## Critical thinking workshop a great success

Faculty enjoyed hearing and seeing ways to bring content alive using critical thinking and active learning strategies. Practical ideas were shared by Bruce Siggson in history, Dennis Clark in AHS, Margaret Bayless in writing classes, and Teri Herbert in science while Carmel Decroos introduced a new model emerging from the Minnesota State Colleges and Universities system. As students engage each other over relevant, often controversial issues, they learn to "get the facts", question, appreciate new perspectives, generate possibilities, and evaluate, empowering themselves in the process. Faculty expressed interest in additional discussion and sharing on this topic. If you are interested and missed this workshop, contact Carmel Decroos, 2638 or e-mail.

### Nutrition Tip

## Mark Szymanski joins Study Skills

Study Skills welcomes Mark Szymanski, new faculty member and a specialist in learning disabilities. In his own words: "I would like to thank all the people at Lane who helped make my move to Oregon a smooth one. I came to Lane from the Educational Psychology Department at the University of Wisconsin where I spent the last six years teaching and working on my graduate degrees in human learning. Before that I was a high school teacher in the Milwaukee public school system. In September I began working as an instructor and learning specialist here at Lane. I teach three classes a term and meet with students who need help creating and implementing learning strategies. Most of the students are referred by Disability Services but I also see students who have no documented learning disabilities and could still benefit from individual learning strategy instruction. In my spare time I hope to ski, hike and cycle the Oregon countryside, and take in the culture of Eugene, which isn't much different from Madison, Wisconsin,

except for the subzero temperatures. I look forward to working with my colleagues and students at Lane and maintaining the tradition of quality education that has been established. If I can be of service to you feel free to contact me at 2871, CEN 491, or by e-mail."

Frequently in demand as a guest conductor, he has recently appeared with the Quebec Symphony, Auckland Philharmonia, Puerto Rico Symphony, Mexico State Symphony Orchestra, Buenos Aires Philharmonic, Budapest Opera Orchestra and the Evansville Philharmonic Orchestra in Indiana. He is in his fourth year as conductor of the New York Youth Symphony. ## Library gallery hosts photography exhibit

The Library's Mezzanine Gallery currently has an exhibit of photographs by Continuing Education photography instructor Sam Blackwell and his students. The exhibit of more than 60 photographs showcases a range of subject matter and styles, and the exhibit includes work in both color and black-and-white. As Blackwell reminds gallery visitors in notes included with the exhibit, photographers--like authors, musicians and other artists--have a vision and then use their creative intelligence, the possibilities and limitations of their chosen medium, and their own hard work to follow a course of creative decisions that makes the original vision manifest for others to enjoy and experience. Like a concerto or short story, a fine art photograph doesn't just happen.

The Mezzanine Gallery is located on the upper level of the Library, and the group photography show currently on display will continue through the end of November. The gallery still has a few openings for exhibits during the 1996/97 school year. For information about showing an artistic exhibit or informational display, contact Daniel Moret at 2318.

## Nursing program pronounced healthy

Lane's nursing program received a full eight-year accreditation from the National League for Nursing and the Oregon State Board of Nursing after a site visit that concluded November 7. That is the longest amount of time granted between visits. "One of the program characteristics both groups particularly noted," observed program coordinator Joyce Godels, "was that our pass rate for our graduates who take the registered nurse exam is 99.14 percent over the past 10 years."

Lane offers a two-year associate of applied science degree in associate degree nursing which prepares students for the National Council Licensure Examination to become an associate degree registered nurse. The college also offers a one-year certificate of completion in practical nursing which prepares students for the National Council Licensure Examination to become a licensed practical nurse.

For more information see Lane's Internet site at <http://lanecc.edu> and click on Classes & Programs, then Health Care, then Nursing, or call Family & Health Careers at 2617.

## Lane surpasses United Way goal but "we're not done yet!"

From Tracy Simms, coordinator of LCC's United Way campaign: "Thanks to 190 participants, up 11.4 percent from last year, Lane's United Way campaign has surpassed its goal of \$21,000 and has raised \$22,080! Congratulations! But wait, we're not done yet! I'd really like to see us raise \$25,000. There are several more department meetings that I hope will impact our campaign and there are a number of individuals who traditionally participate in the campaign who haven't turned in their pledge card, yet. For those of you who fall into the latter category, I can only encourage you to reconsider your involvement. While it is outstanding that our participation level is up from last year, it's critical that we not lose our core, long-time supporters. If there is anything I can do to satisfy a concern or answer a question, please give me a call at 2889."

## Faculty Council report

Faculty Council met October 24 and discussed Fred Beisse's six recommendations for changes in Lane's grading policy. Council generally supported the recommendations with minor changes. They agreed that Beisse should distribute the recommendations to faculty on e-mail and report on responses at council's next meeting. In other business, Mark Harris, substance abuse prevention coordinator, discussed a substance abuse survey he will soon conduct in selected classrooms. Council agreed to support the survey.

Faculty Council's next meeting is Thursday, Nov. 14, 3-4:30 p.m., Boardroom. They will hear from a representative of the group behind the Technology Advising and Coordinating Team proposal. A member of the Academic Forgiveness Committee will present proposals from other colleges on the notion of "academic forgiveness," Vice President for Instruction Mary Spilde will discuss options for changing the structure of department administration, and council will review faculty responses to Beisse's grading policy recommendations. - by Kimberly Buchanan

## TravelLearn offers discount to faculty

Over the past 12 years, more than 850 continuing educators have experienced first-hand the cultural programming and quality accommodations of reduced-rate TravelLearn Site Inspection Tours. They also have shared and exchanged information and experience in continuing education programming with colleagues in an overseas setting. Now, TravelLearn is offering a Morocco tour for educators for \$1,595, normally \$3,000, and a Belize tour for \$1,395, normally \$3,100. If interested in either of these Site Inspection Tours, call Ross Jackson at 2907.

## College Council report

A proposed change of wording to the Board of Education drug-free workplace policy was put to College Council at its Nov. 5 meeting. Mark Harris, substance abuse prevention coordinator, asked whether the phrase "to any degree" should be added to "under the influence" within the policy. Council generally felt the addition would neither strengthen nor clarify the policy. Vice President Mary Spilde suggested that a change to administrative rule, rather than to board policy, might be more effective.

In other business, council revisited the ongoing issue of its mission and purpose, reviewed the Board of Education agenda for November 13, and postponed discussion of Facilities Management Committee membership to a future meeting. The next meeting will be December 3.

## Tax sheltered annuity notice

Tax sheltered annuity contributions for this calendar year should not exceed \$9,500. You may qualify for additional contributions if you have completed 15 years of service with the college. Contact your agent if your year-to-date deduction is close to the maximum allowed.

## Schafer award helps fund nature trail for runners

*Del Hessel*

A nature trail for runners has earned cross country coach Del Hessel of Physical Education a \$700 seed-money grant from the Eldon G. Schafer Endowment for Innovation. The four-foot wide trail winds through the woods on the southwest portion of campus. The trail will have a ground mat base covered by gravel and then wood chips. All labor will be volunteer and maintenance will be performed by cross-country students. The department is contributing \$445 to the project. Lucy Schafer Kinsman chairs the endowment committee. The endowment was established in honor of her late husband who served as LCC president from 1970-85.

## Funds available for faculty activities

Faculty Professional Activities funding is available to help pay expenses for workshops, conferences, or other activities that will benefit the employee and college. Deadline for applications is the first Monday of each month through June (Dec. 2, Jan. 6, Feb. 3, Mar. 3, Apr. 7, May 5, Jun. 2). Proposals must be approved before the activity date. For more information, contact Roxanne Flowerday or Pat John, Study Skills, 2439.

## Visitor will discuss how to recruit diverse faculty

The Future Faculty Steering Group, which facilitates discussion and sponsorship of the Future Faculty Task Force Report, is currently reviewing the recommendations relating to faculty recruitment, selection and hiring. In an effort to focus on recruitment of a diverse faculty, we are exploring "best practice" methods in use in other colleges. We are particularly interested in the development of mentoring programs. To that end we have invited Martin Bennett to share his insights with us on Friday, Nov. 15, from 1-3 p.m. in BUS 204A. Martin is an instructor at Santa Rose Junior College who has been involved in writing and obtaining grants to develop mentoring programs for instructors. Martin will offer a short presentation: Developing a Mentoring Program for Recruitment of a Diverse Faculty, and then be available to answer our questions so that we might assess the feasibility of such a program at Lane. Please join us for all or part of the presentation. I would appreciate it if you could share this information with anyone you think might be interested. Thank you. - Mary Spilde

## A word about job postings...

When postings are advertised concurrently to both LCC classified bargaining unit employees and the general public, the process is still the same as if it were open to classified bargaining unit employees only. In addition, the mosaic, which is made up of 15,552 pictures of school children, will be featured in upcoming issues of *Art & Design* and *Adobe* magazines.

## Student Employment Program notice

Lane is beginning its third term of the new Student Employment Program. This program partially replaces the old courtesy appointment program. It's working well, but of course kinks are still being worked out. One source of confusion is whether students in the new program are eligible for tuition waivers the same as regular part-time employees. We would like to remind you that students employed through the new Student Employment Program are NOT eligible for tuition waivers. Please make sure that all employees under your supervision understand this and do not promise tuition waivers to students in this program. The committee charged with replacing the old courtesy appointment program is still working on a proficiency grant program and recognition for volunteers. Questions may be directed to committee chair Jack Powell.

**POINT OF INTEREST:** Did you know that if you are currently a smoker you could quite easily become a regular world traveler with the money you would save every year buy quitting? Example: Round trip air fare to Shannon Airport in Ireland this summer will be about \$560. Total packages to Europe that would include a week to 10 days of accommodations plus air run about \$1000. Vacations to Australia or Tahiti are comparable. So when you say good-bye to cigarettes, you might really be saying bon voyage. Send us postcards!
