## BOND UPDATE

**THIRD LARGEST MAIN CAMPUS PROJECT WARRENTS ADDITIONAL FUNDING.** The Board of Education on September 8 awarded the contract for the Campus Services addition to McKenzie Commercial Contractors, Inc. of Eugene, with a base bid of \$903,400. Although the bidding was competitive, the base bid was still \$167,195 above the budgeted \$736,205, of which Laundry and Printing/Graphics reserves supplied \$66,200. Additional funding for the project will be drawn from budgeted but unspent funds from completed Community Learning Center projects. Rebidding was ruled out for several reasons: rebids might diminish costs only if already minimal designs are reduced, rebidding would cause a delay of approximately two months, and construction must be completed by April 2000, allowing Laundry to be housed in the new building for the start of its busiest time of the year. Construction is expected to begin in early October and conclude in April 2000.

**ALL-WEATHER GRAVEL LOTS OPEN FOR PARKING.** With the installation of concrete wheel stops, the upper gravel parking lots are now open for parking. The first gravel lot immediately to the south (up the hill) of the paved lots will be the construction entrance to the Child Care center site. The west end (closest to the Child Care site) of this lot will also house construction equipment. Parking will be available at the east end of this gravel lot, but those individuals utilizing the lot must do so at their own risk due to construction traffic.

**COMMUNICATIONS FOR BOND PROJECTS TO BE COOPERATIVE EFFORT.** Beginning this week, communication activities for the bond project will be cooperatively shared by Joan Aschim and Mike Hopkinson; former communications coordinator Nancy Nichols is returning to graduate school. Joan works in Institutional Advancement editing The Daily and working with news media. Mike retired from Media Arts and Technology this spring after 31 years of teaching broadcasting. Bond construction

questions, concerns or comments should be directed to Ext. 2027, or e-mailed to BOND@CAMPSEMA@LCC. Communications will be reviewed regularly by the project team, the architects, and the Facilities Management Committee. Bond construction updates are posted on the web at <http://lanecc.edu/campsvcs/ie/hpbond.htm>.

#### GAVIN "ROOSTER" FOX, 1948-1999

On September 5, Gavin "Rooster" Fox of KLCC lost his struggle with Lou Gehrig's Disease. He was 51. He left peacefully and with grace, remaining upbeat and positive to the end. Rooster was the creator and host of "Blues Power" for 22 years, and host of "Fresh Tracks" for the past four years. He hosted weekly blues jams at local clubs and was a local fixture at music events throughout the area. To the KLCC staff, he was more than a co-worker; he was friend, mentor, blues historian, walking encyclopedia, sports fan, and overall "guy you want to hang out with." We will miss him forever. The love and support he received from his many fans and listeners were tremendously comforting to him in his final months. He referred to the cards, letters and positive thoughts as his "best therapy." For more information, visit the KLCC web site at [www.klcc.org](http://www.klcc.org). - Gayle Chisholm

#### ED RAGOZZINO DINNER/AUCTION WILL RAISE SCHOLARSHIP FUNDS

Local theater legend Ed Ragozzino will step into the spotlight to benefit students and to celebrate the 25th anniversary of the Music, Dance and Theatre Arts Department at the Ed Ragozzino Toast & Roast fundraiser on Saturday, October 2, from 6-10 p.m. at the Valley River Inn. Ragozzino was Lane's first performing arts department chair. Proceeds from the fundraiser will establish the Ed Ragozzino Total Performer Scholarship endowment for Lane students preparing for a career in musical theater.

The evening will include dinner, entertaining cameos from Ed's shows, fun-filled jocular, roasting and toasting Eugene's entertainment legend, and an oral auction conducted by Sid Voorhees. Ralph Steadman will preside as master of ceremonies for the evening. Roasters and toasters will include University of Oregon President Dave Frohnmayor and Register-Guard arts and entertainment reporter Fred Crafts, among others. Tickets are \$50 per person or \$400 for a table of eight. For more information call the LCC Foundation at 726-2226.

#### AFFIRMATIVE ACTION PLAN NEEDS YOUR COMMUNITY SERVICE CONNECTIONS

All staff are asked to submit information on service to community groups, service boards, youth programs, and national programs designed to improve employment opportunities for women and minorities that occurred from October 26, 1996-October 25, 1997. Submit information to Jose Ortal at [ortalj@lanecc.edu](mailto:ortalj@lanecc.edu).

#### DIVERSITY STORIES NEEDED

The Oregon Community College Diversity Institute is one of the tangible results of diversity planning efforts begun in 1995 at Lane in collaboration with the Western Institute Commission on Higher Education. We are gathering anecdotal information to gain a better understanding of past accomplishments so that future planning activities more fully meet college needs. In that spirit, current and past Lane staff and students are invited to send not more than one goal (met or unmet/stated or proposed), and one success story that was stated, proposed, or occurred any time from 1995-1999 to Jose Ortal in Affirmative Action/Diversity/Equal Opportunity, Administration 122, or [JOSE\\_C\\_ORTAL@AFFIRM\\_MA@LCC](mailto:JOSE_C_ORTAL@AFFIRM_MA@LCC).

If you would like to attend this enlightening day with your colleagues, please contact Gloria Vanderhorst at Ext. 2308 for more information. Registration is limited to the first 15 who submit a travel form; first priority will be given to classified staff. - Gloria Vanderhorst, CPDT Chair

**DON'T MISS OUT ON MEDICARE**

Medicare becomes available at the beginning of the month in which you become age 65, whether you are retired or still working. You should apply prior to the month of your 65th birthday. When you enroll in Medicare Part A (hospital insurance), you also are automatically enrolled in Medicare Part B (medical services by doctors, clinics, outpatient tests), unless you tell the Social Security Administration that you don't want Part B because you have group insurance through employment. When your employer group plan is ending, you need to enroll in Part B with the Social Security Administration. When you enroll in Part B within their time limit, you pay the normal monthly premiums. Late enrollment in Part B will require you to pay higher premiums. For answers to your questions or to enroll in Medicare contact the Social Security Administration at 1-800-772-1213. You can also consider purchasing a Medicare Supplement plan from a private insurance company. If you are a PERS retiree, you may contact PERS Health Insurance Program at 1-800-768-7377.

**NEW INSURANCE RATE CHARTS FOR FACULTY AVAILABLE**

New insurance premium rate charts for FACULTY are available for pick up from the forms rack in the Personnel Office. Rate changes effect OEA coverage only and the new rates begin November 1.

## YOU'RE INVITED TO FLORENCE OPEN HOUSE

LCC at Florence invites you to join us for our annual open house on Monday, September 20 from 4-7 p.m. at the Florence campus. Tour our new, just completed building and don't forget to see our beautiful new dance floor. Demonstrations, informational tables, entertainment, and refreshments with a Spanish flair will be served.

## BOARD REPORT

THE CAMPUS SERVICES ADDITION construction contract was awarded to McKenzie Commercial Contractors for \$903,400 at the September 8 Board of Education meeting. The cost was higher than once anticipated because the project had been underestimated. However, savings from other completed projects will cover the overage. Other bond construction project updates were presented by project manager Bob Mention and architect Jim Lewis.

THE CONSENT AGENDA passed including the appointments of Jeanine Balz as Family and Health Careers instructor; Christina Boniface as English as a Second Language instructor; Kaaren O'Rourke as Business Technologies instructor; Ray Peterson as Academic Learning Skills instructor; and Bonnie Simoa as Music, Dance and Theatre Arts instructor. The retirements of Jerri Adler from Family and Health Careers, Wendell Pepperdine from Science; William Powell from English Foreign Language and Speech, and Sharon Williams from Admissions/Veterans Office were accepted. The contract award for gymnasium seating went to Nor-Pac Systems, Inc., of Kent, WA, for \$178,667; and subcontracts for the Junction City community learning center went to Essex General Construction, Morris P. Kieley GC, Northwest Carpet Gallery, Doug Palmer Electric, and Twin Rivers Plumbing, for a total of \$596,049; an award for a hydraulic press brake machine went to Fahey Machinery Company of Lake Oswego for \$143,406.

THE LOSS OF GAVIN "ROOSTER" FOX, Hal Davis, Warren Hadley, and Dave Hensley were acknowledged.

IN REPORTS, STUDENT HOUSING sites under the Ashlane lawsuit settlement will be recommended at the next board meeting, said Vice President Mary Spilde. A REVIEW OF NONREIMBURSEABLE FTE was presented by Vice President Marie Matsen; board members praised the report as comprehensive and helpful. A LEGISLATIVE UPDATE was presented by Vickie Totten Chamberlain, executive director of the Oregon Community College Association. She said community colleges must stand together to effectively compete for funding, particularly following last session's split by several colleges and their local legislators. President Jerry Moskus said Lane has stood by the shared agenda but may have to reconsider if unity is not achieved.

HOW INTERNAL CONFLICTS ARE ADDRESSED was discussed following various statements from audience members, staff and board members at this meeting, and recalled from previous meetings. Some statements were characterized as attacks on other personnel and it was asked how shared governance can be served in such an atmosphere. Chair Robert Ackerman defended the right of free speech but also said it was unfair and unproductive to "trash" someone. He advocated using grievance procedures where possible, respecting arbitrated decisions, and solving problems rather than rehashing them. Faculty union president Margaret Bayless also disparaged trashing but contended that when issues are not resolved in the workplace, the board must be informed.

All votes were 7-0 unanimous. The next board meeting is a week early on October 6.

## STATE COMMUNITY COLLEGE OFFICE RENAMED, REASSIGNED

The former Office of Community College Services was renamed the Oregon Department of Community Colleges and Workforce Development during the 1999 legislative session. The change completed the lengthy evolution of community college governance from a function of the Oregon Department of Education to that of a distinct department reporting directly to the State Board of Education. Vicki Totten Chamberlain of the Oregon Community College Association lobbying group said, "The agency functioned like a department for many years in terms of both fiscal and policy matters. Yet we

were connected to the Department of Education in a way that resulted in confusion between K-12 and community college issues, especially in the legislative arena."

#### WANTED: IDEAS ABOUT CLASS SCHEDULE

Institutional Advancement is launching a full-scale review of the college class schedule with the creation of an E-mail box to make it easy for staff (and others) to communicate their ideas. The review is the first step in making the schedule easier to use and will include content, format and delivery methods. A review team and timelines will be announced soon. In the meantime, please take a few minutes to look through the fall schedule. Tell us what you like and don't like, suggestions for improvement, and good ideas you've seen in other class schedules. If you are on the college's E-mail system, type in Class Schedule in the StreetTalk directory. From other E-mail systems, use the address: [class\\_schedule@lanecc.edu](mailto:class_schedule@lanecc.edu)

#### AFFIRMATIVE ACTION PLAN NEEDS YOUR COMMUNITY SERVICE CONNECTIONS

All staff are asked to submit information on service to community groups, service boards, youth programs, and national programs designed to improve employment opportunities for women and minorities that occurred from October 26, 1996-October 25, 1997. Submit information to Jose Ortal at [ortalj@lanecc.edu](mailto:ortalj@lanecc.edu).

#### DIVERSITY STORIES NEEDED

The Oregon Community College Diversity Institute is one of the tangible results of diversity planning efforts begun in 1995 at Lane in collaboration with the Western Institute Commission on Higher Education. We are gathering anecdotal information to gain a better understanding of past accomplishments so that future planning activities more fully meet college needs. In that spirit, current and past Lane staff and students are invited to send not more than one goal (met or unmet/stated or proposed), and one success story that was stated, proposed, or occurred any time from 1995-1999 to Jose Ortal in Affirmative Action/Diversity/Equal Opportunity, Administration 122, or [JOSE C ORTAL@AFFIRM\\_MA@LCC](mailto:JOSE C ORTAL@AFFIRM_MA@LCC).

#### OREGON DIVERSITY INSTITUTE REGISTRATION

The Annual Oregon Diversity Institute sponsored by Oregon Community Colleges is scheduled for October 27-29 at Salishan Lodge in Gleneden Beach. This year's program features keynote speakers, breakout sessions, sharing circles, and discussions of presentations on institutional projects. Participants will have ample opportunity to discuss activities, programs, challenges, and successes related to diversity taking place at their particular colleges and universities. Through your active participation, willingness to share your expertise, knowledge and experiences, participants will leave the Institute with an increased knowledge of key issues and an increased commitment to strengthening diversity on Oregon post-secondary campuses. Registration is \$65 if paid by October 22 and \$70 on-site. For more information, contact Adrian Rodriguez at [rodrigueza@lanecc.edu](mailto:rodrigueza@lanecc.edu) or Ext. 2852 or check the web at <http://lanecc.edu/afirmact/div/odi/index.htm>.

An appointment needs to be made ahead of time by either dropping in at Student Health Services or by calling extension 2665. The shot needs to be paid for and paperwork picked up and completed in advance so that the clinic runs smoothly and on time.

## BOND UPDATE

WELDING is reaching for the sky: construction crews began erecting steel beams on Thursday, giving the first hint of a new skyline on main campus' east side. Project completion is scheduled for December.

CHILD CARE on campus' west side began to take shape last week as workers built forms for foundations. This project should be completed in April 2000. Some of the boulders saved from project excavations will be selected by child care staff for landscaping the complex, or village, as some are suggesting calling the five-building cluster. This project will be the new home of the ASLCC Child Care Co-op, Family and Health Career's Child Development Center/Early Childhood Education program, and Lane Family Connections.

LTD has returned to its traditional location by Apprenticeship for fall term. When construction of the new Student Services building begins, tentatively scheduled for February 2000, LTD will move back to the temporary site near the west fountain. Facilities planners are "costing out" a permanent relocation site. Seven sites were examined in a study and planners currently favor a west fountain site with modifications to enhance pedestrian safety and aesthetic value. Planners will present a proposal to the Facilities Management Committee which will make a recommendation to the president. The relocation decision will take a few months. LTD is involved in the planning process. FMC meetings are open and notice is published in The Daily.

ARCHIVES storage is destined for PE 122-A and B, returning to main campus materials now stored at the old Montgomery Wards building on Franklin Blvd. To make the most of the space, shelves may be mounted on a space-saver track system.

Questions and comments about any bond construction activity may be directed to Ext. 2027 or e-mailed to [bond@campser\\_ma@lcc](mailto:bond@campser_ma@lcc). All communication received will be reviewed regularly by the project management team, the architects, and the Facilities Management Committee. Mike Hopkinson or Joan Aschim will get back to you with an answer. Updates and photos are periodically posted on the web at [http://lanecc.edu/campsvcs/ie/ns\\_bond](http://lanecc.edu/campsvcs/ie/ns_bond).

## THANKS

Thank-you is an understatement for the extra efforts put forth by Angela Miller and the Printing/Graphics staff. The elimination of program brochures and their replacement with information sheets for the college professional/technical certificates and degrees, resulted in a very short deadline for formatting and printing. Sacrificed vacation time and additional overtime was needed to have the information sheets ready for new student program orientations. The Counseling Department and hundreds of students are very grateful. Thank you!

## KLCC FALL RADIOTHON BEGINS OCTOBER 5

KLCC's on-air campaign for new and renewing members begins Tuesday, October 5, at 3 p.m. during the newly added program Fresh Air with Terry Gross. Fall Radiathon will continue until Tuesday, October 12 at 11 p.m. or until the goal of \$175,000 is met--whichever comes first! The pre-Radiathon "Thon Buster" campaign is now underway. Listeners are encouraged to shorten Radiathon by mailing donations to KLCC before October 5. Every dollar that comes in prior to October 5 reduces the Radiathon goal. Call the KLCC business office at 726-2224 for the official Thon Buster form, or contribute on-line from the KLCC web site at [www.klcc.org](http://www.klcc.org).

All Thon Busters are entered in a drawing for a fabulous prize of three nights at Overleaf Lodge in Yachats. The drawing will be held on the air October 8 during Fresh Tracks. Participants must be at least 18 years old and do not have to make a donation to enter the contest. Entries must be received by KLCC no later than 5 p.m. on October 4.

KLCC is the only National Public Radio member station in the Eugene/ Springfield area, reaching communities from the Coast to Bend and Roseburg to Salem. KLCC depends on listener contributions for 30 percent of its total operating budget. This fiscal year KLCC must raise a total of \$360,000 from the listening audience to sustain current levels of service. Listeners are encouraged to become members of KLCC by becoming a Thon Buster now, or calling 726-2218 or 800-922-3682 beginning October 5.

## DIVERSITY STORIES NEEDED

The Oregon Community College Diversity Institute is one of the tangible results of diversity planning efforts begun in 1995 at Lane in collaboration with the Western Institute Commission on Higher Education. We are gathering anecdotal information to gain a better understanding of past accomplishments so that future planning activities more fully meet college needs. In that spirit, current and past Lane staff and students are invited to send not more than one goal (met or unmet/stated or proposed), and one success story that was stated, proposed, or occurred any time from 1995-1999 to Jose Ortal in Affirmative Action/Diversity/Equal Opportunity, Administration 122, or [JOSE\\_C\\_ORTAL@AFFIRM\\_MA@LCC](mailto:JOSE_C_ORTAL@AFFIRM_MA@LCC).

## BOND UPDATE

**GRAND OPENING FOR MCKENZIE CENTER.** The Lane Community College Learning Center at McKenzie High School will hold its grand opening tonight, September 27, from 6-8 p.m., to coincide with the high school's open house and celebration of its new gym. Activities will include opening remarks, entertainment, and mini-classes. The address is 51187 Blue River Drive in Finn Rock.

**WELDING CONCRETE POUR A HI-TECH OPERATION.** Contractors poured the floor slab of the new Welding Technology Building on Friday, September 24, beginning at 3 a.m. and ending later that morning. High-tech equipment made it possible to pour the entire 18,900-square-foot floor in one seamless operation. A laser screed was used to level the concrete. It had a telescoping arm with a roller and blade which smoothed 12-foot swaths of concrete to perfect height and levelness based on laser signals received from devices set up at site perimeters. Worth about \$300,000, laser screeds have been used in Oregon for about eight years. Two riding troweling machines also were used to polish partially-set concrete. These one-man machines allowed operators to whirl around the floor operating levers which spun brush wheels over the concrete. The completed welding floor has four-inch and six-inch slab sections depending on projected use. About 360 cubic yards of concrete were poured. Today, crews will raise the steel roof structure into place.

LTD will remain at its present location on the north side of the Apprenticeship Building until construction of the new Student Services Building begins, currently projected for February 2000. During construction of the Student Services and adjacent Workforce Training Center buildings, buses will stop near the main entrance fountain. Current thinking is that after construction, about August 2001, the buses will return to the old, or present, location. LTD says its new buses have significantly improved emissions. LTD reports average boardings last year of 1,200 riders a day to main campus.

**CAMPUS SERVICES SITE WORK UNDERWAY.** Contractors began hauling away dirt on Friday from the Campus Services Addition site on the east end of the existing building. Earlier in the week, Lane facilities staff moved two kilns and a small foundry from the area to a Mechanical Technologies+ concrete cell for temporary storage. If county building officials approve, the kilns will be relocated to an area between Air Technology and Machine Technology prior to art student use later this fall. The new location will use the portable roof from the old site and will be surrounded by a chain link fence with slats.

**CHILD CARE FOUNDATION WORK CONTINUES.** Work on the Child Care complex on main campus west side continued last week with concrete footings and rough mechanical and electrical work for the north and east buildings. This week+s work will include the south building.

#### WORKSHOP ON HIRING REQUIRED TO CHAIR A SEARCH COMMITTEE

## ALL-STAFF NOTICE: SUNDAY POWER SHUT-DOWN MAY AFFECT YOUR COMPUTER

A power outage planned for Sunday, October 3, from about 7-11 a.m., will affect four buildings including Business, which houses the college mainframe and servers. Therefore, your computer and printer hardware may have problems if left on when data and electrical signals are cut. This includes main campus and outreach center computers. To protect your equipment, Computer Services requests that before you leave for the weekend:

1. Turn off your computer, monitor, local printer, fax and/or other local device(s).
2. Turn off any network printers. For this one time, ignore any note that says the printer is not to be turned off.
3. Locate the XCD box on the back of the network printer and make a note or drawing of the two cables going into it so you can remember how to reconnect the cables. REMEMBER, the power cable has a cylindrical end and the data cable looks like a phone jack.
4. Disconnect both of the cables from the XCD box.
5. Check all equipment BEFORE October 1 to make sure you know where to find power switches on equipment, XCD boxes and cables, etc. If you have problems, call the help desk at Ext. 4155 for assistance.

The outage also will cut power to Administration, Apprenticeship, and Industrial Technology buildings. The outage will allow campus electricians to energize a transformer to provide power to the new child care buildings under construction on main campus, west side.
