NEWS AND ANNOUNCEMENTS

LISA RUPP NAMED DECEMBER CLASSIFIED EMPLOYEE OF THE MONTH
Kudos and congratulations go to December's Classified Employee of the Month, Lisa Rupp, Public Safety Officer. Representatives of the Classified Professional Development Team joined Public Safety staff to present Lisa with the award. Lisa started working at LCC June 1997 as a bookstore clerk and has since held positions in the mailroom, facilities and Public Safety where she is now a Lead Public Safety Officer II. Corporal Rupp successfully managed a brand new scheduling system that has integrated the 1039 hour rule, staff needs, special projects, vacations illness, and FMLA leaves with the essential and mandatory staffing minimums required by Public Safety. Corporal Rupp has been the primary leader in organizing and delivering sexual assault prevention and education information to the students, staff, and faculty of Lane. She also made a suggestion to give a soda or coffee to persons who were complying with the tobacco police. This is great leadership and this idea is under preliminary development. She has done a stellar job as the Public Safety representative on the Tobacco Free Committee. Corporal Rupp has made many vital contributions to the Public Safety Department, the entire college, and the people of the community. She is selfless and tireless, and has earned the respect and admiration of her peers and many people in the college community. When you see Lisa, congratulate her for doing a terrific job and celebrate her nomination as LCC's December's Classified Employee of the Month. And remember that, you too, can help us to recognize exemplary classified employees by nominating them for this award. Nomination forms are available on the CPDT website: <http://www.lanecc.edu/cpdt/recognition/classified-employee-month-eligibility-guidelines-and-nomination-form>. REDUCE YOUR GHG EMISSIONS BY RIDING THE BUS

Lane employees can get a bus pass at a reduced rate by registering for a credit class on Main or Downtown Campus. By signing up for the Fitness Education Center (CRN 30464), Lane employees pay \$77 in fees, get a bus pass, and a gym membership. This is a \$200+ value for just \$77. Taking the bus saves gas, greenhouse gas emissions, and money. Riding the bus may take more time than driving, but bus riders can use that time to read a book, catch up with friends on Facebook, or even grade papers. More

FLU VACCINES STILL AVAILABLE AND RECOMMENDED—

Now that we are all back from break and exposed to many more people, remember that you can still get a flu vaccination for little or no cost.

Influenza (flu) is a serious disease of the nose, throat, and lungs, and it can lead to pneumonia. Each year about 200,000 people in the U.S. are hospitalized and 36,000 people die because of the flu.

Getting vaccinated is one of the most effective ways to prevent the flu. The vaccine for 2013-2014 covers H1N1 influenza, which can cause severe illness. Here are some vaccinations options open to students and employees:

FOR EMPLOYEES:

Cascade Health Solutions

Cost \$25.00, LCC insurance is accepted for PacificSource and ODS, as well as many others

Open Monday-Friday, 7:00am – 6:00pm, NO APPOINTMENT NECESSARY

Address: 2650 Suzanne Way, Suite 200, Eugene, OR 97408

FOR STUDENTS AND EMPLOYEES:

Lane Community College Health Clinic

Cost \$25.00, cash, check, no credit cards, no insurance billing

Call 541-463-5665 to make an appointment

Many area pharmacies also provide flu vaccinations and will also bill insurance. Please contact your pharmacy directly.

OTHER THINGS YOU CAN DO TO PREVENT THE FLU:

Wash your hands often. Soap and water are best or you can use alcohol-based hand sanitizers.

Avoid close contact with sick people.

Stay home when you are sick. Call ahead before visiting the LCC Health Clinic or your practitioner.

Cover your cough. Use your elbow or sleeve, or a tissue and then discard it.

Avoid touching your eyes, nose or mouth.

Get vaccinated and make sure your family members are vaccinated.

WHEN TO SEEK MEDICAL CARE

You should call for advice or seek medical care if you are sick longer than 3-5 days; get better, then a lot worse; are unable to keep down any fluids and are feeling dehydrated, weak, dizzy; are having problems getting your breath; if you are diabetic, asthmatic or have any other chronic illness that might make you more susceptible to severe infection.

More information about Seasonal Influenza (Flu) can be found at the Centers for Disease Control Website: <http://www.cdc.gov/flu>

NEW WAY OF DELIVERING LETTERS OF ACCOMMODATION

This weekly tip from Disability Resources is part of an effort to share educational messages with Lane Community College employees about specific services provided to students with disabilities. Disability Resources is in the process of implementing a new database for student use. Beginning winter term, DR students will be able to request their accommodations online, and in the process, send faculty an email indicating which accommodations students plan on using for each of their classes. Students may also present a hard-copy of their Letter of Accommodation, or they may show instructors an electronic version. We strongly encourage students and instructors to discuss the details of the accommodations students plan to use in class ahead of time. Please feel free to contact Disability Resources with any questions or concerns at ext. 5150 or via e-mail at disabilityresources@lanecc.edu

READERS (AND LIFE-SIZE PHOTOS) DRAMATIZE THE STORY OF THE 1853 LOST WAGON TRAIN, two performances of "Hard Way to the Valley" Saturday, Jan. 11 at 2 p.m., at the Lowell Grange, corner of Moss & 2nd Streets in Lowell. No admission fee; a free will offering to support the restoration of the 100-year-old building. Also Sunday, Jan. 12 at 2 p.m. in the Fellowship Hall of the First Congregational Church, 23rd and Harris in Eugene. No admission fee; a free will offering will benefit the FCC Peace Village Interfaith Summer Day Camp for Children. BACKGROUND: Lane County has a one-of-a-kind Oregon Trail story. Known as the Lost Wagon Train of 1853, the episode involved more than a thousand pioneers who dared a "short-cut" across Oregon's high desert, through the Willamette Pass of the Cascade Mountains, and into Lane County. Eugene writer Pete Peterson and four narrators in the Our Town Readers Theater group will share the history story based on pioneer diaries and memoirs. Joining the

readers on stage will be 17 life-size pioneer look-alike photos as props. Audience members can use Oregon Trail maps to trace the pioneers' five-month, 2,000-mile trek from the Missouri River to Lane County. The emigrants' rescue in late October and early November of that year doubled the size of Lane County. Peterson says he based his 1975 book, "Our Wagon Train is Lost," as well as the script for the Jan. 11 & 12 presentations, on materials that Lane County genealogist and historian Leah Collins Menefee collected over a 40-year span. "Because of Leah Menefee's efforts, our county has a thoroughly documented record of this unique Oregon Trail episode. All thanks and credit to her." The Lane County History Society and Museum collection includes diary and memoir transcriptions from dozens of pioneers. Peterson says he's "recycling" many life-size photos of actors dressed in pioneer attire that the late artist and Lane instructor David Joyce originally created for the full-length 1993 Lane Community College play, "That Pioneer Road." Our Town Readers Theater includes • Lynne Hellesvig is a retired teacher, and active in multiple volunteer programs including the Eugene Public Library and CASA of Lane County. • Chris Cunningham is a nonfiction freelance writer, and active in multiple volunteer activities including SMART and CASA of Lane County. • Don Gall is a retired minister of the United Church of Christ, who has authored several books and remains a sought-after preacher. • Jeff Stimler was a sixth-grade classroom teacher for 17 years in Minnesota, and now serves as the interim director of children's Ministries at the First Congregational Church in Eugene. • Pete Peterson, a retired LCC journalism instructor, is an adjunct at the UO School of Journalism and Communication. In 1975, he published, "Our Wagon Train is Lost," which he adapted in 1993 for an LCC main stage play titled, "That Pioneer Road."

EMOTIONAL INTELLIGENCE WORKSHOPS

Greetings from the Office of Professional and Organizational Development. The college has invited leadership expert and coach Suzanne Rotondo with Redshift Leadership to return to Lane to lead staff through examples of what leading with emotional intelligence (EI) looks and feels like. The sessions will help you develop the ability to gauge your impact on others, be attentive to emotional cues, cultivate the quality of empathy, and

motivate/inspire others, and cover how the best leaders build, maintain, and restore trust. Decades of research shows that it is the competencies associated with EI that makes the biggest difference. This is especially true in today's organizations of shrinking resources and higher demands.

EI Part 1 will give participants a foundation in Emotional Intelligence in leadership roles - learn about the core of EI, self-awareness all the way through to effective relationship management. (Important Note: Part 1 is most appropriate for staff who did not attend the Nov 2012 EI sessions.)

EI Part 2 will take participants who have a basic foundation in EI skills into a deeper exploration and practice of EI, as well as how to apply EI to groups in order to create optimal work environments that support two key metrics: return on investment and return on mission. (Important Note: Part 2 is most appropriate for staff who participated in the Nov 2012 EI sessions.)

Staff may attend EI Part 1 (morning session), EI Part 2 (afternoon session), or EI Parts 1 & 2 (full-day session). There are two dates to choose from, with one session on main campus, and the second held at a City of Eugene facility.

First Date: February 11, 2014

Time: 8:30-noon (EI Part 1) and/or 1:30-5pm (EI Part 2)

Location: CML Room 104

Deadline for registration: 5pm, Thursday, February 6, 2014

Second Date: May 1, 2014

Time: 8:30-noon (EI Part 1) and/or 1:30-5pm (EI Part 2)

Location: City of Eugene Police/Fire/911 Training Center, 1705 W. 2nd Ave., Eugene

Deadline for registration: 5pm, Monday, April 28, 2014

We will be reserving seats for a limited number of participants on both dates on a first-come, first-serve basis. Classified and faculty staff members interested in attending should respond at their earliest convenience to the following Doodle survey link:

ROBERT HALEY RETIRES AFTER 30+ YEARS

For more than 30 years, starting in 1982 and ending in 2013, Robert 'Bob' Haley taught Computer Science courses part-time at Lane. He started here when computers were only thought of as large corporate tools inaccessible to the average person and continued to teach as computers became an integral part of every one's life. Bob diligently shared his knowledge and wisdom to thousands of students translating his understanding of business computing into nuggets of knowledge, readying his students for the ever expanding world of computer technology. If you would like to wish Bob a fond retirement please stop by the Business and Computer Information Technology (BCIT) front office on the first floor of Building 19 to sign his retirement card. ACADEMIC PROGRESS STANDARDS IMPLEMENTED

Because Lane has a responsibility to help certificate and degree seeking credit students achieve their educational goals in a timely and cost-effective manner, student progress is tracked and assistance is provided to students who, for whatever reason, do not meet the college's minimum standards. Lane's Academic Progress Standards (APS) require that all credit students achieve a minimum GPA of 2.0 and complete at least 67 percent of credits each term to remain in good standing. There is a graduated system of

interventions aimed at helping students learn information and resources that will help them succeed.

Lane faculty and staff may have received notification of an Academic Progress Alert status after summer or fall term if they are in the system as a credit student seeking a degree, and they did not meet the standards. If you received that message, and you are not a degree-seeking student (if you are using Financial Aid, you must be a degree-seeking student) please go into myLane, myEnrollment, Student Status (top, middle channel), View/Change your current major, and change your major to No Major declared; no degree sought. Then email AcademicProgressStandards@lanecc.edu with your name, L#, and the information that you changed your status to No Major declared; no degree sought. Your registration hold will be released, and you will no longer be in the Academic Progress System.

If you have questions, please send them to AcademicProgressStandards@lanecc.edu

EMOTIONAL INTELLIGENCE WORKSHOPS FEB. 11 AND MAY 1

Greetings from the Office of Professional and Organizational Development. The college has invited leadership expert and coach Suzanne Rotondo with Redshift Leadership to return to Lane to lead staff through examples of what leading with emotional intelligence (EI) looks and feels like. The sessions will help you develop the ability to gauge your impact on others, be attentive to emotional cues, cultivate the quality of empathy, and motivate/inspire others, and cover how the best leaders build, maintain, and restore trust. Decades of research shows that it is the competencies associated with EI that makes the biggest difference. This is especially true in today's organizations of shrinking resources and higher demands.

EI Part 1 will give participants a foundation in Emotional Intelligence in leadership roles - learn about the core of EI, self-awareness all the way through to effective relationship management. (Important Note: Part 1 is most appropriate for staff who did not attend the Nov 2012 EI sessions.)

EI Part 2 will take participants who have a basic foundation in EI skills into a deeper exploration and practice of EI, as well as how to apply EI to groups in order to create optimal work environments that support two key metrics: return on investment and return on mission. (Important Note: Part 2 is most appropriate for staff who participated in the Nov 2012 EI sessions.)

Staff may attend EI Part 1 (morning session), EI Part 2 (afternoon session), or EI Parts 1 & 2 (full-day session). There are two dates to choose from, with one session on main campus, and the second held at a City of Eugene facility.

* First Date: February 11, 2014

Time: 8:30-noon (EI Part 1) and/or 1:30-5pm (EI Part 2)

Location: CML Room 104

Deadline for registration: 5pm, Thursday, February 6, 2014

* Second Date: May 1, 2014

Time: 8:30-noon (EI Part 1) and/or 1:30-5pm (EI Part 2)

Location: City of Eugene Police/Fire/911 Training Center, 1705 W. 2nd Ave., Eugene

Deadline for registration: 5pm, Monday, April 28, 2014

We will be reserving seats for a limited number of participants on both dates on a first-come, first-serve basis. Classified and faculty staff members interested in attending should respond at their earliest convenience to the following Doodle survey link: <http://doodle.com/3ay2symbck4qgb4p> (Managers and Aspiring Leaders received a separate Doodle link due to a date change.)

NEWS AND ANNOUNCEMENTS

ELIZABETH ANDRADE NAMED JANUARY’S CLASSIFIED EMPLOYEE OF THE MONTH

Kudos and congratulations go to January’s Classified Employee of the Month Elizabeth Andrade, project coordinator for the President’s Office. Elizabeth started working at Lane in April 2001. Her job has included supporting minorities, serving on Diversity Council, assisting President Spilde, note-taking, bilingual translation, coordinating related activities, and outreach. Her efficiency and ability to set priorities must be in perfect order to serve the college at so many levels. She has served on multiple teams but most recognizable is the Diversity Council and ASLCC consultant. She is a tireless and genuine supporter of students, providing an inspiring example for the rest of us.

Elizabeth displays exceptional courage to engage in a problem-solving framework that responds to the diminishing experiences faced by marginalized populations on campus. Her efforts towards implementing Lane's core values of diversity and integrity are often met with personal and professional resistance and a sacrifice for her well-being as a Latina on campus. Elizabeth has an outstanding compassion, leadership, knowledge, and ethics, which she role models to her colleagues and to the students. Her contribution to Lane is invaluable and much appreciated. She has been instrumental in making the student voices be heard by Lane's staff. Elizabeth is a woman of high integrity, courage and knowledge with a wonderful energy that shines through her whenever you speak with her. She is a person that you can trust and she really cares about this institution and the people who work here. She is always striving to be and do better, and helping others do the same with positive encouragement and communication. She is an active member in the Latino community volunteering for sustainable gardens in low income neighborhoods and is involved with First Friday. When you see Elizabeth, congratulate her for doing a terrific job and celebrate her nomination as LCC's January's Classified Employee of the Month. And remember that, you too, can help us to recognize exemplary classified employees by nominating them for this award. Nomination forms are available on the CPDT website: <http://www.lanecc.edu/cpdt/recognition/classified-employee-month-eligibility-guidelines-and-nomination-form>. FURNITURE REMINDERS

This weekly tip from Disability Resources is part of an effort to share educational messages with Lane Community College employees about specific services provided to students with disabilities. Students are responsible for requesting furniture accommodations through Disability Resources (DR) as the need arises. Students should address their seating needs when meeting with instructors to discuss their Letter of Accommodation. ADA chairs are often inconspicuously identified by a spray painted spot on the vertical stalk that supports the seat. If you're unsure if a specific chair has been placed as an accommodation, please contact DR at ext. 5150. Once placed in the classroom, it becomes the instructor's responsibility to ensure that the furniture is reserved for student accommodations. If another student appears to need furniture accommodations, please refer the student to Disability Resources. It may also be

appropriate to refer the student to Disability Resources if a disability is disclosed or if a student's need is observable.

EMOTIONAL INTELLIGENCE WORKSHOPS FEB. 11 AND MAY 1

Greetings from the Office of Professional and Organizational Development. The college has invited leadership expert and coach Suzanne Rotondo with Redshift Leadership to return to Lane to lead staff through examples of what leading with emotional intelligence (EI) looks and feels like. The sessions will help you develop the ability to gauge your impact on others, be attentive to emotional cues, cultivate the quality of empathy, and motivate/inspire others, and cover how the best leaders build, maintain, and restore trust. Decades of research shows that it is the competencies associated with EI that makes the biggest difference. This is especially true in today's organizations of shrinking resources and higher demands.

EI Part 1 will give participants a foundation in Emotional Intelligence in leadership roles - learn about the core of EI, self-awareness all the way through to effective relationship management. (Important Note: Part 1 is most appropriate for staff who did not attend the Nov 2012 EI sessions.)

EI Part 2 will take participants who have a basic foundation in EI skills into a deeper exploration and practice of EI, as well as how to apply EI to groups in order to create optimal work environments that support two key metrics: return on investment and return on mission. (Important Note: Part 2 is most appropriate for staff who participated in the Nov 2012 EI sessions.)

Staff may attend EI Part 1 (morning session), EI Part 2 (afternoon session), or EI Parts 1 & 2 (full-day session). There are two dates to choose from, with one session on main campus, and the second held at a City of Eugene facility.

* First Date: February 11, 2014

Time: 8:30-noon (EI Part 1) and/or 1:30-5pm (EI Part 2)

Location: CML Room 104

Deadline for registration: 5pm, Thursday, February 6, 2014

* Second Date: May 1, 2014

Time: 8:30-noon (EI Part 1) and/or 1:30-5pm (EI Part 2)

Location: City of Eugene Police/Fire/911 Training Center, 1705 W. 2nd Ave., Eugene

Deadline for registration: 5pm, Monday, April 28, 2014

We will be reserving seats for a limited number of participants on both dates on a first-come, first-serve basis. Classified and faculty staff members interested in attending should respond at their earliest convenience to the following Doodle survey link: <http://doodle.com/3ay2symbck4qgb4p> (Managers and Aspiring Leaders received a separate Doodle link due to a date change.)

EMOTIONAL INTELLIGENCE WORKSHOPS FEB. 11 AND MAY 1

Greetings from the Office of Professional and Organizational Development. The college has invited leadership expert and coach Suzanne Rotondo with Redshift Leadership to return to Lane to lead staff through examples of what leading with emotional intelligence (EI) looks and feels like. The sessions will help you develop the ability to gauge your impact on others, be attentive to emotional cues, cultivate the quality of empathy, and motivate/inspire others, and cover how the best leaders build, maintain, and restore trust. Decades of research shows that it is the competencies associated with EI that makes the biggest difference. This is especially true in today's organizations of shrinking resources and higher demands.

EI Part 1 will give participants a foundation in Emotional Intelligence in leadership roles - learn about the core of EI, self-awareness all the way through to effective relationship management. (Important Note: Part 1 is most appropriate for staff who did not attend the Nov 2012 EI sessions.)

EI Part 2 will take participants who have a basic foundation in EI skills into a deeper exploration and practice of EI, as well as how to apply EI to groups in order to create optimal work environments that support two key metrics: return on investment and return on mission. (Important Note: Part 2 is most appropriate for staff who participated in the Nov 2012 EI sessions.)

Staff may attend EI Part 1 (morning session), EI Part 2 (afternoon session), or EI Parts 1 & 2 (full-day session). There are two dates to choose from, with one session on main campus, and the second held at a City of Eugene facility.

* First Date: February 11, 2014

Time: 8:30-noon (EI Part 1) and/or 1:30-5pm (EI Part 2)

Location: CML Room 104

Deadline for registration: 5pm, Thursday, February 6, 2014

* Second Date: May 1, 2014

Time: 8:30-noon (EI Part 1) and/or 1:30-5pm (EI Part 2)

Location: City of Eugene Police/Fire/911 Training Center, 1705 W. 2nd Ave., Eugene

Deadline for registration: 5pm, Monday, April 28, 2014

We will be reserving seats for a limited number of participants on both dates on a first-come, first-serve basis. Classified and faculty staff members interested in attending should respond at their earliest convenience to the following Doodle survey link:

SUPPORT A LOCAL AND SUSTAINABLE FOOD ECONOMY: My food club desires more individuals to split purchases of local, organic dried goods in bulk. Decrease your carbon footprint by not contributing to the high-energy costs of nitrogen fertilizers and by significantly lowering the fuel required to transport food from the farm to your table. By buying organic you are rejecting the use of neonicotinoid pesticides (which kill honeybees and have been implicated in other animal declines) and numerous other chemicals that end up spilling into our waterways and water supplies. Less packaging means less plastic leaching chemicals into our landfills and oceans (and therefore our bodies). If you live in the vicinity of Spencer Butte Middle School, consider joining our buying club. If you are interested in starting your own club in another part of town, I would be happy to chat with you. ANNIE CAREDIO NAMED FEBRUARY'S CLASSIFIED EMPLOYEE OF THE MONTH Kudos and congratulations go to February's Classified Employee of the Month Annie Caredio, admissions specialist in Enrollment and Student Financial Services. Annie started working part-time at LCC in 1995 and worked in several different areas before becoming full-time August 2007. Although Annie is "behind the scenes," she is the front door to all the students who have enrolled or plan to enroll for courses at Lane. She pours herself into the innate details demanded in entering and critiquing all applications submitted to Lane. Annie is the "expert" in analyzing and interpreting Lane's data management system's application information. Not only is Annie a primary resource to the core admissions and student records staff, she is also an Excel wizard. Annie rises to the challenges in creating excruciatingly detailed reports containing complex technical formulas. ABSE SEES 46 PERCENT INCREASE IN GED GRADUATES FALL 2014

Lane's Testing Center atwill begin testing with the new GED 2014 (General Education Development) at end of February after the GED2002 closeout in December 2013 and GED Testing Service's move to a new test and testing system.

Meanwhile, the closeout numbers from GED 2002 showed an impressive 46 percent increase in successful completers over the previous fall. In fall 2012, 113 Lane students enrolled in Adult Basic and Secondary Education classes successfully completed GED tests. For Fall 2013, 165 completed.

GED preparation classes are offered at Lane at 7 sites in Lane County.

Sites and their GED completion numbers are: Main Campus, 59; Downtown Campus, 42; Cottage Grove, 29; Florence, 14; Lane County Adult Corrections, 9; Springfield, 8; and Junction City, 4. While students prepared for their GED tests, they also learned about Lane certificate and degree programs and how to apply.

With changes in financial aid, students now have to have a GED or high school diploma to be eligible to receive federal financial aid. Now these 165 students are ready for their next step at Lane. Contact: Cathy Lindsley.

LANE DANCE GROUP TO PARTICIPATE IN BALINESE ARTS FESTIVAL JUNE 21; FUNDRAISER FEB. 16-17

Lane Community College's Balinese Dance Group Tirtha Tari is please to announce their invitation to perform in the prestigious annual Bali Arts Festival June 21.

Every year, the Indonesian government sponsors the Bali Arts Festival to celebrate Balinese art and culture. The month-long festival features the finest performing artists on the island. Bonnie Simoa and her students have been invited to perform the rarely performed old style traditional Legong Keraton Playon.

Bonnie Simoa, lead dance faculty at LCC, has traveled regularly to Bali since 1996 to study traditional Balinese dance, particularly the rare and complex "Legong Keraton Playon" from the last surviving Legong teacher of her generation, Sang Ayu Ketut Muklen. The new generation of dancers in Bali prefer to study the newer truncated versions of the classical dances, thus the preservation of this old style is threatened. Since 2010, dance students at LCC have studied Balinese dance. Six serious students have emerged, and have risen to the challenge of learning the exacting and

complicated forty-minute classical Legong dance. They will travel to Bali as part of "Exploring the Roots of Traditional Balinese Dance" cultural study program this summer. In addition to performing in the Bali Arts Festival, the students will meet, study, and perform the Legong for the 87 year old master teacher Sang Ayu Ketut Muklen. You can see Tirtha Tari perform traditional Balinese dance this weekend at the Asian Celebration 2014, Lane County Fairgrounds Saturday, Feb. 16 at 1:30 p.m., and Sunday, Feb. 17 at 10:55 a.m.

The Lane Dance Foundation is gratefully accepting tax deductible donations to help fund this important cultural exchange project. Checks should be made out to: Lane Community College Foundation (note: Balinese Dance Fund) and sent to: Lane Community College Foundation, 4000 E. 30th Avenue, Eugene, OR 97405. For further information contact Bonnie Simoa, simoab@lanecc.edu or 5645.

WHEN DISABILITIES IMPACT ATTENDANCE

This weekly tip from Disability Resources is part of an effort to share educational messages with Lane Community College employees about specific services provided to students with disabilities. There are students who may have more frequent absences due to their disability. Disability Resources acknowledges that attendance is crucial to student success in college classes, and instructors are not required to fundamentally

alter the nature of the course. Wherever possible, flexibility is appreciated. It is the student's responsibility to keep instructor's informed of any circumstances that prevent the student from attending and to negotiate arrangements for completing course requirements.

How do you determine if attendance is essential to the course? The Office of Civil Rights suggests examining the following factors. It's also important to have clear attendance policies in the course syllabus.

Is there classroom interaction between the instructor and students? Or is group work required for the class?

Do student contributions constitute a significant component of the learning process?

Does the course rely on student participation as a method for learning?

What is the impact of student absences on the educational experience of other students in the class?

Please feel free to contact Disability Resources with any questions or concerns at ext. 5150 or via e-mail at disabilityresources@lanecc.edu

EMOTIONAL INTELLIGENCE WORKSHOP - MAY 1

Greetings from the Office of Professional and Organizational Development. The college has invited leadership expert and coach Suzanne Rotondo with Redshift Leadership to return to Lane to lead staff through examples of what leading with emotional intelligence (EI) looks and feels like. The sessions will help you develop the ability to gauge your impact on others, be attentive to emotional cues, cultivate the quality of empathy, and motivate/inspire others, and cover how the best leaders build, maintain, and restore trust. Decades of research shows that it is the competencies associated with EI that makes the biggest difference. This is especially true in today's organizations of shrinking resources and higher demands.

EI Part 1 will give participants a foundation in Emotional Intelligence in leadership roles - learn about the core of EI, self-awareness all the way through to effective relationship management. (Important Note: Part 1 is most appropriate for staff who did not attend the Nov 2012 EI sessions.)

EI Part 2 will take participants who have a basic foundation in EI skills into a deeper exploration and practice of EI, as well as how to apply EI to groups in order to create optimal work environments that support two key metrics: return on investment and return on mission. (Important Note: Part 2 is most appropriate for staff who participated in the Nov 2012 EI sessions.)

Staff may attend EI Part 1 (morning session), EI Part 2 (afternoon session), or EI Parts 1 & 2 (full-day session). This session will be held at a City of Eugene facility.

Date: May 1, 2014

Time: 8:30-noon (EI Part 1) and/or 1:30-5pm (EI Part 2)

Location: City of Eugene Police/Fire/911 Training Center, 1705 W. 2nd Ave., Eugene

Deadline for registration: 5pm, Monday, April 28, 2014

We will be reserving seats for a limited number of participants on both dates on a first-come, first-serve basis. Classified and faculty staff members interested in attending should respond at their earliest convenience to the following Doodle survey link: <http://doodle.com/3ay2symbck4qgb4p> (Managers and Aspiring Leaders received a separate Doodle link due to a date change.)

SUPPORT A LOCAL AND SUSTAINABLE FOOD ECONOMY: My food club desires more individuals to split purchases of local, organic dried goods in bulk. Decrease your carbon footprint by not contributing to the high-energy costs of nitrogen fertilizers and by significantly lowering the fuel required to transport food from the farm to your table. By buying organic you are rejecting the use of neonicotinoid pesticides (which kill honeybees and have been implicated in other animal declines) and numerous other chemicals that end up spilling into our waterways and water supplies. Less packaging means less plastic leaching chemicals into our landfills and oceans (and therefore our bodies). If you live in the vicinity of Spencer Butte Middle School, consider joining our buying club. If you are interested in starting your own club in another part of town, I would be happy to chat with you. DANCE PROGRAM PRESENTS COLLABORATIONS, FEB. 27-MARCH 1

The Lane Dance Program will present the annual Collaborations Dance Concert February 27 to March 1. All performances will be in the Ragozzino Performance Hall on main campus at 7:30 p.m. Tickets for all performances are \$10 general admission, and \$8 for students, staff and seniors 55 and over. Advance tickets can be purchased at lanecc.edu/tickets

The concert features two new works by visiting choreographers. "Teetering," by Christopher K. Morgan, is an abstract dance that explores embracing fear. He is artistic director of Washington DC area contemporary dance company, Christopher K. Morgan & Artists. He is also the artist in residence in the Dance Program at American University in Washington, DC, and director of the Dance Omi International Dance Collective, an annual residency for choreographers in New York.

Western Oregon University Dance Program has been invited to perform "Aerie," a new work by their guest choreographer Brian Enos. Melding ballet technique with modern movement creativity, Enos created an abstract modern dance on eight dancers that includes broad strokes of kinesthetically pleasing phrases with the nuance of detailed movement.

Lane Dance Program lead faculty Bonnie Simoa will present three pieces. Her new work for nine dancers, "Raindog," to an exquisite score by Ezio Bosso, is a moving landscape that unfolds, shifts, evolves and magically moves from tranquility to rapture. Six dancers perform the lovely traditional Balinese dance the Gabor. This beautiful temple dance is an offering, symbolizing the joyful receptions of the Gods to the temple. Tone Poems I & II, choreographed by modern dance pioneer Michio Ito in 1928, epitomize the power of concise symbolic expression in dance. Taught by members of the Repertory Dance Theatre, Bonnie Simoa will perform the two modern dance

classics. Find out more about the concert and see photos online at:

EMOTIONAL INTELLIGENCE WORKSHOP - MAY 1

Greetings from the Office of Professional and Organizational Development. The college has invited leadership expert and coach Suzanne Rotondo with Redshift Leadership to return to Lane to lead staff through examples of what leading with emotional intelligence (EI) looks and feels like. The sessions will help you develop the ability to gauge your impact on others, be attentive to emotional cues, cultivate the quality of empathy, and motivate/inspire others, and cover how the best leaders build, maintain, and restore trust. Decades of research shows that it is the competencies associated with EI that makes the biggest difference. This is especially true in today's organizations of shrinking resources and higher demands.

EI Part 1 will give participants a foundation in Emotional Intelligence in leadership roles - learn about the core of EI, self-awareness all the way through to effective relationship management. (Important Note: Part 1 is most appropriate for staff who did not attend the Nov 2012 EI sessions.)

EI Part 2 will take participants who have a basic foundation in EI skills into a deeper exploration and practice of EI, as well as how to apply EI to groups in order to create optimal work environments that support two key metrics: return on investment and return on mission. (Important Note: Part 2 is most appropriate for staff who participated in the Nov 2012 EI sessions.)

Staff may attend EI Part 1 (morning session), EI Part 2 (afternoon session), or EI Parts 1 & 2 (full-day session). This session will be held at a City of Eugene facility.

Date: May 1, 2014

Time: 8:30-noon (EI Part 1) and/or 1:30-5pm (EI Part 2)

Location: City of Eugene Police/Fire/911 Training Center, 1705 W. 2nd Ave., Eugene

Deadline for registration: 5pm, Monday, April 28, 2014

We will be reserving seats for a limited number of participants on both dates on a first-come, first-serve basis. Classified and faculty staff members interested in attending should respond at their earliest convenience to the following Doodle survey link:

COLLABORATIONS DANCE CONCERT, FEB. 27-MARCH 1

The Lane Dance Program presents the annual Collaborations Dance Concert from February 27 to March 1. All performances are in the Ragozzino Performance Hall at 7:30 p.m. Tickets are \$10 general admission, and \$8 for students, staff and seniors 55 and over, and can be purchased at lanecc.edu/tickets

The concert features two new works by visiting choreographers. "Teetering" by Christopher K. Morgan is an abstract dance that explores embracing fear. He is artistic director of Washington DC area contemporary dance company, Christopher K. Morgan & Artists. He is also the artist in residence in the dance program at American University in Washington, DC, and director of the Dance Omi International Dance Collective, an annual residency for choreographers in New York.

Western Oregon University Dance Program has been invited to perform "Aerie," a new work by their guest choreographer Brian Enos. Melding ballet technique with modern movement creativity, Enos created an abstract modern dance on eight dancers that includes broad strokes of kinesthetically pleasing phrases with the nuance of detailed movement. Lane Dance Program lead faculty Bonnie Simoa will present three pieces. Her new work for nine dancers, "Raindog," to an exquisite score by Ezio Bosso, is a moving landscape that unfolds, shifts, evolves and magically moves from tranquility to rapture. Six dancers perform the lovely traditional Balinese dance the Gabor. This beautiful temple dance is an offering, symbolizing the joyful receptions of the Gods to the temple. Tone Poems I & II, choreographed by modern dance pioneer Michio Ito in 1928, epitomize the power of concise symbolic expression in dance. Taught by members of the Repertory Dance Theatre, Bonnie Simoa will perform the two modern

dance classics. Find out more about the concert and see photos online at:

NEW MANDATORY ADVISING (AV) HOLDS IMPLEMENTED FOR NEW FIRST-TIME CREDIT STUDENTS, SPRING TERM AND BEYOND

Through our five-year Title III Engaging Student Grant, which ended in the fall of 2013, we identified a best practice of requiring mandatory advising for all new credit students beginning spring term 2014 and beyond. So far, 6,217 students were sent an email notifying them that they must complete the New Student Information Session and New Student Academic Advising, per the Steps to Enroll at <http://lanecc.edu/counseling/steps-enroll> by the Friday before the start of the term, or they will not be allowed to register for the next term.

If the "OR New Student Info Hold" and the "AV New Student Advising Hold" are not cleared by the end of the day, the Friday before the term begins, they will need to wait until the next term to register for classes. There will be no exceptions to this.

Students have the option of attending in-person advising sessions provided by Counseling and Advising every Friday, beginning Friday, February 28 and continuing through Friday, March 28. Prior college students can clear their advising holds at these in-person sessions or by meeting with a counselor and advisor one-on-one. Some students will complete this through an online module, and some students will meet with advisors in non-main campus locations, as well. Contact: Helen B. Garrett, Dean of Enrollment Management Systems, 5686.

LANE CHOIRS TO PERFORM MARCH 6

The Lane Concert Choir, the Lane Chamber Choir and the Lane Gospel Choir will perform on March 6 at 7:30 p.m. in the Ragozzino Performance Hall. Tickets are \$5 general admission, and \$3 for students and seniors 55 and over.

The Concert Choir, under the direction of Kathryn Reuter, will perform "El Dia Es Hoy" by Paul Basler (b. 1963); "The Gartan Mother's Lullaby" Irish folk song arranged by Neil Ginsberg (b. 1969); and "City Called Heaven" arranged by Josephine Poelinitz.

"El Dia Es Hoy" (The Day is Today) is the fourth movement of Cantos Alegres (Joyful Songs). The poems used in Cantos Alegres (all in Spanish), chosen by the composer, are by the young California artist Gabriel Navar. An interesting and very important aspect of Navar's creative work is that each poem has a corresponding painting with the same title. A common thread runs through all nine poems - that of a love greater than all other loves. "El Dia Es Hoy" is a playful, neo-punk setting with a quirky accompaniment by piano and percussion.

"The Gartan Mother's Lullaby" is a traditional melody from the Irish county of Donegal, first published in 1904. The gift of Irish imagery is fully evident in the songs they sing to

their babies. The text describes ghost-like fairies and a mythical "Green Man" appearing as the world turns dark.

Gospel music is a very important style within the historical context of American music. In the African-American tradition, it is even more important because of its religious significance in the church. "City Called Heaven" is a "sorrow song" that is usually performed in a gospel style, and this arrangement represents a slow interpretation of the original.

The Chamber Choir, under the direction of Matthew Svoboda, will be performing some Renaissance works by Tallis, Gamboa, and Byrd as well as a couple of contemporary spirituals. The Tallis and Byrd works are written for 5 and 6 voices respectively. The work by Pero de Gamboa is not well known and will give the audience a chance to hear a rare choral gem by a Portuguese Renaissance master. One of the contemporary spirituals blends "All Night, All Day" with "Swing Low, Sweet Chariot" and features Baritone and Mezzo-Soprano soloists. The other spiritual, "Ezekiel Saw the Wheel", is a rousing a cappella setting with lots of energy.

The Gospel Choir, under the direction of Vicki Brabham, has a surprise program of rousing gospel music!

EMOTIONAL INTELLIGENCE WORKSHOP - MAY 1

Greetings from the Office of Professional and Organizational Development. The college has invited leadership expert and coach Suzanne Rotondo with Redshift Leadership to return to Lane to lead staff through examples of what leading with emotional intelligence (EI) looks and feels like. The sessions will help you develop the ability to gauge your impact on others, be attentive to emotional cues, cultivate the quality of empathy, and motivate/inspire others, and cover how the best leaders build, maintain, and restore trust. Decades of research shows that it is the competencies associated with EI that makes the biggest difference. This is especially true in today's organizations of shrinking resources and higher demands.

EI Part 1 will give participants a foundation in Emotional Intelligence in leadership roles - learn about the core of EI, self-awareness all the way through to effective relationship management. (Important Note: Part 1 is most appropriate for staff who did not attend the Nov 2012 EI sessions.)

EI Part 2 will take participants who have a basic foundation in EI skills into a deeper exploration and practice of EI, as well as how to apply EI to groups in order to create optimal work environments that support two key metrics: return on investment and return on mission. (Important Note: Part 2 is most appropriate for staff who participated in the Nov 2012 EI sessions.)

Staff may attend EI Part 1 (morning session), EI Part 2 (afternoon session), or EI Parts 1 & 2 (full-day session). This session will be held at a City of Eugene facility.

Date: May 1, 2014

Time: 8:30-noon (EI Part 1) and/or 1:30-5pm (EI Part 2)

Location: City of Eugene Police/Fire/911 Training Center, 1705 W. 2nd Ave., Eugene

Deadline for registration: 5pm, Monday, April 28, 2014

We will be reserving seats for a limited number of participants on both dates on a first-come, first-serve basis. Classified and faculty staff members interested in attending should respond at their earliest convenience to the following Doodle survey link:

CONGRESSMAN PETER DEFAZIO RECEIVES NATIONAL AWARD FOR SUPPORTING NATIONAL SERVICE PROGRAMS

Oregon 4th District Congressman Peter DeFazio was honored for his support for national service at the 11th Annual Friends of National Service Awards reception hosted by Voices for National Service in Washington, D.C.

DeFazio received the Outstanding National Service Advocacy Award for outstanding leadership and advocacy for elevating national service as a state and federal priority. "Since he founded the first Senior Corps program in Oregon in 1977, Peter DeFazio's support for national service and belief in the power of citizens has not wavered," said AnnMaura Connolly, president of Voices for National Service. "We are pleased to recognize Congressman DeFazio."

In 1977, DeFazio helped establish the Senior Companions Program in Lane County, hosted by Lane Community College. DeFazio is a member of the National Service Congressional Caucus, and he fights for continued funding for Senior Corps and other service programs.

"The national service movement is a testament to America's values and the strength of our communities. I'm proud to do my part to help all volunteer programs flourish, including the Senior Companions Program, which keeps senior citizens physically and mentally active while fulfilling vital community needs," said DeFazio. "I will keep fighting to make sure that all national service programs get the federal support they deserve."

EMOTIONAL INTELLIGENCE WORKSHOP - MAY 1

Greetings from the Office of Professional and Organizational Development. The college has invited leadership expert and coach Suzanne Rotondo with Redshift Leadership to return to Lane to lead staff through examples of what leading with emotional intelligence (EI) looks and feels like. The sessions will help you develop the ability to gauge your impact on others, be attentive to emotional cues, cultivate the quality of empathy, and motivate/inspire others, and cover how the best leaders build, maintain, and restore trust. Decades of research shows that it is the competencies associated with EI that makes the biggest difference. This is especially true in today's organizations of shrinking resources and higher demands.

EI Part 1 will give participants a foundation in Emotional Intelligence in leadership roles - learn about the core of EI, self-awareness all the way through to effective relationship

management. (Important Note: Part 1 is most appropriate for staff who did not attend the Nov 2012 EI sessions.)

EI Part 2 will take participants who have a basic foundation in EI skills into a deeper exploration and practice of EI, as well as how to apply EI to groups in order to create optimal work environments that support two key metrics: return on investment and return on mission. (Important Note: Part 2 is most appropriate for staff who participated in the Nov 2012 EI sessions.)

Staff may attend EI Part 1 (morning session), EI Part 2 (afternoon session), or EI Parts 1 & 2 (full-day session). This session will be held at a City of Eugene facility.

Date: May 1, 2014

Time: 8:30-noon (EI Part 1) and/or 1:30-5pm (EI Part 2)

Location: City of Eugene Police/Fire/911 Training Center, 1705 W. 2nd Ave., Eugene

Deadline for registration: 5pm, Monday, April 28, 2014

We will be reserving seats for a limited number of participants on both dates on a first-come, first-serve basis. Classified and faculty staff members interested in attending should respond at their earliest convenience to the following Doodle survey link:

<http://doodle.com/3ay2symbck4qgb4p> (Managers and Aspiring Leaders received a separate Doodle link due to a date change.)

The Student Productions Association presents the Showcase, which is the final project for students in the Theatre Department's 10-week Acting Shakespeare class.

The date March 15 was forever marked by the assassination of Julius Caesar. Caesar will be lamented by his friend Marc Antony - and other Shakespearean characters will celebrate, fight, or fall in love - in an intimate evening of scenes.

The program includes scenes from Othello, Merchant of Venice, Henry V, King Lear, As You Like It, Henry VIII, A Midsummer Night's Dream, and The Tempest.

Professional musicians Lynne Coats and Barrett Codieck will provide interludes, and Bill Woolum will narrate.

The Showcase is an opportunity for students to experiment with style – for example, one scene will be Western, but most are typically Elizabethan.

The students practice diligently, to convey the meaning and emotion in Shakespeare's poetic language. Director Judith “Sparky” Roberts says, “Even with Shakespeare's archaic language, it's still amazing how relevant his plays are today - the characters, their relationships, and the situations.”

Audience is limited to age 10 and older. The show is free.

EMOTIONAL INTELLIGENCE WORKSHOP - MAY 1

Greetings from the Office of Professional and Organizational Development. The college has invited leadership expert and coach Suzanne Rotondo with Redshift Leadership to return to Lane to lead staff through examples of what leading with emotional intelligence (EI) looks and feels like. The sessions will help you develop the ability to gauge your impact on others, be attentive to emotional cues, cultivate the quality of empathy, and motivate/inspire others, and cover how the best leaders build, maintain, and restore trust. Decades of research shows that it is the competencies associated with EI that makes the biggest difference. This is especially true in today's organizations of shrinking resources and higher demands.

EI Part 1 will give participants a foundation in Emotional Intelligence in leadership roles - learn about the core of EI, self-awareness all the way through to effective relationship management. (Important Note: Part 1 is most appropriate for staff who did not attend the Nov 2012 EI sessions.)

EI Part 2 will take participants who have a basic foundation in EI skills into a deeper exploration and practice of EI, as well as how to apply EI to groups in order to create optimal work environments that support two key metrics: return on investment and return on mission. (Important Note: Part 2 is most appropriate for staff who participated in the Nov 2012 EI sessions.)

Staff may attend EI Part 1 (morning session), EI Part 2 (afternoon session), or EI Parts 1 & 2 (full-day session). This session will be held at a City of Eugene facility.

Date: May 1, 2014

Time: 8:30-noon (EI Part 1) and/or 1:30-5pm (EI Part 2)

Location: City of Eugene Police/Fire/911 Training Center, 1705 W. 2nd Ave., Eugene

Deadline for registration: 5pm, Monday, April 28, 2014

We will be reserving seats for a limited number of participants on both dates on a first-come, first-serve basis. Classified and faculty staff members interested in attending should respond at their earliest convenience to the following Doodle survey link:

NEWS AND ANNOUNCEMENTS

ST. VINNIE'S DONATES 300 BOOKS TO START A SPECIAL LIBRARY FOR ADULT BASIC AND SECONDARY EDUCATION STUDENTS

The St. Vincent de Paul Society of Lane County is taking 300 books from its stacks to start a special library for Adult Basic and Secondary Education students at Lane. An announcement will be made today, Tuesday, March 18 at 11 a.m. at St. Vinnie's store on 705 S. Seneca, Eugene. The library will be in ABSE in Building 11, main campus. Organizers say one of life's pleasures is curling up with a good book, but "reading for fun" can be a life-changing activity: improved skill in reading is linked to success in higher education and employment.

The community can help: Donations of books are gratefully accepted at all St. Vinnie's stores and Attended Collection Centers. As with all St. Vinnie's items, donations are either given to those in need or sold in their stores, whose proceeds support the Society's charitable outreach. IN MEMORY: HARRY RICE

Harry Rice, long-time faculty colleague in the Science Division, passed away on Feb. 22 from a long illness. Harry retired at the end of fall term this year to spend more time with his family. Harry is survived by his wife, Andrea Rice, who also teaches in the Science Division, and their children. Harry joined the Chemistry faculty as an adjunct faculty member in spring 1991, teaching General Chemistry and Introductory Chemistry. Over his many years at Lane, Harry guided more than 3,000 students to understanding the complexities of chemistry. Gifts in memory of Harry Rice can be made to the Lane Community College Foundation to support student scholarships in science. You can make a one-time contribution or set up a payroll deduction. We hope to gather enough ongoing contributions to establish a named scholarship. Cards may be sent or delivered to the Science Office, addressed to Andrea Rice. A celebration of life is planned for early June. Submitted by Sarah L. Ulerick, Ph.D., Division Dean, Science.

PATTI MARTINEZ NAMED MARCH'S CLASSIFIED EMPLOYEE OF THE MONTH

Kudos and congratulations go to March's Classified Employee of the Month Patti Martinez, Project Specialist 2 in Health Professions. Patti started working at Lane in 1999 in Training and Development which is now Workforce Development. She worked for the SBDC from August 2006 until September 2008 and began working in Health Professions in October 2008. Patti is an amazing person to work with both internally and externally. She deals with the admin, faculty, students and other departments constantly and everyone is always saying how helpful she is and how great she is to work with. She greets everyone by first name, whether it's the mail courier, the janitorial staff or the visiting faculty and makes everyone feel welcome. What makes Patti the most outstanding nominee is her wonderful ability to calm anyone that comes to her with a problem or concern and at the same time she will be the first person to stand up and make sure that all are respected and taken care of. Patti helped Health Professions survive the loss of building 4, the relocation to the Willamette Street Dental Clinic and new on-campus lab, and the multiple office moves that the division has been required to undergo. She facilitated the sharing of office spaces, so that each person has a space to work when needed and offices are utilized to maximum efficiency. She has worked with divisions all across campus to find office locations for each displaced HP employee and staff person, and has been extremely effective in this. In other words, Patti is the

very best to work. When you see Patti, congratulate her for doing a terrific job and celebrate her nomination as LCC's March's Classified Employee of the Month. And remember that, you too, can help us to recognize exemplary classified employees by nominating them for this award. Nomination forms are available on the CPDT website: <http://www.lanecc.edu/cpdt/recognition/classified-employee-month-eligibility-guidelines-and-nomination-form>. CONTINUING ED PLANS VIOLENT ACTOR DRILL, MARCH 28

Public Safety and the Emergency Planning Team are working with Continuing Education programs at the Downtown Campus to conduct a planned violent actor drill during spring break, on Friday, March 28, between 11 and 11:30 a.m.

This is a voluntary drill. Anyone wanting to opt out of the drill should avoid the area on Friday, March 28, between 11 and 11:30 a.m.

Participants are being informed by e-mail. Signs will be posted on the day of the drill to alert passers-by and volunteers will be present to answer any questions.

Representatives of Titan Court, the Eugene Public Library and the Eugene Police will be notified. Because of the small scale of this drill, LaneAlert will not be used.

The drill will include a volunteer posing as a violent actor. The volunteer will be escorted by a uniformed Public Safety officer.

This drill supports the college's safety strategic direction and is intended to enhance safety and to increase situational awareness for participants. Nationwide, training drills are proving a valuable way to prepare for the possibility of a violent event or disaster.

EMOTIONAL INTELLIGENCE FOR FACULTY, SPRING INSERVICE, MAY 2

Suzanne Rotondo, a leading expert in Emotional Intelligence (EI), will be leading a training session specifically for faculty on Friday, May 2nd during Spring Conference.

Decades of research shows that it is the competencies associated with emotional intelligence (EI) that makes the biggest difference. This is especially true in today's organizations of shrinking resources and higher demands-burnout is on the rise.

Employees are charged with keeping others, and themselves, performing at their best during these challenging times. So how do they do it? Great leaders know themselves and pay close attention to the impact they have on others. This session will help you develop the ability to gauge your impact on others, be attentive to emotional cues, cultivate the quality of empathy, and motivate/inspire others. It will also cover how the best leaders build, maintain, and even restore trust.

Suzanne holds a Masters of Public Administration from Harvard University's Kennedy School of Government, where she studied leadership, consensus-building, and group dynamics. While at Harvard, Suzanne served on the Faculty Selection Board and was an active sponsor of the Women's Leadership Seminar Series. In her continued studies, Suzanne is a recent graduate of the Gestalt Institute of Cleveland's International OSD IX program and has been certified by The Hay Group to administer its ESCI 360° assessment. She earned her B.A. at University of Massachusetts, Amherst.

CHAMBER CHOIR TOUR DELIGHTS STUDENTS

From Choir Instructor Matt Svoboda: “On March 10-11, the Lane Chamber Choir toured to Southern Oregon where it performed as special guests at the Siskiyou Treble Choir Festival and sang for hundreds of prospective Lane students currently in high school. Touring is a vital part of our choir season and serves a significant role in community outreach, recruitment, and engagement for our students. Most importantly, the experience reaffirmed for all the powerful sense of community that happens when we come together to share of ourselves in the service of beauty. Several of the students commented on the experience.” Here are some quotes and a link to some the performance: http://chubodamusic.com/All%20Night_Swing%20Low.mp3

“Singing in the LCC Chamber Choir has consistently challenged me to be better every day. I am more inspired today to keep pushing forward with learning and growing than I have ever been, and I have so many beautiful people to thank for this, too. I respect and admire you all for your abilities and commitment. The power of music never ceases to amaze me.” -- Student

“These past two days were the best two days I have spent with people in a while. Words cannot express how awesome it was to sing with such an amazing, beautiful group of people. I’ve gotten to know and talk to more people in these two days than I have since last term. I cannot wait until next term when I can be with the same group of people and make even better music.” -- Student

“It is amazing to feel as though I'm part of a large family again. The last two days were filled with an abundance of laughter and shared memories that I won't forget. Thanks for making me feel loved. You all are my family.” -- Student

“I continue to be inspired by the work of students and colleagues here at Lane Community College...” -- Matt Svoboda

PUBLIC SAFETY OFFERS SERVICE AND TRAINING FOR SUICIDE INTERVENTION

Public Safety officers are trained in suicide intervention and several have advanced training. "It is critical to contact us," says Chief Jace Smith, "even if the person is not on campus, but is an LCC student or staff person off site. We can get other agencies to do a welfare check on the individual; 5555 is the only number you need."

Enrollment and Student Financial Services recently helped a distraught student, with assistance from Public Safety. "If someone tells you that they are contemplating ending their life when you are meeting with them in person, treat it just like you would if someone were at your desk saying that they were having chest pains or couldn't breathe," says Dean of Enrollment Management Systems Helen Garrett.

7TH ANNUAL PEACE SYMPOSIUM, APRIL 25

This year's 7th Annual Peace Symposium is entitled "Awakening the Dreamer – Move to Action" will be held April 25-26 in the Longhouse on main campus. Please share this opportunity with you colleagues and friends.

The symposium focuses on the destructiveness of the modern dream of ever increasing consumption as the measure of wellbeing. This dream, built on racial, ethnic and gender oppression, comes at the expense of the planet, its people and life as a whole. It is time for a new Ecozoic dream that creates socially just, environmentally sustainable, and spiritually fulfilling human presence on earth.

The event will be a series of keynotes and workshops that promote this theme.

Keynotes include:

* JOHN PERKINS, author of Confessions of an Economic Hit Man and founder of the Dream Change Foundation.

* JON SYMES, author of Your Planet Needs You, and leader of the Pachamama Alliance's Awakening the Dreamer training.

* GOOD SHIELD AGUILAR, a Turtle Island Native of Oglala Lakota and Pasqua Yaqui heritage. His music and energy is devoted to speaking up for the Last Wild Herd of Buffalo left in Yellowstone, MT.

* KAITLIN SOPOCI-BELKNAP, Executive Director of Move to Amend a broad coalition of organizations working together to pass a Constitutional amendment to end corporate personhood & demand real democracy.

* MONICA BEEMER, organizer for the Northwest Social Forum coming to Portland in September 26-28, 2014.

Workshops include:

* AWAKENING THE DREAMER by the Pachamama Alliance. This training reveals the pathologies of modernism and awakens future game changers to the need for, and opportunity of, bringing forth a new future for everyone.

* BUILDING DIVERSE SOCIAL MOVEMENTS by Move to Amend.

* PEOPLE'S MOVEMENT ASSEMBLY This session is jointly facilitated by John Symes of the Pachamama Alliance, Kaitlin Sopoci-Belknap of Move to Amend, and Monica Beemer of the Northwest Social Forum.

We expect this year's symposium to have an overflowing attendance, so while the symposium is free it is important to register in advance.

NEWS AND ANNOUNCEMENTS

IN MEMORY: ERIK HUMPHREY

The Social Science Department/Criminal Justice Program wish to inform the students and staff of Lane Community College of the passing of Erik Humphrey on April 1. Erik had been an outstanding student in the Criminal Justice Program at Lane where he earned his degree and transferred to the University of Oregon where he completed a bachelor's and master's degree. He was a doctoral student at the time of his death. Erik joined the Eugene Police Department Reserve Officer Training Academy becoming a reserve police officer and within a short time he regular Eugene Police officer completing the EPD and DPSST academies in Monmouth and Eugene. He remained a police officer with EPD, but was seriously injured in an on-duty incident, which eventually resulted in his moving from police services to a position as a community service officer. He remained in that position until his passing.

One of the unique aspects of his life was that he was Native American and a member of the Klamath Nation. This allowed Erik to pursue his education from Lane to all of his achievements at the UO. His pride in being an Native American was ever present in his pursuit of education and enlightenment. In addition, his focus upon law and union contract issues provided the opportunity for him to serve as a police union representative, and eventually president for several years. Erik was an adjunct instructor in Lane's Criminal Justice Program for many years and was highly respected as a concerned and encouraging teacher.

He will be missed by all of his former and current students and all of the staff at Lane, as well as all of the law enforcement community that respected his professionalism and dedication to duty and service.

Musgrove Family Mortuary is in charge of arrangements. A memorial service will be held this Friday, April 11, at 10 a.m. at the Faith Center on West 18th in Eugene.

EMOTIONAL INTELLIGENCE WORKSHOP FOR FACULTY, May 2

Suzanne Rotondo, a leading expert in Emotional Intelligence (EI), will be leading a training session specifically for faculty on Friday, May 2, during Spring Conference.

Decades of research shows that it is the competencies associated with emotional intelligence (EI) that makes the biggest difference. This is especially true in today's organizations of shrinking resources and higher demands-burnout is on the rise.

Employees are charged with keeping others, and themselves, performing at their best during these challenging times. So how do they do it? Great leaders know themselves and pay close attention to the impact they have on others. This session will help you develop the ability to gauge your impact on others, be attentive to emotional cues, cultivate the quality of empathy, and motivate/inspire others. It will also cover how the best leaders build, maintain, and even restore trust.

Suzanne holds a Masters of Public Administration from Harvard University's Kennedy School of Government, where she studied leadership, consensus-building, and group dynamics. While at Harvard, Suzanne served on the Faculty Selection Board and was an active sponsor of the Women's Leadership Seminar Series. In her continued studies, Suzanne is a recent graduate of the Gestalt Institute of Cleveland's International OSD IX program and has been certified by The Hay Group to administer its ESCI 360° assessment. She earned her B.A. at University of Massachusetts, Amherst. Contact: Marisa Hastie.

NEWS AND ANNOUNCEMENTS

JERRI STEELE NAMED APRIL'S CLASSIFIED EMPLOYEE OF THE MONTH Kudos and congratulations go to April's Classified Employee of the Month, Jerri Steele in the Foundation Office. Jerri started working at Lane on November 1, 2000, in the Foundation office as an accountant. Jerri manages two major constituencies – on campus customers (faculty/staff who have Foundation accounts) and off campus customers (donors and vendors). She works with all customers extremely well, and has a warm demeanor with everyone – even when she needs to address issues or challenges with accounts. She always advocates for customers and tries to find a solution if there is a challenge with their account. She consistently thinks outside the box to address donor. Jerri has excellent time management skills, and must deal with an enormous amount of work with firm deadlines (tax returns, financial reporting) – but she is always able to find time to address unexpected issues when they arise, without it interfering with her normal workload. She handles multiple tasks constantly. As the Foundation's only in-house accountant, she oversees all financial and investment reporting, organizes and manages Finance and Investment Committee meetings, , and corresponds with the Foundation's treasurer. When you see Jerri, congratulate her for doing a terrific job and celebrate her nomination as LCC's April's Classified Employee of the Month. And remember that, you too, can help us to recognize exemplary classified employees by nominating them for this award. Nomination forms are available on the CPDT website: <http://www.lanecc.edu/cpdt/recognition/classified-employee-month-eligibility-guidelines-and-nomination-form> Contact: Elaine Marsh, IRAP, marshe@lanecc.edu

KLCC RAISED \$281,000 DURING ITS SPRING MEMBERSHIP DRIVE

KLCC's Spring Radiothon ended at 6:30 p.m. on Friday, April 11 with a total of \$281,000--raising 97% of the spring goal of \$290,000. Over 2,398 KLCC listeners became members or renewed their membership during the spring fundraising campaign. Before Radiothon began, 1,250 listeners contributed \$143,000 online or through the mail. The remaining \$138,000 was raised from 1,148 listeners who made the call or contributed at klcc.org during the week of Radiothon.

KLCC continued its streamlined approach to Radiothon, asking for contributions only during "Power Hours" and leaving the rest of the day Radiothon-free. Listeners responded positively, helping the station approach the goal with less interruption to KLCC programming.

During the course of the spring campaign KLCC offered a variety of incentives to encourage membership. Several members won prizes including iPads, gift cards and more. Lucky winners were announced throughout the campaign and are listed on klcc.org

Many listeners became Sustaining Members this spring, signing up to contribute an ongoing set amount each month via credit card or bank account. Others took advantage of matching donations from KLCC's Tower Society, generous donors who match incoming pledges up to a pre-determined amount. Special thanks to all KLCC supporters who contributed in these special ways.

KLCC member contributions help cover the cost of NPR news, nationally syndicated programs, locally programmed music, community information, live broadcasts of special events, and intelligent entertainment all year long. Two-thirds of KLCC's budget comes from listeners and local businesses.

KLCC thanks its loyal audience for their generous and continuous support of public radio! Contact: Gayle Chisholm.

HEALTH CLINIC NOTICE

The Health Clinic staff regret that they can no longer provide a room for "lie-down" when a student or staff member feels unwell, due to space and staffing limitations. The clinic does still provide an area for breast milk pumping. If a student or staff member is feeling unwell and would like a consultation, they should consider asking for a same-day appointment so that they can be evaluated and suggestions can be made for further self-care. Contact: Mona Arbuckle, 5665.

FURNITURE REMINDERS

This weekly tip from Disability Resources is part of an effort to share educational messages with Lane Community College employees about specific services provided to students with disabilities. Students are responsible for requesting furniture accommodations through Disability Resources (DR) as the need arises. Students should address their seating needs when meeting with instructors to discuss their Letter

of Accommodation. ADA chairs are often inconspicuously identified by a spray painted spot on the vertical stalk that supports the seat. If you're unsure if a specific chair has been placed as an accommodation, please contact DR at ext. 5150. Once placed in the classroom, it becomes the instructor's responsibility to ensure that the furniture is reserved for student accommodations. If another student appears to need furniture accommodations, please refer the student to Disability Resources. It may also be appropriate to refer the student to Disability Resources if a disability is disclosed or if a student's need is observable.

If the student does not have a disability, but a seating need is clear (obesity, pregnancy, etc.), please speak with your department head about requesting appropriate furniture through Facilities Management and Planning. Please feel free to contact Disability Resources with any questions or concerns at ext. 5150 or via e-mail at disabilityresources@lanecc.edu

EARTH WEEK EVENTS APRIL 21-22

This Earth Week, you will have the opportunity to participate in one or more of the following high-quality events developed by our excellent Sustainability Committee as part of Lane's award-winning and nationally recognized sustainability initiative.

* FILM SCREENING – THE ISLAND PRESIDENT – APRIL 21 AT 8:00 AM AND 10:00 AM, CML 226

Described as, “an inspiring portrait in a sea of troubling environmental threats,” Jon Shenk’s *The Island President* is the story of President Mohamed Nasheed of the Maldives, a man confronting a problem greater than any other world leader has ever faced—the literal survival of his country and everyone in it. After bringing democracy to the Maldives after thirty years of despotic rule, Nasheed is now faced with an even greater challenge: as one of the most low-lying countries in the world, a rise of three feet in sea level would submerge the 1200 islands of the Maldives enough to make them uninhabitable. This film will be screened twice – at 8:00 am and at 10:00 am on Monday, April 21 in Building 19, Room 226. Each screening event will include a discussion led by Earth and Environmental Science instructor, Claudia Owen, and clips from other relevant films. Please attend and encourage your students, co-workers, friends and family to come with you.

*** FIRST ANNUAL CLIMATE SUMMIT – APRIL 21 AT 3:30 PM, BOARDROOM**

Humans have changed the climate by burning fossil fuels. Sea levels are rising, water patterns are changing, storm seasons are getting longer and more intense, and sea ice is melting. From Hurricane Sandy to the droughts in Colorado, climate change is taking its toll on Americans and people all over the world. Island nations are becoming engulfed by rising sea levels, extinction rates have reached 1,000 times the background rate, and world leaders are doing little about it. Colleges and universities around the world, however, are making commitments to become carbon neutral. These schools are reducing their energy use, instituting breakthrough innovations in climate-friendly transportation, and providing research and educational opportunities so that today's students can become the leaders that we will need to get us through these changes. Lane is one of these schools that has made the commitment to become carbon neutral and to train the next generation of leaders for sustainability. Please join Lane's Institute for Sustainable Practices for this First Annual Climate Summit on Monday, April 21 from 3:30-5:00 pm in Building 3, Room 216 (the Boardroom). During the summit you will learn more about the state of the science, human health effects, what Lane is doing, and what you can do. You will also have the opportunity to get involved with local and regional activism as well as Lane's climate change efforts.

Any staff names you were expecting to see but were not included, is related to either honoring their request that they not to be recognized by the college in this fashion, or their official notification of retirement has not yet been received by Human Resources. The event planning committee works diligently behind the scenes to ensure that staff is appropriately recognized at the Gala. If you can help us with the accuracy of this effort, we would be pleased to hear from you. Questions may be directed to Roxanne Watson at watsonr@lanecc.edu x3655.

Any staff names you were expecting to see but were not included, is related to either honoring their request that they not to be recognized by the college in this fashion, or their official notification of retirement has not yet been received by Human Resources. The event planning committee works diligently behind the scenes to ensure that staff is appropriately recognized at the Gala. If you can help us with the accuracy of this effort, we would be pleased to hear from you. Questions may be directed to Roxanne Watson at watsonr@lanecc.edu or 3655.

DID THE SUMMER OF LOVE REALLY BEGIN DURING WORLD WAR II ON THE OREGON COAST? FIND OUT MAY 1

Steve McQuiddy, Lane instructor, presents his slideshow and talk for "Here on the Edge," his new book on how a small group of World War II conscientious objectors plowed the ground for the social and cultural revolutions of the 1960s. Twenty years in the making and packed with original research and more than eighty photographs, this definitive history of Civilian Public Service Camp #56 and the Fine Arts at Waldport tells how artists and writers from across the country chose to take a condition of penance (compulsory labor for refusing to serve in the military) and put it to constructive ends. NEWS AND ANNOUNCEMENTS

STUDENT DEBATE TEAM BRINGS HOME TROPHYS

A summary from William Anderson, debate team faculty, from the team's final tournament of the season last weekend in Longview, WA. "In debate, Joel and Travis won silver, and Justice got bronze. In addition, when they gave out 'speaker awards' (given to the top speakers overall at the tournament), Joel won first top speaker at the tournament, and Travis won third top speaker at the tournament. Over the course of this year, we were able to participate in many tournaments and events. I am so proud of our students and the work they have put in to grow as speakers. In addition, they have really made a very positive impression on the forensics community. During this past weekend, I could not help but notice how many students from other schools were coming over to talk to our students and seek their feedback and advice... and how quick our students were to help them. Our students have come to realize that, while this is a competition, it is not about competition... helping their competitors showed good sportsmanship and citizenship."

INDOOR TEMPERATURE GUIDELINES

Facilities Management and Planning understands the importance of a comfortable work and study environment and we want to work with everyone to save energy and maintain comfort on campus. With the change of season upon us, this is an appropriate time to remind everyone of the indoor temperature guidelines, adopted in 2006, as part of the energy policy, and in an effort to balance a comfortable learning and working environment with energy conservation. We recognize that comfort varies for individuals and have developed indoor temperature guidelines based on scientific studies to create comfortable conditions for the greatest number of students and staff.

Warm Weather Month Guidelines: 74 to 77 degrees F

Cool Weather Month Guidelines: 68 to 73 degrees F

Ancillary Space (Hallways, Lobbies, Stairwells): 63 to 82 degrees F

Notes:

* During transition months, such as October and April, guideline ranges expand to 68 to 77. These expanded ranges also apply during extreme weather conditions and periods of high electric demand.

* Guidelines are applied during normal business hours.

* Staff and students are encouraged to layer clothing that can be adjusted to maintain personal comfort.

If you feel that temperatures are too high, (higher than 78 degrees F), or too cool, (lower than 68 degrees F), in your area please contact Facilities Management and Planning at 5216 or email at facilitiesoffice@lanecc.edu

HELP YOUR STUDENTS COMPREHEND DIFFICULT COURSE MATERIALS

Have you ever heard the following comments from students whose reading skills may not be up to the complexity of course materials? "We have to read how many pages tonight?!" "I didn't think there would be so much reading involved in (fill in the blank: Culinary Arts, Auto-Tech, Art and Design, CNA 1, etc.)!"

If so, let the Inquiry Apprenticeship Faculty Interest Group help you discover a way to assist your students who may struggle with reading. It is a method called "Reading Apprenticeship" coupled with the "Inquiry Method." Information on this successful approach, short video demonstrations, example lessons from Health Science, Library Science/Research Writing, Effective Learning and Reading classes and much more can be found in a self-registering Moodle site, here:

<https://classes.lanecc.edu/course/view.php?id=43676> Take a look! And feel free to contact FIG participants listed there if you have questions or comments. Submitted by Phyllis Nissila.

“TRANSFORMING ADVERSITY INTO OPPORTUNITY”—A TALK BY LADY PALMO, MAY 8

The Palmo Center for Peace and Education and Lane Community College are partnering to offer a talk by Lady Palmo talk on Thursday, May 8 from 6:30-8 p.m. in the Ragozzino Performance Hall. Lady Palmo is an extraordinary Tibetan refugee woman who lives in our community. She spent 16 years meditating in a cave in the Himalayas and was instrumental in bringing His Holiness the Dalai Lama to Eugene last May. Lady Palmo, affectionately known as Amala, honored mother, has a message that will inspires listeners to look into the deeper meaning of their lives and to transform adversity into opportunities. Long before she was diagnosed with cancer, Lady Jangchup Palmo used adversity as an opportunity to transform her life. As a Tibetan refugee and survivor of the invasion of her homeland by Chinese communists, Lady Jangchup Palmo deepened her spiritual quest that provides a basis for the fearlessness and equanimity that accompanies her now through chemotherapy and the uncertainties of a cancer diagnosis. Lady Palmo was in her teens when Chinese soldiers entered Tibet in 1959, killing her parents and four of her siblings. She survived the attack and spent the next 16 years in an intense spiritual quest developing forgiveness and compassion for all sentient beings. Today, she calls the Chinese invaders "our best teachers," in providing an opportunity for Tibetans to learn compassion, and to go behind the appearance of adversity to find peace.

Cancer has provided Lady Palmo with a new opportunity to express the gifts that she has developed as a result of her dedication to a spiritual path that transforms adversity into opportunities. As she sits for chemotherapy infusions, she imagines with compassion, the pain and fear that others there may be experiencing, as well as the loss, disappointments and upheavals that all experience in life.

A donation of \$10 is suggested. For more information contact Sharon Tabor or Julie Cox at 541-520-4135 or 760-505-4681. Contact: Donna Koechig.

NORTHWEST GREAT TEACHING SEMINAR SCHOLARSHIP AVAILABLE; REPLY BY MAY 6

The Faculty Professional Development Oversight Committee would like to invite all faculty (.2 FTE or higher) to apply for a full scholarship to the 2014 Pacific Northwest Great Teaching Seminar, June 15-19 at the Menucha Retreat Center in the Columbia Gorge (

<http://www.umpqua.edu/great-teaching-seminar>). Each Pacific Northwest college is limited to two registrants for this conference. FPD will provide a full scholarship to two faculty members (note: this is money that does not come out of your personal balance for professional activities leave). Berri Hsiao, faculty in the Math Department, attended last year and had an exceptional experience. She would be happy to answer questions related to the conference experience. The Great Teacher Seminar is centered around the belief that the best teaching ideas, innovations, and strategies come from within our own ranks. There are no "experts" at this seminar, only peers who practice the art of teaching like you. An informational flier and brochure are attached for further information.

If you are interested in applying, please email your responses to the following questions to Marisa Hastie (hastiem@lanecc.edu) by no later than 5pm on Tuesday, May 6th.

- * Provide a summary of your teaching role at Lane, including: length of employment, courses taught, and campus activities you are involved in.
- * What do you hope to gain from this experience? How will attending the Great Teaching Seminar assist you in your professional development?
- * How would you share the information and experience you gain from this experience with your colleagues? Submitted by Marisa Hastie.

FACULTY PROFESSIONAL ACTIVITIES FUNDING DEADLINE: MAY 28

The final deadline for Faculty Professional Activities Funding (short-term leave) this academic year is Wednesday, May 28. The Short-term Leave/Professional Activities committee will not reconvene again until the fall (October). Any conference and travel plans that will occur between June and the end of August must be submitted for review by the May 28 deadline. A special exception during summer months is made, if a conference or event occurs during the months of September or October (that you were unable to apply for by the May deadline). Please note that the college will not be able to pre-pay for those events and that reimbursement for expenses is pending your application approval. DISABILITY RESOURCES TIP: FIELD TRIPS

Disability Resources' weekly tip seeks to share important information with faculty and staff who may be working with students with disabilities.... Students may have disabilities that affect participation in field trips (mobility, vision, hearing, etc.) Instructors have a responsibility to plan field work/trips to be as accessible as possible, including access to buildings, walkways, and

arranging for accessible vans where needed. In some cases, field work activities may not be accessible by their very nature (e.g. coastal tidepools). In these situations, DR recommends utilizing alternate activities/exercises that have the same or similar learning objectives. Disability Resources advisors would be happy to confer with you about potential accommodations. <http://www.lanecc.edu/disability/field-work-guidelines> You may contact DR with any questions or concerns at ext. 5150, or email: disabilityresources@lanecc.edu

Any staff names you were expecting to see but were not included, is related to either honoring their request that they not to be recognized by the college in this fashion, or their official notification of retirement has not yet been received by Human Resources. The event planning committee works diligently behind the scenes to ensure that staff is appropriately recognized at the Gala. If you can help us with the accuracy of this effort, we would be pleased to hear from you. Questions may be directed to Roxanne Watson at watsonr@lanecc.edu or 3655.

CASCADE HEALTH SOLUTIONS NAMED CO-OP EMPLOYER OF THE YEAR

Cascade Health Solutions of Eugene was named Cooperative Education Employer of the Year for 2013-14 at the college's annual recognition event for advisory committees on April 30. Each year Lane's Cooperative Education department chooses one business or organization from among the 800 participating co-op employers who has been exceptional in providing co-op internship opportunities for Lane students.

"Cascade Health Solutions has shown a high level of commitment to the internship process," said Al King, Dean of the Cooperative Education Division at Lane. "Cascade offers excellent learning experiences to students taking classes in the fields of medical reception, health records technology, medical office assistant, human services and network operations."

Co-op coordinators at Lane called out Cascade student supervisors Brandon Mattox, Lon Dragt, Diana Jacoby and Jody Campbell for providing nurturing, caring, educational and team-building environments that have allowed Lane students to expand their knowledge, grow professionally and become effective in their fields of study.

Since 2005, more than 23 students have completed one or more internships at Cascade Health Solutions. Six of those co-op students have been hired as regular full-time employees.

Cheryl Boyum, chief executive officer of Cascade Health Solutions said, "It was impressive to see the tremendous volume of support the college receives from advisory committee members. ... We value the part education plays in our community and are pleased that we can support your efforts by contributing to the learning experience of your students. We also appreciate the proactive, strategic efforts Lane makes to assess current and future needs of local employers as you determine curriculum offerings each year." Submitted by the editor.

EVENT AT NINKASI RAISES FUNDS FOR ESL SCHOLARSHIPS

The ESL Advisory Committee and ESL Department had a successful scholarship fundraiser on April 24 at Ninkasi Tasting Room to earn scholarships (\$47 per scholarship) for resident ESL students who can't afford classes.

They raised \$390 from pints, double the normal proceeds for such an event at Ninkasi, plus more than \$1,500 from cash, check, credit card, and online contributions both at and after the event. Contributions are still coming in.

More than 200 managers, faculty, classified, students, advisory committee members, alumni, their friends and families, and community friends of ESL attended. Ninkasi said it was one of the most successful Pints-for-a-Cause events they have ever had.

ESL NEEDS YOUR THOUGHTS

In Lane County, there are thousands immigrants and international students. These members of our community have a language or languages other than English as their mother tongue, but all need English, too, in order to function well in our community. Non-native English speakers bring economic growth and richness of cultures into our community through their purchasing power, business creation, employment, participation in our community schools and agencies, being our neighbors, clients, patients, tenants, etc. While interpreters or translators are often available for crucial services, such as hospital visits or 911 calls, it is desirable to facilitate the acquisition of language skills in as many areas of life as possible. When people improve their English, benefits to our community as a whole are many, including more versatile employees, customers, business owners, and parents or guardians of children in our schools.

The English as a Second Language (ESL) Department at Lane Community College is a key destination where people take classes to improve their listening, speaking, reading and writing in English. We help bridge the gap between languages and cultures.

The mission of the ESL Department at Lane Community College is to assist non-native speakers, both resident and international students, to achieve educational, workplace or other personal goals by facilitating English language learning and intercultural understanding in a supportive, respectful environment.

Currently, the ESL Department is redesigning its curriculum to better equip immigrants and international students to function well in our community in addition to meeting their own goals. We'd like to hear from you about kinds of writing, reading, speaking, and listening tasks you have observed that non-native speakers of English may struggle with that would be useful for them to do well in English.

If you would be so kind, would you please take 5 minutes to fill out this short survey? Specific information will help us accurately match real life to classroom curriculum. Your answers can include what you have observed in your professional role in the community as well as general observations. We will include your feedback into our new curriculum starting fall term 2014. Benefits of your participation are immigrant and international students improving their ability to function fully in our community, which in turn will benefit and strengthen our economy and community as a whole.

Community Survey for LCC ESL Curriculum Redesign:

If you are faculty and haven't responded to the separate (yet related) survey sent out in April, we hope you will fill out the Faculty Survey for LCC ESL Curriculum

Redesign: <http://bit.ly/1jkXxwa>

If you know others who could also be informative, would you please forward them this notice? Additionally, if you have any actual tasks you think would be useful to include in the curriculum

redesign, please send them to the email or physical address below or email me so I can pick them up.

We really appreciate your time and thoughts!

DISABILITY RESOURCES TIP: POP QUIZZES

Disability Resources' weekly tip seeks to share important information with faculty and staff who may be working with students with disabilities.... Extended time on tests also applies to quizzes/pop quizzes. This may necessitate some planning ahead on the part of instructors, especially if a student needs a reader for the pop quiz in addition to extended time. For pop quizzes, set this up with DR at least 3 days in advance. This way, the surprise element of the pop quiz can still occur, but the student will have the accommodations that are needed. (For scheduled tests, testing accommodations still need to be set up 5 days in advance.) You may contact DR with any questions or concerns at ext. 5150, or email: disabilityresources@lanecc.edu

The event planning committee works diligently behind the scenes to ensure that staff is appropriately recognized at the Gala. If you can help us with the accuracy of this effort, we would be pleased to hear from you. Questions may be directed to Roxanne Watson at watsonr@lanecc.edu or 3655.

Being an effective, online facilitator requires a set of skills that is similar to those required in the face-to-face classroom. The online or blended learning facilitator must be able to build community while having little to no face-to-face contact, offer clear and informative feedback, communicate effectively in a medium that lacks body language and tone of voice, as well as use instructional strategies that are independent of time and space to support student learning.

NEWS AND ANNOUNCEMENTS

IN MEMORY: TOM TAYLOR

Tom Taylor of IT passed away Friday, May 16 at RiverBend hospital after suffering an aortic dissection earlier in the week. He has been with Lane since 1985.

From colleagues: Tom began his work in Electronic Services, initially maintaining electronic equipment. When computers were adopted by the college, Tom maintained all PCs and printers. He became known around the campus as the “printer tech” because he knew printers inside and out and he had a kind and helpful disposition. Tom was honest, dependable, dedicated, hard-working, detail-oriented and was loved by all he worked with and by those whose lives he touched. Tom cared deeply about the people, systems, and processes at Lane and contributed greatly to our printer management team up until the day he went to the hospital last week. Tom also participated in many projects at Lane, including the FastLane project, and the development of the LETS program. He maintained the Information Technology ticketing system and inventory systems. Tom had a unique ability to ask just the right question that sparked many new ideas. His unusual way of looking at things and highly meticulous nature enriched the lives of all those he touched.

From Tom's family: Tom always thought of his job not in terms of the details of his job description but as a simple goal: ‘I make people happy.’ He enjoyed serving the college community and was very grateful for the many friendships he had among his coworkers throughout the college during his 28 years there. He enjoyed working in his wood shop, making a wide variety of gadgets and gizmos. As a child, he was a model railroading enthusiast and his interest continued throughout his life in his hobby of creating miniatures. He was a veteran of the Navy, serving in both Okinawa and Puerto Rico in the late 60's and early 70's, followed by service in the Minnesota National Guard. Tom is survived by his wife Janet, four children (Sarah, Seth, Paula, and Nathan) and five grandchildren.

A private family service will be held. Cards or donations can be sent to Tana Stuart who will forward them to the family.

SHARON DANIEL NAMED MAY'S CLASSIFIED EMPLOYEE OF THE MONTH

Kudos and congratulations go to May's Classified Employee of the Month Sharon Daniel in Human Resources. Sharon started working at Lane on June 2000 in Human Resources where she is a Human Resource Analyst. Sharon has demonstrated extraordinary problem solving skills during the 2013/2014 academic year in taking on numerous projects and challenges. In particular, she has provided great internal leadership within the HR team that has been working to support and resolve personnel budget reductions because of declining student enrollment. Sharon has great ability to explore situations and to search and dig for answers. Many situations require the ability to understand the bigger impacts, outside the current problem and she is very adept at understanding the big picture. She is also very skilled in researching historical information and then interpreting them to the issue at hand. Sharon consistently provides outstanding customer service to all the staff at LCC (inside HR and out). She is friendly, patient and compassionate. She recognizes and is curious about others, including those with differences. She works well with language barriers, and effectively uses humor to create a safe and welcoming environment. Sharon is a very professional, dedicated employee. She is a joy to work with both as a coworker and as a subordinate. She cares about helping others cope as much as she does herself. Sharon is one the "care-takers" of the HR office. She is well deserving of this award. When you see Sharon, congratulate her for doing a terrific job and celebrate her nomination as LCC's May's Classified Employee of the Month. And remember that, you too, can help us to recognize exemplary classified employees by nominating them for this award.

Nomination forms are available on the CPDT website:

ARE YOU INVOLVED IN PLANNING FOR YOUR PROGRAM, PROJECT OR DEPARTMENT?

Overview: As part of our strategic focus on developing a culture of evidence-informed decision making, a workgroup of faculty, classified staff and managers are reviewing and evaluating the effectiveness of unit planning and other department planning processes. We will be working over the summer to assess current planning structures, research best practices and develop recommendations to present during fall in-service week. The timing of this review fortuitously coincides with our accreditation self-study, and preparations for updating the college's strategic plan in the coming academic year.

The workgroup wants to understand the current state of planning at Lane and has developed a survey that will inform our work moving forward. This survey is 41 questions and will take approximately 20-30 minutes to complete. Your answers are critical to improving the planning process at Lane so we hope you will take the time and share your thoughtful input.

Survey Link: https://lanecc.az1.qualtrics.com/SE/?SID=SV_cHCUBifoEpclAUt

The survey will close for input on Friday, May 30.

Department Planning Workgroup: Dawn DeWolf, Jennifer Hayward, Maurice Hamington, Christina Howard, Brian Kelly, Kerry Levett, Cathy Lindsley, Anna Kate Malliris, Don McNair, Dave Oatman, Siskana Naynaha, Russ Pierson, Ce Rosenow, Jennifer Steele (lead), Bill Schuetz, Craig Taylor, Sarah Ulerick.

VISION/MISSION POSTERS NEED TO BE REPLACED; PLEASE HELP

Effective immediately, we need to update all the posters that reflect our V/M/CV/SD (framed and unframed). We will be adding the Accreditation Core Theme language to the center panel of the posters. Printing and Graphics can provide you with unframed posters. They will also pick up your framed posters and return them to you upon completion. You will need to remove the framed posters and have them ready for pick up in an agreed upon location. You can email "Printing & Graphics" or call 5373 for assistance. Neil Isaacson, project coordinator, is available should you have any questions. You do not need to generate a work order for this project! Please help us find and replace all existing posters! DISABILITY RESOURCES TIP: ACCESSIBILITY OF MATERIALS— VIDEO TRANSCRIPTS/ CAPTIONING
Disability Resources' weekly tip seeks to share important information with faculty and staff who may be working with students with disabilities.... Faculty members have an obligation to assure that ALL videos or other media used in their classes, including YouTube videos, are accessible. Visual captioning enables students with hearing loss to have full, direct access to materials used in the classroom. If the video is not captioned, contact Disability Resources for help obtaining a transcript of the video. Students with hearing loss should have access to the transcript at the same time the video is shown during class. If neither a captioned version nor a transcript is available, the instructor must reschedule the viewing of the video, or choose another accessible video to ensure all students have equal access. Please plan ahead, as it may take a couple of

weeks to locate a captioned copy, or generate a transcript. You may contact DR with any questions or concerns at ext. 5150, or email: disabilityresources@lanecc.edu

FOUNDATION HONORS AN INDIVIDUAL, A BUSINESS, AND A FOUNDATION FOR SUPPORTING STUDENT SUCCESS

For the first time ever, the Lane Community College Foundation Board awarded the President's Circle Award for Philanthropy to an individual, a corporation, and a foundation, at the President's Circle reception held May 22.

The reception is held annually to honor those who have made annual and lifetime giving commitments to the Lane Community College Foundation. The President's Circle Award for Philanthropy recognizes ongoing financial support of the Lane Community College Foundation, advocacy for Lane's mission through leadership or volunteer service, and those who encourage philanthropy throughout the community.

***President's Circle Award for Philanthropy-Individual was awarded to Mrs. Jane King. After retirement and moving to Eugene in 1984, a lifelong appreciation of education brought Jane King to Lane Community College. Jane's first class at LCC was poetry, followed by classes in philosophy, history, writing and acting. Mrs. King has been a donor to the Lane Community College Foundation since 1989 and a member of President's Circle since 1992. Mrs. King has been active with programs at LCC including Reading Together, Friends of Theatre, and the Dance Program.

***President's Circle Award for Philanthropy-Corporation was awarded to The Register-Guard. Since 1927, the Eugene Register-Guard has been the community's paper. Today, The Register-Guard remains true to its editorial-page statement of purpose, "A Newspaper is a Citizen of Its Community." The family-run paper has been a member of the Lane Community College Foundation President's Circle since 1979. The Register-Guard is a sponsor of the Foundation's annual Harvest Dinner, provided sponsorship of scholarships at LCC, and with Tony Baker's leadership led a community effort to build the Health Professions Building to train nurses, paramedics, respiratory therapists and physical therapy assistants.

***President's Circle Award for Philanthropy-Foundation was awarded to The Weyerhaeuser Giving Fund. Weyerhaeuser has nearly a 40-year relationship of philanthropy with the Lane Community College Foundation. Weyerhaeuser support of Lane Community College includes donations of computers and printers, a grant for summer musicals, support of environmental education programs and multiple scholarships for business, advanced technology department and diversity. The Weyerhaeuser Giving Fund is active in 16 states and four Canadian provinces.

"All three of our honorees are catalysts for student success at Lane Community College and ultimately for the entire community," said Wendy Jett, Director of Lane Community College Foundation.

CLIMATE ACTION AND EDUCATION FORUM VIDEOS, PRESENTATIONS, AND Q&A ONLINE

On Friday, May 9, the Institute for Sustainable Practices hosted a Climate Action and Education Forum that included presentations by three experts who each have a unique perspective about solutions to climate change. Environmental scientist Paul Ruscher, Ph.D., demystified climate science by debunking the top 10 climate myths; Russ Pierson, DMin, Global Leadership, discussed the social impacts of climate change; and psychologist and author, Don Schneider, Ph.D., presented concrete tools for positively influencing climate skeptics so that we can all be done with senseless bickering and begin focusing on the vastly more important work of mitigation and adaptation. Videos and slide shows of each of the presentations are now available at www.lanecc.edu/sustainability Additionally, a compilation of questions and answers from the forum are also provided. Co-op or clinical placement sites are considered to be an extension of the LCC learning environment. Therefore, students with disabilities who have a Letter of Accommodation (LOA) may also need accommodations for off-campus sites. It is highly recommended that students, co-op coordinators/faculty and DR Advisors collaborate on a plan for accommodations in advance of an internship. ARE YOU INVOLVED IN PLANNING FOR YOUR PROGRAM, PROJECT OR DEPARTMENT? SURVEY CLOSES MAY 30

Overview: As part of our strategic focus on developing a culture of evidence-informed decision making, a work group of faculty, classified staff and managers are reviewing and evaluating the effectiveness of unit planning and other department planning processes. We will be working over the summer to assess current planning structures, research best practices and develop recommendations to present during fall in-service week. The timing of this review fortuitously coincides with our accreditation self-study, and preparations for updating the college's strategic plan in the coming academic year.

The work group wants to understand the current state of planning at Lane and has developed a survey that will inform our work moving forward. This survey is 41 questions and will take approximately 20-30 minutes to complete. Your answers are critical to improving the planning process at Lane so we hope you will take the time and share your thoughtful input.

DISABILITY RESOURCES TIP: ACCESSIBILITY OF MATERIALS—VIDEO TRANSCRIPTS/ CAPTIONING

Disability Resources' weekly tip seeks to share important information with faculty and staff who may be working with students with disabilities. Faculty members have an obligation to assure that ALL videos or other media used in their classes, including YouTube videos, are accessible. Visual captioning enables students with hearing loss to have full, direct access to materials used in the classroom. If the video is not captioned, contact Disability Resources for help obtaining a transcript of the video. Students with hearing loss should have access to the transcript at the same time the video is shown during class. If neither a captioned version nor a transcript is available, the instructor must reschedule the viewing of the video, or choose another accessible video to ensure all students have equal access. Please plan ahead, as it may take a couple of weeks to locate a captioned copy, or generate a transcript. You may contact DR with any questions or concerns at ext. 5150, or email disabilityresources@lanecc.edu

LCC ACCREDITATION NOTICE; NWCCU INVITES COMMENT BY SEPT. 29

The Northwest Commission on Colleges and Universities (NWCCU) will conduct a year-7 accreditation evaluation at Lane Community College on Oct. 29, 30 and 31, 2014. The team will appraise Lane's performance, integrity and quality as well as note achievements and recommend improvements.

The team invites written and signed public comment on Lane's qualifications for reaccreditation prior to the site visit, to be received no later than Sept. 29, 2014, at the Northwest Commission on Colleges and Universities, 8060 165th Avenue N.E., Suite 100, Redmond WA 98052-3981, or fax (425) 376-0596.

Accreditation requires several stages of self-study including 1-year, 3-year, 5-year, and 7-year reports which show how the college meets accreditation standards and policies. Lane currently is engaged in its 7-year self-study. The self-study will be presented to the accreditation team and is available online at www.lanecc.edu/accreditation.

Accreditation qualifies institutions and enrolled students for access to federal funds to support teaching, research and student financial aid.

Lane has been accredited by NWCCU since 1968. NWCCU last reaffirmed accreditation for Lane in February 2012. NWCCU is an independent, non-profit membership organization recognized by the U.S. Department of Education as the regional authority on educational quality and institutional effectiveness of higher education institutions in Alaska, Idaho, Montana, Nevada, Oregon, Utah, and Washington. STUDENT ASHLEY FORD COMPLETES DIESEL TECH DEGREE AND SECURES A JOB

Story and photo online at: <http://www.lanecc.edu/mpr/success/ashley-floyd-completes-diesel-tech-degree>

Ashley Floyd has worked hard over the last two years completing her degree in Diesel Technology. She will be graduating in June and continuing her full-time employment in the industry.

Midway through her training at Lane, she secured a mechanic's position at M.O. Nelson Trucking in Springfield, an established company in the industry with over 40 years of experience. Over time, her cooperative education position at M. O. Nelson has become a full-time career. She has had the opportunity to work on heavy haul, freight and logging trucks. She was given

the opportunity to expand her knowledge in the industry by being made responsible for inventory control and working with computer the diagnosis systems.

Diesel Technology Instructor Al Clark points out that Ashley is one of a few women who have completed this program. At the year-end Diesel Program barbecue at Lane recently, she said that her experience at Lane was instrumental in furthering her professional interests in the field.

STUDENT ALAN OVERWATER OVERCOMES CHALLENGES, WILL SPEAK AT GRADUATION

Story and photo online at: <http://www.lanecc.edu/mpr/success/alan-overwater-overcomes-challenges-earn-degree-speaks-graduation-june-14>

Student Alan Overwater says that over the span of 18 years he was taking classes at Lane Community College, he always felt part of an educational community that honors diversity. LCC is a place that acknowledges personal struggles and provides opportunities for success even when life hurls a hardball, says Overwater, who also works part-time as a swim instructor at a local athletic club.

For Overwater, formidable barriers—homelessness, mental illness and learning disabilities—prevented him from earning a degree as quickly as he might have liked.

Perhaps the courage he has gained through his long struggles gave him the gumption to compete in and win the honor of giving the student commencement speech on June 14.

Graduating this month with a 3.5 G.P.A and a two-year transfer degree, Overwater says school has been a “struggle,” and that he was only able to take “one or two classes at a time.”

But, attending classes at Lane helped “normalize” his life, especially between 2006 and 2009, when he lived on the street and couch surfed. “Lane helped keep my mind from being in the dumps,” he says.

LCC’s Disability Resources made certain that the college accommodated the 36-year-old man’s special needs, such as ensuring that his instructors give him additional time to take tests and find quiet locations where he wouldn’t be distracted.

While he admits he hasn’t talked in front of a large audience before, Overwater says he’s not nervous. “I know the speech,” he explains. “It’s my story.”

Next year, he will begin coursework toward a bachelor’s degree in the Exercise and Sports Science program at Oregon State University. In time, he hopes to earn a master’s degree in Adaptive Recreation, a field he developed a personal interest in as a Special Olympics volunteer.

When Overwater tells his story this month, he hopes one or two people in the audience who have delayed returning to school will take the chance—even if the very idea seems daunting.

LOST AND FOUND ITEMS

Employees: Please remember, no matter how well intentioned, it is not appropriate or legal to retain lost and found items in departments, at service desks/windows, or anywhere except the official lost and found which is at Public Safety. Please check:

<http://www.lanecc.edu/copps/documents/lost-and-found> for more information.

Retaining items, regardless of their monetary or sentimental value, puts individuals at risk for accusations of theft and misappropriation. All lost and found items must be turned in to Public Safety. As a courtesy, students will be sent as frequently as possible to retrieve Lost and Found items. When these items come to Public Safety, they are logged in, inventoried, and secured in a lost and found secure area.

It is not appropriate to "hold back" items because they are perceived as more valuable or expensive or because, "the owner will probably be right back." Please turn over all items when student Public Safety workers (usually wearing an orange vest and a Public Safety ID), or officers come by to secure these items.

Thank you for helping Public Safety return lost items to owners!

HEALTH CLINIC DIRECTOR HIRED

It is with great pleasure that I announce the arrival of our new Health Clinic Director, Jayne Culberson. Jayne has a B.S. from the University of Oregon and a M.B.A. from Marylhurst University. She has 25 years of healthcare leadership experience and served as the executive director of RiverBend Day Surgery, project manager RiverBend Day Surgery, and clinic manager for The Lakeside Clinic in Dexter. Jayne has experience in all aspects of running a multispecialty clinic including coordinating nurse practitioner student clinic rotations.

Please send Jayne your best wishes as she embarks on carrying on the great work Mona has accomplished and takes the helm of the only health clinic at a community college in Oregon. Thank you, Brian Kelly.

EMERGENCY CALLS

Colleagues: Please remember that for all main campus medical emergencies you should call Public Safety at 5555, first. Fortunately, most campus members are aware of this information, as more than 99 percent of all medical emergencies are reported first to Public Safety. This is a cooperative understanding with the campus clinic and is consistent with the Emergency Manuals for employees and COPPS. Do NOT call the Health Clinic for medical emergencies.

Public Safety Dispatchers have a protocol for serious emergencies and will alert all appropriate resources, including 911 and the clinic) depending on the type of medical emergency. Dispatchers will also ask specific questions about the illness or injury that will help aid responders. Do not hang up, until the Dispatcher disconnects.

All Public Safety officers have been trained in First Aid and CPR with AED. In addition officers carry substantial first aid kits in all patrol vehicles. Four officers are trained and certified as

EMTs and additional life saving equipment (such as oxygen, airways, etc.) that they will bring and are authorized to use.

If you call 911, you may actually delay service to community members, since officers always arrive more quickly than clinic staff. Eugene and Springfield Fire often need a "lead in" to assist firefighters in locating a patient on campus. As Eugene/Springfield Fire Departments are the only responders who can transport patients to local hospitals, it is important to notify Public Safety so that the lead in can be arranged. Contact: Jace Smith, Director Emergency Preparedness, 5561.

INSTRUCTORS—PLEASE NOTE: NEW WAY OF DELIVERING LOA'S FROM DISABILITY RESOURCES
Disability Resources has been implementing a new database which will allow students to make requests electronically. Starting Summer term, DR students will be requesting their accommodations online. A customized Letter of Accommodation (LOA) will be emailed to each instructor indicating the specific accommodations students plan on using for each of their classes. Please watch for these emails from Disability Resources. We still strongly encourage students and instructors to privately discuss the details of the accommodations they plan to use in class. This way, you can discuss pertinent details/arrangements ahead of time. You may contact DR with any questions or concerns at ext. 5150, or email disabilityresources@lanecc.edu

ANNUAL REQUIRED NOTIFICATIONS FOR CLASSIFIED AND MANAGEMENT EMPLOYEES WHO ARE ENROLLED IN ONE OF THE COLLEGE'S PACIFCSOURCE HEALTH INSURANCE PLANS

***** SUMMARY OF BENEFITS AND COVERAGE (SBC):**

Lane Community College is required under the Affordable Care Act (ACA) to provide a written summary of benefits and coverage (SBC) for each benefit package to subscribers and their dependents.

What is the Summary of Benefits and Coverage (SBC) document?

The SBC document is intended to provide consumers with a concise document explaining, in plain language, simple and consistent information about health plan benefits and coverage. It summarizes the key features of the plan, such as the covered benefits, cost-sharing provisions, and coverage limitations and exceptions. The content and formatting requirements are strict and used industry-wide throughout the United States to allow easy comparison of coverage options between carriers.

What types of insurance policies are required to use SBC?

SBCs are required for group and individual medical policies. The SBC is NOT required for Medicare Advantage, Medicaid, and dental-only policies. Therefore, an SBC is not provided for your MODA or Willamette Dental Policy.

***** GENERAL NOTICE OF COBRA CONTINUATION RIGHTS:**

In addition, COBRA regulations require that employers notify all employees and spouses of their continuation rights when they first become covered under the College's groups health plan. We provide this initial notice to employees when we conduct their new hire benefits orientation. However, to ensure that we are in compliance, it has been recommended that we notify all employees of your COBRA rights once a year as well.

In an attempt to be sustainable, we are providing these documents electronically.

You can find the SBC for your insurance plan (Plan A, Plan B, or Plan C), as well as the General Notice of COBRA Continuation rights, via: <http://www.lanecc.edu/hr/benefits/classified-benefits> or via: <http://www.lanecc.edu/hr/benefits/management-benefits>

You will also find the SBC for your plan via InTouch at www.pacificsource.com The 2014-15 SBC should be updated in the system no later than mid-July.

NEWS AND ANNOUNCEMENTS

JACKIE BRYSON NAMED EMPLOYEE OF THE MONTH

Jackie Bryson received a surprise visit on Monday from members of the Classified Professional Development Team and other well-wishers including President Mary Spilde, to learn that she had been named Outstanding Classified Employee of the Month for July.

Jackie started her career at Lane in September 1996 and held student service associate positions in Counseling and then worked as an office support specialist in the Job Placement/Office Student Worker program until becoming student advisor in Job Placement in Career & Employment Services in March 2001.

Jackie has helped thousands of students win scholarships to help pay for their college education—in fact, more Lane students have won Oregon Student Assistance Commission scholarships than at any other Oregon community college.

Jackie is a friend and mentor to students. She has shared student stories with the college and the community that have helped the community understand what Lane offers and the difference that Lane makes and has encouraged other students to give Lane a try. As Lane begins its 50th anniversary year with the theme of student success, Jackie is truly outstanding in her dedication to students.

Please congratulate Jackie as Outstanding Classified Employee of the Month.

Remember that you too can recognize exemplary classified employees by nominating them for this award. Nomination forms are available on the CPDT website:

TRANSPORTATION SURVEY INDICATES EMPLOYEE AND STUDENT COMMUTING IS MORE CLIMATE-FRIENDLY THAN PREVIOUSLY ESTIMATED

The results of Lane's 2014 Transportation Survey are in. You may be surprised to learn that 29% of respondents ride the bus, 7% carpool, 4% bicycle, and 58% drive alone. This data will result in a decrease of our estimated carbon footprint because Lane previously estimated that about 80% of commuters drive alone. The survey results also provided information as to what programs or incentives will better encourage Lane commuters to choose more climate-friendly modes. The most popular program is the bus pass, followed by safe bicycle/pedestrian routes. Based on the survey results, Lane's Commuter Emissions Task Force will be developing recommendations for how to further reduce emissions from commuting. Thank you to all employees and students who took the survey. \$20 gift cards to the Titan Store were awarded to several randomly-selected respondents. For more information, see: <https://www.lanec.edu/sustainability/transportation-survey> Contact: Jennifer Hayward.

NEWS AND ANNOUNCEMENTS

KIM HAYES WINS STATEWIDE AWARD

Kim Hayes, Developmental Disabilities Specialist, Specialized Support Services, was named the Oregon Rehabilitation Association 2014 Support Staff Person of the Year at a ceremony on July 17 in Bend. In nearly 20 letters of support, the following words were used to describe Kim: "Thoughtful, friendly, caring, patient, dedicated, compassionate, generous, positive, inclusive, respectful, deserving, supportive, encouraging, poised, pleasant, loving, giving, unique, passionate, amazing, sincere, genuine, inspiring and kind." There are hundreds of other words to describe Kim Hayes.

Kim began her career at Lane more than 40 years ago as a work study student assisting individuals with development disabilities in our day activity program, helping participants with crafts and other activities. Over the years, as Lane's Specialized Support Services evolved and expanded, so did Kim's role in the program. As a full-time employee, Kim manages the Food Services area with 15 student workers who work side by side with Lane's students and staff. Kim is known throughout the college for her strong commitment to the total integration of the

individuals served by the program and her unflinching efforts on behalf of the program and its participants. One of Kim's greatest strengths is her ability to match a student worker with the right job or create one when one does not already exist. She finds matches that support the student worker, the program and the college. There's no CANNOT in Kim's vocabulary, just CAN! Kim demands a respectful, inclusive and accessible working and learning environment, thus earning her the respect of the general college community and her peers, both within the program and throughout the community. She reminds us that just because someone might have limitations, there are no limits to the possibilities.

Please join Specialized Support Services in congratulating Kim Hayes, the 2014 Oregon Rehabilitation Association Support Staff Person of the Year!

ANNUAL REQUIRED NOTIFICATIONS FOR CLASSIFIED AND MANAGEMENT EMPLOYEES WHO ARE ENROLLED IN ONE OF THE COLLEGE'S PACIFCSOURCE HEALTH INSURANCE PLANS

*** SUMMARY OF BENEFITS AND COVERAGE (SBC):

Lane Community College is required under the Affordable Care Act (ACA) to provide a written summary of benefits and coverage (SBC) for each benefit package to subscribers and their dependents.

** What is the Summary of Benefits and Coverage (SBC) document?

The SBC document is intended to provide consumers with a concise document explaining, in plain language, simple and consistent information about health plan benefits and coverage. It summarizes the key features of the plan, such as the covered benefits, cost-sharing provisions, and coverage limitations and exceptions. The content and formatting requirements are strict and used industry-wide throughout the United States to allow easy comparison of coverage options between carriers.

**** What types of insurance policies are required to use SBC?**

SBCs are required for group and individual medical policies. The SBC is NOT required for Medicare Advantage, Medicaid, and dental-only policies. Therefore, an SBC is not provided for your MODA or Willamette Dental Policy.

***** GENERAL NOTICE OF COBRA CONTINUATION RIGHTS:**

In addition, COBRA regulations require that employers notify all employees and spouses of their continuation rights when they first become covered under the college's groups health plan. We provide this initial notice to employees when we conduct their new hire benefits orientation. However, to ensure that we are in compliance, it has been recommended that we notify all employees of your COBRA rights once a year as well.

In an attempt to be sustainable, we are providing these documents electronically.

You can find the SBC for your insurance plan (Plan A, Plan B, or Plan C), as well as the General Notice of COBRA Continuation rights, via: <http://www.lanec.edu/hr/benefits/classified-benefits> or via: <http://www.lanec.edu/hr/benefits/management-benefits>

You will also find the SBC for your plan via InTouch at www.pacificsource.com. The 2014-15 SBC should be updated in the system no later than mid-July. Contact: Sharon Daniel, SPHR.

RETIREMENT SECURITY TOWN HALL WITH STATE TREASURER TED WHEELER, AUGUST 5

One of the key issues facing Oregonians right now is how risky, confusing, and out of reach saving for retirement can be. Oregon needs a system that makes it easy and simple for you to secure your money and your future. Oregon State Treasurer Ted Wheeler will hold a town hall meeting at the Downtown Campus' Center for Meeting and Learning from 5:30-6:30 PM on Tuesday, August 5 to discuss this topic and others. The event is free, open to the public, and sponsored by LCC, the LCC Small Business Development Center, and AARP. Register online at http://bit.ly/Wheeler_LCC. RETIREMENT SECURITY TOWN HALL WITH STATE TREASURER TED WHEELER, AUGUST 5

One of the key issues facing Oregonians right now is how risky, confusing, and out of reach saving for retirement can be. Almost 50% of Oregonians don't have a retirement program offered at their work, and this means the state could face a retirement challenge in the near future. Oregon needs a system that makes it easy and simple for you to secure your money and your future. Giving every working Oregonian an easy way to save for retirement will provide security for individuals, families and our community. This is an important issue for all generations. Oregon State Treasurer Ted Wheeler will hold a town hall meeting at the Downtown Campus' Center for Meeting and Learning from 5:30-6:30 PM on Tuesday, August 5 to discuss this topic and others. The event is free, open to the public, and sponsored by LCC, the LCC Small Business Development Center, and AARP. Register online at http://bit.ly/Wheeler_LCC

WELCOME WEEK REQUEST FROM ASLCC CHIEF OF STAFF

As we all know, we are now into Lane's Golden Year, its 50th anniversary. Can you imagine all the lives that have been changed here on our campus? I know mine has. My name is Robert Schumacher, I am the Chief of Staff for Your Student Government (ASLCC), a Peer Mentor/Tutor, as well as the Interim Manager for Ty Titan. I love our campus, and I am especially thankful for all the resources here to help promote student success.

I am reaching out to all LCC's Student Resources to come take part in Fall Welcome Week. I'm sure you all will agree with the following statement: Not enough students know about the resources available to them. I agree to that as well, and I'm a student.

What if there was someone who greeted me during my first week here on campus though, a face I could recognize and help make it a little more comfortable when I do go to the resource center? It can sometimes be an uncomfortable experience: new place, new people. What if the information I needed to find that resource and the types of services they have is something that I have in my hand my first week on campus? All the services that will help me achieve good grades, and here it is week one, and I already know exactly where to go to. Can you imagine how more easily success will come for students who have that information their first week? Wow!!! I can Feel the Power already!

If you would like more details about how you and your student resource can get involved, contact Robert Schumacher at AslccChiefOfStaff@gmail.com

Thank you for taking the time to read this message.

OPEN DOOR EVENT HOSTED BY LANE SMALL BUSINESS DEVELOPMENT CENTER, SEPT. 16

The Lane Small Business Development Center (Lane SBDC) is hosting an Open Door Event on Tuesday, September 16. The center (located on the third floor of the LCC downtown campus, 101 West 10th Avenue, Eugene) will be open for individuals and business owners to drop-in from 1-8 p.m. Visitors can meet for brief one-on-one informational sessions with Gary Smith, instructor/coach of the signature Small Business Management (SBM) program, and Frank Plaisted, instructor/coach of the New Product Development (NPD) program. Center staff will be on-hand to offer information about services offered. Light refreshments will be available. The new low rates for the programs are \$509 for the SBM, \$150 for the NPD, and \$609 for both. Participants get the equivalent of a personal business coach—at a fraction of the typical cost. The small business management programs make businesses more successful through a unique combination of education, coaching and networking. A customized curriculum helps individuals identify, prioritize and achieve their business goals. The end result is not just improvement in the business, but also in the business owner who fundamentally shifts focus to success! A Small Business Administration award winner, Smith has been faculty and coach for the Small Business Management program for eight years. Highly successful, he has owned and managed multiple businesses which have thrived throughout the recession; and aptly provides business owners with advice on succeeding in tough financial times. Plaisted, assistant in the SBM program, recently developed and established the NPD program. He has worked with the center for five years and is an engineer and product development researcher. Participants in both programs range from about to launch businesses to established businesses—the common thread is a desire to improve businesses while improving skills. Register for these small business management programs now. The year-long programs run September 2014 through June 2015. For informational brochures visit the Lane SBDC office at

101 West 10th Avenue, Suite 304. For program details, go to LaneSBDC.com, call Lane SBDC at (541)463.6200 or email LCCBizCenter@lanecc.edu

"ADMINISTRATIVE WITHDRAWAL" CHANGED TO "NO SHOW DROP" PROCESS

An important change of practice is going into effect for fall term 2014 related to the previous "Administrative Withdrawal" process changing to a "No Show Drop" process.

In order to continue to be in compliance with Department of Education requirements related to ensuring that financial aid is disbursed to students who have attended at least one class session, faculty must track attendance in each class period for the first week of the term for each class.

For any student that has not physically attended at least one in-person class session or for online classes, participated in an actual class activity online, the faculty member must mark them as a “No Show Drop” and notify the departmental team members to enter a “No Show Drop”. This will drop the student for lack of attendance in at least one class session during the first week that the class met.

Students may no longer contact faculty members and ask for their spots to be held.

A student must attend at least one class session during the first week of the term that the class meets. This means that the rosters demonstrating attendance or not, may not be submitted to departmental staff until after the end of the last class session during the first week of the class sessions for each class.

All faculty were emailed this information along with a “No Show Drop” Frequently Asked Questions document.

If you have questions on the process contact Dr. Kerry Levett,
academic&studentaffairs@lanecc.edu

AUDITIONS FOR MUSICAL THRILLER "CONSTANCE AND SINESTRA" SEPT. 22 AND OCT. 1
Student Productions Association of Lane Community College is seeking actor/singers for the musical "Constance and Sinestra and the Cabinet of Screams." Audition dates are September 22 and October 1 from 5:00-7:00 p.m. in the Blue Door Theatre.

SPA will present the Oregon premier of "Constance and Sinestra and the Cabinet of Screams," a gothic musical comedy set in Victorian London that tells the story of two sisters trying to cope with the loss of their mother, their mad father, and delightfully homicidal neighbors. This clever gothic chamber musical was a huge hit at the Edinburg Festival Fringe theatre festival.

Performance dates are November 13-23. Rehearsals will be held beginning October 8. The production will be directed by Michael Watkins.

Parts are available for a combination of seven men and women of varying ages and voice types. Female actors who play the cello or other musical instruments are encouraged to audition!!

Community members are encouraged to audition. Actor/singers should prepare a short song and bring sheet music for accompaniment: no a capella auditions and no recorded accompaniment. Actor/singers will read from the script, no monologue necessary.

Contact Brian Haimbach at haimbachb@lanecc.edu or 541-463-5648 for more information.

More information about the show is available at <http://www.constanceandsinestra.com>

NATIONAL PHARMACEUTICAL DRUG TAKE BACK DAY, SEPT. 27

Lane Public Safety will again host the DEA National Pharmaceutical Drug Take Back Day on Saturday, Sept. 27, from 10 a.m. to 2 p.m. Drop off sites will be main campus on the west side

of Building 19 (Center for Meeting and Learning); and at the Downtown Center near the front entrance at 101 W. 10th Ave.

Round up your expired or unwanted prescription medications for this free service organized by the DEA to collect and safely dispose of potentially dangerous expired, unused and unwanted prescription drugs. Liquids or needles or sharps cannot be accepted. Veterinary medicines are acceptable.

This service is free and anonymous, no questions asked.

This initiative addresses a vital public safety and public health issue. Medicines that languish in home cabinets are highly susceptible to diversion, misuse, and abuse. Rates of prescription drug abuse in the U.S. are alarmingly high, as are the number of accidental poisonings and overdoses due to these drugs. Studies show that a majority of abused prescription drugs are obtained from family and friends, including from the home medicine cabinet.

In addition, the usual methods for disposing of unused medicines—flushing them down the toilet or throwing them in the trash—pose potential safety and environmental health hazards.

NWCCU INVITES COMMENT ON LCC ACCREDITATION BY SEPT. 29

The Northwest Commission on Colleges and Universities (NWCCU) will conduct a year-7 accreditation evaluation at Lane Community College on Oct. 29, 30 and 31, 2014. The team will appraise Lane's performance, integrity and quality as well as note achievements and recommend improvements. The team invites written and signed public comment on Lane's qualifications for reaccreditation prior to the site visit, to be received no later than Sept. 29, 2014, at the Northwest Commission on Colleges and Universities, 8060 165th Avenue N.E., Suite 100, Redmond WA 98052-3981, or fax (425) 376-0596. VISUAL AND PERFORMANCE ARTIST COMES TO EUGENE AND LCC, OCT. 2

The theatre program is co-sponsoring performance artist Ryan Conarro who will perform with his installation at the UO Schnitzer Museum the first week of classes. With our sponsorship, LCC students get free admission to the Thursday show (and even the Friday and Saturday shows most likely). Here is a link to the work: <http://vimeo.com/81923022>

Please let your students know they can go (for free!).

Also, Conarro will be on campus Thursday, Oct 2 from 12-1:50 p.m. in the Blue Door Theatre discussing his process and being a working artist in a small community. All LCC students, staff, and faculty are welcome.

“This Hour Forward” is an interdisciplinary performance. All performances will be at the UO Jordan Schnitzer Museum of Art. The performance is an installation of spoken word, song, video, sound, and photography. Inspired by his brother's impending wedding as it coincides with the U.S. Supreme Court's reading of the Defense of Marriage Act, Conarro performs as the playful, provocative personas of both groom and bride, and he invites participants to join an exploration of deeply personal questions about the identities of the self and of others; about the ideals and realities of love and marriage; and about heartbreak and failure. Conarro's residency is co-sponsored by OCT, the Jordan Schnitzer Museum of Art, Lane Community College Theatre Department, and the University of Oregon Department of Theatre Arts.

* Student only performance: Thursday October 2 at 8 p.m.

* Public performances Friday and Saturday October 3 and 4 at 8 p.m.

For more information please contact Brian Haimbach at haimbachb@lanecc.edu

GREAT OREGON SHAKEOUT, OCT. 16

Hang on to those hats and glasses! The Great Oregon Shakeout is coming. Lane Community College will participate in this annual earthquake drill on Thursday, October 16 at 10:16 AM. During the drill, Lane Alert will be utilized and the mass announcement system in campus buildings will be tested. Members of the Campus Community Emergency Response Team, Emergency Planning Team, and Public Safety will assist and observe in some buildings.

Here's what you can do on 10/16 at 10:16:

...Drop, Cover, and Hold On: Faculty, staff and students should Drop to the ground, take Cover under a table or desk, and Hold On to it as if a major earthquake were happening (stay down for at least 60 seconds). Practice now so your staff and students will know immediately how to protect themselves during earthquakes! For people with disabilities or access and functional needs, download the preparedness guide at:

http://www.shakeout.org/downloads/AFNPpreparednessGuide_10-6-2011.pdf

... While still under the table, or wherever you are, look around and imagine what would happen in a major earthquake. What would fall on you or others? What would be damaged? What would life be like afterwards? What will you do before the actual earthquake happens to reduce losses and quickly recover?

Please be prepared to offer feedback to Dawn Barth, barthd@lanecc.edu

"ADMINISTRATIVE WITHDRAWAL" CHANGED TO "NO SHOW DROP" PROCESS

An important change of practice is going into effect for fall term 2014 related to the previous "Administrative Withdrawal" process changing to a "No Show Drop" process.

In order to continue to be in compliance with Department of Education requirements related to ensuring that financial aid is disbursed to students who have attended at least one class session, faculty must track attendance in each class period for the first week of the term for each class. For any student that has not physically attended at least one in-person class session or for online classes, participated in an actual class activity online, the faculty member must mark them as a "No Show Drop" and notify the departmental team members to enter a "No Show Drop". This will drop the student for lack of attendance in at least one class session during the first week that the class met.

Students may no longer contact faculty members and ask for their spots to be held.

A student must attend at least one class session during the first week of the term that the class meets. This means that the rosters demonstrating attendance or not, may not be submitted to departmental staff until after the end of the last class session during the first week of the class sessions for each class.

All faculty were emailed this information along with a "No Show Drop" Frequently Asked Questions document. If you have questions on the process contact Dr. Kerry Levett, academic&studentaffairs@lanecc.edu

VISUAL AND PERFORMANCE ARTIST COMES TO EUGENE AND LCC, OCT. 2

The theatre program is co-sponsoring performance artist Ryan Conarro who will perform with his installation at the UO Schnitzer Museum the first week of classes. With our sponsorship, LCC students get free admission to the Thursday show (and even the Friday and Saturday shows most likely). Here is a link to the work: <http://vimeo.com/81923022>

Please let your students know they can go (for free!).

Conarro will be at Lane's in the Blue Door Theatre on Thursday, Oct 2 from 12-1:50 p.m. discussing his process and being a working artist in a small community. All LCC students, staff, and faculty are welcome.

"This Hour Forward" is an interdisciplinary performance. All performances will be at the UO Jordan Schnitzer Museum of Art. The performance is an installation of spoken word, song, video, sound, and photography. Inspired by his brother's impending wedding as it coincides with the U.S. Supreme Court's reading of the Defense of Marriage Act, Conarro performs as the playful, provocative personas of both groom and bride, and he invites participants to join an exploration of deeply personal questions about the identities of the self and of others; about the ideals and realities of love and marriage; and about heartbreak and failure. Conarro's residency is co-sponsored by OCT, the Jordan Schnitzer Museum of Art, Lane Community College Theatre Department, and the University of Oregon Department of Theatre Arts.

* Student only performance: Thursday October 2 at 8 p.m.

* Public performances Friday and Saturday October 3 and 4 at 8 p.m.

For more information please contact Brian Haimbach at haimbachb@lanecc.edu

"If you don't know where you are, you don't know who you are," claimed Wendell Berry. Sarah M. Nemecek (artistic director/ choreographer), Ian Coronado (multi media artist), John Watson

(photographer/ videographer), Mel Stark (electronic composer) and Matt Svoboda (composer / musician for dance) collaborate to explore the parallels in the external environment and ourselves. Place and person partner with initiation, orientation, and sensation to sculpt a map of Lane County and our own physicality - these amazing spaces we call home. GREAT OREGON SHAKEOUT, OCT. 16

Hang on to those hats and glasses! The Great Oregon Shakeout is coming. Lane Community College will participate in this annual earthquake drill on Thursday, October 16 at 10:16 AM. During the drill, Lane Alert will be utilized and the mass announcement system in campus buildings will be tested. Members of the Campus Community Emergency Response Team, Emergency Planning Team, and Public Safety will assist and observe in some buildings. Here's what you can do on 10/16 at 10:16:

...Drop, Cover, and Hold On: Faculty, staff and students should Drop to the ground, take Cover under a table or desk, and Hold On to it as if a major earthquake were happening (stay down for at least 60 seconds). Practice now so your staff and students will know immediately how to protect themselves during earthquakes! For people with disabilities or access and functional needs, download the preparedness guide at:

http://www.shakeout.org/downloads/AFNPreparednessGuide_10-6-2011.pdf

... While still under the table, or wherever you are, look around and imagine what would happen in a major earthquake. What would fall on you or others? What would be damaged? What would life be like afterwards? What will you do before the actual earthquake happens to reduce losses and quickly recover?

Please be prepared to offer feedback to Dawn Barth, barthd@lanecc.edu

NEWS

LCC EARNS LEADER COLLEGE STATUS FROM ACHIEVING THE DREAM

Achieving the Dream announced this month that Lane Community College is one of 16 community colleges selected for the 2014 cohort of Achieving the Dream Leader Colleges—a national designation awarded to community colleges that commit to improving student success and closing achievement gaps. Lane is the only Oregon college to receive the honor.

“This is an affirmation of Lane’s commitment to students and that we’re helping students complete their education and succeed at Lane and beyond,” said Lane President Mary Spilde.

“This wonderful recognition comes just in time for our 50th anniversary year and our seven-year accreditation evaluation.” For more information visit the college newsroom at <http://www.lanec.edu/newsroom/n/nr1822>

LANE PART OF \$500,000 OREGON NASA SPACE GRANT

Work by Lane physics instructor Dennis Gilbert was funded as part of the Oregon NASA Space Grant proposal that will enhance astronomy curriculum in Oregon community colleges and universities. Reform of the ASTR 121,2,3 series was identified in the physics discipline as the highest curriculum priority in their last unit plan, and the project involves development of curriculum elements of the ASTR series for use throughout Oregon, including some remote viewing lab elements developed jointly with UO. These courses are part of a larger set of curriculum enhancements for establishing a space sciences Associate of Science community college degree and a space sciences bachelor’s degree in Oregon, as well as attracting and supporting students for engagement in STEM education at Lane and throughout the state. Gilbert will be working with faculty colleagues from Linn-Benton and Portland Community College as well as Oregon State University, the Space Grant program lead. The two-year grant also includes nine \$5,000 scholarships for Lane students.

A summary of the Oregon NASA Space Grant proposal is in the list of awarded grants, which are accessed through the first of three links at the bottom of the NASA announcement at <http://www.nasa.gov/press/2014/august/nasa-selects-proposals-to-increase-stem-education-at-community-and-technical> (then search for “Proposal 32”). Details of the Lane work are available from Gilbert.

LCC OFFERS SPANISH GED CLASSES TO FILL GAP LEFT BY EXPIRED GRANT

In response to student and community partner requests, Lane Community College is offering two Spanish GED classes this fall, one in Springfield and one in Eugene. A federal grant supporting the long-running and well-respected High School Equivalency Program (HEP) at University of Oregon was not renewed, leaving a gap in services for Spanish speaking students wishing to obtain a certificate of General Education Development (GED). HEP provided migrant workers and the children of migrant workers an opportunity to earn their GED while also receiving career counseling and other support services.

To help fill the need, Lane will offer an evening class from 6:15 p.m. to 8:45 p.m. Tuesdays and Thursdays at Lane's Downtown Campus, 101 W. 10th Avenue in Eugene. GED classes at the Downtown Campus are free and students pay a \$27 transportation fee, which provides an LTD bus pass for the term.

Thanks to a partnership with Springfield School District, Lane's Adult Basic and Secondary Education Department will offer a class from 6:15 p.m. to 8:45 p.m. Mondays and Wednesdays at Springfield High School, 875 7th Street, Springfield, in room 330. The class and child care in Springfield are offered at no cost and are part of Springfield's 21st Century Community Learning Center after-school programming. Instructor Rafael Arias will teach both Spanish GED classes.

50TH ANNIVERSARY EVENT CELEBRATES STUDENT SUCCESS, OCT. 15

It was a dark and icy night* on October 19, 1964 when voters lined up at the polls and founded Lane Community College with a 5-to-1 margin of support in a special election. Since then, thousands of students have achieved their dreams at Lane and the college ranks as one of the nation's best.

To honor 50 years of student success, Lane will hold a community celebration on Wednesday, Oct. 15. Departments will offer open houses beginning at 2 p.m., and the official ceremony begins at 4 p.m. in the Center for Meeting and Learning, Building 19, main campus, 4000 E. 30th Avenue in Eugene.

The event will include remarks by Governor Kitzhaber, the introduction of five Distinguished Alumni—one from each decade—and refreshments including Titan Power Pale Ale brewed by Ninkasi in honor of Lane's 50th anniversary.

Everyone's invited to attend and celebrate their connection to Lane's past, present and future. Find out more about the 50th anniversary at www.lanec.edu/50 Contact: Joan Aschim.

GREAT OREGON SHAKEOUT, 10/16 AT 10:16

Hang on to those hats and glasses! The Great Oregon Shakeout is coming. Lane Community College will participate in this annual earthquake drill on Thursday, October 16 at 10:16 AM. During the drill, Lane Alert will be utilized and the mass announcement system in campus buildings will be tested. Members of the Campus Community Emergency Response Team, Emergency Planning Team, and Public Safety will assist and observe in some buildings.

Here's what you can do on 10/16 at 10:16:

...Drop, Cover, and Hold On: Faculty, staff and students should Drop to the ground, take Cover under a table or desk, and Hold On to it as if a major earthquake were happening (stay down for at least 60 seconds). Practice now so your staff and students will know immediately how to protect themselves during earthquakes! For people with disabilities or access and functional needs, download the preparedness guide at:

http://www.shakeout.org/downloads/AFNPreparednessGuide_10-6-2011.pdf

... While still under the table, or wherever you are, look around and imagine what would happen in a major earthquake. What would fall on you or others? What would be damaged? What would life be like afterwards? What will you do before the actual earthquake happens to reduce losses and quickly recover?

Please be prepared to offer feedback to Dawn Barth, barthd@lanecc.edu

EVERY NEW STUDENT RECEIVES FIRST-TERM ACADEMIC ADVISING

Congratulations to the Counseling Department staff! For the first time in Lane's history, every single new summer and fall term student received first term academic advising. The staff worked diligently since May and over the summer under challenging conditions to say the least, and continued the gallant effort up to the very last minute of the day on Friday, Sept. 26. Staff met with students in groups, individually, and through online New Student Academic Advising Sessions. For summer/fall terms, ball park figures of 1,586 new First Time In College Students, and 774 new Prior College students were cleared to register. The goal to implement the best practice of reaching every new student with first term academic advising is alive and well at Lane Community College! The Counseling Department staff has good reason to be proud for their patience and for the excellent, welcoming customer service provided. Thank you to everyone across main campus, Cottage Grove, Florence, and Downtown who have contributed and supported this student success effort! Contact: Jerry de Leon, M.A.

INTRODUCING "FOR YOUR CONSIDERATION"

"For Your Consideration" offered by Student Life and Leadership Development consists of web links to articles, TedTalks, Internet sites and Youtube videos that address some aspect of diversity. Some presenters may be considered liberal, others conservative—this is not a place to suggest one view is better than another, simply to have people pause and consider the ideas presented. Topics include sexual assault prevention, LGBT issues, socio-economic issues, and issues of race, ethnicity and changing demographics. Some are fairly short, some may be as long as 20 minutes or more. A different topic will be posted every week or so. Participation is simple. Simply click on the link and explore the topic. What happens from there is up to you. You can stop at any time, you can re-watch as often as you like. You can explore other links that may be listed on the page. You can sit quietly and think about the presentation and ponder the implications. You can agree, laugh, smile, object, refute, disagree, or rant – to yourself. You can use the sites in your class, or can share them with friends. And finally, if you want to discuss the issues, you can attend a discussion group or respond online to this forum. Brown bag lunches or other discussion sessions will be scheduled throughout the term, in addition to this online forum. The only requirement for participation in the online forum is that you state your position without demonizing or labeling others who may have a different position - this is a bully free zone. All opinions and positions are welcome, we only ask that you engage in professional and mature discourse. Contact Barb Delansky at 5337 or delanskyb@lanec.edu

INSTRUCTORS, PLEASE NOTE: NEW WAY OF DELIVERING LOA'S FROM DISABILITY RESOURCES
Disability Resources has implemented a new database this summer which allows students to make their accommodation requests electronically.

- A customized Letter of Accommodation (LOA) is emailed to each instructor indicating the specific accommodations students plan on using for that class. Please watch for these emails from Disability Resources.
- Please note: Like many systems on campus, our system automatically sends communications to the email address that you have identified as your "preferred" address in MyLane.
- We still ask that students privately discuss the details of the accommodations they plan to use with each instructor. This way, you can discuss pertinent details/arrangements ahead of time. You may contact DR with any questions or concerns at ext. 5150, or email: disabilityresources@lanecc.edu Contact: Renee Bathke.

NEWS

LANE WINS NATIONAL GREEN GENOME AWARD

As part of an expanding national effort to support environmentally sustainable practices, programs and job training at the nation's almost 1,200 community colleges, Lane Community College is one of five exemplary community colleges, and the only one on the West Coast, to have won an American Association of Community College (AACC) Green Genome Award. The Green Genome Awards, created by AACC's Sustainability Education and Economic Development Center (SEED,) recognize achievement in four key areas critical to holistic green college transformation: community engagement, governance, program design and delivery, and strategic partnerships. Lane was recognized specifically for governance. Lane's dedication to sustainability is highlighted in its focus on infusing these concepts into the structure of college policies and procedures, which has allowed Lane to apply principles of sustainable economics, resource use, and social institutions to learning and working environments.

ANOTHER GREAT WIN FOR SOCCER

See The Register-Guard article about the kickoff Lane's women's soccer season at:

<http://registerguard.com/rg/sports/32240209-81/titans-off-to-fast-start.html.csp>

Health, Physical Education and Athletics Division Dean Chris Hawken says, "Our new hire, Erica Jensen, has hit the ground running and is beginning to take our soccer program to the 'premiere' level we have been discussing. It is wonderful to have a progressive, soccer savvy, intelligent and resourceful young woman heading up the women's soccer program. As the article suggests, Erica has accomplished this when being hired only a few weeks before the season started and with a group of players she inherited, rather than recruited herself. Greg Sheley has done an excellent job supporting her in her new role and getting her acquainted with the somewhat different set up of the NWAC."

HELP OUT IN AN EMERGENCY; LEARN HOW TO USE THE EVAKUTRAK

We need you! Have you ever wondered how we would evacuate people with mobility challenges out of the Center Building in an emergency if the elevator wasn't working? We have a great device for assisting in this process called the Evakutrak. We need more people trained to use this equipment so we can be prepared in an emergency. The campus Emergency Planning Team will be sponsoring quarterly trainings to better improve our campus preparedness. This academic year the trainings will be held at 1 P.M. on October 22, January 28, and March 22. If you are interested in the training and would like a reminder, contact Dawn

Barth at barthd@lanecc.edu Training is drop in and we will meet at the south end of 4th floor Center. Thanks for you assistance in making Lane a safer place to work and learn.

LIBRARY TIDBITS

First-time visitors to the interim Library typically wonder, "Where are all the books?" The Library collection is available! Just browse the catalog online (<http://www.lanecc.edu/library/>), select an item, and place a hold. Library staff retrieve books twice a day from the old library in the construction zone, and borrowers receive an email when items are ready to pick up at the Circulation Desk in the interim Library.

Faculty, if you have an extra copy of your course materials, consider placing one on reserve in the Library for students to share. Students do not need to place a hold on reserve items; they are all housed in the interim Library.

Librarian Jen Ferro is on sabbatical fall quarter, and Natasha Chitow-Prawlocki (Chitow-PrawlockiN@lanecc.edu) is filling in for Jen's liaison areas. Submitted by Marika Pineda.

GREAT OREGON SHAKEOUT EARTHQUAKE DRILL, 10/16 AT 10:16

Hang on to those hats and glasses! The Great Oregon Shakeout is coming. Lane Community College will participate in this annual earthquake drill on Thursday, October 16 at 10:16 A.M.. During the drill, Lane Alert will be utilized and the mass announcement system in campus buildings will be tested. Members of the Campus Community Emergency Response Team (C-CERT), Emergency Planning Team, and Public Safety will assist and observe in some buildings. Here's what you can do on 10/16 at 10:16:

...Drop, Cover, and Hold On: Faculty, staff and students should Drop to the ground, take Cover under a table or desk, and Hold On to it as if a major earthquake were happening (stay down for at least 60 seconds). Practice now so your staff and students will know immediately how to protect themselves during earthquakes! For people with disabilities or access and functional needs, download the preparedness guide at:

http://www.shakeout.org/downloads/AFNPreparednessGuide_10-6-2011.pdf

... While still under the table, or wherever you are, look around and imagine what would happen in a major earthquake. What would fall on you or others? What would be damaged? What would life be like afterwards? What will you do before the actual earthquake happens to reduce losses and quickly recover?

Please be prepared to offer feedback to Dawn Barth, barthd@lanecc.edu

KLCC RAISED \$300,300 DURING FALL MEMBERSHIP DRIVE

KLCC's Fall Radiothon ended fifteen minutes early at 6:15 pm on Friday, October 10 with a total of \$300,300 -- surpassing the Fall goal by \$300. Over 2,500 KLCC listeners became members or renewed their membership during the Fall fundraising campaign.

KLCC continued its streamlined approach to Radiothon, asking for contributions only during "Power Hours" and leaving the rest of the day Radiothon-free. Listeners responded positively, helping the station reach the goal with less interruption to KLCC programming.

During the course of the Fall campaign KLCC offered a variety of incentives to encourage membership. Several members won prizes including iPads, a Pub Package and more. Lucky winners were announced throughout the campaign and are listed on klcc.org.

KLCC member contributions help cover the cost of NPR news, nationally syndicated programs, locally programmed music, community information, live broadcasts of special events, and intelligent entertainment all year long. Two-thirds of KLCC's budget comes from listeners and local businesses.

KLCC thanks its loyal audience for their generous and continuous support of public radio! Prior to the ceremony, participating departments and programs will offer open houses. For details go online at www.lanecc.edu/50 for further event information, a timeline with historic photos, fun facts, and stories posted by past and present students, employees and other members of the Lane community.

ANNOUNCEMENTS & COMING EVENTS

THEFT FROM MOTOR VEHICLE (TFMV) FOLLOW UP

There were two additional incidents of theft from cars on campus on Saturday.

These cases are being investigated by both Public Safety and the Sheriff's office.

Suspect and suspect vehicle descriptions (from video surveillance):

Vehicle: The suspect's vehicle is a smaller SUV green in color with a spare tire mounted on the rear panel. It is a model similar to the Honda CRV or Toyota RAV4 SUV.

Suspect: White male adult, 20-30 years old, wearing a black baseball cap.

Please continue to be vigilant, refrain from leaving valuables in vehicles, and make sure you contact Public Safety immediately if you see suspicious behavior in campus lots. Public Safety would much rather respond to a false alarm than let someone else be victimized.

EMPLOYEE CAMPAIGN FOR 2014-15 IS UNDERWAY

Giving to the Foundation is a great opportunity to support scholarships and programs, as well as the area of greatest need. Employees can also support local charities through the United Way. Also supporting the Employee Campaign is an excellent way to win some terrific swag. Your department representative will distribute your Employee Campaign forms. For employees who previously elected to be continuous donors to the Foundation you are automatically enrolled in the weekly raffles. The management team continues to step-up and provide great prizes for the weekly raffles such as wine, chocolates, gift cards, passes to the Renaissance Room and so much more! The first raffle is this Friday, October 17.

In addition, Michael O'Neil from Food Services will prepare a barbecue for the department that has the largest percentage increase in employee participation and the largest percentage increase in dollars pledged. Thank you Michael!

Congratulations to the Florence Campus which won the barbecue from last year's Employee Campaign.

The Nancy Hart Memorial Fund has been established to purchase a bench in Nancy's memory. The Nancy Hart Memorial Fund is an example where employees can direct their employee campaign gift. Employees can also donate to other funds such as Shining Start Scholarship or Area of Greatest Need in Nancy's memory, you will need to designate it on your form.

Thank you for your support of the 2014-2015 Employee Campaign.

INSTRUCTORS—PLEASE NOTE: NEW WAY OF DELIVERING LOA'S FROM DISABILITY RESOURCES
Disability Resources has implemented a new database this summer which allows students to make their accommodation requests electronically.

* A customized Letter of Accommodation (LOA) will be emailed to each instructor indicating the specific accommodations students plan on using for that class. Please watch for these emails from -Disability Resources. [Note: currently we have a glitch in our system and need to manually send these out. Let us know if you have not received an electronic LOA for a particular student.]

* We still ask that students privately discuss the details of the accommodations they plan to use with instructors. This way, you can discuss pertinent details/arrangements ahead of time. You may contact DR with any questions or concerns at ext. 5150, or email: disabilityresources@lanecc.edu

* Please do NOT use the "Disability Resources Staff" email as this goes to ~30 people. Also, please use only student initials in the subject line. Thanks.

STAFF LOCKER ROOM NOTICE

Do you plan on keeping your locker/basket for Fall Term? Please remember to sign up for a PE/Dance class that has the PE fee. If you are in a Wellness Class, please remember that those classes do not have the fee. You will need to sign up for the following CRN 24128. This is the \$15 PE Fee only for Fall Term. Fees are due October 17. If you are not planning on using your locker this term, please clean it out and check in any clothing items and the lock at the Exchange Window. Any lockers that do not have the PE Fee paid by October 17 will be cleaned out. Thanks for your help. If you have questions, please call x5557.

ATC STUDENT WORKERS' APPRECIATION FUND

If you are one of the many faculty or staff members who has expressed appreciation for help received in or from the Academic Technology Center, you may be interested to know that we have a Foundation account for our student workers. This fund is used to provide emergency assistance, lunches, and celebrations for our student workers. In the past, we have loaned student workers money to clear account holds or pay for medical services, so that they could continue attending classes and working in the ATC. We have also been able to buy meal cards so they could get lunch in the cafeteria. If you would like to support the ATC student workers, consider making a small donation to the ATC Student Worker account (#4072) during this year's employee giving campaign. Thanks for all the generous feedback and support you have given to the ATC student workers. Contact: Michael Levick,

EUGENE DIGITAL DOJO TO HELP BUILD LOCAL SOFTWARE LABOR FORCE

Area youth will be the beneficiaries of a partnership between Lane Community College, the City of Eugene, and Eugene School District 4J to develop a Digital Dojo — a

nationally connected and locally developed open source computer coding club — at Lane Community College's Downtown Campus.

The Dojo will provide a host of computer science related educational opportunities and kick off with an open house on Tuesday, November 18, from 3:30-5:30 p.m. at the Lane Community College Downtown Campus, 101 W 10th Ave., Eugene, Ore. The public is welcome. Youth at any level of computer skill are invited to visit to try coding and see the resources the Dojo will have to offer. All attendees are required to pre-register at the website: <http://www.meetup.com/Eugene-Region-CoderDojo-Hub>

"The Digital Dojo is an investment in education for today's students, and economic development for employers, entrepreneurs and employees in the future," said Nan Laurence, Senior Planner, City of Eugene. "It will help us strengthen the creative and technical skills needed to build a highly qualified and flexible workforce in the expanding software employment cluster and retain and grow high tech businesses in our region." The Dojo creates a dynamic learning environment that brings at least a dozen computer industry employees into the classroom, employs computer science faculty, and focuses on middle and high school students to create an interest in the field early in their school career. Eugene-Springfield area youth are welcome; females and underrepresented youth are particularly encouraged to participate.

"The Digital Dojo uses an innovative combination of structured education, work-based projects, and collaborative methods, all in Lane's Downtown Campus," says Lane Community College President Mary Spilde. "We anticipate seeing a thriving educational space that builds skills, knowledge, and confidence in the youth involved, leading them into the high-demand, high-wage occupations of the computer science industry. The community will benefit by keeping the employers in the region and the industry will benefit by having skilled employees."

The Digital Dojo partnership brings together instructional specialists with expertise in computer science from LCC and 4J and a state of the art classroom in LCC's Downtown campus with \$50,000 of telecommunications funds aimed at digital mentoring from the City of Eugene.

Dojo sessions will be held on Tuesdays and Thursdays from 3:30-5:30 p.m. and Saturdays from 10:00 a.m.-2:00 p.m. beginning in December. The project can accommodate approximately 800 students over the course of the 2014-15 school year. Beginning in November youth will be able to sign up online for sessions in advance. After you complete the questionnaire, the system will give you feedback on your risks and provide additional information on how you can improve your health. Additional information can be found at Lane's Human Resources Department website:

https://www.lanec.edu/sites/default/files/hr/benefits/hq_instructions.pdf

The Assessment will ask you for health information referred to as "Biometric data". Biometric data refers to health test results such as blood pressure, cholesterol, pulse, etc. Although biometric data is not required in order to complete the Assessment, providing this information will result in a more accurate health assessment. Health screening appointments are available at this year's Benefits Fair. Please contact Wendy Simmons for fee information and/or to schedule an appointment.

Lane Community College does not receive any confidential health related information. The College will only receive a list of those who completed the Assessment from PacificSource.

"NARRATIVES OF CHINA" BY JOHN SINCLAIR, OPENS OCT. 27; LECTURE AND RECEPTION NOV. 4

The Lane Art Gallery is proud to present "Narratives of China", featuring work by Portland based artist, John Sinclair from October 27 to November 13 in the Main Gallery. John Sinclair is a Pacific Northwest artist whose works consists of multiple influences and that become visual conversations through the mediums of drawing and painting. Artist's Statement: "Combining photographic reference, memory, imagination, and a rigorous use of rendering, my drawings and paintings present a fascination with the formal concerns of two dimensional art which has preoccupied figurative artists for

centuries--conjuring from a flat surface illusions of three dimensional life, of light, shade, space, form, emotion and perhaps even a narrative. Thematically, my work reflects a lifelong passion for Asian culture and cuisine--a sort of whimsical armature on which everything else is layered.

While these concerns are front and center in my work, there always lurks an ironic twist, something comic or a little off kilter, overturning the viewers' expectations. My artistic heroes are as diverse as Da Vinci, Caravaggio, Eakins, Hammershoi, Dali, Close, Wyeth and Desiderio, all of whom are linked by a preoccupation with the illusion of light and form, yet never neglecting the imagination and the fluid subtext of the subconscious."

There will be an artist talk/question and answer on Tuesday, November 4 at 4:30 p.m. with a reception immediately following. The gallery is located in building 11 on the main campus. There is no charge for admission. The Art and Applied Design Department phone number is 541-463-5409.

BREAK THROUGH CONFLICT WORKSHOP, NOV. 7

Even with the best of intentions, many of us communicate automatically, often not handling conflict as well as we would like, which takes a toll on our professional and personal lives. The models presented in "Break Through Conflict" offer flexible guidelines with progressive steps that are easily learned, applied, and adapted in order to develop and maintain strong, positive relationships and to actually create trust through conflict. The program has evolved from three decades of Dr. Peter and Susan Glasers' published, field-tested research and introduces participants to concrete, tangible skills. We hope that you will be able to take advantage of this great professional development opportunity and join us on Friday, Nov. 7, from 8:30 a.m.-3:30 p.m., in the Center for Meeting and Learning (Room TBA). The training is open and free to Lane staff. This training will be provided by Lane managers who have been certified by Drs. Peter and Susan Glaser to conduct "Break Through Conflict" training. All participants will receive the Glasers "Break Through Conflict" booklet. To register for this training, go online to: <http://doodle.com/v9zut6dsew9du89v> Enrollment will be limited to 25 participants, so register now! That's what it was like 35 years ago when NPR Correspondent Howard Berkes began his radio journalism career at KLCC in Eugene.

Today, Berkes is an investigative reporter for NPR, and no longer depends on typewriters, audio tape, razor blades or alligator clips. Radio has expanded into multiplatform media and the tools of the trade have been radically transformed. Berkes will share the pain and pleasure of his own transformation from old media to new, and how these changes have altered the role of news reporters.

This event is sponsored by KLCC in partnership with UO Wayne Morse Center for Law and Politics, and UO School of Journalism and Communication. Besides the public event, Berkes will guest lecture at the University of Oregon and provide a training workshop for KLCC reporters. KLCC is pleased to welcome back one of its original reporters, and share his NPR journey with today's Eugene audience. Contact: Gayle Chisholm, 6030.

ATC STUDENT WORKERS APPRECIATION FUND

If you are one of the many faculty or staff members who has expressed appreciation for help received in or from the Academic Technology Center, you may be interested to know that we have a Foundation account for our student workers. This fund is used to provide emergency assistance, lunches, and celebrations for our student workers. In the past, we have loaned student workers money to clear account holds or pay for medical services, so that they could continue attending classes and working in the ATC. We have also been able to buy meal cards so they could get lunch in the cafeteria. If you would like to support the ATC student workers, consider making a small donation to the ATC Student Worker Recognition Program, account #4072, during this year's Employee Giving Campaign. Thanks for all the generous feedback and support you have given to the ATC student workers. Contact: Michael Levick, ATC Coordinator, 3349.

“NARRATIVES OF CHINA” BY JOHN SINCLAIR, LECTURE AND RECEPTION NOV. 4
The Lane Art Gallery presents “Narratives of China”, featuring work by Portland based artist, John Sinclair now through November 13 in the Main Gallery.

John Sinclair is a Pacific Northwest artist whose works consists of multiple influences and that become visual conversations through the mediums of drawing and painting. Artist’s Statement: “Combining photographic reference, memory, imagination, and a rigorous use of rendering, my drawings and paintings present a fascination with the formal concerns of two dimensional art which has preoccupied figurative artists for centuries--conjuring from a flat surface illusions of three dimensional life, of light, shade, space, form, emotion and perhaps even a narrative. Thematically, my work reflects a lifelong passion for Asian culture and cuisine--a sort of whimsical armature on which everything else is layered.

While these concerns are front and center in my work, there always lurks an ironic twist, something comic or a little off kilter, overturning the viewers' expectations. My artistic heroes are as diverse as Da Vinci, Caravaggio, Eakins, Hammershoi, Dali, Close, Wyeth and Desiderio, all of whom are linked by a preoccupation with the illusion of light and form, yet never neglecting the imagination and the fluid subtext of the subconscious.”

There will be an artist talk/question and answer on Tuesday, November 4 at 4:30 p.m. with a reception immediately following. The gallery is located in building 11 on the main campus. There is no charge for admission. The Art and Applied Design Department phone number is 541-463-5409.

BREAK THROUGH CONFLICT WORKSHOP, NOV. 7

Even with the best of intentions, many of us communicate automatically, often not handling conflict as well as we would like, which takes a toll on our professional and personal lives. The models presented in "Break Through Conflict" offer flexible guidelines with progressive steps that are easily learned, applied, and adapted in order to develop and maintain strong, positive relationships and to actually create trust through conflict. The program has evolved from three decades of Dr. Peter and Susan Glaser's published, field-tested research and introduces participants to concrete, tangible skills. We hope that you will be able to take advantage of this great professional development opportunity and join us on Friday, Nov. 7, from 8:30 a.m.-3:30 p.m., in the Center for Meeting and Learning, Room 214. The training is open and free to Lane staff. This training will be provided by Lane managers who have been certified by Drs. Peter and Susan Glaser to conduct "Break Through Conflict" training. All participants will receive the Glaser's "Break Through Conflict" booklet. To register for this training, go online to: <http://doodle.com/v9zut6dsew9du89v> Enrollment will be limited to 25 participants, so register now! For more information, please contact Donna Koechig at ext. 5307 or koechigd@lanec.edu

TURN IT OFF!

Lane's "Turn It Off! Saving Energy saves Everything" Campaign presents five tips for success for you to help Lane take action in the fight against climate change:

*

1) Give It a Rest - Use the ENERGY STAR power management settings on your computer and monitor so they go into power save mode when not in use. Also use a power strip as a central "turn off" point when you are using equipment to completely disconnect the power supply.

*

2) Unplug It - Unplug electronics such as cell phones and laptops once they are charged. Adapters plugged into outlets use energy even if they are not charging.

*

3) Light Up Your Work Life - Replace the light bulb in your desk lamp with an ENERGY STAR qualified bulb. It will last up to 10 times longer and use about 75 percent less energy. Turn off the lights when you leave, especially at the end of the day.

*

4) Let It Flow - Keep air vents clear of paper, files, and office supplies. It takes as much as 25 percent more energy to pump air into the workspace if the vents are blocked.

*

5) Team up and get your office Green certified! - Learn more at www.lanecc.edu/sustainability/green-office-program Create a Green Team with your co-workers, help build support for energy efficiency in your workplace, and reduce office waste. Set a goal to make your building an ENERGY STAR qualified building.

WE NEED YOU! LEARN TO USE THE EVAKUTRAK

Have you ever wondered how we would evacuate people with mobility challenges out of the center building in an emergency if the elevator wasn't working? We have a great device for assisting in this process called the Evakutrak. We need more people trained to use this equipment so we can be prepared in an emergency. The campus Emergency Planning Team is sponsoring quarterly trainings to better improve our campus preparedness. You only need to attend one training and it should be less than an hour. The trainings are held at 1 p.m. The next sessions are January 28, and April 22. If you are interested in the training and would like a reminder, contact Dawn Barth at 5503 or barthd@lanecc.edu Training is drop-in and we will meet at the south end of 4th floor Center. Thanks for your assistance in making Lane a safer place to work and learn. Contact: Dawn Marie Barth, 5503.

Open enrollment for Section 125 - Flexible Spending continues through November 18:

- Section 125 for calendar year 2015 (Classified, Management, Faculty and Part-time Faculty): A new form must be completed for the new calendar year even if you are not making any changes from the previous calendar year. https://www.lanecc.edu/sites/default/files/hr/benefits/enrollment_form.pdf

- Reminder: For Classified and Management Employees Only: To be eligible for the College contribution to your Health Care reimbursement account, you must first complete the Health Risk Assessment via www.pacificsource.com For information and instructions go to:

https://www.lanecc.edu/sites/default/files/hr/benefits/hq_instructions.pdf

- For questions regarding these benefits, please call Sharon Daniel at ext. 5190 or Heidi Morales at ext. 5592.

Section 125 College Contributions:

Contribution levels are based on health insurance enrollment tiers as follows:

Classified	Management	Faculty/Part-time Faculty
Employee Only: \$450	Employee Only: \$150	Employee Only: \$150
Employee + One: \$850	Employee + One: \$250	Employee + Spouse/Children: \$250
Full Family: \$1,100	Full Family: \$300	Full Family: \$300

CLASSIFIED AND MANAGEMENT EMPLOYEES ONLY HEALTH RISK ASSESSMENT

Benefits-eligible Classified and Management employees who elect to enroll in Section 125 must complete a Health Risk Assessment in order to receive the College's contribution to the health care spending account of their Section 125 plan.

Current eligible employees need to complete the Assessment between July 1, 2014 and December 31, 2014 in order to receive the College's contribution for 2015. Employees who do not complete the assessment by December 31, 2014 will not be eligible for the College's contribution toward the 2015 health care spending account.

The Assessment is a short (10-20 minutes), online questionnaire administered through our insurance carrier PacificSource. The Health Risk Assessment that PacificSource uses is WebMD Health Quotient®. The purpose of the Assessment is to ask questions about your health and lifestyle to measure your risk for disease and other health-related issues. After you complete the questionnaire, the system will give you feedback on your risks and provide additional information on how you can improve your health. Additional information can be found at Lane's Human Resources Department website:

https://www.lanecc.edu/sites/default/files/hr/benefits/hq_instructions.pdf

The Assessment will ask you for health information referred to as "Biometric data". Biometric data refers to health test results such as blood pressure, cholesterol, pulse, etc. Although biometric data is not required in order to complete the Assessment, providing this information will result in a more accurate health assessment. Health screening appointments are available at this year's Benefits Fair. Please contact Wendy Simmons for fee information and/or to schedule an appointment.

Lane Community College does not receive any confidential health related information. The College will only receive a list of those who completed the Assessment from PacificSource.

After the performance, the dancers stayed for two additional weeks studying different forms of traditional Balinese dance and exploring Balinese culture. This program will feature a video of highlights of the trip and a Balinese dance performance, followed by presentations from the dancers and a Q&A session. For more information on the program, contact John Watson at 5161 or watsonj@lanecc.edu

BREAK THROUGH CONFLICT WORKSHOP, NOV. 7

Even with the best of intentions, many of us communicate automatically, often not handling conflict as well as we would like, which takes a toll on our professional and personal lives. The models presented in "Break Through Conflict" offer flexible guidelines with progressive steps that are easily learned, applied, and adapted in order to develop and maintain strong, positive relationships and to actually create trust through conflict. The program has evolved from three decades of Dr. Peter and Susan Glasers' published, field-tested research and introduces participants to concrete, tangible skills. We hope that you will be able to take advantage of this great professional development opportunity and join us on Friday, Nov. 7, from 8:30 a.m.-3:30 p.m., in the

Center for Meeting and Learning, Room 214. The training is open and free to Lane staff. This training will be provided by Lane managers who have been certified by Drs. Peter and Susan Glaser to conduct "Break Through Conflict" training. All participants will receive the Glaser's "Break Through Conflict" booklet. To register for this training, go online to: <http://doodle.com/v9zut6dsew9du89v> Enrollment will be limited to 25 participants, so register now! For more information, please contact Donna Koechig at ext. 5307 or koechigd@lanec.edu

PEACE CENTER HOSTS CHRIS DIXON, NOV. 10

The Lane Peace Center is bringing Chris Dixon, author of "Another Politics: Talking Across Today's Transformative Movements," to campus on Monday, Nov. 10, from 1-2:30 p.m. in the Longhouse. Recent decades have seen the exciting convergence of broad based social movements in the U.S. and Canada. From this convergence, activists are building "another politics" that combines anti-authoritarian and anti-oppression politics with grassroots organizing among ordinary, non-activist people. Drawing on interviews with organizers across North America, Chris Dixon's presentation distills key lessons for building effective, visionary movements. You are invited to attend. REGISTRATION IS OPEN FOR WINTER TERM

Registration opened Monday, Nov. 3, for continuing students with Lane academic history who have a Program of Study that is degree-seeking.

All students, including faculty and staff, who are eligible to register for winter term were sent an email on October 24th notifying them of this start date.

The email notified those who have a NODEGR_CR or "No Degree, Transfer or Fin Aid" showing in their "When Can I Register?" link in myEnrollment in myLane that the No Degree students will wait until Open Registration begins on December 9th to be able to register.

If you request to have your Program of Study changed to be able to register earlier than December 9th, keep in mind that if you have not yet cleared the Academic Advising Hold, you'll need to participate in the Academic Advising process to clear this hold, which begins November 14th.

If you have cleared your Academic Advising, you will be notified in "When Can I Register" when your registration time will be.

Students (including faculty and staff taking classes) with a Program of Study that is degree-seeking will be subject to the Academic Progress Review that happens at the end of each term. If the student's does not have a 2.00 term GPA and 67% of attempted classes completed they will be notified of the need to complete an Academic Progress Standings Alert intervention. This can be impacted by classes that are taken for audit. Questions? Email Helen B. Garrett at garretth@lanecc.edu

KLCC PRESENTS NPR CORRESPONDENT HOWARD BERKES, NOV. 12

NPR News Correspondent Howard Berkes will be in Eugene to speak about the impact of new media on traditional media. His presentation, "Typewriter to Twitter – an NPR Reporter's Journey," will be held at 175 Knight Law Center on Wednesday, November 12 at 7 p.m. The public is invited to this free event.

Imagine journalism with no computers, no internet, no cell phones, and no Twitter. That's what it was like 35 years ago when NPR Correspondent Howard Berkes began his radio journalism career at KLCC in Eugene.

Today, Berkes is an investigative reporter for NPR, and no longer depends on typewriters, audio tape, razor blades or alligator clips. Radio has expanded into multiplatform media and the tools of the trade have been radically transformed. Berkes will share the pain and pleasure of his own transformation from old media to new, and how these changes have altered the role of news reporters.

This event is sponsored by KLCC in partnership with UO Wayne Morse Center for Law and Politics, and UO School of Journalism and Communication. Besides the public event, Berkes will guest lecture at the UO and provide a training workshop for KLCC reporters. KLCC is pleased to welcome back one of its original reporters, and share his NPR journey with today's Eugene audience. Contact: Gayle Chisholm, 6030.

"CONSTANCE & SINISTRA AND THE CABINET OF SCREAMS," NOV. 14-22

The Student Productions Association of Lane Community College invites you to the Oregon premier of "Constance & Sinestra and the Cabinet of Screams," a new and award winning musical comedy about love, loss, bonbons and taxidermy set in Victorian London. The musical runs November 14-22. A thrilling combination of Tim Burton and Hansel and Gretel, with plenty of music in between, this story is like a Grimm fairy tale, where what could have been charming and uplifting is subverted and suddenly macabre.

In order to accommodate travel to and from campus by LTD, SPA will be starting shows at 7:00 p.m. this year (2:00 p.m. for Sunday matinees). Performances are November 14, 15, 20-22 at 7:00 p.m. and November 16 at 2:00 p.m.. Tickets may be purchased online at lanecc.edu/tickets or by calling 541-463-5161. For more information about the show or anything about theatre at LCC, contact Brian Haimbach at haimbachb@lanecc.edu or 5648. TUTORING SERVICES IS ALIVE AND WELL

Tutor Central is under construction. When we return to the Center Building in January 2016, our tutors will be well integrated into Library Services, Computer Help, Food Services and Student Activities. Students will love it. Meanwhile, tutors are still assisting students, and Tutor Coordinators from each center meet regularly to co-create a system that continues to provide a standard but unique experience in our department housed

centers. We are taking this opportunity leave our silos of service, build bridges, and refine a program that helps students succeed in their academic programs, while learning valuable college knowledge.

During academic year 2013-2014, over 5,300 students registered for and used tutoring in one or more of our centers for a total of more than 51,000 hours. So far this fall, approximately 1,000 students have registered and attended tutoring in one or more of our centers.

Student evaluations say "tutors are patient, friendly, easy to work with. One student wrote, "She built on what I already knew to lead to understanding of new concepts." We have three videos on our website www.lanecc.edu/tutor/videos in which students share their experience in the MRC, Tutor Central and Spanish Lab. Watch for another video coming soon about the history of Tutoring Services.

Thank you to the many people in departments who have helped our Tutor Central staff and students relocate in our temporary homes. Liz Coleman, 5783.

ANNUAL HOLIDAY GIVING TREE

The holiday giving tree is sponsored by the Student Life and Leadership Development office and Women's Center, This project provides gifts to the children of Lane students ages 11 and under as well as the opportunity to provide student workers experience in the human services field.

We ask that staff members take a name from the tree and provide a gift or two. This program is very successful and provides our hard working students with a little bit of an extra boost during the holidays. Parents are overjoyed when they pick presents up to take home to their little ones.

The tree will be up beginning November 10 just outside the Women's Center in building 1 on the second floor. We are asking that all gifts be returned no later than December 7th, just prior to finals week. We will accept them wrapped or unwrapped. Tags will specify the need of each child and need to be included with the returned gift. Tags beginning with W will be returned to the Women's Center (building 1, room 202) and tags beginning with MCC will be returned to the Multicultural Center (building 1, room 201).

Contact Marci Parker at 541-463-5353 or Tina Lymath at 541-463-5336 if you have any questions. As always, Thank you for your generosity and giving spirit.

"CONSTANCE & SINISTRA AND THE CABINET OF SCREAMS," NOV. 14-22

The Student Productions Association of Lane Community College invites you to the Oregon premier of "Constance & Sinestra and the Cabinet of Screams," a new and award winning musical comedy about love, loss, bonbons and taxidermy set in Victorian London. The musical runs Nov. 14-22. A thrilling combination of Tim Burton and Hansel and Gretel, with plenty of music in between, this story is like a Grimm fairy tale, where what could have been charming and uplifting is subverted and suddenly macabre.

In order to accommodate travel to and from campus by LTD, SPA will be starting shows at 7:00 p.m. this year (2:00 p.m. for Sunday matinees). Performances are Nov. 14, 15, 20-22 at 7:00 p.m. and Nov. 16 at 2:00 p.m. Tickets may be purchased online at lanecc.edu/tickets or by calling 541-463-5161. SENATOR WYDEN MEETS WITH SENIOR COMPANION PROGRAM

Senior Companion Program (SCP) volunteers Barbara Mitchell & Erika Seiferling and SAI/SCP director Barbara Susman participated in an invitation-only meeting with U.S.

Sen. Ron Wyden on Oct 17, hosted by Trillium CHP. The meeting focused on services for chronically ill older adults, and training for those who serve them. The 22-person meeting was an excellent opportunity to publicize the 37 years of weekly companionship visits and transportation Companion volunteers have given throughout Lane County, through the federal Program, to help frail elders and adults living with disabilities retain their independence and social connection. The Senator is well acquainted with SCP, but had not known about SAI's award-winning Personal Care Aide class, nor the organizations which fully sponsor students - - including State of Oregon Vocational Rehabilitation, Confederated Tribes of Siletz, and Looking Glass Riverfront School. (The next PCA class will be offered in January. Look for details in the winter "Schedule." It and the updated www.lanecc.edu/sai web listing will be available by mid-December. Call SAI at 541-463-6264 if you want special notification of dates, etc.).

FUNDS HELP SUPPORT DCA PROGRAMS

Cascade Manor and Pinnacle Healthcare, Inc. have each pledged \$5,000 sponsorships to support the work of Lane Community College Successful Aging Institute and Continuing Education. Generating funding for these newly self-supporting college departments, these organizations and others will enjoy special promotions through the college, through LCC Foundation. Contact Barbara at susmanb@lanecc.edu or 541-463-6264 to learn how you can become an SAI/CE sponsor or donor.

ECOCHALLENGE A SUCCESS

Lane's EcoChallenge Team placed fourth out of the 207 EcoChallenge Teams, scoring 3,340 points and beating our challenger, Portland Community College. Eighty-two Lane employees and students participated on the team and enacted lasting changes such as eating organic food with every meal, eating two meatless meals per day, switching to a reusable drink container, taking shorter showers, turning down the thermostat at home, and walking and biking more. ANNUAL HOLIDAY GIVING TREE; TAKE A NAME, RETURN A GIFT BY DEC. 7

The holiday giving tree is sponsored by the Student Life and Leadership Development office and Women's Center, this project provides gifts to the children of Lane students ages 11 and under as well as the opportunity to provide student workers experience in the human services field. We ask that staff members take a name from the tree and provide a gift or two. This program is very successful and provides our hard working students with a little bit of an extra boost during the holidays. Parents are overjoyed when they pick presents up to take home to their little ones. The tree went up November 10 just outside the Women's Center in building 1 on the second floor. We are asking that all gifts be returned no later than December 7, just prior to finals week. We will accept them wrapped or unwrapped. Tags will specify the need of each child and need to be included with the returned gift. Tags beginning with W will be returned to the Women's Center (building 1, room 202) and tags beginning with MCC will be returned to the Multicultural Center (building 1, room 201). Contact Marci Parker at 541-463-5353 or Tina Lymath at 541-463-5336 if you have any questions. As always, thank you for your generosity and giving spirit.

After you complete the questionnaire, the system will give you feedback on your risks and provide additional information on how you can improve your health. Additional information can be found at Lane's Human Resources Department website:

The Assessment will ask you for health information referred to as "Biometric data". Biometric data refers to health test results such as blood pressure, cholesterol, pulse, etc. Although biometric data is not required in order to complete the Assessment, providing this information will result in a more accurate health assessment. Health screening appointments are available at this year's Benefits Fair. Please contact Wendy Simmons for fee information and/or to schedule an appointment. GLOBAL CONVERSATION: Trends in Community Colleges, Wednesday, Nov. 19 at 3 p.m. in CML 214. From Vice President Brian Kelly: We had a great turnout and robust discussion at the first forum and I would like to encourage you to join the conversation. I will be facilitating this discussion and would be happy to add any materials you might find useful to the website. I have added several links below to help give you a suggested framework for the discussion.

From President Spilde's initial comments: "These forums are designed to engage us in dialogue about some of the big issues that are, and will continue to impact us in the future. As you know we are embarking on updating our strategic plan this year so these global conversations will inform our thinking about what needs to be considered in that effort. The design of the conversation will be a brief framing of the issue and then table conversations. The idea is to engage with each other on a level playing field. We will keep notes and post them to the web so that we have a summary record of the conversations."

STRUCTURE / SEQUENCE EXHIBIT LECTURE AND RECEPTION, NOV. 20: The Lane Art Gallery is proud to present the exhibition, "Structure/Sequence", by artists Erika Beyer and Robin Selover. They are faculty in Art and Applied Design. Erika works in painting and design and Robin works in Fiber and design also. Erika states, "I think of my work as a form of "scientific storytelling." My paintings allow me to play with time and space, speeding up and combining

images to show an entire sequence or process in a single illustration. Although I am concerned with scientific accuracy and prefer to draw from live specimens, occasionally my work requires imagination to illustrate subjects rarely seen. I also rely on academic journals, folklore and mythology, and conversations with scientists as part of my design process." Robin's work, also reflecting nature, takes on a more interpretive form. She states, "Clouds are non-existent in some ways, so immaterial; simply collections of droplets and dust and yet they look so very solid. I find it funny to be constructing solid things from nonsensical materials, somehow trying to mimic vapor. These pieces are explorations in texture, line and form." An artists' lecture will be held Thursday, November 20 at 2:30 p.m. with a reception immediately following. The gallery is located in building 11. For more information call 5409.

PUTTING LANE ON THE GLOBE

Lane is now an official partner of The GLOBE program (globe.gov), an international science education organization based in Boulder, Colorado. Dr. Paul Ruscher joined Lane's Earth and Environmental Sciences team in 2012 and he also coordinates the Watershed Science Technician Program, and has worked with GLOBE for over 15 years. He brought GLOBE to Lane as an educational resource for the environmental science classes. Now, as a GLOBE partner, Lane faculty and students will have even wider exposure to some of the excellent work done by GLOBE and collaborating scientists and students across the world, in Earth, life, and physical sciences. In addition, area teachers and faculty can enhance their own utilization of environmental data and research in their classrooms through educational workshops conducted at Lane. These workshops will begin as soon as December and will be announced soon. Lane becomes the 3rd Oregon partner and is the only community college-based partnership in all of GLOBE.

GLOBE is active in over 110 countries across the world and is supported by NASA, NSF, and the US State Department. Its overarching priorities are "to improve student understanding of environmental and Earth system science across the curriculum; contribute to scientific understanding of Earth as a system; build and sustain a global community of students, teachers, scientists, and citizens; and engage the next generation of scientists and global citizens in activities to benefit the environment." More information about GLOBE partners may be found on the web at <http://www.globe.gov/community/partners/overview> . For further information, please contact Paul at ruscherp@lanecc.edu

ANNUAL HOLIDAY GIVING TREE; TAKE A NAME, RETURN GIFTS BY DEC. 7

The holiday giving tree is sponsored by the Student Life and Leadership Development office and Women's Center, This project provides gifts to the children of Lane students ages 11 and under as well as the opportunity to provide student workers experience in the human services field. We ask that staff members take a name from the tree and provide a gift or two. This program is very successful and provides our hard working students with a little bit of an extra boost during the holidays. Parents are overjoyed when they pick presents up to take home to their little ones. The tree will be up beginning November 10 just outside the Women's Center in building 1 on the second floor. We are asking that all gifts be returned no later than December 7, just prior to finals week. We will accept them wrapped or unwrapped. Tags will specify the need of each child and need to be included with the returned gift. Tags beginning with W will be returned to the Women's Center (building 1, room 202) and tags beginning with MCC will be returned to the Multicultural Center (building 1, room 201). NEWS

IN MEMORY

* Richard Archambault, long-time volunteer supporter of Lane's longhouse and a much loved member of our Lane family, passed away Nov. 18 after long term health issues. He was especially instrumental in securing and processing the beautiful logs and timber used in the construction of the longhouse. He also was the key photographer for Lane's Native American events, and the opening of our Robert Maxwell Student Veteran Center. He was humble, always focused on others, and warmed everyone with his distinctive chuckle and good humor. His contributions are immeasurable. His passion and commitment for getting the job done was always present. Richard also was a veteran. An account in his memory has been set up in the Foundation, the Richard Archambault Student Assistance Fund. We will let you know when memorial plans are finalized. Contact: Donna Koechig.

* John Cooney, long time volunteer at KLCC and producer of the show, "Natural World," passed away Nov. 19 from lung cancer. He was at home surrounded by family. A memorial service is being planned. John was a vital part of KLCC since 1979. The "Natural World" began in 1999 but he also created and was first host of "Straight Street" which remains one of KLCC's top music shows. He also created a long-running weekend program called "This Sunday Morning."

* Barbara Hasbrouck, 85, died peacefully on Nov. 10 with her three daughters present. A celebration of life is planned for January 10, 2015, in Eugene. Barbara worked at Lane from 1970 to 1992 as a much loved and admired administrative assistant for the English Department, now known as Language, Literature and Communication. Contact: Joan Aschim.

DIGITAL DOJO OPEN HOUSE SUCCESS AND CALL FOR VOLUNTEERS

Big thanks to everyone at Lane who helped to make the Digital Dojo Open House at Lane's Downtown Campus a huge success! We hosted over 100 guests from all walks of life – industry, institutions of higher education, public and private schools, K-12 students of all ages, local government – and they all engaged in one or more of the 4 demonstration sessions that were offered after opening remarks. In order to maintain momentum, the Dojo needs volunteers to lead future sessions targeted to middle-high school students. We need interested folks (Lane students/staff or individuals within your network) who want to teach, present, or demonstrate on a computer science/technology-related topic or tool, with a focus on creating and problem-solving... all in a safe and fun learning environment at the Lane Downtown Campus. If you are interested in leading one or more sessions sometime this school year, please contact Shareen Vogel, 3441.

INDOOR TEMPERATURE GUIDELINES

Facilities Management and Planning understands the importance of a comfortable work and study environment and we want to work with everyone to save energy and maintain comfort. With the change of season upon us, this is an appropriate time to remind everyone of the indoor temperature guidelines, adopted in 2006, as part of the energy policy in an effort to

balance a comfortable learning and working environment with energy conservation. We recognize that comfort varies for individuals and have developed indoor temperature guidelines based on scientific studies to create comfortable conditions for the greatest number of students and staff.

- * Warm Weather Month Guidelines: 74 to 77 degrees F

- * Cool Weather Month Guidelines: 68 to 73 degrees F

- * Ancillary Space (Hallways, Lobbies, Stairwells): 63 to 82 degrees F

During transition months, such as October and April, guideline ranges expand to 68 to 77. These expanded ranges also apply during extreme weather conditions and periods of high electric demand. Guidelines are applied during normal business hours. Staff and students are encouraged to layer clothing to maintain personal comfort.

If you feel that temperatures are too high, (higher than 78 degrees F), or too cool, (lower than 68 degrees F), in your area please submit a work request via Megamation. For urgent concerns, you may contact Facilities at 5216 or at facilitiesoffice@lanecc.edu. Contact: Russ Pierson, 5727.

ANNUAL HOLIDAY GIVING TREE; TAKE A NAME, RETURN GIFTS BY DEC. 7

We are asking that all gifts be returned no later than December 7, just prior to finals week. We will accept them wrapped or unwrapped. NEWS AND ANNOUNCEMENTS

EMPLOYEE CAMPAIGN—TURN IN YOUR FORMS BY DEC. 5

It is the last week of the Employee Campaign, be sure to have your forms to the Foundation by Friday, December 5, to have your name in the final raffle. As always, the management team has provided great raffle prizes to support the Employee Campaign. For the final raffle, there will be at least ten great raffle prizes. Prizes includes LCC Titan Columbia fleece jacket, Titan Power Pale Ale, wine, lunch at the Renaissance Room, homemade desserts and gift cards to the Nike Store, Starbucks, Sweet Life.

Thank you for your continued support of the Employee Campaign. Giving to the Employee Campaign is a great way to support programs at LCC, such as the playground fund for the Lane Child and Family Center. The Child and Family Center is in the process of redesigning their playground into a natural playscape. Providing natural play areas help children increase their understanding of the natural world and can increase their long-term connection to the environment. Support Child and Family Center's playscape, please designate your gift to the PLAYGROUND FUND #2014.

From 2010 to 2013, the Employee Campaign has raised over \$314,000 for the Lane Community College Foundation and raised almost \$100,000 for The United Way. During the 2013-14 Employee Campaign 30% employees gave to LCC scholarships, 45% gave to LCC programs, and 26% gave to support the Foundation's area of greatest need. In 2013, 45% of Lane Community College employees participated in the Employee Campaign.

This year our goal is 50% participation for the 50th anniversary of the college. Having 50% employee participation is a goal we can accomplish, it requires everyone who participated in last year's campaign to participate again this year and for each department to add one additional participant.

Our friend Michael O'Neal of Food Services will host a barbeque for the department that has the largest percentage increase in employee participation and largest percentage increase in dollars pledge. The Florence campus won last year's barbeque, who will be this year's winner? At last count Public Safety, Specialized Support Services, Library and Adult Basic and Secondary Education are in the lead for the barbeque. Who wants it?

TAKE THE ENROLLMENT MANAGEMENT AND PLANNING SURVEY, BY DEC. 5

Lane has formed a committee focused on developing strategies for enrollment management and planning at the college. The goal is to align college plans, priorities, and resources to support effective student recruitment, retention, and success both currently and in the future. To better inform the committee's decisions and planning, we are seeking responses from faculty and staff members which can broaden our understanding of LCC's strengths, weaknesses, opportunities, and threats. This process is familiar to many as a "SWOT Analysis." We hope that you will take a few minutes to respond to the short survey (four questions). Please keep in mind that strengths and weaknesses are related to internal aspects of the college; whereas opportunities and threats are aspects of the external environment which impact the college. Take the survey at: <http://nlms.lanec.edu/survey>

After the survey, you will have the opportunity to enter your name into a drawing for prizes including gift certificates and lunch at the Renaissance Room here on campus. Your answers anonymously collected and are not tied to the drawing contact information. Prize entries will be collected until Friday, Dec. 5 at 5 p.m. Thank you for your participation. ANNUAL HOLIDAY GIVING TREE; TAKE A NAME, RETURN GIFTS BY MONDAY, DEC. 8

There are now 10 tags left on the tree.

The holiday giving tree is sponsored by the Student Life and Leadership Development office and Women's Center. This project provides gifts to the children of Lane students ages 11 and under as well as the opportunity to provide student workers experience in the human services field. We ask that staff members take a name from the tree and provide a gift or two. This program is very successful and provides our hard working students with a little bit of an extra boost during the holidays. Parents are overjoyed when they pick presents up to take home to their little ones. The tree will be located just outside the Women's Center in building 1 on the second floor. We are asking that all gifts be returned no later than December 8, for disbursement during finals week. We will accept them wrapped or unwrapped. Tags will specify the need of each child and need to be included with the returned gift. Tags beginning with W will be returned to the Women's Center (building 1, room 202) and tags beginning with MCC will be returned to the Multicultural Center (building 1, room 201). Contact Marci Parker at 5353 or Tina Lymath at 5336 if you have any questions. As always, thank you for your generosity and giving spirit. Contact: Tina Lymath.

HOW TO MAKE COMPUTER POWER MANAGEMENT WORK WITH THE "Turn It Off" CAMPAIGN

Concerned about your work computer being on in the morning even though you are sure you turned it off? Information Technology (IT) and the Institute for Sustainable Practices (ISP) are on the case of the zombie computer! Here is what IT is doing to protect your computer from harm and waste:

* Lane's IT staff already implements power savings for over 2,000 computers by purchasing Energy Star computer and monitors and setting up all end user machines and/or monitors with integrated power saving features.

* IT is working with the ISP to enhance its capacity to turn computers off after important upgrades are done weekly by waking up computers after working hours to minimize disruption to your computer work during the day. Upgrades include scripts that are remotely deployed to protect against malevolent software such as CryptoLocker.

* IT is looking to further reduce waste by deploying better energy management schemes without interfering in your ability to work. It's trickier than it looks!

* The easy part is in your hands. Simply turning off your computer and monitor after working hours reduces our energy costs per computer by \$14 to \$41 annually. For over 2,000 computers that a savings that adds up quickly!

Submitted by Eric Anderson, IT, and Anna E Scott, ISP.

HOUR OF CODE SET FOR MIDDLE AND HIGH SCHOOL STUDENTS DEC. 11 AND 13

Local middle and high school students will again participate in the largest coding event in history as part of the Hour of Code occurring across the country on Dec. 11 and 13. This regional event in its second year will teach computer coding skills as part of Computer Science Education Week. Locally, Lane will host Hour of Code events at its Downtown Campus, Room 104, on Thursday, Dec. 11, 3:30-5:50 p.m. and in Room 220 on Saturday, Dec. 13, 10 a.m.-2 p.m. Lane will provide computers; but participants may also bring their own laptops. Participants must register at: <http://www.meetup.com/Eugene-Region-CoderDojo-Hub>
According to the professional nonprofit organization Computing the Core, while computers are an integral part of society, fewer schools teach computer science than 10 years ago. The good news is that a regional partnership of LCC, 4J, City of Eugene, and the UO are working with the local technology industry to change this. Last year, Hour of Code made history in our region with more than 200 participants, contributing to the 15 million student participants nationally that used computer science in one week. Students should bring a willingness to learn and be ready to code. They can get started at <http://hourofcode.com/us> For more information contact Deron Fort at 5535 or fortd@lanecc.edu

"BUILDING CULTURALLY AGILE LEADERS" WORKSHOPS, JAN. 28

Lane's Cultural Competency Professional Development Committee is pleased to announce "Building Culturally Agile Leaders by Understanding the Nature of Unconscious Bias" with Leslie Traub as the first official offering in Lane's developing cultural competency professional development program. Leslie Traub is a leading expert on unconscious bias and is president and CEO of Cook Ross, Inc.

For your convenience two half-day sessions will be offered, both on Wednesday, January 28. You may attend either the morning session (8:30 a.m.- 12 p.m.) or the afternoon session (1:30-5 p.m.). Both workshops are free and will be held in CML 102, Building 19. Seating will be limited, so register now!

Highlights: Humans are inherently drawn to people similar to themselves but at the same time inherently suspicious of people they see as "different." Bias is the instinctive way of sorting through these two seemingly contradictory reactions. At an unconscious level, it's how humans ensure survival. In higher education, cultural agility is required for successful outcomes in the classroom, in administration, community relations, marketing, branding, and development. This session will provide fascinating, evidentiary information on the nature of bias and cultural agility in an engaging and interactive format.

To register for one of the sessions (morning or afternoon), go online to:

NEWS AND ANNOUNCEMENTS

LANE SBDC RECEIVES RURAL-BUSINESS OUTREACH GRANT

The Lane Small Business Development Center recently obtained a grant from the Small Business Administration. The year-long \$47,000 grant, awarded on October 1, will help businesses in distressed communities start, stabilize, grow and create jobs.

The grant will target early stage and small established firms (one to nine employees) in rural Lane County, providing entrepreneurial training and advising in Cottage Grove, Florence, Junction City, Leaburg, Lowell, Oakridge and Vida. Advisor Megan O'Connor expects to counsel a minimum of 60 clients, with projected performance results including ten new business startups and \$150,000 in capital infusion.

O'Connor, advisor/instructor for Lane SBDC's Start, Run, Grow (SRG) Virtual Incubator program, brings a wealth of knowledge and immense enthusiasm to her efforts. She explains, "With this funding, we will be able to focus efforts in rural communities, where chambers have been asking for assistance."

For informational material visit the Lane SBDC office at Lane's Downtown Campus at 101 West 10th Avenue, Suite 304. For SRG program details, go to LaneSBDC.com, call Lane SBDC at (541) 463.6200 or email LaneSBDC@lanecc.edu

ALL DAY WEB MAINTENANCE, DEC. 19

On December 19, the web services team will have an all day maintenance window. There are several upgrades and maintenance tasks that require, or could cause, down time. So we are taking advantage of the end of term and the fact that most people will be gone.

We will have one long period of down time for all services that rely on the SQL server while we upgrade it's operating system. It should only be a couple hours at most. The rest of the interruptions should only last for a few minutes at a time.

The effected public services are listed on <http://blogs.lanecc.edu/webteam/server-maintenance-schedule/>

Affected internal services:

- * All apps on apps.lanecc.edu
- * Maxient

Also affected is the web services ldap directory. This may cause a short interruption in authentication for any service not configured to fall back on the replica server.

Services that use LDAP Auth:

- * classes.lanecc.edu
- * Maxient
- * Lane Blogs
- * OrgSync
- * Print Shop Pro web app
- * Argos
- * Filehost

Thank you for your patience. Submitted by Ian Coronado for the Lane Web Team.

HOW TO PAY FOR COLLEGE...IN ONE DAY! JAN. 10

Lane will hold its 16th Annual Scholarship Workshops on Saturday, January 10, from 8:30 a.m.-2:30 p.m., in the Center for Meeting and Learning, building 19 lobby. Lane's Scholarship Workshop is held in conjunction with the state's ninth annual College Goal Oregon so that students and parents can, in one day and in one location, complete the federal financial aid application process and access college scholarship resources.

The event draws about 400 parents, high school students, college students, and community members. This year, Lane welcomes title sponsor, Northwest Community Credit Union.

Participants will learn how to find and compete for scholarships and how to write effective applications. Specific information about Office of Student Access and Completion and Lane Foundation scholarships will be provided. Financial aid professionals will help participants

complete the online FAFSA application, so participants should bring their 2013 tax returns and 2014 financial records. A college funding workshop will also be held in Spanish at 12:45 p.m. To pre-register, go online at Lane Community College's Continuing Education page at <http://lanecc.augusoft.net> and just login, go to the search box and type in "How to Pay," and follow the prompts; or call (541) 463-6100. In addition, people can register at the event. Contact: Jackie Bryson.

CELEBRATION OF LIFE FOR RICHARD ARCHAMBAULT, JAN. 18

A celebration of life for Richard Archambault will be held on Sunday, Jan. 18, from 1-4 p.m. in the Longhouse. Richard was a popular and long-time volunteer supporter of Lane's longhouse. He was especially instrumental in securing and processing the beautiful logs and timber used in the construction of the longhouse. He also was the key photographer for the Native American student association longhouse, and the opening of our Robert Maxwell Student Veteran Center. Richard also was a veteran. An account has been set up in his memory in the Foundation, called the Richard Archambault Student Assistance Fund, to assist Native American students in need at Lane. For more information contact Donna Koechig.

ELLEN JONES TO TALK ABOUT VA BENEFITS AT BROWN BAG LUNCH, JAN. 21

Ellen Jones, VA certifying official for Lane's VA Educational Benefits Office, will be the featured presenter for the next Veterans Services Department brown-bag lunch on Wednesday, January 21, from 12-1 p.m., in the Boardroom, Bldg. 3, Rm. 216. This is an opportunity for faculty, staff, administration, and VA service agencies to gain a better understanding of VA rules, regulations, processes, and procedures for students receiving VA educational benefit funding while attending College. We hope you'll be able to attend! Contact: Sharon Hainley, hainleys@lanecc.edu or 5684.

"UNCONSCIOUS BIAS" WORKSHOP, JAN. 28

Lane's Cultural Competency Professional Development Committee is pleased to announce "Building Culturally Agile Leaders by Understanding the Nature of Unconscious Bias" with Leslie Traub as the first official offering in Lane's developing cultural competency professional development program. Leslie Traub is a leading expert on unconscious bias and is president and CEO of Cook Ross, Inc.

For your convenience two half-day sessions will be offered, both on Wednesday, January 28. You may attend either the morning session (8:30 a.m.- 12 p.m.) or the afternoon session (1:30-5 p.m.). Both workshops are free and will be held in CML 102, Building 19. Seating will be limited, so register now!

Highlights: Humans are inherently drawn to people similar to themselves but at the same time inherently suspicious of people they see as "different." Bias is the instinctive way of sorting through these two seemingly contradictory reactions. At an unconscious level, it's how humans ensure survival. In higher education, cultural agility is required for successful outcomes in the classroom, in administration, community relations, marketing, branding, and development. This session will provide fascinating, evidentiary information on the nature of bias and cultural agility in an engaging and interactive format.

To register for one of the sessions (morning or afternoon), go online to:

HOLIDAY GIVING TREE THANK YOU

We would like to extend all the Thank Yous! received from the parents of children on the Giving Tree shared by the Women's and Multicultural Centers. Many parents asked how to get a thank you card to the person who bought their child a present. Your generous gifts brought smiles and tears to the faces of these parents and your participation is appreciated very much by our departments. Have a great holiday break. "A (SORT OF) RETROSPECTIVE: 45 YEARS OF PHOTOGRAPHY" OPENS JANUARY 5

The Lane Community College Art Gallery is proud to present, "a (sort of) retrospective: 45 years of photography" featuring works from the career of photographer Dan Welton. Dan is currently a part-time instructor at Lane, teaching photography in the Media Arts program. Dan's work has spanned many years and interests within in his life.

"I began photographing with a Kodak Brownie while on a trip to Yellowstone Park with my parents as a teenager. My love of the medium lead me to pursue a master's degree from the University of Oregon under the late Bernard Freemesser. I have been a professional photographer and photography instructor at Lane Community College for over 30 years. Hopefully during that time I have been a positive influence on inspiring photographers. These photographs represent work from my graduate school years a the UO, time spent at the Oregon coast, and one of many trips to Italy."

The show runs from January 5 to February 12. There will be a lecture on Thursday, January 22 at 3:00 p.m. with a reception immediately following.

Lane's art galleries are located in building 11. There is no charge for admission. For more information call Art and Applied at 5409.

LEANNE MCCLURG CAMBRIC'S "GENEROUS" OPENS JANUARY 5

The Lane Community College Art Gallery is proud to present, "Generous", a ceramics exhibition featuring work from Chicago based artist Leanne McClurg Cambric. Leanne is a native Oregonian who has spent many years in various places around the country including Louisiana and Minnesota. She is currently a professor at Governors State University in Illinois.

“As an artist, I want to make my human experience sharable. My work represents an extension of my physical being... I draw inspiration from how my full body interacts with other objects...other bodies. The presence of my fingers pinching the work is proof of my body as maker. Every breath, like every fingerprint in clay, is a record of my existence that I want to communicate.

The combination of allegorical images and pattern making that are imbedded into the heavily pinched forms give me a platform to communicate. The vessels I make are the vehicles for appetite. They can deliver satisfaction to the body and at the same time they can be the objects of desire. Through the use of a bowl or a cup I've made we can have a truthful conversation about how, like the ceramic pot, we have all been both fragile and resilient. The functional object allows me subversive access into the most intimate surroundings and engages the viewer on both a visual and tactile level. It is in this arena of the domestic that I find a stage to share my human struggles and longings through my artwork.”

The show runs from January 5 to February 12. There will be a closing reception on February 12 at 3:00 p.m.

Lane's art galleries are located in building 11. There is no charge for admission. For more information call Art and Applied at 5409.

He also was the key photographer for the Native American student association longhouse, and the opening of our Robert Maxwell Student Veteran Center. Richard also was a veteran. An account has been set up in his memory in the Foundation, called the Richard Archambault Student Assistance Fund, to assist Native American students in need at Lane. "UNCONSCIOUS BIAS" WORKSHOP, JAN. 28

Lane's Cultural Competency Professional Development Committee is pleased to announce "Building Culturally Agile Leaders by Understanding the Nature of Unconscious Bias" with Leslie Traub as the first official offering in Lane's developing cultural competency professional development program. Leslie Traub is a leading expert on unconscious bias and is president and CEO of Cook Ross, Inc.

For your convenience two half-day sessions will be offered, both on Wednesday, January 28. You may attend either the morning session (8:30 a.m.- 12 p.m.) or the afternoon session (1:30-5 p.m.). Both workshops are free and will be held in CML 102, Building 19. Seating will be limited, so register now!

Highlights: Humans are inherently drawn to people similar to themselves but at the same time inherently suspicious of people they see as "different." Bias is the instinctive way of sorting through these two seemingly contradictory reactions. At an unconscious level, it's how humans ensure survival. In higher education, cultural agility is required for successful outcomes in the classroom, in administration, community relations, marketing, branding, and development.

This session will provide fascinating, evidentiary information on the nature of bias and cultural agility in an engaging and interactive format.

To register for one of the sessions (morning or afternoon), go online to:
