Hal Davis named Innovator of the Year

Hal Davis and students at work on St. Vincent de Paul housing project.

For his vital role in making the American Dream come true for low-income families, construction technology instructor Hal Davis was named Innovator of the Year at the all-staff meeting on Sept. 20. The award is sponsored by the League for Innovation.

Davis and his students build the houses in the St. Vincent de Paul Society's American Dream Program. The program makes housing available to low-income families on a lease-to-own plan. Society director Terry McDonald said that even after local government and banks pledged support for the program four years ago, "What was needed was greater equity than we could achieve even with out fund raisers, and it is at this point that Hal's department and he both came through. Hal suggested using his students to frame our projects." Since then, several low-income families have realized the American dream of home ownership, and Lane students have acquired valuable hands-on experience while performing quality workmanship under Davis' supervision.

Davis also has been active with the Eugene Carpentry Apprenticeship Joint Training Committee for many years.

Internships vary according to professional field and previous work experience. Participants are placed throughout Germany and have the opportunity to reside with a host family. Diesel tech program receives \$50,000 grant

Caterpillar's Bill Rambo and Lane's Jerry Moskus.

Pape' Bros. Inc. of Eugene and Caterpillar Inc. of Peoria, IL, have donated \$50,000 in cash and in-kind donations to the diesel technology program at Lane. It is the second such gift, following another \$50,000 contribution last year.

Bill Rambo, district manager of Caterpillar's Billings, Mont. office, presented a \$25,000 check for the Caterpillar Excellence Fund to LCC President Jerry Moskus on Sept. 27. Funds are designated for student scholarships, faculty development, curriculum development and equipment purchases. Pape' Bros. Inc. pledged a matching \$25,000 in cash or materials. Last year, Pape' donated engines, electronic test equipment, and engine component pieces.

LCC Mechanical Technologies Chair Ted Kotsakis and diesel technology instructors Al

Clark and Harvey Kelm teamed up with Pape' Bros.' Lee Wood, Chris Harris and Jim Carter to apply for the Caterpillar grant. LCC Foundation Director Joe Farmer, who administered the gift, says it is rare for Caterpillar to award such an amount twice and is testimony to the manufacturer's satisfaction with the quality of the program at Lane.

Fifty-six students currently are enrolled in the program. Employment is bright, as evidenced by the 100 percent placement rate of the program's 1993 graduates, says Kotsakis.

Limited service

The Training & Development Department office will be closed Oct. 7-8 for in-service. Messages left on the answering machine will be returned on Monday, Oct. 11. T & D's Resource Center will be open for use by participants in the department's programs, but no regular staff will be on duty.

Board favors Florence woman to fill vacancy

Cindy Cable of Florence was favored by a 4-2 straw poll taken by the Board of Education at its Tuesday work session to fill the zone 1 vacancy. Cable and Francisca Johnson of Veneta appeared at the session for second interviews after the board was unable to decide between them last month. Several citizens of Florence attended the meeting to support Cable and spokespersons assured the board that they had come on their own, not at Cable's request. Cable is a justice of the peace and has served on the LCC at Florence Advisory Board for five years. A formal vote is scheduled for the Oct. 13 board meeting.

Football and fast food up for vote

The Board of Education will be asked at its Oct. 13 meeting to approve a proposal from School District 4J and the City of Eugene to build two football fields with back-to-back bleachers at Lane. The school district wants to hold its fall games here and envisions the facility as more intimate than Autzen Stadium. Lane would own the facility and use it for multiple purposes. Board approval is needed before fund-raising can begin. The board also will vote whether to buy a Taco Time franchise to be operated by Lane staff. The proposal results from last year's search for new revenue-generating activities.

Also on the agenda:

- appointment and seating of new board member for zone 1
- Symantec training video presentation
- sales tax discussion
- appointment of new Budget Committee members
- president's contract

The meeting will be held at 7:30 p.m. in the Springfield Depot. A closed executive session will be held at 5:30 p.m. to discuss collective bargaining issues regarding classified employees, and a work session will be held at 6:30 p.m. to continue the review of board policies.

Lane sheet metal student places first in national contest

Jeff T. Burgin poses with samples of his work.

Lane recently learned that welding graduate and sheet metal apprentice Jeff T. Burgin of Springfield won first place for third year apprentices in the 21st Annual Sheet Metal Apprentice Contest held in Minneapolis this summer. The 25-year-old is the first apprentice in 10 years from the local area to take the national prize, said Southwestern Oregon Sheet Metal Workers Training Trust Program Director Perry McGill and Industrial Technology Department Chair Carl Horstrup.

Burgin won a local and regional contest to qualify for the national competition. He attends apprenticeship training at Lane on alternate Fridays and Saturdays as part of his fourth year in the five-year sheet metal apprenticeship program. Burgin works for Harvey & Price Co.

Play features wit and wisdom of Margaret Fuller

The play, "Men, Women, and Margaret Fuller," will be performed by visiting New York actress and scholar Laurie James at Performing Arts Main Theater on Tuesday, October 19, at 8 p.m. It's free.

James has spent 30 years researching Fuller's life and has performed as Fuller over 300 times in theaters around the world. The title of the play comes from Edgar Allen Poe's exclamation: "Humanity can be divided into three classes--men, women and Margaret Fuller." Fuller wrote, "Woman in the Nineteenth Century," published in 1946. Her columns appeared regularly in the New York Tribune. She wrote on the need for American literature, the double standards of education, sexual morality, inequity, and the environment.

English instructor Susan Glassow featured James and her play in documentary footage shot this summer. Glassow says the one-woman play will appeal to all kinds of people.

College Council report

Building a football facility at Lane for School District 4J games and to enhance Lane facilities and offerings is a good idea, College Council indicated at its Oct. 5 meeting. The school district is seeking a new facility and has approached Lane. Two fields with shared bleachers are proposed. Health and Physical Education Department Chair Bob Creed and Campus Services Director Paul Colvin said the facility could be used in many ways by Lane and would draw more high school students to Lane. Construction funding would be provided by 4J, the City of Eugene, and fundraising activities. Lane would assess fees from 4J to cover the costs of maintenance.

Council continued work on defining its role and purpose. Members will try to reach closure by the next meeting. Reviewing its mission as established by the original shared decision making task force, three priorities emerged: to plan and recommend directions for planning, to formulate and recommend college policy to the president, and to recommend ways to monitor the budget process and allocate resources. The discussion raised several questions, among them: whether council should be proactive, reactive, or both; whether council should spend more or less time on issues; what's the difference between the governance and administrative structures at Lane; and what can staff do to resolve issues before they come to council.

Council's next meeting will be Oct. 19.

Student silences DeFazio

When asked to tell something positive the government has done for the people lately, Congressman Peter DeFazio faltered. The moment came during a question-answer session with Steve Candee's American Government class on Monday. DeFazio finally offered the Oregon and Clinton health care plans as at least recognizing a problem and heading in the right direction. Most discussion centered on the North American Free Trade Agreement. DeFazio said it will cost hundreds of thousands of jobs and worsen the wage outlook for both American and Mexican labor. As for opening up the Mexican consumer market to American goods, he said Mexican consumer buying power is equal to that of New Jersey's. He said Clinton's side agreements to solve some of the environmental and social problems with NAFTA will be unenforceable. He said he is busy organizing opposition.

Check software update offers for manufacturer's name

If you receive an offer for a computer program update, make sure it's from the software maker. Ken Hamilton, coordinator of the Downtown Technology Center, reports having received several offers that look like they're from the manufacturer, but aren't. Upon checking prices, he found the copy-cats to be more expensive. This has happened with WordPerfect and Aldus products. Read the fine print carefully or contact the original software maker directly.

Jim Keizur and Debra Lamb win Schafer grant

Jim Keizur, ATLAS, and Debra Lamb

Computer Services Director Jim Keizur and Downtown Center Coordinator Debra Lamb won a \$1,000 award from the Schafer Endowment for Innovation at the all-staff meeting on Sept. 20. The award will fund installation of an ATLAS computer information kiosk at the downtown campus, matched by \$3,000 in additional funds from the vice presidents' budgets.

ATLAS kiosks were installed on main campus in May. Students get schedules, transcripts and other information from them. Admissions Director Sharon Moore says, "Response has been jubilant." Lamb and Keizur collaborated to add a kiosk downtown following a steady stream of requests from DTC students.

Measure 1 campaigners going ahead

Mike Rose says advocates of Measure 1 will continue campaigning. A Salem judge on Wednesday ruled that the measure should be split into four ballot questions but the Oregon Supreme Court acted Thursday to temporarily suspend the ruling so the vote may go forward.

Rose says advocates plan informational walks on Oct. 30 and Nov. 6. He said callers locally report more positive and undecided responses than negative ones as the public becomes more informed. For more information on Measure 1, contact Rose at Ext. 2146.

Staff cautioned to review Measure 1 activity

The Oregon School Boards Association says publications paid for with tax funds must contain only neutral information that does not advocate a position on an election issue. Parent groups may print advocacy material and board members may campaign for or against an issue as long as they do not use public resources. Boards may also take action at a board meeting to support or oppose an election issue. If you have questions, call the Secretary of State Elections Division at 378-4144.

Last year, legal counsel advised the college that employees may wear campaign buttons on campus and/or in the classroom. Employees may also post signs in public areas according to regulations in the Student Services procedures manual. Signs posted in individual offices are not subject to those regulations. In the classroom, instructors may hold discussions as long as the discussions have some relevancy to the subject of the class. However, instructors should not ask students to vote in a particular way on any measure or candidate.

Mental health to be discussed in seminar

Psychiatric survivors will be the topic of the next "Issues in Cultural Diversity" seminar series on Wednesday, Oct. 20, from 3-4:30 p.m. and 5:30-7 p.m., in APR 223. The class may be taken for credit or audited. For more information, contact Vicki Levine at Ext. 2074.

Wil Hi proves to be a popular site

College computer class at Willamette High. (Photo by Phil Powers.)

Classes filled at Willamette High this fall--Lane classes, that is. The college selected the site to improve outreach, said Vice President for Community and Economic Development Larry Warford and Continuing Education Coordinator Debra Lamb. Eleven classes were offered, one credit writing class, and the rest non-credit classes in computer skills, sign language, property management, bookkeeping, Spanish, personal finances and photography. Enrollment reached 160.

Lane is using its own and the high school's computers. College students use them at night and high school students use them during the day. Added sections are planned for winter term. The college-high school agreement is for one year and is renewable.

Classes also were offered at Emerald Job Center, but people had a hard time understanding the location, even though the address was printed in the class schedule. Lamb is seeking ways to better publicize the EJC location next term, and the college is seeking additional community sites.

Visiting students will attend two class periods and spend a third period on tours or in the PE lobby "fishbowl" talking to recent high school grads now attending Lane and checking out information tables. The day will begin at 8:15 a.m. in Performing Arts Main Theater with a welcome and orientation. Students will attend classes, tours, or visit the PE lobby at 9, 10 and 11 a.m. If you have questions or suggestions, call Judith Gabriel at Ext. 2699.

Buy tickets now to Oregon Trail play

Tickets are on sale now to "That Pioneer Road," an original mixed-media play about Lane County's lost wagon train from the Oregon Trail, to be held Nov. 5-6, 12-13, and 19-20 in Performing Arts Main Theater. Jim McCarty will direct. The production will use hundreds of slides, two film sequences, 22 life-size photo sculptures by David Joyce, and rich mixes of sound effects and fiddle music.

Journalism instructor Pete Peterson wrote the play, based on his 1975 book, "Our Wagon Train is Lost." He researched original pioneer journals, letters and newspaper accounts from 1853. The tale recounts the journey of 1,000 pioneers who took a "short cut" off the known Oregon Trail and the resulting rescue effort by settlers from the valley. Peterson has taught journalism at Lane for 22 years. His book has sold 2,000 copies. He began writing the script for the play in 1990. The script won the Pacific Northwest Writer's Competition in 1991.

Tickets are \$8 adults and \$6 children, students and seniors. Call the box office at Ext. 2202 afternoons.
