## THANK YOU FOR SAVING AND CHANGING LIVES THROUGH UNITED WAY!

Lane's employee campaign is nearing completion and if you have not yet returned your pledge to either your department representative or the President's Office, please do so by Friday, November 2. Here are some examples of the positive difference Lane Community College employees made to our community through last years contributions: 903 meals for homebound senior citizens; 241 hours of group counseling for teenage substance abusers; 150 books on parenting and child development for teen parents; five months of food and shelter for a homeless family; four months of 24-hour crisis line services for sexual assault victims; 165 dental exams and cleaning for low-income children; 150 social support activities for chronically mentally ill individuals; 782 rides for low-income seniors, or people with disability, to and from doctor appointments and the grocery store; four months of support group activities for at-risk youth; five months of safe shelter for a mother and her child fleeing domestic violence; and, 101 pairs of shoes, socks, and underwear for low-income elementary school children. At times like this, our every day challenges can seem a bit meaningless. The one thing that continues to matter is the way we reach out to, and take care of, one another. Many thanks for our contributions. - Linda Simmons, President's Office

## SPECIAL EDITION ON WEATHER CLOSURE QUESTIONS AND ANSWERS

When bad weather strikes, tune in radio or television news to find out if there are any college closures. Frequently asked questions and their answers are listed below. The Q&A also is on the web at <http://www.lanecc.edu/instadv/weather.htm> . For additional information, see the college emergency plan at <http://www.lanecc.edu/cops/eplan.htm> and go to the severe weather heading. Contact: Joan Aschim, Ext. 2591.

Q. HOW DO WE KNOW FOR SURE THAT THE COLLEGE IS CLOSED?

A. When the decision is made to close the college, the college immediately notifies KLCC 89.7 FM and other news media. Stations make announcements as soon as they receive information. Please do not call the media. This interferes with their ability to bring you the most current information. Closures are reported to:

### RADIO

KLCC 89.7 FM (and FM 88.1, 88.5, 88.9, 89.1, 90.3, 90.5, 91.5)  
KUGN 590 AM (and FM 97.9)  
KPNW 1120 AM (and KODZ 99.1 FM, KDUK 104.7 FM)  
KMGE 94.5 FM (and KKNU 93.1 FM, KKXO 1450 AM)  
KZEL 96.1 FM  
KNND 1499 AM Cottage Grove (and KCGR 100.5 FM)  
KCST 1250 AM Florence

### TELEVISION

KEZI-TV Channel 9, Cable 10, ABC  
KVAL-TV Channel 13, Cable 8, CBS  
KMTR-TV Channel 16, Cable 6, NBC

Q. WHAT IF I'M HEARING IMPAIRED?

A. The hearing impaired can call 747-4501 Ext. 7730 to print notices of closures on TTY machines.

Q. WHAT ABOUT COLLEGE LEARNING CENTERS AT HIGH SCHOOLS?

A. Lane Community College learning centers at high schools follow the host high school's closure schedule.

Q. WHEN WILL WE KNOW THAT THE COLLEGE IS CLOSED?

A. Weather closures or delays can be announced at any time as conditions worsen; however, every effort is made to report early morning closure/delay information by 6 a.m., and evening closure information by 3 p.m. Evening classes are those that begin at or after 5 p.m. Because conditions can improve during the day, sometimes the college will close during the day but will open for evening classes, so it is important to stay tuned to the media.

Q. WHAT DO DELAYS MEAN?

A. If the opening of classes is delayed, students and faculty should report to the class or lab they would normally have been attending at the new starting time, if at least 50 minutes of class/lab time remains. For example, if opening is delayed to 10 a.m., classes and labs that normally begin at 10 a.m. or are already in session at 10 a.m. would meet, but only if the normal ending time for that class or lab is 10:50 a.m. or later. The remainder of the day would continue on the regular schedule.

Q. IF THE COLLEGE IS CLOSED, SHOULD STAFF REPORT FOR WORK?

A. When the college or a college center is closed, classes and activities at the facility are canceled and staff who work there should not report for work or come to the work site, unless they receive specific instructions otherwise from their supervisor or hear such instructions in the news announcements. If one or more facilities are closed and others are open, staff who work at the open facilities should report to work as usual.

Q. ARE THERE TRANSPORTATION ALTERNATIVES?

A. When 30th Avenue is icy, some people drive in from the east via Franklin, or ride the bus. In general, LTD operates buses to Lane when the college is open; however, drivers may choose alternate routes. An LTD route change does not necessarily indicate a college closure.

Q. WILL STAFF GET PAID?

A. The College Online Policy and Procedure System (COPPS) states under Pay: School Closure, General Guidelines For Compensation: "All bargaining unit members, part-time credit instructors and management employees scheduled to work on the school closure day should be paid as if they worked their regular schedule. Employees required to work when the school is closed on a regularly scheduled work day should be provided time off with pay on a straight-time basis." See <http://www.lanecc.edu/cops/closure.htm> .

Q. WHAT IF I HAVE OTHER QUESTIONS?

A. See the college emergency plan on COPPS at <http://www.lanecc.edu/cops/eplan.htm> .

## BOND UPDATE

**INTERIOR AND EXTERIOR WORK CONTINUES AT WFTC.** Despite the onset of inclement weather, progress on all areas of both the interior and exterior of the Workforce Training Center continue. In the most western portion of the facility, which will house Business and Industry Services, Hospitality Services, Culinary Arts, and the conference center, various areas have sheetrock up. It is expected that second floor framing will reach the 50 percent mark by the middle of the month. The roof is complete. On the first floor of the remodeled facility, classrooms and offices are already defined as sheetrock is up and taping is underway for the future home of CIT. Telecommunications are being run on the first floor as well. The second floor of the remodel has a substantial portion of the framing up and approximately 50 percent of the seismic work completed for areas that will house Cooperative Education, College Now, Distance Learning, the ITC, and multiple classes. At the future home of T&D, located in the southern addition, the roof is approaching 50 percent completion. Brick masons are focusing their efforts on this portion of the facility. The anticipated completion date for the entire WFTC complex is May 2002.

**DPR MOVES AHEAD ON PERFORMING ARTS.** Despite a significant amount of rain during later parts of October, the roof of the Performing Arts addition has now reached completion. The exterior of the building should be finished by the end of the month except for the painting of the concrete block siding, which will be undertaken by LCC's painters as soon as weather permits. The exterior window frames will be installed in the next several weeks. Inside the addition, masonry work is complete and framing is underway. Rough mechanical, electrical, and plumbing work continues. DPR projects completion of the Performing Arts addition toward the end of January 2002.

**CENTER SECOND FLOOR AWAITS PERMIT.** Demolition is all but complete in northern areas of the Center second floor that are being remodeled for Academic Learning Skills; however, approved construction plans have yet to be released by the county planning office. Although the planning office is dealing with a tremendous workload at this time, the bond office expects that the permit and approved plans will arrive sometime in the next several weeks. Once the permit is secured, LCC's carpenters will begin framing the newly designed areas. Construction will reach completion in time for a summer 2002 move-in.

**HEATING SYSTEM WORK AHEAD OF SCHEDULE.** The second phase of the Central Plant Upgrade, which focuses on the main campus heating system, is approximately one month ahead of schedule and could reach substantial completion by the end of November. The new boiler and fuel oil tank are installed and piping work nears completion. Once the second phase upgrade is finished the more efficient system will have an increased capacity to heat the vastly expanded main campus.

**FREESTANDING ELEVATOR PROGRESS SLOWS.** As reported earlier this year, the freestanding elevator on the northeast corner of Building 1 (student services) was awarded with the Workforce Training Center contract. In so doing, Chambers Construction assumed responsibility for building the structure as well as constructing the WFTC. While the schedule has always listed the

completion date for the elevator during February 2002, the bond office strongly encouraged Chambers to finish the elevator as quickly as possible. As a result, a tremendous amount of work on the structure occurred during the summer months; however, Chambers is now focusing the work effort at the WFTC site in order that the project adheres to the complex schedule, thereby avoiding excessive additional costs. Although the elevator will not be operational until sometime in February 2002, the bond office hopes to open the elevated walkways by the first of the year in order to provide pedestrians connections between Buildings 1 (student services), 2 (business), and 3 (administration).

FOR MORE INFORMATION about bond projects, contact Nancy Nichols at Ext. 2027 or e-mail [bond@lanecc.edu](mailto:bond@lanecc.edu) .

## LCC FORENSIC TEAM CONTINUES WINNING WAYS

The Lane Community College forensic team continued its winning ways at the recent University of Oregon invitational forensic tournament. Individual wins swept the team into the second place overall position of the Division III sweepstakes. Parliamentary debaters made a strong showing with Marshal Kirkpatrick, Miriah Killam and Jessica Carlson placing as octa-finalists. Chace Barber and Travis Miller placed in the quarterfinals while Samantha Cowan and Eli Trompeter placed third overall. Chace Barber took home second place as individual speaker in parliamentary debate. This is the second time this season Barber has been singled out for his verbal finesse. Speakers Miriah Killam and Samantha Cowan made a strong showing in the forensics criticism event that is unique to the UO tournament. Cowan made a showing as a finalist, while Killam brought home first place overall. Speaker Katie Newell was also successful with a third place overall finish in impromptu speaking as well.

Buoyed by their success, LCC forensic team members look forward to the tournament at Linfield College this weekend. Expectations are high as team members move on to the next tournament of what promises to be an exciting season. For more information, contact Karen Krumrey-Fulks in English, Foreign Language and Speech at Ext. 2117.

## IN MEMORY

Tricia Hahn, cooperative education coordinator at Lane, died Sunday, November 4, of complications from cancer. Tricia had been on medical leave since June 2000. For nearly 20 years at Lane, she instructed thousands of co-op students in a variety of programs, most recently in the social sciences. She also worked as a counselor and career exploration instructor. Tricia loved the outdoors and was an accomplished rafter, kayaker, hiker, runner, skier, etc. As recently as this September she led a group of coordinators on a four-mile hike to Lake Takenitch and also participated in the co-op in-service. We will miss her enthusiasm, creativity and sense of humor. A service will be held on Saturday, November 10, at 3 p.m. at Unity of the Valley Church, 39th and Hilyard. People are asked to bring a single flower that will be placed in a bouquet. A potluck will follow the service. (Family and friends ask that we do not call the house). – Andrea Newton

#### HOW TO USE LANE'S LOGO

Questions often arise regarding how to use the Lane logo in college publications and advertising. The following information briefly summarizes college policy on logo use and should answer most logo questions.

The college logo is the official mark of the college. As the college's official symbol, the logo needs to be used in a consistent manner and should not be altered. The logo should be printed in one color (the only exception is the two-color version approved for television and the college web site), and no item should be closer to the logo than a distance equal to the height of the letter "C" in the logo. The college logo is the only logo that can be used to represent college departments and programs.

The logo can be used in a broad range of applications, and it is required on most printed communication intended to go off campus. To obtain a high resolution logo in digital form, contact Institutional Advancement or Printing/Graphics. For more information on using the Lane logo, contact Daniel Moret in Institutional Advancement at ext. 2268.

#### SUSPICIOUS E-MAIL REPORTED, DAMAGE AVOIDED

During fall term, several people who correctly identified suspicious e-mail in their GroupWise called the helpdesk. They deserve a "thank you" from all of us because their alertness prevented damage to college equipment. Some e-mail viruses move through an e-mail system as an attachment to a message. The virus is activated when the attachment is clicked on after the message is opened. The characteristics of a suspicious (and possibly virus-laden) e-mail are these:

1. The subject line has nothing in it or makes no sense.
2. There is an attachment.
3. The name of the person is unfamiliar or there is no name at all.
4. If the name is familiar, you were not expecting e-mail from them.

To protect yourself and members of the LCC network community, look for the above characteristics in your e-mail messages. If you see a message with some or all of the above characteristics, delete the message and empty your GroupWise trash. Arm yourself with knowledge. Go to , make a bookmark, and use it to learn about viruses that may be coming to an e-mail system near you. Make sure your anti-virus software is kept up to date. Finally, please keep the helpdesk (ext. 4155, ) informed when you find a suspicious e-mail. - Pat Seagrove

#### COPIA LECTUE SERIES CONTINUES

This month's Copia Lecture is on Saturday, November 17. at St. Mary's Episcopal Church, 13th and Pearl, Eugene. The presentation features Lane Community College dance instructors Mary Seereiter and Bonnie Simoa who will give a lecture titled, "Our Body's Wisdom." Bonnie and Mary will explore a journey into the body through story and hands-on experience. Through years of teaching dance, both Seereiter and Simoa have individually practiced body-mind disciplines to awaken consciousness and inform their lives as dancers, performers, choreographers, women, and human beings. In describing their Copia presentation, Mary and Bonnie write, "In this evening of movement and story, we will explore ways of focusing inward into the body. We will take a deeper look at the relationship of our physical self and our connection to the mind. We will take the incredible journey through skin, fascia, fluid, muscle and bone down to the level of cellular breathing. It is here where we will remember the mind of the body."

The Copia Lecture Series, a once a month series, is a partnership between Lane Community College and St. Mary's Episcopal Church. The series' purpose is to nourish the mind and spirit of our local community with lectures and presentations covering a generous range of topics of interest to the general public. All Copia Lectures are free of charge. - Bill Woolum

#### AAWCC PRESENTATION INITIATED SPIRITED DISCUSSION

On October 25, the Lane chapter of AAWCC hosted a "Panel Discussion on Recent U.S. Events" as a result of the September 11 attacks. Over 30 people came to discuss thoughts and viewpoints covering different aspects of the world events related to the attacks. Panelists included Stan Taylor, political science; Patsy Raney, women's studies; Mason Davis, international students; Judith "Sparky" Roberts, theatre arts; John del Nero, criminal justice; and Therese Picado, Institutional Advancement. The event was informative and it was enlightening to consider the different perspectives, as seen by our colleagues and students, on the attacks. Please contact Donna Zmolek at ext. 2428 for more information or to receive handouts from the presentation.

#### SUPPLEMENTAL LIFE INSURANCE FOR CLASSIFIED AND MANAGEMENT

Supplemental life insurance with Standard Insurance Company is available to classified and management employees, spouses, and same-sex domestic partners. Coverage amounts are from \$30,000 to \$300,000 in increments of \$10,000. Premium rates for each \$10,000 are based upon the applicant's age and are paid through payroll deduction. For details of enrollment, contact Personnel Services, ext. 2211, press 0.

#### CHANGE OF MARITAL STATUS ON INSURANCE

If your spouse or same-sex domestic partner is covered on your insurance plan, please remember to notify Personnel Services if your relationship with that spouse/partner ends due to divorce, legal separation or the dissolution of a domestic partnership. When a spouse or same sex domestic partner loses dependent status due to one of these events, the College is required by law to contact the spouse/partner with information about continuing insurance coverage under our group plan. The spouse/partner has only 60 days following the divorce or separation to make the choice to self-pay premiums and extend coverage, so your timely notification to us is important. If you have any questions, contact Personnel Services, ext. 2211, press 0.

#### REMINDER: HOW TO HANDLE SUSPICIOUS E-MAIL

During fall term, several people who correctly identified suspicious e-mail in their GroupWise called the helpdesk. They deserve a "thank you" from all of us because their alertness prevented damage to college equipment. Some e-mail viruses move through an email system as an attachment to a message. The

virus is activated when the attachment is clicked on after the message is opened. The characteristics of a suspicious (and possibly virus-laden) e-mail are these:

1. The subject line has nothing in it or makes no sense.
2. There is an attachment.
3. The name of the person is unfamiliar or there is no name at all.
4. If the name is familiar, you were not expecting email from them.

To protect yourself and members of the LCC network community, look for the above characteristics in your e-mail messages. If you see a message with some or all of the above characteristics, delete the message and empty your GroupWise trash. Arm yourself with knowledge. Go to <http://securityresponse.symantec.com>, make a bookmark, and use it to learn about viruses that may be coming to an email system near you. Make sure your anti-virus software is kept up to date. Finally, please keep the helpdesk (ext. 4155) informed when you find a suspicious e-mail. - Pat Seagrove

## BOARD REPORT

An hour-and-a-half discussion on diversity at Lane left the Board of Education and guests at the November 14 meeting agreeing on the need for continued discussion and more action. Guests representing local communities of color acknowledged progress such as establishing an ethnic studies program and they praised the 2001 draft diversity plan and its primary author, Jim Garcia, but they also cited ongoing problems such as insufficient recruitment and retention of staff and students of color. Suggestions included linking salaries to diversity performance, board members as role models, a grievance process for members of the public, more willingness to respond when problems occur, direct recruitment of minority high school youth, broader employee/board participation in diversity trainings, and establishing a monitoring system to assure the plan is being carried out.

Approved by unanimous vote later in the evening were: a resolution opposing congressional bills introduced since September 11 to limit international student enrollment; the 2002-03 academic calendar; purchase of microscopes for science instruction; acceptance of the annual audit; approval of an employment skills training program for state approval; and appointment of Dennis Shine to the Association of Community College Trustees diversity committee.

Personnel appointments approved were Charles Appleby, interim division chair, Computer Information Technology; Barbara Bailey, office support specialist, Advanced Technology Division; Scott Bell, administrative coordinator, Adult Basic and Secondary Education; Cynthia Chabre, assistant, Library; Roger Hartgrave, temporary faculty, Advanced Technology Division; Greg Miles, temporary faculty, Science; Carrie Munger, administrative assistant, LCC at Florence; Albert Pooth, temporary faculty, Science; Ron Rourke, administrative web application programmer, Computer Services; Toby Runion, custodian, Facilities; Chantal Thomas, public safety officer; Dwight Williams, custodian, Facilities; and William (Mike) Woods, mechanical maintenance worker, Facilities. The board also accepted the retirements of Flight Tech instructor and chair Bob Farrand; and Financial Aid associate director Frank Marshall.

The review of monthly benchmarks and a discussion of Foundation fundraising were postponed. A brief work session was held earlier in the evening on 2002-03 budget projections.

The board meets again this month on Tuesday, November 27, from 3-6 p.m. to discuss budget assumptions criteria. Board minutes are posted on the web after approval at

## TODAY

\* HANUKKAH OBSERVANCE: Monday, November 26, 11 a.m.-1 p.m., cafeteria. The Klezmonauts band will play traditional music, and there will be a table with information. Hanukkah is a Jewish holy day observed on December 9, and celebrates the liberation of the temple in Jerusalem from King Antiochus who conquered Jerusalem and denied the Jewish people the right to follow their religious beliefs. The lamp in the Temple should be alight all the time, but they only had enough oil for one day. They lit the lamp anyway and magically, the lamp stayed alight for eight days, enough time to get more oil. That is why Hanukkah is celebrated for eight days and a candle is lit every day. Contact: Susan Mathews.

\* BUDGET FORUM: The Budget Advisory Group (BAG) has posted budget handouts from the November 14 forum on budget assumptions and FY03 budget projections on the budget development web site at <http://www.lanecc.edu/budget/budget0203.htm>. Please plan to attend the next Budget Forum on Monday, November 26, at 4 p.m. in FOR 308. Contact: Terry Caron.

\* POW-WOW TRAINING, Monday, November 26, 6-9 p.m., northeast corner of the cafeteria. Learn about pow-wow, including the dances, songs and food. Cosponsored by the Diversity Team and Native American Program. Open to all Lane employees and students. Contact: Frank Merrill.

\* EVENING SUPERVISOR: Stan Barker, ext. 2608; pager 349-6806.

The panel will consist of several local women activists who are involved in a wide variety of social change efforts, ranging from local to global in scope. They will show slides, discuss their activities, and address how they see feminism as central to transformative social change. All are welcome to attend. ## THURSDAY: FACILITIES MANAGEMENT TEAM MEETING

A special Facilities Management Team meeting will be held Thursday, November 29, from 3-5 p.m. in the Boardroom, Building 3. Agenda: Center fourth floor bond remodel. Facilitator: Linda Simmons. Contact: Susan Tatar, ext. 2727.

## LANE'S ARCHIVES WEBSITE JOINS GLOBAL NETWORK

Lane's Archives website at <http://www.lanecc.edu/archive/home.htm>, along with a number of other archives in Oregon, has been recently placed on the UNESCO Archives Portal at [http://www.unesco.org/webworld/portal\\_archives](http://www.unesco.org/webworld/portal_archives). The UNESCO Archives Portal gives access to websites of archival institutions around the world and is a gateway to resources related to archives and records management and to international cooperation in this area. The site provides links to national, regional, state, and local archives, academic archives, as well as resources on education and training, preservation and conservation, cooperative organizations and programs, and much more. Related sites are the UNESCO Libraries Portal, Memory of the World Programme, Directory of Digitized Collections, and an initiative to safeguard the world's digital heritage. I realize that our college archives is just one small link, but I am happy to be included in this international resource to promote preservation of our cultural heritage. Contact: Elizabeth Uhlig, ext: 2466, [uhlige@lanecc.edu](mailto:uhlige@lanecc.edu).

#### ATTENTION P-CARDS HOLDERS

When using the college's purchasing card, and you are asked for a CODE, or CV CODE -- turn your card over and give the last three digits after the card number in the signature box. This is a new layer of security that merchants are starting to ask for. Questions? Call Julie Copley at ext. 2600, or Sue McDonald at ext. 2613.

#### LASR UPDATE

Mark your calendars for the December LASR Update session, which is scheduled for 3-5 p.m. on Friday, December 7. The college is considering purchasing CAMPUS PIPELINE, and representatives from the company will be on campus and will demonstrate their product in two one-hour presentations beginning at 3 p.m. and 4 p.m. during the LASR Update time. CAMPUS PIPELINE is a web portal product that integrates directly with the SCT Banner data, and with WebCT, a web-based course management tool used by many Lane instructors. These demonstrations will be of particular interest to Lane's faculty; the product supports e-mail communication with students, message boards, chat rooms, course calendars, automated creation of course home pages and more, and provides one point of entry for students and staff to access both course information and information stored in the Banner system.

In other project activity, The Finance Team made great progress on the chart of accounts during the most recent SCT configuration and consulting visit on November 13, 14 and 15. The Finance Team is consulting with staff who have budget responsibilities as well as with the Executive Team, outreach campuses and staff in areas of the college that provide non-traditional instruction and services to further define and check their work, and will continue to involve staff outside of the core team as work progresses. The Finance system is scheduled to "go live" on July 1, 2002. For more information about the Finance implementation, or to share ideas or concerns, please contact Stan Barker, ext. 2608.

SCT provided on-site training for Lane's programming staff on November 6, 7 and 8. Training was in using Oracle database tools. Another technical training visit is scheduled for programmers in early December.

The implementation of the Human Resources system was launched in late October, and the HR team will have a second configuration and training visit November 27, 28 and 29. The Human Resources system will "go live" in January, 2003. This team will also work with staff across the college in planning, configuring, and testing Lane's implementation of the Banner software. Linda Simmons and Mary Glenn have joined the LASR Implementation Management Team (LIMT) to represent Personnel Services.

Other project staffing changes include Bob Barber on the LASR Steering Committee representing faculty, and Bret Force representing students. Remember that the project provides an update each month on the first Friday from 3-5 p.m. in the Boardroom. All staff and students are welcome and encouraged to attend. Regular updates are also scheduled for Managers' Forum, the ISSM meetings, COLT, TACT, the Board of Education and the Executive Team. If you are part of a Lane task force or committee and would like to schedule time with the project team, contact Linda DeWitt, LASR Project Director, at ext. 3006 or Georgia Nissen, ext. 3261. For more information about the project, visit the LASR website at <http://lanecc.edu/lasr/>.

Application deadline is December 10.

TUTORING SERVICES AVAILABLE CAMPUSWIDE

Blue and white T-shirts dot the campus on Tuesdays as tutors from various centers circulate through their schedules of classes and work. Liz Coleman, tutoring services supervisor, imported the

practice from Chemeketa where she saw the massed colors on a visit to their tutoring center. She thought the practice of tutors wearing T-shirts on Tuesdays was a good way to raise awareness of tutoring services at Lane.

Coleman lists three purposes for wearing the shirts. Students will see other students in the shirts and learn about tutoring services from them. "The students will feel more free to use tutors and see that there's not a stigma attached to seeking help," she says.

The tutors also can identify other tutors around campus increasing the ability to network and support each other. Math tutors may not necessarily know the writing tutors, or science tutors, etc. This also helps college employees become more unaware of the tutoring centers to learn about services.

Tutorial services are free to all Lane students. Here's where help can be found: business accounting skills, northeast cafeteria; computer skills, labs in Building 5, Room 126, and Building 4, Room 201; academic learning skills, Center Building, Room 483; math skills, Building 16, Room 169; music skills, Building 4, Room 276; science skills, Building 16, Room 111; social science, Center Building, Room 481 lobby; writing, Writing Center, Center Building, Room 451 lobby; international students writing, Center 483.

For more information, contact Liz Coleman at Ext. 2783.

The day is spent with friends and family, feasting and giving presents. The presents are to remember the gifts brought by three kings who came to pay tribute to the child. It was created in 1966 by an African American named Maulana Karenga who designated these seven holy days as a way to restore African cultural traditions to the African American people. Karenga felt that family and community values that existed throughout history in Africa could be brought to the United States to enrich black culture. He created the Nguzo Saba, the list of seven Kwanzaa principles, to teach these values to other African Americans. Each of the seven evenings is celebrated with family and community, lighting a candle and doing activities representing a different Kwanzaa principle. The last evening is a feast. **BOARD REPORT**

Net working capital snagged the Board of Education in its review of budget assumptions for 2002-03 at the November 27 meeting. Examining one assumption at a time, the board questioned NWC policies and practice, including the assumption that NWC restricted funds are entirely expended during the year. The board directed President Mary Spilde to provide more information at the next meeting and recommend how much NWC could be used to balance the budget.

Other revenue assumptions deferred were fees as restricted revenues and sale of goods and services. Approved were state revenue sources, local property tax revenues, tuition, fee collection at 100 percent, and interest on investments.

Expenditure assumptions on materials and services also were deferred. Approved with minor language changes were expenditure assumptions on personal services and contingency. Approved without change were capital outlay and unappropriated ending fund balance expenditure assumptions.

The board briefly reviewed budget principles and criteria as amended following staff input at open forums. President Spilde urged the board to raise specific concerns now, before decisionmaking begins. However, the board said to distribute the document to departments for the purposes of identifying cuts, with the caveat that board members who voted in support of the document could suggest changes at the next meeting.

Roger Hall was absent; Lucille Salmony left prior to the principles and criteria vote.

Vice President Marie Matsen was commended for long hours preparing information and answering questions. President Spilde thanked the board for its detailed attention early in the budget process. Chair Robert Ackerman noted that while the process was involved, a better product would result.

The assumptions document is posted on the budget development web page at <http://www.lanecc.edu/budget/budget0203.htm> (from Lane's home page, choose college business, then budget development). Amended principles and criteria also will be posted on the web. Submitted by Joan Aschim.

#### WANTED: OUTSTANDING CLASSIFIED EMPLOYEES

The Classified Professional Development Team seeks nominations for Classified Employee of the Month for January. Nomination applications may be obtained at the Personnel Services office or from Susan Tatar at ext. 2727.

#### WRITING CENTER SERVES STUDENTS

Up four flights of steps and tucked away in a warren of halls and offices in the Center Building, the Writing Center nevertheless is a center of activity this fall. Fourteen tutors, supervised by Kathleen Shull, have served over 300 students this term, most of them for multiple visits.

Students come from classes all over campus, bringing papers from biology, to business, to literature. Tutors help students at all levels of ability and all stages of the writing process. Typical sessions consist of brainstorming topics or ideas to develop a thesis, teaching rules of grammar, or helping a student learn to cite sources.

Tutors say they learn by tutoring. They consider the most important service they perform to be encouraging students to believe in their own abilities. The personal benefit for writing tutors is in sharing people's stories and getting to know interesting people from all over the world and here at home. For more information contact Kathleen Shull.

#### TRAINING SCOUTS NEEDED

Three times a year, the Classified Professional Development Team sponsors half-day trainings for classified employees and open to all employees. In keeping with a policy of high quality training of interest to classified staff, the CPDT seeks classified "trainer scouts."
