NEWS**GARY CONKLIN NAMED EMPLOYEE OF THE MONTH**

Our friendly mailroom coordinator and courier, Gary Conklin, is the Outstanding Classified Employee of the Month for June. Gary began working at Lane in July 2000 as a time-sheet employee and became a member of the bargaining unit in September 2002. Nominations for Gary describe him as an employee who goes far beyond his job in the mailroom. He volunteers in Tutor Central approximately three hours each evening and has done so for many years. Gary's expertise in accounting, business, and computers, coupled with his calm and reassuring nature have made him an excellent and well liked tutor. When Gary is not tutoring, redesigning the system in the mailroom, serving on various campus committees, helping co-workers with weekend projects, and delivering our mail each day, he is restoring old automobiles or expressing his artistic talents through his drawings. Gary's excellent customer service and extensive volunteer tutoring make him an active, well-rounded Employee of the Month. Congratulations! Submitted by co-chairpersons Leigh Alice Petty and Colby Sheldon.

DISABILITY SERVICES AWARENESS TIP #7

Here are tips to use when you're working with someone who uses a wheelchair or scooter:

- * Understand that the wheelchair or scooter is part of the individual's "personal space." Don't lean on or touch the equipment without permission.
- * To show support for an individual, pat the upper arm or shoulder as you would with anyone sitting in a chair. Never pat the top of the head.
- * If you have an extended conversation, try sitting or crouching down to eye level. This will ease neck strain and be more respectful.
- * Offer to give a push and wait for permission to do so.
- * Don't avoid terms such as "go for a walk" or "run across to the next building."
- * The appropriate speed for a motorized wheelchair or scooter is the pace of the walking traffic around the motorized wheelchair or scooter.

"It's my last week in Eugene -- back to Africa to be with family. I say thanks to LCC and its staff and students for all their support. I wish you all the best." - Ruth Dahl, African arts and crafts vendor

E-MAIL RETENTION PERIOD EXTENDED

When the college installed the Novell GroupWise product in 2000, there were only two options for automatically deleting e-mail, appointments, tasks or notes: delete after 250 days or retain forever. The college chose to auto-delete after 250 days. In the last four years the GroupWise database size has grown by 3000 percent. A recent upgrade to the GroupWise software allows us to increase the retention period to 365

days. This means that any mail you receive today will automatically be deleted from your mail box in one year. In order to keep mail longer than 365 days you need to archive it. If you would like help archiving your e-mail, call Michael Levick at 463-3359.

DISABILITY SERVICES AWARENESS TIP #8

Here are some tips to use when working with someone who has a hearing disability:

- * When meeting with someone who is deaf or hard of hearing, you can use paper and pencil, as well as your computer, to write out a conversation.
- * Arrange for the individual to sit at the front of the room, or place furniture in a circle or semicircle.
- * Be aware of noise level. Students may be very sensitive to background sounds that tend to "mask" speech.
- * Avoid standing in front of a strong light source because it puts your face in shadow, making it nearly impossible to "speech read."
- * Face the individual when speaking, not the board when writing. Walking about also makes it difficult to read your lips.
- * When using an overhead projector, stand to the side of the projector so that it doesn't block your face.
- * Use visual aids whenever possible, but allow time for the student to look at them before resuming your lecture.
- * If an individual is working with a sign language interpreter, speak directly to the student, not the interpreter.
- * Do not walk or pace between the interpreter and the person who is working with the interpreter.
- * Give the interpreter time to catch up with your lecture or conversation.
- * When showing a videotape, make sure it's captioned and that the television has a decoder.

LOOKING BACK ON GRADUATION

The Looking Back photo feature of the June 3 Register-Guard shows Lane's first graduating class on June 5, 1966, at North Eugene High School. One reader e-mailed Lane Archivist Elizabeth Uhlig after seeing the photo to say, "I did a double-take when I saw the picture in today's Register-Guard. I realized that the date was the day I graduated from L.C.C." The reader noted that 19 of those in uniform were dental assistants. The other uniformed graduates were practical nurses. "Our classes were held at 200 N. Monroe that year, as the dental facilities at the current campus were not completed then," she wrote. Lane granted 164 degrees and certificates in its first class. This year, more than 1,000 students will earn degrees and certificates. See the RG story at <http://rgweb.registerguard.com/news/2005/06/03/c2.cr.rg.lookingback.0603.html>
For more photos and information on Lane's first graduation, see <http://www.lanecc.edu/archives/ppresid3.htm>, or contact Elizabeth Uhlig, archivist, at uhlige@lanecc.edu. Graduation is Saturday, June 11, at 4 p.m. at the Lane County Fairgrounds. Contact: Editor.

GRADUATE, RETIRED, WILL HELP CHILDREN LEARN TO READ

Lillian A. Parker of Eugene, age 75, will graduate from Lane this Saturday with an associate of general studies degree. This fall she will work at Adams Elementary helping children learn to read. She owned and operated a ceramic and porcelain doll studio for 42 years before retiring. She initially came to Lane to learn about computers, but decided to learn how to teach children to read. "I'm not a couch potato," she says. Of reading she says, "If children don't learn to read well, they can't do well in school or in their futures." After graduation, she will hold a bash at Olive Plaza where she has lived for 16 years. See the full story and photo at <http://www.lanecc.edu/mpr/success/index.htm>. The Daily thanks Tracy Simms for this success story tip, and Jim Grandstaff for posting the stories to the web. Contact: Editor.

LANE FAMILY CONNECTIONS ACCEPTING APPLICATIONS

Applications to the Lane Community College Lane Family Connections Child Care Enhancement Program are now available at or by calling the program office at 463-3954.

In 2003, the state legislature enacted a tax credit contribution plan designed to address the market failure in the child care sector. Lane Family Connections received funds to implement strategies to enhance child care in Lane County.

The new Child Care Enhancement Program will provide funds to increase child care provider wages and professional development, decrease parent cost to less than 10 percent of family income, and improve the quality of child care.

Applications will be accepted beginning June 25. Completed applications should be submitted to Lane Community College Lane Family Connections, 4000 East 30th Avenue, Building 26, Eugene, OR, 97405. The selection process begins June 25 and continues until the program fills. Selection will be based on program eligibility requirements, completed applications and work in the industry.

Lane Family Connections is the child care resource and referral program for Lane County that bridges the gap between parents seeking child care and those who provide care to children. LFC coordinates and offers child care provider training as well as a variety of ongoing support to caregivers.

BOARD REPORT FOR JUNE

The Lane Community College Board of Education adopted the 2005/06 college budget by 7-0 vote at its June 8 meeting. There was no public comment offered at the annual budget hearing held prior to the vote. The budget is a roll-over from the current year with a general fund of \$79,790,760. President Mary Spilde said the state legislature still has not appropriated funding. She is planning to hire an associate vice president of finance and budget to continue strengthening the college's fiscal stability. She invited Tamara Pinkas to update the board on League for Innovation activities. Finally, the president awarded plaques of appreciation to outgoing board members Kathleen Shelley and Dennis Shine for their dedication and leadership, and to Laura Tamura, who is retiring after 22 years as assistant to the board and president. The three received many accolades.

The board continued its pledge of \$250,000 for the longhouse and gave the go-ahead to begin planning for March 2006 construction, by 6-0 vote. Jay Bozievich abstained, saying he supports the project but was concerned by the board's decision not to tie the pledge to fundraising efforts, as it has other times. President Spilde said approving construction will allow a materials list to be developed for in-kind donations. Earlier, under statements from the audience, retired Native American program director Frank Merrill and student body president Jeremy Riel, advocated for the longhouse.

The board authorized staff to proceed with bid awards for the health clinic remodel before the July meeting; and approved a contract for replacement of the Center Building mansard roof; both by 7-0 vote.

A first reading review of the board's tuition policy was held.

In reports and discussion, the board reviewed its evaluation; a summary of the strategic conversation with Lane County commissioners; a report on the treatment of learners; and benchmarks on students' reasons for attending Lane, students by age group, student gender and enrollment status, and student race-ethnicity.

The next meeting will be July 13. - Joan Aschim, Marketing and Public Relations.
