## NEWS

### LANE STAFF IS INVITED TO WELCOME VISITING STUDENTS TO CAMPUS

The Lane to Your Future is a visitation program for high school students from diverse communities to visit Lane Community College. The program provides small groups with an in-depth look into Lane and motivates students to pursue higher education. Students sit in on a class in an area of interest, tour campus, talk to current students, and learn about educational options and student services at Lane.

On Friday, April 15, there will be students from Churchill High School visiting Lane. There will be an opportunity during the lunch hour, 12:15-1 p.m., in the Student Life and Leadership Development office (Building 1, Room 206) for Lane staff to interact with students. Your role will be to inspire and motivate students about the opportunities available at Lane. Please bring your own lunch. For more information about Lane to Your Future, contact Karen Edmonds, High School/Community Relations Coordinator at ext., 5688. Submitted by Jim Garcia, Diversity Coordinator.

### CHANGES IN INTERNET CONNECTION

On March 13, the college upgraded our Internet connection. The upgrade included the main campus and our Community Learning Centers. The upgrade gave us

a 50% increase in capacity and the ability to expand capacity as needed. It also gave us a robust infrastructure that will serve us for many years.

What does this mean to our users? Changes noticed should be faster access from off campus to our services (for example ExpressLane, GroupWise, and Lane's homepage), faster access to the Internet from on campus during off-peak times, and faster access from our CLCs to main campus and the Internet.

A change that would not be noticed is faster access to our services from on campus. The final result is that Lane now has a network infrastructure that will be able to grow to meet the demands of our students and employees. Submitted by Carolyn Cruz.

**A SAGA WITH A HAPPY ENDING: STUDENT SUCCESS AND GOAL ATTAINMENT**

We know you are interested in seeing students succeed at Lane. So is SAGA, the Success and Goal Attainment committee, composed of members from a variety of departments and programs who are focused on improving the retention and success of Lane students. Some of the strategies in which SAGA is actively engaged include: developing and promoting strategies for student retention and success; identifying literature and research-based strategies to use in improving retention; analyzing and collecting retention data for assessment purposes; providing models to guide campus-wide retention strategies; and participating in the evaluation of retention strategies, activities, and processes.

In 2003-04, after completing a thorough literature review, SAGA identified six best practices that have been shown to increase the persistence and success of students: 1) first year experiences; 2) academic advising; 3) learning communities; 4) supplemental instruction; 5) early warning and intervention systems; and 6) campus climate / supportive learner environment.

Watch The Daily spring term to learn more about each of these best practices and how they are being successfully implemented at Lane and at other campuses. To

review the full 2003-04 SAGA report visit the SAGA website, currently under construction, but due to be live very soon. Watch The Daily for that web address. Submitted by Mary Parthemer.

#### **2004 PERS MEMBER ANNUAL STATEMENTS UPDATE**

From the PERS website April 4, 2005:

Tier One/Tier Two 2004 Member Annual Statements will be delayed due to the recent Strunk decision and the forthcoming Lipscomb (City of Eugene) decision. PERS will send annual statements when we can provide accurate account information. We will provide more information as it becomes available.

Although Tier Two annual statements are not affected by Strunk or Lipscomb, final 2004 earnings crediting has not been completed (for both Tiers). At its March 29, 2005 meeting, the PERS Board placed all available 2004 earnings into a Pending Reserve until legal challenges that affect earnings crediting are resolved.

Oregon Public Service Retirement Plan (OPSRP) Pension Program 2004 Annual Statements are scheduled to be mailed to members mailing addresses on file with PERS the week of May 2-6, 2005. This is the first year for OPSRP Pension Program Annual Statements. OPSRP was effective August 29, 2003 and qualifying members are eligible for the plan following a six-month waiting period. Information shown on the Pension Program 2004 Annual Statement is supplied by your employer(s).

The Individual Account Program (IAP) 2004 Annual Statements will be mailed to members mailing addresses on file with PERS. CitiStreet, our third-party administrator for IAP record keeping, will handle these statements. IAP 2004 Annual Statements are slated to be mailed the week of May 9-13, 2005. All PERS and OPSRP members have an IAP account. The IAP was effective January 1, 2004. Submitted by Vicki Ellison.

A CAT HAS BEEN ABANDONED in her trailer court (in Dexter) because someone was evicted. The cat is a beautiful longish-haired bluepoint Siamese with blue eyes. She is estimated to be about four-years-old. Deb says she's likely been spayed since she's never had kittens. She lived with one person/family in the trailer for several years. When they left, the new owner of the trailer took her in, but was just evicted and left the cat behind. Debbie and another gal are feeding her, and making a temporary shelter for her. But she's very unhappy and confused because she can't go inside the trailer any more.

Deb says she is very sweet and loving. Please help find this lovely girl a forever home-- someone who won't ever leave her behind again. Contact Debbie at 937-3292.

"We will put the project to the test by studying factors that have some opportunity of enhancement of its various facets to lead to successful working partnership." Huh? How about this? "Project evaluation will include a pre- and post-questionnaire of participants with questions specifically designed to measure their perceptions of the effectiveness of the college partnership." **TODAY**

**NEWS****VICKI DOUGHTY NAMED EMPLOYEE OF THE MONTH**

April brings classified employee Vicki Doughty the well deserved title of Employee of the Month. As a 30-year employee of Lane, Vicki was nominated by her co-workers in Counseling and Advising for her enthusiasm, passion and extensive knowledge of not only computers and software, but many aspects of Lane that help her be an invaluable resource for students and staff seeking answers to many questions. Vicki began her LCC career in Student Employment but in one year she was working as a clerk 2 in Counseling. Vicki moved up to a clerk 3, then administrative assistant when she discovered nobody in the department knew a great deal about computers. Vicki realized her job was to learn what was needed to do her job well so she took classes here at Lane to increase her knowledge of computers and technology to better serve everyone. As the computer technician for the department, Vicki has proven to be valuable to everyone she works with each day. Not only was Vicki nominated for doing an excellent job but her colleagues gave many examples of how she served students and staff "above and beyond" her job description. Vicki also enthusiastically participates in the greater college community through United Way, blood drive, Wellness Program and hiring committees. Vicki was very surprised and moved by both the nomination and winning the April Employee of the Year reward. Submitted by Leigh Alice Petty and Colby Sheldon.

If you find yourself eating due to boredom, stress or joy instead of fueling your body or appreciating food, this may be the class for you. You might be eating as a solution for dealing with uncomfortable or unwanted emotions. When you are trying to lose weight, emotional eating can undo everything you've worked for. Learn what drives you to want to eat, what you are feeling and really need and what you can do rather than reach for food. Join this weight loss group based on Linda Spangles book Life is Hard, Food is Easy. The class, taught by Wendy Simmons, meets Wednesdays from 1-2 p.m. in PE 206 through May 11. We've met once, but it's not too late to join the group and get caught up. New participants sign up for CRN 43549 (\$40, which includes the book). Returners sign up for CRN 43550 (\$25).

[photo at <http://www.lanecc.edu/mpr/news/newsatlane.htm> ]

Clive Wanstall, chef instructor in the culinary arts program, has achieved Certified Executive Chef recognition from the American Culinary Federation. He is the second chef at Lane to receive CEC certification, following Food Services Coordinator Greg Winslow, who was certified last spring.

"It is a privilege to be an educator in a field that I have such a passion for," said Wanstall. Conference and Culinary Services Department Director Peg Allison said, "This dovetails beautifully with the new ACF accreditation of our culinary arts program. I think it shows the commitment of our faculty to provide the highest quality education to our students."

The ACF certification notice stated, "By documenting a well recognized and accepted set of professional standards, you have demonstrated your knowledge and experience in the culinary arts and you are certainly to be commended."

Wanstall has taught culinary arts at Lane since 1999. He teaches preparation of various international cuisines including classical French, Italian, Middle Eastern, and Cantonese cuisine. He is known for a lighthearted, humorous style. Before Lane, Wanstall managed Eugene's Ambrosia Restaurant from 1987-2000. ##### RENOWNED DIVERSITY SCHOLAR TO SPEAK AT LANE

Noted author and historian Ronald Takaki, author of this year's Reading Together book, "A Larger Memory: A History of Our Diversity, With Voices," will visit Eugene and the Lane campus next week. His schedule includes a lecture, "America in a Different Mirror: Re-visioning Our Nation's Past," on Thursday, April 21, at 10 a.m. in the Performance Hall, Building 6, followed by a book signing from 11:30 a.m.-noon (note complete schedule below).

It is important to teach diversity in today's society, says Takaki, as we have been "swept into the 21st Century with expanding ethnic diversity and our nation's war against terrorism." He says it is necessary to acknowledge and understand our nation's "larger memory." "As Americans, we are the world, and have the unique capacity to relate to the world. Herman Melville discerned this truth about us: 'America was settled by peoples of all nations. Spill the blood of an American, and you spill the blood of the world. We are not a narrow tribe.' To recognize this truth, we need only look at our history, more inclusively and more accurately."

Takaki has been described as a "minority everyman ... a rare hybrid, a multicultural scholar" by the Los Angeles Times. He is a professor of ethnic studies at the University of California, Berkeley, where he has taught for more than 30 years. His foundational work in ethnic studies curriculum and the multi-cultural graduation requirement has served as a conceptual model for developing similar programs in colleges across the country.

Professor Takaki is the author of 11 books, including our 2004-05 Reading Together book, "A Larger Memory: a History of Our Diversity, With Voices." His books have been selected for national recognition, including as a New York Times Notable Book of the Year and the American Book Award.

Born in 1939, Takaki is the grandson of immigrant Japanese Hawaiian plantation workers and has received numerous awards and honors. He advised former President Clinton and Vice President Gore on race and ethnic matters and he has lectured internationally.

Takaki's complete schedule (all activities open to the public):

-- Wednesday, April 20, 3:30-5 pm, Willamette High School Powers Auditorium, 1801 Echo Hollow Rd., Eugene. Lecture: "America in a Different Mirror: Re-Visioning Our Nation's Past," book signing to follow.

### FIGHTING ANTI SEMITISM SIX HOUR WORKSHOP

The goals of this training are to increase our understanding of anti-Semitism; increase our understanding of who are the Jewish people; increase our understanding of Jewish history; and increase our understanding of recognizing and interrupting Anti-Semitism. Through large and small group discussions, exercises, visual presentations, and lecture, this workshop will provide statistical and theoretical information on the Jewish people and anti-Semitism; discuss how anti-Semitism fits into an oppression model; define and discuss stereotypes of Jews; review briefly the history and origins of anti-Semitism and how they relate to today's stereotypes; and review briefly patterns in history as they relate to anti-Semitism, such as the relationship of the Bubonic Plague to religious anti-Semitism; the effects of the "Age of Enlightenment" and theories of Racial Determinism on racial anti-Semitism; personal and professional experiences of anti-Semitism; responses to anti-Semitism.

This workshop is offered in two three-hour sessions: April 14 (Thursday), 1-4 p.m. in Building 19, Room 226; and April 15 (Friday), 1-4 p.m., Building 19, Room 214. To register, call ext. 5852. ## THE SIX BEST PRACTICES FOR STUDENT SUCCESS AND GOAL ATTAINMENT

In last week's Daily, the Success and Goal Attainment committee (SAGA) outlined the six best practices for increasing student success. These six best practices are: learning communities; first year experiences; academic advising; supplemental instruction; early warning and intervention systems; and campus climate/supportive learner environment. This spring, we'll be featuring each best practice in The Daily and offering tips for student retention and success.

Learning Communities, this week's featured best practice, are classes linked by theme or purpose. They restructure students' time and learning experiences to foster intellectual and social connections among students, between students and their faculty, and among disciplines.

The national literature confirms what Lane learning community students and faculty already know: students linked by the shared experience of taking two or more classes together do better than those who take unlinked classes.

Learning communities provide coherence for students by creating connections between courses and disciplines; they build an academic and social community for students and encourage continuity and integration in the curriculum. Since Lane students are often busy, learning communities offer the crucial combination of academic and social engagement essential to optimum success.

For more information, contact Anne McGrail, Learning Communities Coordinator at ext. 3657 or [mcgraila@lanecc.edu](mailto:mcgraila@lanecc.edu). Next week's best practice: FYRed UP at Lane! A First Year Experience.

## LORI BUMGARDNER STEGER MOVES DOWNTOWN

I have accepted a new position at Lane as program coordinator in Continuing Education and will begin my new job duties April 20. In my seven plus years as Lane's grants coordinator, it has been a pleasure working with skilled professionals who have remained graceful, and with good humor, under the pressure of challenging times in higher education. I am looking forward to applying my talents to a different area of important work at the college. My departure means that there may be some logistical work to attend to ... please be kind to the Foundation during the transition. In the meantime, contact me with questions or burning issues of concern-or if you are compelled to create a noncredit course at Lane! My e-mail will remain [stegerl@lanecc.edu](mailto:stegerl@lanecc.edu). Thank you for your support. I appreciate you! Lori Bumgardner Steger

#### **HIGHWAY CONSTRUCTION LIKELY TO DISRUPT CAMPUS COMMUTE**

The Oregon Department of Transportation has begun the I-105 Highway Improvement Project. The project includes the construction of four auxiliary lanes between the ramps, upgrades of the bridge rail on nine structures, placing 13 cantilever signs, a shoulder barrier, illumination and other safety improvements. Work will include freeway and ramp closures. Construction work resulting in major traffic impacts is expected to take 66 days and nights, beginning this month and completing by early August. Keep informed of activities that may delay your commute by frequently checking updates at [www.keepusmoving.info](http://www.keepusmoving.info)

Next week, workers will close the ramp from eastbound Interstate 105 to southbound Interstate 5 beginning at 7 p.m. on Wednesday, April 20, through 6 a.m. Thursday, April 21. During the overnight ramp closure period, the traffic detour is as follows:

- Continue on I-105 east to the Pioneer Parkway exit
- North on Pioneer Parkway to I-105 west
- I-105 west to I-5 south

The closure will allow a contractor to pave the ramp from I-105 east to I-5 south.

Plan additional time for your commute, avoid I-105, travel during non-peak hours, alter work schedules, and be patient during this complex staging, says ODOT. Submitted by the editor.

also infused with poignancy, passion and spirituality. Few songwriters can deftly  
weave separate similes involving Popeye, Olive Oyl and Sweet Pea into a single  
verse. Fewer still can make it sound deeply soulful. But such are the gifts that  
make Phelps such a remarkable artist. Besides his off-kilter lyrical expression,  
Phelps boasts a haunting vocal rasp and unmatched mastery of finger style and  
slide guitar. Together, these elements explore the deepest shades of blue. This

#### THE SIX BEST PRACTICES FOR STUDENT SUCCESS AND GOAL ATTAINMENT

In last week's Daily, the Success and Goal Attainment committee (SAGA) outlined the six best practices for increasing student success. These six best practices are: learning communities; first year experiences; academic advising; supplemental instruction; early warning and intervention systems; and campus climate/supportive learner environment. This spring, we'll be featuring each best practice in The Daily and offering tips for student retention and success.

Learning Communities, this week's featured best practice, are classes linked by theme or purpose. They restructure students' time and learning experiences to foster intellectual and social connections among students, between students and their faculty, and among disciplines.

The national literature confirms what Lane learning community students and faculty already know: students linked by the shared experience of taking two or more classes together do better than those who take unlinked classes.

Learning communities provide coherence for students by creating connections between courses and disciplines; they build an academic and social community for students and encourage continuity and integration in the curriculum. Since Lane students are often busy, learning communities offer the crucial combination of academic and social engagement essential to optimum success.

For more information, contact Anne McGrail, Learning Communities Coordinator at ext. 3657 or [mcgraila@lanecc.edu](mailto:mcgraila@lanecc.edu). Next week's best practice: FYRed UP at Lane! A First Year Experience.

THE SECOND ANNUAL MIDNIGHT MADNESS Glow -in the Dark Golf Tournament is scheduled for June 24th. All proceeds benefit the Lane Athletic Program. More details to come.`

ANYONE HAVE A MANUAL for a IBM ThinkPad T23 (or any ThinkPad) which they may no longer need or are willing to let me borrow. I need the basic info on how the computer works and what the key symbols mean (the pictures mean nothing to me). I purchased one (no manual of course) but it appears there is a problem and they are taking it back and shipping out a new one. I would like to at least understand the basics of the computer when the next one arrives. The site they referred me to is for technical specialist and I am a long way from that. Thanks Cherrill Hemminger x5894 or 554-4193.`

DON'T MISS KELLY JOE PHELPS with special guest, Paul Curreri, at Cafe Paradiso on Thursday, April 23rd at 8p.m. The Washington Post says "Phelps' songwriting mirrors the subtlety that distinguishes his guitar work. His songs are also infused with poignancy, passion and spirituality. Few songwriters can deftly weave separate similes involving Popeye, Olive Oyl and Sweet Pea into a single verse. Fewer still can make it sound deeply soulful. But such are the gifts that make Phelps such a remarkable artist. Besides his off-kilter lyrical expression, Phelps boasts a haunting vocal rasp and unmatched mastery of finger style and slide guitar. Together, these elements explore the deepest shades of blue. This is music that rings with bittersweet experience- Mojo (UK) Don't miss this great show. Tickets \$18 in advance/\$20 day of show! For info call Roka at 686-4455.`

### RADIOTHON MEETS GOAL

KLCC's 2005 Spring Radiothon concluded as 500 listeners called in to pledge \$42,000 of support during the final hours of Radiothon. At 9 a.m. on April 14, the total was short almost \$2,000, but listeners continued to pledge by phone and web throughout the day until the goal was met. The spring goal of \$260,000 was surpassed at 2:30 p.m. -- with the final fundraising total coming to \$260,275. Radiothon began with \$117,525 from 1,560 "Thon Busters" who contributed prior to Radiothon. The remaining \$142,750 came during the on-air fundraiser. Two-thirds of KLCC's budget comes from listeners and local businesses. KLCC thanks it's loyal audience for helping to achieve this fundraising goal. Submitted by Gayle Chisholm.

ANYONE HAVE A MANUAL for a IBM ThinkPad T23 (or any ThinkPad) which they may no longer need or are willing to let me borrow. I need the basic info on how the computer works and what the key symbols mean (the pictures mean nothing to me). I purchased one (no manual of course) but it appears there is a problem and they are taking it back and shipping out a new one. I would like to at least understand the basics of the computer when the next one arrives. The site they referred me to is for technical specialist and I am a long way from that. Thanks Cherrill Hemminger x5894 or 554-4193.`

DON'T MISS KELLY JOE PHELPS with special guest, Paul Curreri, at Cafe Paradiso on Thursday, April 23rd at 8p.m. The Washington Post says "Phelps' songwriting mirrors the subtlety that distinguishes his guitar work. His songs are also infused with poignancy, passion and spirituality. Few songwriters can deftly weave separate similes involving Popeye, Olive Oyl and Sweet Pea into a single verse. Fewer still can make it sound deeply soulful. But such are the gifts that make Phelps such a remarkable artist. Besides his off-kilter lyrical expression, Phelps boasts a haunting vocal rasp and unmatched mastery of finger style and slide guitar. Together, these elements explore the deepest shades of blue. This is music that rings with bittersweet experience- Mojo (UK) Don't

miss this great show. Tickets \$18 in advance/\$20 day of show! For info call Roka at 686-4455.``

### MIDDLE SCHOOL CHILDREN HELP RESTORE OUTDOOR CLASSROOM (National Volunteer Week and Earth Day)

This week, about 30 students from Ridgeline Montessori Public Charter School, grades 6-8, are helping to rehabilitate the section of the Eldon Schafer Nature Trail leading to the outdoor amphitheater classroom. This area has gone into decay due to time and windstorm damage. Lane is fortunate that these students have chosen this project. The middle school instructors are Jennifer Wyld, and Jason MasDeSpain.

Facilities management and grounds staff, Lynn Atkins and Frank Drengacz, are coordinating logistics and materials (tools, building materials, wheel barrows, bark and more). Science staff are asked to visit, encourage and thank all the participants. Time has been set aside for talks on biology, geology, writing about nature, sustainability, and cultural landscape values. Please contact Gail Baker if you can give a presentation.

Remaining schedule: Tuesday, 1-2 p.m., Leah Knelly will give a natural history talk; Wednesday, 1-2 p.m., Bert Pooth will give a natural history talk; Thursday, Stacey Kiser will provide snacks for participants; Friday, 1-2 p.m., Jerry Hall talk about Native American values and ecology. ### I-105 RAMP TO BE CLOSED FOR TWO NIGHTS

Workers will close the ramp from eastbound I-105 to southbound I-5 for two nights, from 7 p.m. to 6 a.m. on Wednesday and Thursday evenings, April 20 and 21. The closure will allow the contractor working on the I-105 Highway Improvement Project to place continuously reinforced concrete pavement on the ramp from I-105 east to I-5 south. During the overnight ramp closure, the traffic detour is as follows: continue on I-105 east to the Pioneer Parkway exit; go north on Pioneer Parkway to I-105 west; and I-105 west to I-5 south.

Since January, the Oregon Department of Transportation contractor on the I-105 Highway Improvement Project has been working on a variety of tasks associated with the project such as constructing new bridge rails over several structures and the building of new auxiliary lanes between I-5 and Coburg Road and Coburg Road and Delta Highway. Work is being done primarily at night and motorists have encountered multiple lane closures between 7 p.m. and 6 a.m. The speed limit through the area has been

reduced to 45 miles per hour. Motorists are reminded to drive with extra caution and watch for lane closure signs and traffic control barrels.

I-105 construction work that will include major traffic impacts is expected to start around May 13. Once started, that element of work is scheduled to last 66 days and nights. Motorists are encouraged to visit the web site [www.KeepUsMoving.info](http://www.KeepUsMoving.info) to "Find a new way" during I-105 construction. #### EVENTS

##### EARTH WEEK EVENTS FOR TUESDAY, APRIL 19

**WASTE AUDIT:** Ever wonder what is really in the trash? Come and find out during Lane's annual Earth Week waste audit today in Bristow Square. All of the garbage from Monday, April 18 will be on display in Bristow Square. Volunteers will be sorting the waste into such categories as "recyclable paper," "recyclable metal," and "paper cups." Recyclable materials pulled out of the garbage during the sorting process will be recycled and the data from the audit will be used to help improve Lane's recycling and waste reduction efforts. Lane's Recycling Coordinator, Mike Sims, will be on hand to answer questions that you may have about recycling and waste reduction.

**GREEN BAG LUNCH: COMPOSTING:** Anne Donahue, the compost specialist from the City of Eugene, will be providing information and handouts about home composting and will be available to answer questions. We will tour Lane's 3-cubic yard composter that has been operating since March 2004, diverting over 6.5 tons of food waste. We will have several great composting prizes to raffle off. Free snacks will be provided. Bring your own lunch; 12-1 p.m., outdoors near the east of the Center Building lower level. Look for the tent, tables, and chairs.

Coordinator of Lane's rainwater harvesting system, Tammie Stark, will choose an audience member who is interested in installing a system and

design a mock system with audience and homeowner. Tammie will provide tips for installing your own system and will also discuss urban hydrology and the need for water conservation. Resources, freebies and snacks available; 3-5 p.m.; meet at the rainwater harvesting system, Building 20, south side; after 3:30 p.m., meet in Building 16, Room 211.

FILM: "EXPORTING HARM: THE HIGH TECH TRASHING OF ASIA." Electronic waste or e-waste is the most rapidly growing waste problem in the world. It is a crisis not only of quantity but also a crisis born from toxic ingredients such as the lead, beryllium, mercury, cadmium, and brominated-flame retardants that pose both an occupational and environmental health threat. But to date, industry, government and consumers have only taken small steps to deal with this looming problem. This documentary reveals one of the primary reasons why action to date in the United States has been woefully inadequate. Free snacks and discussion after the film; 3-4 p.m., Building 1, Room 210.

#### PEDAGOGY 102 FOR DISTANCE LEARNING

Pedagogy 102 is a stand-alone teleconference and will be highly effective even if you missed the previous Pedagogy 101 for Distance Learning (now available for check-out in the library). All interested faculty and staff are invited to attend this live interactive, satellite delivered, teleconference on Thursday, April 21, from 11:30 a.m.-1 p.m. in the Boardroom, Building 3. In response to repeated requests by faculty, Dallas TeleLearning designed this professional development seminar of best practices for teaching distance learning online courses. This professional development seminar will:

- \* use "scenarios" based on real-world problems to illustrate the kinds of issues faculty must confront in teaching online and distance courses
- \* present some of the most current, highly-effective techniques and approaches in pedagogy for distance courses
- \* improve your "feel-good factor" for distance courses
- \* provide panelists who are nationally-recognized experts in teaching online and distance courses, and in training faculty to teach online

This teleconference will examine:

- \* how to better utilize faculty time by giving them good pedagogical resources, instead of leaving them to resort to trial-and-error for discovery of useful methods
- \* relevant strategies and approaches for new distance paradigms
- \* best practices for enhancing effectiveness in online and distance teaching

This event will be videotaped and placed in Lane's library for check-out three days after the live event. Please contact Cynde Leathers for more information, [leathersc@lanecc.edu](mailto:leathersc@lanecc.edu) or ext. 5260.

## NEWS

## HELPING STUDENTS GET FYRED UP: ONE OF SIX BEST PRACTICES FOR STUDENT SUCCESS

The Success and Goal Attainment Committee (SAGA) is working with other groups on campus to develop a first year experience (FYE) for students this fall. The FYRED UP Pilot Project Team is planning courses and services that will help students feel welcome and engaged when they first come to Lane. The national literature confirms that first year experiences are one of six best practices for student retention and success.

The FYRED UP Pilot Project will enhance and formalize first year experiences already in place at Lane. Learning communities such as Transitions to Success and Fast Lane to Success welcome new and returning students and help them achieve their goals; courses such as Effective Learning and College Success help these students get off on the right foot. In the fall, both of these first-year learning communities will also be offering Writing 115 classes. These courses give Lanes busy students rich opportunities for academic and social engagement, both of which are critical for student retention.

The FYRED UP Pilot first year experience will also offer an orientation the week before fall classes for all students. In addition, targeted advising and other student service interventions will help new students stay FYRED UP when they meet the inevitable challenges of college life.

For more information on the FYRED UP Pilot Project, contact Mary Parthemer, [parthemerm@lanecc.edu](mailto:parthemerm@lanecc.edu). Look in the Daily next for another best practice, Supplemental Instruction.

## BOARD REPORT FOR APRIL

President Mary Spilde presented new budget projections to the Board of Education at its April 14 meeting. Some questions have been resolved, although state funding and the distribution formula are still unknown. Spilde also reported that winter term enrollment was up slightly; the health clinic remodel will lead to some relocations; Lane's nursing students are number one in the state on pass rates; travel procedures will allow a choice of agents effective July 1; the Foundation annual report won first place in a national competition; and Clive Wanstall earned Certified Executive Chef credentials. Winners of Lane's student literary competition were announced: Lara Coley, first place in poetry for "Living Spaces;" Morgan Sky, first place in personal essay for "Ironplow: A Lesson Toward Hope;" Frederick Griswold, first place in one-act play for "Feels So Good;" and M. E. Hardinger, first place in short story for "Gone to the Funeral."

Under statements, Matt Swagerty announced an athletics fundraiser for May 20, and Steve Candee, Courtney Anglin, Stuart Contreras and Sam Hediger advocated for OSPIRG student ballot measures.

The consent agenda passed 6-0. The agenda including purchase of wastewater treatment equipment, and selection of an architect for the health clinic remodel. Roger Hall was absent.

A second reading on contractual authority policy was approved 6-0. A second reading on purchasing procedure passed 5-0; Dennis Shine abstained.

Student ballot measure language for the athletics fee and OSPIRG fee were approved in separate votes, both 6-0.

The board heard a report on the philosophy of athletics, health and physical education at Lane.

A sequence of courses in American Indian Languages was approved unanimously on a tuition basis. President Spilde announced that the endowed chair donation received last year will be used to fund a visiting scholar for AIL.

The board discussed tuition waiver options for people returning from military service in Iraq and directed administration to bring back a recommendation in May.

The board unanimously approved new budget projections.

The funding level for the PERS reserve was discussed. College Council and its budget subcommittee will review the issue next, then the board will continue its discussion.

The board asked the president and the chair to send a letter to the Lane County Board of Commissioners to consider improvements to the 30th Avenue interchange, by 6-0 vote.

A benchmark on employees of color as a percent of all employees was reviewed.

The meeting adjourned at 9:07 p.m. The next regularly scheduled meeting will be Wednesday, May 9. The Budget Committee also will meet that night. Minutes are posted to the web after approval at [www.lanecc.edu/presoffc/board/minstoc.htm](http://www.lanecc.edu/presoffc/board/minstoc.htm) Submitted by Joan Aschim, Marketing and Public Relations.

### LANE JAZZ ENSEMBLE ON TOUR

The Lane Jazz Ensemble, a 17-member student big band, will represent Lane at the Reno Jazz Festival on April 22 and 23 at the University of Nevada in Reno. This will be the 13th consecutive appearance by the LJE at the Reno festival. Music Instructor and LJE director, Ron Bertucci, says, "This year's Jazz Ensemble is perhaps the best Lane has had and will represent the college well."

The Reno Jazz Festival attracts over 300 school groups each year and nearly 50 college ensembles. The RJF offers clinics and workshops by some of the country's leading jazz artists and educators as well as three evening concerts, all of which will be attended by LJE members. Jazz artist Kenny Garrett will be featured Friday night.

The ensemble played a concert in Sisters, OR on Wednesday, April 20 and performs today at Klamath Falls High School, as part of a five-day tour. You can hear the LJE here on campus when they play their spring concert on Tuesday, May 22 at 7:30 p.m. in the Performing Arts theatre. The 8th annual Oregon Jazz Festival, (formerly the

#### TSUNAMI PREPAREDNESS EXPERT TO SPEAK AT WORKSHOP

"The Sumatra Tsunami: Can it Happen Here?" will be presented May 17, from 8:30 a.m. to 5 p.m. at the Florence Events Center. One of the presenters will be Darci Connor of Seaside. She is the only full-time employee in Oregon dedicated solely to educating the public about what a tsunami can do. "Seaside is the best prepared, most tsunami-ready community on the Oregon Coast," according to a recent survey conducted by Portland's KATU-TV News.

Connor is funded by the National Oceanic and Atmospheric Administration to identify an effective outreach program for tsunami preparedness. Connor will describe her community's preparations as an example of how Florence can be tsunami-ready.

Connor has a bachelor of science in environmental science and management from the University of Rhode Island. Her professional emphasis is working with communities to understand scientific information and environmental systems.

One of the most important aspects for tsunami preparation is community education, says Connor. "If we educate our entire community on tsunamis and do so on a yearly basis then we are implementing safeguards so that our communities will know how to respond."

Connor tells a story from Southeast Asia of a little girl on a beach who had just taken a class on tsunamis. "She saw the surf go out to sea and instantly knew what was coming," Connors says. "She evacuated that beach. That was one student, on one beach, who saved 100 lives. Imagine what we can do here."

"The Sumatra Tsunami: Can It Happen Here?" is sponsored by Lane Community College at Florence, Port of Siuslaw, Siuslaw Valley Fire and Rescue, KCST radio, PeaceHealth/Siuslaw Region, and other organizations and individuals.

A \$14 registration fee includes lunch and all workshop materials. To register, contact LCC at Florence office at 997-8444.

#### ADA 504 FORUM

An ADA 504 Forum will be held from 3-4 p.m. on Thursday, May 19 in Building 7, Room 201. Students, staff, faculty and community members are invited to attend this public forum to learn more about ADA compliance issues at Lane, meet the ADA/Section 504 Committee, and discuss any access-related concerns, suggestions and needs. If you need disability accommodations in order to attend or participate in this event, please contact Disability Services 463, 5150 (voice) or 463-3079 (TTY) at least one week in advance. Submitted by Jane Love.

### NATIVE AMERICAN WORD FOR THE WEEK

Today's Native American word for the week is "Wa-hi-'sereht-óhare-'se." This is a one-word sentence in Mohawk, one of the Six Nations' languages of the Haudeenasaunee or "People of the Long House" of New York State. Mohawk speakers can use this one word to convey what would take a whole sentence in English to translate: "he washed the car for me." A number of other ways can be used by Mohawk speakers to convey the same meaning (such as "the car was washed for me by him"), a pattern called by linguists "incorporation." English is highly restrictive in alternative sentence structures allowed, but Mohawk frequently can build words from a single root in a process called "polysynthesis." Adding a fairly large amount of suffixes is common in Mohawk. About the most famous English example of a similar nature is the word, famous in the 60s, "antidisestablishmentarianism." Words in some Native languages can have up to eight suffixes without any difficulty posed to the speaker or the listener, providing they are fluent in that language. Dr. Don Addison, 344-4758, American Indian language instructor at LCC and the U of O.

### HELPING STUDENTS GET FYRED UP: ONE OF SIX BEST PRACTICES FOR STUDENT SUCCESS

The Success and Goal Attainment Committee (SAGA) is working with other groups on campus to develop a first year experience (FYE) for students this fall. The FYRED UP Pilot Project Team is planning courses and services that will help students feel welcome and engaged when they first come to Lane. The national literature confirms that first year experiences are one of six best practices for student retention and success.

The FYRED UP Pilot Project will enhance and formalize first year experiences already in place at Lane. Learning communities such as Transitions to Success and Fast Lane to Success welcome new and returning students and help them achieve their goals; courses such as Effective Learning and College Success help these students get off on the right foot. In the fall, both of these first-year learning communities will also be offering Writing 115 classes. These courses give Lanes busy students rich opportunities for academic and social engagement, both of which are critical for student retention.

The FYRED UP Pilot first year experience will also offer an orientation the week before fall classes for all students. In addition, targeted advising and other student service interventions will help new students stay FYRED UP when they meet the inevitable challenges of college life.

For more information on the FYRED UP Pilot Project, contact Mary Parthemer, [parthemerm@lanecc.edu](mailto:parthemerm@lanecc.edu). Look in the Daily next for another best practice, Supplemental Instruction.

### KING RETAIL SOLUTIONS EARNS EMPLOYER OF THE YEAR AWARD

The Cooperative Education Program named King Retail Solutions of Eugene as 2005 Employer of the Year at the advisory committee dinner on Tuesday. Lane President Mary Spilde presented the award.

King Retail Solutions was selected for its commitment to cooperative education by providing quality worksite learning opportunities for Lane students. The company has offered excellent co-op sites and full-time employment for many co-op students after they completed their Lane programs.

"We know of at least eight King employees who were former Lane Community College students," says Division Chair Andrea Newton. "I would guess there are several more."

Lane's cooperative education program is one of the nation's oldest and largest with more than 2,000 students and 800 employers participating annually. Faculty coordinators select the annual employer award winner. The award is presented at the annual recognition dinner held for the college's 45 program advisory committees. The committees include nearly 600 members of business, industry and labor who provide expertise and support to the college's professional technical and other programs.

According to [www.retaildesigncenter.com](http://www.retaildesigncenter.com), King Retail Solutions was established as King Design in 1967. Originally owned by Ed King, new investors purchased the company in 1993. In 2003, the company changed its name to King Retail Solutions, reflecting growth into other retail niches and services including strategic branding, engineering, manufacturing, logistics and installation. "Three of the nation's five largest supermarket chains are our clients. And as the retail market consolidates and changes, we continue to count successes in other types of retail, especially fast-fresh restaurants, soft goods, banks, drug stores and sporting goods." Submitted by the editor with information from Andrea Newton and Tamara Pinkas.

### SCHAFER APPLICATIONS ARE DUE

Reminder: Schafer applications are due May 1. For all of you who are waiting until the last minute, you have until Monday, May 2. Lori Bumgardner Steger, 5312.

### HEED THOSE FIRE ALARMS

On Tuesday, multiple fire alarms went off in the Center Building, one right after another. In this case the alarms were set off as an unanticipated result of construction in the Bookstore. This was a major disruption to everyone in the building at that time.

Public Safety treats each alarm as valid. We respond and validate the alarm. Where there is a system problem we then do our best to resolve it as quickly as possible

so you don't have to get up and leave all day. However, until it is resolved, you do need to get up and leave.

Please do not call Public Safety unless you have direct information regarding the validity of that alarm. During an alarm we need to dispatch Public Safety officers and communicate with them, and communicate with the alarm company and the fire department. At times we may have only one person to handle all these tasks. The fewer inquiries we need to answer, the quicker we can complete our tasks and you can re-enter the building and go about your work. Thank you, Sandy Ing-Wiese, director, Health and Safety.

## **EARLY WARNING AND INTERVENTION SYSTEMS**

In an earlier edition of The Daily, the Success and Goal Attainment committee (SAGA) outlined six best practices for increasing student success. These six best practices are: learning communities; first year experiences; academic advising; supplemental instruction; early warning and intervention systems; and campus climate/supportive learner environment. This spring, we are featuring each best practice in The Daily and offering tips for student retention and success.

Early Warning and Intervention Systems, this week's featured best practice, detect students who are having academic or personal problems before they begin to fail and respond with a customized plan for addressing each student's unique needs. There are two important goals of an Early Alert Intervention System. First, in advance of their enrollment, a goal is to identify "high-risk" or drop-out prone students who could benefit from institutional intervention. Second, a goal is to identify enrolled students as they begin to experience academic or personal problems that may be reduced through services provided by the college.

Some critical components to an effective Early Alert Intervention System include: utilization of placement test scores, assessment of academic risk factors, assessment of social and psychological risk factors, tracking GPA, tracking course completion rates, tracking attendance, and tracking mid-term grades. Once students who are having problems are identified they can be referred to appropriate services before they fail.

If you are a Lane instructor, it's not too late to let students know how they can still pass your class this term! Since this is about the middle of spring term, we encourage instructors to find a time this week to talk to their students who are in danger of not receiving a passing grade. That way students will have time to make changes that will improve their grades before it is too late. Possible resources to which instructors could refer students include: tutor central, the Math or Science resource center, and/or the Advising/Counseling Center.

For more information, contact Dan Timberlake, Director of the Counseling Department at ext. 5321 or [timberlaked@lanecc.edu](mailto:timberlaked@lanecc.edu). Next week's best practice: Academic Advising.
