## RULES FOR FEEDING FERAL CATS ON CAMPUS

The Safety Committee, Animal Support Committee and Groundskeepers need your help. The college-approved strategy for dealing with feral cats on the main campus is to spay or neuter cats as they can be trapped, adopt out cats that can be domesticated and keep the remaining population controlled and disease-free. (For more details on this policy see <http://lanecc.edu/cops/animals.htm>.) Uncontrolled feral cats are a potential hazard to staff and students and are a particular concern for our groundskeepers who

have had to work in unsanitary conditions created by feral cats. The Safety Committee negotiated an agreement between the Animal Support Committee and Groundskeepers that the cats on campus would be fed only at approved feeding stations. This strategy is used successfully at many other institutions to control cats' territories. Please do not feed cats on campus except at approved feeding stations! We want to continue to treat feral cats as humanely as possible while protecting staff and students. We need your cooperation to be able to continue with the current strategy. If you want to help with the feeding of cats, please contact one of these members of the Animal Support Committee: Carolyn Cruz (Ext. 2864), Della Mathews (Ext. 2670), Jamie Kelsch (Ext. 2540), Kirsia Wheedon (Ext. 2721), or Ann Augard (Ext. 2246). If you have questions about the policy, please contact Marie Matsen (Ext. 2311).

## CASH REIMBURSEMENTS POLICY

College employees/students who purchase supplies for the college and expect departmental reimbursement must follow the procedure outlined in COPPS. Under the heading of Petty Cash Funds then College Finance Petty Cash Fund, (<http://www.lanecc.edu/cops/petty.htm>) the policy states that in addition to the completed, signed authorization form, the individual must present ORIGINAL validated receipts for the purchase. Invoices that don't indicate payment, photocopies of unprocessed checks, and photocopies of receipts cannot be accepted. This is a requirement from our auditors to establish a clear audit trail, and to avoid double reimbursements.

Cash reimbursements will not be made if monies owed the college are not in a current billing status, they will instead be applied to the past due account. The cash reimbursements are to be requested by the purchaser only, and purchaser must present photo identification to receive funds. Departments cannot pool receipts and send over one individual to receive the multiple reimbursements. If this need exists, you may request a department petty cash fund by following the instructions in COPPS. <http://www.lanecc.edu/cops/petty.htm> We hope that this information will help to eliminate confusion. If you have any questions please call Ext. 3011 Thank you! -College Finance Operations Team

#### CLARIFICATION: RULES FOR FEEDING FERAL CATS ON CAMPUS

The Safety Committee, Animal Support Committee and Groundskeepers need your help. The college-approved strategy for dealing with feral cats on the main campus is to spay or neuter cats as they can be trapped, adopt out cats that can be domesticated, and keep the remaining population controlled and disease-free. (For more details on this policy see <http://lanecc.edu/cops/animals.htm> ). Uncontrolled feral cats are a potential hazard to staff and students and are a particular concern for our groundskeepers who have had to work in unsanitary conditions created by feral cats. The Safety Committee negotiated an agreement between the Animal Support Committee and Groundskeepers that the cats on campus would be fed only at approved feeding stations **by members of the Animal Support Committee**. This strategy is used successfully at many other institutions to control cats' territories. Please do not feed cats on campus. We want to continue to treat feral cats as humanely as possible while protecting staff and students. We need your cooperation to be able to continue with the current strategy. If you want to help with the feeding of cats, please contact one of these members of the Animal Support Committee: Carolyn Cruz (Ext. 2864), Della Mathews (Ext. 2670), Jamie Kelsch (Ext. 2540), Kirsia Wheedon (Ext. 2721), or Ann Augard (Ext. 2246). If you have questions about the policy, please contact Marie Matsen (Ext. 2311).

#### CURRICULUM APPROVAL COMMITTEE REMINDER

The Curriculum Approval Committee will meet on Wednesday, Feb. 7, at 3:15 p.m. in the Boardroom. Contact: Melanie Brown, Ext. 2362.

#### CLASS SCHEDULE CONVERSION TO BUILDING NUMBERS REMINDER

Lane will take the next step in its signage and wayfinding system by using building numbers rather than building abbreviations or names in the spring class schedule. This transition is planned to coincide with the opening of new buildings and the installation of new signs on the main campus. The signs will show building numbers and give the major functions in each. Large, white building numbers now appear on all buildings on the main campus with the exception of the Center Building, which will retain its name. Staff are encouraged to become familiar with the numbers before spring term. A map with building numbers can be found on page 97 of the winter class schedule.

This change in the class schedule was recommended by the Wayfinding Committee and adopted by the Class Schedule Improvement Team with the endorsement of the Executive Leadership Team. The college is working to make it easier for students and visitors to find their way around on the main campus. - Wayfinding and Class Schedule Improvement Teams

#### PRINTING DEADLINE REMINDER

Instructional packets and books needed for spring term classes should be submitted to Printing/Graphics by Friday, Feb. 16. Materials needed for the first day of spring term should be submitted by March 21. Thanks for your cooperation. Vicki Miller, Ext. 2373.

#### INTELLECTUAL PROPERTY TELECONFERENCE REMINDER

A teleconference, "Control, Conflict, and Courseware: Intellectual Property in Online Education," will be held Thursday, Feb. 8, from 11:30 a.m.-1 p.m., in CEN 10 (basement). A companion web site has been set up at <http://telelearning.dcccd.edu/08feb2001/default.htm> with a detailed description; the participant print packet; supplemental articles and readings; and an opportunity to e-mail questions to the

panelists before the event. Copies of the participant print packet will be provided at the event. The teleconference will explore how intellectual property issues affect you and your institution. You'll find out about the considerations for developing policies, as well as about models being created to bridge the gap between the two traditional policies. If you offer or are planning to offer an online course, this live event will be helpful. Experts will discuss principles raised in videotaped scenarios of real-world use, as well as law and institutional documents. Live questions will be taken. Viewers emphatically say that this approach makes complex material accessible and understandable. The teleconference will be videotaped for check out from the library several days after the event. Sponsor is Information Technology. Contact: Cynde Leathers, Ext. 2260.

## BOND UPDATE

LOW BID IN ON CHILLED WATER UPGRADE OF CENTRAL PLANT. You've seen and heard it as you passed by the Center Building and looked down through the large panes of glass into the Machine Technology Building: those large clean white pipes, that black angular support steel, and the consistent low hum of machinery. What you have noticed are aspects of the central plant that houses the heating and cooling systems for LCC's main campus. Next week, the Board of Education will be asked to approve EMK Mechanical's base bid of \$207,699 for the first phase of the central plant upgrade: the chilled water system. Second and third phases will address differing aspects of the main plant's heating system. Why are these upgrades needed? Simple. The current heating and cooling system was constructed to accommodate LCC buildings before bond construction. Once all construction is complete, the system will no longer be able to provide adequate heating and cooling services to an institution whose main campus area will ultimately increase by approximately 200,000 square feet. Although the chilled water upgrade is comprised of multiple complex aspects, two basic changes will take place as work commences at the

beginning of March: the size of piping will be increased in various locations to carry greater amounts of cold water, and pump capacity will be increased to circulate the cold water through the entire chilled water loop. Taken as a whole, the upgrade will provide the expanded LCC main campus community with ample heating and cooling services in a more energy efficient manner.

**SUBSTANTIAL COMPLETION OF HEALTH TECH, STUDENT SERVICES & SCIENCE/MATH IS IMMINENT.** As various inspectors complete their duties, it looks like this week, the first phase of the Health Tech Remodel should reach substantial completion and obtain temporary occupancy permits. The Student Services Building and the Science/Math Complex will reach substantial completion next week, with issuance of temporary occupancy permits also expected; however, as with the Health Tech Project, aspects of finish-up work will continue. The tentative moving schedule for the three buildings are as follows: the Dental Hygiene and Assisting Programs will begin relocating to their new area the third week in March; the Science Department will begin portions of the moving process the later half of this month; and in May, the Student Services' departments will begin shifting their activities to the completed building.

**PERFORMING ARTS CONSTRUCTION PRECEDED BY NECESSARY PASSAGEWAY WORK.** Beginning March 1, and reaching completion the first week in May, passageways on either side of the Performing Arts (PA) facility will be upgraded. The upgrade will provide greater levels of quality campus accessibility during construction of the PA project. On the west side of the Performing Arts Building, the ADA compliant pathway that runs between the PA and Physical Education Buildings will be eliminated when construction on the Performing Arts Addition begins in June. Consequently, a new pathway with ADA and aesthetic elements will be reestablished. The new passageway will proceed from the southwest corner of Performing Arts and slope gently downward toward the PE Building. The new 8' wide passage will sweep first right and then left, arriving at a circular landing that is further north, towards the side door of the Fitness Center. Future possibilities for the landing area include benches and appropriate landscaping. Completing the passageway, a southwestern curve will direct pedestrian traffic back towards the first floor entrance of the facility. Simultaneously, on the East Side of the Performing Arts Building, another major upgrade will take place on the main passageway onto campus that runs up the hill and past the Campus Services Building. The objective of this upgrade is to create an ADA compliant passageway that provides a striking main entrance feeling. Echoing 12' campus walkways, the pathway will be adorned at particular points with inviting components: contrasting textured pavers, an enlarged landing area that welcomes pedestrians with benches and directional signage; an appropriate sprinkling of lamp posts not unlike those found at the LTD Bus Station; and robust attractive landscaping that compliments existing evergreen and deciduous trees. Specifics regarding temporary pedestrian traffic rerouting during construction will be available in the next bond update.

**CHAMBERS CONTINUES VITAL PREPARATION FOR WORKFORCE TRAINING PROJECT.** If you remember, when Chambers Construction moved on site to build the Student Services Building, it was amazing how quickly and efficiently the project progressed--and stayed on schedule. Good planning pays off. Not surprisingly, Chambers is again embroiled in planning and organizing the Workforce Training Center Project so that when mobilization takes place, construction will move along like a well-oiled machine. Look for activities to begin this week.

**FOR MORE INFORMATION** about bond construction projects, call Nancy Nichols at Ext. 2027, e-mail [bond@lanecc.edu](mailto:bond@lanecc.edu) , or check out the bond web site at [http://lanecc.edu/campsvcs/ie/ns\\_bond.htm](http://lanecc.edu/campsvcs/ie/ns_bond.htm) .

These workshops are given from 10 a.m. to 3 p.m.

Volunteer employers will also conduct mock interviews for students to practice their interview skills and receive professional feedback. It is recommended that students take a resume, cover letter and personal statement for the interviews or to hand to potential employers.

#### DANCE THEATER PROJECT EXPLORES BREAST CANCER

"Amazing Grace," a full-length, multi-media dance theater piece that explores the emotional and spiritual transformations of women with breast cancer, performs for three days only, on Thursday, Friday and Saturday, February 15, 16 and 17 at 8 p.m. in the Lane Performance Hall. Tickets are \$10 adults; \$8 for seniors, Lane faculty, staff and students, and \$7 for all groups of 10 or more. This concert draws on the

talents of several local artists. Mary Seereiter, a dancer, choreographer, and movement educator is featured as a dancer and performs throughout the concert. Her choreographic and improvisational contributions are seen throughout the evening and revolve around her story about moving through the experience of breast cancer. Barbara Myrick, who has been free from breast cancer for six years, is a teacher, and musician. For this concert, she performs piano and dances in the biographical dance "Dear Brian". Through journal entries, photographs, movement, and song, the dance is tribute to her love for her son, who was four years old at the time of her diagnosis in 1994. Vocalists Kimberly McConnell and Penny Merritt sing "Amazing Grace" and the breathtaking duet "Lakme." Judith "Sparky" Roberts performs in two dramatic sections and her voice accompanies the dance "Breast. One. Two." Wind Kim and Bonnie Simoa dance throughout the piece, and Wind also plays flute. The photographs of local photographer Raku Mayers will be projected during the sections of the piece and displayed in the lobby. ## CAREER/JOB FAIR OFFERS STUDENTS OPPORTUNITIES TO MEET EMPLOYERS

The annual Lane County Career/Job Fair is open to all Lane students and will be held Wednesday, Feb. 21, from 10 a.m. to 3 p.m. at Valley River Inn. The fair is free and hours of attendance are flexible. This an excellent opportunity for Lane students planning on entering the workforce or continue their education to preview companies for future employment. We expect more than 100 business participants who will be organized by areas of interest.

The event features several 30-minute workshops for students. One workshop will feature an employer panel who will share employer expectations of job applicants and interviewing skills and demonstrate acceptable and unacceptable practices. Other workshops are Career Direction: How to Figure Out What You Want To Do When You Grown Up and Ethics In The Workplace: It's A Matter of Respect. Workshops are given from 10 a.m. to 3 p.m. Volunteer employers will also conduct mock interviews for students to practice their interview skills and receive professional feedback. It is recommended that students take a resume, cover letter and personal statement for the interviews or to hand to potential employers.

Please inform your students of this excellent opportunity. If you have any questions, please call Delna Coe, Ext. 2008.

## PREPARE FOR THE NEXT CHAPTER OF YOUR LIFE

The Classified Professional Development Team invites all staff to participate in the winter term half-day training on Tuesday, Feb. 13 at the Doubletree Hotel with Dr. Patt Schwab of FUNdamentally Speaking. CPDT's theme this year is "Preparing for the Next Chapter of Your Life." For each person, that chapter is different. This program reminds us that as we rush from one commitment to the next, one project or report or customer to the next, every so often we need to stop and ask ourselves, "What if the Hokey Pokey IS what it's all about?" Register at voice mail box 7775 for morning or afternoon session. If you wish to be included in the breakfast or lunch, reservations must be made by this Friday, Feb. 9. Questions? Julie Baker, Ext. 2199.

#### CLASS SCHEDULE TO USE BUILDING NUMBERS

Lane will take the next step in its signage and wayfinding system by using building numbers rather than building abbreviations or names in the spring class schedule. This transition is planned to coincide with the opening of new buildings and the installation of new signs on the main campus. The signs will show building numbers and give the major functions in each. Large, white building numbers now appear on all buildings on the main campus with the exception of the Center Building, which retains its name. Staff are encouraged to become familiar with the numbers before spring term. A map with building numbers can be found on page 97 of the winter class schedule. This change in the class schedule was recommended by the Wayfinding Committee and adopted by the Class Schedule Improvement Team with the endorsement of the Executive Leadership Team. The goal is to make it easier for students and visitors to find their way around main campus. - Wayfinding and Class Schedule Improvement Teams

## FIRE ALARM TESTING SET FOR SATURDAY

On Saturday, Feb. 10, preliminary fire alarm testing will occur in the Science/Math Addition and the Student Services Building. Testing will begin at 7 a.m. and conclude at 12-noon. The Science building is the only occupied facility that will be affected by the testing.

During examination of the system, fire alarm horns, strobes, and smoke detectors will intermittently be engaged. Facilities Management personnel will monitor inspection of the fire system and be available, along with Public Safety staff, to evacuate occupants of the Science Building if an emergency should arise during the testing period. Occupants will be notified when fire testing has been concluded.

Preliminary testing of fire alarm systems is necessary to insure that the alarm system will pass next week's final testing by the Lane County Fire Marshal. In so doing, temporary occupancy permits will be secured for the Science/Math Addition and the Student Services Building.

Thank you for your patience during the fire alarm testing. Questions? Contact Nancy Nichols at Ext. 2027 or e-mail [bond@lanecc.edu](mailto:bond@lanecc.edu).

## BOND ALERT: FINAL FIRE ALARM TESTING

On Thursday, Feb. 15, final fire alarm testing will occur in the Science/Math Addition. Testing will begin at 8 a.m. and conclude on or about 2 p.m. While the testing will take place only in the addition, occupants in the Science building will be able to hear the alarms to a certain degree. Should alarms and strobes go off in the Science building during the testing period, the Science alarms must be regarded as legitimate indicators to evacuate the building.

Beginning today, signs notifying students of the addition's fire system testing will be posted on exterior doors of the Science facility. Bond Project Management Team personnel will be on site during inspection of the fire system and notify the main Science office when fire testing in the addition has concluded. It is anticipated that Thursday's final testing by the Lane County Fire Marshal will yield temporary occupancy permits for the Science/Math Addition.

Thank you for your patience during the fire alarm testing. Questions? Contact Nancy Nichols at Ext. 2027 or e-mail [bond@lanecc.edu](mailto:bond@lanecc.edu).

## BUDGET UPDATE

This is the time of the budget development cycle when many adjustments are made to projected revenues and expenditures that can swing our "bottom line" up and down. Our projected deficit for maintaining the college's current service level in 2001-2002 currently is \$1,145,600. The largest single change has been in expected expenditures on class sections to maintain our current student enrollment level. This year a large number of class sections (over 1000 FTE) were funded by legislative E-Board money (non-recurring) and other miscellaneous funds (also non-recurring), making it necessary to add these to the budget next year to maintain enrollment. Enrollment is important financially because of the tuition and state resources that student FTE brings to the college. Were we to not fund these class sections, we would have to make larger reductions to make up for lost state and tuition revenue. The Budget Leaders are meeting with managers and will be looking at the budget information submitted by divisions/departments as well as a lot of general college data in making recommendations to the Budget Committee about how to make up the projected deficit. General hearings for staff and students will be held after the Budget Leaders come up with some preliminary recommendations and before these recommendations go to the Budget Committee. If you have questions about the college budget process or any budget data, please contact College Operations (Ext. 2311) or your vice president's office.

## REMINDERS

### BUDGET UPDATE

This is the time of the budget development cycle when many adjustments are made to projected revenues and expenditures that can swing our "bottom line" up and down. Our projected deficit for maintaining the college's current service level in 2001-2002 currently is \$1,145,600. The largest single change has been in expected expenditures on class sections to maintain our current student enrollment

level. This year a large number of class sections (over 1000 FTE) were funded by legislative E-Board money (non-recurring) and other miscellaneous funds (also non-recurring), making it necessary to add these to the budget next year to maintain enrollment. Enrollment is important financially because of the tuition and state resources that student FTE brings to the college. Were we to not fund these class sections, we would have to make larger reductions to make up for lost state and tuition revenue. The Budget Leaders are meeting with managers and will be looking at the budget information submitted by divisions/departments as well as a lot of general college data in making recommendations to the Budget Committee about how to make up the projected deficit. General hearings for staff and students will be held after the Budget Leaders come up with some preliminary recommendations and before these recommendations go to the Budget Committee. If you have questions about the college budget process or any budget data, please contact College Operations (Ext. 2311) or your vice president's office.

## LANE AND UO FORGE DUAL ADMISSION AND ENROLLMENT PROGRAM

Students accepted into a new program will have full access to all the varied services and programs at both Lane Community College and the University of Oregon, thanks to an admission pact forged by the two institutions and announced on Thursday.

An initial group of up to 100 students will join the Dual Admission and Enrollment Program, scheduled to begin in fall of 2001. The program is expected to be popular with students who want to make sure that the courses taken at both schools work together toward a degree. In addition, the program will provide students with integrated advising and financial aid services at both institutions.

"For years, students have worn a path between Lane and the University of Oregon," said LCC President Jerry Moskus. "This agreement paves the way for students and straightens out the curves. Our students will be able to move much more quickly and smoothly toward fulfilling their educational goals," he explains.

The Dual Admission and Enrollment Program will enable students to move seamlessly between the two institutions and will simplify the administrative processes for them. The program breaks down administrative barriers and provides more comprehensive advising to smooth the transition processes for students.

"I am delighted that this agreement is now in place. With it, students will have access to a wider array of choices that will help students tailor their academic programs to fit their personal goals, preferences and needs," said UO President Dave Frohnmayer. "The end result will be higher retention and increased student satisfaction."

Students interested in becoming co-admitted to LCC and the UO will need to fill out a special joint application form that is available at both the UO Office of Admissions and LCC's Students First Center. Both new freshmen and transfer students are eligible to apply for the program. The application deadline for the program is May 15, 2001. For more information contact Students First! or Helen Garrett, Director of Enrollment Services, at Ext. 2686.

#### CAREER/JOB FAIR OFFERS STUDENTS OPPORTUNITIES TO MEET EMPLOYERS

The annual Lane County Career/Job Fair is open to all Lane students and will be held Wednesday, Feb. 21, from 10 a.m. to 3 p.m. at Valley River Inn. One workshop will feature an employer panel who will share employer expectations of job applicants and interviewing skills and demonstrate acceptable and unacceptable practices. Other workshops are Career Direction: How to Figure Out What You Want To Do When You Grown Up and Ethics In The Workplace: It's A Matter of Respect. Workshops are given from 10 a.m. to 3 p.m. Volunteer employers will also conduct mock interviews for students to practice their interview skills and receive professional feedback. It is recommended that students take a resume, cover letter and personal statement for the interviews or to hand to potential employers. Please inform your students of this excellent opportunity. Asthma can kill you. Sadly, each year 5,000 people in the U.S. die from asthma. The good news is it is highly treatable. Student Health Services is inviting you to attend our free asthma screening clinic on Wednesday, Feb. 21 from 12-4 p.m. The asthma clinic will have a limited number of 30-minute time slots available and ask that you call us to make an appointment. During your appointment time we will have you fill out a questionnaire, perform airway testing and consult with a local asthma specialist, Alice Chou, M.D. This clinic will be open to both students and staff. Please call SHS today at Ext. 2665 to make your half hour appointment.

#### DUAL ENROLLMENT APPLICATION PACKETS AVAILABLE NOW

The creation of a new partnership between Lane Community College and the University of Oregon was announced this week with the advent of the LCC/UO Dual Enrollment Program. Beginning fall 2001, 100 students will be accepted into the program, which allows students to be co-admitted and dually-enrolled at both institutions. The advantages for students in the program are expanded course offerings, access to a wider variety of academic programs, advising from both institutions and most importantly, if eligible, the ability to receive financial aid to attend either or both institutions. The deadline for students to apply is May 15 and applications may be obtained from Students First! or from the Office of Admissions at the University of Oregon. Students complete a Supplemental Dual Enrollment Application, along with a completed UO undergraduate application. There is a \$50 fee to apply. Questions on this new program should be directed to Lane's Dual Enrollment Coordinator, Helen Barker Garrett, Director of Enrollment services, Ext. 2686.

#### COLLEGE COUNCIL LOOKING FOR POSTERS

Are there framed "Unifying Principles" posters in your work area? "Unifying Principles" posters, produced in 1990, were framed and placed around the campus as a reminder to staff, students, and visitors about the goals of the college. A subcommittee of College Council is working to replace the 1990 poster with three up-to-date posters based on the Strategic Plan. Three new posters will highlight the vision and mission statements, strategic directions, and core values. Please check your work area, nearby classrooms, and meeting rooms to help the committee locate this poster. The poster committee will collect the old posters and frames and in a few months replace them with new posters, utilizing the existing frames. Please call and let us know of the locations of these posters. For locations on the main campus, contact Elizabeth Uhlig, Archives, Ext. 2466. For the Downtown Center, LCC Florence, LCC Cottage Grove, Flight Tech, and the Community Learning Centers, please contact Annick Todd, ELS, Ext. 2946. Thanks for your help.

## FUTURE TUTOR CENTER SEEKING INPUT

From Tutoring Services Coordinator Liz Coleman: Starting spring term 2002, we will be opening a 2000-square-foot grand central tutor center, providing free tutoring services to credit students across most academic disciplines. Currently, Tutoring Services provides free academic support for 8,500 hours to approximately 1,000 students per term. Tutoring always has taken place in hallways nestled within departments, and the cafeteria. Please help me create a center that will carry the ambiance and user-friendliness of a smaller department and the efficiency of a larger center. I have visited many campus tutor centers and spoken with a number of tutor coordinators around the nation to gather information on functional tutor centers. Now I want to share with you what I have gleaned and learn from your experience. I have created a survey to ask for specific information as well as broad based questions and hope to be meeting with you soon. Meanwhile if you have questions or comments, contact Liz Coleman at Ext. 2783.

## POETRY UNITES STUDENTS AND COMMUNITY

Writing instructor Jennifer von Ammon's students are leaving "the four walls of the classroom" to teach poetry writing workshops to young and old community members. Workshops are scheduled during March, National Poetry Month, on Wednesday, March 7, from 1-2:30 p.m. at Looking Glass New Roads School, and another on Friday, March 9, from 2:30-3:30 p.m. at Fox Hollow Residential Care. By spring term the workshops will be blended into Lane's first service-learning course, "Poet in the City."

Service-learning uses real-world experience to broaden student understanding of the subject matter, says instructor von Ammon. "When we engage with the community outside our classrooms, our civic awareness grows and our education diversifies."

For the past year, von Ammon and her students have conducted pilot workshops for at-risk youth and just recently for seniors. Both groups need to tell their stories, says von Ammon, and the students learn by doing. "There is a reciprocal relationship between teaching and learning," one student wrote after a pilot workshop. "One cannot happen without the other."

The workshops have been made possible by donations of funds or space from several organizations including Lane Arts Council, Selco Credit Union, Looking Glass Youth & Family Services, Fox Hollow Residential Care Community, and Out of the Fog Coffeehouse. Local musicians have participated, including Debbie Diedrich, David Helfhand, Peter Wilde, and Mare Wakefield. On the side, von Ammon is planning an anthology of workshop poems such as "Fear" by one 15-year-old participant named Marcella: "Fear is a final wave good-bye / If this fear had a taste, I imagine / it would taste as nothing / for saying good-bye to someone is / at least at first / a loss of everything / even the want to taste / Or be enriched."

This fall, Von Ammon received a Pat on the Back Award from the Eldon G. Schafer Endowment for workshops conducted last year for at-risk youth. Service learning is one of this year's Strategic Learning Initiative projects (see the web at <http://sliunix.lanecce.edu/~sli/>).

Von Ammon first taught poetry to at-risk youth while a graduate student in Florida. After joining Lane, she designed workshops for local teens and elders. "Poet in the City" begins April 3 and will meet Tuesdays and Thursdays from 10-11:30 a.m. on main campus in Center 449, plus community workshops beginning the fourth week of the term. Submitted by Joan Aschim.

## FACULTY CALL FOR SERVICE-LEARNING PROPOSALS

The service-learning team is now accepting requests for curriculum development funds to create service-learning activities in your classes. The models for service learning are varied and can be as simple as interviews with the elderly to full co-op internships. Service-learning blends community service with your course objectives to promote student learning and civic responsibility. Our goal is to support faculty efforts to enhance student learning, build a stronger community, and promote our college as a community leader and proponent for positive social change. If you already include service-learning activities in your courses, the SL team would like to know more about these assignments so that your success may be shared with others. For application materials or to learn more, visit <http://sliunix.lanecce.edu/~sli/servicelearn.htm>, or contact Service-Learning Coordinator, Jennifer von Ammon, Ext. 2140. Deadline for proposals is March 8. Sponsored by the Strategic Learning Initiative.

## BOND UPDATE

**RELOCATING? HERE'S SOME ADVICE.** Speaking from personal experience, moving is no fun. Going through closets, drawers, and boxes while trying to weed out those items that I haven't seen, let alone used in several years is hard; after all, I don't know when, but I might need that stuff! My worst moving case scenario is the junk drawer. Over the years, I have consistently moved one junk drawer from house to house. I simply dumped the drawer's contents into a box, moved the box to my new place, and then dumped the entire box into its new location. Presto-instant junk drawer! Susan Tatar, the Bond Moving Officer, stresses that I am the sort of mover she is trying to reeducate. In an ongoing attempt to instruct personnel about the need to trim down amounts of materials to be moved, the Bond Project Management Office has repeatedly communicated the need for departments to "reduce, recycle and archive". However, volumes of material and tight work schedules can lead to difficult decision making about what objects to keep or recycle. Here are some helpful tips to expedite the critical task of thinning out your materials.

First, consider if you have materials that can be archived. Without a doubt, the records retention schedule at the Archives web site will inform you if your materials have archival value. The web site is located at <http://www.lanec.edu/archive/rds.htm> and can also be accessed through Lane's home page under College Business, Archives. The records retention schedule provides a complete listing of differing types of media, the associated required periods of retention, as well as proper procedures for deposition of materials. If you need to send information to LCC's annals, contact Elizabeth Uhlig at Ext. 2466 in order to secure necessary archival containers. Elizabeth is also available to answer archival questions you might not be able to locate at the web site.

For those items not sent to Archives, be sure to consider recycling. Jennifer Hayward, LCC's Recycling Coordinator, indicates that just about every type of paper can be recycled: flip charts, old file folders, magazines, books, even paper ream wrappers. The center also takes used or working office supplies such as binders, file folders, and staples. If you have large amounts of confidential items to be shredded, Recycling can also save you valuable time. Confidential items can be picked up and immediately shredded, or, at the outside, stored in locked containers for a short time until destroyed. If you have questions about materials that can be recycled, or shredding of confidential items, contact Jennifer at Ext. 2594. If you need containers for recycling materials due to upcoming bond moves, please contact Susan Tatar at Ext. 2727 or the Recycling Center at 2714. Don't be like me and simply transfer unnecessary items into boxes at the last minute. Be an effective mover: investigate options, plan ahead, start early, and "reduce, recycle and archive." In so doing, your move will be able to unfold in a more efficient, timely, and beneficial manner."

**BUILDING PERMITS FOR WORKFORCE TRAINING CENTER EXPECTED THIS WEEK.** Heavy workloads in the Lane County Building Department have delayed issuance of a building permit for the Workforce Training Center until this week; fortunately, codes have allowed foundational work at the site to proceed prior to acquisition of permits. Consequently, excavation activities are underway at the west-end of the Apprenticeship Building where the future conference center will be located. A foundational gravel pad for the facility is now established and workers are excavating different areas of the gravel in order to establish footings for the conference center. Footings are reinforced, concrete load-bearing pads that support the structural frame of a building. During the latter part of February, and in anticipation of remodeling activities on the first floor of the Apprenticeship Building, Ed Hume's Welding II students dismantled and moved welding booths out of the department's former location.

**GENERATOR HOLDS UP TEMPORARY OCCUPANCY PERMITS FOR STUDENT SERVICES.** The generator that will provide emergency electrical power for the Student Services Building and Workforce Training Center was not delivered from the east coast as expeditiously as expected. As a result, with delivery sometime the first part of March, and completion of connections taking up to three weeks, the generator will be operational the latter part of the March. It is anticipated that once the generator is working, final tests to the fire system will yield a temporary occupancy permit. A delay with the generator does not translate into an impediment for various departments moving to the building since necessary change order work will continue unaffected.

**FINAL INSPECTION OF HEALTH TECH THIS WEEK.** Final inspection of the first floor Health Tech Remodel will take place this week by gLAs architects, Essex Construction, KPFF Engineers, and the Bond Health Tech Project Manager. In so doing, all areas will be viewed and systems engaged to determine what generally amounts to minor deficiencies in the project. Those items that must be attended to

are put on a punchlist. Typical examples of punchlist items include rubber floor molding pulling away from the wall, a cover plate on the light switch that does not conceal the entire opening in the drywall, or even a dirty wall that needs cleaning. Once the punch list is issued, Essex Construction will have 30 days to make the corrections. In the Health Tech Remodel, final fire alarm testing will take place during work on punchlist items. Once fire alarm testing and punchlist items are accomplished, substantial completion will be achieved, the project closed out, and temporary occupancy permits issued. Throughout the month of March, personnel from Dental Hygiene and Dental Assisting will move into their new quarters. Classes are scheduled in the newly remodeled area the beginning of spring term.

**BOARD MEMBERS TOUR BOND CONSTRUCTION.** Two weeks ago, LCC Board of Education members George Alvergue and Ralph Wheeler toured the four bond projects nearing completion: the first floor Health Tech Remodel, the LTD/LCC Bus Station, the Student Services Building, and the Math/Science Addition. The last time board members viewed bond construction was approximately 18 months ago. At that time, the Math/Science Addition was at a fairly bare bones stage, and construction on the bus station, the Health Tech remodel, and the Student Services Building had not yet begun. Not surprisingly, Alvergue and Wheeler were generally impressed with the quality, spaciousness, and architectural designs reflected in future areas of the college. As to the Student Services Building, members commented on the multiple possibilities the lobby could accommodate and the detail of the Students First! stations. The roominess of the operatory area on the first floor of Health Tech, and the design elements of the main corridor between the Science Building and Addition both drew positive reactions.

#### GROUPWISE WEB ACCESS HAS MULTIPLE MESSAGE DELETION FEATURE

A new feature many of you have asked for is the ability to delete multiple messages in GroupWise Web Access. Each message that appears in your mailbox now has an empty square to the left of it. When you click on the square, a check appears. Look up to the right-hand side of the mailbox window. Above the message column headers of "Subject," "Date," "From," etc, you will see five small boxes labeled "Delete, Move, Accept, Decline and Complete." Clicking on "Delete" will delete the message that you have checked. If you wish to delete multiple messages, you may check the boxes next to all the messages you want to delete and then press the delete box up at the top. Submitted by Patricia Seagrove.
