NEWS

IT TIP OF THE WEEK: GETTING RID OF SPAM

If you are tired of getting junk mail, and you want a simple way to deal with it, you may choose to junk any mail that comes from an unrecognized address. If you do this, all incoming mail will be screened to see if the sender is listed in your personal or frequent contact address books. If they aren't, the mail will be sent to your Junk Mail folder. If you use this method, you should be sure to check your Junk Mail folder frequently to make sure there aren't any non-junk items from senders who weren't in your address books. If you find any, you can add the senders to your address book or Trust list so that their mail will not be sent to the Junk Mail folder in future. Here is how to configure your GroupWise account to junk all mail from unrecognized off-campus addresses:

- 1) Click Tools, then click Junk Mail Handling
- 2) Select Enable Junk Mail Using Personal Address Books
- 3) Click OK.

All future items from e-mail addresses not in your Frequent Contacts address book and other personal address books will be delivered to the Junk Mail folder. You can specify that the items in this folder be deleted after <n> days. For more information on handling junk mail in GroupWise, see <http://www.lanecc.edu/it/hdrefs/spamgone.html> - Michael Levick, technical training coordinator, Information Technology

LANE INTRODUCES ART-O-MAT TO OREGON

Clark Whittington, creator of the Art-o-mat, an art vending machine, will discuss the inspiration, purpose and results of his brainstorm during a lecture and reception in the Lane Art Gallery on Monday, October 10, from 12-2 p.m. The event will unveil Oregon's first Art-o-mat, a retired cigarette machine converted to vend art. For a photo, see <http://www.lanecc.edu/mpr/news/rel00719.htm> Lane's gallery will host the machine and the machine will also make special appearances around the county during the summer months.

There are 80 Art-o-mats in use throughout the country, featuring the works of more than 400 artists. The Oregon Art-o-mat will have one slot dedicated to the work of Lane Community College students; the rest of the slots will dispense artwork by artists

from around the country. The pocket-sized artworks range from small paintings, sculptures, poems or any number of concept-driven art pieces.

Rick Williams, chair of Lane's Division of the Arts, says, "We're proud to host this unique concept involving accessible art in an interactive format. The Art Gallery Committee recognizes the educational benefits in featuring artworks by nationally known artists. Art-o-mat provides the added benefit of an opportunity for Lane's student artworks to be included in the project." He also notes that the Art-o-mat is part of the ArtWorks initiative at Lane designed to integrate the arts into daily life in our community.

"We're wanting to reach quality investors who haven't taken art seriously before, and to support artists trying to make a living," says Whittington. He notes that at \$5 per artwork, the Art-o-mat is intended to encourage people to collect and share art. He says he hopes the machines inspire people to make the leap from Art-o-mat's kitschy-cool to serious art collecting. Some machines donate a portion of the proceeds to local charities. Proceeds from the Lane Art-o-mat will support arts programs at Lane.

Art-o-mats appear in galleries, grocery stores and coffee shops across the United States, including The Whitney Museum of American Art in New York, The Museum of Contemporary Art in Los Angeles and The Chicago Department of Cultural Affairs. Contact: Susan Lowdermilk.

UNDERSTANDING DIVERSITY: WHAT CAN I DO?

Friday, October 7, 1-5 p.m., Building 19, Room 105

This four-hour workshop provides a broad overview of the nature of diversity, starting with an examination of what we mean by culture and identity. Topics include cultures and identities and how they are "interactive," rather than "additive;" census information about who makes up the U.S., schools, and the workforce, including factors such as race, age, economics, and immigration; and some "diversity definitions," such as stereotype, power, privilege, and prejudice. Consciousness-raising workshop exercises explore issues of disability and sexual orientation. The program includes the award winning video, "Blue Eyed," which deals, primarily, with race and ethnicity and uses it as a touchstone to talk about some general issues of diversity. Final comments include some ideas about taking an adversary path versus taking an ally path. To register, please call 463-5852. Should you have any questions or if you would like to schedule a department training, please contact Jim García, Diversity Coordinator, at 463-5852 or garciaj@lanecc.edu.

ARCHIVES RECEIVES PROCESSING GRANT

The Archives has received funding from the National Historical Publications and Records Commission (the granting arm of the National Archives) to process many of the college's historical records. The Northwest Archives Processing Initiative project involves a consortium of eight archives and manuscript repositories from Alaska, Oregon and Washington. The grant will enable the Archives to employ a processing archivist, who along with the archivist, will arrange, describe and prepare finding aids for records from the president's and vice presidents' offices. The finding aids created for the collections will be encoded using Encoded Archival Description and will be submitted to the Northwest Digital Archives database at <http://nwda.wsulibs.wsu.edu/>. The Northwest Digital Archives provides enhanced access to archival and manuscript materials in Idaho, Montana, Alaska, Oregon, and Washington through a union database of Encoded Archival Description finding aids. Lane's entries will be the first collections from a community college to be entered on this database. - Elizabeth Uhlig, ext. 5466

The services are at no additional cost to students, faculty, or staff.

PREPARE FOR MEDICAL EMERGENCIES

The Health Clinic would like to welcome the LCC community back to campus for the 2006 school year. Unfortunately, with more staff and students on campus the number of medical emergencies increases. As first responders to emergencies, the Health Clinic staff would like to ask people to review their employee emergency manual and orient new employees to the manual as well.

Response time is critical in an emergency situation. There are two important things that you can do to help us respond as quickly as possible: 1) make sure you give us an accurate location, including building and room numbers, and 2) position someone outside the building to help direct us to that location. In most cases we will be arriving with a wheelchair, so that person should be placed at the nearest wheelchair accessible entrance or the entrance closest to our location (currently the Center Building, soon to be Building 18).

We look forward to working with you this year and would ask for your understanding as we transition into our new facility. We will be moving into Building 18 within a month. We will make every effort to minimize any disruption in service, but as with any major move, we expect that there will be some unforeseen issues that we will need to resolve. Please bear with us as we settle in and watch this space for more information, as we get closer to the move. - Duke Vandervort

UNDERSTANDING DIVERSITY: WHAT CAN I DO?

Friday, October 7, 1-5 p.m., Building 19, Room 105

This four-hour workshop provides a broad overview of the nature of diversity, starting with an examination of what we mean by culture and identity. Topics include cultures and identities and how they are "interactive," rather than "additive;" census information about who makes up the U.S., schools, and the workforce, including factors such as race, age, economics, and immigration; and some "diversity definitions," such as stereotype, power, privilege, and prejudice. Consciousness-raising workshop exercises explore issues of disability and sexual orientation. The program includes the award winning video, "Blue Eyed," which deals, primarily, with race and ethnicity and uses it as a touchstone to talk about some general issues of diversity. Final comments include some ideas about taking an adversary path versus taking an ally path. To register, please call 463-5852. Should you have any questions or if you would like to schedule a department training, please contact Jim García, Diversity Coordinator, at 463-5852 or garciaj@lanecc.edu

COLLEGE FAIR THANK YOU

On behalf of the dedicated group of high school counselors who put on the annual Mid-Willamette College Fair, I thank all of the Lane staff who contributed to its success. Special thanks to Brent Ellison and Mike Zimmerman in Health and PE, Nancy Schwoerer in Catering, Andy McClure and Jeff Kerr in Facilities, Dana Halttunen in Counseling and Advising, and Joan Aschim in Marketing and Public Relations, for their contributions to this event. Gratefully submitted by Karen Edmonds, High School and Community Relations Coordinator.

30TH AND GONYEA ROAD INTERCHANGE FEEDBACK REQUESTED

Some accidents and close misses have happened at the 30th and Gonyea Road interchange. The college and county road department is concerned about this and want to improve the safety of the interchange. There are two specific concerns: The curves of each of the cloverleaves leading to and from 30th and Gonyea Road are sharp, and the vehicles entering the campus from 30th have a very short distance in which to merge with vehicles exiting the campus onto 30th.

At the request of the college, county crews have installed signs warning drivers of the appropriate speed for tight curves of the on-ramp, and the crews have removed the trees blocking the sightlines between 30th and the on-ramp so that drivers on the cloverleaf can see drivers on 30th and vice versa. This allows drivers to adjust their speed to merge safely.

The question is, will these improvements significantly increase the safety of the interchange, or will more have to be done? The college needs to inform the County by December 1 if more needs to be done. We're asking for your help to monitor whether the signs and improved sightlines have increased the safety of the interchange or not. While in the area of the interchange, note any unsafe situation and then e-mail your feedback to 30th&Gonyea@lanecc.edu . For an illustration, see the web at <http://www.lanecc.edu/30thGonyea.html> Contact: Bob Mention.

A REQUEST FROM THE ANIMAL SUPPORT COMMITTEE

If you love animals, please help. The LCC Animal Support Committee's primary mission is the care and control of the feral cat population on the main campus. We also take care of any "drop off" animals, mostly cats, found on campus. We are required to take these cats to a veterinarian and have them tested for FIV/FelV, spayed or neutered if necessary, and vaccinated before we can find homes for them.

Although we receive a great professional discount from the vet, the cost of dealing with numerous dropped off animals and a litter of feral kittens already this calendar year has depleted the committee's limited resources. We are in desperate need of any donation you can give.

Donations may be made through the Foundation to the ASC account or directly to Kirsa Whedon or Jamie Kelsch, ASC Members. If you are interested in learning more or joining the committee, please visit our web site at <http://www.lanecc.edu/asc/aschome.htm>. - Kirsa Whedon, 463-5534

NATIVE AMERICAN WORD FOR THE DAY

Today's Native American word for the day is 'shunka.' This is the Lakota (Sioux) word for 'dog.' For thousands of years, the dog was the Lakota's valued helper. Around the 15th century, the Spanish brought horses into the Southwest through Mexico, re-introducing horses onto the North American continent. The Lakota of the Northern Plains they were so taken with these horses, that they coined a compound term from 'shunka' ('dog') and 'tanka' for 'big'--meaning 'big dog' to refer to the horse--'shunktanka.' Compounding is a common morphological process linguists have identified to refer to this phenomenon. The Plains people even divided their historical references into 'dog days' and 'horse days' to designate more ancient (former times) and more recent times (since contact with Europeans). - Dr. Don Addison, Native American languages instructor at LCC and UO, 344-4758

ARE YOU IN NEED OF A FERPA REFRESHER?

How current are you on issues surrounding what it means when the word "confidentiality" appear on a class list or in ExpressLane or Native Banner? Did you know that students who have a confidentiality indicator next to their names should not have their names called out when taking roll, without their permission? Did you know that no student should ever be able to see the educational record of another, such as test papers being out in a public area?

Helen Barker Garrett, director of Enrollment Services/Registrar, wishes to compliment Lane staff and to acknowledge how great everyone is about upholding the Family Educational Rights and Privacy Act (FERPA). However, many Lane staff are new and perhaps have not heard "Lane's Top 10 Most Important Things to Know about FERPA". If you would like a quick and easy FERPA refresher, please contact Diane Engle at ext. 5693 to arrange for this. We can also send you copies of the "Top 10" list to distribute to any new and/or part-time staff who might not be able to attend.

Please keep those FERPA phone calls and e-mails coming. You are doing a great job of protecting our student's confidentiality! - Helen Barker Garrett, ext. 5686

ATTENTION STAFF: THE TORCH NEEDS YOU

Do you have an outstanding or unique student whose accomplishments would be an inspiration to the campus? The Torch plans to write a column weekly that features one of our exceptional students and we need your help. We are asking LCC staff to recommend students for this feature. This is our way of recognizing student's individual hard work and dedication. To submit a recommendation, send an e-mail to torcheditor@lanecc.edu or contact Heather at ext. 5655. Please include the student's name and contact information.

KLCC CELEBRATES NEW STATION IN BEND

Several years of efforts have come to fruition: KLCC's new station KBR 88.1 FM is on the air in Bend. KLCC's award-winning programming can now be enjoyed loud and clear anywhere in Bend, Redmond, Sisters, and Sunriver. KLCC invites listeners to celebrate at the Mountain Room at Discoids Brewery on Tuesday, November 1, from 5:30-8 p.m. Meet the KLCC staff, find out why we care so much about Central Oregon, and let us know what you like, dislike and want from KLCC. Snacks and a beverage provided. KLCC has approximately 9,100 listeners in Central Oregon, and 326 of them are supporting members. The new signal will reach thousands more homes with KLCC's award-winning programming. Contact: Gayle Chisholm.

KLCC RAISES A RECORD \$271,010 DURING FALL RADIOTHON

KLCC's 2005 Fall Radiothon came to its hectic conclusion as 406 listeners called in to pledge \$37,075 of support during the final four hours of Radiothon. At 9 a.m. on October 13, Radiothon came to an end just \$5,990 short of the \$277,000 goal. The final total of \$271,010 was the largest amount raised in KLCC history. Radiothon began with \$122,700 in the bank, thanks to 1,688 "Thon Busters" who contributed in the weeks before Radiothon. Every dollar that came in from Thon Busters reduced the on-air goal of Radiothon. The remaining \$148,310 came from 1,774 households during the 72 days of Radiothon. KLCC member contributions help cover the cost of NPR news, nationally syndicated programs, locally programmed music, community information, live broadcasts of special events, and intelligent entertainment all year long. Two-thirds of KLCC's budget comes from listeners and local businesses. KLCC thanks it's loyal audience for their generous and continuous support of public radio. Contact: Gayle Chisholm.

A REQUEST FROM THE ANIMAL SUPPORT COMMITTEE

If you love animals, please help. The LCC Animal Support Committee's primary mission is the care and control of the feral cat population on the main campus. We also take care of any "drop off" animals, mostly cats, found on campus. We are required to take these cats to a veterinarian and have them tested for FIV/FelV, spayed or neutered if necessary, and vaccinated before we can find homes for them. Although we receive a great professional discount from the vet, the cost of dealing with numerous dropped off

animals and a litter of feral kittens already this calendar year has depleted the committee's limited resources. We are in desperate need of any donation you can give. Donations may be made through the Foundation to the ASC account or directly to Kirsia Whedon or Jamie Kelsch, ASC Members. Animal Support is also listed on the back of the Annual Giving Form as an option. If you are interested in learning more or joining the committee, please visit our web site at <http://www.lanecc.edu/asc/aschome.htm> Contact: Kirsia Whedon, 463-5534.

The 2005 Lane Community College Distinguished Alumni:

years as a parent volunteer, and 15 years as a case development specialist. She has served on a wide variety of governing boards and task forces such as the Metropolitan Affordable Housing Board, and recently retired as executive director of Catholic Community Services after 15 years of service. Benson supervised Lane interns at both Pearl Buck Center and Catholic Community Services.

LuAnne Boettiger of Springfield earned her associate degree in science of nursing from Lane Community College in 1976. She later attended Oregon Health Sciences University, earning a bachelor of science in nursing in 1986 and a master's in nursing in 1992. She now works at McKenzie-Willamette Medical Center as the director of staff development. In 2005, Boettiger began working as an adjunct professor for Northwest Christian College. While attending school he worked as a police officer with the City of Springfield. After eight months as a police officer in Bend, Smith returned to Springfield. He was promoted to sergeant in 1975, and promoted to captain in 1987. He has served as Springfield's chief of police since 1999. He earned a bachelor of science in public administration and a master's degree in interdisciplinary studies from the University of Oregon. He is a graduate of the FBI Academy in Quantico, Virginia. Chief Smith teaches criminal justice courses at Lane, and has chaired the college's criminal justice advisory committee.

After returning from Vietnam, Wahlberg enrolled at Lane Community College, earning an associate of science degree and airframe and powerplant license in 1969. He started work at Evergreen Helicopter immediately after college, and has progressed from mechanic to his current position as the president of Evergreen International Aviation, Inc., a company with an annual budget of \$750 million and 4,500 employees worldwide. Wahlberg has chaired Lane's aviation advisory committee. He has made many Evergreen Aviation resources available to the Lane aviation programs; the company offers internships and has hired many Lane aviation program graduates.

FIND THE ENERGY TO CHANGE

What kinds of stories have we been telling ourselves, as a culture, that keep directing us to deplete finite energy resources? Why do we keep repeating these stories in the face of increasingly disastrous consequences? We can change those stories and hence change our communities. What ways is Lane changing these stories? What else is possible? What can we, as individuals, do?

Please join a panel of campus and community experts in a discussion which explores options for change, on Thursday, November 3, from 10 a.m.-2 p.m. in the Center for Meeting and Learning, Building 19, Room 104.

Panelists will include: Roger Ebbage, director of Lane's Energy Management Program; Anna Scott, Lane's newly hired energy analyst; Jennifer Hayward, sustainability coordinator; Tammie Stark, rainwater utilization and water education specialist and owner of Eugene Rainwater; and Jim Maloney, EWEB energy resource project manager.

People are welcome to come late or leave early as schedule permits. If you need disability accommodations in order to attend or participate in this event, please contact Disability Services (541) 463-5150 (voice) or 463-3079 (TTY) at least one week in advance. For additional information contact Ellen Cantor, 463-3660, cantore@lanecc.edu or check the Reading Together website, www.lanecc.edu/readingtogether

We invite you to enjoy several items in Food Services that we take great time and care to present to you. Did you know our staff arrives at 4 a.m. to slow roast the baron of beef and the roast turkey we serve in the Food Court? Our mashed potatoes are made with real butter and from fresh Northwest potatoes. Take some time to enjoy a slow cooked meal, we would love to have you. - Brian Kelly

A REQUEST FROM THE ANIMAL SUPPORT COMMITTEE

If you love animals, please help. The LCC Animal Support Committee's primary mission is the care and control of the feral cat population on the main campus. We also take care of any "drop off" animals, mostly cats, found on campus. We are required to take these cats to a veterinarian and have them tested for FIV/FelV, spayed or neutered if necessary, and vaccinated before we can find homes for them.

Although we receive a great professional discount from the vet, the cost of dealing with numerous dropped off animals and a litter of feral kittens already this calendar year has depleted the committee's limited resources. We are in desperate need of any donation you can give.

Donations may be made through the Foundation to the ASC account or directly to Kirsa Whedon or Jamie Kelsch, ASC Members. Animal Support is also listed on the back of the Annual Giving Form as an option. If you are interested in learning more or joining the committee, please visit our web site at <http://www.lanecc.edu/asc/aschome.htm>. - Kirsa Whedon, 463-5534

IS THE 30TH AND GONYEA INTERCHANGE SAFE? YOU TELL US

Some accidents and close misses have happened at the 30th and Gonyea Road interchange. The college and county road department are concerned about this and want to improve the safety of the interchange. There are two specific concerns: the curves of each of the cloverleaves leading to and from 30th and Gonyea Road are sharp curves and the vehicles entering the campus from 30th have a very short distance in which to merge with vehicles exiting the campus onto 30th.

At the request of the college, county crews installed signs warning drivers of the appropriate speed for tight curves of the on-ramp and the crews have removed the trees blocking the sightlines between 30th and the on-ramp so that drivers on the cloverleaf can see drivers on 30th and vice versa. This allows drivers to adjust their speed to merge safely.

The question is, will these improvements significantly increase the safety of the interchange or will more have to be done? The college needs to inform the county by December 1 if more needs to be done. We're asking for your help to monitor whether the signs and improved sightlines have increased the safety of the interchange or not. While in the area of the interchange, note any unsafe situation and then e-mail your feedback to 30th&Gonyea@lanecc.edu - Bob Mention

NATIVE AMERICAN WORD FOR THE DAY

Today's "Native American word for the day" is "O-TE-khee." It provides us with a lesson on how language change expresses social change--positive or negative. This is a Lakota (Sioux) expression which is one possible answer to the familiar question "To-NEEK-too-ka-hwo?" which means "How are you?" If someone were to answer in the formal manner, to say "I'm not well" they would say "o-TE-khee-ye-lo" or informally, "o-TE-kheek-shto." The former is also considered "male speech" (with the male-speaker marker "yelo" tagged onto the end) and the latter, "female speech" (used by women speakers who replace "yelo" with "kshto.") However, in the 20th century, with the horrific rise of drug abuse and alcoholism on Indian reservations across the nation, "o-TE-khee"

has begun to take on a new connotation. Unfortunately it now often means "I have a hang-over." Examples like this abound where Native American languages change, as social conditions change, to reflect these developments. On a more positive note, however, more Native Americans are following the positive "Red Road" path to sobriety now more than ever in the past 600 years! - Dr. Don Addison, Native American languages instructor at LCC and the UO, 344-4758

A video, "People Like Us: Social Class in America: Part 1," will be shown Friday, October 28, at noon in the Women's Center, Building 1, Room 202. "People Like Us" examines American life through the prism of our country's unique class structure. This video shows how social class plays a role in the lives of all Americans. The documentary travels across the country presenting stories that will resonate with viewers regardless of where they see themselves on the social spectrum--stories of family traditions, class mobility, and different lifestyle choices. Commentators help make the connections between daily life and the larger issues of class in America. The film discusses how social class has as much influence as race or ethnicity in determining what kind of opportunities a person has in life. Part 2 will be shown November 4. Contact: Jill Bradley, ext. 5298.

THREE-YEAR ACADEMIC CALENDAR AVAILABLE

Traditionally, the academic calendar is developed on an annual cycle. However, in order to help students and staff with planning into the future, a three-year academic calendar has been developed. The dates, as usual, are aligned with the University of Oregon schedule. Some holidays and cultural observances also have been considered. The three-year calendar identifies some of the critical dates that students need to know for planning their academic activities. These dates could be subject to change, as each academic year approaches. The calendar will be updated twice per year. This new tool is in addition to the annual academic calendar, which will still be produced and have the higher level of specificity that it does now. The three-year calendar is available <http://www.lanecc.edu/instadv/calaca.htm> Contact: Gloria Vanderhorst.

READING TOGETHER: HOW THE STORIES WE TELL CAN CHANGE THE WAY WE USE ENERGY

Panelists will address the "Energy to Change" on Thursday, November 3, from 10 a.m.-12 noon, in the Center for Meeting and Learning, Building 19, Room 104.

Panelists are Roger Ebbage, director of Lane's energy management program; Anna Scott, energy analyst at Lane; Jennifer Hayward: sustainability coordinator at

Lane; Tammie Stark, rainwater utilization and water education specialist and owner of Eugene Rainwater; and Jim Maloney, EWEB energy resource project manager.

They will ask why we keep repeating these stories in the face of increasingly disastrous consequences and how by changing our stories, we can change our communities and what we, as individuals, can do.

The presentation is sponsored by the Reading Together project. You may come late or leave early as needed. Disability accommodations to attend may be made through Disability Services at 463-5150 (voice) or 463-3079 (TTY). CELEBRATE NEW FRIENDSHIP WITH THAILAND AND ITS KING

On Friday, November 4, at 5 p.m. at the Eugene Public Library, join Eugene Mayor Kitty Piercy and Springfield Mayor Sid Leiken in welcoming and saying kob khun (thank you) to Thai dignitaries. Thailand's Royal family and the Grand Chamberlain of Thailand have announced a generous gift of books and other media to the Eugene Public Library and Springfield Public Library in honor of the 60th anniversary of King Bhumibol's accession to the throne, and in connection with the U.S.-Thai Distance Learning Organization's collaboration with the University of Oregon. Enjoy performances of classical Thai music and dance. A preview of Thailand's book contribution will also be on display. King Bhumibol is the head of state in Thailand's constitutional monarchy, and is celebrated for ushering in and helping maintain democracy into his country since his coming to the throne 60 years ago. He is known for building the nation by supporting local communities-a philosophy reflected in his literary gift to the U.S. Friday's gathering is the world's first official celebration of the anniversary outside of Thailand, and has captured the attention of the Thai government and business leaders. The event is intended to demonstrate Eugene-Springfield's appreciation of the gift and interest in pursuing a closer relationship with Thailand. Submitted by Jerry Ross, CIT.

Visit the display in advance, then bid on your favorites at the Eugene Public Library Foundation's fundraising Authors and Artists Fair on Saturday, December 3, from 7-10 p.m. The Art Totes project is a new twist on 2004's 100 Banners, which were created to honor the Library's centennial. BOARD REPORT FOR OCTOBER

The Lane Community College Board of Education approved the sale of the college's old Cottage Grove building on 5th street to the Old Time Gospel Fellowship for \$165,000, by 7-0 vote at its October 12 meeting. There were no public comments.

Under Statements from Audience, faculty union president Jim Salt asked five faculty members to describe their recent sabbaticals. Merrill Watrous talked about doing a book on teaching writing; Julia Munkvold participated in a nursing consortium and learned about simulation technology; Bob Barber talked about his work on organizational design; Larry Scott described cooperative education in Thailand; and Michael Samano described his doctoral work on faculty workload issues.

Second readings on board policies on global board-president relationship, delegation to the president, and contractual authority, passed unanimously. First-reading reviews were held on board policies on borrowing, purchasing procedure, and monitoring president's performance.

A proposal to adopt the Talloires Declaration on sustainability was tabled. Concerns included how to define sustainability, cost to the college, and how to interpret some of the declaration's language. President Mary Spilde noted that Lane is a leader in

sustainability, and is ahead of other colleges. Staff will return with more background information to address board questions.

In other action, the board unanimously approved president's goals for 2005/06.

The board reviewed a report on one-time investments for fiscal year 2004/05, and benchmark reports on unduplicated student headcount and student FTE by reimbursement category.

The next regular meeting will be November 9. The meeting adjourned at 8:23 p.m. Submitted by Joan Aschim, Marketing and Public Relations.

NEWS

ELEVATOR IN CENTER BUILDING HAUNTED?

According to the Haunted Places in Oregon website at <http://theshadowlands.net/places/oregon.htm> the elevator in the Center Building is haunted by a janitor who fell to his death in the 60s. He yells for help at sunset and plays tricks by taking folks to the creepy basement after sunset. A check with Mike Ruiz and Paul Colvin in Facilities Management and Planning provides no support for this claim. Thanks to Denine McMurren in Advanced Technologies for bringing this to our attention. FIND THE ENERGY TO CHANGE

What kinds of stories have we been telling ourselves, as a culture, that keep directing us to deplete finite energy resources? Please join a panel of campus and community experts in a discussion which explores options for change, on Thursday, November 3, from 10 a.m.-2 p.m. in the Center for Meeting and Learning, Building 19, Room 104.
