Welcome to 1995

This week

- Legislative Action Team, Thursday, Jan. 5, 7:30-9 a.m., Boardroom.

College Council rescheduled

Today's College Council meeting is rescheduled for Tuesday, Jan. 10, from 1:30-3:30 p.m. in PE 240.

Japanese sculptor to lecture

Kazutaka Uchida, a sculptor from Japan, will present a slide-lecture on his work in stone sculpture on Thursday, Jan. 5, at 10 a.m. in the Art Department Gallery. His work has been shown worldwide, including a recent exhibition at the University of Oregon Museum of Art. The slide-lecture is sponsored by ASLCC. Staff, students and the public are invited.

Radio talk show personality booked for Martin Luther King Day

Staff development activities are being planned for Martin Luther King Day on Jan. 16 by Organizational Development Cadre members. Keynote presenter will be Joe Madison, a highly acclaimed award winning talk radio personality from Washington DC. A full day of workshop sessions will be available for all staff. Programs of the day's activities will be available for departments the second week of January. Classes will not be held that day.

Eugene artist Bill Brewer to show, lecture

Eugene artist Bill Brewer will show selected paintings at the Art Department Gallery today through January 27. He will lecture on Tuesday, Jan. 17, at 10 a.m. in the gallery, sponsored by ASLCC. Everyone's invited.

Brewer says he tries "to convey something of the mystery our life is" in his work. His paintings feature colorful, abstract figures of humans, animals and trees, and mythic symbols. He uses acrylics on a variety of surfaces such as corrugated metal, board, Plexiglas and Mylar, as well as canvas. The 39-year-old artist has exhibited since 1987 throughout the Northwest and his works are in several collections including those at the Portland Art Museum, Washington State Arts Commission, and Nordstroms. He studied with Bill Cummings at the Art Institute of Seattle.

First Aid kit reminder

Every department or isolated work station is required to have a current first aid kit. The kit should be stored in a readily accessible location (a locked cabinet doesn't count) and all employees should know its location. Check the kit periodically to make sure it's properly stocked. Required contents are:

- gauze pads 3"x3" or larger
- gauze pads 8"x10" or larger
- adhesive bandages
- gauze roller bandage 2" wide
- triangular bandage
- wound cleansing agent (soap and water nearby is sufficient)
- emergency blanket
- latex gloves
- CPR shield

Supplies may be ordered from the Warehouse. It is not recommended that your kit contain any additional items. If you have questions or concerns, please contact Student Health Services at Ext. 2665.

Winter term class schedule lists incorrect college address

Don't use the address that appears in the winter class schedule! At the request of the Post Office, the PO Box belonging to College Finance was used. Now, the Post Office says we should change it back. The college is now, once again, officially located at 4000 E. 30th Ave., Eugene, OR 97405-0640.
- Susan Sutton, Institutional Advancement, Ext. 2593

Women aviation mechanics in demand

The aviation maintenance program invites women applicants. Instructor Gary McKenzie says at present he is yet unable to meet companies' demands for women trained as aviation maintenance technicians. Aviation maintenance training also provides transferable technical skills, such as sheet metal and electrical skills. McKenzie, along with Counseling's Carolyn Litty and Ann Clark, are available to talk with women who want to explore aviation maintenance. - *Excerpted from the Counseling Department Dec. 13 newsletter*

Get items in now for surplus property auction

Another accumulation of LCC surplus property will go to auction soon. In our continuing efforts to maximize surplus revenues we will auction this group through Northwest Auto Auctions in conjunction with surplus property from the City of Eugene, 4J, Springfield School District and other public entities (despite its name, Northwest Auto Auctions is the largest surplus auctioneer in the county). If you have surplus items to include in this auction, have them transferred to Purchasing before January 6. Please use an ICO to effect the transfer. Our "surplus property loft" will be open for final previewing of the lot from 1-3 p.m. on Wednesday, January 4 and Thursday, January 5. - Lloyd Rain Ext. 2208

New wood products program seeking students

The new "Basic Wood Products Technology Program" available through the Training & Development Department is seeking students. The program will be held Tuesday evenings, January 30-March 24, 6-9 p.m., on main campus, with several Saturday field trips to visit secondary wood manufacturers in the area. Class size is limited to only 40 students. Tuition will be \$100 which is refundable on graduation. Special scholarships and payment plans are available on a need basis with job placement services available to program graduates.

Applications for entry into this program will be made at an orientation meeting scheduled for Tuesday, Jan. 10, at 6 p.m., in FOR 309. Information and details for future employment will be provided as well as details on the classes. According to Ray Daffner, executive director of Wood Products Competitiveness Corporation, "The unique aspect of this course is that it is industry driven...and the demand is here. More than 3,000 people are hired into this growth industry annually."

Grateful student expresses holiday gratitude

The day before the Christmas holidays, a grateful student stopped at Institutional Advancement to tell his story. In October, Bill Baldwin relocated from Portland to Eugene. His first place of residence was a detox center. Two weeks later he moved to a halfway house to continue with his recovery. Events in Baldwin's now alcohol-free life brought him to Lane. He says his life has totally turned around because of his experience at Lane. In his own words, "Lane Community College is like a sanctuary. Lane literally handed me a new life. Everyone here has lifted me up." He especially credits Chuck Roller, instructor of "Choices and Options," a class offered to dislocated workers through Training & Development, for giving him a feeling of self-worth and helping him to see his potential; and Toby Finkelstein of Training & Development for her kindness, caring attitude and sincerity.

The Kennedy Center national theater education program purpose is to identify and promote quality in college-level theater production. "Wings" was selected from 28 entries by regional colleges. The production, directed by Patrick Torelle, received high marks on all areas of production including visual design, lighting and sound effects.

New York Times stereotypes Eugene

From a Dec. 31 *New York Times* article by Tom Friend on the Ducks at the Rose Bowl: "Their town of Eugene, Ore., is still considered a 1960's theme park, and that is half the problem. No one there can remember the 1950's. ... Eugene is perhaps the logging and tie-dyed capital of this country, so big-time football is a switch."

RV program filling a need

Brad Angle, regional economist for the Oregon Employment Department, points to motor coach manufacturing as a key industry for the Willamette Valley, in the January 1995 *Oregon Labor Trends* newsletter. The industry is enjoying rapid growth but a shortage of skilled workers. Says Angle: "Fortunately for the industry, a cooperative education program at Lane Community College was created to retrain workers who had been dislocated

from declining industries. The Recreation Vehicle Technician program has already graduated a fair number of people equipped to work in the industry and should continue to help alleviate future shortages of skilled workers in the future."

The men's team overwhelmed Clackamas with 61 second-half points en route to an impressive 91-74 victory. John Kromer (20 points, 5 assists) paced Lane's balanced attack. The Titans remain undefeated in conference play (2-0) and boast an 8-4 overall record. They are ranked fifth in the NWAACC coaches' poll. The Titans are on the road this week, playing Portland on Wednesday and Mt. Hood on Saturday. - Tim Boyce, Athletics

College Council report

A **standard list of college computers and software** will be determined by a Computer Support Committee now being appointed by Executive Cabinet, Interim Vice President Marie Matsen told College Council at its Jan. 10 meeting. Listed products will receive support from Computer Services and Electronic Services; unlisted products may not. The committee and a support policy (see Jan. 5 *Daily*) were recommended by a now-concluded task force appointed by Executive Cabinet this fall.

Lane's accreditation has been renewed and the next full site visit will be in 10 years, President Moskus told council. The accrediting agency listed 20 commendations and four concerns in its report which was announced in a Jan. 3 memo to all staff from President Moskus. Lane will submit a progress report in 1997, and a routine interim report in 1999. The four concerns call for improved faculty involvement in institutional assessment, better documentation of related instruction (English, math, human resources, etc.) embedded in professional-technical curricula, consistent and continual faculty evaluation and expanded part-time faculty orientations, and improved communication and participation in restructuring.

A **construction bond update** was given by Assistant to the President Linda Waddel. Her key points:

- The Board of Education voted on November 9 to proceed with a bond measure in May 1995, after months of preliminary discussion.
- The project list is under board review and is conceptual, not detailed, and subject to revision. Projects were compiled from the accreditation self-study to which many staff contributed, Facilities Management Committee lists, and feedback from College Council and Managers' Forum.
- The president and vice presidents will be making presentations to departments to share information and collect more feedback.
- The Board of Education will establish the general projects and the bond amount on March 8. Many project details will not be worked out until after voter approval.
- The election will be by mail-in ballot on May 16.

Lane's affirmative action plan was presented by program director Donna Albro. The plan includes policy, staff responsibilities, analyses of past performance, and goals and timetables. The plan is up for board approval on February 8. For a copy of the summary, contact Albro at Ext. 2040. Questions about diversity at Lane may be directed to the Diversity Team facilitated by Mark Harris, Ext. 2178 and Julie Aspinwall-Lamberts, Ext. 2576, or the WICHE Diversity Task Force facilitated by Diane Dann, Ext. 2591 and Jim Ellison, Ext. 2306.

The next council meeting is scheduled for Tuesday, Feb. 7, 1:30-3:30 p.m., Boardroom.

Board report

Although buildings may be set in concrete, the **construction bond** project proposal list is not, Campus Services Director Paul Colvin assured the Board of Education at its Jan. 11 meeting. The current list serves only to identify kinds of needs and possible solutions. Details will be settled after the bond is passed. Other staff and students reported the need for separate cultural activity and study space, more conference space, and outreach centers at area high schools to improve community access. The board must file a ballot statement by March 16 for the mail-in election on May 16.

President Jerry Moskus said Lane's **accreditation** has been reaffirmed. The next self-study will be in 2004. The evaluation team cited 20 commendations and four areas of concern. The concerns regard improved assessment at the department level, better documentation of related instruction in professional-technical curricula, more consistent faculty evaluations, and better communication around restructuring. Lane will submit a progress report on the concerns in 1997. Moskus said, "It's a very helpful report. It's very thorough and will help us focus."

Lane Council of Governments board member Bill Morrisette and director George Kloeppel explained the benefits of LCOG membership and a proposed fee change. The proposal is to assess Lane as a school district, not a special district, which would raise Lane's dues. Lane board members expressed support for LCOG and encouraged an equitable membership fee policy.

In action, the board:

- passed a resolution calling for Oregon's federal legislators to sustain funding for the **Corporation for Public Broadcasting**, which contributes 20 percent of KLCC's budget
- Approved the retirements of **Jim Ellison**, **Ron Mitchell** and **Carole Painter**.
- Extended the **Coopers & Lybrand** contract for one year.
- Approved appointment of **advisory committee members**.

Highlights from the president's report:

- Lane raised \$19,800 for **United Way**, thanks in part to the leadership of Lloyd Rain.
- Lane has one less grant but \$7.5 million more in **grant funds** than last year, meeting a goal of less grants but more money, thanks in part to "fine coordination" by Grants Coordinator Sarah LaMaster.
- Credit **enrollment** is down but noncredit enrollment is up, bringing winter term totals about even with last year.
- **Lane's hiring practices** will be a major discussion item on the February board agenda.

In other information:

- **Jim Pitney** filed for his sixth term as a board member (see story below).
- **Cindy Weeldreyer** was elected vice chair of the Lane County Board of Commissioners.
- Students from Oregon's two-year and four-year colleges will hold a **student lobby day** in Salem on Feb. 23.

The next regularly scheduled meeting will be Feb. 8 at 6 p.m.

Jim Pitney to run for reelection for the sixth time

Jim Pitney announced at the Lane Community College Board of Education meeting on January 11 that he will run for reelection. The election will be March 28. If he wins, it will be his sixth term of service. He has represented Junction City and other Zone 2 residents for 20 years. He said, "It's obvious to many of you that I've enjoyed this job. I'm going to try it again." He added that he was inspired by retiring employees Jim Ellison and Ron Mitchell. "If they can go for 29 years, so can I."

International student social hour will focus on Japan

The next international student social hour hosted by the International Student Community Program will be held Wednesday, Jan. 25, from 3-5 p.m. in the cafeteria. Japan will be the featured country. Japanese tea and snacks will be served and videos, clothing and other items will be displayed. A drawing for two Japanese dinners will be held; you must be present to win. For details, contact Pat Williams, International Student Community Program, Ext. 2165.

Titans experience mixed results

Last week's basketball action brought mixed results for the Titans. On Wednesday, Southwestern Oregon Community College came to town and lost to both our teams. The women, led by Shela Pratt's 23-point, 19-rebound performance, won by 12 points, 66-54. The men edged SWOCC by a 77-71 score, remaining tied for first in league play. On Saturday, Clackamas hosted Lane, and they were not kind. They defeated both our teams. The Titan women took the Cougars into overtime but lost 75-65 despite Shela Pratt's 25 points and 15 boards. The men lost a hard fought battle, 73-69. Taylor Ebright had 20 points to lead Lane. The women are now 9-8, and 3-5 in league; the men are 12-6, and 6-2 in league. This week the teams play Umpqua on Wednesday and host Portland on Saturday.

Larry Warford published in *Leadership Abstracts*

Larry Warford, vice president for Instructional Services, has authored the latest issue of *Leadership Abstracts*, a publication of the League for Innovation in the Community College. Warford's article is titled, "Redesigning the System to Meet the Workforce Training Needs of the Nation." Among other points made, he describes the workforce training role of community colleges in partnership with business, industry, labor, and government. He suggests that we redesign our system of "schooling" to be one of lifelong learning and advocates the transcribing of continuing education coursework. Warford is a nationally recognized expert on workforce training. His most recent achievement in the field was his appointment as Oregon liaison for the Community College Workforce Development State Liaison Network formed in October 1994 by the American Association of Community Colleges. For a copy of the article, call Ext. 2120.

LOST/FOUND/NEEDED: I found a terrific, good-looking dog here on campus on 1/5. He had no ID and nobody has claimed him. He is medium-sized and completely black. He could be a lab/chow mix but I'm not sure. He's friendly, smart and good with kids. He deals very well with car rides, leashes and other dogs. I would take him in a heartbeat but I already have two! I really don't want Yogi (my name for him) to end up in a shelter and am looking for a good home for him. Can you help? If you or anybody you know is interested in adding a loving, playful member to your family, call me at 485-2386, or Ext. 2223. Randa Law, T&D.
