Stop Smoking and Recovery Seminar," the Wellness Committee is offering another "life-changing" and possibly, "life-saving" opportunity to all Lane staff on Wednesday, May 7, from noon-2 p.m. in PE 205. - one year after you quit smoking excess risk of coronary heart disease is half that of a smoker.
- five years after you quit smoking lung-cancer death rate for the average former smoker (one pack a day) decreases by almost half.
- 16 weeks after the first "Breath of Life! Stop Smoking and Recovery Seminar" was offered to employees, 100% of the participants have been smoke-free.

College council report

At its May 6 meeting, College Council supported a proposal to develop a college master calendar by contracting with a local Internet business. The proposal includes a community events calendar and a college-only calendar with "process" events such as budgeting deadlines, although both would be accessible to web users. Diane Dann explained the idea on behalf of the Web Site Committee which foresees insufficient resources for the college to proceed on its own. Council members Patti Lake and Barb Delansky will help Dann to define parameters and guidelines for the calendars.

Sylvia Sandoz updated council on Technology Advising and Coordinating Team activities, including a drive to identify all college technology committees and activities. She invited comment via e-mail to TACT@CMPS_MA.

Mary Spilde and Dennis Gilbert presented on the strategic learning initiative. They took comment on an all-staff memo due out soon which describes the initiative and seeks feedback.

Council also reviewed the draft Board of Education agenda for May 14.

The president is writing a paper on shared decisionmaking and invited comment via e-mail on what sort of statement would be helpful to the college.

Council's next meeting is set for June 3.

Lane student wins League for Innovation award

Congratulations to Michele Rutheiser for her third-place win in the national League for Innovation Student Literary Competition. Her essay, "The Joy Of Gardening," marks the first time in 21 years that one of our students has been awarded a monetary prize in this prestigious competition. The League for Innovation is a consortium of 20 colleges throughout the U.S. and Canada dedicated to improving all aspects of community college operations and gaining recognition for the important role that community colleges play in the overall educational system. Rutheiser was born and raised in San Francisco, living in the Bay area until moving to Oregon in the fall of 1992. She was a marketing manager for an oil company for several years until a serious illness forced her to change directions. She is currently in her third term at Lane and plans to attend the University of Oregon School of Journalism upon graduation. "The Joy of Gardening" is Rutheiser's first professional literary entry and she hopes her love of writing continues to bring her success.

Bon voyage

A celebration reception for retiring employees will be held today, from 3-5 p.m., in the northwest corner of the cafeteria. Come say bon voyage as colleagues sail away to new seas.

Logo team wants your help

Are you tired of Lane's stationery and business cards? Do you want to see the college Web site jazzed up? Here is your chance to help. We are beginning the process of designing a new logo and graphic look for the college. The first step is to gather samples from Lane and other organizations. You can help by sending us samples of things you like and things you don't like. Between now and the end of May, please send examples of the following to Angela Miller in Institutional Advancement:

1. Publications or other printed pieces from Lane with a brief note (or Post-It) telling us what you like or don't like about them. (Your name is helpful for follow-up, but not essential.)
2. Logos, publications, stationery, or other printed pieces that you like from other colleges or organizations. Include a brief note telling us why you like them. (Name helpful and optional.)

LANE
COMMUNITY
COLLEGE

The college is currently using the two different logos pictured to the left, one on stationery and the other for publications and marketing.

We have wanted to develop a new logo and graphic look for the college for years and have reached a point in time where it will be efficient and cost-effective to do so. Since the passage of Measures 5 and 47, more of Lane's funding comes from the state. To maintain this funding and protect programs and services, the college must maintain enrollment. This requires that Lane have a clear, recognizable logo and graphic look to help make the college visible in the community. In addition, one of the key findings of Students First! research is that students find the information we give them confusing. Students asked the college to be more consistent in its use of language and graphic design. Finally, neither of the college's current logos work well in electronic media, including on the Web. The selection of a new logo and graphic look will enable the college to improve the look of its Web site.

This redesign project is being coordinated by a team made up of Gary Anderson, Printing/Graphics; Chris Lindberg, Media Arts and Technology; Bee McRae, Students First!; Thomas Rubick, Art and Applied Design; and Susan Sutton, Angela Miller and Diane Dann (convenor), Institutional Advancement.

Jake Felsenstein shares his poetry with writers' club

Jake Felsenstein will share his poetry with the Lane Writers' Club on Tuesday, May 20, from 3-4:30 p.m. in CEN 480. He is author of the book *A Bird in My Mouth*. Felsenstein's career path was determined largely by the effects of the Great Depression. Once a scholarship student at the Art School in Philadelphia, Felsenstein left to take odd jobs doing illustrations for books and magazines. Through these trying times, Felsenstein says that "...something wanted me to write. I feel now that I was intended to be more a poet than an artist. But the art training has helped me with imagery in my poetry." Join Felsenstein as he reads and talks about his work.

Are your students learning what you're teaching?

"Probing Students' Understanding: Are They Learning What You're Teaching?" is the topic of a Teachers Talking About Teaching workshop on Thursday, May 22, from 3-4:30 p.m. in CEN 420. Lou Bombardier, Terri Herbert and Craig Taylor will share practical methods of using many probes to assess student understanding of your class material. Find out how to be more successful in your teaching with some fresh ideas. Register with Wen Harris at 2434.

Learning Times calendar correction

If you didn't catch the correction to the June *Learning Times* calendar earlier, please note that June 1 is a Sunday and not a Tuesday as shown on the calendar. The trainings will be offered on the day of the week shown, i.e., "Responding to Criticism" is the first Wednesday, etc. If you have any questions, call Julie Baker at 2199. Thanks!

NETWORK TRAINING UPDATE ATTACHED

Attached to today's *Daily* is an announcement regarding the beginning of training for establishing remote access to the college network by Windows 95 users. Opportunities begin this week, prior to the long Memorial Day weekend. The attachment also restates the previously scheduled network training opportunities which are still available this term. During summer term, additional Windows 95 remote access training will be available, as will most regular training opportunities. Watch *The Daily* the first week of summer term for that announcement. Questions: Bob Barber, 2734.

THANKS

Thank you all for the best wishes, flowers and cards which I received during and after my recent surgery. One can appreciate the love and care that goes a long way with a simple "thinking of you". Thanks again, Connie Mesquita.

Board report

The Board of Education allotted extra time at its May 15 meeting to hear speakers advocate settlement of faculty contract negotiations. Later in the evening the board echoed agreement.

The board debated business efficiency vs. providing more opportunities for minority contractors, regarding its bid waiver policy. Agreeing that waivers are sometimes appropriate, Marshall Saucedo said it's a habit that Lane must change. Dubick said long-term planning would avoid emergency use of waivers.

The board approved \$375,000 to build the Community Learning Center at Thurston after long discussion. They called for more detailed communications in advance of expenditures and questioned the staffing costs of the CLSs. Roger Hall continued to call for more classroom space on main campus.

A six-month affirmative action report raised the question as to why improved recruiting had resulted in no minority hires. Further review of screening and department-level processes was recommended.

The board appointed Larry Romine to the Zone 1 seat and elected Michael Dubick as chair and Pat Riggs-Henson as vice chair, moves caused by Cindy Cable's resignation. The board accepted the retirements of Don Micken, Gary and Marilyn Rholl, and Pat Williams; approved Omnitek to supply Hewlett-Packard printers as needed; approved ASLCC election results; and approved \$48,711 to US West Communications for a voice mail upgrade.

ASLCC election results

ASLCC election results: Daniel Armanino, president; Pamela Brooks, vice president; Shelly Lucas, treasurer; Robert Dickerson, Cultural Director; Mark Roush, Marrisa Davis, Angela Wright-Cark, Vicki Lavis, Jeff Stott, Choul Wou, Angela Hajicek, Brian Tanner, Heather Hummel, and Geraldine Schwegert, senators. New ballot measures will allow preference voting for senators, change the title of Cultural Director to Campus Events and Multicultural Director, and convert senate terms from two years to one year.

Vice president position posted

President Moskus reports that the college is currently advertising the position of vice president for College Operations. He says this was a difficult decision because Interim Vice President Marie Matsen is central to a number of important college initiatives. After considering all factors, however, he decided it was necessary to open the position consistent with the college's affirmative action policy. The position is being advertised nationally and closes June 6. Craig Taylor will chair the search committee.

Web job postings

Do you know that Lane's job openings are posted on the Web under College Business, making them readily available locally and nationally? Lane is currently seeking to hire three classified staff, five faculty and one manager, the vice president for College Operations. (See above.)

New phone books have arrived

New US West telephone books are in the Warehouse. As in the past, please take your old book to the Warehouse starting today and it will be traded for a new one. If you have any questions, please call Steve Evans at 2453 or Bob Cudmore at 2571.

Traffic draws neighbors' attention

Some main campus neighbors are dismayed by the traffic, President Jerry Moskus noted in his monthly report to the board on May 15. On a typical Monday, 13,000 cars travel McVay Highway, and 19,000 travel 30th Avenue. "There's not much Lane can do," Moskus said. "We don't want to add parking fees to students' burdens," which was one idea to reduce traffic and boost bus ridership.

Springfield student awarded \$2,000 Jeld-Wen scholarship

Alissa Aaron of Springfield has been awarded the 1997/98 Jeld-Wen Foundation scholarship of \$2,000 to attend Lane, reports LCC Foundation Director Joe Farmer.

Aaron will graduate from Springfield High School in June. She has a 3.74 grade point average and is a member of the National Honor Society. Her major at Lane will be legal secretary.

For the past four years, Aaron has been a cheerleader. She won the all-state cheerleading competition and was a participant in the national competition. She works part-time at a local movie theater to provide for her cheerleading expenses and personal needs. She lives with her mother and two sisters.

The Jeld-Wen Foundation scholarship is limited to new students with financial need who have demonstrated scholastic achievement and live in a community where a Jeld-Wen facility is located. The local facility is the Northwest Pellet Mills plant in Brownsville.

Dr. Maria Yellow Horse Brave Heart visits Lane tomorrow

Dr. Maria Yellow Horse Brave Heart will visit Lane tomorrow and Saturday, May 23-24, for a series of presentations titled: "Healing Historic Unresolved Grief Among the Lakota." She is a member of the faculty of the University of Denver School of Social Work and a nationally known researcher and leader in Native American mental health issues. Five musicians from the Eugene community are guest artists for today's 7:30 p.m. concert by the Lane Chamber Orchestra at the First Christian Church at 12th & Oak in Eugene. Under the direction of Ron Bertucci, the orchestra regularly features professional musicians as soloists, providing excellent musical opportunities for musicians and audience alike. Cooper Wright, a student guest from South Eugene High, teams up with Larry Brezicka for the Concerto for 2 Oboes by Albinoni. Bach's Brandenburg Concerto no. 2 features guest artists Alice Burke, flute; Cheryl Wefler, oboe; Lisa Bieber, violin and Dave Bender, trumpet. The program also includes Corelli's Concerto Grosso op. 6, no. 5, Mozart's Saltzburg Sinfonie K. 137 & K. 138 and Gershwin's I've Got Rhythm. The LCC Chapter of the American Association of Women in Community Colleges is soliciting applications from eligible women students for its first annual Leadership Award. The award will consist of a scholarship of \$1,500 for one year to be paid in three equal disbursements for the 1997-98 academic year. Payment is contingent upon enrollment status of at least half-time and satisfactory academic progress (3.0 GPA). In addition, the award will pay the applicable costs of the recipient attending an appropriate leadership or professional conference in Oregon, up to \$500. An AAWCC member will also serve as mentor to the recipient during her award year. Students First! update

The Students First! process redesign project is the first of six administrative processes selected for redesign at Lane. Scheduled to be completed by December 31, 1998, the Students First! project will significantly change and improve the delivery of services to students. The redesign effort involves translating Lane's mission, vision and goals into results, using new approaches that cut across traditional department and job boundaries.

The Implementation Coordinators for the Students First! project are now on board. Linda DeWitt, Ext. 3006, Kay Malmberg, Ext. 3005, and Bee McRae, Ext. 3003, are located in Center 320, thanks to the generosity of the Counseling Department. The coordinators are beginning to work with several

campuswide teams, which are charged with implementing the Students First! process redesign recommendations. The following summarizes the teams that are currently working, the current team leaders, and the implementation coordinator who will serve as the main contact point for that team.

DWP program one of the best

The Dislocated Worker Program placed second in the competition for the Workforce Development Award presented by the American Association of Community Colleges and the U.S. Department of Labor last month. In 1987, the program was named best in the nation by the National Alliance of Business. The program is operated in partnership with the Southern Willamette Private Industry Council and is funded by JTPA grants.

Established in 1983, the program provides career/life planning, retraining or skills upgrading, and job search assistance to Lane County residents who lose their jobs due to changes in the economy. Of the 781 people served in 1995/96:

- * average age of participants was 40
- * 86 percent held a high school diploma
- * average wage at dislocation was \$10.96
- * average wage after 90 days in new career was 104% of wage at dislocation
- * 75 percent were employed by end of program
- * 62 percent found jobs related to their retraining
- * the average time spent in training was 8 months
- * the average GPA was 3.17
- * the average class load was 11 credits

First-place winner was Stark State College of Technology in Canton, OH, for its Computer Numerical Control Machinist Technician Program. There were 76 award entries.

Lane employees set records in Corporate Challenge

Lane employees set a record for participation in this year's 5K Corporate Challenge. Eighteen employees from various departments completed this walk/run event. About half of our team registered as walkers and several others placed high among the runners. Karen Louise White served as team captain right up to the last few minutes and then turned in the second fastest time for all women in the field. Tim Boyce, assistant track coach, ran the event in 17:11 which earned him 7th place overall in a field of 347. Ron MacKenzie and Christy Davids arrived at the finish line only a minute later. Walkers found this a great way to socialize and network. Most participants want to increase the size of our team for next year's Wellness Program sponsored event. We have our sights set on Symantec, who sponsored a team of over 100 employees.
