THANKS

Greetings from the Spud State! I wanted to thank each of you who wished me well on my journey and new position here at Idaho State University Child Care Center. And of course, Sue's latest joke: How many child care teachers does it take to change a lightbulb? None. They don't make pampers small enough! Happy new year! Sue Ferguson. E-Mail: ferg@poky.srv.net

Wellness survey results

Tom Reimer of Math correctly predicted the number of employee wellness surveys that would be returned: 532 as of Feb. 6. When asked the secret of his success, he was quick to respond, "With a little bit of luck and skill. For the overall return, I expected a high rate because I know the support in my department is common across campus and at the outreach centers. I simply went through the staff directory and checked off who I thought would return their survey and added up the department totals. In my predictions on the wellness programs available in the wellness survey, I utilized a combination of my favorite years working here at LCC and my fellow co-workers phone extensions." Here are the survey results:

Response:

- 532 surveys returned (56.4% return rate)
- 67 Volunteers responded to offer assistance with the programs

Needs:

- 81% report the need to include more exercise in their life
- 79% want to reduce their weight to achieve a healthier lifestyle
- 49% want to reduce stress at work
- 46% report having back problems

Interests, Programs:

- 78.7% want cholesterol screenings
- 69% want blood pressure assessments and reduction seminars
- 69.5% want hearing assessments
- 71.7% want cardiovascular fitness programs
- 53.9% want nutrition information and seminars

Interests, Activities:

- 58.4% want fitness/exercise equipment programs
- 49.5% want staff walking opportunities
- 46.5% want weight management seminars and programs
- 44.9% want staff aerobic opportunities

College Council report

Lane property proposed for exchange has a diverse habitat and should not be traded away, in the opinion of Science faculty, Tom Wayne told College Council at its Feb. 6 meeting. The department conducted a walk-through of Lane and McDougal Brothers property and evaluated both parcels for instructional value. Council has not reached consensus on the swap but a show of hands revealed majority opposition. President Jerry Moskus said he would write a recommendation and present it to council for reaction.

The future of courtesy appointments must be settled by March 15 for the 1996/97 budget planning process, Vice President Marie Matsen told council. Union and legal concerns have risen around courtesy appointments. Council has received confidential legal opinion and agreed that a task force which has been tackling the issue should continue its work.

Faculty will be squeezed between in-service and orientation this fall, Counseling Department staff warned council. The 1996/97 academic calendar allows only one week between summer and fall terms, a week less than previous years. Council will search for a solution at a future meeting and also advised that the issue should be discussed by Faculty Council.

Barb Delansky has replaced Carl Horstrup on council, representing the Management Steering Committee.

The next regularly scheduled College Council meeting is Tuesday, March 5. Meetings are open to all interested staff and students.

Board agenda

The Board of Education meets on Wednesday, Feb. 21 at 6:30 p.m. in the Boardroom. An executive session will follow regarding the president's annual evaluation. Agenda highlights:

- continued funding for process redesign

Other agenda items include a contractual services agreement with Mills & Associates, response to the audit/management letter, establishing a pool of mediation service providers, reappointment of the college auditor, rejection of carpeting bids, and rejection of computerized wheel alignment bids. The next board meeting will be March 13.

Wellness Committee presents:

Weekly Wellness Tips

- **Eat fish to help your heart.** Eating fish just once or twice a week can significantly reduce the risk of heart attack. The protective value of fish comes from the type of polyunsaturated fatty acids, called omega-3s, found in its oil.
- **Clean your computer screen** at least once a week. Dust, fingerprints and other derbies on the screen can make computer work more tiring and irritating for your eyes.

Library adds 77 year-old film to its collection

To help commemorate African American History Month the Library has available an annotated list of over sixty videotapes which examine the history and celebrate the achievements of African Americans. The newly revised list includes five titles which have been added within the last year to the Library's expanding video collection.

One of the new additions to the video collection is *Within Our Gates*, originally released in 1919 and the earliest surviving feature film directed by an African American. The film was unseen for 75 years until a print was recently discovered in Spain. Created in the aftermath of D.W. Griffith's *Birth of a Nation*, a pro-Klan film which ignited controversy and broke box office records across the country, *Within Our Gates* confronted racism head-on and is said to remain a powerful work.

For a copy of the Library's list of films and videotapes for African American History Month, which includes descriptive information for each title, contact Daniel Moret at 2318.

Jim Pitney named outstanding citizen

Jim Pitney of Junction City, 21-year member of the Board of Education, was named Outstanding Citizen of the Year by the Junction City-Harrisburg Chamber of Commerce at its awards banquet on Feb. 15. One man and one woman are named annually; also honored was Marla Weber of Junction City.

"Jim is the longest serving board member in the history of LCC," said President Jerry Moskus at the banquet. "Besides a great deal of his unpaid time, he has given the college his wisdom, which is considerable, and his guidance, which is sound. In all his time he has never failed to treat anyone with care and respect. His sense of humor has lightened up many heavy situations. If we had to pay him what he's worth, we couldn't afford him."

According to the *Tri-County News*, Pitney won the award in recognition of "a half century of leadership service" to numerous organizations, including LCC. "In a way, he attributes his involvement with LCC to kids—the board's meeting night fell on the night he didn't baby-sit.... Pitney is proud of his 21-year association with Lane, particularly during the past decade as it has emerged as a college in the right place at the right time to assist huge numbers of dislocated timber workers. ... Early on, Pitney told someone he sort of enjoyed the LCC board. 'They were aghast,' he said." Pitney and his wife of 52 years, Betty, have four children and eight grandchildren.

This course is essential for all supervisors and staff who wish to contribute their input and efforts into hiring decisions. The following scheduled "Synergy" trainings are open to all staff:

Wellness Committee presents:

Weekly Wellness Tips

- **If you have low-back pain**, bed rest for a day or two is generally better than spending a week in bed. Protracted bed rest may be counterproductive. Most back experts also recommend that you begin to walk as soon as the acute pain subsides.
- The larger the number of people at a meal, the more each person tends to eat. This suggests that social factors may provide powerful eating cues. **So if you are trying to lose weight, be extra careful when eating with a group.**

Faculty Council supports collegewide tutoring program

At Faculty Council's Feb. 8 meeting, Mason Davis, Counseling, presented a proposal to develop a coordinated tutoring program at Lane. Council supported the general concept but added that the tutoring program should be designed to meet the needs of all at-risk students; should be coordinated with other student retention, advising, and study skill efforts at Lane; should be proactive and preventative rather than reactive and crisis oriented; and should be coordinated, monitored and evaluated by faculty.

Council discussed the reasons for the Friday deadline of exam week for turning in grades and brainstormed ideas for improving the efficiency of the data entry process used for grades. Suggestions included having faculty use scantrons or spreadsheet software to record grades. Council considered a proposal by Jill McKenney, Mathematics, to incorporate math across the curriculum as a way to help students who are at risk of not completing math requirements for graduation. Council agreed to support the proposal for math across the curriculum. David Shellabarger, Mathematics, will check with his department about conducting research on why students drop out because of math.

Council revisited the student evaluations of faculty and discussed problems with the last version. Council will have a work session on the student evaluations, and representatives will ask department members to comment on council suggestions for improving the evaluations. Suggestions include using several kinds of questions such as campuswide, department specific, and open-ended; providing an option for departments to have a custom version; and providing several kinds of evaluations for departments to choose from. Council's next meeting is today at 3 p.m. in the Boardroom. - Kimberly Buchanan

ABSE tutors receive training, hear international viewpoints

A tutoring conference for Adult Basic and Secondary Education volunteers was held on Feb. 10. Rooms were provided by the Eugene Hilton, and lunch was provided by donations from PW Pipe, International Paper, Weyerhaeuser, Pierce Corporation, and grant funds. Donations for door prizes were provided by Cafe Zenon, Marie Callenders, Rhythm & Blooms, West Brothers, Paper Plus, and Agate Street Earthenware. It was a full day of workshops and networking.

Seventy tutors gathered to hear Alice Whitenack speak on "Learning Differences." Marie Coonradt represented the Cadre and discussed "Listening To Avoid Misunderstanding." Seven students from English as a Second Language participated as well. Alexandra Moore from Ecuador, Priti Bhalgat from India, Mizue Kimura from Japan, Diana Shizuekawa from Peru, Yanghui Yang from China, and Miguel Sosa from Mexico spoke about cultural differences they have experienced in this country, compared to their home lands. Finally, Roy Hayes, ABE student in Lane's Bethel class and a Native American storyteller, shared some of his native songs and stories after lunch.

It was a great day of recognition and training for volunteers. These 70 tutors are part of the 150 community volunteers who donate over 10,000 hours of instruction to students in the ESL and ABE programs for Lane every year. - Liz Coleman, ABSE tutor coordinator, 2919

Track team heads to Ashland

The Lane track and field team travels to Southern Oregon State College in Ashland this Saturday to open the 1996 season. The Artie Sullivan Invitational is the traditional season opener for the Titans. This year's men's and women's squads once again should be among the favorites for the NWAACC title. The Lane women are two-time defending champions of the NWAACC. The trip to SOSC will once again be highlighted by the highly anticipated visit to the "Yriarte Shrine" where Lane athletic director Harland Yriarte has been immortalized for his school record exploits as a member of the track team at SOSC. Cameras will record the event for posterity as this year's Titans take in the tradition that is the Yriarte Shrine. - Tim Boyce, 2551

Barriers faced by women composers topic of presentation

"Who Says Women Can't Compose?", a program exploring the historical attitudes towards women in music from the Middle Ages to now will be presented on Friday, March 8 from 11:30 a.m.-1 p.m. in the Boardroom. The public is invited and admission is free.

The program is sponsored by the Women's Program at Lane and is made possible by the Oregon Council for the Humanities, an affiliate of the National Endowment for the Humanities.

"Who Says Women Can't Compose?" examines the cultural constraints women composers have faced in achieving recognition during their lifetimes and in the annals of musical history. In many cases, innovative compositions by women have languished in obscurity due to the commonly held notion that musical ingenuity was exclusively a male occupation. The program combines commentary, slides and taped musical examples to illuminate the contributions of women composers over several centuries.

Presenting the program are Kristan Aspen and Janna MacAuslan, who have extensively researched forgotten women composers. As the flute-guitar duo Musica Femina, Aspen and MacAuslan have performed many of these compositions for enthusiastic audiences nationwide.

For more information, call 2352.

On-line grants database available on college network

Faculty and staff can access the Illinois Researcher Information Service (IRIS) on the World Wide Web via Netscape. The IRIS database currently contains over 7,000 federal and nonfederal funding opportunities in the sciences, social sciences, arts, and humanities. In addition to grants for program development, IRIS contains numerous sources for faculty fellowships, research awards, travel stipends, and other opportunities for professional development. To access the IRIS home page via the World Wide Web open "www.grainger.uiuc.edu/iris/". From there chose "Search IRIS and OPS (subscribers only)". To go directly to the WWW search interface for subscribers, open "carousel.lis.uiuc.edu/~iris/search.html". For best results, start with a quick search using only one or two key words. Later, narrow the search if you get a large number of "hits." To follow up on any grant opportunities you locate or to get other assistance with grant development, contact Sarah LaMaster in Institutional Advancement at 2312 or via e-mail.

Airline ticketing tax refund

The federal excise tax of 10 percent on all domestic air fares expired on December 31, 1995. People who bought tickets in 1995 for travel in 1996 can get the tax refunded by filing Internal Revenue Service Form 8849. Some additional twists: Although most airlines don't want to deal with the refunds, a few will. American Airlines will credit the refund to customers who charged their tickets. Those who paid cash can send a claim form through American or through their travel agents. Delta has its own claim form and will process refunds for cash or credit internally. Note: the tax is likely to be reinstated but is not likely to be made retroactive. If you're planning a trip for later in the year, you might want to consider purchasing your tickets now. - Lloyd Rain, Purchasing Services, 2208

It includes non-discrimination, equal opportunity, and affirmative action guidelines, laws and regulations, and the potential liabilities for LCC staff in carrying out the law. This course is essential for all managers, faculty, classified and other individuals who wish to contribute their input and efforts into hiring decisions! The following scheduled Synergy trainings are open to all staff:
