## Ross Jackson named outstanding employee

Ross Jackson has been chosen February's Outstanding Classified Employee of the Month. Members of the Classified Professional Development Team made a surprise visit to the DTC where Ross is an instructional coordinating specialist. His job responsibilities are many, some of which include class development, phone registration and assisting students at the counter. When it comes to customer service, Ross really excels. Never turning down a request for help, he is always willing and able, whatever the job may be. He has been known to fix the copier on occasion and even a leaky pipe.

## TACT members appointed

Vice Presidents Linda Fossen, Marie Matsen, Mary Spilde, and Larry Warford have announced the appointment of 10 staff members to serve on the first Technology Advisory and Coordinating Team. TACT will work with departments and entities on campus to formulate a technology plan and planning process for LCC and to recommend ways of enhancing coordination in technology-related issues and activities. The members are: Mac Allison, Applied Engineering; Bob Barber, Computer Information Technology; Ray Carter, Campus Services; Linda DeWitt, Financial Aid; Linda Erickson, Business Technologies; Linda Loft, Computer Information Technology; Joe Russin, Science; Sylvia Sandoz, Research and Planning; and Ken Zimmerman, English, Foreign Language & Speech.

## Second group of Hyundai technicians begin training

The second group of 50 manufacturing technicians from Hyundai Semiconductor America began training at Lane on Monday. Business and Industry Services Director Dave Oatman says the group will complete 400 contact hours over the next 10 weeks. Courses will include algebra, chemistry, photo lithography, clean room procedures, wafer handling, team building, and several other subjects.

The men and women are from logging, food service, retail, book distributing, finance, electronics, homemaking, and other backgrounds. Some have associate or bachelor's degrees. All of them are from Lane County, as were all but two of the first group. The first group completed training in early January. Half are now receiving advanced training in Korea, and half in Eugene. Lane will train a total of eight groups, or 400 manufacturing technicians.

The project budget is \$1.2 million. About 60 percent is from state and federal economic development grants and 40 percent is from Hyundai.

In related events, Bob Vogel in Applied Engineering is developing an associate degree in semiconductor manufacturing.

Hyundai is the third major employer Lane has helped attract to the community in recent years with its custom training program, following Sony Disc Manufacturing in 1994 for whom Lane trained 250 employees, and Symantec Corporation in 1993 for whom Lane trained 150 employees.

## Student recognition ceremony to be held

Phi Theta Kappans are hosting the third annual Student Recognition Ceremony and ask that faculty nominate students for these awards. (Students do not have to be Phi Theta Kappans.) Department chairs received nomination forms this week, and departments can nominate as many students as they wish for recognition awards that can be worded as the department wishes by February 28. Preparation of the certificates, framing, letters to the students, inclusion in the program, and light refreshments at the ceremony are covered by \$20 per student nomination. At this time PTK needs to know how many awards to anticipate (specific names will be submitted later) and ask that faculty plan to attend by putting the date and time on their calendars: April 9 from 3-5 p.m. Students, families, friends, faculty, administrators, and classified staff are invited to attend. Dr. Moskus will present the awards to the students. For more information, contact PTK Advisor Dr. Velma Jesser at 2157 or e-mail.

## Sculptor found courage at Lane

During the month of February, the Library's Mezzanine Gallery is hosting an exhibit of sculpture by Marjorie Lorange. Working in stone and wood, Lorange creates smooth, flowing pieces which are intriguingly organic in their suggestion of exotic flora. In the artist's statement, Lorange speaks about her dream of sculpture and the educational environment she found at Lane: *"My life experience has led me to sculpture. I was a potter. A potter who had a dream of doing sculpture. I came to LCC with no background in art, except interest. I was unsure of myself and afraid. It was amazing to me that as an older person I was taken seriously as a student. I am grateful for the acceptance and instruction I have received. In this atmosphere of encouragement, creativity has been nurtured. I am no longer afraid."*

The Mezzanine Gallery is located on the upper floor of the Library, and the exhibit of sculpture by Marjorie Lorange continues through the end of the month. For information about the Library's gallery space, contact Daniel Moret at 2318.

## Respiratory care student wins statewide award

Second-year respiratory care student, Carol Hardisty, received the annual Mary Catherine "Cat" Garvin Memorial Award at this year's Pacific Northwest Respiratory Care Conference. Garvin, a registered respiratory therapist, was known as a dependable, versatile and responsive therapist, and a strong advocate for the improvement of respiratory care. Second-year students from the three respiratory care programs in Oregon were asked to nominate classmates who will be most likely to continue Garvin's contributions to respiratory care. Carol Hardisty received this award, along with a plaque and a \$500 check, after being nominated by her peers. Some of Carol's attributes that her classmates wanted the selection committee to consider were that she is: a wife and mother of two while attending school full time; involved with the American Lung Association's "Open Airway's" program for elementary school students; class representative in the Respiratory Care Program's Advisory Committee; calls her classmates when they are sick or absent; and that she is seen by her peers as a leader.

## Wellness news

The Wellness Program and Heart Attack React will present "Every Minute Counts: A Heart Attack Survival Guide" on Wednesday, Feb. 26 at 3 p.m. in FOR 309. Learn the latest life-saving information on heart attacks and how to identify an attack early. Heart attacks are the number one killer of men and women. A heart attack survivor will also share his story. For more information, e-mail or call John Healey at 2271.

Interest continues in obtaining corporate rates at the Downtown Athletic Club for Lane employees. The DAC needs to know the current number of members who are LCC employees to assure that current and new members receive the benefits of monthly fee reductions. The Wellness Program must submit survey results by the end of this week. If you are currently a DAC member and have *not* responded to the survey, please provide your name and membership number to John Healey by e-mail, voice mail 2271, or by campus mail. Thanks to those who have responded.

## Board report

The three B's dominated the February 19 Board of Education meeting: bargaining, bond and budget. Faculty crammed the gallery and stated contract concerns regarding security, seniority and salary for part-timers, insurance, and intellectual property rights. Campus Services Director Paul Colvin reviewed bond planning and activity; watch *The Daily* for excerpts. President Jerry Moskus walked the board through a \$1.3 million budget reduction proposal. "This would not be happening except for Measure 47," he said. "There are no good cuts anymore." The proposal was distributed to staff and hearings for students, staff and the public will be scheduled.

Chair Cindy Cable announced the completion of the president's annual evaluation. "It was a constructive process," said Vice Chair Michael Dubick. "The president received good marks and constructive feedback to set goals." Member Pat Riggs-Henson added, "Jerry works hard to keep our image positive in the community and to keep us going forward."

In other business, the board unanimously approved a contract award to TBG Architects for KLCC preliminary design; a contract amendment for Cottage Grove center construction; appointment of Anne Monroe as Adult Basic Skills instructor and Mark Whitson as housekeeping manager; and appointment of Kenneth Kuhns & Company as college auditors.

## Employee Wellness Resource Tip

Have you noticed that in these exacting times for our institution, there are employees who paradoxically seem even more relaxed, better centered and very much in control of their faculties? This may be due in part to the brisk sales of Nancy Hopps' relaxation tapes and CDs through the LCC Bookstore. She continues to offer relaxation, stretching, and imagery sessions in person on Wednesdays and Fridays from about 12:05-12:50 p.m. in HEA 106. These are drop-in, when-you-can-make-it sessions, so don't feel as though you have any registration or catching-up to do (for that would be stress-inducing). For more information, e-mail or call John Healey at 2271.

## Interested in writing a grant this year?

The Grant Development Fund helps departments remove barriers to completing new grant initiatives for the college. Grant Development Funds can be used to provide re-assignment time for staff to work on grants; hire part-time help to work on grants; hire outside grant writers, readers, editors, or word-processors; or attend technical workshops about specific grants. Requests for funds may be made at any time. Requests which meet the criteria for receiving support are awarded funding on a first-come, first-served basis. Available funding is limited, with a maximum of \$3,000 for a large project. Information packets can be found in the current college Grants Manual (red cover). Information packets and request forms also are available from department chairs or from Sarah Ulerick, grants coordinator, 2312, or Paula Chan Carpenter, KLCC development director, 2486.
