staff and students are encouraged to bring their concerns or questions to the hearings:

- Monday, Jan. 11, 1:30-2:30 p.m., Forum 309
- Tuesday, Jan. 12, 8:30-9:30 a.m., Board Room

Closure questions answered in operations manual

There's been a lot of confusion the past week over closures and late starts because of bad weather. Following is the official policy on closures in the Business Operations Manual:

- When the college is officially closed, all bargaining unit members, part-time credit instructors, and management employees scheduled to work will be paid as if they worked.
- If you are required to work when the college is officially closed, you are entitled to time off with pay on a straight-time basis.
- If you schedule leave on a closure day, your leave account will be charged as originally scheduled.
- Hourly employees are paid only for hours they actually work.
- If the college officially closes after work has started, eligible employees receive leave with pay for the remainder of the work day.
- If you are scheduled to report to work before a closure is announced, but have not reported at the time of the announcement, you may take personal leave, vacation leave, compensatory time, or leave without pay for hours not worked before the closure, as approved by your supervisor.
- If you choose to come to work late or leave early because of bad weather, you may take leave without pay, vacation leave, personal leave, or compensatory time, as approved by your supervisor.
- If you choose to work all or part of your schedule during an official closure, you receive no additional pay or time off.

The college was officially closed on Dec. 30, 1992. If you have any questions, consult the BOM, "S-5, Emergency Plan," or check with Personnel.

Meet King Provenmire

H. Kingsley Provenmire joined the Flight Technology Department faculty this fall. He came to Lane from America West Airlines in Phoenix, AZ, where he worked as a systems instructor. His aviation background includes positions as research psychologist for the University of Dayton Research Institute in Higley, AZ, training advisor for the US Coast Guard Aviation Training Center in Mobile, AL, and head of research flight operations for the University of Illinois Institute of Aviation in Savoy, IL. He also has consulted in aviation safety and flight training. As of joining Lane, Provenmire had logged more than 7,000 flight hours, 1,000 multi-engine flight hours, and 5,000 flight instruction hours.

He says what attracted him to Lane was the flight training program's reputation for excellence. He says the program has a unique commitment to standardization that keeps up with the industry and enables pilots to work together well.

Provenmire has a special interest in "cockpit resource management," or leadership, teamwork, and communications skills for pilots. He says that the captain "used to be God" but

modern times rely on teamwork. Emphasis now is placed on the value of the entire crew.

Provenmire has a bachelor's degree from San Diego State University and a master's from the University of Illinois. He is an FAA airline transport and certified flight instructor and has advanced and instrument ground instructor ratings. He is a member of the Human Factors Society which concerns itself with man and machine design, and he belongs to the Association of Aviation Psychologists.

What does he like best about his new job? "I get to fly. And I get to work with the leading edge of learning."

The curriculum transformation workshop scheduled for Friday, Jan. 8, will be held from 2-5 p.m. (not 1-5 p.m.) in PE 205. For more information, contact Kate Barry at ext. 2264.

"Unity through Diversity" is theme for MLK Day

"Unity through Diversity" is the theme for this year's Martin Luther King Day staff development activities. Keynote speaker will be Dr. Milton Bennett, director of the Summer Institute for Intercultural Communication. The institute has become one of the most reputable programs for intercultural training and education in the country.

The day will feature a variety of short workshops to allow staff to select sessions meeting their needs and interests. Activities will be held from 8 a.m. to 4:30 p.m. A complete program will be in intercampus mail early next week. - Julie Baker, ext. 2199

Maralyn Shepard named classified employee of the month

Maralyn Shepard, transcript records clerk in Student Records, has been named Outstanding Classified Employee of the Month for January. She has worked at Lane since 1977. She started out part-time in Admissions and became full-time about four years ago when she joined Student Records. In addition to her job, she participates in the Staff-Student Mentoring Program.

"Maralyn always has a smile for students," say her co-workers. "She is willing to help students even on her own time." She is known for a sense of humor and a respect for others. Her post puts her on the front lines where she serves diligently. A recent bout with cancer did little to dampen her humor or her dedication. She is a problem solver, not an avoider, with strong listening skills. She is adept at operating the department's state of the art equipment.

Shepard won a certificate and a mug, a reserved parking spot, and lunch with the president. Her portrait will be posted on the LCCEF bulletin board in the Cafeteria.

Learning disabilities book and support highly recommended

If you are interested in learning more about students with learning disabilities, the Library has purchased an excellent book. "Succeeding Against the Odds" by Sally L. Smith is catalogued under LC 4705.266. Linda Wong of Study Skills highly recommends this book for those who wish to gain insight and acquire a few new strategies.

Wong also encourages faculty and staff to remind students who seem to have learning difficulties that there is a learning disability support group that meets every Friday from 2-3 p.m. in Center 480. Students do not need to have formal testing documenting learning disabilities to attend. Group discussions, video presentations, guest speakers and study skills strategies are included in this free support group. For more information, contact Linda Wong at ext. 2444 in Study Skills.

Moving

Counseling and the Career Information Center are moving this week to the remodeled area on the second floor of the Center building.

Dental hygiene clinic wins appreciation

The University of Oregon's Student Health Center Dental Clinic director recently wrote "to formally express my appreciation and support for the Dental Hygiene and Dental Assisting programs at Lane Community College." Debra L. George says, "The dental programs provide the community with excellent professionally trained employees. The programs, specifically dental hygiene, also provide periodontal therapy for residents of Lane County who otherwise would not be able to afford dental treatment.

"Often, University of Oregon students have not had dental treatment for five or more years and they face severe financial hardship to pay for restorative dental treatment. They cannot afford the periodontal therapy costs of private dental practice or the lower costs of the University of Oregon Student Health Center Dental Clinic. Fortunately, I have confidence in referring all interested people to LCC for periodontal therapy. I know they will receive excellent affordable and accessible care."

Ed Humes' work a tribute to public sector partnerships

Eugene city police are especially grateful to Ed Humes for his recent work on the "live fire house" the college helped construct for city emergency services personnel training recently. "I would like to underscore the exceptional efforts of Ed Humes for construction of the cat walk observation platform," wrote chief of police Leonard Cooke. "The commitment of Mr. Humes and his staff to the project is evident from the very excellent quality of the structure. It is because of the exceptional efforts of persons such as Ed Humes and his department that we can successfully demonstrate to the public the value and effectiveness of public sector partnerships."

Budget hearings scheduled for staff and students

As promised by Executive Cabinet, hearings have been set to allow staff and students more opportunities to comment on the budget reduction process and recommendations. Cabinet announced its initial recommendations in an all-staff meeting on Dec. 16. Staff and students are encouraged to bring their concerns or questions to the hearings:

- Monday, Jan. 11, 1:30-2:30 p.m., Forum 309

Grants manual available

If you are developing a grant proposal, or thinking about seeking funding for a special project, be sure to get a copy of the college's grants manual from Institutional Advancement. The manual contains helpful information about grant development, grant writing, and the college's grants procedures and timeline. Grant developers should keep these deadlines in mind:

- When you first decide to seek funding—
Read the college's Grants Manual!
Complete and circulate Grant Review Form, Part A, Preliminary Approval
- As early as possible—
Develop draft of proposal
- No later than **10** working days prior to mailing—
Provide drafts to Financial Services and Institutional Advancement for review
- No later than **5** working days prior to mailing—
Circulate 1 copy of final proposal and 1 copy of funding source guidelines and Parts A and B of college form to people on list for sign-off

Week 2 of winter term

Today: Martin Luther King Jr.'s real birthday. He was born in 1929. The holiday is Monday.

Closure questions and answers

The recent siege of snow closures has uncovered some areas of confusion for students and staff. Here are answers to some of the most frequently asked questions. Instructors, please share this with your students if possible.

Q How do we know for sure that the college is closed?

A When the decision is made to delay classes or close the college, the college immediately notifies 10 TV and radio stations, including KLCC. This could happen any time during the day; however, early morning closure decisions are made and reported to the media by 6 a.m. If the stations are not reporting a closure, you should assume the college is open.

Q Should staff report for work?

A When the college is closed or classes are canceled, staff should not report to work unless specifically directed to do so by the media or their supervisor.

Q What do delays mean?

A If the opening of the college is delayed until a certain time, for example, 10 a.m., all classes and other activities scheduled to begin before 10 a.m. are canceled that day. This cancellation would include all classes that *begin* before 10 a.m. even if the class is scheduled to continue past 10 a.m.

Monday: Martin Luther King Day in-service

Classes will not be held Monday, Jan. 18, and no services will be available, but staff should report for in-service beginning at 8 a.m. in Performing Arts Main Theater. In-service brochures were delivered to departments Thursday.

Reminder: budget hearings rescheduled

Budget hearings have been rescheduled to Tuesday, Jan. 19, 3-4 p.m., Board Room; and Wednesday, Feb. 3, 9-10 a.m., Forum 309.

Mainframe will be down Monday

The mainframe computer will be down for maintenance on Monday, Jan. 18.

Lane employee brought Anne Frank exhibit to Eugene

Norm Campbell, an instructor in the Dislocated Worker Program at Lane, is the dedicated volunteer who brought the internationally renowned Anne Frank exhibit to Eugene. Titled "Anne Frank in the World, 1929-1945" the exhibit opened Jan. 4 at the First United Methodist Church at 1376 Olive Street in Eugene and will run through Feb. 1. Hours are 9 a.m. to 8 p.m. Mondays, 9 a.m. to 4 p.m. Tuesdays through Fridays, 10 a.m. to 5 p.m. Saturdays, and 1 p.m. to 5 p.m. Sundays. Admission is free.

Campbell visited Anne Frank's hiding place in Amsterdam 20 years ago. The visit had a lasting impression. When he discovered that the Anne Frank exhibit was booked for Portland last November, he decided to see if he could get it to Eugene.

After two attempts at trips to visit exhibit's owner, the Anne Frank Center in Amsterdam, he finally made it last spring. The only opening for 1992 or 1993 was this January. Normally requiring 18 months of preparation time, Campbell had only seven months to do it. In that time he recruited three major sponsors, a steering committee of 10, and 200 volunteers.

"Nobody knew who I was," he said of his fundraising challenges. He had no specific political or religious agenda to fill; he simply wanted Anne Frank's message to reach more people. For that, he won support.

Fundraising publicity this summer caught the attention of Jerry Seifert and Patrick Torelle of Performing Arts. They thought it would be a good time to do "The Diary of Anne Frank." Only later on did the men discover that they all worked at LCC. The play is sold out but efforts are underway to book additional performances (see next page).

Campbell joined Lane in July as a part-time training specialist in Training & Development at LCC in Cottage Grove. He went full-time in October when he moved to main campus to teach career and life planning in the Dislocated Worker Program.

Seats going fast for additional performances of Anne Frank

Performing Arts says some tickets are left for Feb. 12 and 13 performances of "The Diary of Anne Frank." One additional and final performance has been scheduled for Feb. 14 at 7 p.m. If interested, call the Box Office at ext. 2202 from 12-4 p.m.

Classified union meetings announced

The Lane Community College Employees Federation has scheduled two membership meetings for Wednesday, Jan. 20, at 12-noon and 5 p.m. in Forum 309. Delegate nominations for the upcoming OFTEPH convention in April will be held at both meetings. The medical premium co-payment and the classification system updates will be presented and discussed. The bargaining preparation for wages in the new classifications will be introduced.

Thanks

- Although most of us weren't here to see it, the grounds crew and other **Campus Services** people did an excellent job of removing the snow and ice on campus -- and did it again and again. I want to express my special thanks to them for their extra work over the past few days. - Jerry Moskus

- The campus walkways looked great when we all arrived on Wednesday. Thank-you to **Campus Services** for getting all that done before most of us even arrived. - Sandy Ing

- Kudos to **Foodservices** staff who all reported to work early on Monday so that there was nice hot food and coffee for everyone when they were scheduled to arrive. Originally scheduled as a delay, campus in fact closed altogether, so most of you didn't get to appreciate their hard work, but they were here, and the coffee was fresh brewed and hot. Thanks! - Sandy Ing

- Thanks to **Computer Services** for an outstanding job of running 10,334 grades in the new COCO system on an unusually short deadline. Computer Services staff worked to put in place all appropriate features to assure that accurate honor lists, probation/dismissal lists, etc., were generated in a timely manner. **Instructional departments** did a great job of getting all grade sheets in within that short deadline too, and grades were mailed out on time. Thanks too for continued support from the **Printing/Graphics** and **Mailroom** staff. We appreciate you! - Student Records staff

Do you have a good idea for a graduation speaker?

SAVINGS BOND IDEA: After talking with the director of Financial Services, it has come to my attention that currently LCC has no provisions to allow its employees to have deductions made for purchasing US Savings Bonds. Currently, the interest rate for US Savings Bonds is at 5.25% which is about twice the rate paid for most passbook savings accounts at most banks in the area. Beside the attractive rate of interest available to the individual who may be able to put away only a small amount on a regular basis, the bonds also provide tax exemptions for savers when the bonds are purchased for their children's education. The primary reason for such a savings program not being available would seem to be the current lack of a "critical mass" of LCC employees interested in seeing such a program come about. I would like to conduct an informal poll of the Daily's readers and see if there are more people interested in seeing the opportunity made available to LCC personnel. If you're interested in having the ability to have US Savings Bonds purchased through monthly deductions, please give Lou Bombardier a call at ext. 2457 in Counseling. Maybe we'll get enough interest to make it feasible for Financial Services to incorporate into its current system of payroll services.

Women and part-time students show gains in college enrollment

The National Center for Education Statistics of the U. S. Department of Education Office of Educational Research and Improvement reports that enrollments in two-year colleges increased an estimated 5.3 percent from fall 1990 to fall 1991. This number compares with an increase of only one-half percent in total enrollment in four-year colleges and universities. At two-year colleges, the increase in enrollment by women was 5.9 percent and by men was 4.5 percent. The statistics also indicate that the largest enrollment increases at two-year colleges are for part-time students -- an increase of 7.8 percent--compared to the enrollment increase for full-time students of only 1.7 percent. For nearly all levels of degrees conferred, women show greater gains than men. These numbers reflect national trends toward more women pursuing and completing college education and more part-time students enrolling. A copy of the full report is on file in the Grants Library. Contact Sarah LaMaster, ext. 2312.

Bob Cudmore suggested that identifying more issues of concern to classified staff would inspire attendance. The next meeting is scheduled for Wednesday, Jan. 27.

College Council finds some good reasons for internal chargebacks

At its Jan. 5 meeting, College Council concluded that internal department chargebacks often serve to ensure accountability and control overuse of services. That conclusion appears to have ended council's discussion of the matter. Ted Kotsakis' related request for a department copier in lieu of using Printing/Graphics services will be resolved out of council.

Council reviewed the LCC Board of Education agenda for January (see above).

Concern was expressed over the lack of student attendance at council meetings. Marie Matsen and Linda Fossen will continue soliciting representation.

President Moskus reported that very preliminary discussions have begun between the City of Eugene, 4-J, and others to build a football stadium on Lane's main campus. Board approval would be required for any such project. Council speculated how the college could use a stadium. "I'd love to have the Grateful Dead concerts at Lane," said Moskus.

The next meeting of College Council is Tuesday, Jan. 26, from 3-5 p.m. in Business 203.

News items needed for high school newsletter

Community-wide committee will propose use of housing funds

Last October, Lane learned that it would receive \$1.9 million over five years in a lawsuit settlement against two developers of student housing. The developers built the Ashlane Apartments in Springfield in the 1970s. The lawsuit was filed by the state attorney general and mandates that the funds be spent on student housing. Vice President for Student Services Linda Fossen recruited a 19-member community-wide committee called the Ashlane Housing Task Force to establish a plan for Lane. They began meeting in November and are looking at the options of building low-cost housing or providing stipends to students.

Fossen chairs the committee. Departments will decide how to make up for snow days

Making up for classes lost to snow closures will be the responsibility of each department, says Vice President for Instruction Jim Ellison. The college's wide variety of instructional programs and diverse student population makes an overall administrative solution unfeasible. For example, scheduling additional instructional days during finals week wouldn't work for everyone. Faculty members should work with students and peers to determine how best to meet students' needs and how to maintain the educational integrity of classes. Some ideas: Meet on Saturday mornings; schedule additional sessions during the week or in the evening; use outside assignments, independent research, additional reading assignments; or use video or computer technology. Department managers and faculty are advised that if they need to schedule additional class meetings, please make every effort to accommodate the needs of students with work schedules and other commitments. A fair approach would be to seek the agreement of all, or nearly all, students to the additional class meeting times.

BOARD REPORT

Three ballot measures regarding student fees proposed by ASLCC were submitted too late for the Jan. 25 LCC Board of Education meeting agenda and the board deferred them to February. Nonetheless, several students present at the meeting went ahead and stated opposition to the measures. The measures would put to student vote whether to reallocate to student health services portions of the student fees currently going to the ASLCC general budget and to the child care co-op, and whether the OSPIRG fee should be made optional.

The annual evaluation of LCC President Jerry Moskus conducted prior to the 7:30 p.m. meeting won him high praise. Chair Pat Riggs said, "We evaluated him in eight areas including personnel management, president-board relations, community relations, fiscal management, planning, academic leadership, service to students and facilities management." She said they were especially pleased with "his open door policy, his walk-around management style, and his efforts to network with the community." Contract and salary negotiations were not part of the evaluation.

Moskus updated the board on a variety of matters: Roger Basset was named **community college commissioner** following Dale Parnell who left to teach at OSU. A **house built by construction technology students** for St. Vincent de Paul is located at Fifth and M Streets in Springfield and is open for tours from 8:30 a.m. to 3:30 p.m. weekdays. The college has exceeded its goal to **reduce the use of herbicides** on campus. A study into **cooperative agreements with the U of O** revealed at least 75 arrangements.

The board devoted about an hour to a walk-through of the **1991-92 audit** report. Staff will issue its routine response to the audit management letter by the next meeting. The board unanimously approved the audit report.

The board unanimously approved **advisory committee appointments** for KLCC and Flight Technology. Reappointed to the **Budget Committee** were Trish Rosewood and Sally Weston. The college **safety policy** was approved.

The discussion on **budget recommendations** began at 10 p.m. and went about an hour. Chuck Ivey and Larry Mann left before the discussion concluded. The remaining board members gave consensus support to the college that it was on the right track with the recommendations under the painful circumstances of financial uncertainty. Moskus said that the recommendations represented at least 1,000 hours of staff time and included numerous opportunities for staff involvement campuswide. Roger Hall said, "These cuts are responsible" and follow the criteria and principles drafted by and agreed to by board and staff at the beginning of the budget reduction process.

The meeting adjourned at 10:55 p.m. The next meeting will be Feb. 10.

Reception for artist is Friday

A reception for printmaker Peggy Prentice will be held in the Art Department Gallery on Friday, Jan. 29, from 7:30-9:30 p.m. "Margaret Prentice Prints and Drawings" is showing at the gallery through Feb. 12. She teaches at the U of O and has exhibited nationwide since 1971.

Lane to host League meeting

Lane will host a board meeting of the League for Innovation in the Community College on April 26 and 27. The League holds two business meetings annually and rotates locations among the member colleges. The League aims to stimulate innovation in all areas of community college development by sponsoring conferences and other events and preparing and publishing information. League liaison for LCC is Vice President for Community and Economic Development Larry Warford.
