### LANE GRADUATE EARNS DOCTORATE IN PHYSICAL THERAPY

Tess Treinen attended Lane from 2004-06 and graduated December 10 with a doctorate of physical therapy from the University of St. Augustine in San Diego, California. She was awarded the Stanley V. Paris and Catherine Patla award for manual therapy excellence. The award is named after Dr. Paris, founder of the university and one of the most influential manual physical therapists. Tess's GPA throughout the program was an impressive 3.8, especially considering her other areas of service in the physical therapy community. She was involved with the San Diego Fall Prevention Awareness Program, tutored for three classes within the program, and was a teaching assistant for a spinal manipulation course.

During her time at Lane, Tess graduated as a fitness technician from the Exercise and Movement Science program with a 3.5 GPA and played basketball for Greg Sheley and The Lady Titans. She was part of Lane's first NWAACC championship women's basketball team in 2006, as well as the 2005 runner-up team. Tess earned NWAACC all-academic honors during both basketball seasons. She was also involved with the Young Women in Science Program which helps empower and mentor young women in the science field.

### LANE STUDENT WINS SCHOLARSHIP FROM SNOWBOARD MAKER

Academy Snowboard has awarded its 2011 Foundation Scholarship, including a tuition check for \$516 (1% of the region's sales), to Lane second-year student Kyle Richner. Their website says –“We chose Kyle because of his love for snowboarding, drive to get kids stoked on and off hill, and entrepreneurial spirit,” stated Erich Dummer, Media Director of Academy Snowboards.

"We know it's not a lot of money right now, but we're always stoked to give back to the snowboard community and keep the shred dream alive for fellow riders that are sacrificing powder days while going to school." Kyle is a sophomore at Lane Community College and will be transferring to the University of Oregon next fall to pursue a major in business entrepreneurship. He's already dabbling in small business by starting his own skateboard company, creating art for the decks, and recruiting a skate team to spread the good word.— See full story and photographs at: [snowboarding.transworld.net/1000166403/news/academy-snowboards-announces-2011-scholarship-winner](http://snowboarding.transworld.net/1000166403/news/academy-snowboards-announces-2011-scholarship-winner)

**VIDEO FEATURES THE WHITEAKER DINNER'S CLIVE WANSTALL AND CAHM STUDENTS**  
University of Oregon student Barbara Bellinger produced a video titled, "Drugs Don't Win in Whiteaker, People Do," featuring the Whiteaker Thanksgiving Dinner and Chef Clive Wanstall and Culinary and Hospitality Management students. Bellinger will graduate this summer and go on for a master's in international relations. The original intent of her video "was to focus on the drug addiction issue in Whiteaker and more specifically, the issue that addicts sometimes throw their used needles on the ground. The more interviews I conducted, the more positivity I encountered: from Chef Clive and the Thanksgiving Dinner to Trasi Fugate's wonderful third grade classroom. The piece ended up being a mixture of the problem and the solutions that are already happening." #### **ESL HELPS STUDENTS SUCCEED IN THE WORKPLACE AND COLLEGE**

Lane offers English as a Second Language Classes to help students improve their English speaking skills. Students should call now to register for classes that start January 9. Placement testing appointments are still available. Non-native English speakers in the community take the classes to communicate better at work, get a job, help their children with school, or transition to Lane's college certificate and degree programs.

Carmen Alvarado of Costa Rica started in ESL classes at the pre-beginning level in 2006. "I didn't even know my alphabet!" she said. From that beginning stage, the ESL program helped her gain the skills and confidence she needed to enter Lane's culinary program. "It felt like family," she said of the ESL program. Now she wants to be a chef. "I want to own a restaurant and it will be international cuisine."

Some non-native speakers who are already in the workforce receive help from their employers' who cover the modest cost of ESL classes for their employees, pay for books or arrange their workers' schedules so they can attend class regularly, said Cathy Lindsley, dean of Lane's ESL program. The program enrolls about 500 students per term.

Classes are available in pre-beginning to advanced levels. A morning class for beginners is offered at Lane's Downtown Center. The rest of the daytime classes are taught on main campus, Building 11, second floor, and at the Downtown Center on Monday and Wednesday evenings. ESL students qualify for LTD bus passes. For more information, call 541-463-5253 days or 541-463-4935 evenings. Contact: Cathy Lindsley.

Comprehensive pre-service training will be held early in the new year for qualifying adults who pass criminal background checks. Clients are chosen by participating area agencies throughout Lane County. Ongoing support provided. Sponsored locally for almost 40 years by Lane Community College. ### LEARN STORYTELLING TO EXPLORE DIVERSITY; REGISTER NOW FOR JANUARY 20 CONFERENCE

Register now for Lane's Diversity Strategic Direction Conference to hear Dr. Lee Anne Bell, author and director of education at Barnard College, and learn about her unique storytelling model to gently bring diversity conversations into the classroom and to our work with

students. The conference is Friday, January 20, from 8:30 a.m. to 4:30 p.m. in the Longhouse and at the Center for Meeting and Learning.

During the day, you will hear many stories and voices through poetry, music and performances by Lane's staff and students. #### JOYCE GALLERY OPENS "RED, RED THE COLOR OF WARM" EXHIBIT

The David Joyce Gallery in the Center for Meeting and Learning has opened its winter 2012 exhibit, "Red, Red the Color of Warm," featuring nine Oregon artists in a variety of mediums. A reception is set for Thursday, March 1 from 4:30-6 p.m. with hors d'oeuvres and refreshments prepared and served by the students in the Culinary Arts and Hospitality Management program. Artists Laura Jaszowski, LaVonne Tarbox-Crone, Roka Walsh, Renee L. Nelson, Dan Welton, Pamela Summer-Joy Blackhorse, Ellen Hamill, Jack Larson, and Jim Bailey, with support from exhibit designer Susan Detroy, present stunning imagery of flowers, foods, and environments – both urban and natural. The exhibit is a study in color theory. Red was chosen to inspire the artist to look beyond the obvious and share with us their colorful illumination during the dreary, grey winter months.

The gallery also is showcasing eclectic, photographic cutout fragments of artist David Joyce for whom the gallery is named. David was an art instructor at Lane for 25 years and most known in the community for his monumental flying people mural "Flight Patterns" at the Eugene Airport, which currently is being re-touched. A variety of David's art will be shown with each gallery exhibit this year.

"Red, Red the Color of Warm" runs through Thursday, March 22. The gallery is open Mondays through Fridays from 8 a.m. to 5 p.m. All art is for sale with 25 percent of the proceeds supporting the David Joyce Gallery. Contact: Julie Fether.

#### THANK YOU

Thank you to everyone who helped student parents during the holiday season. The Titan Store staff put on a great raffle this year with some of the proceeds helping parents with older children. Bette Dorris in Student Life/ ASLCC supervised the Tree of Giving in Building 1 and helped many generous staff and students get the names of children who needed a Santa this year. Their parents were so appreciative. Thanks also to Marci Parker in the Women's Center and the Center student workers who helped with wrapping and distribution. Thank you to Tina Lymath for her material and moral support also. And most of all, thanks to all of you who bought raffle tickets and took names off the Tree of Giving. Without your help we couldn't make this happen. Happy New Year, everyone! Submitted by Jill Bradley, Women's Center Coordinator.

## FACILITIES NEWS

### FACILITIES UPDATES

The removal of the allergenic London Plane trees on Parnell Loop during the winter break was a success. The trees were removed as anticipated on a day with very little disruption. They will be replaced with nonallergenic species within the year.

The elevator installation at KLCC downtown will be completed sometime this week. The contractor started the work December 27 and nearly completed the task in just two weeks. Contact Mark Richardson, 3456.

### FMP READY FOR SNOW AND ICE ON CAMPUS

When snow and ice accumulate on main campus, warning signs are posted at entrances, and FMP's winter weather response crews promptly begin ice and snow treatment, often beginning as early as 1:30 a.m., shoveling walkways and spreading de-icing pellets and spray foam on sidewalks and campus roadways. Snow is plowed through the main south parking lots and traffic lanes connecting Eldon Schafer Drive and Gonyea Road. It takes four to five hours to treat the campus for ice remediation. Snow removal, even at two to three inch depths, will likely take six to eight hours on major sidewalks and roadways depending on the outside air temperatures and the rate of additional accumulation. Since the Eugene area is fairly temperate and does not get exposed to extreme winter conditions, FMP has limited equipment and treatment resources available to react to heavy accumulation of snow or widespread icy conditions and although the FMP Grounds and Trades teams do their best to remove ice and snow, due to the size of the campus, it is likely we won't get it all.

FMP's winter weather response team personnel are committed and take extra caution to work safely in cold, icy, and snowy conditions. Sometimes, severe weather conditions demand that work proceed slowly to reduce the risk of accidents and injuries. Extreme caution is strongly encouraged when cold wet weather occurs at all college campus locations. It is important that people wear appropriate footwear and gloves, use handrails, expect slick spots on cold mornings, and take extra precautions considering the conditions. Please refer to the campus snow and ice removal route map on the FMP website at <http://www.lanecc.edu/facilities/trades/grounds.html> that shows the campus walkways that are shoveled and the roadways treated with de-icer to help determine how best to navigate inner-campus after any winter weather storm accumulation. To report unsafe conditions or concerns, please call Facilities, Management and Planning at (541) 463-5216. Contact Dave Willis, 5566.

ADORABLE KITTEN NEEDS PERMANENT HOME: Allow us to introduce you to Belle, an 8-week feline love who has had all of her shots, and has already been spayed and micro-chipped. She is a short-hair domestic with a plush coat and Seal Point Siamese markings and her eyes are pools of light blue. She is quiet and thoughtful, and likes to take her time in warming up to new humans. Her hobbies are eating, dozing on laps, chasing small cat balls and wine corks, and purring from the very instant she is picked up and held. Belle was among 60 cats found in an abandoned warehouse in West Eugene, and was fostered in a private home. We are seeking permanent placement in a home with a loving family. She is an indoor only cat, cannot live with any single person or a family having a dog with a taste for chasing cats, or any cats already in

the household who have staked their claim and would not welcome her. If you are interested, email [mccullyr@lane.cc.edu](mailto:mccullyr@lane.cc.edu) and request a photo. A placement interview and home visit will be required. Belle has already been through enough trauma in her short lifetime, and deserves the very best from this point forward.

#### THE FIRST YEAR MATTERS: FOUNDATIONS OF EXCELLENCE

The Foundation Dimension Teams are beginning their work. During the term, we will engage in an intensive and comprehensive self-study of the experiences of new students at Lane. We will

evaluate our own policies and practices using the Foundations of Excellence (FoE) model and, based upon our findings, develop an action plan to improve learning, success and persistence. The FoE process promises to be an invigorating experience that will bring together multiple viewpoints about how new students experience Lane. This collaborative effort, along with our other student success initiatives, will help move us toward achieving our highest goals for all our students. Submitted by Lida Herburger.

#### ACHIEVE YOUR DREAMS THROUGH CONTINUING EDUCATION

Explore a new career in healthcare, massage, fashion design, or a wide spectrum of other fields. Express yourself in the arts, music, and dance. Plan your retirement and what comes next. Learn a new language. Diversify your fitness program. Cook up a storm. Log on to new technologies. You can learn from the comfort of your home or office with our online classes, or join us live on Lane's 30th Ave campus, the Downtown Center, 1059 Willamette St. or at sites provided throughout the county by our excellent community partners." For registration information call 5252 or visit our website - [www.lanecc.edu/ce](http://www.lanecc.edu/ce)

#### REMINDER: OFFICERS IN TRAINING

Public Safety will have Officers-In-Training on campus now to March 11. These officers will wear orange traffic vests, and uniforms or civilian clothes. They will also have photo IDs affixed to their clothing. If you see them out and about please say hello and welcome them to our campus. They will participate in rather rigorous academy (classroom), practical skill (skills), field training (with a field training officer), and testing before assuming their duties with LCC Public Safety. ADORABLE KITTEN NEEDS PERMANENT HOME: Allow us to introduce you to Belle, an 8-week feline love who has had all of her shots, and has already been spayed and micro-chipped. She is a short-hair domestic with a plush coat and Seal Point Siamese markings and her eyes are pools of light blue. She is quiet and thoughtful, and likes to take her time in warming up to new humans. Her hobbies are eating, dozing on laps, chasing small cat balls and wine corks, and purring from the very instant she is picked up and held. Belle was among 60 cats found in an abandoned warehouse in West Eugene, and was fostered in a private home. We are seeking permanent placement in a home with a loving family. She is an indoor only cat, cannot live with any single person or a family having a dog with a taste for chasing cats, or any cats already in the household who have staked their claim and would not welcome her. If you are interested, email mccullyr@lane.cc.edu and request a photo. A placement interview and home visit will be

#### VISITING SCHOLARS ON ISLAM LECTURE SERIES WELCOMES DR. JAMILLAH KARIM

Dr. Jamillah Karim of Spelman College in Atlanta will present two lectures on Thursday, February 2, both in the Center for Meeting and Learning, Building 19, Room 220. From 1-2:30 p.m. Dr. Karim will present, "The Nation of Islam: Radical Islam or American Religion?" Most people know the "Nation of Islam" by Louis Farrakhan and Malcolm X, both known for their radical, militant views. Dr. Karim will analyze the teachings of Elijah Muhammad, the original leader of the Nation of Islam, and Warith Deen Mohammed, his son and successor. She will explore the ways in which the two leaders negotiated black protest and conservative American values.

From 4-5:30 p.m. Dr. Karim will present, "Black Muslim Feminism: Sunni Muslim Women and the Nation of Islam." To understand the legacy of black feminism, or womanism, in Islam, one must begin with the Nation of Islam (NOI). Karim provides fresh ethnographic accounts of Sunni, or Orthodox, Muslim converts who explain why the Nation of Islam appealed to them, what it meant to be a woman in a patriarchal black nationalist group, and how their beginnings in the NOI continue to impact their Sunni Muslim identity. Karim's research particularly embraces the call for new methodologies in the field of womanist philosophy, ones that open womanist traditions beyond Christianity. The Nation of Islam, Karim argues, engaged race and gender as much as, if not more than, other movements that black women participated in the last century. The women who left Christianity for the Nation of Islam shared the same web of religious, educational, class, and racial experiences as the scholars and subjects of womanist theologies. Muslim women, therefore, fully embody the black feminist legacy, only channeling it in new directions.

Dr. Jamillah Karim is an associate professor in the Department of Religious Studies at Spelman College in Atlanta, GA. She obtained her Ph.D. in Islamic Studies at Duke University, and she specializes in Islam in America, women and Islam, and race and immigration. Dr. Karim is author of "American Muslim Women: Negotiating Race, Class, and Gender within the Ummah." She is currently writing her second book in collaboration with an American history scholar. Due out in 2013 by New York University Press, the book explores women's experiences and contributions in the Nation of Islam from the 1930s to the present. Dr. Karim has a blog entitled "Race+Gender+Faith." Contact: Clif Trolin.

#### KLCC MICROBREW FESTIVAL

Breweries will offer samples of their most popular brews and many specialty brews, such as Chamomellow from Buckman Brewery of Portland, Dragonstooth Stout from Elysian Brewing of Seattle, Vaporizer from Double Mountain Brewery of Hood River, and Hairy Eyeball from Lagunitas Brewing of Petaluma! And two hot blues bands will keep the party hopping all weekend long: Karen Lovely will rock the house on Friday, and Ty Curtis Band will shake things

#### CAREGIVING AS AN ENCORE CAREER

A Caregiving Career Conference is offered Wednesday, March 7, from 9 a.m. to 3:30 p.m. at the Center for Meeting and Learning. Author Lauren Kessler is the keynote speaker. Oregon's chronically high unemployment rate has been especially tough on older workers, says Barbara Susman, director of the Successful Aging Institute at Lane. Once they leave the job market or get laid off, it can be frustratingly difficult to find work. Caregiving is one career sector with openings. It's not for everyone and the entry level pay is not high but it can be personally rewarding, and some jobs provide health benefits.

The conference includes employers and panelists from several organizations.

Kessler, University of Oregon professor and author of the Pacific Northwest Book Award winner "Dancing with Rose," will talk about her experience as a professional caregiver.

## FIRST YEAR MATTERS

The First Year Matters: Foundations of Excellence self-study evaluation is comprised of nine aspirational principles of first-year excellence termed Foundational Dimensions.

Philosophy Dimension: Foundations Institutions intentionally cultivate learning environments for new students that emerge from a philosophy of two-year colleges as gateways to higher education. The philosophy is explicit and easily understood. It is consistent with the institutional mission, reflects a consensus of internal and external constituencies, and is widely disseminated. The philosophy is also the basis for organizational policies, practices, structures, leadership, and resource allocation to support the new student experience. Submitted by Lida Herburger.

## FACILITIES UPDATES

---

### WINTER COASTAL "HURRICANE" UPDATE

The heavy rain and strong winds gusting over 80 mph from last week's storm caused five trees to be blown down at the Florence campus. The site drainage improvements installed at the Siltcoos Station by Frank Drengacz and the landscape grounds team served the college well during this past week. Mark Richardson and a team of trades staff will visit Florence to do a thorough inspection of the campus facilities. The main campus and other campus facilities have experienced some roof leaks but appear not to have suffered much damage. The FMP trades staff provided campus sweeps each day during the storm to assure the tunnel sump pumps were all working. The storm water drains were draining, and the waste water treatment lagoons did not overflow. Great work FMP! Submitted by Dave Willis, 5566.

### SUMMER PROJECT PLANNING

FMP staff is now planning for summer projects. If you have a project that you need designed and planned, submit it now on a work order. Due to budgetary constraints, projects submitted later will receive less consideration. All projects with total costs exceeding \$25,000 must be received no later than March 15. Contact: Dave Willis, 5566.

### WELCOME JYOTI NAIK, LANE'S NEW CAMPUS ARCHITECT

Please join FMP in welcoming Jyoti Naik as the new campus architect. Jyoti will be leading the future Wayfinding Committee discussions for improvements, leading the effort to provide space

assignments in a timely fashion and per the new space assignment policy, participating in the campus safety and ADA committees, closing old building permits with the county, providing code reviews for larger projects, and potentially participating in master planning and overall facilities planning work. Jyoti will also have specific project assignment work. We in FMP are excited to have Jyoti Naik join Lane. She has many credentials which include being a licensed architect, building official, LEED AP, and a variety of design and project management experience in higher education. Welcome, Jyoti! Contact: Dave Willis, 5566.

#### WORK ORDER REQUESTS

Due to budgetary constraints, only urgently needed top priority safety and regulatory compliance items will be worked on through June 30. If you have a funding source, include the FOAP number on the work order and it will be prioritized higher. During the late fall, winter, and spring, the number of backlogged work orders increase due to lack of trades teams staffing. FMP will plan to hire seasonal temporary staff to complete many of them during the summer months when there is more access to the campus spaces. Contact: Dave Willis, 5566.

#### CUSTODIAL SERVICES UPDATE

Until further notice, all custodial issues that need management support shall be referred to Dave Willis. On-call custodians are being hired and trained. If you know of someone that would like to interview for this on-call custodian position, please refer them to the college employment web site to fill out an application. Contact: Dave Willis, 5566.

#### TRADES ACTIVITIES

Now into January, all temporary staff members have been laid off for the winter. Each one of the FMP departments is working with limited staff and reduced funding. Work orders are being completed as time allows but most of the focus is on safety or emergency-related items. To make sure the work order process is effective, make sure a request is submitted on the website and avoid contacting the trade departments directly.

FMP has started the process of implementing a new CMMS (Computerized Maintenance Management System) that is expected to replace the current MPlus maintenance system. Staff has spent months gathering information to enter into the new maintenance system. Around March 1, work requests submitted online will be processed through the new system. Training and technical support will also be available at this time. Contact Mark Richardson, 3456.

#### PROJECT UPDATES—

##### BUILDINGS 10 AND 11

Building 10 painting and ventilation problems are being addressed but it is expected to take additional time. Issues with the exterior painting have been resolved, and the guard rails will be repainted this summer. Contact Mark Richardson, 3456.

##### DOWNTOWN CAMPUS PROJECT

Schedule: The continuing rainy, windy weather has caused some exterior activities such as the roofing membrane over the housing building and the concrete topping slab at the roof of the academic building to be rescheduled. The tower crane had to be shut down for a time due to high winds. The time lost can be made up later when the weather clears.

Academic Building: Mechanical, electrical and plumbing rough-in continues.

Housing Building: About 25 percent of the exterior windows have been installed and the contractor is beginning to install the interior doors. Mechanical, electrical and plumbing rough-in continues. Last week, installation of the steel structure at the main entrance (atrium) to the Housing Building began. The topping slab on the east wing was to be poured. The south

wing roof deck slab was to be poured. The exterior wall framing was 40 percent complete and the interior wall framing was at 50 percent complete. Electrical and mechanical rough-in was 60 percent complete. Framing work on the passive air ventilators began.

In the Housing Building, the contractor continued to apply the "blue-skin" vapor barrier to the exterior of the building and continued to install windows. Sheathing of the exterior walls of the podium was started. Electrical wiring began at the sixth floor level and was down to the fifth floor. Plumbing rough-in was 95 percent complete. The project is still on schedule and within budget.

See what's happening now: Watch the Downtown Campus construction via the webcam, updated hourly between 8 a.m. and 8 p.m. at <http://www.lanecc.edu/dc/video.html> Contact Bob Mention, 5747.

On January 28, the Lady Titans (15-4, 5-1) had 49 points off the bench and outrebounded Portland 68-38 for a huge win on Saturday. Lane scored 50 points in the second half, while holding Portland to only 15 points for a 101-47 victory. Two Lady Titans had double-doubles to help the cause with Danielle Schmidt scoring 20 points and pulling 10 rebounds, and Joleen Chanco scoring 17 with 12 rebounds. #### TITAN HOOP NEWS

Results for February 1 games:

WOMEN - The Lane Women's Basketball team shot an impressive 45 percent from the field and an even more impressive 41 percent from 3-point range in a big 98-43 win over the Lakers on Wednesday. Lane had 43 points off of turnovers with six women scoring in double figures. Reed Levings led the way with 18, and Megan Shields had a double-double with 15 points and 12 rebounds.

MEN - Lane Men's Basketball team overcame a three-point deficit at half time to upset SWOCC Lakers 92-89. Shooting 47 percent from the field and 50 percent from three-point range allowed the men to come back with 50 in the second half to bring a three-game winning streak back home for the next two games. Four Titans scored double-figures with Tyler Coleman having a big night with 19 points, 5 rebounds, and 5 assists. Nick Lindsey also added 19 with 6 rebounds, Levi Stranberg got 18 points, and Alec Breazeale scored 15 with 6 assists.

Results for February 4 games:

WOMEN - Twin sisters Kersey and Jordan Wilcox combined for 30 points to lift the Lady Titans to a 79-46 over the Saints on Saturday. Reed Levings had a big night with 6 points, 9 rebounds, and 6 assists. Lane led 38-21 at half-time and never looked back to move to 17-4, 7-1 on the year and stay tied for first in the South Region with Clackamas. The Lane women will play at home again against Linn-Benton (10-11, 3-5) on Wednesday, February 8 at 5:30 p.m.

MEN - Despite only being down 41-40 at half-time, Lane's Men's Basketball team came up short in an 86-73 loss against Mt Hood Saturday night. The loss snaps a three-game winning streak the Titans had going into the night, and puts them at 9-11, 3-5 on the year. Tyler Coleman led all scorers with 28 points on the night, and Nick Lindsey also had some big contributions with 23 points and 7 rebounds. Most of Mt Hood's success came from second chance points by outrebounding Lane 43-29. The men will play at home against Linn-Benton (10-9, 6-2) on Wednesday, February 8 at 7:30 p.m.

#### MARY SEEREITER INSPIRES DANCE DONATION

Student and community member Pat Frishkov has made a \$500 donation to the dance program in honor of Mary Seereiter. "It's a tribute to Mary's excellence in teaching that we get gifts like these," says Foundation Director Janet Anderson. In a letter, Pat wrote: "I have taken Mary's Authentic Movement class each of the last two years. They have provided significant fun and healing for me. And I love the new studio. It even has cubbies along the windows, on which folks like me can take naps during day-long workshops. LCC is a treasure in our community and the strength of its dance department is a part of that resource." Contact: Janet Anderson.

#### FACULTY LEAD GENERAL EDUCATION ASSESSMENT AT LANE

Lane faculty, in conjunction with the Assessment Team, have been engaged in and supporting faculty lead General Education Core-Outcomes Assessment since 2006. This assessment work has occurred in two forms, institutional-wide Gen Ed core-outcomes assessment using faculty provided student projects (artifacts) with scoring teams using core-outcomes rubrics, and in individual projects in which faculty focus on developing and assessing core-outcomes learning in their own classes. The latter approach has led to productive faculty self-reflection and lively meetings and dialogue between faculty across Gen-Ed disciplines. For the next few weeks we would like to share some of the faculty reflections generated by this process. The information here is part of the 2010-11 Gen Ed Project synthesis, which will be available soon on the Lane Gen Ed website at: <http://www.lanec.edu/assessment/index.html>

If you have any questions about Gen Ed assessment at lane, please contact JS Bird at [birdj@lanec.edu](mailto:birdj@lanec.edu) Here are some comments:

\*...using the (core-outcomes) rubric keeps these concepts at the forefront of my mind when designing assignments and activities, even if I don't use it specifically for grading. I continue to work with the rubric, at least in principle, for group projects and directed writing. I often post the rubric or some modification to my moodle site, or share it with students in some way each term."  
-- Denise Couch, Social Science

\* (The rubric) forced me to reevaluate the means by which I grade my students, to make my 'internalized rubric' externalized...become more articulate in what I wanted...and more rigorous in my assessment. It made me reflect on each aspect of the assignment and how I was going to grade it. I found myself sharpening definitions and providing more examples of what I was looking for. I will continue to use all of them (new definitions) in some form...they were helpful in the articulation of effective communication..." -- Jose Chaves, LLC

\* The rubric...gave me a new language to assess student outcomes on a particular assignment.... I may decide to focus on a different reading as a result of this assessment. In the future I will spend more time working on writing thesis statements with students.... I found the students needed more attention establishing a clear thesis." -- Jennifer Von Ammon, LLC

#### IDENTIFYING AND MANAGING ASPERGER'S IN THE CLASSROOM

A webinar, "Identifying and Managing Asperger's in the Classroom," will be held Friday, February 10, from 10-11:30 a.m. in Building 2, Room 213. Notify Nancy Hart to sign up if you plan to attend. There will be additional opportunities to watch the recording of this webinar... individually or in groups, for up to a year. The link will be distributed after the live showing. Here is the description of this presentation:

Let's face it. There are some students we work with in the classroom that present a challenge to faculty. Professors increasingly are asked to assess for suicide, sort out what is disruptive and what is dangerous, as well as handle odd and strange behavior with a sense of grace and equanimity. These are not easy tasks for anyone.

This presentation will address the issue of Asperger's, a developmental disorder with which a growing number of college students have been diagnosed. Students can request accommodations in the classroom but often they refuse to talk about their problem or ask for help. Moreover, each student has different experiences with the disorder.

Dr. Brian Van Brunt will review the common symptoms of Asperger's disorder and discuss how these most commonly manifest in the classroom setting. Participants will learn referral and management techniques to assist the professor in providing these students assistance while meeting the required legal standard of ADA. Practical tips and advice to prevent stress and burnout that can occur when working with these students will also be presented.

This presentation will be unique and practical given Dr. Van Brunt's personal experience both in treating students with Asperger's disorder in therapy as well as having taught for over a decade in various classroom settings.

Dr. Brian Van Brunt serves as the director of counseling at Western Kentucky State University. He is the president of the American College Counseling Association for the 2010-2011 term. He has worked in higher education for more than 12 years. He consults and presents nationally on a variety of counseling topics in higher education. He has spoken to faculty and staff on the topics of mental health, forensic threat assessment, suicide prevention, compassion fatigue, classroom disruption and identifying and managing aggression. He has contributed to and been in quoted in the LA Times, New York Times, USA today, Newsweek, NPR and Anderson Cooper 360. His website is [www.brianvanbrunt.com](http://www.brianvanbrunt.com)

#### SUSTAINABILITY PLAN VISIONING SESSION

Lane is a leader in campus sustainability. We recycle more, use less energy, grow more of our own organic produce, and have more students in sustainability-related courses and programs than most other schools. Yet, we are not truly a model of ecological, social, and economic responsibility. The Sustainability Committee would like to invite you to help Lane create a vision and the outline for a Sustainability Plan that will truly get us where we need to be, beyond recycling, water and energy savings to the full breadth of the core value including regional connections, economic systems, and social justice. Please attend our facilitated visioning session on Monday, February 13 from 2:30-5:30 pm in CML 220. Light snacks and beverages will be provided. RSVP to Jennifer Hayward via e-mail by Wednesday, February 8. Contact: Jennifer Hayward.

#### SOROMUNDI CONCERT TO BENEFIT WIT

A benefit concert for Lane's Women in Transitions program will be presented by Soromundi, Lesbian Chorus of Eugene, on Saturday, February 18, at 7:30 p.m. in the Ragozzino Performance Hall, Building 6. Tickets are \$12 (\$10 seniors and students) and are available at the door, at the Women's Center front desk, and online at [lanecc.edu/tickets](http://lanecc.edu/tickets) beginning February 8. All proceeds directly support the Women in Transition program. Contact: Barbara Delansky, 5337.

#### READING TOGETHER 2013 BOOK SELECTION RECOMMENDATIONS SOLICITED

This is a call for recommendations for the book choice for 2013. Each year the Reading Together project selects a book that the college community can read together. This year, the project hosted renowned author, Barry Lopez, in early October to kick off a year of reading "Vintage Lopez," an anthology of several of Lopez's essays and short fiction. The RT project supports a selected book by offering opportunities:

- for students: participation in conversation with the author during a two-day author visit to campus in large Q&A sessions and small group visits;
- for faculty: curriculum development funding, workshops and seminars, access to a bank of RT assignment suggestions, and partnerships with learning projects and initiatives;
- and for the college campus and community at large: an evening reading and lecture by the book's author hosted by the college.

Please send your title recommendation, with a short explanation of support for the selection committee to consider, to RT coordinator Eileen Thompson's email at [thompson@lanecc.edu](mailto:thompson@lanecc.edu) by Tuesday, February 21.

For more information about the RT project and past book selections, see the website at [lanecc.edu/readingtogether](http://lanecc.edu/readingtogether)

#### BLACK STUDENT UNION CELEBRATES BLACK HISTORY MONTH

Students from Lane's Black Student Union will honor the history of Black Americans by sponsoring two shows highlighting African American creativity. The first show will be held at the longhouse on February 24 from 5-8 p.m. and will feature Teju Olabongi whose performances bring to life the spirit of Africa through words, dance and music. A light meal will be served. The following Sunday, the BSU will partner with the African American special emphasis unit of the Roseburg veterans health care system, to salute African American military service to our country as well as celebrate the accomplishments of African American musicians of the 20th century. "SALUT: Celebrating African American Musicians of the 20th Century," will take place at the Ragozzino Performance Hall, Building 6, from 4-5 p.m. on Sunday February 26. Both events are open to the public and free of charge. Donations can be made out to the BSU Foundation/BSU Scholarship Fund by contacting Tina Lymath at [lymath@lanecc.edu](mailto:lymath@lanecc.edu)

A Moroccan Feast for the Senses," on Thursday, March 1 from 5-9 p.m. at the Center for Meeting and Learning. Hadshi Bneem means, "This is delicious." A variety of entertainments will be included. #### CAREGIVING AS AN ENCORE CAREER

A Caregiving Career Conference is offered Wednesday, March 7, from 9 a.m. to 3:30 p.m. at the Center for Meeting and Learning. Author Lauren Kessler is the keynote speaker. Oregon's chronically high unemployment rate has been especially tough on older workers, says Barbara Susman, director of the Successful Aging Institute at Lane. Once they leave the job market or get laid off, it can be frustratingly difficult to find work. Caregiving is one career sector with openings. It's not for everyone and the entry level pay is not high but it can be personally rewarding, and some jobs provide health benefits. The conference includes employers and panelists from several organizations. Kessler, University of Oregon professor and author of the Pacific Northwest Book Award winner "Dancing with Rose," will talk about her experience as a professional caregiver.

The cost is \$10 and includes a hot buffet lunch. Registration is open online at [lanecc.edu/sai](http://lanecc.edu/sai) or by calling 4634. Conference information is online at [http://www.lanecc.edu/sai/documents/Page53fromCommEd4C\\_Winter2012\\_1.pdf](http://www.lanecc.edu/sai/documents/Page53fromCommEd4C_Winter2012_1.pdf)

#### PI DAY CELEBRATION: ALL-CALL FOR PIES (THE EATING KIND)

Pi Day is 3.14 (March 14). In honor of Pi Day, the Math Division, AAWCC, and TRiO STEM will sponsor several activities. First, on March 14 (3.14), we plan to hold a bake-off contest with homemade pies. All bakers will receive a free Pi Day Celebration T-shirt. We would like participants to bake two pies. Second, beginning March 1 (3.1) to 3.14, we will have a canned food drive for Food for Lane County. Our goal is to collect 314 food items. We hope to see the pile of non-perishable food items grow in circumference. More information about Pi Day activities and the location of the food drive will be in future Weekly announcements. If you would like to participate in the pie bake-off on Pi Day or have questions, email Carol McKiel at [mckielc@lanecc.edu](mailto:mckielc@lanecc.edu) or call 3132.

During the symposium we'll need volunteers to help set up and take down, greet guests, work registration tables, etc. If interested, contact Amy Gaudia at 5919 or Ruth Wren at [wrenr@lanecc.edu](mailto:wrenr@lanecc.edu) For more info about our work: <http://lanecc.edu/peacecenter>

#### HALF OF NEW STUDENTS HOLD DOWN JOBS WHILE GOING TO COLLEGE

When 1,038 new Lane students taking the Foundations of Excellence survey last fall were asked the average number of hours they spent per week working for pay during the current term, 48.2 percent (500) answered none, 197 (18.9 percent) reported 1 to 15 hours, 286 (20.7 percent) said they worked between 16 and 30 hours, and 12.2 percent (127) stated they worked more than 30 hours per week. Submitted by Lida Herburger.

#### NATIONAL REPORT: A FIRST LOOK AT PROMISING PRACTICES IN COMMUNITY COLLEGES

"A Matter of Degrees: Promising Practices for Community College Student Success," is the first in a series of reports by the Center for Community College Student Engagement exploring 13 promising practices for strengthening community college student engagement and success. The report presents key findings from a multi-year center initiative, "Identifying and Promoting High-Impact Educational Practices in Community Colleges," and brings together survey responses from entering students, experienced students, faculty, and institutions. Data sources include results from recent Survey of Entering Student Engagement (SENSE) and Community College Survey of Student Engagement (CCSSE) administrations, the SENSE and CCSSE 2011 special-focus items on promising practices, and the Community College Faculty Survey of Student Engagement (CCFSSE) three-year cohort, plus preliminary findings from the newly launched Community College Institutional Survey (CCIS). Lane participates in this initiative. Submitted by the editor.

## FACILITIES UPDATES

---

### CUSTODIAL SERVICES UPDATE

Four on-call custodians were hired last week. They join the other six on-call custodians and provide a resource that can be called upon to back-fill for other custodians that take accrued paid leave. We now have a solid on-call resource for immediate urgent cleaning needs. This helps to assure that the cleaning services at the campus are maintained at minimal baseline standards. Janet Martin and Craig Kulm are doing a great job coordinating the entire custodial staff. Thank you, Janet and Craig.

### URGENT REQUEST

Recently, we have had a great number of plastic water bottles, diapers, and other items crammed into our toilets and flushed. This creates a huge mess and cost. As an example, last Monday, one of the FMP maintenance technicians spent six hours just going from one toilet to another removing trash, water bottles, other bottles, and diapers from the backed up toilets. In many cases, people continue to use the toilets after they are jammed up with trash. FMP needs

your help in reporting suspicious behavior to Public Safety at extension 5558. This has to stop. All issues associated with cleaning services should be directed to Dave Willis at extension 5566.

## WORK ORDERS

Now into January, all temporary staff members have been laid off for the winter. Each one of the FMP departments is working with limited staff and reduced funding. Work orders are being completed as time allows but most of the focus is on safety or emergency-related items. To make sure the work order process is effective, make sure a request is submitted on the website and avoid contacting the departments directly. Some work order and work requests that have been in the system for a long period of time might have been canceled. This was done because it is believed that the work might have been completed or weather related. If a work request has been canceled in error, please resubmit a work order. Before you resubmit a new work order, remember if the work is weather related, like painting, it could be postponed until summer.

## SUMMER 2012 FACILITIES PROJECT REQUESTS DUE FEBRUARY 15

If you have a summer facilities-related project that needs any support from the trades staff, please submit a work order request to Facilities by February 15. Requests include grant funded projects that need construction, renovations, or remodels. This includes anything you have money to fund from your department budgets for projects you want to have completed. Projects received after February 15 may not be prioritized for this summer and may have to wait until winter break. FMP hires temporary staff in May or June for this work. Larger projects require design, then bidding, and often a presentation to the college's Board of Education. We are fast approaching the time of which we cannot support larger projects for this summer. For example: Larger projects often take four to eight weeks to design, an additional six to eight weeks for the formal bid processes, and preparation of information to present to the board two weeks prior to the meeting. For questions, contact Dave Willis, extension 5566.

## TRADES PLAN WORK TO COMPLETE DURING THE SPRING AND SUMMER BREAKS

FMP Trades are now planning project work to be completed during spring break. Projects being considered for completion over the break are determined by the amount of work being requested, the location, and time necessary to complete project. It has been FMP's practice to coordinate and complete larger project submissions while faculty and students are on break and off campus. Work orders submitted containing smaller maintenance items are completed by priority level much like outlined below:

## TRADES UPDATES:

### CARPENTRY SHOP: OPEN WORK ORDERS, 374

On average, the Trades carpenters are completing 15 work orders per week. This week the crew will be working to relocate office staff from Building 24 into the Building 13 annexes. Other project work planned for completion this week include cabinetry installation in Building 11, some access control system improvements, and safety related work orders. Also, summer projects are being planned.

### PAINTING SHOP: OPEN WORK ORDERS, 188

Work orders requesting exterior painting have had to be placed on hold until outdoor temperatures increase. During the colder winter months, the majority of painting projects include small projects and response to graffiti removal work. The Painting team has placed three items on their list of work orders to complete during the week of spring break. They have also started the process for planning their summer break project work. The three areas planned for completion during spring break include the Art Gallery in Building 11, staff offices in Building 17,

and the David Joyce Gallery in Building 19. Additional requests received for interior painting are scheduled according to the accessibility and available staff hours.

#### ELECTRICAL SHOP: OPEN WORK ORDERS, 381

Electrical crews are responding to burned out light bulbs across campus and issues with building access control which, together, can account for up to 50 percent of their work week. The focus over the next week will include electrical services associated with relocating staff in an area which includes replacing the floor covering in Building 24. Currently, the electrical department responds to an average of 15 work order requests per week.

#### GROUNDS SHOP: OPEN WORK ORDERS, 36

Over the winter holiday break 2011, many London plane trees were removed due to the pollen produced that caused many IEQ issues. The Grounds team is now in the planning stage for replacing the trees with a known native species. In addition, the crew is tasked with making upgrades to the irrigation system to support the planting of new trees, and improvements to the mature and aging planting beds in the core of the main campus. For questions, contact Mark Richardson at 3456.

#### BOND PROJECT UPDATES:

##### BUILDINGS 10 AND 11

Building 10 directional information signs (way finding) are in production and should be installed within the next few weeks. Directional signs for Building 11 are in the drafting stage and will be completed in March.

#### DOWNTOWN CAMPUS PROJECT

The return of better weather last week saw increased construction activity at the Downtown Campus. The weather prediction for this week is for more of the same which means that those activities affected by the inclement weather will get back on schedule.

**Residential Housing:** The contractor has started applying roof insulation. Installation of the roofing will follow. Application of the vapor barrier (Blueskin) on the building's exterior is almost complete. Window installation is moving ahead and the building envelope will be weather-tight shortly. The next major activity will be pouring a thin non-structural slab of "Gypcrete" over the plywood subfloors. This slab will reduce sound transmission between floors and provide a level surface for the finish flooring.

**Academic:** The atrium structure and steel decking continue to go up. Metal framing of exterior and interior walls continues as does MEP rough-in. The roof slabs, insulation and roofing will be poured and applied over the next few weeks.

Last week, adverse weather conditions let up a bit at the beginning of the week and allowed the contractor to do some catch up work. There are many construction activities in each of the large buildings. Some of the activities, such as roofing, welding in exposed areas, and exposed concrete pours, are directly affected by the weather while other activities such as interior framing and MEP (mechanical, electrical, and plumbing) lines are in more sheltered parts of the building and thus less affected. Obstacles aside, the contractor continues to work wherever possible this week.

Some major pieces of equipment have been received and placed - boiler, generator and electrical switch gear mains. Some college facility trades staff have been touring the building to become familiar with the new equipment and routing of MEP lines.

See what's happening now: Watch the Downtown Campus construction via the webcam, updated hourly between 8 a.m. and 8 p.m. at <http://www.lanecc.edu/dc/video.html> . Contact Bob Mention, 5747.

IN MEMORY AND THANKS

From Andy McClure: On Friday, February 10 at 10:30 a.m., my mom passed away. My father and sister were present. After an over 10-year battle with dementia/Alzheimer's, she was at home, and now she is on the great stage of the universe. A private funeral service will be held later in the week, and also a Memorial on March 18 in the afternoon at the Shedd (time to be determined) for all who knew her and would care to share their experiences. Thank you to the LCC community for the teaching and acting experience my mother had during her time here, and all those who touched her life, who are here and those who have passed before us, and the support in this time of loss. - Andy McClure

#### INSTRUCTOR SEAN HAYES TO TEACH AT SWORDPLAY SYMPOSIUM

Sean Hayes, a long-time fencing and martial arts instructor at Lane, has been invited to deliver a workshop and lecture on the medieval martial art of Armizare at the Symposium of the Western Arts of Swordsmanship through History on February 25-26. The symposium is co-hosted by the Royal Armouries and the British Federation for Historical Swordsmanship at the Royal Armouries Museum in Leeds within the U.K. Armizare is a 600-year-old martial arts system employing hand-to-hand techniques, dagger, sword, spear, and poleaxe. Hayes has taught Armizare at martial arts conferences in the United States, Canada and Europe. Read the full story and see photos online at: <http://www.lanec.edu/mpr/news/rei01499.htm>

#### BIOLOGY INSTRUCTOR LISA TURNBULL COMPETES IN PARALYMPICS

Lisa Turnbull recently competed in her first Paralympics with tandem bicycling partner Karissa Whitsell, who is vision impaired. Lisa is the pilot. "The pair started training together in 2007 but did not form a firm partnership until last year, when Turnbull received sabbaticals from her positions at the University of Oregon and Lane Community College," according to The Register-Guard. "I'm passionate about my teaching, as well, and it's always been difficult to balance cycling and teaching, especially with the travel involved," Turnbull said. "Paracycling can be challenging because our activities are year-round."

#### THEATER STUDENT WINS FIVE ACTING AWARDS

On a whim, Lane student Mathew Bostrom of Eugene decided to perform at the Los Angeles International Performing arts contest in January 2012. He won fifth place twice, for singing, and for acting in a scene; second place in the monologue category; first place for acting in a commercial; and finally, first place in overall acting. Lane theater instructor Sparky Roberts says Mathew had never performed Shakespeare before she cast him as Tranio in her spring 2011 production of "Taming of the Shrew." Yet, she says, "Everyone who commented on the show had something admiring to say about Mathew."

The young drama student attributes his success to his drama instructors at Lane. "Sparky takes the language of Shakespeare and makes it believable," he says, while Patrick Torelle "taught me about physicality and method acting." Read the full story and see photos online at:

## TITAN BASKETBALL RESULTS

February 8:

WOMEN - From The Register-Guard 2/9/12: Lane moved into sole possession of first place in the South Region of the Northwest Athletic Association of Community Colleges women's basketball standings with a 77-54 victory over Linn-Benton on Wednesday night. The win was the sixth in a row for the Titans (18-4, 8-1), who took over the top spot when Clackamas lost to Chemeketa. Kersey Wilcox led Lane with 23 points, seven assists and six steals, and Danielle Schmidt added 21 points and six rebounds. Reed Levings also had a solid game with eight points, eight rebounds, seven steals and six assists.

MEN – From The Register-Guard 2/9/12: Tyler Coleman led a balanced Lane scoring attack with 16 points as the Titans rolled to a 72-55 NWAACC men's basketball victory over visiting Linn-Benton on Wednesday night. Levi Stranberg added 15 points, and Alexander Coleman came off the bench for 14 points and seven rebounds. Lane outscored the Roadrunners 38-21 in the second half while shooting 50 percent from the field.

February 11:

WOMEN - With some high shooting percentages, the Lady Titans (19-4, 9-1) beat Chemeketa 80-71 to stay atop the Southern Region on Saturday night. It took 51% from the field and 65% from 3-point range for Lane to come back from a 4 point deficit at half-time and beat the only team that's beaten them in Conference play. Four women were in double figures with Reed Levings leading the way with 21 points. Megan Shields had 19 points and 7 rebounds, while Kersey Wilcox also had a big night with 17 points, 6 rebounds, and 7 assists, and Danielle Schmidt adding 11 of her own. Lane's 7-game winning streak returns home on Wednesday, 2/15 @ 5:30pm against SWOCC (10-12, 4-6).

MEN - The Lane Men's Basketball team (10-12, 4-6) had some low shooting percentages and twenty turnovers in a 59-72 loss to Chemeketa on Saturday night. Despite 22 points and 5 rebounds from Tyler Coleman and Lane's 38 second-half points to Chemeketa's 39, the Storm was too strong throughout and continue to hold their second-place standing in the South Region. Lane returns home on Wednesday, 2/15 to play SWOCC (13-10, 5-5) @ 7:30pm, who they beat by 3 in the last outing.

## READING TOGETHER RECOMMENDATIONS NEEDED BY FEB. 21

This is a call for recommendations for the book choice for 2013. Each year the Reading Together project selects a book that the college community can read together. This year, the project hosted renowned author, Barry Lopez, in early October to kick off a year of reading "Vintage Lopez," an anthology of several of Lopez's essays and short fiction. The RT project supports a selected book by offering opportunities:

- for students: participation in conversation with the author during a two-day author visit to campus in large Q&A sessions and small group visits;
- for faculty: curriculum development funding, workshops and seminars, access to a bank of RT assignment suggestions, and partnerships with learning projects and initiatives;

- and for the college campus and community at large: an evening reading and lecture by the book's author hosted by the college.

Please send your title recommendation, with a short explanation of support for the selection committee to consider, to RT coordinator Eileen Thompson's email at [thompsons@lanecc.edu](mailto:thompsons@lanecc.edu) by Tuesday, February 21.

For more information about the RT project and past book selections, see the website at [lanecc.edu/readingtogether](http://lanecc.edu/readingtogether)

A light meal will be served.

#### CAREGIVING AS AN ENCORE CAREER

A Caregiving Career Conference is offered Wednesday, March 7, from 9 a.m. to 3:30 p.m. at the Center for Meeting and Learning. Author Lauren Kessler is the keynote speaker. Oregon's chronically high unemployment rate has been especially tough on older workers, says Barbara Susman, director of the Successful Aging Institute at Lane. Once they leave the job market or get laid off, it can be frustratingly difficult to find work. Caregiving is one career sector with openings. It's not for everyone and the entry level pay is not high but it can be personally rewarding, and some jobs provide health benefits. The conference includes employers and panelists from several organizations. Kessler, University of Oregon professor and author of the Pacific Northwest Book Award winner "Dancing with Rose," will talk about her experience as a professional caregiver. The cost is \$10 and includes a hot buffet lunch. Registration is open online at [lanecc.edu/sai](http://lanecc.edu/sai) or by calling 4634. Conference information is online at

[http://www.lanecc.edu/sai/documents/Page53fromCommEd4C\\_Winter2012\\_1.pdf](http://www.lanecc.edu/sai/documents/Page53fromCommEd4C_Winter2012_1.pdf) Contact: Tina Dresser, [dressert@lanecc.edu](mailto:dressert@lanecc.edu) or call 4634.

#### PI DAY CELEBRATION – FOOD DRIVE FOR FOOD FOR LANE COUNTY

Pi Day is 3.14 (March 14). In honor of Pi Day, the Math Division, AAWCC, and TRiO STEM are sponsoring a food drive for Food for Lane County. Leading up to Pi Day and beginning March 1, divisions/departments will collect canned food with the goal of reaching 314 items. On Pi Day, March 14 (3.14), we plan to have the culminating event – a pie bake-off outside the Math Division office in Building 16. Anyone donating a can of food will get a piece of pie and then can vote for their favorite pie. We still need a few more people willing to donate a couple pies. Pie bakers will receive a free T-shirt. If you would like to participate in the pie bake-off on Pi Day or have questions, email Carol McKiel at [mckielc@lanecc.edu](mailto:mckielc@lanecc.edu) or call 3132.

#### FACILITIES UPDATES

#### COMPUTERIZED MAINTENANCE MANAGEMENT SYSTEM (CMMS): MEGAMATION UPDATE

We are working to improve our service to the campus and plan to roll-out a superior work request system spring term. Stay tuned for training date announcements, coming in March. In

the mean time, we hope to minimize data entry as we transition to the new system, so we are closing and/or canceling many work orders, with the following points in mind:

- \* Any proposed changes to building design have to go through our planning process.
- \* Facilities Management and Planning has no funding for anything other than Priority One Safety/IEQ/Regulatory Compliance/Functional Infrastructure Repairs through FY12.
- \* As mentioned, we are moving to a new work order system spring term which will help us improve communication, scheduling work, and efficiency of our services.
- \* Major requests that include new walls, renovating interior spaces, new flooring, etc., and which need to be scheduled for summer project work, should still be requested as a work request in MPulse by February 15. In most cases, due to limited budgetary resources, the costs will need to be charged to your department FOAP number. All grant improvements that require FMP staff resources are to be included in the request. FMP Leadership is working directly with Academic and Student Affairs Leadership to verify that our priorities continue to be aligned with the overall instructional mission of the college.

If you have full department funding for your work request (including possible additional labor costs), please submit a new work order request with a FOAP to charge. Otherwise, please help us in this transition from one system to another and wait to resubmit any canceled work orders until June 2012 for consideration in FY13. For further information, contact Mark Richardson (3456), Russ Pierson (5727), or Dave Willis (5566).

#### TRADES UPDATES:

##### CARPENTRY SHOP: OPEN WORK ORDERS, 352

Two IEQ projects are requiring extra time; therefore, fewer than anticipated work orders will be completed this week. Two high-priority projects will be the primary focus next week which include addressing the access control issues that exist in some buildings, and installing needed hand rails in the Center building.

##### PAINTING SHOP: OPEN WORK ORDERS, 164

The Painter's focus for the week will be managing IEQ issues in two buildings, and repainting numerous custodial supply closets. Planning and preparations continue for projects that will be completed this summer. The painting summer project list keeps growing and includes work that was left over from last year.

##### ELECTRICAL SHOP: OPEN WORK ORDERS, 314

The Electricians have several work orders that concern lighting issues in various classrooms. The crews will be working towards repairing or replacing bulbs or fixtures wherever necessary. FMP Electricians play an active role in repairing access control issues that occur on campus. This week, research and troubleshooting will be performed to attempt to identify the cause for a number of repeating failures we are encountering with some doors.

##### MECHANICAL HVAC: OPEN WORK ORDERS, 65

FMP HVAC technicians are responding to an increased level of temperature control issues in several buildings. Outside assistance has been brought in to help resolve fluctuating temperature reported in the Center building. The number of reports submitted prompted HVAC staff to focus their attention on isolated areas that narrowed the search down to two buildings. Contact Mark Richardson, 3456.

#### BOND PROJECT UPDATES:

##### DOWNTOWN CAMPUS PROJECT

In short the project is still on schedule and remains within budget. It may be more interesting to talk about construction scheduling in general rather than reciting a list of incremental additions to various construction activities.

In brief layman terms, construction scheduling involves dividing large, complex projects into hundreds of activities each of which takes a certain amount of time, labor and material to complete. Then, the activities must be put into a certain sequence since, for example, painting can't start until there is a surface in place to paint. At this point the activities can be prioritized and a so called Critical Path emerges. The critical path is composed of activities linked together to form a continuous time line from the start of construction to the end. One activity starts when its predecessor ends. Less critical activities go on along side the critical path activities. Meeting a project time schedule depends on keeping critical activities on schedule.

See what's happening now: Watch the Downtown Campus construction via the webcam, updated hourly between 8 a.m. and 8 p.m. at <http://www.lanecc.edu/dc/video.html> Contact Bob Mention, 5747.

#### AARP GRANT WILL HELP OLDER WORKERS

The AARP Foundation has awarded \$200,000 for the Plus+ Project, a two-year project to put people ages 50+ back to work by increasing their skills, connecting them to employers, and addressing financial instability. Partners are Enterprise Contact Center, Royal Caribbean Cruise Lines, Lane Workforce Partnership, Lane Community College, and Goodwill Industries Prosperity Center.

Lane will provide Reservation Sales Representative training to 100 low income and long term unemployed workers. Goodwill Industries will provide Prosperity Planners to help develop a financial stability plan addressing debt reduction, financial planning and budgeting, savings and investments, and Royal Caribbean and Enterprise will serve on an advisory board, provide speakers for classes and will interview successful completers. Both Royal and Enterprise are hiring new employees on a regular basis. Lane Workforce Partnership is the fiscal agent and will coordinate the activities of the grant. Classes begin spring term. For more information contact WorkSource Oregon at Lane at 5223. Contact: Dawn DeWolf.

#### WORKING WITH STUDENTS WHO ARE CONCERNED ABOUT THEIR GRADES?

Encourage students to attend the Making Wise Choices workshop. This workshop will provide students with sound advice to make the best decision regarding their grading options. The answer may not be as simple as withdrawing or changing their grade to an audit. These decisions can have serious consequences. Making Wise Choices educates students on GPA calculation and the various grading options, including pass/no pass, withdrawals, and incomplete grades. We will review NEW Financial Aid expectations for satisfactory academic progress (SAP); provide information on campus support services; and step students through a decision making process designed to help them make wise choices. All before March 2, the final day to make schedule changes for winter term.

Please share the Making Wise Choices information with any students you think would benefit from this workshop. Encourage students to bring their transcripts with them. Thank you for your assistance!

Making Wise Choices Workshop schedule:

- Tuesday, February 28 from 2:30-3:20 p.m. in Building 30, Room 213
- Wednesday, February 29 from 1:00-2:20 p.m. in Building 30, Room 114J
- Thursday, March 1 from 1:00-1:50 p.m. in Building 19, Room 234

The Making Wise Choices workshop is a joint effort between Counseling, Enrollment and Student Financial Services. It is brought to you by the SAGA Committee. Submitted by Christina Salter.

#### FACULTY LEAD GENERAL EDUCATION ASSESSMENT AT LANE

Lane faculty, in conjunction with the Assessment Team, have been engaged in and supporting faculty-led General Education Core-Outcomes Assessment since 2006. In one form of this assessment, faculty focus on developing and assessing core-outcomes learning in their own classes using rubrics. Through this work many faculty have reflected on successful teaching practices and engaged in lively meetings and dialogue with other faculty from across Gen-Ed disciplines. For the next few weeks we would like to share some of the faculty experience generated by this process. The information here is part of the 2010-11 Gen-Ed Project synthesis, which will be available soon on the Lane Gen Ed website.

<http://www.lanec.edu/assessment/index.html>

Within the next few weeks you may receive an email Call for Proposals for the spring term using the core outcome of Critical Thinking. If you have interest in, or questions about, Gen Ed assessment at Lane, please contact JS Bird at [birdj@lanecc.edu](mailto:birdj@lanecc.edu)

"I will modify my class to include the use of the (communicating effectively) rubric for all student projects that involve communication. I will also use it to highlight sections of my classes that need improvement and those that are already working well." Pat Boleyn, science

"The rubric served as an effective guideline...made me pay attention to more specific conceptual elements of students work. My involvement with this project motivated me to change and improve my class lectures." Satoko Motouji, Art and Applied design

"Once I tallied the overall scores it became clear in which areas I need to spend more time developing student skills. I will not only alter How I teach but when..." Alice Sundstrom, Art and Applied Design

#### THE FIRST YEAR MATTERS: FOUNDATIONS OF EXCELLENCE

The First Year Matters: Foundations of Excellence self-study evaluation is comprised of nine aspirational principles of first-year excellence termed Foundational Dimensions. Transitions Dimension: Foundations Institutions facilitate appropriate student transitions beginning with outreach and recruitment and continuing throughout the period of enrollment. They communicate clear curricular/co-curricular expectations and possibilities, and they provide appropriate preparation and support for educational success. They are forthright about their responsibilities to students as well as students' responsibilities to themselves and the institution. These institutions create and maintain communication with secondary and other postsecondary institutions, families, employers, community agencies, and other sources of support for students. Submitted by Lida Herburger.

#### NEW LANE STUDENTS INTEND TO TRANSFER TO A FOUR-YEAR COLLEGE

The First Year Matters: Foundations of Excellence surveyed Lane students with less than 30 Lane credits and asked, "Do you plan to transfer from this college to another college/university at any time during the next four years?" Of the 1039 first-year students who responded to the question, 63.8% plan to transfer to a four-year university, 3.9% expect to attend another two-year college, 12.9% are not planning to transfer and 19.4% are unsure of their plans. Submitted by Lida Herburger.

#### "RED, RED THE COLOR OF WARM" EXHIBIT RECEPTION SET FOR MARCH 1

The David Joyce Gallery in the Center for Meeting and Learning winter 2012 exhibit, "Red, Red the Color of Warm," features nine Oregon artists in a variety of mediums. A reception is set for Thursday, March 1 from 4:30-6 p.m. with refreshments prepared and served by Culinary Arts and Hospitality Management students. Artists Laura Jazzkowski, LaVonne Tarbox-Crone, Roka Walsh, Renee L. Nelson, Dan Welton, Pamela Summer-Joy Blackhorse, Ellen Hamill, Jack Larson, and Jim Bailey, with support from exhibit designer Susan Detroy, present stunning imagery of flowers, foods, and environments both urban and natural. The exhibit is a study in color theory. Red was chosen to inspire the artist to look beyond the obvious and share with us their colorful illumination during the dreary, grey winter months. The gallery is open Mondays through Fridays from 8 a.m. to 5 p.m. All art is for sale with 25 percent of the proceeds supporting the David Joyce Gallery. Contact: Julie Fether.

#### CAREGIVING AS AN ENCORE CAREER MARCH 7

A Caregiving Career Conference is offered Wednesday, March 7, from 9 a.m. to 3:30 p.m. at the Center for Meeting and Learning. Author Lauren Kessler is the keynote speaker. Oregon's chronically high unemployment rate has been especially tough on older workers, says Barbara Susman, director of the Successful Aging Institute at Lane. Once they leave the job market or

get laid off, it can be frustratingly difficult to find work. Caregiving is one career sector with openings. It's not for everyone and the entry level pay is not high but it can be personally rewarding, and some jobs provide health benefits. The conference includes employers and panelists from several organizations. Kessler, University of Oregon professor and author of the Pacific Northwest Book Award winner "Dancing with Rose," will talk about her experience as a professional caregiver. The cost is \$10 and includes a hot buffet lunch. Registration is open online at [lanecc.edu/sai](http://www.lanecc.edu/sai) or by calling 4634. Conference information is online at [http://www.lanecc.edu/sai/documents/Page53fromCommEd4C\\_Winter2012\\_1.pdf](http://www.lanecc.edu/sai/documents/Page53fromCommEd4C_Winter2012_1.pdf) Contact: Tina Dresser, [dressert@lanecc.edu](mailto:dressert@lanecc.edu) or call 4634.

**PI DAY CELEBRATION—FOOD DRIVE FOR FOOD FOR LANE COUNTY MARCH 14**  
Pi Day is 3.14 (March 14). In honor of Pi Day, the Math Division, AAWCC, and TRiO STEM are sponsoring a food drive for Food for Lane County. Leading up to Pi Day and beginning March 1, divisions/departments will collect canned food with the goal of reaching 314 items. On Pi Day, March 14 (3.14), we plan to have the culminating event a pie bake-off outside the Math Division office in Building 16. Anyone donating a can of food will get a piece of pie and then can vote for their favorite pie. We still need a few more people willing to donate a couple pies. Pie bakers will receive a free T-shirt. If you would like to participate in the pie bake-off on Pi Day or have questions, email Carol McKiel at [mckielc@lanecc.edu](mailto:mckielc@lanecc.edu) or call 3132.

"PUBLIC WORKS AND PRIVATE THOUGHTS" lecture and reception with sculptor and art instructor Lee Imonen, Thursday, March 1, 4:30 p.m., Art Gallery, building 11. Imonen is a well-known Northwest sculptor with many public works throughout Oregon. This exhibit showcases work and reflections compiled from a recent sabbatical. He says, "'Public Works and Private Thoughts' brings together two separate but related directions in my studio practice over the past decade ... I have begun thinking about my public sculptures as research projects; opportunities for understanding a place, material, culture or organization in a more comprehensive way. My goal is to shift the direction of public work away from sculpture that is simply placed in the public realm, to work that not only engages the public, but equally speaks of its physical, historical and cultural environment. ... These pieces are more intimate, often showing only a framed portion of the original object, like sculptural snapshots taken from close-up." The show runs February 27 to March 22. There is no charge for admission. More information is online at <http://www.lanec.edu/mpr/news/rei01507.htm> or call 5409.

FIRST FRIDAY COMMUNITIES OF COLOR NETWORKING, Friday, March 2, 5:30-7 p.m., Longhouse. First Friday CCN is a safe space to hang out, relax, catch up, and meet new people of color and their allies. Our goal is to create a space that fosters friendships and networks for people of color in the local area. Everyone is welcome! CCN was started by local community members of color to bring together people in a relaxed social atmosphere to support one another. CCN is now proudly sponsored each first Friday of the month by a different partner of

the eleven agencies of the Diversity and Human Rights Consortium (DHRC). For more information, contact Donna Koechig, Diversity Office, at koechigd@lanecc.edu or 5307.

#### LANE JOINS THE DEMOCRACY COMMITMENT

Lane is the only Northwest community college and one of only 53 colleges nationwide participating in the Democracy Commitment, a national initiative to develop and expand community college programs, projects and curricula to engage students in civic learning and democratic practice. The goal is for every community college graduate to have had an education in democracy. The initiative was launched by the American Association of State Colleges and Universities and is an outcome of its 10-year long the American Democracy Project. The New York Times partnered with AASCU 10 years ago on the Project and is running an ad to promote the initiative and honor the 53 participating colleges, including Lane. #### LEARN CAREGIVING AS AN ENCORE CAREER MARCH 7

A Caregiving Career Conference is offered Wednesday, March 7, from 9 a.m. to 3:30 p.m. at the Center for Meeting and Learning. Author Lauren Kessler is the keynote speaker. Oregon's chronically high unemployment rate has been especially tough on older workers, says Barbara Susman, director of the Successful Aging Institute at Lane. Once they leave the job market or get laid off, it can be frustratingly difficult to find work. Caregiving is one career sector with openings. It's not for everyone and the entry level pay is not high but it can be personally rewarding, and some jobs provide health benefits. The conference includes employers and panelists from several organizations. Kessler, University of Oregon professor and author of the Pacific Northwest Book Award winner "Dancing with Rose," will talk about her experience as a professional caregiver. The cost is \$10 and includes a hot buffet lunch. Registration is open online at [lanecc.edu/sai](http://www.lanecc.edu/sai) or by calling 4634. Conference information is online at [http://www.lanecc.edu/sai/documents/Page53fromCommEd4C\\_Winter2012\\_1.pdf](http://www.lanecc.edu/sai/documents/Page53fromCommEd4C_Winter2012_1.pdf) Contact: Tina Dresser, [dressert@lanecc.edu](mailto:dressert@lanecc.edu) or call 4634.

## PI DAY CELEBRATION—FOOD DRIVE FOR FOOD FOR LANE COUNTY MARCH 14

Pi Day is 3.14 (March 14). In honor of Pi Day, the Math Division, AAWCC, and TRiO STEM are sponsoring a food drive for Food for Lane County (FFLC). The need is great. In Lane County, 53% of the children qualify for free/reduced school meals. But the food supply is low. FOOD for Lane County's current food supply is at 4.5 weeks. A healthy supply is normally 8-9 weeks. To help raise the supply, departments and divisions across campus are collecting canned food from March 1 through March 14 each with the goal of reaching 314 items. To raise even more food for FFLC, we will collect additional items during the pi(e) bake-off on Pi Day, March 14 (3.14) in the cafeteria (this is a location change from building 16). From 11 a.m. to 1 p.m., anyone donating a food item or a couple quarters (round for pi) will get a piece of pie and vote for their favorite pie. For every dollar donated, Food for Lane County can access and distribute three meals. Questions? Contact Carol McKiel at [mckielc@lanecc.edu](mailto:mckielc@lanecc.edu) or 3132.

## FACILITIES UPDATES

---

### INDOOR TEMPERATURE GUIDELINES

Facilities Management and Planning understands the importance of a comfortable work and study environment and want to work with everyone to save energy and maintain comfort. With the change of season upon us, this is an appropriate time to remind everyone of the indoor temperature guidelines, adopted in 2006, as part of the energy policy, and in an effort to balance a comfortable learning and working environment with energy conservation. We recognize that comfort varies for individuals and have developed indoor temperature guidelines based on scientific studies to create comfortable conditions for the greatest number of students and staff.

Warm Weather Month Guidelines: 74 to 77 degrees F

Cool Weather Month Guidelines: 68 to 73 degrees F

Ancillary Space (Hallways, Lobbies, Stairwells): 63 to 82 degrees F

Notes:

\* During transition months, such as October and April, guideline ranges expand to 68 to 77.

These expanded ranges also apply during extreme weather conditions and periods of high electric demand.

\* Guidelines are applied during normal business hours.

\* Staff and students are encouraged to wear clothing that can be adjusted to maintain personal comfort.

If you feel that temperatures are too high, (higher than 78 degrees F), or too cool, (lower than 68 degrees F), in your area please contact Facilities Management and Planning at 5216 or email at [facilitiesoffice@lanecc.edu](mailto:facilitiesoffice@lanecc.edu) Contact Dave Willis, 5566.

#### DOWNTOWN CAMPUS PROJECT

Construction activities continue and both the academic and housing buildings are still on schedule. Meanwhile, there are a lot of things that the college is responsible for doing before the buildings are fully operational. Identifying and scheduling these activities is a big job that several college managers have been working on. A critical path schedule of those activities that need to be done before and after the building inspector issues the permits to occupy the buildings has been prepared and is periodically reviewed. A few of the scheduled activities are the ordering and installation of furniture, building and installing shelving, purchasing and installing IT/AV equipment, preparing departments for moving into the new building, the design and build out of the Titan Store, etc. The goal is to get everything ready for the occupants to move into and start working as smoothly as possible.

See what's happening now: Watch the Downtown Campus construction via the webcam, updated hourly between 8 a.m. and 8 p.m. at <http://www.lanecc.edu/dc/video.html>. Contact Bob Mention, 5747.

## TITAN NEWS

Levings, a guard from Cottage Grove, earned a 3.32 GPA. Each award winner had to have at least the following credentials: sophomore in eligibility, minimum of 36 credits earned, 3.25 cumulative GPA, recommended by the college. Please see <http://www.lanetitans.net> for full story. Contact: John Scholl.

### LADY TITANS BASKETBALL HAS SEVERAL SOUTHERN REGION ALL-STARS

Head Coach Greg Sheley and the Lane Women's Basketball team received much recognition in the voting for the 2011-12 Southern Region All-Star awards. The awards are voted on by all the coaches in the Southern Region after all the regular season games have been played. Our Titan honorees:

Coach of the Year: Greg Sheley

1st Team: Kersey Wilcox

2nd Team: Reed Levings and Megan Shields

Sophomore All-Stars: Reed Levings

Freshman of the Year: Kersey Wilcox

All-Freshman Team: Megan Shields and Joleen Chanco

All-Defensive Team: Joleen Chanco and Reed Levings

Contact: John Scholl.

### TITAN WOMEN'S BASKETBALL NWAACC CHAMPIONSHIPS

March 3 – The 16-point lead at half time was enough for the Lane's Women's Basketball team in an 88-71 win over Peninsula Saturday night. Kersey Wilcox led the Lady Titans with 23 points, with twin sister Jordan getting 18 points, 3 rebounds, and 2 assists. Danielle Schmidt added 11 points, 8 rebounds, and 4 assists, and lone Sophomore, Reed Levings, contributed 12 points and 4 rebounds and assists. Although the women had 14 turnovers, the biggest difference was the 29 free-throw points, and 33 from 3-point range. The win made 12 in a row for the Lady Titans.

March 4 – The winning streak for the Lane Women's Basketball season ended at 12, but the season continued on. Yakima Valley upset the Lady Titans in a 73-57 win on Sunday night. The numbers and percentages were fairly close on both teams, but ultimately Yakima Valley's 30-9 three-point advantage and 18 points off of turnovers were the demise of the Lane Women. Megan Shields had a big night with 20 points and 9 rebounds. Courtney Walchli added 10 points and 6 rebounds on the night. The Lady Titans will play Skagit Valley (21-7, 15-1) at 2 p.m. on Monday, in which the loser will be out of the tournament. The winner will play on Tuesday at noon in the 5th/6th place game against Blue Mountain or Clackamas.

March 5 – Skagit Valley outlasted the Lane women in an 84-83 win on Monday afternoon. This was the second loss for the women in the NWAACC Tournament, which means their season has come to a close. Despite outscoring the Cardinals 48-40 in the second half, Lane's low field-goal percentage in the first half appeared to be too detrimental to come back from. The lone sophomore, Reed Levings, ended her Lane career with a double-double scoring 12 points and 11 rebounds. Kersey Wilcox had a big night with 23 points, 5 rebounds, and 4 assists; as did Danielle Schmidt with 20 points, 7 rebounds, and 3 assists. Megan Shields added 11 points and 6 rebounds. The loss gives the Lady Titans a 24-6 overall season record, and they went 13-1 in the Southern Region to clinch their division. Contact: John Scholl.

## TITAN BASEBALL

Lane Baseball won a double-header against Linfield on Sunday to start its season at 2-0. In game one, Alex Cornwell went 2-for-3 with 2 RBIs and a double to help secure the 3-1 Titan victory over the Wildcats. Jordan van Engers pitched 3 innings in the win. In game two, Zach Kayser got his second save of the day and Dawson Phinney got the win. Alex Cornwell got one hit and a sacrifice fly to help the cause. The Titans head to Yakima on Saturday, 3/10 for another double-header starting at noon. Contact: John Scholl.

### DOWNTOWN CAMPUS PROJECT

Detailed status of construction:

1. If the weather cooperates, the TPO (thermoplastic polyolefin) roof system at the Housing building should be completed this week.
2. Application of the Blueskin weather barrier is complete at the Housing building. Installation of the Blueskin is complete on the alley and Olive Street sides of the Academic building, and is progressing on the 10th Avenue side.
3. All but 10 of the vinyl windows at the Housing building have been installed.
4. Installation of the Knight Wall system, a four-in-one siding rail assembly, has begun at the Charnelton Street side of the Housing building.
5. The HardiePanel siding, engineered to provide specific performance attributes relative to the climate is being installed at the Housing building.
6. Installation of pipe insulation and fire-stopping is in progress throughout the Housing building.
7. Work at levels 6, 5, and 4 at the Housing building has progressed as far as it can go pending reduction of the moisture levels in the wood framing to facilitate application of gypsum wallboard. Presently, the moisture content of the framing is averaging about 14.6 percent. Measures to reduce the moisture content and relative humidity in the Housing building continue. Relative humidity of less than 70 percent will be the ultimate goal before installation of drywall begins.
8. Stair 2 is installed and available for use.

9. The box-framed headers at the first floor large openings of interior walls have been installed.  
10. The rough-in of overhead M/E/P at the upper levels of the Academic building is complete. Rough-in at walls is in progress.

## FIRST YEAR MATTERS SURVEY RESULTS

Students were asked, "To what degree does this college help you understand how attending college prepares you to be an involved member of your community?" Of the 398 who answered, 23.1% chose "not at all" or "slightly;" 23.4% reported "moderately;" and 53.5% responded "high" or "very high." Of the 213 faculty and staff members who responded to the corresponding question in their survey, 30.5% answered ""not at all" or "slightly;" 39% reported "moderately;" and 30.5% responded "high" or "very high." The full results from the First Year Matters: Foundations of Excellence student survey and the faculty/staff survey will soon be posted on the IRAP website. Submitted by Lida Herburger.

## FIRST YEAR MATTERS: ROLES AND PURPOSES DIMENSION PROMOTES STUDENT UNDERSTANDING

The First Year Matters: Foundations of Excellence self-study evaluation is comprised of nine aspirational principles of first-year excellence termed Foundational Dimensions.

Roles and Purposes Dimension: Foundations Institutions promote student understanding of the various roles and purposes of higher education and those unique to two-year institutions, both for the individual and society. These roles and purposes include learning for personal growth, career enhancement, workplace preparation and retraining, transfer for additional education, engaged citizenship, and serving the public good. Institutions encourage new students to examine their motivation and goals with regard to higher education in general and to their own college. Students are exposed to the value of both a general education and focused study in an academic or career field. Submitted by Lida Herburger.

## CTE FACULTY INTERNSHIP OPPORTUNITIES AVAILABLE

Perkins grant funds are available for paid faculty internships through August 15 for faculty to work at business sites related to their teaching discipline. The purpose of these funds is to strengthen the career and technical skills of students participating in career and technical programs. Internships are paid at the curriculum development rate and are to be with local employers within commuting distance of the college. Applicants are responsible for making internship arrangements. For Perkins Internship Guidelines and application, e-mail Carol Woodman at [woodmanc@lanecc.edu](mailto:woodmanc@lanecc.edu) or call 5509.

## "VOICES FROM WITHIN: LANE COMMUNITY COLLEGE STAFF TELL THEIR STORIES" (STAFF PANEL)

Tuesday, March 20, 2012, 3-4:30 p.m., Center for Meeting and Learning, Room 214. Dr. Lee Anne Bell recently introduced the "Storytelling Model for Social Justice" at Lane's Diversity Strategic Direction Conference. This model offers a framework to examine the "stock" stories that sustain inequality within our institutions and community. A panel of Lane staff will share their "concealed, resistant and transforming/emerging" stories and discuss ways to assist Lane in fulfilling its Diversity Core Value and Strategic Direction to be a respectful, welcoming, and inclusive learning and working environment. Please join us to hear these staff's inspirational stories. For more information, contact Donna Koechig at [koechigd@lanecc.edu](mailto:koechigd@lanecc.edu) or 5307.

## "INDIGENOUS STORYTELLING TRADITIONS: CONVEYING TEACHINGS THAT GUIDE THE LIFE WE LIVE"

Save the Date: Friday April 6, 10-11 a.m., Longhouse, Building 31.

Continuing to build on the "Storytelling Model for Social Justice" from Lane's Diversity Conference, this special presentation with CHiXapkaid (Dr. Michael Pavel) addresses the key principles of Indigenous storytelling and its powerful ability to convey insights and wisdom to address the circumstances we face in our personal and professional lives. Audience members will enjoy a range of stories, songs, and dances that carry forth ancient teachings that are of value in our modern society as we all deal with serious social issues pertaining to diversity, our economy, political unity, personal health and wellbeing and environmental sustainability.

The presenter/storyteller, CHiXapkaid, is a professor of Native American Studies in Education in the Education Studies Department at the University of Oregon. His scholarship draws primarily from his experience as a traditional bearer among the Southern Salish people and as an enrolled tribal member of the Skokomish Nation. A nationally renowned scholar, he specializes in the discipline of higher education with the focus on improving Native postsecondary access and achievement. He is co-author of the recent book, "The American Indian and Alaska Native

Student's Guide to College Success." Among his many talents, CHiXapkaid is an accomplished traditional artist, singer, dancer, and storyteller. For more information, contact Donna Koechig at koechigd@lanecc.edu or 5307.

### "INDIGENOUS STORYTELLING: CONVEYING TEACHINGS THAT GUIDE THE LIFE WE LIVE"

Save the date: Friday, April 6, 10-11 a.m., Longhouse, Building 31

Continuing to build on the "Storytelling Model for Social Justice" from Lane's Diversity Conference, this special presentation with CHiXapkaid (Dr. Michael Pavel) addresses the key principles of Indigenous storytelling and its powerful ability to convey insights and wisdom to address the circumstances we face in our personal and professional lives. Audience members will enjoy a range of stories, songs, and dances that carry forth ancient teachings that are of value in our modern society as we all deal with serious social issues pertaining to diversity, our economy, political unity, personal health and wellbeing and environmental sustainability. The presenter/storyteller, CHiXapkaid, is a professor of Native American Studies in Education in the Education Studies Department at the University of Oregon. His scholarship draws primarily from his experience as a traditional bearer among the Southern Salish people and as an enrolled tribal member of the Skokomish Nation. A nationally renowned scholar, he specializes in the discipline of higher education with the focus on improving Native postsecondary access and achievement. He is co-author of the recent book, "The American Indian and Alaska Native Student's Guide to College Success." Among his many talents, CHiXapkaid is an accomplished traditional artist, singer, dancer, and storyteller. #### “TWELFTH NIGHT” RUNS WEEKENDS APRIL 12-28

William Shakespeare’s popular comedy, “Twelfth Night, or What You Will,” will be performed weekends from April 12-28 in the Blue Door Theatre, Building 6, produced by the Student Productions Association.

Director Judith “Sparky” Roberts says, “‘Twelfth Night’ has all the elements of comedy – fantasy, misplaced affections, mistaken identities, and buffoonery. It’s satisfying.”

In a community college tradition, the student actors are joined onstage by experienced local actors playing mature roles.

Performance dates and times are April 12-28, Thursdays through Saturdays. All performances start at 7:30 p.m. Preview performance is Thursday, April 12 – all tickets \$5. Opening gala is Friday, April 13, with refreshments served after the show. There is a 2 p.m. matinee on Sunday, April 22. Tickets are \$10 (General), \$8 (Students and Seniors). Audience members must be over age 10 to be admitted. For tickets call 541-463-5761 or go online at

On April 19 we will have sustainability-related vendor tables and activities, food, and tours. The Peace Symposium will be April 20-21; register at <http://www.lanecc.edu/peacecenter>

#### PI DAY SUCCESS

The eating of pi(e) to celebrate Pi Day was a big success. So many people wanted a piece of pie so quickly that our voting system for the best baker completely fell apart. As one student commented through mouthfuls of pie, “All the pie bakers are Pi Day pie baking champs.” The efforts of the generous bakers brought in \$241.56 and 41 cans of food. The pie bake-off winners are Phoebe Anderson, Cindy Erickson, Jennifer Falzerano, Jennifer Ferro, Lynn Galle, Patty Hine, Eric Hogle, Lisa McDonald, Tiana Marrone-Creech, Elaine Marsh, Roxanne McCully, Karen Mort, Gayle Smith, Darcy Spencer, Sandy Sheetz, Lesley Stine, Roberta Stitt, and Brooke Taylor. The food drive for FOOD for Lane County collected 807 items from various divisions/departments across campus. People in building 16 collected food items using the number values of 96 places of pi. This resulted in the donation of nearly 500 items. Thanks to everyone who helped put together such a fun Pi Day event. Submitted by Carol McKiel.

#### FIRST YEAR MATTERS: ASSESSMENT AND ASSOCIATION PROVIDE GUIDANCE

The First Year Matters: Foundations of Excellence self-study evaluation is comprised of nine aspirational principles of first-year excellence termed Foundational Dimensions.

Improvement Dimension: Foundations Institutions conduct assessment and maintain associations with other institutions and relevant professional organizations in order to effect improvement. Assessment provides feedback to new students to guide their learning, to faculty to guide their teaching, and to the institution to guide planning, resource allocation, decision

making, and improvement of programs and policies. As a way to facilitate improvement, these institutions are knowledgeable about current practices at other institutions as well as relevant research and scholarship. Submitted by Lida Herburger, herburgerl@lanecc.edu

#### CTE FACULTY INTERNSHIP OPPORTUNITIES AVAILABLE

Perkins grant funds are available for paid faculty internships through August 15 for faculty to work at business sites related to their teaching discipline. The purpose of these funds is to strengthen the career and technical skills of students participating in career and technical programs. Faculty work with businesses to stay current with all aspects of an industry and develop a higher level of industry knowledge and skills. Internships are paid at the curriculum development rate and are to be with local employers within commuting distance of the college. Applicants are responsible for making internship arrangements. For Perkins Internship Guidelines and application, e-mail Carol Woodman at woodmanc@lanecc.edu or call 5509.

#### HOUSEKEEPING BEATS PAST SAFETY RECORD

days without a lost time injury or safety incident. The old record was 29 days. This is simply outstanding. Way to go, Team! Contact: Dave Willis.

#### WINTER WEATHER STORM IMPACTS FLORENCE CAMPUS

Due to high winds and five inches of heavy wet snow, six to eight trees were damaged on Monday, March 12 at the Florence campus requiring the main campus grounds team to visit Florence on Tuesday, March 20 to perform clean-up operations. This is the latest in a series of late winter storms. The new roof and siding on the Florence campus buildings all performed well and without any damage. Several large tree branches were also broken and on the ground at the Siltcoos Station and will also require clean-up operations. Frank Drengacz and the Grounds Team will conduct clean-up operations, supporting Dino Raviolo and the Florence staff. Other than a few tree branches at the main campus, no significant damage occurred at the main college campus. Contact: Dave Willis.

#### "3 POINTS NORTH" EXHIBIT OPENS APRIL 2

The Lane Art Gallery presents "3 Points North," a three-person exhibition featuring works in ceramic, sculpture and mixed media, from April 2 through June 14 in the art gallery, building 11. Featured artists are Rob Beishline, a ceramic professor at Whatcom Community College in Bellingham WA; Daryn Lowman, a ceramics professor at Hibbing Community College in Hibbing MN, and Andreas Salzman, a ceramics and sculpture professor at Lane.

Beishline's work uses birds and animals to create experiences for himself and the viewer, "I do not see the pieces as metaphors, but realize that they could be read that way. I can identify with animals and am tempted to try to read myself in them, but the really valuable moments are when I can stop and look in silence."

Lowman's pottery and the use of the vessel create a dialogue reflecting time. "I am drawn to the exploratory manner of working with ceramic processes. With playful sensibilities and direct decisions, my work plays on the whimsy of the soft material, and the sharpness of the durable fired surface. I like to ask questions about time, as it reflects our sense of new and used, cherished and abandoned."

Salzman's mixed media sculpture reflects the world in which he lives. "As an artist I feel that I can only talk about the issues of which I am passionate. The most important issues in my life are the relationships I have with the people around me. I try to illustrate the innermost feelings and emotions that are a result of the roles and decisions within my life. I include specific evidence of my journey to this state so I can build a sense of personal ownership of the content of my work."

For more information call the art department at 5409.

"Indigenous Storytelling Traditions: Conveying Teachings That Guide the Life we Live," will be presented Friday, April 6, from 10-11 a.m. in the Longhouse, Building 31.

Continuing to build on the "Storytelling Model for Social Justice" from Lane's Diversity Conference, this special presentation with CHiXapkaid (Dr. Michael Pavel) addresses the key

principles of Indigenous storytelling and its powerful ability to convey insights and wisdom to address the circumstances we face in our personal and professional lives. Audience members will enjoy a range of stories, songs, and dances that carry forth ancient teachings that are of value in our modern society as we all deal with serious social issues pertaining to diversity, our economy, political unity, personal health and wellbeing and environmental sustainability. CHiXapkaid is a professor of Native American studies in education in the education studies department at the University of Oregon. His scholarship draws primarily from his experience as a traditional bearer among the Southern Salish people and as an enrolled tribal member of the Skokomish Nation. A nationally renowned scholar, he specializes in the discipline of higher education with the focus on improving Native postsecondary access and achievement. He is co-author of the recent book, "The American Indian and Alaska Native Student's Guide to College Success." Among his many talents, CHiXapkaid is an accomplished traditional artist, singer, dancer and storyteller. In a community college tradition, the student actors are joined onstage by experienced local actors playing mature roles.

## FACILITIES UPDATES

---

### BOND PROJECT: DOWNTOWN CAMPUS

Last week's big snow slowed some exterior construction activities but didn't affect the interior activities since both the academic and housing buildings are not affected by weather. The biggest problem was that some workers weren't able to come to work due to the snow. The contractor will make up whatever exterior work was delayed in the next few days. The important thing is that the project remains on schedule and within budget.

See what's happening now: Watch the Downtown Campus construction via the webcam, updated hourly between 8 a.m. and 8 p.m. at <http://www.lanecc.edu/dc/video.html> Contact Bob Mention, 5747.

### CUSTODIAL TEAM UPDATE

Wow! The custodial team set a new record, reaching 52 days without a safety lost-time injury/accident and smashing the old 29-day record. Unfortunately, there was one accident last week so we are now starting over with the counting. Our goal is to reach 100 days without a safety lost-time injury/accident. The hiring process for the Interim Custodial Manager position continues. This position should be filled sometime in April. Contact: David L. Willis, 5566.

### MEGAMATION WORK ORDER SYSTEM UPDATE

Russ Pierson, Mark Richardson and Dave Willis continue to plan the implementation of the Megamation (Computerized Maintenance Management Software) which is now scheduled for mid-April. Training opportunities will soon be emailed to those that have requested this training as designated representative administrative support personnel for their associated departments. This software will help FMP provide higher quality and faster response services for work requests through productivity gains and more efficient planning of activities by priority and area on campus. The number of outstanding open work orders has dropped from 1122 to 737 in preparation for the data base transfers. Contact: Russ Pierson at 5727, Mark Richardson at 3457, and Dave Willis at 5566.

### 100 YEAR SPRING (WINTER) SNOW STORM UPDATE

It had been more than 100 years, dating back to at least 1912, since the Eugene area experienced as much spring season snow as it did on Wednesday, March 21 and Thursday, March 22. Main campus had between 5 and 7 inches of snow from this storm. Campus closed Wednesday, March 21 due to the heavy snow that made both travel in the Eugene area and walking around the campus difficult at best. Campus opened back up on Thursday but with an additional 1 to 2 inches of heavy wet snow, it was a challenge for everyone. Many thanks to Frank Drengacz and the Grounds Team for their exemplary work in removing the snow and slush from 2 a.m. to 11 a.m. on Thursday, March 22. Most of the campus walkways were cleared up by 9 a.m. The parking lots took most of the day to melt off and clear out. Many thanks also to Dennis Carr who led the effort to send out communications on the

LaneAlert system regarding campus open/closed conditions and hazards that were present. The Public Safety staff also did a wonderful job monitoring campus conditions, reporting damage, locking up the access gates, and posting "campus closed" signs on Wednesday. This was the third week in a row with snow on the ground in the Eugene area. This storm was unique in that more snow fell in Eugene than in areas north or south on the I-5 corridor.

The Wildish building and the old Downtown building both experienced roof leaks and some internal damage. Mark Richardson worked to 1:30 a.m. opening up roof drains and responding to issues at these two buildings. Kevin Williams repaired the fire alarm smoke detectors that were damaged by leaking roofs. Belfour Construction was called in to remove snow and slush build up, make roof repairs, and make interior ceiling repairs. Again, great work by the FMP teams. Contact: Dave Willis, ext. 5566

The daytime session on Friday is organized especially for all Lane students and staff to attend. This session will be a series of keynote talks. The Friday evening session will be a plenary panel on "The State of the Global and US Democracy Movements." David Barsamian will keynote. His talk is entitled, "Uprisings: Kashmir to Cairo to Wall Street." Saturday will include both keynote presentations and organizing workshops dedicated to organizing a movement to amend the Constitution to end the fiction of corporate personhood and corporate constitutional rights. Both David West and David Barsamian will present a second set of keynote presentations.

We encourage everyone to attend. However, since we are expecting to draw an audience from across the Northwest, we are asking people to pre-register so we can effectively plan to meet everyone's needs. Faculty who are bringing their classes or encouraging students to attend need to have them pre-register. Register online at <http://www.lanecc.edu/peacecenter>  
If you cannot make a session in person, keynote talks will be live streamed. Visit our web site to find the live stream button.

If you have questions contact Stan Taylor at [taylor@lanecc.edu](mailto:taylor@lanecc.edu) or (541) 463-5820.

#### "TWELFTH NIGHT" RUNS WEEKENDS APRIL 12-28

William Shakespeare's popular comedy, "Twelfth Night, or What You Will," will be performed weekends from April 12-28 in the Blue Door Theatre, Building 6, produced by the Student Productions Association.

Director Judith "Sparky" Roberts says, "'Twelfth Night' has all the elements of comedy – fantasy, misplaced affections, mistaken identities, and buffoonery. It's satisfying."

In a community college tradition, the student actors are joined onstage by experienced local actors playing mature roles.

Performance dates and times are April 12-28, Thursdays through Saturdays. All performances start at 7:30 p.m. Preview performance is Thursday, April 12 – all tickets \$5. Opening gala is Friday, April 13, with refreshments served after the show. There is a 2 p.m. matinee on Sunday, April 22. Tickets are \$10 (General), \$8 (Students and Seniors). ## "3 POINTS NORTH" FEATURES CERAMICS, SCULPTURE AND MIXED MEDIA

The Lane Art Gallery is proud to present "3 Points North," a three-person exhibition featuring works in ceramic, sculpture and mixed media. The show runs from April 2 through June 14 at the Art Gallery, Building 11.

Featured artists are Rob Beishline, a ceramics professor at Whatcom Community College, Bellingham, Washington; Daryn Lowman, a ceramics professor at Hibbing Community College, Hibbing, Minnesota; and Andreas Salzman, a ceramics and sculpture professor at Lane.

Beishline's work uses birds and animals to create experiences for himself and the viewer, "I do not see the pieces as metaphors, but realize that they could be read that way. I can identify with animals and am tempted to try to read myself in them, but the really valuable moments are when I can stop and look in silence."

Lowman's pottery and the use of the vessel create a dialogue reflecting time. "I am drawn to the exploratory manner of working with ceramic processes. With playful sensibilities and direct decisions, my work plays on the whimsy of the soft material, and the sharpness of the durable fired surface. I like to ask questions about time, as it reflects our sense of new and used, cherished and abandoned."

Salzman's mixed media sculpture reflects the world in which he lives. "As an artist I feel that I can only talk about the issues of which I am passionate. The most important issues in my life are the relationships I have with the people around me. I try to illustrate the innermost feelings and emotions that are a result of the roles and decisions within my life. I include specific evidence of my journey to this state so I can build a sense of personal ownership of the content of my work."

Admission is free. For more information call 5409.

## DAVID JOYCE GALLERY CELEBRATES "GREEN, GREEN THE COLOR OF NEW"

The David Joyce Gallery in the Center for Meeting and Learning opened its final exhibit of the academic year on April 2, "Spring and Summer: Green, Green the Color of New." The show runs through August 27. The exhibit features 16 Oregon artists, including Lane faculty and members of the Purely Pastel Artists. Artists are Jim Bailey, Tamara Pinkas, and Dan Welton, LaVonne Tarbox-Crone, Roka Walsh, JoEllen Gregori Waldvogel, Ellen Hamill, David Putzier, Julius Jortner, Phil Coleman, Leah Wilson, Christian Moody, and Gladys Bacon, Germaine Hammon, Anna Horrigan, and Marianne Post. With support from exhibit designer Susan Detroy, the David Joyce Gallery focuses its exhibits on broad, unique themes which reflect upon the subjects of culinary and hospital—themes that celebrate the glory of food and farms, the art of service, travel and tourism, and the people that bring these subjects to life. "Green, Green the Color of New" is a study in color theory in a variety of mediums. From oil on wood paintings

expressing the relationship of green landscapes to time and perception to specific photographic images of green farmlands and foods, the Green artists invite you to experience this dynamic color with their creative, visual interpretations. The gallery exhibits eclectic, photographic cutout fragments by artist David Joyce for whom the gallery is named. Joyce was an art instructor at Lane for 25 years and most known in the community for his monumental flying people mural "Flight Patterns" at the Eugene Airport, which was recently re-touched.

"Green, Green the Color of New" runs from Monday, April 2 through Monday, August 27, Mondays through Fridays from 8 a.m. to 5 p.m. All art is for sale with 25 percent of the proceeds supporting the gallery.

An artists reception will be held Thursday, May 24 from 4:30-6 p.m. with hors d'oeuvres and refreshments prepared and served by the students in the Culinary Arts and Hospitality Management program. Contact: Julie Fether.

#### LANE FAMILY DAY

The second annual Lane Family Day will be Saturday, May 19, in the main campus cafeteria from 9 a.m. to 1 p.m. Pancakes will be served from 9 - 11 a.m.

Last year was a huge success! We had more than 500 attendees and showcased many different departments on campus. Children and families came to campus, and enjoyed activities such as the inventor's station-science, nutritional awareness, flight simulator, face painting, to name a few. Please consider being a part of this year's event by presenting an activity or volunteering to help out! You will get free pancakes too! We want to highlight all the great programs available through Lane to this next generation of students. Future students looking at their educational options will remember seeing Lane superheroes (artists, nurses, chefs, pilots, business members) and they will be better informed about what Lane has to offer. For more information contact Sue Norton via email [nortons@lanecc.edu](mailto:nortons@lanecc.edu) or 3301.

#### CUSTODIAL SERVICES UPDATE

The custodial team completed three team training sessions during spring break. Since the cleaning work loads are typically lower during spring break, this is an ideal time for the custodial team to conduct training and learning opportunities. These hands-on training sessions included a four-hour training provided by CoastWide Laboratories and Windsor Equipment on proper floor care procedures and processes, equipment use and maintenance, and tips and techniques regarding floor care best practices. Dave Willis recorded the training so that it can be used in future training sessions. A full team safety training session regarding accident prevention, floor care safety practices, and proper sanitization and disinfecting practices was also provided by Dave Willis on Tuesday. On Wednesday, the custodial team completed a 3-1/2 hour training on siversity with instructor Carla Gary, facilitated by Donna Koechig. These training sessions help the custodial team provide safer and more effective cleaning services to the college.

On Monday, April 2, the custodial team celebrated 52 days without a lost time safety incident or accident by having a pizza dinner party. Congratulations to the entire custodial team for working so hard to come up with better ways to use equipment, tools, and chemicals to avoid accidents and incidents. Great work. Continue to forward all cleaning concerns that need manager level attention to Dave Willis. Contact: David L. Willis, 5566.

#### DOWNTOWN CAMPUS PROJECT

General: The project is still on schedule and in budget.

Housing: Moisture testing of wood framing continues. Some measurements show moisture content as low as between 9 and 10 percent. Installation of sheetrock in the sixth floor units will commence soon. Data wires are being pulled in the corridors. Finish siding (Hardipanel) will commence this week on the alley side of the housing building. Installation is expected to be completed in 6 weeks.

Academic: Exterior metal wall panels have arrived on site. Three quarters of the roof membrane has been completed at the east wing. Tenting over roof membrane work is necessary. Roofers are working overtime to make up for lost days due to poor weather. Concrete slabs at two levels of the atrium are scheduled to be poured this week.

See what's happening now: Watch the Downtown Campus construction via the webcam, updated hourly between 8 a.m. and 8 p.m. at <http://www.lanecc.edu/dc/video.html> Contact Bob Mention, 5747.

#### MENTOR APPROACH REPLACES R&D INNOVATION FAIR

Can you feel the anticipation and excitement building around submitting a proposal to Lane's R&D innovation team for FY13? Does Carly Simon's rendition of Anticipation match your innovation mood? Well, change is in the air, spring has sprung, and we are ready for big, bold, and enthusiastic new ideas in the form of proposal submissions. In order to frame the R&D submission process as a more personal, guided experience for staff considering a project proposal, the innovation team has chosen to cancel the April 12 innovation fair and replace it with more of a high-touch, lets-get-acquainted kind of opportunity between now and the submission deadline of Monday, May 7 by 5 p.m. Staff will be paired with an innovation team mentor who will guide them through the submission process and offer any suggestions for possible improvements that would increase the likelihood that the proposal receive approval. Mentors would be chosen based upon the proposal's content. Staff interested in making a mentor appointment as part of their proposal development and planning process are asked to contact Roxanne Young at either x3655 or by email at [youngr@lanecc.edu](mailto:youngr@lanecc.edu)

#### CTE FACULTY INTERNSHIP OPPORTUNITIES AVAILABLE

Perkins grant funds are available for paid faculty internships through August 15 for faculty to work at business sites related to their teaching discipline. The purpose of these funds is to strengthen the career and technical skills of students participating in career and technical programs. Faculty work with businesses to stay current with all aspects of an industry and develop a higher level of industry knowledge and skills. Internships are paid at the curriculum development rate and are to be with local employers within commuting distance of the college. Applicants are responsible for making internship arrangements. For Perkins Internship Guidelines and application, e-mail Carol Woodman at [woodmanc@lanecc.edu](mailto:woodmanc@lanecc.edu) or call 5509.

#### STRESSING ACADEMIC HONESTY TO STUDENTS

In the First Year Matters: Foundations of Excellence surveys, both Faculty/Staff and Students were asked, "To what degree does this college communicate the importance of academic honesty?" While 74.6% of the 398 students responding to that question answered "high" or "very high," only 43.5% of the 209 faculty/staff respondents to the question replied with "high" or "very high."

Contact Jen Kludinyi [kludinyij@lanecc.edu](mailto:kludinyij@lanecc.edu) to join.

#### NEW PIN REQUIREMENTS FOR MYLANE!

To improve information security and enable self-service password changes, Lane is changing the password requirements for your myLane account. We are converting to a pass-phrase with a minimum of 12 characters and a maximum of 16 characters, using a combination of letters and numbers. A pass-phrase is simply a different way to think about your password choices. Instead of using a word as password suggests, a pass-phrase suggests using a phrase. In preparation for this change, we are asking that you change your security questions now so that you are ready for the upcoming conversion to pass-phrases. NOTE: You will not be able to change your password/PIN to your new pass-phrase until on or after April 23.

You will need to change your security questions before April 23 so you can reset your pin if you forget it.

You will need to change your password to a 12- to 16- alpha-numeric pass-phrase on or after April 23. For instructions, see the attached.

ALLEN BAHRET NAMED EMPLOYEE OF THE MONTH

Kudos and congratulations go to April's Classified Employee of the Month – Alen Bahret in Information Technology. Representatives of the Classified Professional Development Team joined staff in the IT and Academic Technology to present Alen with the EOM award for April. Alen gives 110 percent to his work at Lane and to his co-workers. Aside from his job duties as a

programmer/analyst, he has trained with CollegeNet and has mastered Series25, Lane's facilities database and room scheduling software, and he is the in-house employee trainer for programs like 25Live and Resource25.

Alen is always willing to help and has become a Jack-of-all-trades for the college. He's a true problem-solver, the current LCCEF vice president, he chairs the Bond Leadership Team, serves on the Facilities Council, and has a hand in many other college tasks. You never hear Alen say—not my job. He takes on everything that is thrown at him and manages to keep his sense of humor through it all. As if working 40 hours a week at Lane were not enough, weekends will find Alen volunteering for the Lane County Sheriff's department. Alen is the perfect example of what a dedicated Lane employee and co-worker is all about. He's helpful, knowledgeable, kind, energetic, and is always willing to go the extra mile to find the answer if he doesn't know it. . .which isn't likely. When you see Alen, congratulate him for doing a terrific job and celebrate his nomination as April's Classified Employee of the Month. And remember that, you too, can help us to recognize exemplary classified employees by nominating them for this award by the 15th of each month. Nomination forms are available: 1) on the CPDT website:<http://www.lanecc.edu/cpdt/recognition/eominfo.html> or 2) from Elaine Marsh, IRAP, [marshe@lanecc.edu](mailto:marshe@lanecc.edu)

#### NEW PIN REQUIREMENTS FOR MYLANE

To improve information security and enable self-service password changes, Lane is changing the password requirements for your myLane account. We are converting to a pass-phrase with a minimum of 12 characters and a maximum of 16 characters, using a combination of letters and numbers. A pass-phrase is simply a different way to think about your password choices. Instead of using a word as password suggests, a pass-phrase suggests using a phrase. In preparation for this change, we are asking that you change your security questions now so that you are ready for the upcoming conversion to pass-phrases. NOTE: You will not be able to change your password/PIN to your new pass-phrase until on or after April 23.

You will need to change your security questions before April 23 so you can reset your pin if you forget it.

You will need to change your password to a 12- to 16- alpha-numeric pass-phrase on or after April 23. For instructions, see the attached.

## FORMER TITAN SPRINTER SIGNS WITH OREGON

Former Lane Community College sprint sensation, Chris Stubbs, recently transferred to the University of Oregon with a track and field scholarship. Chris won the NWAACC 100 and 200 his freshman year in 2009 (10.66/21.25) In 2009, he also placed 5th in the 200 at the USATF Junior Nationals (21.26). Stubbs had his best year during his redshirt year at Lane running a 21.0 in the 200 and 46.89 in the 400. He opened his sophomore season running the 400 in 48.29, and then injuries limited the rest of his 2011 season. Stubbs is a junior in eligibility this spring. He will be in familiar company as the Duck sprint roster currently boasts three former Titans; UO team captain Travis Thompson (2008), Bryan Harper (2009), and Jordan Latt (2011).

## BASEBALL

### (4/10) TITANS' BATS COME UP HUGE AGAINST CLACKAMAS

Lane Baseball had a total of 71 at bats with 31 total hits and 21 RBIs for two big victories over the Cougars in Tuesday's double-header. In game one, the Titans had a 9-5 lead going into the top of the ninth before scoring 13 more for a 22-5 annihilation of Clackamas. Spencer Smith got the most RBIs with 4 while going 5-for-7. Tyler Johnson got the win for the Titans pitching one full inning.

Lane continued the hitting and scoring in Game 2 getting three runs in the first 2 innings alone, and then getting a couple more to secure a 5-0 victory. Shawn Boehm (pictured) went 4-for-4 with a HR, 3 doubles, and 2 RBIs. Dan Katayama went 2-for-4 and Nate Mays went 2-for-3. Titan's pitcher Zach Kayser threw 6 innings in the win, while Jordan Cameron pitched 5 innings in the loss for the Cougars. The 2 wins keep the Titans a top the Southern Region with a 6-0 record and 12-4 season record. Lane will have one day off before heading to Gresham to face Mt. Hood in a April 3rd make-up double-header at 1 p.m. on Thursday, 4/12.

### (4/14) LINN-BENTON HANDS BASEBALL FIRST DIVISION LOSS

Lane split the home double-header against Linn-Benton on Saturday. The Titans had a good showing in game one with a 13-7 win getting 5 innings from Dawson Phinney who pitched the win. Shaun Boehm (pictured) showed up big with a double and homerun for 6 RBIs going 3-for-4, while Blake Montague went 3-for-3 with three singles.

Game two showed the Titans are human with an 8-4 loss. Spencer Smith ended up getting the loss for the Titans, with Garrett Miller earning the win for the Roadrunners. Smith did go 2-for-3 with a double and three RBIs to help his cause. The split puts the Titans at 13-5 overall and 7-1 in league play. Their next game will be a double-header at home against Chemeketa (9-3, 7-3) on Tuesday, 4/17 at 1 p.m.

## TRACK

(4/13-14) Even after a bus malfunction and a 1 hour and 40 minute halt in travel, the Lane Titans were able to still get some athletes in their races on Friday night of the Chico Twilight, IN CHICO. The delay in travel got the team to the meet about 15 minutes before the 800, which resulted in Elias Gedyon and Stetson Smith not getting to compete. They will be moved into the 800 sections today. Elias still did a hard 600 time trial as he is still in preparation mode. Caleb Patrick and Kyle Ruhlin ran their first 3k Steeple of the season finishing fifth and sixth respectively. Patrick has never the run the event and just missed the NWAACC Qualifying mark by 0.28 running 10:20.23. Rachel Jensen competed in the 5k after about a week and half off from having mono. She cruised to an easy 19:50 which should get her into the event for NWAACCs.

## JUMPERS SOAR FOR LANE AT CHICO MEET

Published in Register-Guard 4/15/12: Brandon Nash cleared a lifetime-best 6 feet, 93/4 inches to finish tied for second at the Chico Twilight on Saturday night. Lane's David Formolo went 15-6 to finish second in the pole vault, and Joey Hart went 23-11/2 in the long jump. Shay Applegate went 18-0 to finish second in the women's long jump, and Tara Calroton was second in the pole vault with a lifetime best of 11-10."

After two long days there were several athletes who got season best, personal best, and /or NWAACC Qualifying marks. Please see the link for more results. Lane will send some qualifying athletes to the Oregon Relays on April 20-21, and others to Oregon City on April 21.

## SPRING CONFERENCE PREVIEW

Spring has at long last sprung, which also means that Lane's annual Spring Conference is just around the corner! On Friday, May 4, this year's conference will begin with a hot beverage and light breakfast food service from 8:00-8:30 a.m. in the CML lobby. At 8:30 a.m., President Mary Spilde's opening remarks will kick off the day's program. Presentation of annual innovation awards by Mary will be followed by an energetic and memorable showcasing of the Fulfilling our Mission theme crafted by Vice-President Sonya Christian, Lane's talented media staff, and a cast of enthusiastic presenters. The morning's content will bring us full circle as we revisit the Strategic Directions focus of Fall In-service and link it to the conference theme.

Morning break-out sessions will include professional development in the form of a Change Management workshop, and sessions on the topics of: Institutional Score Card-Achieving the Dream; Online Teaching and Learning; 21st Century Core Learning Outcomes-Think, Engage, Create, Communicate, Apply; and Facilities and Sustainability.

A hosted lunch for staff with an Indian theme will be served at the cafeteria from 11:45 a.m.- 12:45 p.m.

Afternoon highlights include the Classified and Professional Development Team's (CPDT) Open House with a prize raffle and opportunities to learn about the many benefits associated with membership; a collaborative effort between the Budget Office and College Finance as they jointly host a session for classified admin support staff on Budget 101: Back to the Basics; Wiki Up! with Michael Levick, a session designed to showcase the power of the Wiki; and R&D Innovation Project Presentations coupled with an FY 13 R&D mentoring opportunity to those staff interested in submitting a proposal for next year. If you are a staff member considering submitting a proposal for FY 13, you will want to make room in your schedule and plan to attend this session. A session on Everything You Ever Wanted to Know About Financial Aid...but were afraid to ask, and a Grant/Program Design Workshop are also included in the afternoon's fare. As in year's past, Health & Wellness Program sessions will also be held during the afternoon. All staff are encouraged to visit the conference website to review the most recent schedule draft in order to plan attendance throughout the day. The day will end on a high note as we all move toward the conclusion of spring term and an eagerly anticipated June graduation for our

#### NEW PIN REQUIREMENTS FOR MYLANE

To improve information security and enable self-service password changes, Lane is changing the password requirements for your myLane account. We are converting to a pass-phrase with a minimum of 12 characters and a maximum of 16 characters, using a combination of letters and numbers. A pass-phrase is simply a different way to think about your password choices. Instead of using a word as password suggests, a pass-phrase suggests using a phrase. In preparation for this change, we are asking that you change your security questions now so that you are ready for the upcoming conversion to pass-phrases. NOTE: You will not be able to change your password/PIN to your new pass-phrase until after April 23. You will need to change your password to a 12- to 16- alpha-numeric pass-phrase on or after April 23.

## SPRING CONFERENCE ARRIVES ON FRIDAY

On Friday, May 4, our 2012 Spring Conference will begin with a hot beverage and light breakfast food service from 8:00-8:30 a.m. in the Center for Meeting and Learning lobby, Building 19, followed by President Mary Spilde's opening remarks at 8:30 a.m. to kick off the day's program. Although hot beverage cups will be provided, please begin to practice Lane's commitment to sustainability by bringing your own container if at all possible.

Over the course of the morning, Mary will present this year's prestigious annual innovation awards, followed by an energetic and memorable showcasing of the Fulfilling our Mission theme expertly crafted by Lane's talented media staff with Dean Middleton at the helm, and a cast of enthusiastic presenters including Al King, Stanley Coleman, Anne McGrail, J.S. Bird, Jennifer Hayward, Roberta Stitt, and Wendy Simmons. Modeled after the online TED Talks, riveting talks by remarkable people ( [www.ted.com](http://www.ted.com) ), you will not want to miss Lane's version, the Titan ED Talks. The morning's content will bring us full circle as we revisit the Strategic Directions focus of fall In-service.

Morning break-out sessions will include a Change Management workshop for classified staff, and sessions on the following topics: Institutional Score Card - Achieving the Dream (hosted by Ben Hill), Online Teaching and Learning (hosted by Brad Hinson), 21st Century Core Learning Outcomes - Think, Engage, Create, Communicate, Apply (hosted by the Lane Assessment Team), Facilities/Bond Update and Recycling Program Review and Tour (hosted by Dave Willis and Mike Simms), and Voices from Within – Lane Community College LGBTQ Staff and Students Tell Their Stories (in a panel format hosted by Al King).

Now is the time to do some spring cleaning by recycling computer and electronic items at the Spring Conference. Drop small items off at the table in the reception area during the morning social or call the HelpDesk (4444) for pickup. No mPulse or Megamation work order needed! Examples include, but are not limited to: printers, cartridges, monitors, scanners, cables, desktop PC's, laptops, PDA's, speakers, and VCR's. We will accept software and manuals too. If we can't find a use for the items at the college then they will be sent to NextStep Recycling so someone else can use it or else they will use environmentally friendly procedures to dispose of it. Sponsored by IT. Contact [HelpDesk@lanecc.edu](mailto:HelpDesk@lanecc.edu) or call 4444.

A hosted lunch with an Indian theme that showcases local and seasonal ingredients incorporated into the menu will be prepared by professional Chefs Tim Hill and Adam Hammel and their trained staff. Once again, staff will enjoy a memorable lunch together with service at the cafeteria beginning and ending somewhat earlier this year, from 11:45 a.m.-12:45 p.m. Please visit the conference website to view the entire schedule and see breakout session details: <http://lanecc.edu/in-service/spring12/index12.html>

#### HANDS ON CAREER DAY A HUGE SUCCESS

More than 200 high school students participated last Friday in Hands-on Career Day on main campus. Each student selected two course sessions to attend from a variety of options offered by departments across campus. Students were able to get "down and dirty" with hands-on learning about programs at the college and associated career opportunities. A huge thank you goes out to the High School Connections team, the Student Recruitment and Outreach team, and all the faculty and staff who engaged and inspired students on Friday. Many of the students left the event excited about continuing their education after high school at Lane Community College. Special kudos for Pam McClelland and Marilyn Akehurst, who spearheaded the planning and implementation of this wonderful day. Local TV stations KVAL and KEZI covered the event. Contact: Deron Fort, Director of High School Connections, 5535.

#### WALK-BIKE-BUS-POOL-CLICK: JOIN THE BUSINESS COMMUTE CHALLENGE MAY 14-18

The 2012 Business Commute Challenge (BCC) is an annual week-long (May 14-18), friendly competition amongst local area Eugene-Springfield businesses to see who can save the most non-drive alone trips in one week! What is it about?

It's about exploring active/healthy transportation options.

It's about driving less and saving money.

It's a chance to win great prizes.

It's about the fun factor!

Why join the Challenge? Last year, more than 2,300 local employees representing 150 business teams took the Challenge. In just one week, the BCC participants reduced single - person car travel by 93,000 miles, reducing 75,000 pounds of carbon dioxide, and saving approximately \$18,000 at today's gas prices! That's money that stays in their pocket and in our community. And that means a healthier planet. How cool is that? Think outside the car and join the adventure! Go to <http://www.commutechallenge.org/?q=user/register> and select Lane Community College from the Parent Organization ~ Team is "Bike Lane". Complete the registration and you are in! Email us in the ATC ( [atc@lanecc.edu](mailto:atc@lanecc.edu) ) and tell us you joined and which mode of transportation (Bike - Walk - Bus - Carpool) you will use the most during the BCC ~ we have some goodies we would like to get to you (gift certificates, bus passes, chocolate, and more!)...hurry goodies are limited!

#### BE A PART OF LANE FAMILY DAY ON MAY 19

The Second Annual Lane Family Day will be Saturday, May 19 from 9:30 a.m. to 1 p.m., in the Center Building cafeteria. Pancakes will be served from 9:30-11 a.m. Last year was a huge success with more than 500 attendees and showcases of many different departments on campus. Children and families enjoyed activities such as the inventor's station-science, nutritional awareness, flight simulator, and face painting, to name a few. Please consider being a part of this year's event by presenting an activity or volunteering to help out! You will get free pancakes too! We want to highlight all the great programs available through Lane to this next generation of students. Future students looking at their educational options will remember seeing Lane superheroes (artists, nurses, chefs, pilots, business members) and they will be better informed about what Lane has to offer. For more information contact Sue Norton via email [nortons@lanecc.edu](mailto:nortons@lanecc.edu) or 3301.

#### BASEBALL—

(4/24) The Titans team faced a tough foe in double-header away games against Southwestern Oregon Community College on Tuesday. In game one, despite outhitting the Lakers ten to six, Lane left ten runners on base in a tough 4-5 loss. Nic Coffman went 4-for-4 with 3 singles, a triple, and 1 RBI. Brad Gregory pitched 7.2 innings in the win, with Kevin Harrison getting the save for SWOCC. Parker Sherrell pitched 2 innings in the loss for the Titans.

Lane couldn't overcome SWOCC's 5-run third inning in game two which resulted in a 4-7 loss. Four Titans got the six hits for the Titans with Nic Coffman going 2-for-2 getting two RBIs, and Elliot Sherrell going 2-for-4 with a triple and one RBI. Coffman pitched 2 innings and allowed 6 hits and 5 earned runs in the loss. Kyle Davis got the win for the Lakers.

(4/26) The Lane and Mt. Hood Baseball teams finally got in their double-header after being rained out on April 3rd and April 12th. All that waiting paid off for the Saints as they came away with two wins. In game one, Mt. Hood scored the winning run with 2 outs in the bottom of the ninth inning for a 3-2 victory. Dawson Phinney went 7 2/3 inning for the Titans, but Zach Eyster got the loss. Once again Lane outhit their opponent 10-6, and Alex Cornwell and Nic Coffman both went 2-for-3.

In game two, Lane outhit Mt. Hood 8-2 and left 8 men on base including stranding the bases loaded in the top of the seventh, which ultimately resulted in a 3-1 loss for the Titans. Zach Kayser pitched four inning allowing 3 runs, one of which was earned because of two Titan errors. Blake Montague went 3-for-3 and Shaun Boehm went 2-for-3.

(4/28) The Titan Baseball team snapped a seven-game losing streak with two big victories over the Clackamas Cougars at home. Lane held Clackamas to one hit in game one, and got thirteen of their own for an 8-0 victory. Shaun Boehm and Nic Coffman went 2-for-4 each getting a double and 3 of Lane's RBIs. Colben McGuire pitched seven innings and allowed the lone hit in the win. Colton Wright allowed ten hits in six innings in the loss for the Cougars.

Despite five errors and eight runners left-on-base, the Titans' thirteen hits equated to thirteen runs for 13-3 victory in game two. Nic Coffman pitched three hitless and scoreless innings, and helped his cause with a homerun. Several Titans had good showings at the plate with Coffman and Boehm leading again, each getting four RBIs. Lane now 10-8 sits at third in their division and 16-12 overall. Their next game will be an away double-header against Linn-Benton (15-12, 8-8) on Tuesday, 5/1 at 1 p.m. Lane split games with the Roadrunners in the last outing.

## FACILITIES UPDATES

### MEGAMATION SYSTEM WORK REQUEST UPDATE

MegaMation, the new CMMS (computerized maintenance management system) is now live and receiving work orders from all Lane campuses. Many questions have been received from the users, and several great ideas have been submitted to FMP. Beginning Monday, work orders stored in MPulse will be moved to the new MegaMation system. Each work order transferred to the new system needs to be entered manually, then assigned, so it is expected this process will take some time to complete. But, thanks to the help of the divisions and FMP trades staff, 500 open work orders in the old management system were closed. With MegaMation, FMP staff can now access all work orders submitted at any time, they can see where and to who each work request order is assigned, they can enter update information and status of an existing order, and can check for new assignments. Having the ability to access and use these new tools in MegaMation, helps FMP create a better organized process and more efficient work schedules.

### TRADES UPDATE

The trades are working hard to complete priority and safety-related work orders as well as closing work orders still in the system. In addition maintenance tasks, trades staff are adjusting to a new routine, are learning a new computer program and technology skills less familiar to some, while FMP transitions the campus into this new paperless maintenance management system. In the process, orders may be cancelled unintentionally. If you believe your work order has been canceled, and the work has not been completed, please submit a new work request through the MegaMation website:

[http://dlweb.megamation.biz/lanecc/DLWEB.php/O4W\\_LOGIN\\_DLWEB](http://dlweb.megamation.biz/lanecc/DLWEB.php/O4W_LOGIN_DLWEB)

As a reminder, it is important that you do not contact the trade staff directly to request work to be completed. With the amount of work orders currently back-logged, tasks could take longer than anticipated. The best tracking system available to track your work order request progress is through the website, as demonstrated at the MegaMation program training offered. Contact Mark Richardson, 3456.

### DOWNTOWN CAMPUS PROJECT

Construction continues to be on schedule and in budget.

It's understandable that as the project takes shape more and more Lane people are asking to tour the project. In an effort to better coordinate the tours, the contractor has reserved a particular day and time each month for tours by Lane employees. Those wishing to tour the building are asked to show up at 1 PM at the contractor's main office at 101 West Broadway on the third Thursday of each month. Groups containing ten or more should RSVP in advance.

See what's happening now: Watch the Downtown Campus construction via the webcam, updated hourly between 8 a.m. and 8 p.m. at <http://www.lanecc.edu/dc/video.html> . Contact Bob Mention, 5747.

JUSTIN STUCK AND ANNA STEHLE "BALANCE" opens May 7 in the Lane Art Gallery, Building 11. A lecture with both artists will be held Thursday, May 10 at 3 p.m. with a reception immediately following. Justin works in the sculpture studio and Anna works in the ceramics studio within Art and Applied Design. The exhibition consists of both sculpture and ceramics, along with installation work.

When asked about her current work for this exhibition, Anna stated, "Finding a balance between my love of making pots and the countless daily events in my life has been a struggle over the last couple of years. With family, work, friends and all that goes along with that, pottery has taken a back seat. I have come into this new chapter in my life with pottery gradually, seeking a balance along the way." Justin says his work is being "drawing from my personal experiences I hope to tap into "something honest and real", which translates universally, "the reality of human experience," to others." ## NEWS AND ANNOUNCEMENTS

AMY BURBEE NAMED EMPLOYEE OF THE MONTH

Kudos and congratulations go to May's Classified Employee of the Month – Amy Burbee in Advanced Technologies. Representatives of the Classified Professional Development Team joined staff in the Advanced Technologies to present Amy with the EOM award for May 2012. Amy has worked at LCC since December 2000 and became Administrative Coordinator in Advance Technology in October 2007. Some examples to justify Amy receiving this award include: Since Amy's arrival in her position, Amy has shown helpful attitudes toward instructors needs; she also follows through with all suggestions. Communication has been at its highest level, which helps maintain a greatly improved working environment. Her attention to detail and appropriate process have resulted in the smooth delivery of division services to students and faculty without allowing work to back-up or problems to develop. To say Amy maintains a positive working relationship is an understatement. She goes above and beyond with a smile and a con-do attitude. Amy approaches her work with a sense of humor, an eye on building relationships for a lifetime, not just a moment and her organizational skills are the envy of everyone that knows her. Amy always seems to know the right person to contact to solve a problem and typically will drop what she is doing and make the appropriate phone call and/or fill out the paper work and she gets it done now. Her positive attitude, college-wide perspective, and effective performance at a high standard make her a perfect example and model of an outstanding employee. When you see Amy, congratulate her for doing a terrific job and celebrate her nomination as May's Classified Employee of the Month. And remember that, you too, can help us to recognize exemplary classified employees by nominating them for this award by the 15th of each month. Nomination forms are available: 1) on the CPDT website:<http://www.lanecc.edu/cpdt/recognition/eominfo.html> or 2) from Elaine Marsh, IRAP, [marshe@lanecc.edu](mailto:marshe@lanecc.edu)

The 2012 Business Commute Challenge (BCC) is an annual week-long (May 14-18), friendly competition amongst local area Eugene-Springfield businesses to see who can save the most non-drive alone trips in one week! What is it about?

It's about exploring active/healthy transportation options.

#### BASEBALL

<http://www.lanetitans.net/baseball>

(5/1) Lane and Linn-Benton Baseball were originally scheduled to play in Albany, but weather moved them to Lane's field. In game one, 4 errors did the Titans in for a 5-1 loss. Cody McDonald was the only Titan to get across the plate with a single from Alex Cornwell in the bottom of the seventh. Zach Eyster pitched 5 innings and allowed 6 hits and 2 earned runs in the loss for the Titans. Michael Bradshaw pitched all nine innings allowing seven hits and one earned run for Linn-Benton.

Lane put up eleven hits in game 2 for a 4-0 victory. Spencer Smith, Elliot Sherrell, and Shaun Boehm each went 2-for-3 with 1 RBI a piece, while Daniel Katayama also went 2-for-3. Zach Kayser pitched 5 2/3 innings of the six inning game with six strikeouts and 3 base-on-balls.

(5/5) Lane Baseball had a close 3-2 victory against Chemeketa in game 1 of the double-header on Saturday afternoon. Despite pitching the entire game for the Storm, Ryan Smith got the loss giving up only 3 hits. Dawson Phinney pitched the win for the Titans, with Zach Kayser getting the save. Cody Chagnon had a big day at the plate getting 2 RBIs.

Only one run separated the teams in Game 2 with Chemeketa edging Lane 2-1. Colben McGuire was on the mound in the loss for the Titans, with BJ Wilson getting the win and Ryan Thompson getting the save for the Storm. Nic Coffman (pictured) went 2-for-3 with a double and the lone RBI for Lane, while Cody Chagnon also going 2-for-3 and getting a double. Lane is now 2 games over .500 in their Division, and 5 games out of first behind Mt. Hood and Chemeketa.

### LANE RECOGNIZED AS NATIONAL LEADER IN GREEN FUNDING

The Sustainable Endowments Institute has recognized Lane Community College as a leader in green financing for our commitment to funding energy conservation and renewable energy through utility carryover, bond, and deferred maintenance funding.

Lane's Sustainability Office has accepted an invitation to attend the inaugural summit "Financing the Future of Energy Efficiency" at Harvard University in Cambridge, Massachusetts on May 15. This one-day gathering will bring together, by invitation only, national leaders in sustainability and finance with presidents, trustees, and senior officials in finance, facilities and sustainability at colleges, universities, foundations and other nonprofit institutions. The Summit's theme is Transforming Energy Efficiency Upgrades from Expenses to High Return Investments; the focus is on higher education institutions as pivotal points to reduce greenhouse gas emissions and to demonstrate the groundbreaking budget benefits of green revolving funds. The metrics recently compiled are impressive: A median annual return on investment of 32 percent for green revolving funds was documented by Greening the Bottom Line at <http://greenbillion.org/resources/#reports>, a report published by the Sustainable Endowments Institute in 2011. A bright spot in a rocky economy, these profitable investments are lowering operating costs and carbon footprints on campus, while helping create green jobs in surrounding communities. Organized by The Billion Dollar Green Challenge and the Sustainable Endowments Institute (a special project of Rockefeller Philanthropy Advisors), the Summit is co-hosted by Heather Henriksen, Director of the Office for Sustainability at Harvard University, and Mitch Thomashow, President Emeritus of Unity College and Director of the Presidential Fellows program at Second Nature. Anna E. Scott, Energy Analyst, will represent Lane Community College. Kudos to all of those who have supported funding for energy conservation and helped to make our projects a reality. It is exciting that Lane is again recognized as a national leader in sustainability!

### TITAN TRACK & FIELD SMASHES COMPETITION AT SOUTHERN REGIONAL CHAMPIONSHIPS

On a windy and warm Saturday in Gresham, OR, Lane was on a mission to continue its Regional dominance on the Track and in the Field at Mt. Hood Community College. The men claimed their ninth consecutive Regional title scoring 333 points well ahead of second-place Clackamas with 174 points. The men event winners were Branden Helms (100m-11.05, 200m-22.07), Elias Gedyon (1500m-3:54.63), Kyle Ruhlin (Steeple-10:10.94), Kevin Accinelli (110H-16.12), 4x400 relay (3:20.41), Brandon Nash (HJ-2.07m), Joseph Hart (LJ-7.07m, TJ-13.48m), Danny Parks (SP-13.60m, Discus-49.69m), and Cory Miller who also qualified for the NWAACC Championships (Javelin-54.84m).

The women's team scored 251.5 points to claim the title, with Mt. Hood a distant second with 209 points. The women had some big performances on the way to their third straight Regional Championship. Perhaps the biggest performance on the women's side came from Tara Carlton who broke the school record and won the Pole Vault clearing 12' 1.25" (3.69m) to eclipse the old mark set by Lindsay Beard (12' 1.75"). Other women's event winners were Allie Church (100m-12.41, 200m-25.27), Gylany Crossman (800m-2:21.15), Rachel Jensen (1500m-4:47.55), Barry McLaren (HJ-1.57m), Shay Applegate (LJ-5.38m), Kaimi Zablan (SP-12.36m), and Kayla Johnson (Discus-39.09m).

The Titans will be heading to the NWAACC Championships in Spokane, WA on May 21-22 to conclude the season. Lane expects its depth and talent to put them in strong contention for the title with Spokane Community College who is the defending champion on both the men's and women's side.

BASEBALL (<http://www.lanetitans.net/baseball/>)

(5/8) Lane Baseball came up short in both games on Tuesday against Mt. Hood. In game one, seven errors and 11 men left-on-base led to a 9-7 loss. The Titans had 12 hits, four of which were doubles. Cody Chagnon went 2-for-3, Daniel Katayama went 3-for-5, and Elliot Sherrell went 3-for-5 each getting 1 RBI. Zev Egli, Brian Capps, Kendell Motes, and Christian Bannister pitched for the Saints with Motes getting the win and Bannister getting the save. Zach Eyster pitched 3 2/3 inning in the loss for the Titans.

Although Lane got seven hits and had no errors in game two, they still fell short in a 7-3 loss. Nick Coffman went 2-for-3 and had a base clearing double to tie the game in the top of the fifth. Mt. Hood responded with four runs of their own in the bottom of the fifth to secure the win. Riley

Barr pitched all seven innings for the Saints with eight strikeouts in the win. Zach Kayser pitched 4 1/3 inning allowing eight hits and six earned runs in the loss for the Titans.

(5/12) Lane looked strong Saturday against SWOCC with two big wins at home. In Game 1, Dawson Phinney threw seven innings in the 8-1 win, with the only run coming off an error in the top of the seventh. The Titans left 13 men on base, but got good showings from Cody Chagnon and Elliot Sherrell (both 2-for-4 with double), Cody McDonald (1-4 with 2 RBIs), and Blake Montague (2-for-3). Josh Wonsley pitched 5 2/3 innings in the loss for the Lakers allowing 11 hits and 7 runs, 4 of which were earned.

Lane came out swinging in Game 2 getting 3 runs in the bottom of the first, which was enough in the 5-2 win. The Titans got just 3 hits, one each from Spencer Smith (1-for-4), Elliot Sherrell, and Blake Montague ( both 1-for-2). Sherrell and Daniel Katayama both got 2 RBIs in the win. Colben McGuire pitched 6 innings and gave up four hits and two runs, striking out six and walking one in the win for the Titans. Parker Sherrell pitched one inning for the save. Kevin Harrison was the losing pitcher only giving up one earned run out of the five scored. Lane now has a season record of 20-16 with a 14-12 division record. Division leader Mt. Hood lost 2 which helps the Titans cause of trying to make the post-season tournament. Lane will face Clackamas (10-28, 7-19) in an away double-header on Tuesday, 5/15 @ 1pm. Lane has piled up a 48-8 run total in the four wins against Clackamas this season.

SWEET KITTY NEEDS A NEW HOME. I am moving and can't take her with me. She is about four years old, very playful and affectionate. "Fluff" is a long-haired grey kitty with excellent litter habits. GOOD DOG NEEDS GOOD HOME. Loss of one income and a baby on the way necessitates re-homing our sweet 18-month-old lab/pointer mix. He is great with our kids and cats, is fully vaccinated, fixed and micro-chipped. He is solid black, lab behaviors with some pointer physical characteristics. He is kennel trained and knows some basic commands. He will come with all his records. No re-homing fee, we just want him to go somewhere he will be loved. This will be very hard for our kids so serious inquiries only please. Call 541-344-1552. Judy McKenzie.

HORSE LOVER? Do enjoy trail riding and have lots of trail experiences with your horse partner? If so, I wonder if you have time to help me with my "project" trail horse. My horse, Tchuey (chewy) is a retired show horse and true gentleman; however, he does have that "show horse spook". I've been working with him in an arena setting on trail type items, tarps, bicycles, poles, etc. We have also been to a couple of trail clinics. Now I believe it is time to try the real thing, out on the trail, but we need a tried-and-true partner to help us build our confidence. If this sounds like something you would be interested in, please send me an email at shermanp@lanecc.edu or call ext. 4303. If we can trailer together that would be great too (something else we need to practice :o). I will be more than happy to pay for gas. Peggy Sherman, Aviation Academy.

### 3 POINTS NORTH ARTISTS TALK

Photos at: <http://www.lanecc.edu/mpr/news/rei01545.htm>

The Lane Art Gallery is proud to present "3 Points North Artists Talk and Reception" on Friday, June 8 at 1:30 p.m. with a reception immediately following. The exhibition will be open until June 14. Visiting artists are Rob Beishline, a ceramic professor at Whatcom Community College in Bellingham, Washington, and Andreas Salzman, a ceramics and sculpture professor at Lane.

Beishline's work uses birds and animals to create experiences for himself and the viewer, "I do not see the pieces as metaphors, but realize that they could be read that way. I can identify with animals and am tempted to try to read myself in them, but the really valuable moments are when I can stop and look in silence."

Salzman's mixed media sculpture reflects the world in which he lives. "As an artist I feel that I can only talk about the issues of which I am passionate. The most important issues in my life are the relationships I have with the people around me. I try to illustrate the innermost feelings and emotions that are a result of the roles and decisions within my life. I include specific evidence of my journey to this state so I can build a sense of personal ownership of the content of my work."

This exhibit also features work from Minnesota artist Daryn Lowman.

The gallery is located in building 11 on main campus. There is no charge for admission. For more information call Art and Applied Design at 5409.

### TERM'S END SHAKESPEARE SHOWCASE

The Blue Door Theatre in Building 6 will be awash with passions on Saturday, June 9, at 2 p.m. and 7 p.m. Admission is free.

Student actors are joined on stage by experienced community actors and faculty members. The event began more than 20 years ago as a collaboration between Theatre Arts instructor Judith Roberts, and retiring English instructor Bill Woolum. It evolved into the Term's End Shakespeare Showcase, a two-hour saga of theatrical pieces, overflowing with emotions - love, jealousy, compassion, honor, lust, revenge, guilt, and humor.

Guest artists will include musicians Janet Naylor and Wayne Gilbertson, and actor Joe Cronin, who also assists with coaching actors. Swordplay coach is John Elliott III.

The quarterly event is produced by the Student Productions Association (SPA), who also sponsored the building of a replica of London's Globe stage, by master carpenter Scott Williams.

Director Judith "Sparky" Roberts says the student actors at first are hooked by Shakespeare's enthralling stories and magnetic characters: then the work begins. She says, "These very modern actors strive to make Shakespeare completely comprehensible – his dynamic language, his tales, and our common ground of humanity. The program will appeal to Shakespeare-lovers and those who just want to experience a wild ride on the currents of the Bard's imagination."

The current program includes scenes from Hamlet, Macbeth, King Lear, Measure for Measure, The Tempest, Much Ado About Nothing, Romeo and Juliet, Henry IV/ Part 1,

Henry V, Othello, Julius Caesar, The Taming of the Shrew, Richard III, A Midsummer Night's Dream, Titus Andronicus, As You Like It, and Troilus and Cressida. Seating is open. Audience members must be 10 years or older to be admitted. Donations are welcome, to support the continuing efforts of the Student Productions. Contact: Sparky Roberts at 541-868-4545 or Student Productions Office at 541-463-5761

#### GRAD IS NATION'S 1,000th CERTIFIED SUSTAINABLE BUILDING ADVISOR

When Nora Cronin completed the exam to become a Certified Sustainable Building Advisor she had no idea she would become the 1,000th CSBA in the country. This was significant for both her and the national SBA Institute, which offers courses locally through the Northwest Energy Education Institute at Lane.

Cronin, a housing development associate for St. Vincent de Paul in Eugene, heard about the program from their architect who highly recommended it. She says she was attracted by "the holistic approach to sustainable building, not just adding green features but really thinking about how all the pieces work together."

"The instructors were outstanding," she said after completing the nine-month course. "So much quality information and expertise ... I was blown away by the high caliber of instructors and felt privileged to be a part of the class."

Catch her full story online at: <http://www.lanecc.edu/mpr/success/story84.htm>

A new SBA course is scheduled to start in October. Free information sessions are held periodically. For more information call Elaine Vidal at 3154.

#### FLORENCE CENTER PARTICIPATES IN RHODY DAYS ART FEST

The Lane Community College Florence Center participated in Rhody Days Art Fest 2012 with a booth showcasing the artwork of students, faculty and staff. On display were original pieces of pottery, fabric art and sketchbook cartoon shapes and characters. The event, held at the Florence Events Center on May 19 and 20, was one of many free events open to the public during the 105th Rhododendron Festival. Artists selling work at Art Fest donated a share of their proceeds to The Florence Area Humane Society. LCC Florence sponsored a raffle for a two-night stay in a cabin at Siltcoos Station and raised over \$150 for this group. The students and staff who worked in the booth during the two days enjoyed speaking to community members and visitors about the opportunities available at Lane. A number of current students and past alumni came by to share their stories and support the college and the humane society. A special thanks goes to Michi Lowe for her coordination of the event and to Wyatt Miles, Julie Ellingson

and Trudonna, the talented art instructors at LCC Florence. For photos and more information, contact Mary Jeanne Kuhar, Dean LCC Florence, at 4805 or [kuharmj@lanecc.edu](mailto:kuharmj@lanecc.edu)

#### ALL-STAFF E-MAIL REMINDER

Due to a recent surge in Lane all-staff e-mails, it is necessary to remind employees about the appropriate use of the LCC Employees e-mail group address. Lane policy <http://www2.lanecc.edu/copps/documents/information-technology-e-mail-distribution-guidelines> states that this e-mail address should only be used for e-mails that are urgent and of collegewide importance. This means that e-mails concerning conferences, films, sporting events, fund raisers, employee trainings, performances, etc., should be placed in the Lane Weekly and not sent out using the LCC Employees e-mail address. The LCC Employees address should be reserved so that when it is used, it is understood that it is an important message for all employees to be read immediately. We don't want it overused, or misused, because then employees are more apt to ignore it. Thank you. Contact: Bill Schuetz, CIO.

COME HELP ME CELEBRATE the publication of my book, on Friday, June 15, at 7 p.m. at Tsunami's, 2585 Willamette! Refreshments provided. Here is what to expect: "Bojana Stefanovska is a linguist from Former Yugoslavia who has lived in four different countries, Former Yugoslavia, Tunisia, the People's Republic of Congo and France before the age of 20, learning the French language and absorbing the local cultures. This is the story of her family: the part of Macedonia that her parents came from, with some of its folklore, their participation in the WWII guerilla warfare against the Nazi occupation and their life stories. It is a deeply personal tale, partly biography/memoir, partly fiction, and it includes a nostalgic and simple yet informed overview of the birth and death of Former Yugoslavia and its subsequent splitting up, as well as musings about Bitola, the second biggest city in Macedonia."

**SHIRL MEADS NAMED EMPLOYEE OF THE MONTH**

Kudos and congratulations go to June's Classified Employee of the Month – Shirl Meads of the Small Business Development Center. Representatives of the Classified Professional Development Team joined staff in the SBDC to present Shirl with the EOM award for June 2012. Shirl has work at LCC since October 1998 and became project coordinator for the SBDC in July 2006. Shirl is all about streamlining processes. She has shown initiative and creativity in the team development of a number of SBDC programs. Shirl comes up with ways to collaborate with the chambers of commerce in the county, and serve our diverse businesses/students. Shirl has been instrumental in helping the department grow facing restricted and in some cases reduced resources. Shirl's motto has been "faster, better, cheaper" when tackling department efficiency and effectiveness. She is a positive, cheerful force in the office, always seeking the good in a situation. Her honesty and integrity reflect in everything that she does and her multifaceted ability to manage her workload, keep their team motivated, and keep herself and

her family in balance. She has good management skills. She was recently a co-recipient of the SBA Innovation Award for the SBDC, as well as for the OSU Outreach and Engagement Cooperator Award. #### CASTING CALL

In-service video participants needed: The President's Office is seeking volunteers to be involved in a video for the fall in-service presentation (and possibly future use for other purposes), and we need classified staff, faculty and managers. We are still kicking around ideas for the video, so we don't have a set taping day but it will likely be some time in July or August. Past videos have been humorous or inspirational, and that will likely be the case this time as well. If you are interested in participating and seeing yourself on the big (projector) screen, please contact Donna Zmolek at 5301 or [zmolekd@lanecc.edu](mailto:zmolekd@lanecc.edu)

#### CONGRATULATIONS TO FORD SCHOLARSHIP RECIPIENTS

Twenty-seven Lane students received a Ford Family Foundation Scholarship this round. These scholarships pay 90 percent of tuition and living costs through a bachelor's degree. In addition to the Ford Scholarships, two of these students received additional scholarships. One student received the \$10,000 Talbot scholarship and the other student received a \$9,500 from the Pride Foundation. For scholarship information please contact [brysonj@lanecc.edu](mailto:brysonj@lanecc.edu)

<http://www.npr.org/blogs/health/2012/06/11/154596834/doctors-deploy-shots-and-drugs-against-whooping-cough-outbreak>

Do not spend your summer with the "100 day cough". You can easily prevent pertussis with a simple vaccination. Babies and elders are especially vulnerable. Make an appointment at the LCC Health Clinic or your medical provider today.

## BANNER STUDENT MODULE SYSTEM COORDINATOR UPDATE

Darlene Baker and Margaret Kimble, both formerly with Enrollment and Student Financial Services, have changed reporting and positions, respectively.

Margaret has accepted a project coordinator position with the CASE grant in Workforce Development (see Lane press release <http://www.lanecc.edu/mpr/news/re101464.htm>), with Dawn DeWolf. She is working with a state wide coalition on the CASE grant to institutionalize credit for prior learning. Credit for prior learning provides a mechanism by which students can use work experience to translate into credit and to meet degree and certificate requirements. This will significantly impact students coming to Lane through Workforce Development, from serving in the military and students, in general. Her telephone number remains 541-463-5692, kimblem@lanecc.edu and her office is in 17/304, which is shared with the Faculty First Year Experiences' office.

Darlene now reports directly to the Banner Student Module Data Custodian, which is Helen Garrett. Her telephone number remains 541-463-5614, bakerd@lanecc.edu and her office is in 17/303. Mail for Darlene should continue to be sent to Enrollment and Student Financial Services. She will continue her previous work, which includes being the Accounts Receivable Systems Coordinator, as well.

Plans are underway to post the vacant System Coordinator position previously held by Margaret Kimble. This position reports to Helen as well.

We have analyzed the projects Margaret was working on and have a transition plan in place. If you previously worked with Margaret and you need help with your systems' needs, please notify Helen Garrett at 5725.

## FACILITIES UPDATES

---

### ADA DESK INSTALLATION

FMP has ordered 80 ADA desks to be installed June 28 and 29 in the majority of classrooms and computer labs on main campus. Contact Jyoti Naik, 5568.

### FMP SAFETY TIP OF THE WEEK

According to the U.S. Fire Administration, it takes less than 30 seconds for a small flame to burn completely out of control and turn into a major fire. Consider:

Safe Exit Paths and Passages:

Keep hallways clear of all obstructions, e.g., file cabinets, chairs, etc. Fires cause buildings to fill with smoke. Panicked occupants will not be able to see obstacles and could hurt themselves or worse, it could prevent their escape.

2010 Oregon Fire Codes:

1003.3.3 Horizontal projections. Structural elements, fixtures or furnishings shall not project horizontally from either side more than 4 inches (102 mm) over any walking surface between the heights of 27 inches (686 mm) and 80 inches (2032 mm) above the walking surface.

1003.3.4 Clear width. Protruding objects shall not reduce the minimum clear width of accessible routes.

1003.6 Means of egress continuity. The path of egress travel along a means of egress shall not be interrupted by any building element other than a means of egress component as specified in this chapter. Obstructions shall not be placed in the required width of a means of egress except projections permitted by this chapter. The required capacity of a means of egress system shall not be diminished along the path of egress travel.

#### NOTICE: STAIR INSTALL ON THE EAST END OF BUILDING 19

Fabrication of new stairs for the east end of Building 19 is complete. Installation of the stairs will begin the week of June 18, and possibly extend into the week of June 25. During the first few days, there will be a crane set up in the area between Buildings 18 and 19. There will also be occasional truck and trailer traffic in the fire lane between Buildings 1 and 19 throughout the project, therefore, pedestrians using that lane should exercise caution. Expect some noise during this installation; however, it should not be excessive. For questions, please contact Brian McMurray at 5829.

#### JIM LINDLY NOMINATED AS OSBDCN SHINING STAR

Story and photo at: <http://www.lanecc.edu/mpr/news/rel01556.htm>

Jim Lindly, director of Lane's Small Business Development Center, has been nominated as the OSBDCN 2012 State Shining Star.

"Jim serves as an entrepreneurial fountain of ideas for all aspects of business management, finance, research and marketing and graciously shares his knowledge and expertise with others," said Michael Lainoff, OSBDCN director, in a nomination letter.

Andrea R. Testi, Treasure Valley Community College BizCenter director, wrote, "Jim far exceeds the expectations of the OSBDCN's criteria for 2012 OSBDCN State Star. Jim is an exemplary performer, a significant contributor to the OSBDCN programs, and demonstrates a strong commitment to small businesses. His attitude is that everyone, pulling together, can make the LCC BizCenter [Small Business Development Center or SBDC] an exceptional place to work and the best place for small businesses to get an entrepreneurial education and mentorship."

Jim has been with the OSBDCN and Lane since April 1997. He started as a part-time hourly instructor, developed and taught Smooth Selling the Seven C's, and instructed various other classes such as Going Into Business. He then became part-time faculty/director of the SBDC and Employer Training Services and eventually moved into the full-time director position in 2002. His past experiences provide him with an extensive knowledge base from which to draw on to make his SBDC director position and his value to the OSBDCN that much more expansive and valuable.

GREG EVANS NAMED APTA BOARD MEMBER OF THE YEAR

Greg Evans, Lane faculty member and founder of the Rites of Passage Summer Academies, has been named the American Public Transportation Association Outstanding Public Transportation Board Member of the Year. Evans is president of the Lane Transit District board. He has been a board member since 2008. Excerpts from an LTD news release: "Evans began his association with public transportation riding the bus as a young boy growing up in Cleveland, Ohio. Years later, he embarked on a 25-year involvement with public transportation, beginning work as a customer service representative for Lane Transit District from 1987 to 1990. During his tenure as an LTD Board member, Evans has served in a variety of leadership roles, including LTD Board vice president and chair of the Rosa Parks Memorial Committee; and he currently is a member of the Governor's Oregon Passenger Rail Leadership Council. His APTA activities involve membership on ten separate committees, including his active participation on the APTA Executive Committee. In February 2012, Evans, an ethnic studies teacher at Lane Community College and director of LCC's African-American Student Program, was presented with the 2012 Trailblazer Award from the Oregon Northwest Black Pioneers at the nonprofit group's annual dinner in Salem, Oregon. When asked what the APTA award means to him, Mr. Evans stated, 'I am deeply honored and humbled to receive this prestigious award. I appreciate the recognition of the efforts of my fellow board members and myself to make transit better for the people who live and work in our communities across America and Canada. I am also happy to be sharing this award with my esteemed colleague and friend, Lee Kemp, chair of the Denver RTD Board.' Evans will receive his award and be recognized at the 2012 APTA Annual Meeting from September 30 through October 3 in Seattle." Full story and photo at: <http://www.ltd.org>

#### KLCC NEWS WINS FIVE NATIONAL AWARDS

KLCC won five awards at the Public Radio News Directors Inc. conference in Houston on June 30. The contest covers work produced in 2011. KLCC is judged in Division C: Small News Staff.

KLCC News won awards for the following entries:

1st Place - Commentary by Jonathan Siegle, "Eugene's Funniest Person Dies." Judge's comments: "Riveting. Gave us chills. Somehow was charming, tragic, sad and funny all in a very short time period. It tells a difficult story extremely well, and does the near-impossible by being heartfelt without being overly sentimental. It made us want to learn more about the man who was being memorialized, and we commend the commentator for this excellent work."

\* First Place - Spot News by Jes Burns, "State Plans Herbicide Testing on Triangle Lake Residents." Judge's comments: "Good writing. Delivered well. Nice choice of sound bite."

\* First Place - Breaking News by Rachael McDonald, "City Council Tells Occupy Eugene to Leave."

\* Second Place - Spot News by Rachael McDonald: "Occupiers Clean Up Camp."

\* Second Place - Writing by Jes Burns: "McKenzie River Drift Boat via Grand Canyon."

KLCC is proud of it's award-winning news team! Contact: Gayle Chisholm.

CHILD CARE RESOURCE AND REFERRAL AVAILABLE TO FACULTY, STAFF AND STUDENTS

Did you know that Family Connections child care resource and referral services are available right here on campus? If you, or anyone you know in Lane and Douglas counties are looking for quality child care or have interest in exploring a career in child care, we are here to help! Our trained consultants match parents' needs with possible child care providers, and provide assistance to child care professionals. Our office hours are 9 a.m. to 3 p.m. and we are located in the Child and Family Education Department. We are closed Fridays for the summer and are temporarily located in Building 13, Room 101 while our regular office in Building 24 undergoes renovations. Please stop by or visit our website at [www.lanecc.edu/lfc](http://www.lanecc.edu/lfc) Submitted by Lisa Barrager, 3308.

PUBLIC ART TOUR WILL FEATURE LANE STUDENT ART WORK

Concurrent with the First Friday ArtWalk on August 3, the City of Eugene and Lane Arts Council present a public art tour featuring recent temporary student art installations throughout downtown Eugene, along with some familiar public art pieces along the way. The tour will begin at 6 p.m. on the steps of the Federal Courthouse at 405 E 8th Ave. Guides will be available at the ArtWalk, or downloadable from [www.lanearts.org](http://www.lanearts.org)

Tour stops:

Courthouse Steps:

\* Courthouse Sticks by Alex Keyes (Courthouse Gardens) A vibrant colored oversize set of pick-up sticks (popular children's toy) in the vacant lot/garden just west of the Federal Courthouse.

Park Blocks:

\* TV installation by Douglas Wiltshire. Likely the most controversial piece chosen, LCC student artist Douglas Wiltshire designed and fabricated temporary art pieces to encourage people to disengage from television.

\* Tom Hardy - Fish Fountain

\* Jan Zach - iron plant forms

Parcade at 8th and Willamette:

Kesey Square:

\* Aaron Poppie's Spatial Refractor which consists of large safety mirrors hovering along the top of the wall in the Square. Intended to be fun and whimsical, the mirrors add vibrancy and animation to all the summer events happening in the Square.

10th & Willamette and 13th & Willamette:

\* "Our Streets" by UO students Nina Colosso and Julian Watts. The stories of the people of Eugene gathered through interviews were recreated in an artist produced zine (D.I.Y. Magazine). Each story has been brought back into the urban landscape through colorfully painted traffic control boxes, each including a poetic fragment from a personal story. Artwalk participants will receive a copy of their own zine. See: <http://ourstreetseugene.com>

15th and Willamette :

\* Barrel of Monkeys by LCC artist Dustin Maxwell. Also a popular children's toy, this piece is created with a wine barrel and five monkeys who have "escaped" from the barrel. The monkeys are installed on light poles at various heights with the appearance that they are swinging down the street.

Submitted by the editor from a Lane Arts Council e-mail.

Blackboard Collaborate (formerly Elluminate) is undergoing it's annual revision to version 12 and we will be using this for the upcoming school year. Some of the more interesting developments include echo cancellation (no more headsets needed!) and an upcoming mobile client (students may participate with iPhones and iPads). Other topics will include Moodle integration and archiving sessions. This is also a good opportunity for self-starters to become familiar with Collaborate if you have the interest, or simply to brush up on familiarity with the environment if you are planning on using it in the upcoming year. ## DIGITAL STORY OF THE WEEK

Bethany Cornish has created a digital story told from the point of view of an American colonial feminist and activist, Penelope Barker. This is an example of how a digital story can be created to highlight and personify any historical figure in any field of learning.

FILMING AT THE FAIR BRINGS "CHARLOTTE'S WEB" TO LANE THIS FALL

[http://www.gazettetimes.com/news/local/filming-at-the-fair/article\\_5aaace40-ddfd-11e1-8d39-001a4bcf887a.html](http://www.gazettetimes.com/news/local/filming-at-the-fair/article_5aaace40-ddfd-11e1-8d39-001a4bcf887a.html)

The Corvallis Gazette-Times ran a story on August 4 featuring the cast of "Charlotte's Web" who performed at the Benton County Fair in full costume to create a series of short films. The films will be projected onstage during performances of the play at Lane Community College in October. Director is Judith "Sparky" Roberts, theater arts instructor at Lane, who "aimed to capture the 1950s rural fair feel of E.B. White's original fable. So she came up with the idea of filming cast members in period costumes interacting with 4-H animals and experiencing the fair." Read the whole story online at the link above. "Charlotte's Web," expected to run about 90 minutes, is scheduled for 7 p.m. on the weekends from Oct. 4 to Oct. 20 at the Ragazzino Performance Hall. Admission is \$5 for children and \$10 for adults. Children must be at least 8 years old to attend the performances, due to the emotional elements of the play. Submitted by the editor.

#### JOSIE SKEERS NAMED EMPLOYEE OF THE MONTH

Kudos and congratulations go to August Classified Employee of the Month - Josie Skeers of Specialized Support Services. Representatives of the Classified Professional Development Team joined staff in SSS to present Josie with the EOM award for August 2012. Josie began working at LCC in 1996 as an on-call Food Service Pantry Worker. Josie now helps men and women who have developmental disabilities in job positions on the LCC campus. Josie has created several ways of using positive thinking to keep her job interesting and creative. She is willing to help anyone succeed in whatever the task. She streamlines jobs by monitoring the worker in the job, and ensures the job is a good match. She implements new ways of doing old tasks that make it important to her and the client. Josie demands a respectful, inclusive and accessible working and learning environment. She reminds us that just because someone might be limited on their walking skills, they might be a great conversationalist or reader, etc. Josie is a great asset to Specialized Support Services. She is a dedicated 25-year Lane Community College employee. When you see Josie, congratulate her on her award. You too, can recognize exemplary classified employees by nominating them for the EOM award by the 15th of each month. Nomination forms are available: 1) on the CPDT website: <http://www2.lanecol.edu/cpdt/recognition/classified-employee-month> or 2) from Elaine Marsh, IRAP, [marshe@lanecol.edu](mailto:marshe@lanecol.edu)

#### FLORENCE CENTER HOSTS SUMMER TEEN TECHNOLOGY CAMP

Twenty two middle school students, ages 10-13, participated in a week long technology camp held at the Florence Center August 6-10. The camp included students from Florence, Mapleton and Hong Kong. The camp, a partnership between LCC Florence and the Boys and Girls Club of Western Lane County, was funded by a grant from the Western Lane Community Foundation. Students met each day and learned basics of computer programming using a language called Scratch which was developed by the Lifelong Kindergarten Group at the MIT Media Lab (<http://scratch.mit.edu>). During the camp, each student created digital characters (Sprites), learned to do simple animations, and developed interactive simulations and games. On the last day of the camp, students shared their final projects with each other and their families. When asked what they liked most about the camp, many students mentioned making animations and creating their own cartoon characters. Other favorites were the daily dance break and of course, healthy snacks! Ty the Titan visited midweek and was featured in an animation. Check it out:

A special thanks to John Aubry, our lead instructor, Laura Smith (aka the Science Lady from Siuslaw Middle School), camp coordinator, David Armstrong, Florence IT and Monica Cape-Lindelin, Boys and Girls Club. LANE TO LEAD STATEWIDE DEGREE QUALIFICATIONS PROJECT WITH \$789,000 LUMINA GRANT

<http://www.lanec.edu/mpr/news/rel01567.htm>

Lumina Foundation has awarded a three-year, \$789,000 grant to Oregon's 17 community colleges and 7 public universities to test a statewide application of the Degree Qualifications Profile (DQP) ( see [www.luminafoundation.org/newsroom/topics.html?\\_stopic=4](http://www.luminafoundation.org/newsroom/topics.html?_stopic=4) ).

The DQP in Oregon will define what students should be expected to know, and be able to do, regardless of their majors or fields of study, upon earning an associate or bachelor's degree. Lane Community College will act as the fiscal agent in the project for the state throughout the grant period.

"Students, faculty and employers will have a common understanding of what an associate or bachelor's degree really means," said Dr. Sonya Christian, executive vice president and chief academic officer at Lane, and co-principal investigator of the grant. "By documenting learning outcomes and competencies, there will be a greater level of clarity of students' knowledge and skill set beyond seat time at the course, program and degree level."

Over the grant period of September 1, 2012 through May 31, 2015, community colleges will create a descriptive profile that measures the knowledge and skills obtained by graduates for associate degrees, and universities will do the same for bachelor's degrees. Together they will describe how student learning should advance from the associate level to the bachelor's level, and provide valuable information to students and employers seeking information on skill sets of recent graduates. The DQP will help faculty articulate and align institutional student learning outcomes with departmental objectives.

As a result of this work, Oregon will have improved alignment of learning outcomes across all of postsecondary education, and a clearer definition of achievement gains as students progress towards a degree. This supports the State Board of Education and State Board of Higher Education vision for Oregon's 40-40-20 education attainment goal.

Last year, Lane hosted a statewide conference on the DQP for all 24 community colleges and universities in Oregon. The next conference is set for October 25 and 26 at Lane. Contact: Sonya Christian.

BUS STATION CLOSED SEPT. 7-14 FOR REPAIRS

The main campus bus station will be closed from September 7 through September 14 so repairs can be made to the brick crosswalk between the bus station and parking lot B. LTD will set up a temporary bus station on Parnell Loop, directly behind the bus station, to the east. Vehicle traffic will also be routed through Parnell Loop, but there will be no vehicle parking allowed on the loop road during this time. All parking spaces on Parnell Loop will be dedicated to buses. Any parked vehicles will be subject to ticketing and towing. Contact: Brian McMurray, 5829.

#### TAKE BACK DAY RETURNS TO CAMPUS SEPT. 29

Lane Public Safety will give the public another opportunity to safely dispose of expired, unused and unwanted prescription drugs during the fifth National Pharmaceutical Drug Take Back Day on Saturday, September 29 from 10 a.m. to 2 p.m. outside Building 19. The service is free and anonymous, no questions asked. No liquids, sharps or illicit drugs can be accepted.

"This is a great way to dispose of unwanted prescription drugs without harming the environment," says Chief Jace Smith, Public Safety manager at Lane. People often don't know what to do with old prescriptions. Flushing them or throwing them in the trash deposits chemicals into the waste stream and water table that pose potential safety and health hazards. In addition, medicines in home cabinets are susceptible to diversion, misuse and abuse. Rates of prescription drug abuse in the U.S. are high, as are the number of accidental poisonings and overdoses. Studies show that a majority of abused prescription drugs are obtained from family and friends, including from home medicine cabinets.

Last fall, Lane collected between 200 to 300 pounds of medicines for turnover to the DEA which incinerates the materials. Contact: Jace Smith.

#### JOYCE GALLERY OPENS SEASON WITH "TASTE AND FLAVOR: SPICY"

The David Joyce Gallery located in the Center for Meeting and Learning has opened its first exhibit of the 2012-13 academic year titled, "Taste and Flavor: Spicy." "Spicy" features 11 Oregon artists including Lane faculty and staff Dan Welton, Joe McCully, and Kathryn Torvik; Lane art student Lorena Cornell; and artists Robin Cushman, David Putzier, Ellen Hamill, JoEllen Gregori Waldvogel, Kat Sloma, Anne McRae, and Erin Kitselman. Exhibit designer is local artist and art consultant Susan Detroy.

An artists' reception will be held Thursday, October 11 from 5-6:30 p.m. with hors d'oeuvres prepared and served by the students in the Culinary Arts and Hospitality Management program. The gallery themes this year are based on concepts of taste and flavor—hot, piquant, prickly, dazzling. "Spicy" is featured this fall.

The gallery also is showcasing a new collection of the eclectic, photographic cutout fragments of artist David Joyce (1946-2003) for whom the gallery is named. Joyce taught at Lane for 25 years and is best known in the community for his monumental flying people mural "Flight Patterns" at the Eugene Airport, which was recently re-touched. Featured this fall are additional "flying people," and a large cutout of famed University of Oregon School of Journalism faculty/photographer Bernard Freemesser (1926-1977).

"Taste and Flavor: Spicy" runs through Friday, December 21, Mondays through Fridays from 8 a.m. to 5 p.m. All art is for sale with 25 percent of the proceeds supporting the David Joyce Gallery. More information is online at <http://www.lanecc.edu/mpr/news/rel01568.htm> and on Facebook at <https://www.facebook.com/TheDavidJoyceGallery>

PURRRRR. . . MY NAME IS BELLES, and I am a beautiful female silver tabby with blue eyes. I am affectionate and friendly and have a memorable purr when I am happy and content. I was rescued from an abandoned warehouse in Eugene last fall. I will be one year old in December. I need a quiet life with loving care and nice people who appreciate me, and that does not include boisterous children dashing through the house. I have received excellent care and food at my foster home, and am spayed and micro-chipped with up to date vaccinations. I adore curling up on a warm lap to snuggle with you, and will be your best feline friend, or BFF! <cat smile> I am good with other cats, but have not yet lived with a dog. I would make a great addition to anyone's pet family, and want a forever home. Please contact my foster mom at roxanneawatson@gmail.com to visit and appreciate me. Photos are available upon request. `

**GOVERNOR PRESENTS AWARDS TO SMALL BUSINESS DEVELOPMENT CENTER**

Governor John Kitzhaber presented Lane's Small Business Development Center with two National Small Business Administration Awards in a ceremony held at the State Capitol building on August 27. The highly coveted district regional awards for Center Excellence and Innovation for 2012 were accepted by Shirl Meads, the center's operations manager; Gary Smith, the center's signature Small Business Management program instructor and coach; and Jim Lindly, the center's director. Lane's SBDC has been helping the area's successful businesses become even more successful for over 30 years. The two individuals called out for special distinction were Gary Smith and Shirl Meads. They have worked together at the center for the last six years. Their joint efforts, in developing programs to meet the needs of the business community, have honed the services offered in the Small Business Management program to award-winning levels. "We are very pleased to host a children's clinic at Lane, and in the future, we plan to partner with Lane's Health Professions credit program to provide learning opportunities for the dental students and potential support for the clinic." #### CHILD AND FAMILY CENTER NOW ENROLLING...HURRY, SPACES FILL QUICKLY

The Lane Child and Family Center is a National Accredited and state licensed preschool/child care program serving students, staff, and the community. The Center is open Mondays through Fridays, 7:00 a.m.-5:30 p.m., and consists of five classrooms serving children ages 30 months through 5 years old. The center offers flexible full-or part time schedules to meet family's needs for child care. We provide engaging opportunities for children to explore, discover and experiment with a wide variety of materials in a safe and emotionally responsive environment.

The center is staffed by professionally trained teachers and enhanced by student teachers enrolled in the Early Childhood Education program. Our low caregiver-to-child ratio allows individual attention for each child and a variety of activities for children on a daily basis. Lane Students may be eligible for discounts through CCAMPIS GRANT, Child Care Subsidy and Coping opportunities. Call or come by the office for additional information. Contact the Lane Child and Family Center at [541-463-5517](tel:541-463-5517) or Building 24, main campus, or online at <http://www.lanecc.edu/cfe/lcfc/>

#### LANE HONORS PROGRAM - UP FOR THE CHALLENGE!

For students who want to challenge themselves to a higher level of learning and performance, the Lane Honors Program provides a transformative educational experience centered around scholarly inquiry, academic rigor and intellectual growth. Encourage your students to apply for fall term by Wednesday, September 12th or join the Honors Program initiative by developing and teaching an honors class in Winter or Spring 2013. Honors classes are available to all motivated students, while admission to the Honors Program requires a formal application. For more information, visit [www.lanecc.edu/honors](http://www.lanecc.edu/honors) or send questions to [honors@lanecc.edu](mailto:honors@lanecc.edu) or by calling Jen Hare at 3438. #### TAKE BACK DAY RETURNS TO CAMPUS SEPT. 29

Lane Public Safety will give the public another opportunity to safely dispose of expired, unused and unwanted prescription drugs during the fifth National Pharmaceutical Drug Take Back Day on Saturday, September 29 from 10 a.m. to 2 p.m. outside Building 19. The service is free and anonymous, no questions asked. No liquids, sharps or illicit drugs can be accepted.

"This is a great way to dispose of unwanted prescription drugs without harming the environment," says Chief Jace Smith, Public Safety manager at Lane. People often don't know what to do with old prescriptions. Flushing them or throwing them in the trash deposits chemicals into the waste stream and water table that pose potential safety and health hazards. In addition, medicines in home cabinets are susceptible to diversion, misuse and abuse. Rates of prescription drug abuse in the U.S. are high, as are the number of accidental poisonings and overdoses. Studies show that a majority of abused prescription drugs are obtained from family and friends, including from home medicine cabinets.

Last fall, Lane collected between 200 to 300 pounds of medicines for turnover to the DEA which incinerates the materials. Contact: Jace Smith.

PURRRR...MY NAME IS BELLES, and I am a beautiful female silver tabby with blue eyes. I am affectionate and friendly and have a memorable purr when I am happy and content. I was rescued from an abandoned warehouse in Eugene last fall. I will be one year old in December. I need a quiet life with loving care and nice people who appreciate me, and that does not include boisterous children dashing through the house. I have received excellent care and food at my foster home, and am spayed and micro-chipped with up to date vaccinations. I adore curling up on a warm lap to snuggle with you, and will be your best feline friend, or BFF! <cat smile> I am good with other cats, but have not yet lived with a dog. I would make a great addition to anyone's pet family, and want a forever home. Please contact my foster mom at [roxanneawatson@gmail.com](mailto:roxanneawatson@gmail.com) to visit and appreciate me. Photos are available upon request. ` `

**CHILD AND FAMILY CENTER EARNS FIVE-YEAR NATIONAL ACCREDITATION**

The Lane Child and Family Center has passed a rigorous review to earn a five-year accreditation from the National Association for the Education of Young Children – the nation's leading organization of early childhood professionals. "We're proud to have earned the mark of quality from NAEYC, and to be recognized for our commitment to reaching the highest professional standards," said Sue Norton, management coordinator for the Child and Family Education Department. "NAEYC accreditation lets families

#### JOIN WEIGHT WATCHERS THIS FALL

"I am so thankful that Lane is committed to the health of its employees, and the things that the Wellness program makes available. I joined Lane's Weight Watchers group last January, hoping to get support and learn some tools for getting serious about some weight loss. I lost 15 pounds over that first 10 weeks! I've continued to use the tools and support and have now lost over 30 pounds! I will admit that I thought once I learned the tools and made some new friends with similar goals I could continue on without continuing membership in Weight Watchers; during the break we had between sessions, I discovered differently. There's something to be said for the structure and accountability of a weekly weigh-in with kindred spirits. And the discussion topics are always lively, thought provoking, and helpful. No matter your personal health goal, WW @

Lane is a good vehicle to get there. Our insurance coverage combined with the deal that WW gives LCC makes it affordable; you are worth it!" - Gloria Jarvis.

Contact Wendy Simmons if you are interested in joining Weight Watchers.

This is in order for us to switch Moodle 2 ([lanecce.mrooms.net](http://lanecce.mrooms.net)) over to [classes.lanecce.edu](http://classes.lanecce.edu) We will be migrating your Summer 12 courses to an archive server and this will take approximately 5 days. We plan to have Summer 12 courses available again on Monday, 9/24. If you need to retain access to these courses please back them up and restore them into your Moodle 2 course. Please follow these directions ( <https://lanecce.mrooms.net/mod/page/view.php?id=190461> ) on how to complete the Backup/Restore process. Contact: Kevin Steeves.

## GET CAUGHT UP IN "CHARLOTTE'S WEB"

### Charlotte's Web Adds \$1 Sneak Preview

The Student Productions Association presents "Charlotte's Web" Thursdays through Saturdays, Oct. 4–20, at 7 p.m., and matinees on Sunday, Oct. 14 and Saturday, Oct. 20 at 2 p.m., in the Ragozzino Performance Hall, building 6, main campus.

A sneak preview (dress rehearsal) will be Tuesday, Oct. 2 at 7 p.m. for the special price of \$1. Since 1952, families have shared the experience of "Charlotte's Web" the novel acclaimed as a children's classic in literature. The ever-fascinating story is depicted in American movies and toys, and is popular all over the world. Author E. B. White also wrote "Stuart Little" and is noted for the widely assigned manual for writing in English, "The Elements of Style."

White's life on the farm inspired his unforgettable barnyard animal characters, whose relationships and loyalty highlight the poignant reality of the animals' lives and deaths.

"I didn't like spiders at first," White said, "but then I began watching one of them, and soon saw what a wonderful creature she was and what a skillful weaver. I named her Charlotte." On his farm in Maine, White studied the lives of spiders for a year before writing his novel. "I discovered, quite by accident," he explained, "that reality and fantasy make good bedfellows." In the story, a healthy little pig is adopted by Fern, a young girl, who names him Wilbur. In the hope of saving him from slaughter, she enters him in the county fair. Wilbur meets a spider in the barn, Charlotte A. Cavatica: Bloodthirsty, Wise And True. She becomes his true friend, and devises a creative strategy to save his life – weaving flattering descriptions of Wilbur in her web – words like "SOME PIG", "RADIANT" and "TERRIFIC". The resident sheep, geese, and Templeton the rascal rat provide snappy advice, wise commentary, and wild action. Charlotte and Templeton accompany Wilbur to the fair. There Charlotte heroically gives her all, dazzling the humans with her writing in the web.

"The stage production is in the good old American tradition: "Let's put on a play in the barn," says director Judith Roberts. "It's fun, funny, sad, and humane."

This production will be enhanced by live music, puppets, a film of some characters at a real county fair, a carnival atmosphere at Intermission, plus, the actor playing Templeton the Rat is a break-dancer.

Because of the show's length and emotional content, children must be at least eight years old to attend the performances (no exceptions). Parents are requested to prepare their children to be audience members – "watchers and listeners" – and to manage their children during the performance.

Tickets for regular performances are \$10 general, \$5 for children age 8-12. The show runs 90 minutes, with one intermission. For more information go online at <http://www2.lanecc.edu/perarts/online-box-office> or call [541-463-5761](tel:541-463-5761).

FACILITIES UPDATES

---

## FMP TRADES SUMMER WORK UPDATE

The summer was a productive time for the trades this year. A lot of items associated with several hundred work orders were completed in preparation for staff returning fall term. Below are highlights of some of the work completed this summer:

**CHILD CARE FACILITIES:** This project began due to IEQ issues in building 24. Building 24 had many exterior windows removed and resealed to stop water leaks that were discovered during the investigation and inspection process. As a precautionary measure, improvements were made to buildings 25, 26, and 27 to better seal around exterior windows. . A team of carpenters led by Steve Kayl removed all exterior windows on buildings 25, 26, and 27 that were not under a covered area. After the windows were removed, the opening was checked for water intrusion, and no issues were found. The windows were then sealed properly and reinstalled. After the windows were installed, the buildings were repainted using an outside contractor led by in-house painters Terry Starr and Chris Kamely.

**PARKING LOT MAINTENANCE** included a new slurry coat in the west parking lot B, a newly paved area in the eastern side of parking lot N, and restriping of several other parking lots. The gravel lots were all graded and compacted. The Florence campus parking lots had new slurry top-coating applied with new painted striping.

**THE LONGHOUSE** exterior wood surfaces were all power-washed and re-sealed by Terry Starr and Chris Kamely to protect the aesthetics of the building.

**SEVERAL BUILDING PAINTING PROJECTS** were completed at the Florence campus.

**THE GROUNDS TEAM** completed a landscape improvement project located at the southeastern side of building 2.

**THE BUILDING 6 ROOF** was removed, repairs made to the old wood structure, new smoke vents installed, and a new 50-year standing metal seam roof system with an additional 2" of closed cell insulation installed to improve energy efficiency and reduce long-term maintenance costs.

**EXTERIOR LIGHTING** systems are currently being re-programmed with repairs also being made.

**THE CARPENTERS** helped set-up the shelving and racking in the new Titan Store at the new downtown campus.

### SAFETY CONCERNS ADDRESSED:

FMP received a report about the entryway into the south side of building 6 being slippery at times when the surface became wet. Lead carpenter Robert Atkins, researched and found a product that was specially formulated to seal the surface and provide an outstanding slip resistant coating. The surface was also applied on the walkway around building 13 and in one of the Art classrooms in building 10.

**A TEAM OF TWO SUMMER WORKERS** power washed several locations on campus. Some areas included were the stairs around buildings 10, 17 and Center. After the stairs were clean, a

traction strip of a high visibility yellow/light green color was applied to help prevent trips and falls.

THE HVAC TEAM led by Kevin Williams and Jerry Hardison worked with a team of summer helpers to replace the air filters in several of the buildings on main campus and outlining areas. This task is a preventive maintenance item that will be done on a regularly scheduled basis. Air quality is improved and energy is saved when filters are changed regularly.

#### SAFETY GOING FORWARD:

FMP has started the planning process for installing new guardrails in several areas of concern beginning on the upper concrete decks around the Center Building. The guardrails will match other stainless steel handrail systems installed recently in other locations on campus. This new handrail system will be reviewed and verified prior to it's becoming the new campus standard eventually replacing the older wooden guardrails. This system or one like it will be "maintenance free" and will meet all current regulatory safety compliance requirements. Contact Mark Richardson, 3456.

#### CUSTODIAL SERVICE UPDATES—

Staff members of the custodial services team have been working hard during the summer in preparation for fall term. Floors have been scrubbed and waxed, carpets shampooed, windows cleaned, and a variety of other related tasks have been accomplished through the dedicated efforts of the custodian team.

NEW AND RETURNING STUDENTS as well as employees were welcomed by a clean, safe and healthy environment. Classrooms, common areas and hallways with hard floors are sparkling and shiny. Areas with carpet have been shampooed and extracted in readiness for fall classes. Many of the windows on campus have been cleaned and are now bright and clean. Restrooms throughout campus have been deep cleaned and sanitized. Desks, tables, ledges, light fixtures and other surfaces have been dusted and wiped down. All in all, the custodians have worked diligently in teams as well as individually to prepare the campus facilities for a clean and fresh start. The custodial services team continues each day to break it's all-time safety record regarding the number of days without a safety accident or incident and is now nearing 70 days without an incident. Contact :Heath Pierce, 3428.

#### JOIN WEIGHT WATCHERS THIS FALL

"I am so thankful that Lane is committed to the health of its employees, and the things that the Wellness program makes available. I joined Lane's Weight Watchers group last January, hoping

to get support and learn some tools for getting serious about some weight loss. I lost 15 pounds over that first 10 weeks! I've continued to use the tools and support and have now lost over 30 pounds! I will admit that I thought once I learned the tools and made some new friends with similar goals I could continue on without continuing membership in Weight Watchers; during the break we had between sessions, I discovered differently. There's something to be said for the structure and accountability of a weekly weigh-in with kindred spirits. And the discussion topics are always lively, thought provoking, and helpful. No matter your personal health goal, WW @ Lane is a good vehicle to get there. Our insurance coverage combined with the deal that WW gives LCC makes it affordable; you are worth it!" - Gloria Jarvis.

Contact Wendy Simmons if you are interested in joining Weight Watchers.

### NEW STUDENT SUCCESS INITIATIVE FEE

Credit students will see a new fee on their myLane account starting fall term 2012, which assesses a \$.50 per credit charge on their accounts each term that they are enrolled in credit classes at Lane. This fee was created by the college in collaboration with the Associated Students of Lane Community College student government and is designed to create resources to fund new projects that will improve processes that allow students to move through with meeting their enrollment and education goals at Lane. Watch for a new chat feature to be announced this fall allowing students to contact student and staff agents in Enrollment and Student Financial Services to meet their enrollment needs. Contact, Helen B. Garrett, 5725.

### LANE JOINS BILLION DOLLAR GREEN CHALLENGE

This summer, Lane became a charter member of the Billion Dollar Green Challenge (<http://greenbillion.org> and <http://greenbillion.org/the-challenge> ). This membership is one of the outcomes of a Sustainable Endowment Institute conference attended last spring by Anna Scott, Lane’s energy and indoor environmental quality analyst. Lane is now profiled on the GreenBillion.org website ( <http://greenbillion.org/participant/lane-community-college/> ). The profile highlights Lane’s standard for funding energy management projects through savings

realized by conservation work. The Energy Carryover Fund realizes savings when current year electricity and natural gas expenditures are less than current year budget. Additionally, rebates and other incentives for energy-focused projects can be deposited into the fund, helping to fund more projects in the future. For more information contact Anna Scott. Submitted by the editor.

#### A MESSAGE FROM FPD COORDINATOR MARISA HASTIE

Welcome to fall term! Faculty Professional Development (FPD) offers many services, activities and funding to help support the growth, continued learning and enrichment of Lane faculty. Check out our website for a complete list of FPD activities: [www.lanecc.edu/fpd](http://www.lanecc.edu/fpd) Contact: Marisa Hastie, [hastiem@lanecc.edu](mailto:hastiem@lanecc.edu)

#### FPD ACTIVITY HIGHLIGHT: DISCIPLINE CONTACT GRANTS

To support contact by faculty with current thinking in their disciplines as well as about teaching in their disciplines, each Lane discipline group (approximately 70) can be given a grant for up to \$500 for this purpose. This money can be used for professional memberships, journal subscriptions, or books (books in content areas and/or in pedagogy). How to apply: Provide the following information in an email to Marisa Hastie, LCCEA FPD coordinator:

- \* The name of your discipline and the names of Lane Faculty in your discipline
- \* A description of your discipline request -- a budget with a brief explanation of how the request establishes better contact with thinking about teaching in your discipline or with your discipline directly
- \* A contact person from the faculty in your discipline.

Attach the request, budget, and explanation to an email (or paste it in an email), and send it to Marisa Hastie [hastiem@lanecc.edu](mailto:hastiem@lanecc.edu) (One request per discipline.)

#### DIGITAL STORY OF THE WEEK: COLONIAL FEMINISM

Digital Storytelling is an emerging term, one that arises from a grassroots movement that uses new digital tools to help ordinary people tell their own "true stories" or use personification in a compelling and emotionally engaging form. These stories usually take the form of a relatively short story (less than 3 minutes). It is not to be confused with the more technical and artistic work taught in Media Arts.

Bethany Cornish has created a digital story told from the point of view of an American colonial feminist and activist, Penelope Barker. This is an example of how a digital story can be created to highlight and personify any historical figure in any field of learning. See it here:

#### WOMEN'S SOCCER TACKLES BREAST CANCER AND CHEMEKETA OCT. 10

The Lane Women Titans soccer team will fight breast cancer as well as the Chemeketa Community College on Wednesday, Oct. 10, in its Third Annual Pink Out home game beginning at 7 p.m.

for the Cure, a foundation dedicated to education and research about causes, treatment, and the search for a cure.

The Titans started the Pink Out game in observance of October as Breast Cancer Awareness month.

Athletic Director Greg Sheley says response has been inspiring the two previous events.

“People really want to help prevent and treat this disease. Turning out for the Pink Out game is a fun way to show your support, and of course, learn more about women’s soccer at Lane.”

#### IN MEMORY

We are deeply saddened to report that Tzvi Lachman, who taught Career/Life Planning classes at Lane from 1983-2000 for hundreds of dislocated workers in the Training and Development Department, died Friday, Sept. 21 of a heart attack in Paris, France. He was vacationing with his wife, Melody, also a former Training and Development employee. They had lived in Melbourne, Australia, for many years after departing Lane and were continuing to work in the field of career planning with groups and individuals.

Tzvi was a gifted teacher whose classes were continually described by his students as "transformative" and "life changing." His two-week workshop was the heart of the Dislocated Worker Program. As a student of Richard Bolles ("What Color Is Your Parachute"), he came to believe that doing work we love and that embodies our best gifts is the highest path we can follow in life. This quote by Rev. Howard Thurman expresses Tzvi's philosophy and the life he lived: "Don't ask yourself what the world needs. Ask yourself what makes you come alive and

then do that. Because what the world needs is people who have come alive." Tzvi found that which made him come alive. All of us at T and D who knew him, colleagues, students, friends, were enriched by his vital presence in our lives.

#### ASLCC VOTER REGISTRATION EXCEEDS GOALS

The Associated Students of Lane Community College set a goal of registering 5,000 students to vote at the Mid-Valley Vote Conference in February 2011, and there was some concern that the goal might have been a little out of reach. Then in the spring they surpassed their original goal for the term by 1,659 and then exceeded the summer goal by 512! As of October 7 they have registered more than 5,976! Congratulations to Mary Weatherhead, [Anayeli Jimenez](#), [Max Jensen](#), [Paul Zito](#), [Jasmine Rivera](#), [Maria Gonzalez](#), [Matthew Yook](#), [Anna Sage](#), [Madeleine Afiatilelei Tofaeono-Galo](#), [Dallas S Steely Jr](#), and [Duskin D'Fonseca-Becker](#). If you are new to Eugene/Springfield, or have moved since the last election, come by Building 1, Room 210 to register or update your registration and help ASLCC reach its goal of 8,000! For more information contact Barb Delansky.

## TITAN TIPS FOR STUDENT SUCCESS

As part of the Title III Engaging Students program and the First Year Matters at Lane project, a new poster, "Titan Tips for Student Success," is being printed and posted around campus.

These simple tips are foundational principles that students, especially first year students, need to learn and practice in order to succeed. Researchers such as Bandura and Dweck and Leggett have found that merely stating an expectation results in better performance. We hope that faculty will post the tips on their Moodle sites, and departments and programs across campus will put up posters where students can see them. A PDF of the poster can be found at [http://www2.lanecc.edu/sites/default/files/saga/titan\\_tips\\_8.5x11.pdf](http://www2.lanecc.edu/sites/default/files/saga/titan_tips_8.5x11.pdf) We will be highlighting tips in Lane Weekly throughout the term.

Studies such as those cited by Gump (College Teaching, Winter 2005) find a strong negative correlation between final grades and class absences. Students should be encouraged to attend class to help them succeed academically.

Titan Tip: Go to Class. Take responsibility for your learning. This means attend class, be on time, come prepared and participate.

Schilling & Schilling (Challenging & Supporting the First-Year Student, 2005) stress that students must learn about the expectations of college-level work. One way instructors' communicate this important information is through class syllabi. First year students, especially, need to understand that the syllabus for a course defines the specific activities needed to succeed in that course.

Titan Tip: Plan your time wisely. Every instructor provides a syllabus. Use it to create a study calendar and break assignments into steps with ample time to complete each step. Things take longer than we expect.

## DR ACCOMMODATION MODIFICATION

Except in rare situations, DR will no longer be including the accommodation "Extensions on specific assignment deadlines" on the student LOA's. Over time, it has become clear that this accommodation, which has been broadly written, has been confusing to both students and instructors, and difficult to determine how and when to use it. Individual student situations vary greatly. So we are changing our approach. We think it will make things less complicated if we work individually with students and their instructors on this particular accommodation.

We are asking students to immediately contact a DR Advisor if they need to request extended time for assignments due to their disability. DR will review the specific situation and discuss strategies the student might use. In some cases, there will be a need for a student to have extensions on assignment deadlines, and DR will contact the instructor to work this out. We hope this will be a more efficient and clear way of implementing this accommodation.

"My work has moved from the personal to the universal within the exploration of my individual vision. There is a consistent theme found in the work: a conviction to convey our relationships to ourselves, each other, and to the world. In essence, the human condition. Despite diversities in cultures we all feel, breathe and search for that which will ultimately provide us sustenance. There is a need to share with others that heightened awareness; our humanity, if just for one moment." The show runs

from October 15 through December 6. A lecture will be given Thursday, October 25 beginning at 3 p.m. with a reception immediately following. Free and open to the public. The gallery is located in building 11 on main campus. The Art and Applied Design Department phone number is 5409.

**DROP, COVER AND HOLD OCT. 18**

You are invited to join thousands of people who will Drop, Cover and Hold in the Great Oregon ShakeOut earthquake training on Thursday, October 18, at 10:18 a.m. You can also be entered in a drawing for some pretty amazing prizes.

More than 12.5 million people worldwide participated in the 2011 ShakeOut drill. While potential earthquake hazards depend upon your location, you could be anywhere when an earthquake strikes--at home, at work, at school, driving/riding in a vehicle, or even on vacation. To react quickly you must practice often. You may only have seconds to protect yourself in an earthquake, before strong shaking knocks you down--or drops something on you. Practicing helps you be ready to respond.

Expectations for Lane Employees and Students: What does this mean for you? Prior to October 18th, we ask that you review the educational information listed below (also attached). Share this information with your students and co-workers so that we can educate as many as possible on safe earthquake practices. Then, at 10:18 a.m. on October 18th, you will hear an alarm, voice prompts and you will also receive a LaneAlert notification informing you that the drill has started.

At that time, look around you for a safe location and follow the educational guidelines to drop, cover and hold on. The drill will last only two minutes. We will not be evacuating any buildings. At the conclusion of the drill you may choose to discuss it with students or co-workers or you may just choose to resume your activity. Participation in this drill is voluntary but it is a great opportunity to practice for an event that could affect your safety and the safety of those around you.

Afterwards, you are invited to complete a short participation survey. The survey is optional and will be used to evaluate the auditory range of our alarm system. The survey link will be sent later. All those who choose to complete the survey will be entered in a drawing for the following prizes:

- Lunch for two at the Renaissance Room courtesy of Conference and Culinary Services
- A Lane Student Success goody bag courtesy of Marketing and Public Relations
- A sweatshirt courtesy of the Titan Store
- A T-shirt courtesy of the Titan Store
- One of two \$10 food cards courtesy of Food Services
- One of two pedometers courtesy of the Employee Wellness team
- One of two water bottles courtesy of the Titan Store

Plan now to invest in safety for 120 seconds on Thursday, October 18 at 10:18 a.m. For more information contact Dawn Barth.

#### EARTHQUAKE DRILL REMINDER FROM DISABILITY RESOURCES

At 10:18 a.m. on Thursday, Oct. 18, the Oregon ShakeOut training is scheduled to occur for two minutes. Disability Resources would like to provide everyone with information for people with disabilities.

Suggestions if it is difficult to Drop, Cover, and Hold On:

- If you are in a wheelchair, recliner or bed, do not try to transfer to or from your chair during the shaking. Wait until the shaking stops to transfer.
- Stay put. Cover your head and neck with your arms or a pillow until the shaking stops.
- Wheelchair users: lock your wheels; cover your head and neck until after the shaking stops. The force of the earthquake may knock you off your feet or throw you to the ground. If you have mobility or balance issues, the shaking may make it even harder for you to move around.

BASIC SELF-DEFENSE TRAINING: October 18, 5-7 p.m., Building 5, Room 134. Public Safety is planning its next basic self defense class. This class is open to the entire college community as well as the general public. During the two-hour class, which will be instructed by Corporals Jake Ryker and Lisa Rupp, attendees will be led through a series of warm up exercises to help loosen up and prevent injury. Participants will next be instructed on proper methods to perform a variety of strikes and escape techniques. Persons attending will then be monitored as they practice their new skills on strike bags.

In addition to hands-on exercises, participants will be given instruction on personal safety in the parking lots, including situational awareness, walking confidently and with head held high and having keys in hand, ready to open a car door or be used to protect one’s self. Public Safety is planning to offer future self-defense courses at least once per term. Submitted by Lisa Rupp, 5558.

#### DIGITAL STORY OF THE WEEK

Sometimes researching court cases is the more effective way to meet a legal challenge, as Scott Smith shows in this engaging digital argument created for his 8th grade American History class. This is an example of how DST can be used to encourage student success through effective argumentation.

#### TITAN TIPS FOR STUDENT SUCCESS

CCSSE ([http://ccsse.org/survey/bench\\_sfi.cfm](http://ccsse.org/survey/bench_sfi.cfm)) states that students who interact more with their instructors, especially outside the classroom, have stronger ties to the college and are more likely to persist to their goals. In the 2011 survey, only 18.7% of Lane students reported they had "discussed ideas from your readings or classes with instructors outside of class."

Titan Tip: Meet with instructors. Instructors want you to succeed. Meet with your instructors during office hours to discuss things you don't understand.

#### KLCC SURPASSES FALL FUNDRAISING GOAL

Over 3,000 members contributed \$287,240 to the Fall Campaign

KLCC's Fall Radiothon ended at 5:40 p.m. on Friday, October 12 with a total of \$287,240 -- surpassing the Fall goal of \$285,000. Over 3,000 KLCC listeners became members or renewed their membership during the Fall fundraising campaign.

Before Radiothon began, 1,601 listeners contributed \$132,620 online or through the US mail. The remaining \$154,620 was raised from 1,495 listeners who made the call or contributed online during the week of Radiothon.

Members were invited to join KLCC staff at Cozmic for a Radiothon After-Party. A celebratory and festive atmosphere ensued, thanks to the making of the Fall goal!

During the course of the Fall campaign KLCC offered a variety of incentives to encourage membership. Several members won prizes including iPads, accommodations, tickets to events and movies, Science Friday pocket protectors, books, gift certificates and more. Lucky winners were announced throughout the campaign.

Many listeners took advantage of the Matching Gifts from the KLCC Founders Club, long time members who agreed to match the gifts of other listeners up to a designated amount. KLCC is extremely grateful to our Founders Club members and all the contributors who doubled their pledge in this way.

KLCC member contributions help cover the cost of NPR news, nationally syndicated programs, locally programmed music, community information, live broadcasts of special events, and intelligent entertainment all year long. Two-thirds of KLCC's budget comes from listeners and local businesses.

## PRESIDENT SPILDE WINS PACESETTER AWARD

The National Council for Marketing and Public Relations, District 7, awarded its 2012 Pacesetter of the Year Award to President Mary Spilde at its annual conference Oct. 18 in Salem. The award recognizes one president within the district for outstanding leadership and support for marketing and public relations. Each district winner becomes a nominee for the national award announced in March.

NCMPR is an affiliate of the American Association of Community Colleges and includes seven districts representing two-year colleges in the United States and Canada. District 7 includes Alaska, Idaho, Montana, Oregon, Washington, and the Canadian provinces of Alberta, British Columbia, Saskatchewan and Yukon Territory.

Spilde was commended for increasing public awareness and support for community colleges nationwide, as well as for Lane. Nominators included State Rep. Arnie Roblan, Springfield Public Schools Superintendent Nancy Golden, and City of Eugene Mayor Kitty Piercy.

Roblan wrote, "Mary has been a strong advocate for Lane and all community colleges throughout an outstanding career that shows leadership and commitment to students. Her strong advocacy and vision for all Oregonians has brought statewide and national recognition to the value of two-year colleges ... Her work on behalf of Oregon students serves as a role model for all of us."

Golden wrote, "She has demonstrated the partnership among all sectors of public education and helped raise public understanding and awareness of what we can do to support education, why education is so important, and what's at stake for our students. I couldn't begin to estimate the hundreds of young people in my district alone who have been empowered to go on to college due in no small part to the open path Mary has helped prepare for them."

Piercy emphasized Spilde's vision in building the new downtown campus, writing, "The campus already has contributed to the revitalization of our downtown core and has made all of Lane County proud." Submitted by the editor.

## WE CARE CAMPAIGN STARTS THIS WEEK

The We Care Campaign starts this week, running six weeks, ending December 3. It is our annual employee campaign to raise funds for Lane's Foundation and United Way of Lane County. The needs in our community for services are great, more than we have experienced in the past. You can see that with our own increased student enrollment as individuals search for new careers and occupations to navigate these challenging economic times with hopes for a better future. This campaign touches on many aspects of those lives, not only here through our scholarship programs, but through United Way's support of agencies that provide food, housing, child care, health care and a wide array of services that help our students and community during tough times.

We have raised the bar for this year's Campaign goal for 50 percent employee participation and \$115,000 in contributions. No matter how large or small, every gift will make a difference. Your campaign representative will have pledge forms for you to fill out. Remember to fill out those forms early and be eligible to enter our weekly drawings for prizes donated by staff. Turn in your forms by noon on Fridays throughout the campaign. Good luck.

This week's prizes include the following:

\$10 Dining Card donated by Mike O'Neal, Food Services

2 Bottles of wine donated by Nancy Hart, Disability Resources

Chocolate donated by Pat O'Connor, Advanced Technology

\$25 Gift Certificate from Applebees donated by Lida Herberger, Counseling  
Patty Parks

## FACULTY PROFESSIONAL DEVELOPMENT ACTIVITY HIGHLIGHT: CLASS OBSERVATIONS AND FEEDBACK

The Faculty Professional Development Program provides confidential feedback on teaching based on classroom observations. This opportunity is available to all faculty members. Upon your request, a Lane faculty member with expertise in instructional design and pedagogy as well as experience providing formal feedback to teachers will observe one of your classes or review your online course and provide suggestions on ways to enhance your teaching. You may request either general feedback or input on a specific aspect of teaching (e.g. appropriate use of technology, promotion of active learning, classroom management, etc.) After the observation or review, your observer will arrange to meet with you to provide feedback and give you all notes from the observation. This program is not part of any evaluation system, and all feedback will be completely confidential and constructive.

For more information or to request an observation of your classroom, go to:

<http://www.lanec.edu/fpd/classroomobservation.html>

#### TITAN TIPS FOR STUDENT SUCCESS

In studies of working memory, Downing (2011), Ricker & Cowan (2010) and others describe the need of rehearsal to strengthen neural networks and make learning “stick.”

Titan Tip: Do homework promptly. Did you know that 30-80 percent of the information you learn in a lecture is lost within the first 24 hours if you do not review it? Maximize your success by scheduling time to study every day. Submitted by Lida Herburger.

#### THANK YOU FROM HIGH SCHOOL CONNECTIONS

High School Connections wishes to thank all of our Lane Community College partners for their participation in the College Now In-Service. Attending the In-Service were more than 190 teachers from 32 high schools, joining in 16 content area-articulation meetings, which involved more than 50 Lane staff. It was a successful day with lots of renewed energy, rich conversation and a coming together of purpose in helping high school students achieve early success with college. #### TECHNICAL ASSISTANCE FOR THE MAIN CAMPUS BOARDROOM

A helpful reminder for those departments and groups that schedule the Main Campus Boardroom: This space is the primary meeting location for the Board of Education. Staff in the President's Office may support the Board during their meetings with computer, sound system and conference telephone equipment, but Information Technology supports the overall technology in the Boardroom.

If you need assistance with the equipment, please contact the Help Desk at 4444 or use the remote access button on the Enhanced Classroom panel on the counter. A Help Desk Technician will be able to assist you as they do for all other Enhanced Classrooms.

Some new labels on the equipment should help with locating telephone connections, projection screen controls and the Help Desk access button. Seeking assistance from the Help Desk first will allow staff in the President's Office to focus on their tasks and provide you with timely technical support from Information Technology.

Submitted by Alen Bahret, Scheduling Team and Information Technology.

#### LIBRARY REPLACES BIBLIOGRAPHIC TOOL

The Library has gradually phased out our old bibliographic tool NoodleBib for a newer product. EasyBib is a less complex tool that is easy-to-use, more feature-rich, and allows students and faculty to log in from social media such as Gmail, Facebook, and Yahoo. To try out EasyBib, go to <http://www.lanecc.edu/library/find/citing.htm>. Contact: Don Macnaughtan [macnaughtand@lanecc.edu](mailto:macnaughtand@lanecc.edu)

#### "BREAK THROUGH CONFLICT" TRAINING NOV. 14

Wednesday, November 14, 8:30 a.m.-3:30 p.m., CML Room 214, Building 19

Even with the best of intentions, many of us communicate automatically, often not handling conflict as well as we would like, which takes a toll on our professional and personal lives. The models presented in this workshop offer flexible guidelines with progressive steps that are easily learned, applied, and adapted in order to develop and maintain strong, positive relationships and to actually create trust through conflict. The program has evolved from three decades of Dr. Peter and Susan Glasers' published, field-tested research and introduces participants to concrete, tangible skills.

The training is open and free of charge to Lane staff and will be conducted by Lane managers who have been certified by Drs. Peter and Susan Glaser to conduct "Break Through Conflict" training model. All participants will receive the Glasers' Break Through Conflict" booklet.

To register for this training or for more information, please contact Roxanne Watson at 3655 or [watsonr@lanecc.edu](mailto:watsonr@lanecc.edu) or Donna Koechig at 5307 or [koechigd@lanecc.edu](mailto:koechigd@lanecc.edu) Enrollment will be limited to 25 participants, so call now! WWII MEDAL OF HONOR RECIPIENT TO DEDICATE STUDENT CENTER NOVEMBER 5  
All employees, students and community members are invited to attend a special event on Monday, November 5 from 1-3 p.m. in the CML Rooms 102, 103, 104. Lane will honor Robert Dale Maxwell, auto mechanics instructor at Lane from 1966-86, and Medal of Honor Recipient from WWII. The college is dedicating the Maxwell Student Veteran Center (19/233) in his name and will recognize him for his 20 years of service to the college, for his exceptional heroism in World War II, and for his skill as a master mechanic and teacher. The first hour of this event will formally recognize his lifetime of service and gallantry. The second hour will be an informal gathering where you can visit with Mr. Maxwell and his family and help him celebrate his 92nd

birthday. To read or watch videos about Robert Maxwell's life and military service, check out the following links: [http://en.wikipedia.org/wiki/Robert\\_Dale\\_Maxwell](http://en.wikipedia.org/wiki/Robert_Dale_Maxwell)

#### SOLAR STATION ELECTRIC VEHICLE PARKING EXPANDING

Due to increasing demand from electric vehicle drivers, more spots will be designated as "Electric Vehicle Only" at the Solar Station in Parking Lot B starting this week. Currently, five parking spots on the southeast side of the station are designated "Electric Vehicle Only." This week, the college will be changing the signs at the remaining four spots on the south side of the solar station and designating them as "Electric Vehicle Only" as well. Parking on the north side of the Solar Station will still be open to general parking. Once the new signs designating "Electric Vehicle Only" parking are installed, Public Safety will begin ticketing combustion-engine cars parked in these spaces. Please check the sign before parking at the Solar Station to avoid getting a ticket. Starting winter term, Lane is planning to begin charging a small fee for parking in the EV only spots to recovery the cost of electricity used by the electric vehicle drivers. Lane's Institute for Sustainable Practices thanks electric vehicle drivers for helping to reduce our carbon emissions. Other modes of climate friendly commuting include carpooling, bussing, and biking. Contact: Jennifer Hayward.

#### PHYSICAL THERAPIST ASSISTANT PROGRAM STRETCHES AND GROWS

Lane's Physical Therapist Assistant program has achieved significant milestones since it began in 2008.

Last November, the program earned five-year accreditation from the Commission on Accreditation in Physical Therapy Education, paving the way for students to obtain licensure. Only one other Oregon college is accredited for PTA, Mt. Hood Community College in Gresham. In addition, Howard won a 2012 Innovation of the Year Award from the League for Innovation in the Community College, for her project called "Death to the Red Pen" which uses screen-casting technology to quickly provide students with personalized feedback focused on learning outcomes.

Faculty member Michael Gores, won the Clinical Instructor of the Year Award at Pacific University. He is the center coordinator for Clinical Education for Pinnacle Healthcare and is a clinical instructor at South Hills Rehabilitation in Eugene. He has been with Pacific University for many years and teaches part time at Lane where he was Clinical Instructor of the Year in 2011-12.

Finally, instructor Beth Thorpe was named Academic Coordinator of Clinical Education (ACCE) for Lane's program. She is known for partnering with hundreds of sites and developing innovative ways to help students internalize techniques and practice styles that are essential to the practice of physical therapy. She won a Winter 2010 Faculty Recognition Award at Lane, and authored an article in the August 2012 issue of the American Physical Therapy Association monthly magazine, titled "ACCE Was in the Cards."

#### IMPORTANT INFORMATION ABOUT YOUR PRINTERS, COPIERS AND MFPs

In preparation for our transition to active print management, contractor personnel will be coming through work areas over the next few days to attach a new metallic sticker that assigns an equipment ID to your printer, copier, and/or MFP. Your equipment must be identified to the system to enable receipt of service and supplies as needed.

Beginning December 1, all paper and toner will be furnished directly through Printing and Graphics and all maintenance will be furnished directly through CTX. Your department will no longer need to pay for paper, toner, and service/maintenance. These costs will be allocated based on actual print output. Therefore, only order and pay for supplies needed until December 1. We appreciate your help as we implement improved maintenance and reduce printing expense. Submitted by Greg Morgan.

#### PRINT SHOP ANNOUNCES DEADLINES FOR 2012-13

The deadline for submitting winter term instructional packets to Printing/Graphics is November 9. Handouts needed for the first day of winter term classes to be submitted by December 3.

Subsequent deadlines for the 2012-2013 academic year are as follows:

Spring term: Packets to Printing/Graphics by February 8.

First-day materials are due March 15.

Observing these deadlines assures timely production of your materials by the print shop and processing by the Titan Store (Bookstore). Questions? Contact P/G at 5373.

#### TITAN TIPS FOR STUDENT SUCCESS

In describing high impact practices, the Association of American Colleges and Universities states that collaborative learning, such as study groups and team-based assignments, helps students learn “to work and solve problems in the company of others” and helps students gain understanding by listening to the insights of those different from themselves.

Titan Tip: Start a study group. Participation helps everyone in the group excel in class, increases active involvement with the course content and helps you develop teamwork skills – a skill employers desire. Submitted by Lida Herburger.

#### EMPLOYEE CAMPAIGN HELPS STUDENTS AND COMMUNITY

“Feel the Power of Giving” is this year’s theme for the We Care Employee Campaign benefiting Lane’s Foundation and United Way of Lane County. We all know that it continues to be a challenging time in our local community; our gifts will have a direct impact on our community. Programs will benefit from our power of giving. When we support our Foundation with \$1 a day or \$10/pay period, it will pay for the costs of two to three textbooks or lab equipment, shoes and a uniform for a nursing student. When we support United Way, it benefits 68 programs in Lane County that focus on education, income support, health programs and basic needs. Our goal is to raise \$115,000. For the first week of the campaign, we raised an amazing \$57,586! Each week, check out our progress by walking by the Administration building and looking at the windows outside Lane’s Board Room.

We just completed week one of the We Care Campaign. And the winners for our first week of drawings are:

\* John Oglesby, College Finance and Operations - Gift Certificate for See’s Chocolates donated by Greg Morgan, College Finance and Operations

\* Sheila Broderick, Social Sciences - Auntie Phoebe's Harvest Apple Pie donated by Phoebe Anderson, Co-operative Education.

\* Garry Oldham, Social Science - \$25 Nike Gift Card donated by Kathie Hledik, Mathematics.

### "NO EXIT" AT LCC NOVEMBER 8-17

Jean-Paul Sartre is one of the best-known philosophers of the 20th century. His pursuit of philosophical reflection, literary creativity, and active political commitment gained him worldwide renown. Considered the father of existentialist philosophy, his brilliant play "No Exit" offers a taste of his point of view embodied by lines such as "You are your life, and nothing else." With three words repeatedly used in the play – "life," "dead," and "absent" – Sartre sets a distinctive worldview.

The play opens with a cordial valet leading Joseph Garcin into a drawing room decorated in the style of the second empire. Garcin is in hell, which to his surprise contains no torture devices, but does not allow one to ever sleep. Garcin is soon joined by Inez Serrano and Estelle Rigault. It quickly becomes apparent that these three are to share this room forever and that their conflicting desires are designed to inflict everlasting torture upon each other. Their interactions cleverly unfold to reveal the nature of their characters and why they are in Hell. The most famous line from the play, "Hell is other people," cleverly drives the dramatic action and embodies Sartre's Existentialist philosophy.

This is a unique production for Lane Community College. While performances at Lane are produced by the student-led Student Production Association, one show per year is designated as an opportunity for a student to take on the responsibility of directing a fully mounted production. Student David Trussel, who directed last year's "Spring Inspiration," a showcase of

student written plays, takes the helm of "No Exit." This is yet another example of how the theatre program and SPA provide a hands-on, intensive approach to theatre training. Show dates are November 8, 9, 10, 15, 16, 17 at 7:30 p.m., and November 11 at 2 p.m., all in the Blue Door Theater, building 6, 4000 E. 30th Avenue in Eugene. Tickets are \$10 general admission and \$8 students, seniors and Lane employees. Contact the SPA box office to reserve tickets at 5761.

#### HAITIAN LEADER AND ENVIRONMENTAL AWARD WINNER CHAVANNES JEAN-BAPTISTE NOVEMBER 8

Thursday, November 8, 1-2:50 p.m., CML Room 226, Building 19  
Internationally renowned Haitian environmental/social justice leader, Chavannes Jean-Baptiste, will be at Lane to share his remarkable story and talk about sustainable agriculture in Haiti. He is founder of the Peasant Movement of Papaye (MPP). Chavannes serves as the international spokesperson and negotiator at international climate change negotiations and other international environmental negotiations on behalf of Via Campesina, the international peasant movement, which represents 200 million farmers worldwide. Chavannes recently led efforts at both the Rio+20 and the Durbin Climate Summit. He carries out his work despite Haiti's extremely volatile political climate. In 2005, Chavannes and MPP won the Goldman Environmental Prize (the environmental equivalent of the Nobel Prize) for their work on reforestation and sustainable agriculture. Joining Jean-Baptiste at Lane will be Pauleon St. Fleur, the civil engineer in charge of the projects. To learn more about Chavannes Jean-Batiste visit <http://www.goldmanprize.org/2005/islands>.

This free event is an extraordinary opportunity to hear the stories of these Haitian leaders and learn more about sustainable practices in Haiti. For more information, please contact Donna Koechig, [koechigd@lanecc.edu](mailto:koechigd@lanecc.edu) or 5307, in Lane's Diversity Office.

#### BREAK THROUGH CONFLICT TRAINING NOVEMBER 14

Wednesday, November 14, 8:30 a.m.-3:30 p.m., CML Room 214, Building 19  
Even with the best of intentions, many of us communicate automatically, often not handling conflict as well as we would like, which takes a toll on our professional and personal lives. The models presented in this workshop offer flexible guidelines with progressive steps that are easily learned, applied, and adapted in order to develop and maintain strong, positive relationships and to actually create trust through conflict. The program has evolved from three decades of Dr. Peter and Susan Glasers' published, field-tested research and introduces participants to concrete, tangible skills.

The training is open and free of charge to Lane staff and will be conducted by Lane managers who have been certified by Drs. Peter and Susan Glaser to conduct "Break Through Conflict" training model. All participants will receive the Glasers' Break Through Conflict booklet. To register for this training or for more information, please contact Roxanne Watson at 3655 or [watsonr@lanecc.edu](mailto:watsonr@lanecc.edu) or Donna Koechig at 5307 or [koechigd@lanecc.edu](mailto:koechigd@lanecc.edu) Enrollment will be limited to 25 participants, so call now! Sponsored by Lane's Professional and Organizational Development Office. Submitted by Donna Koechig.

#### BREAK THROUGH CONFLICT TRAINING NOVEMBER 14

Wednesday, November 14, 8:30 a.m.-3:30 p.m., CML Room 214, Building 19

Even with the best of intentions, many of us communicate automatically, often not handling conflict as well as we would like, which takes a toll on our professional and personal lives. The models presented in this workshop offer flexible guidelines with progressive steps that are easily learned, applied, and adapted in order to develop and maintain strong, positive relationships and to actually create trust through conflict. The program has evolved from three decades of Dr. Peter and Susan Glaser's published, field-tested research and introduces participants to concrete, tangible skills. The training is open and free of charge to Lane staff and will be conducted by Lane managers who have been certified by Drs. Peter and Susan Glaser to conduct "Break Through Conflict" training model. All participants will receive the Glaser's Break Through Conflict booklet. To register for this training or for more information, please contact Roxanne Watson at 3655 or [watsonr@lanec.edu](mailto:watsonr@lanec.edu) or Donna Koechig at 5307 or [koechigd@lanec.edu](mailto:koechigd@lanec.edu) Enrollment will be limited to 25 participants, so call now! ## TITAN TIPS FOR STUDENT SUCCESS

Students' ability to understand and remember material is enhanced when they are encouraged to ask good questions in class (Palinscar & Brown, 1984). When asked how often they had "asked questions in class or contributed to class discussions," in the 2011 CCSSE, 68.2 percent of the Lane respondents answered "often" or "very often."

Titan Tip: Ask questions. Raise your hand and ask the instructor to go over things you don't understand. You'll be better prepared for tests if you clear up confusion. Submitted by Lida Herburger.

JS BIRD EXHIBIT, "PSYCHE," opens Nov. 13 in the Art Gallery, Building 11. JS is a painting instructor for Art and Applied Design. Following a recent sabbatical, he has been producing a new body of work exploring the myth of Psyche and Eros, using "iconographic female images of pop culture to cast in the role of Psyche, famous women who are culturally associated with beauty and sexuality. While these icons are associated with sexuality and fantasy, there actually is no relationship between the icon and the viewer, except what lives inside the viewers head." In discussing his art as it relates to his audience, JS states, "In most cases art is neutral, it is an object, (objectified) yet the viewer creates a relationship with the art only by looking at it. While adopting pop culture's pictorial conventions of sexuality, I am relying on context to transform the images into a form that transcends the very conventions utilized. Such an overt, embellished fantasy, perhaps, holds within it, the capacity to force the viewer to confront, rather than indulge in, ones desire, or rejection, of the image." The show runs from November 13 through December 6. A sabbatical talk and closing reception will take place on Thursday, November 29, beginning at 4 p.m. with a reception immediately following at 5 p.m. The lecture and reception are free and open to the public. There is no charge for admission. For more information contact Art and Applied at 5409.

BREAK THROUGH CONFLICT TRAINING, Wednesday, Nov. 14, 8:30 a.m.-3:30 p.m., CML Room 214, Building 19. Even with the best of intentions, many of us communicate automatically, often not handling conflict as well as we would like, which takes a toll on our professional and personal lives. The models presented in this workshop offer flexible guidelines

with progressive steps that are easily learned, applied, and adapted in order to develop and maintain strong, positive relationships and to actually create trust through conflict. The program has evolved from three decades of Dr. Peter and Susan Glaser's published, field-tested research and introduces participants to concrete, tangible skills. The training is open and free of charge to Lane staff and will be conducted by Lane managers who have been certified by Drs. Peter and Susan Glaser to conduct "Break Through Conflict" training model. All participants will receive the Glaser's Break Through Conflict booklet. To register for this training or for more information, please contact Roxanne Watson at 3655 or [watsonr@lanecc.edu](mailto:watsonr@lanecc.edu) or Donna Koechig at 5307 or [koechigd@lanecc.edu](mailto:koechigd@lanecc.edu) Enrollment will be limited to 25 participants, so call now! ### RUSS PIERSON NAMED EMPLOYEE OF THE MONTH

Kudos and congratulations go to November’s Classified Employee of the Month – Russ Pierson of Facilities Management & Planning. Representatives of the Classified Professional Development Team joined staff in FMP to present Russ with the EOM award for November. He was hired June 2010 in FMP. Russ has demonstrated both his technical abilities as well as success in relationship building and overall significant improvements for the college with coordination tasks which include the LTD bus pass program, Zimride, parking lot maintenance, and the BikeLane programs. Russ provided the technical support needed to implement the new Megamation computerized maintenance management software system which is 99.9 percent paperless, aligning the operations of the facilities staff with sustainability core values at the college and the number of outstanding work orders has gone from 1,200 to 120. Russ supported the writing and submittal of a successful seismic grant for Building 11 which was awarded to the college for \$708,000. He seems to maintain his humor, smiling often, laughs quickly, and keeps his perspective broad and open. Russ is a shining star in the FMP department and one that brings light wherever he goes. The college is a much better place with Russ Pierson supporting its mission. Go Russ!! When you see Russ, congratulate her for doing a terrific job and celebrate his nomination as LCC’s November Classified Employee of the Month. And remember that, you too, can help us to recognize exemplary classified employees by nominating them for this award by the 15th of each month. Nomination forms are available: 1) on the CPDT website:<http://www.lanecc.edu/cpdt/recognition/eominfo.html> or 2) from Elaine Marsh, IRAP, [marshe@lanecc.edu](mailto:marshe@lanecc.edu)

Events and highlights featured this week are a screening of “Queen of the Sun,” a film about the global bee crisis and what we can learn from the bees, a mushroom growing workshop, and a story about Lane’s carpool matching service, Zimride. Contact: Jennifer Hayward.

### IMPORTANT INFORMATION REGARDING YOUR PRINTERS, COPIERS, MFP's

In preparation for our transition to active print management, contractor personnel will be coming through work areas over the next few days to attach a new metallic sticker that assigns an equipment ID to your printer, copier, and/or MFP. Your equipment must be identified to the system to enable receipt of service and supplies as needed. Beginning December 1, all paper and toner will be furnished directly through printing and graphics and all maintenance will be

furnished directly through CTX. Your department will no longer need to pay for paper, toner, and service/maintenance. These costs will be allocated based on actual print output. Therefore, only order and pay for supplies needed until December 1st. We appreciate your help as we implement improved maintenance and reduce printing expense.

As CCSSE ( <http://tinyurl.com/9xy266t> ) reminds us, it is much easier to reach a goal that is specific with a clear, well-defined path. When students can see how each course brings them closer to the ultimate goal, they are more likely to stay focused.

Titan Tip: Make a plan. Figure out your career and academic direction. Set goals, both short- and long-term, and take steps to reach those goals.

### HOW TO MIGRATE YOUR MOODLE COURSE CONTENT FROM WINTER TERM

Instructors, please read below for information on your Winter 13 courses and how to appropriately migrate your course content from previous terms in Moodle.

\*

Winter 12 and Spring 12 Courses available on Moodle 1:

We have discovered there is a bug with course images when restoring or importing from a converted Moodle 2. A converted course is any course that was copied from Moodle 1 into Moodle 2 back in July when we migrated these courses. These "converted courses" are limited to Winter 2012 and Spring 2012 courses. In order to avoid errors that are associated with this bug we are currently in process of removing these converted courses from Moodle 2 ( [classes.lanecc.edu](http://classes.lanecc.edu) ).

\*

Winter 2013 Courses:

We are also in process of building your Winter 13 courses now. Please check Moodle throughout the day to access your Winter 13 course. If you find you do not have access this is

because it has not been built yet...keep checking - this process will take a couple of days to complete as there are over 3000 courses and 10,000 teacher enrollments processing.

\*

Course Content Migration:

Importing a Moodle 2 (Fall 12) into a Moodle 2 (Winter 13) course:

\*\*If you need to migrate content from a Fall 2012 course you may use the much easier and faster "Import" feature!

\*

\*

Restoring from a Winter 12 or Spring 12 Courses:

If you need to migrate content from a Winter 2012 or Spring 2012 course please go the "source" course on <http://classesarchive.lanecc.edu/winter-summer2012/> to create a backup file and complete a restore process into your "Target" Moodle 2 course.

\*

Restoring Courses from 2009 through 2011:

If you need to migrate content from a course from 2009 through 2011 please go to the "source" course on <http://classesarchive.lanecc.edu/ay09-11/> to create a backup file and complete a restore process into your "Target" Moodle 2 course.

\*

Directions for backing up a Moodle 1 course:

\*

Directions for restoring into a Moodle 2 course:

<https://classes.lanecc.edu/mod/page/view.php?id=287589>

\*

Verify Your Course:

Once you have completed a restore or import it is HIGHLY RECOMMENDED that you login as a student (i.e. "Joe Test") and view the course as them. You may assign "Joe Test" to your course and login as them. Once a course contains student data (logs, grades, etc..) it is very difficult for the ATC to complete any corrections.

JS BIRD SABBATICAL TALK AND CLOSING RECEPTION for his exhibit, "Psyche," Thursday, November 29, lecture at 4 p.m. and reception following at 5 p.m., Art Gallery, building 11. JS is a painting instructor for Art and Applied Design. Following a recent sabbatical, he has been producing a new body of work exploring the myth of Psyche and Eros, using "iconographic female images of pop culture to cast in the role of Psyche, famous women who are culturally associated with beauty and sexuality. While these icons are associated with sexuality and fantasy, there actually is no relationship between the icon and the viewer, except what lives inside the viewers head." In discussing his art as it relates to his audience, JS states, "In most cases art is neutral, it is an object, (objectified) yet the viewer creates a relationship with the art only by looking at it. While adopting pop culture's pictorial conventions of sexuality, I am relying on context to transform the images into a form that transcends the very conventions utilized. Such an overt, embellished fantasy, perhaps, holds within it, the capacity to force the viewer to confront, rather than indulge in, one's desire, or rejection, of the image." The show runs from through December 6. The lecture and reception are free and open to the public. For more information contact Art and Applied at 5409.

MANDATORY REPORTER CHILD ABUSE TRAINING, Nov. 30 and Dec. 7. There are two training opportunities in the near future and more sessions will be scheduled during winter term, 2013. Mandatory reporter training with a certified Oregon Department of Human Resources trainer is scheduled for Friday, November 30, and Friday, December 7, from 9-11 a.m. in the boardroom, building 3 (Administration). Please contact Kathy Alexander in Human Resources at 5588 if you plan to attend one of these two training sessions.

TEA AND TOPICS: TALK ABOUT YOUR TEACHING, SPECIAL ENGAGEMENT: A co-sponsored event with Faculty Council on Friday, November 30, 3-5 p.m., boardroom, building 3. Our topic: Promoting Digital Literacy. Faculty Council will co-host this edition of Tea and Topics as part of their Open House—but our focus will remain on our teaching, and not on policy. Join us for delicious (and expanded!) refreshments and talk with your colleagues about your ideas and challenges related to promoting digital literacy. All faculty and instructional support staff are welcome. "Tea and Topics" provides opportunities for faculty and staff to talk about topics related to student learning and success. Part-time faculty are eligible for a stipend after attending several conversations. Learn more by visiting our web page at <http://www.lanecc.edu/lc/fresources/TeaAndTopics.htm> or contact Anne McGrail at mcgraila@lanecc.edu

## NEWS AND ANNOUNCEMENTS

---

### LANE'S RECYCLING RATE INCREASES

Lane's recycling rate increased in 2011-12 to 57 percent. This is a 1 percent increase over the 2010-11 recycling rate of 56 percent. More significantly, Lane's total waste (recycling and garbage) decreased by 20 percent—from 586 tons in 2010-11 to 471 tons in 2011-12. This 20 percent decrease in total solid waste happened over a period when enrollment only declined by 0.3 percent. Some of the decrease in solid waste may have been from a slowing down of bond projects, but some is due to intentional conservation efforts across the college including the new a paperless work order system in Facilities Management and Planning. Contact: Mike Sims.

### TIME CAPSULE CEREMONY SET FOR DOWNTOWN CAMPUS

Community Education will create a human chain from the ABSE department at Lane's old Downtown Center to the new Downtown Campus academic building to install a time capsule, beginning at noon on Friday, January 4. Participants will pass a piece of carpet from the old DTC hand-to-hand in the chain until it arrives at the time capsule site at the new campus. The carpet will be the last item to be placed in the capsule before it is sealed and buried. What piece of carpet, and why? Here's a link to the story:

<http://pln.lanec.net/souloflane/2012/06/13/alise-lamoreaux-tells-a-secret-about-the-old-downtown-center/>

If you are former faculty, staff or student of the Downtown Center and would like to contribute to the time capsule, or if you would like to be a part of the human chain, please contact Elaine Eiler-Mough at 4906 or eiler-moughe@lanec.edu no later than December 15.

out and turn them into your department We Care representative. No amount is too small, and all the support stays local, impacting our community directly. Many of our own students and staff have benefitted from either the Foundation or United Way funded agencies. Your pledges make some of the following happen: \$60 per pay period to the Foundation pays for one term of tuition for a Lane student; \$20 a pay period to United Way provides three homeless youth a safe place to sleep for two weeks. When we focus on the basics, we are able to improve our community conditions with measurable results. No one person or organization can solve our community challenges alone.

Our drawings are coming to a close with the grand prize drawing on December 7. Everyone who has turned in their pledge forms with a pledge to either the Foundation and/or the United Way will be entered to win the "Pamper Yourself Basket" that includes a massage along with other tempting indulgences. Since last week was a short week, there will be two drawings, one this Tuesday, November 27, for the Thanksgiving week, and another drawing this Friday, November 30. The following gifts will be drawn on Tuesday:

- \* \$10 Cafeteria Dining Card donated by Mike O'Neal, Food Services
- \* \$10 Coffee Gift Card donated by Al King, Cooperative Education
- \* Bottle of Wine donated by Cathy Lindsley, ALS & Tutoring Services
- \* Live Plant donated by Dennis Carr, Human Resources
- \* \$20 Renaissance Room Gift Card donated by Larry Scott, Business/CIT

Turn in your pledge forms to your campaign representative or drop them off to the Foundation by noon Friday, November 30th to enter this week's drawing. This week's prizes are the following:

- \* Mobile Speakers donated by Brad Hinson, Information Technology

#### THANKS TO MY LCC FAMILY FROM MICHAEL LEVICK

If you have been wondering where I disappeared to in the middle of fall term, I have just returned from spending six weeks in Valdivia, Chile where my son, Adrian, was hospitalized with a severe illness. Adrian was doing a semester abroad at the University of Southern Chile (UACH) when he developed an autoimmune condition that destroyed his blood's ability to clot. He was admitted to the hospital at the beginning of October with spontaneous bruising and bleeding. Fortunately, he is in a world-class hospital, with expert care, and extremely good insurance coverage through the study abroad program, so he has been getting excellent care. He is now in the final stages of treatment, and should be home for Christmas. With the help of the Language department at UACH, Adrian has been able to keep up with his coursework from the hospital, and will get credit for his courses! My wife and I both traveled down to spend time with him during his treatment. I want to express my profound gratitude to the college, my department, and my friends and colleagues at Lane for making it possible for me to be gone for half of the term, and for the loving support and prayers that have sustained me during this episode. – Michael Levick

## AAWCC AUCTION DONATIONS

To help make the upcoming AAWCC Holiday Silent Auction on December 6 a success, we are still looking for additional donations to include in the auction. As you know the auction helps raise funds to support our Leadership Scholarships and AAWCC events. A few items have already been generously donated by Lane employees, departments, and community businesses, but we are still in need of additional items. Note that your donations are tax deductible.

Some donation suggestions are any hand crafted items, holiday ornaments and decorations, jewelry and scarves, gift certificates, products or services, gift baskets of any theme (food and wine, tea and coffee and chocolate, spa products, arts and crafts, and pet and baby items are always great), home decor, books, games, music CDs, movie DVDs, note cards, stationary, and journals. These are just a few ideas. And of course, it's okay to "re-gift" those treasures from home you're not using.

If you have anything you'd like to contribute to the auction, please attach a form with each item that includes a description of the item, estimated value, and your contact information (so we can thank you and forward a receipt letter for your tax deductible donation). The form is available from Phoebe Anderson at [AndersonP@lanecce.edu](mailto:AndersonP@lanecce.edu) or on the AAWCC website at <http://www2.lanecce.edu/aawcc> . Then just drop off your item(s) at Roxanne Watson's office in Administration, building 3, room 219.

**FACILITIES BLUEPRINT ARCHIVING PROJECT**

Over 47 years of blueprints, plans and files are carefully being sifted through, sorted and scanned to create a more organized and user-friendly reference archive of the construction and historical documentation of all college owned buildings. Facilities Management and Planning has been in the process of creating a digital plans archive on campus servers for more efficient access for various research and educational purposes. The archiving project began mid-

October and progress is ongoing. Several Learn and Earn students involved have been very dedicated and thorough. It has been especially gratifying to see the quality and care they are investing in this work. To date, 2722 individual plans have been scanned at the digital size of 192 gigabytes. This represents only 45 percent of the actual scanning still required to fulfill this task. In addition, two archive students have cataloged and recorded 140 boxes of project information and historical documents which represents about 50 percent of the data entry necessary to complete this project. Steps are in place to assure adequate security is maintained in accessing floor plan documents and drawings on file. For information, contact Jyoti Naik at extension 5568.

#### STAFF PASSWORD ALERT

#### AAWCC AUCTION DONATIONS

To help make the upcoming AAWCC Holiday Silent Auction on December 6 a success, we are still looking for additional donations to include in the auction. As you know the auction helps raise funds to support our Leadership Scholarships and AAWCC events. A few items have already been generously donated by Lane employees, departments, and community businesses, but we are still in need of additional items. Note that your donations are tax deductible.

Some donation suggestions are any hand crafted items, holiday ornaments and decorations, jewelry and scarves, gift certificates, products or services, gift baskets of any theme (food and wine, tea and coffee and chocolate, spa products, arts and crafts, and pet and baby items are always great), home decor, books, games, music CDs, movie DVDs, note cards, stationary, and journals. These are just a few ideas. And of course, it's okay to "re-gift" those treasures from home you're not using.

If you have anything you'd like to contribute to the auction, please attach a form with each item that includes a description of the item, estimated value, and your contact information (so we can thank you and forward a receipt letter for your tax deductible donation). The form is available from Phoebe Anderson at [AndersonP@lanecc.edu](mailto:AndersonP@lanecc.edu) or on the AAWCC website at

<http://www2.lanecc.edu/aawcc> . Then just drop off your item(s) at Roxanne Watson's office in Administration, building 3, room 219.

And just a reminder—it's not too late to RSVP for the upcoming AAWCC Holiday Celebration and Silent Auction on December 6 from 5:30-7:30 p.m. at Mary Spilde's home. Please forward your RSVP to Siv Serene Barnum at [BarnumS@lanecc.edu](mailto:BarnumS@lanecc.edu) . Thanks for your generous support of our AAWCC scholarships and events. NEWS AND ANNOUNCEMENTS

**"FEEL THE POWER" CAMPAIGN OFFICIALLY ENDS**

The We Care "Feel the Power" Campaign has officially completed its annual fund raising efforts for the Foundation and United Way. It has been another amazing year, and Lane is an amazing place. As Friday afternoon, we raised \$113,659! Our goal was \$115,000 so it is very likely with last minute pledges we could raise the \$1,341 we need to meet that goal. Thank you to everyone who participated from employee representatives, Foundation staff and the hundreds of wonderful donors who have made the campaign a success. Thank you! You can still make a donation or pledge throughout the year if you were unable to contribute during the campaign; you can make contributions to the Foundation directly. If you have not turned in your pledge forms, please give them to your campaign department representative or the Foundation Office, so we can make sure that everyone had the opportunity to pledge.

And, the Grand Prize Winner is:

\* Sarah Lushia of Language, Literature and Communication. Congratulations! She won a "Pamper Me" gift basket containing a massage gift certificate to the Pearl Day Spa, a bottle of wine, candles, lotion, soap, home-made jam and other goodies. Donated by, Mary Parthemer-Trio, Cathy Lindsley-ALS, Tiana Marrone-Creech- Foundation, and the Foundation.

**THANK YOU SUSIE BARBA**

It is with great personal sadness that I say good-bye and good luck to Susie Barba as she moves to a new position with the City of Florence working as the administrative assistant for the Florence Police Department. Susie has worked at Lane since 2005, and during that time she has been the Florence Center's "go to" person. We thank her for all her good work on behalf of the students, faculty and staff at the Florence Center. We will miss Susie greatly and wish her the best of success on her new adventure.

Susie's last day is Wednesday, December 12, and we are working with Executive Dean Don McNair to assure a smooth transition. In the interim, Beth Habian will take over many of the administrative assistant duties for the Florence Center. Beth has worked with us in the front office at the Florence

Center since May 2012. Beginning December 13, Beth can be reached at HabianE@lanecc.edu or Ext. 4810. Contact: Mary Jeanne Kuhar, kuharmj@lanecc.edu, 4805.

#### GROUPWISE UPGRADE DECEMBER 27

GroupWise will be updated on Thursday, December 27. IT will start the upgrade at approximately 10:30 a.m. and if all goes well, the upgrade will be completed by 1:00 p.m. During this time, access to GroupWise will be sporadic. This may affect your WebAccess and/or your client post office. It will not affect any other college systems. We will strive to minimize the down time and wish to thank you, in advance, for your patience. Submitted by Ardene Toney.

#### STAFF PASSWORD REMINDER

The Novell network/GroupWise system upgrade implemented last December requires that you change your password once a year. This means that the expiration date for passwords is quickly approaching for most of us. If you have not changed your Novell network/GroupWise password since last December or early January, this applies to you.

NOTE: This does not apply to myLane / ExpressLane, Moodle, Instructional computing labs, students, MAC login, SSAN or any log-ins that use L numbers.

IT is making available a web interface that allows you to conveniently manage your Novell network/GroupWise password and Novell network/GroupWise profile yourself. We highly recommend that you change your password before the winter break to avoid password expiration.

IMPORTANT: Be sure your GroupWise is closed when you follow these procedures to change your password.

## TWO OUTSTANDING PERFORMANCES COMING UP AT LANE

Lane Community College proudly presents...

\*

"POURING TEA: BLACK GAY MEN OF THE SOUTH TELL THEIR TALES" by Dr. E. Patrick Johnson, Thursday, January 17, 2013, 1-2:50 p.m. in the Ragozzino Performance Hall, Building 6. Continuing to build on Lane's Storytelling Model for Social Justice through the Arts, this award-winning, one-man play tells the story of black gay men in the American South. The play has received raving reviews and won the Black Theatre Alliance Award for Best Solo Performance. After the play, there will be a Q & A session and signing of Dr. Johnson's book, "Sweet Tea: Black Gay Men of the South -- An Oral History," on which the play, "Pouring Tea," is based. About the performer: Dr. E. Patrick Johnson is a professor of performance studies and African American studies at Northwestern University. A scholar, artist and activist, Dr. Johnson has performed nationally and internationally and has published widely in the area of race, gender, sexuality and performance (<http://epatrickjohnson.com/biography>). This event is free and open to the public. For more information contact Donna Koechig in Lane's Diversity Office at [koechigd@lanecc.edu](mailto:koechigd@lanecc.edu) or 5307.

"PAUL ROBESON," written by Philip Hayes Dean and performed by Lane faculty member, Dr. Stanley Coleman, on Friday, March 8, 2013, 7:30 p.m., and Sunday, March 10, 2013, 2 p.m., both in the Ragozzino Performance Hall, Building 6. This is a powerful chronicle of the life of Paul Robeson, taking us from his childhood in New Jersey to his adult life around the world. An All-American athlete and a lawyer with Columbia Law School credentials, Robeson faced the racism prevalent in society in the early part of the 20th century. He strived to rise above, and it is his triumph in that struggle that turned Robeson into a modern day hero. Realizing the racist system would not allow him to practice as a lawyer, Robeson turned to singing, something he had learned well in the church choir. His singing led to acting and his acting, with all the accolades due a master, led him around the world. But every place he visited he saw the strains of racism in its many forms. He was blacklisted and his passport was revoked, but he went on speaking out whenever he could. For eight years he fought to clear his name. Finally, the social climate began to change and toward the end of his life, Robeson's passport was reinstated along with some of the glory and respect he earned along the way. This play is a powerful look at the many facets of Robeson the man, as well as Robeson the star. It is a "tour-de-force" for any actor.

About the performer: Dr. Stanley Coleman has directed and taught theatre and speech for over 30 years and has a Ph.D. in theatre from Louisiana State University. He currently teaches speech at Lane. In addition, Dr. Coleman is a singer, actor and pianist, having performed the one-man show, "Paul Robeson," throughout Louisiana and New Mexico. Dr. Coleman has won numerous acting awards, including a Best Actor's award from the Lafayette Community Theatre for his portrayal of Hoke in "Driving Miss Daisy."

**MICHAEL LEVICK NAMED EMPLOYEE OF THE MONTH**

Kudos and congratulations go to December’s Classified Employee of the Month – Michael Levick of the Academic Technology Center. Representatives of the Classified Professional Development Team joined staff in ATC to present Michael with the EOM award for December 2012. He began working at LCC in December 2003. Michael operates in high performance mode on a daily basis and is someone who has unyielding dedication to customer service and advocacy – who patiently assists faculty and students with technical glitches, uncertainties, frustrations, and curiosity, phones ringing, inbox filling, and clients tapping him on the shoulder at every turn. Michael still finds time to counsel, guide, and train the interns of the ATC and this is why he is an exemplary employee and leader within the ATC. Michael recently exceeded even this “normal” level of performance, patience, and dedication with the transition to Moodle 2 fall term. He volunteered to work the weekend – Saturday and Sunday – prior to the first day of class so that he could continue working through questions and system problems – to continue fielding phone calls and emails from faculty and students. He is an outstanding leader and inspiration within the team, and he fully deserves employee of the month. When you see Michael, congratulate him for doing a terrific job and celebrate his nomination as LCC’s December’s Classified Employee of the Month. And remember that, you too, can help us to recognize exemplary classified employees by nominating them for this award by the 15th of each month. Nomination forms are available: 1) on the CPDT website:

<http://www.lanecc.edu/cpdt/recognition/eominfo.html> or 2) from Elaine Marsh, IRAP, [marshe@lanecc.edu](mailto:marshe@lanecc.edu)

**WE HAVE MOVED!**

If you are looking for the departments that were either at the Downtown Center (ABSE, CE, ESL) or Wildish Building (eDev, SBDC) or Energy Management, we have moved into our new

home at the Downtown Campus. We are still settling in, so please be patient as we unpack, gain access to email and phones and find that missing box of "stuff" we packed. Our new numbers will be in the next staff directory from Printing/Graphics and in the online staff directory. Titan Store & Market is open, Public Safety is moving soon, and the CML will soon have its first event in the new space.

Coming soon: information on the Downtown Campus Grand Opening on March 15.

And if you ever taught, worked or took classes at the DTC, please join us on Jan. 4 for special farewell. We will gather at 11:45 a.m. at the DTC to form a line and pass a piece of carpeting from the DTC hand to hand until we reach the new building to place the swatch in a time capsule, along with other items. For more information or to participate, contact Elaine at 6106. Beginning Jan. 2, contact Continuing Education at (541) 463-6100 or [ceinfo@lanecc.edu](mailto:ceinfo@lanecc.edu) Our new address is 101 W 10th Ave, Eugene, OR 97401. #### MONIQUE JANSSEN-BELITZ EXHIBIT "UNFOLDING DREAMS" OPENS JAN. 7; RECEPTION JAN. 17

The Lane Community College Art Gallery is proud to present the exhibition, "Unfolding Dreams," by well-traveled artist, Monique Janssen-Belitz, who currently resides and teaches in Crete, Nebraska.

"My life is a collection of landscapes, colored by atmosphere and eloquent light. Immersed in the awareness of the transience of life and illusory promises of happiness, the land always offers more, something beyond eternity, beyond hope and beyond disappointments. In landscapes that are so huge you could lose yourself in them; becoming an inconsequential speck of dust as part of a larger-than-life orchestra celebrating the joy of nature. Variety inside repetition; multiples generate textures; textures morph into forms; forms create depth. This interconnectedness mirrors the forces, which shaped the land over time. Its geological genesis etched the surface as did the ebb and flow of cultural sediment and weathered erosion."

Thursday, January 17, beginning at 3 p.m. with a reception immediately following. The lecture and reception are free and open to the public. The gallery is located in building 11 on the main campus. There is no charge for admission. The Art and Applied Design Department phone number is [541-463-5409](tel:541-463-5409).

#### ZINA MUSSMANN EXHIBIT "UNDER THE SUN" OPENS JANUARY 7

The Lane Community College Art Gallery is proud to present the exhibition, "Under the Sun", by mid-western artist Zina Mussmann. Mussmann was born in Milwaukee and received a BFA in Painting and Drawing from UWM's Peck School of the Arts in 2002. She went on to complete her MFA in Painting at Northern Illinois University in 2008. Zina has exhibited nationally in cities including Milwaukee, Baltimore, Cincinnati, Sacramento, and Chicago. Her work was recently featured in the Manifest International Painting Annual 1, which was published in late 2011. Currently, Zina is the Co-Director of "greymatter", an artist-run initiative that she established in 2011 with artist Rachel Quirk.

"My process involves the collection and appropriation of images and words from various ephemera, such as photographs, documents and film. I am interested in de-contextualizing this information and re-contextualizing it into mixed media works. These new constructions are a hybrid of drawing, painting, and collage that create ambiguous meanings which complicate understanding. I allow the work to exist in a state of absurdity by choosing to exclude certain information that is vital to the interpretation of the images. The work becomes more about questions than answers and alludes to the fact that, as humans, we can never really find real truth, only temporary conclusions. That really, there is nothing new under the sun."

The show runs from January 7 to February 7. The gallery is located in building 11 on the main campus, The Art and Applied Design Department phone number is (541) 463-5409.

## STAFF PASSWORD REMINDER

The Novell network/GroupWise system upgrade implemented last December requires that you change your password once a year. This means that the expiration date for passwords is quickly approaching for most of us. If you have not changed your Novell network/GroupWise password since last December or early January, this applies to you.

NOTE: This does not apply to myLane / ExpressLane, Moodle, Instructional computing labs, students, MAC login, SSAN or any log-ins that use L numbers.

IT is making available a web interface that allows you to conveniently manage your Novell network/GroupWise password and Novell network/GroupWise profile yourself. We highly recommend that you change your password before the winter break to avoid password expiration.

IMPORTANT: Be sure your GroupWise is closed when you follow these procedures to change your password.

This one-man play by Dr. E. Patrick Johnson will be performed Thursday, January 17, from 1-2:50 p.m. in the Ragazzino Performance Hall, Building 6. Continuing to build on Lane's Storytelling Model for Social Justice through the Arts, this award-winning, one-man play tells the story of black gay men in the American South. The play has received raving reviews and won the Black Theatre Alliance Award for Best Solo Performance. After the play, there will be a Q & A session and signing of Dr. Johnson's book, "Sweet Tea: Black Gay Men of the South -- An Oral History," on which the play, "Pouring Tea," is based. #### "PAUL ROBESON"

A play written by Philip Hayes Dean and performed by Lane faculty member, Dr. Stanley Coleman, "Paul Robeson" will be performed Friday, March 8, at 7:30 p.m., and Sunday, March 10, 2 p.m., both in the Ragazzino Performance Hall, Building 6. This is a powerful chronicle of the life of Paul Robeson, taking us from his childhood in New Jersey to his adult life around the world. An All-American athlete and a lawyer with Columbia Law School credentials, Robeson faced the racism prevalent in society in the early part of the 20th century. He strived to rise above, and it is his triumph in that struggle that turned Robeson into a modern day hero. Realizing the racist system would not allow him to practice as a lawyer, Robeson turned to singing, something he had learned well in the church choir. His singing led to acting and his acting, with all the accolades due a master, led him around the world. But every place he visited he saw the strains of racism in its many forms. He was blacklisted and his passport was revoked, but he went on speaking out whenever he could. For eight years he fought to clear his name. Finally, the social climate began to change and toward the end of his life, Robeson's passport was reinstated along with some of the glory and respect he earned along the way. This

play is a powerful look at the many facets of Robeson the man, as well as Robeson the star. It is a "tour-de-force" for any actor.

About the performer: Dr. Stanley Coleman has directed and taught theatre and speech for over 30 years and has a Ph.D. in theatre from Louisiana State University. He currently teaches speech at Lane. In addition, Dr. Coleman is a singer, actor and pianist, having performed the one-man show, "Paul Robeson," throughout Louisiana and New Mexico. Dr. Coleman has won numerous acting awards, including a Best Actor's award from the Lafayette Community Theatre for his portrayal of Hoke in "Driving Miss Daisy."

If you need disability accommodations in order to attend this event, contact Disability Resources at 5150 or (541) 463-3097 (TTY) one week in advance.
