EVENTS THIS WEEK

"A (SORT OF) RETROSPECTIVE: 45 YEARS OF PHOTOGRAPHY" JAN. 5-FEB. 12

The Lane Community College Art Gallery is proud to present, "a (sort of) retrospective: 45 years of photography" featuring works from the career of photographer Dan Welton. Dan currently teaches photography part-time in the Media Arts program. His work has spanned many years and interests within in his life.

"I began photographing with a Kodak Brownie while on a trip to Yellowstone Park with my parents as a teenager. My love of the medium lead me to pursue a master's degree from the University of Oregon under the late Bernard Freemesser. I have been a professional photographer and photography instructor at Lane Community College for over 30 years. Hopefully during that time I have been a positive influence on inspiring photographers. These photographs represent work from my graduate school years at the UO, time spent at the Oregon coast, and one of many trips to Italy."

The show runs from January 5 to February 12 with a lecture on Thursday, January 22 at 3:00 p.m. with a reception immediately following.

Lane's art galleries are located in building 11. There is no charge for admission. For more information call Art and Applied at 5409.

LEANNE MCCLURG CAMBRIC'S "GENEROUS," JAN. 5-FEB. 12

The Lane Community College Art Gallery is proud to present, "Generous," a ceramics exhibition featuring work from Chicago based artist Leanne McClurg Cambric. Leanne is a native Oregonian who has spent many years in various places around the country including Louisiana and Minnesota. She is currently a professor at Governors State University in Illinois.

"As an artist, I want to make my human experience sharable. My work represents an extension of my physical being... I draw inspiration from how my full body interacts with other objects...other bodies. The presence of my fingers pinching the work is proof of my body as maker. Every breath, like every fingerprint in clay, is a record of my existence that I want to communicate. The combination of allegorical images and pattern making that are imbedded into the heavily pinched forms give me a platform to communicate. The vessels I make are the vehicles for appetite. They can deliver satisfaction to the body and at the same time they can be the objects of desire. Through the use of a bowl or a cup I've made we can have a truthful conversation about how, like the ceramic pot, we have all been both fragile and resilient. The functional object allows me subversive access into the most intimate surroundings and engages the viewer on both a visual and tactile level. It is in this arena of the domestic that I find a stage to share my human struggles and longings through my artwork."

The show runs January 5 to February 12 with a closing reception on February 12 at 3:00 p.m.

Lane's art galleries are located in building 11. There is no charge for admission. For more information call Art and Applied at 5409.

"UNCONSCIOUS BIAS" WORKSHOP, JAN. 28

Lane's Cultural Competency Professional Development Committee is pleased to announce "Building Culturally Agile Leaders by Understanding the Nature of Unconscious Bias" with Leslie Traub as the first official offering in Lane's developing cultural competency professional development program. Leslie Traub is a leading expert on unconscious bias and is president and CEO of Cook Ross, Inc.

For your convenience two half-day sessions will be offered, both on Wednesday, January 28. You may attend either the morning session (8:30 a.m.- 12 p.m.) or the afternoon session (1:30-5 p.m.). Both workshops are free and will be held in CML 102, Building 19. Seating will be limited, so register now!

Highlights: Humans are inherently drawn to people similar to themselves but at the same time inherently suspicious of people they see as "different." Bias is the instinctive way of sorting through these two seemingly contradictory reactions. At an unconscious level, it's how humans ensure survival. In higher education, cultural agility is required for successful outcomes in the classroom, in administration, community relations, marketing, branding, and development. This session will provide fascinating, evidentiary information on the nature of bias and cultural agility in an engaging and interactive format.

To register for one of the sessions (morning or afternoon), go online to:

PRESIDENT'S UPDATE: UGB

The cities of Eugene and Springfield are in the process of updating their urban growth boundaries. Springfield is exploring the possibility of expanding their UGB to cover the Seavy Loop area between LCC and Mt. Pisgah as well as another proposal that would cross Interstate 5 and bring parts of Goshen into Springfield. And at work session in December, Eugene city staff reported their recommendations to the Eugene City Council, which includes extending Eugene's UGB over the hill into the LCC basin area. Both cities' actions have the potential to impact the college. Administration is following this issue closely. The entire process is expected to take about 1.5 years. Excerpted from the president's board report, December 2014.

"UNCONSCIOUS BIAS" WORKSHOP, JAN. 28

Lane's Cultural Competency Professional Development Committee is pleased to announce "Building Culturally Agile Leaders by Understanding the Nature of Unconscious Bias" with Leslie

Traub as the first official offering in Lane's developing cultural competency professional development program. Leslie Traub is a leading expert on unconscious bias and is president and CEO of Cook Ross, Inc. For your convenience two half-day sessions will be offered, both on Wednesday, January 28. You may attend either the morning session (8:30 a.m.- 12 p.m.) or the afternoon session (1:30-5 p.m.). Both workshops are free and will be held in CML 102, Building 19. Seating will be limited, so register now!

Highlights: Humans are inherently drawn to people similar to themselves but at the same time inherently suspicious of people they see as "different." Bias is the instinctive way of sorting through these two seemingly contradictory reactions. At an unconscious level, it's how humans ensure survival. In higher education, cultural agility is required for successful outcomes in the classroom, in administration, community relations, marketing, branding, and development. This session will provide fascinating, evidentiary information on the nature of bias and cultural agility in an engaging and interactive format.

To register for one of the sessions (morning or afternoon), go online to:

For more information, contact Donna Koechig at 5307 or koechigd@lanecc.edu

LEANNE MCCLURG CAMBRIC'S "GENEROUS" OPEN; RECEPTION FEB. 12

The Lane Community College Art Gallery is proud to present, "Generous," a ceramics exhibition featuring work from Chicago based artist Leanne McClurg Cambric. Leanne is a native Oregonian who has spent many years in various places around the country including Louisiana and Minnesota. She is currently a professor at Governors State University in Illinois.

"As an artist, I want to make my human experience sharable. My work represents an extension of my physical being... I draw inspiration from how my full body interacts with other objects...other bodies. The presence of my fingers pinching the work is proof of my body as maker. Every breath, like every fingerprint in clay, is a record of my existence that I want to communicate. The combination of allegorical images and pattern making that are imbedded into the heavily pinched forms give me a platform to communicate. The vessels I make are the vehicles for appetite. They can deliver satisfaction to the body and at the same time they can be the objects of desire. Through the use of a bowl or a cup I've made we can have a truthful conversation about how, like the ceramic pot, we have all been both fragile and resilient. The functional object allows me subversive access into the most intimate surroundings and engages the viewer on both a visual and tactile level. It is in this arena of the domestic that I find a stage to share my human struggles and longings through my artwork."

The show runs January 5 to February 12 with a closing reception on February 12 at 3:00 p.m. Lane's art galleries are located in building 11. There is no charge for admission. For more information call Art and Applied at 5409.

PRESIDENT'S UPDATE: REVERSE TRANSFER PILOT PROGRAM LAUNCHED

Lane is engaged in a pilot project with the University of Oregon as part of the Lumina Project Oregon Reverse Transfer (PORT) grant. The project is to create systems to encourage community college students who have transitioned to Oregon universities with 90 credits or more but have not yet earned a degree at their community college to have their university credits returned to their community college for a degree audit to see if they qualify for an associates degree. The first group of fall term UO students has self-identified to have their UO transcripts sent to Enrollment and Student Financial Services at Lane to perform an auto-awarding review. We are looking at more than 150 transcripts to see if we can award any associate degrees. Research shows that students who complete an associate degree are more likely to also complete a bachelor's degree and have lower financial aid default rates. Excerpted from President Mary Spilde's board report.

OREGON TRANSFER DAYS, JAN. 27

Oregon Transfer Days is a series of statewide workshops held annually at Oregon's 17 community colleges to help students successfully transition to a four-year college or university. Locally, this year's event will be Tuesday, Jan. 27 from 10 a.m. to 1 p.m. at Lane Community College in the Center Building first floor cafeteria area.

Students will have the opportunity to meet with college and university representatives and learn more about each campus's offerings, admissions requirements, choosing courses wisely, navigating college costs and financial aid, and finding tools to make their transition as seamless as possible.

The numbers of community college students transferring has increased significantly, say event organizers, due to numerous factors and new partnerships including co-enrollment and articulation agreements between community colleges and universities; new options such as the Oregon Transfer Module, which enable students to ensure that their credits will apply at a four-year institution; and a greater recognition that having a four-year degree provides additional opportunities in the job market.

"UNCONSCIOUS BIAS" WORKSHOP, JAN. 28

Lane's Cultural Competency Professional Development Committee is pleased to announce "Building Culturally Agile Leaders by Understanding the Nature of Unconscious Bias" with Leslie Traub as the first official offering in Lane's developing cultural competency professional development program. Leslie Traub is a leading expert on unconscious bias and is president and CEO of Cook Ross, Inc. For your convenience two half-day sessions will be offered, both on Wednesday, January 28. You may attend either the morning session (8:30 a.m.- 12 p.m.) or the afternoon session (1:30-5 p.m.). Both workshops are free and will be held in CML 102, Building 19. Seating will be limited, so register now!

Highlights: Humans are inherently drawn to people similar to themselves but at the same time inherently suspicious of people they see as "different." Bias is the instinctive way of sorting through these two seemingly contradictory reactions. At an unconscious level, it's how humans ensure survival. In higher education, cultural agility is required for successful outcomes in the classroom, in administration, community relations, marketing, branding, and development. This session will provide fascinating, evidentiary information on the nature of bias and cultural agility in an engaging and interactive format.

To register for one of the sessions (morning or afternoon), go online to:

KLCC MICROBREW FESTIVAL FEBRUARY 6 & 7

The KLCC Microbrew Festival will be Friday and Saturday, February 6 and 7, at Lane Events Center, 796 W 13th Ave in Eugene. Open Friday 5-11 p.m. and Saturday 1-11 p.m. All proceeds benefit public radio station KLCC 89.7 FM, NPR for Oregonians.

Admission is \$12 in advance, sold at klcc.org, and \$15 at the door. Admission includes 2 beer tastings and a souvenir glass. Additional tastings are \$1 each. Designated Driver tickets are \$10, sold online or at the door, and include a free soft drink. Guests must be 21 and over. The Festival has expanded to 75 breweries and a second room -- lots of elbow room and more flavors to sample! This Festival features specialty and seasonal brews, such as Tripp's Hop Adventure from 21st Amendment of San Francisco, Ultra Gnar Gnar IPA from Base Camp of Portland, Hobbit Smaug Stout from Fish of Olympia, and La Fin du Monde from Unibroue of Quebec. Over 175 microbrews will be on tap for tasting, plus ciders, meads, and gluten-free beers.

A Mega Music Sale is also part of the event -- with thousands of used records & CDs at ridiculously low prices. Two hot bands will keep the party hopping... For the 2015 Collaboration Brew, local brewers are providing festival goers with a Tour of Belgium. Fourteen Oregon brewers each chose a different style of Belgian beer to brew just for this Festival. Guests are encouraged to purchase a "Passport" to sample them all and learn about the styles. Our highly skilled local brewers will be on hand to answer questions. Home brewers can still submit their brews to the KLCC Home Brew Competition. Entries are being collected at Falling Sky Home Fermentation Shop, 30 E 13th Ave in Eugene, through January 30. Winners are announced at the Festival Saturday night.

Beer, fun, friends & music – quality way to spend an evening! Last year's KLCC Microbrew Festival coincided with Eugene's mega ice and snow storm, and only the most hardy individuals were able to make it to the event -- many on skis and sleds! KLCC hopes for a mild drizzly

weekend this year so local beer aficionados can come out and enjoy Eugene's largest and oldest Brewfest.

The Microbrew Festival is KLCC's largest fundraising event of the year. KLCC, NPR for Oregonians, is licensed to Lane Community College, providing NPR News and a variety of music programs to western and central Oregon. All proceeds from this event will support KLCC. LEANNE MCCLURG CAMBRIC'S "GENEROUS" OPEN; RECEPTION FEB. 12

The Lane Community College Art Gallery is proud to present, "Generous," a ceramics exhibition featuring work from Chicago based artist Leanne McClurg Cambric. Leanne is a native Oregonian who has spent many years in various places around the country including Louisiana and Minnesota. She is currently a professor at Governors State University in Illinois.

"As an artist, I want to make my human experience sharable. My work represents an extension of my physical being... I draw inspiration from how my full body interacts with other objects...other bodies. The presence of my fingers pinching the work is proof of my body as maker. Every breath, like every fingerprint in clay, is a record of my existence that I want to communicate. The combination of allegorical images and pattern making that are imbedded into the heavily pinched forms give me a platform to communicate. The vessels I make are the vehicles for appetite. They can deliver satisfaction to the body and at the same time they can be the objects of desire. Through the use of a bowl or a cup I've made we can have a truthful conversation about how, like the ceramic pot, we have all been both fragile and resilient. The functional object allows me subversive access into the most intimate surroundings and engages the viewer on both a visual and tactile level. It is in this arena of the domestic that I find a stage to share my human struggles and longings through my artwork."

SPA PRESENTS "PLAYWRIGHT'S SHOWCASE 2015" FEB. 12-14

Student Productions Association of Lane Community College presents "Playwright's Showcase 2015," a world premiere of five new works for the theatre.

Performance dates are February 12-14 at 7:00 and February 15 at 2:00. All shows will be in the Blue Door Theater, in building 6 on the LCC main campus.

These five short plays were written by current and former LCC students and LCC theatre staff. This production offers LCC theatre students the opportunity to take full control of the production process. All of the plays are written, directed, acted, and designed by students. The plays are a mix of comedy and drama and are appropriate for ages six and up. The running time for the whole event will be approximately ninety minutes.

After each performance, there will be a short discussion of each play in which the feedback from the audience is greatly appreciated. This feedback will help the plays continue to develop. This is a great opportunity to see and understand the process of creating a play. Come see them now before they go on to other venues!

The playwrights are Marla Norton, Penny Scott, Aaron Smart, and Tim O'Donnell. The directors are Philip Hudson, Taylor Freeman, Anna Parks, and Eric Osborne.

Please note that, in an effort to accommodate students traveling on LTD, evening performances start at 7:00.

Please contact Brian Haimbach at haimbachb@lanecc.edu or 541-463-5648 for more information.

Tickets may be purchased at lanecc.edu/tickets or reserved by calling 541-463-5161.

KITTENS TO A GOOD HOME: I have two rescue kittens, about 14 weeks old, a brother and sister. They're friendly and fun, very quiet (hardly meow), they're healthy and are growing well. They've had their first shots and also anti-flea, worm, and ear-mite medicines. They're both kind of tabby, the girl is whitish tabby and the boy is blackish tabby. The male is super curious, smart, and playful, and I think he would be happiest as an indoor/outdoor cat. The girl is smaller and more sedentary, and a real beauty. They're very attached to each other and I'd prefer to find them a home together, but mostly I just want them both where they'll be taken care of. I can send you pictures or give you more information. NEWS AND ANNOUNCEMENTS

LANE CHILD AND FAMILY CENTER ACHIEVES FIVE-STAR RATING

Lane's on campus child care center, Lane Child and Family Center, has achieved a five-star rating in Oregon's Quality Rating and Improvement System (QRIS)—a program to validate and raise the quality and consistency of child care and early learning programs across the state. Child care providers and early learning programs that participate in the QRIS are evaluated on a range of elements that are essential for quality care and preparing children for kindergarten and beyond. Each program then receives a rating of one to five as well as information about how to access free tools and professional advice to make the program even stronger. The Lane Child and Family Center is committed to quality care and learning for all children, says coordinator Sue Norton. "We know the first years of life build the foundation for lifelong

learning and success. That's why we are among the first child care and early learning programs in the state to participate and receive a QRIS rating."

The CFC is particularly proud of its efforts in the learning and development, health and safety, personnel quality, family engagement, business and administration standard areas. "We have one of the lowest staff turnover rates in the field," says Norton. "We are the only National Association for the Education of Young Children accredited child care center in Lane County. Our program excels in all essential standards that support quality early learning for all children." The Lane Child and Family Center offers full or part-time care for the children of community, staff and student families. The CFC serves children 2 ½ to 5 years old. Hours are Mondays through Fridays from 7 a.m. to 5:30 p.m. For more information call 5517 or visit online at <http://www.lanecc.edu/cfe/lcfc>

MEASLES ADVISORY

A case of measles has been reported in Lane County. If you think you have measles, please stay home and call your health care provider from there. If your provider is unavailable, call Lane County Public Health (541) 682-4041 or the Lane Health Clinic at (541) 463-5665 (no e-mails please).

Measles is a highly contagious airborne viral disease that begins with flu-like symptoms that progress into high fever and a body rash. The best prevention is vaccination and if you've already had measles, you can't get measles again.

More information about measles in Lane County and public locations that have been exposed is available on the Lane County Public Health website at

"GENEROUS" EXHIBIT RECEPTION, FEB. 12

The Lane Community College Art Gallery is proud to present, "Generous," a ceramics exhibition featuring work from Chicago based artist Leanne McClurg Cambric. Leanne is a native Oregonian who has spent many years in various places around the country including Louisiana and Minnesota. She is currently a professor at Governors State University in Illinois.

"As an artist, I want to make my human experience sharable. My work represents an extension of my physical being... I draw inspiration from how my full body interacts with other objects...other bodies. The presence of my fingers pinching the work is proof of my body as maker. Every breath, like every fingerprint in clay, is a record of my existence that I want to communicate. The combination of allegorical images and pattern making that are imbedded into the heavily pinched forms give me a platform to communicate. The vessels I make are the vehicles for appetite. They can deliver satisfaction to the body and at the same time they can

be the objects of desire. Through the use of a bowl or a cup I've made we can have a truthful conversation about how, like the ceramic pot, we have all been both fragile and resilient. The functional object allows me subversive access into the most intimate surroundings and engages the viewer on both a visual and tactile level. It is in this arena of the domestic that I find a stage to share my human struggles and longings through my artwork."

The show runs January 5 to February 12 with a closing reception on February 12 at 3:00 p.m. Lane's art galleries are located in Building 11. There is no charge for admission. For more information call Art and Applied at 5409.

SPA PRESENTS "PLAYWRIGHT'S SHOWCASE 2015," FEB. 12-15

This production offers LCC theatre students the opportunity to take full control of the production process. All of the plays are written, directed, acted, and designed by students. The plays are a mix of comedy and drama and are appropriate for ages six and up. The running time for the whole event will be approximately ninety minutes.

After each performance, there will be a short discussion of each play in which the feedback from the audience is greatly appreciated. This feedback will help the plays continue to develop. The playwrights are Marla Norton, Penny Scott, Aaron Smart, and Tim O'Donnell. The directors are Philip Hudson, Taylor Freeman, Anna Parks, and Eric Osborne.

KITTENS TO A GOOD HOME: I have two rescue kittens, about 14 weeks old, a brother and sister. They're friendly and fun, very quiet (hardly meow), they're healthy and are growing well. They've had their first shots and also anti-flea, worm, and ear-mite medicines. They're both kind of tabby, the girl is whitish tabby and the boy is blackish tabby. The male is super curious, smart, and playful, and I think he would be happiest as an indoor/outdoor cat. The girl is smaller and more sedentary, and a real beauty. They're very attached to each other and I'd prefer to find them a home together, but mostly I just want them both where they'll be taken

care of. I can send you pictures or give you more information. Alex, x5050,

GLOBAL CONVERSATION ON OER/DIGITAL MEDIA, FEB. 5

NEWS AND ANNOUNCEMENTS

INTRODUCING THE SCHOOL OF ARTS AND SCIENCES, LANE COMMUNITY COLLEGE

To better recognize the exceptional student learning experiences leading to certificates, degrees, and transfer provided at Lane Community College, effective immediately seven divisions are identified under the umbrella of the School of Arts and Sciences. The divisions that make up the S.A.S. engage about two-thirds of the college's student population and include curricula traditionally associated with the humanities, social sciences, sciences, business studies, and athletics:

Art

Business and Computer Information Technology

Language, Literature, and Communications

Math

Health, Physical Education, and Athletics

Science

Social Science

The name, School of Arts and Sciences, was adopted to:

- Enhance pride and identity for divisions devoted to transfer in an effort to recreate the clarity and recognitions associated with Lane's outstanding career technical education. This naming reinforces the idea that Lane is an excellent first choice college for those interested in a four-year degree.
- Familiarize students with academic nomenclature that is used at four-year institutions.
- Facilitate degree and certificate completion in the divisions devoted to transfer.

Please direct any questions to Maurice Hamington, Executive Dean of the School of Arts and Sciences, hamingtonm@lanecc.edu

RESULTS FOR BUILDING 1 STUDENT SERVICES JANUARY ENERGY SAVINGS

The results are in! Efforts targeting lighting and equipment plug loads with a "Turn It Off" attitude brought the Building 1 Student Services team within a half percent of their goal to reduce energy use below the 2005 baseline year for the month of January. The big surprise? Electrical usage data for January 2014 vs. January 2015 indicates that there is a reduction of 4 percent compared to last year. Let's help the college say goodbye to leave-it-on habits and join Building 1 staff and students as they continue to chase their energy savings baseline by taking small steps at work to save energy and make a big difference.

Take action! Are you plug loads parting all night long? Turn off lights, computers, monitors, printers, and other plug loads when not in use. Submitted by Anna E Scott. 5805.

NEW ONLINE LIBRARY CATALOG

The LCC Library has a new online catalog. In addition to searching for and requesting books from our Library and others, it allows the option of finding books and articles at the same time via a single search box on the Library's website: <http://www.lanecc.edu/library> It can be a little confusing to use, especially at first, so the librarians have prepared this handy guide:

SATOKO MOTOUJI EXHIBIT "PROCESS, CONTINUED" OPENS FEB. 17

The Lane Art Gallery is proud to present "Process, Continued," a solo exhibition by artist Satoko Motouji. Satoko is a full-time instructor at Lane, teaching watercolor, drawing and design. The body of work she is exhibiting follows her latest sabbatical. Along with her work, Satoko will be in the gallery every Monday from 1-3 p.m. practicing her calligraphy. There will be a lecture on Thursday, Feb. 19 at 4 p.m. with a reception at 5 p.m.

In discussing the thought process behind her work, Satoko states, "Constant changes tinged with opposites in life seems parallel to the process of art making. Positive and negative

elements and dark and light moments exist in one's life. In the same way the process of art making presents elation and disappointment. Only by going through different phases and experiencing constant change in the process, can one deepen one's perception. It is a process of self-discovery and centering of oneself."

Satoko has chosen tactile materials such as ink, handmade paper, and merino wool to contemplate the importance of the process of visual expression. Constant physical contact with these materials intensifies her perception. Simple handling of the materials, such as touching the texture of the handmade paper, watching the brush run over the surface of the woven paper and feeling the potent scent of ink in the studio, brings great joy to the action of artistic expression. At the same time, interaction with the materials and continuation of creative activities brings challenges and disappointment. To master the eloquent use of the materials, it takes years of constant, patient effort working with them. Working with ink on Japanese paper, for example, permits no hiding of mistakes. There is no going back once it is done. One has to own both success and failure or high and low moments. When a mistake is made, one has to concede it and continue making new marks. It is a dialogue between the artist and the mediums, and one learns to accept the way the materials work. This surrender to the reality is a part of way of introspection. The show runs through March 12. For more information go online at <http://www.lanecc.edu/newsroom/n/nr1876>

This information will be explained at the seminar in more details. All employees are encouraged to attend. DR FACULTY TIP: ADDRESSING CONCERNS RE. AUDIO RECORDING CLASSES

Questions/concerns often arise about students audio recording class lectures. Students who have this accommodation may record any lecture or lab information that might be included on an exam. DR does have some guidelines in place to address some of the concerns related to audio recording:

- Instructors have the option of establishing reasonable limits re. audio recording lectures in order to protect private information (i.e. it may not be appropriate to record when personal information is being shared by classmates).
- Instructors may ask a student to sign an agreement establishing reasonable limitations to audio recording lectures or establish a time limit for maintaining the recording (i.e. just for the term). An audio recording agreement may be found on our website:

<http://www.lanecc.edu/sites/default/files/disability/audiorecordagreemt.pdf>

If you have any questions, feel free to call and speak with an advisor at 5150.

"Facilitating Interaction in the Cross-Cultural Classroom" -- Friday, March 20

All are welcome to attend this webinar, sponsored by POD, in the Boardroom from 10:00-11:30 a.m. on 3/20/15.

Webinar overview: Educators of international students are frequently challenged with a clashing diversity of cultures in a global classroom. This presentation describes and demonstrates what sorts of themes and images might resonate across nationalities and cultures, which can be used to ease the way for students and educators in international classes. The findings were used to consider instructional applications for more effective learning in international classroom settings, as well as identify hazards posed from misapplication of transcultural tools.

The study findings indicate applied themes and images, including babies/children, animals, relationships, sports, life cycles, and self-image, may help evoke a positive transcultural resonance for a common base of shared experience. The presentation provides practical examples of how transcultural tactics can be applied in real and virtual global settings.

* Group support and accountability, eating smarter and forming helpful habits are all a part of Weight Watchers. If you would like to join, we can start a new session soon. Contact Wendy for more details.

* Lane Sponsored "Healthy Meetings & Events Guidelines" brought to you by the Wellness Advisory Committee is now available at <http://www.lanecc.edu/wellness/healthy-meetings-and-events-guidelines> The goal is to support the health and well-being of Lane employees, students and community partners by promoting healthy foods and beverages, and activity breaks during meetings, conferences and events sponsored by Lane. It doesn't mean we can't have treats/sweets, it just means that if those are offered, we recommend that healthy options are also offered. These guidelines offer suggestions for beverages, meals and snacks, for stretching/activity breaks, and provide ideas for sustainability when planning events.

I hope you will consider these guidelines when planning for your next meeting, conference, workshop or event.

CHICKEN SHARING OPPORTUNITY: Have you wanted chickens but did not know where to begin? Allow us to offer a possible solution: chicken sharing! We have five, friendly and well socialized Buff Orpington hens to share with the right person or family, and who just began laying two weeks ago. Large, stately,

and the color of honey, Buff Orpingtons lay about 175 to 200 medium to large light-brown eggs a year. Introduced from England in the late 1800's, they became wildly popular. Their heavy, full plumage make them excellent winter layers, shelling out brown eggs right through cold weather. Their disposition is friendly and they are well socialized. Our girls will eat out of your hand, follow you around the garden, and enjoy spending time with you. We supply their organic feed, a secure coop; you provide a safe, fenced garden or yard for them, visiting privileges, and we share their eggs - high in Omega-3's and better than anything you will purchase at your favorite local market. If interested in talking about a possible chicken sharing arrangement, contact Roxanne Watson at roxanneawatson@gmail.com or calling 5059. <http://www.backyardchickens.com/a/buff-orpingtons-chicken-breed-information-pictures>

NEWS AND ANNOUNCEMENTS

IT ALERT: GROUPWISE WEB ACCESS

Following an upgrade to GroupWise earlier this year, we discovered a bug in the GroupWise web access client. This bug causes the GroupWise web access client to stop refreshing the display when items are deleted or moved to a folder. As a result of this problem, many users have reported that items cannot be moved or deleted from their mailbox. There is a work-around for this problem, which is to manually update the display by using the "Check for New Messages" button on the GroupWise web access toolbar. Once we discovered the problem, Information Technology contacted Novell, the manufacturer of GroupWise, and have been working with their technical support to diagnose and resolve the issue. We have subsequently applied two patches, that were supplied by Novell, and that were intended to fix the bug, but, unfortunately, neither has corrected the problem. We are continuing to work with Novell in locating a permanent solution, and appreciate your patience as we work toward a resolution.

IT ALERT: COMPUTER VIRUS TIPS

Please be advised that we have recently been experiencing an increase in computer virus infections. These viruses have the capability to permanently destroy files on a computer and potentially any server to which the infected computer has access. This most recent Malware threat is spread primarily through e-mail attachments. However, it can also be downloaded from fraudulent web pages that appear, at first glance, to be legitimate.

Our email traffic is filtered and our computers are protected by anti-virus software to provide protection against dangerous viruses and spam. However, some infected files may occasionally get through to our inboxes or be diverted to Junk folders or quarantines because there is a small amount of time between when new viruses appear and when anti-virus software can protect against them.

Please use caution and keep your guard up for phishing emails and fraudulent websites. Here are a couple of common sense tips that can keep you safe.

- Pay extra close attention to the email messages sent to you. Carefully examine the URL of any embedded links. If it looks incorrect, or if it does not match the service that the email claims, then assume it is a scam and contact the HelpDesk or ATC and to have address verified. Do not click on links in a suspect email.
 - Do not open emails attachments from unknown and untrusted sources. If you must open an attachment from an unknown or untrusted source, scan it for viruses first. If unsure, forward attachments to the HelpDesk or ATC for verification before opening them.
 - Use caution when opening email attachments. Often malware is hidden inside attachments with multiple extensions or archives (files that contain other files).
 - Do not disable or bypass the anti-virus software installed on your computer.
 - Only download files from trusted sites. When on the Internet make sure that the sites you are visiting are reputable. If you have not heard of the site or the file, it is wise not to download it.
- If you suspect that you've received an email containing malware, or if your computer has become infected, immediately contact the IT HelpDesk at 4444.

DISABILITY RESOURCES TIP: ACCOMMODATIONS FOR INTERNSHIPS

Co-op or clinical placement sites are considered to be an extension of the LCC learning environment. Therefore, students with disabilities who have a Letter of Accommodation (LOA) may also need accommodations for off-campus sites. It is highly recommended that students, co-op coordinators/faculty and DR Advisors collaborate on a plan for accommodations in advance of an internship. You may contact DR with any questions or concerns at 5150, or email

EMOTIONAL INTELLIGENCE WORKSHOPS MARCH 12 AND 13

Continuing to build on Lane's "Leading with Emotional Intelligence (EI)" Initiative, leading expert Suzanne Rotondo returns to present three additional professional development opportunities on Thursday and Friday, March 12 and 13. These sessions will assist employees with further implementing the components of Emotional Intelligence into their daily work. Suzanne will provide one basic EI session and two advanced EI sessions. To attend the advanced sessions (Thursday afternoon or Friday morning) you must have previously attended the basic "Leading with Emotional Intelligence Part 1" workshop. If you have not previously attended the basic session, it is being offered on Thursday morning. All sessions are free for Lane employees, however you must register as seating is limited. The workshops:

* Thursday, March 12, 2015, CML 104, Building 19—

"Leading with Emotional Intelligence Part 1" (8:30 a.m.-12 p.m.). This session will give participants a foundation in Emotional Intelligence (EI) in leadership roles. Learn about the core of EI, self-awareness all the way through to effective relationship management. This is the basic session and most appropriate to participants who have not attended previous EI sessions.

"Deep Dive into the 'Inward' Quadrants of Emotional Intelligence: Self-Awareness and Self-Management" (1:30-5 p.m.) This session will include a number of exercises, a trio coaching model within the session, and time for practice, practice, and more practice! In addition to the self-awareness concentration, the self-management focus will be on the self-regulation: managing triggers, focusing on achievement, responding vs. reacting, and igniting a positive emotional spiral in the people around you. This session requires that participants have a basic foundation of EI concepts and skills. Therefore, participants must have previously attended the basic EI session, "Leading with Emotional Intelligence Part 1" to register for this workshop.

To register for the March 12 sessions, visit the following Doodle registration link:

<http://doodle.com/brivry2v7buq7g53> The above sessions are a collaborative event sponsored by EWEB, Lane County, City of Eugene, University of Oregon, City of Springfield, and Lane Community College.

* Friday, March 13, 2015, CML 104, Building 19—

"Leading Change with Emotional Intelligence" (8:30 a.m.-12 p.m.) This session will provide a framework for leading any level of change in a team or organization. Participants will learn about the Cycle of Change and Resistance and how to leverage those forces to improve the implementation of change, all while maintaining their Emotional Intelligence as leaders and employees. This session requires that participants have a basic foundation of EI concepts and skills. Therefore, participants must have previously attended the basic EI session, "Leading with Emotional Intelligence" Part 1 to register for this workshop. For additional information, contact Donna Koechig at 5307 or koechigd@lanecc.edu

FACULTY PROFESSIONAL DEVELOPMENT: FACILITATING INTERACTION IN THE CROSS-CULTURAL CLASSROOM, FRIDAY, MARCH 20

All are welcome to attend this webinar, sponsored by POD, in the Boardroom from 10-11:30 a.m. on March 20. Webinar overview: Educators of international students are frequently challenged with a clashing diversity of cultures in a global classroom. This presentation describes and demonstrates what

sorts of themes and images might resonate across nationalities and cultures, which can be used to ease the way for students and educators in international classes. The findings were used to consider instructional applications for more effective learning in international classroom settings, as well as identify hazards posed from misapplication of transcultural tools. The study findings indicate applied themes and images, including babies/children, animals, relationships, sports, life cycles, and self-image, may help evoke a positive transcultural resonance for a common base of shared experience. The presentation provides practical examples of how transcultural tactics can be applied in real and virtual global settings. Contact: Adrienne Mitchell.

RETIREMENT RECEPTION FOR BEV GREGORY, MARCH 19

It is with the greatest pleasure and some sadness that I invite you to the Center for Meeting and Learning, Room 220 on Thursday, March 19 at 12-noon to help us celebrate Bev Gregory. Drinks and snacks will be provided. Bev started her association with Lane in the late 60s. While the campus was still under construction, Bev was a student in our Culinary Arts program. After graduation she worked a few years in food outside of Lane, but was recruited to the Foodservice department in the early 70s. Since that time, Bev has been bringing you some of our most popular food offerings: Thanksgiving Thursday, Corned Beef and Cabbage and all the different scratch-made soups she has created over the years. To any that know our kitchen well, it is hard to imagine a day starting without Bev leading our troops, but she is leaving us for the best job in the world...being a grandparent to twin granddaughters. We look forward to seeing everyone there and hearing all the stories of our beloved "lunch lady." Submitted by Mike O'Neal.

BUDGET TRAINING, MARCH 19

The Budget Office and College Finance will be holding its monthly training session on Thursday, March 19. We will likely have time on the agenda so if you have something you would like covered in particular, please let me know before Thursday. Looking forward to seeing you there! Contact: Cathy Nolan, nolanc@lanecc.edu or 5604.

FACULTY PROFESSIONAL DEVELOPMENT: FACILITATING INTERACTION IN THE CROSS-CULTURAL CLASSROOM, MARCH 20

All are welcome to attend this webinar, sponsored by POD, in the Boardroom, Building 3, from 10-11:30 a.m. on March 20. Webinar overview: Educators of international students are frequently challenged with a clashing diversity of cultures in a global classroom. This presentation describes and demonstrates what sorts of themes and images might resonate across nationalities and cultures, which can be used to

ease the way for students and educators in international classes. The findings were used to consider instructional applications for more effective learning in international classroom settings, as well as identify hazards posed from misapplication of transcultural tools. The study findings indicate applied themes and images, including babies/children, animals, relationships, sports, life cycles, and self-image, may help evoke a positive transcultural resonance for a common base of shared experience. The presentation provides practical examples of how transcultural tactics can be applied in real and virtual global settings. Contact: Adrienne Mitchell.

DIGGING DEEP FOR ENERGY SAVINGS: BUILDING 1 STUDENT SERVICES RACES TO BREAK THEIR RECORD

One week left in their winter term 'Turn It Off' showcase finds the Building 1 Student Services staff digging deep to mine energy savings by consistently turning off their un-needed lighting and equipment

plug loads. By encouraging people to continue to take small steps at work to save energy their results are making a big difference and posting double digit (about 20%) in electrical energy reductions for weeks 9 and 10 of the 2015 term over the baseline year of 2005. Stay tuned for the 'Turn It Off' Building 1 showcase's wrap up trivia contest and prizes. Way to 'Turn It Off' Lane Community College energy savers! Submitted by Anna E Scott, 5805.

NEWS AND ANNOUNCEMENTS

LANESTARTER UPDATE
Background:

The LaneStarter concept arose out of the Entrepreneurial Conversations held during the 2013-2014 academic year as a way to incentivize and support forward thinking entrepreneurial activities. Each year the College Services Office will award LaneStarter funds to support the incubation of entrepreneurial ideas that support Lane's Mission, Core Values and Strategic Directions. Funding of \$50,000 is available annually, awarded in \$1,000 to \$10,000 increments based upon project plans and requirements. The LaneStarter committee has reviewed eight proposals this year, and has awarded funding to two projects:

* Transition Services for Students with Intellectual and Developmental Disabilities - \$1,267

This program, in collaboration with the 4J School District and Lane ESD, will provide transition services to high school students with intellectual and developmental disabilities. Students will have the opportunity to obtain vocational training and integrated employment, learning side by side with peers and non-disabled students.

* Lane Fitness Center - \$7,500

This initiative will expand community access to and participation in Lane's Fitness Education Center facilities and programs through increased marketing and promotion efforts and expanded hours. This expansion will bring community members to campus and provide additional learning opportunities for Exercise Movement and Science students.

The final submission deadline for the academic year is Friday, May 22. An open drop-in session will be held Thursday, April 16 from 12:30-2 p.m. in Building 2, Room 214 for individuals or groups who would like guidance or feedback on proposal ideas. Submitted by Brian Kelly, College Services.

EMR TEACH-IN BY MEDICAL JOURNALIST KATIE SINGER, APRIL 9

The Lane Peace Center and Beyond Toxics are co-sponsoring an “Electronic Silent Spring” teach-in focused on the health, environmental, and political impacts of electromagnetic radiation (EMR) emitted from cell phones, cell towers, Wi-Fi, and smart meters. The teach-in is on Thursday, April 9 from 10-11:30 a.m. in Building 31, the Longhouse, main campus. This event is part two of an ongoing series of teach-ins on the impacts of electromagnetic radiation on people and the environment.

The event will feature a talk by medical journalist and author Katie Singer titled, “20 Years of Telecom News Rarely Covered by the Media: A Press Release.” Singer raises public awareness of the Telecommunications Act passed by Congress in 1996, of which Section 704 states that neither health nor environmental concerns may interfere with cell tower installations. She reviews the scientific studies investigating the health and environmental effects of exposure to radiation emitted by wireless technologies over the 20 years we have lived with this law, and reports on the findings. A Q&A will follow. Lane offers teach-ins as part of its commitment to providing the community with accessible, quality, learning-centered opportunities. The event is free and open to the public. For further information go to: <http://www.lanecc.edu/peacecenter> Contact: Karin Almquist.

LOST AND FOUND MADE EASY

Does your department handle a lot of lost and found items? Have you had trouble keeping track of it all? The library circulation staff have come up with a simple form for tracking what comes in, what gets returned to the owner, and what gets transferred to Public Safety that lets us see at a glance the who, what, when, and where of it all. We've been using this form for over a year and it's been really helpful. At the suggestion of Public Safety, we'd like to share the form with other departments. If interested, contact Kristin Gustafson.

PLANNING FOR HEALTH CARE EXPENSES IN RETIREMENT: Q & A

Organized by David Hausam, - SELCO Investment & Retirement Services, Tuesday, April, 21, 4-5 p.m. and Wednesday, April 22, 12-1 p.m. Both seminars will be held in Building 17, Room 309. Representatives from SELCO Investment and Retirement Services will speak on health care expenses in retirement. Did you know that health insurance will probably cost you more in retirement than it does today? If retirement is in your near future, now is a good time to plan for retirement health care costs. Your monthly premium for Medicare may be higher than you pay for health insurance at LCC. If you retire before age 65, health care may cost even more. In this Q & A you will learn about: 1) developing a personal health insurance cost plan, 2) Medicare's cost to you, and 3) using supplemental or medi-gap health plans. Learn more about retirement health insurance costs today. Then enjoy your retirement... you'll be glad you did. ELECTROMAGNETIC RADIATION TEACH-IN APRIL 9 & 11

The Lane Peace Center and Beyond Toxics are co-sponsoring a teach-in featuring Katie Singer, author of "An Electronic Silent Spring," which will focus on the health, environmental, and political impacts of electromagnetic radiation (EMR) emitted from cell phones, cell towers, Wi-Fi, and smart meters. The teach-in is on Thursday morning, April 9 from 10-11:30 a.m. in the Longhouse (Building 31), and on Thursday evening, 6:30-8:00 p.m. at Good Samaritan Center (with Paul Cienfuegos).

Singer will also present on Saturday, April 11, 2 - 4 pm, at Tsunami Books in Eugene. Her book, "An Electronic Silent Spring." will be available for purchase following each event.

Singer's talk, "20 Years of Telecom News Rarely Covered by the Media," raises public awareness of the Telecommunications Act passed by Congress in 1996, which states that neither health nor environmental concerns may interfere with cell tower installations. She reviews the scientific studies investigating the health and environmental effects of exposure to radiation emitted by wireless technologies over the 20 years we have lived with this law, and reports on the findings.

The events are free and open to the public. For further information go to:

NEWS AND ANNOUNCEMENTS

IN MEMORY: JACK POWELL

Jack Powell passed away on March 29 at age 78. Jack devoted 33 years to Lane, beginning in 1968 when he taught English. He headed up Financial Aid from 1969 to 1977 and then returned to the English Department as chair until his retirement in 1998. He gained a certain amount of fame as the MC for many graduation ceremonies and in retirement he was active in the Very Little Theater including serving on its board. Outside of Lane, Jack was active in the US Coast Guard. A private family service was held.

CONGRATULATIONS TO JENNIFER HAYWARD AND MIKE SIMS

From VP Brian Kelly: I am pleased to announce the appointment of Jennifer Hayward as the interim Associate Director of Facilities, replacing the position recently vacated by Russ Pierson. She has been with Lane since 1999 and has served as the Sustainability Coordinator since 2004. The work Jennifer has accomplished at Lane has put both Jennifer and the institution in the national spotlight. Jennifer has presented at many regional and national conferences and has assisted countless colleges and universities in their journey toward a sustainable future. Jennifer will bring a wide range of skills to FMP, including project management, communications, her work with indoor environmental quality, and a unique perspective of incorporating sustainability into the work we do everyday. Jennifer currently serves on the Facilities Council, Safety Committee, LaneStarter Review Committee and the Transportation Fee Allocation Review Committee.

I am also pleased to announce the appointment of Mike Sims as the Interim Sustainability Coordinator. For over a decade Mike has lead the work of recycling at Lane. He has been instrumental in the implementation of the new waste management system at Lane, the Recycling Education Center, and BikeLane. Mike lead the college to several top 10 finishes nationally in the Recyclemania competition. Mike is currently a part-time faculty member in the Northwest Water and Energy Education Institute (NWEEI) and has played a major part in transportation initiatives at Lane. Please help me welcome both Jennifer and Mike to their new appointments.

BUILDING 1 STUDENT SERVICES HITS A BULLS-EYE WITH "TURN IT OFF"
ENERGY SAVING SHOWCASE

In one term, Student Services staff lowered their baseline electrical energy use by 9 percent breaking a 10-year record of energy use increases in Building 1. The team saved enough energy during the winter 2015 term over the baseline year of 2005 to power nine average Lane county houses and saved the college over \$950 dollars. How did they do that?

The Institute for Sustainable Practices (ISP) gives a big shout out to staff in the Testing, Student Finance, Enrollment Services, Counseling and Disability Services areas for

bringing their green to work every day. By consistently turning off their un-needed lighting and equipment plug loads Building 1 Student Services staff made a big difference with small steps. The Testing office changed their procedures for turning on and off computers, Student Finance stepped up and turned their area lights off, Enrollment Services and Counseling implemented plug load controls to shut off office equipment when no one was using it, and Disability Services encouraged and educated their staff and students to 'Turn It Off'.

You can help Lane Community College make a difference in the fight against climate change. Participate in the college wide "Turn It Off" campaign which targets lighting and equipment plug loads by encouraging people to take small steps at work to save energy and make a big difference. Take a virtual tour at

<http://www.energystar.gov/buildings/tools-and-resources/bring-your-green-work-interactive-cubicle> to find out more about how Student Services lowered their electrical energy use and hit the bulls-eye on their target. Student and energy savings success starts here! Submitted by Anna E Scott, 5805.

UGLY SWEATER CONTEST WINNER IS RUSS PIERSON

Russ Pierson is the winner of the "Sustainability and Wellness" Health Fair ugly sweater contest! Russ's (beautiful) ugly sweater wins him a fit bit. The ugly sweater contest was a fun way to remind people to dress in layers to help save energy. Now that summer is coming, ditch that sweater and wear an ugly tee-shirt to stay cool as it gets warmer out.

NOTIFICATION: GRADEBOOK IN SPRING MOODLE COURSES

Instructors, we have just been made aware that the gradebook in most spring courses in Moodle is set to "hide." Fortunately, this is a very easy fix:

1. Go to your Administration block - under "Course Administration" click on "Edit Settings".
2. Find the "Appearance" section - you will want to change the settings for "Show gradebook to students" to "Yes".

Note: In this same section you can elect to change your course theme. This is the "Force Theme" setting if you are not already aware you can do this.

3. Scroll to the bottom of the page - click "Save changes".
Your gradebook is now visible to students.
If you need help editing these settings please contact the ATC.

LIBRARY PHASEING OUT REMAINING VHS CASSETTE TAPES

The day has come for the Library to finally phase out our remaining VHS cassette tapes. Most have been replaced by DVDs, but we still have a residual collection that is used by some teachers.

We would like to offer the remaining VHS to any instructor who still uses them in class. If you would like to take ownership, please send me an email with the title of the VHS (bear in mind that some come in large sets). We will withdraw the item from our catalog system and either send you the tapes, or you can come to the Library to collect them.

DISABILITY RESOURCES FACULTY TIP: CHANGES IN APPROACH TO LOA

DR has been reviewing and revising the academic accommodations that we currently list on the Letter of Accommodation (LOA), as instructors continue to use more universal design approaches. Universal design considers the needs of the broadest possible range of students in the learning environment (e.g. students may audio record lectures to ensure they are getting all of the information they need, or instructors may

post their notes on Moodle, which is helpful for all students.) See:
<http://www.lanecc.edu/disability/universal-design> . In many situations, DR advisors will approach an instructor to discuss a student accommodation on a case-by-case basis, vs. noting an accommodation on the LOA when it may only be needed for one particular class rather than for broad, general usage. You may contact DR with any questions or concerns at 5150, or disabilityresources@lanecc.edu

BIKE, WALK OR BUS TO LCC ON EARTH DAY, APRIL 22

The Sustainability Committee at Lane Community College encourages students and staff to walk, ride their bike or take the bus together to the 30th Avenue Campus on Earth Day, Wednesday, April 22.

Those who are interested can choose from two gathering times: 7:00 a.m. or 9:00 a.m. Participants should meet at the Amazon Station Park & Ride on 29th Avenue and Amazon Parkway in Eugene. Walkers and bicyclists are encouraged to wear safety vests or bright colors if they have them. Participants will be treated to light refreshments at the end of the event and will have the option to enter into a raffle.

The Sustainability Committee has chosen to host this event, in its second year, because transportation is responsible for 28 percent of greenhouse gas emissions in the United States according to the EPA (Environmental Protection Agency) and 87 percent of the emissions at Lane according to the American College & University Presidents' Climate Commitment. This event will offer great exercise for participants, a lot of fun and it will promote sustainable transportation to our campus and the larger community.

During this workshop participants have the opportunity to explore many standards of the Quality Matters rubric in depth, and to apply those standards to a demo course.

There is also a limited amount of funding available if you are interesting participating in other Quality Matters online professional development workshops. View the list at <https://www.qualitymatters.org/professional-development/courses>. To register in either the free APPQMR session or in a different workshop, or need more information, please contact Audrey Mills, Academic Technology, millsa@lanecc.edu, x5368.

NEWS AND ANNOUNCEMENTS

IN MEMORY: BERT DOTSON

President Mary Spilde's reported to the Board of Education on April 8 that Bert Dotson passed away on March 29 at age 91. "Bert was a prominent citizen of Lane County," said Spilde. "He helped create Lane Community College as executive secretary of a community college study committee which prepared the ballot measure that would create LCC. He ran the PR campaign that convinced local citizens of the importance and need for a community college. Bert also became Lane's first administrative assistant and served through four administrations from 1964 until his retirement in 1982. Bert worked to create the college's first budget, find classroom space, hire staff and faculty, and select the college's first president, Dale Parnell. A private family service is planned. In lieu of flowers, the family requests that contributions be made in memory of Bert Dotson to the Lane Community College Foundation or the Alzheimer's Association of Eugene." BIKE, WALK OR BUS TO LCC ON EARTH DAY, APRIL 22

The Sustainability Committee at Lane Community College encourages students and staff to walk, ride their bike or take the bus together to the 30th Avenue Campus on Earth Day, Wednesday, April 22. Those who are interested can choose from two gathering times: 7:00 a.m. or 9:00 a.m. Participants should meet at the Amazon Station Park & Ride on 29th Avenue and Amazon Parkway in Eugene. Walkers and bicyclists are encouraged to wear safety vests or bright colors if they have them. Participants will be treated to light refreshments at the end of the event and will have the option to enter into a raffle. The Sustainability Committee has chosen to host this event, in its second year, because transportation is responsible for 28 percent of greenhouse gas emissions in the United States according to the EPA (Environmental Protection Agency) and 87 percent of the emissions at Lane according to the American College & University Presidents' Climate Commitment. This event will offer great exercise for participants, a lot of fun and it will promote sustainable transportation to our campus and the larger community.

WAYS AND MEANS BUDGET COMMITTEE ROAD SHOW, APRIL 23

The Oregon Legislature's Joint Ways and Means committee will be holding a public hearing on Thursday, April 23 from 6:30-8:00 PM. The event is currently scheduled for the Library Meeting Room at Springfield City Hall, but organizers are looking for a location with a larger capacity (check for an update in next week's Weekly). This date is part of a series of public hearings across the state for Oregon residents to advocate which areas of the state budget should be prioritized this session. Those wishing to speak are encouraged to arrive early; if attendance is similar to past hearings, it would be wise to show up 30-60 minutes early. Contact Brett at rowlett@lanecc.edu with questions. Submitted by Brett Rowlett, Gov't and Community Relations, 5850.

URBAN SUSTAINABLE LIVING LECTURE, APRIL 23

Jan Spencer is giving a guest lecture in Greg Butler's Stormwater Best Management Practices class on Thursday, April 23 at 4 p.m. in Building 16, Room 140. Students and faculty interested in permaculture, solar design, rain water harvesting systems, edible landscaping and "home economics" are encouraged to attend.

The presentation will be a show and tell of Jan's 15-year permaculture transformation of a quarter acre suburban property in Eugene's River Road Neighborhood. An interview and video tour of the property made eight years ago and put on you tube was the first entry in the category "suburban permaculture." <https://www.youtube.com/watch?v=mWjCnwbb5yc>

The property is stormwater friendly. Three large rain water tanks adding up to 6,500 gallons, several smaller barrels, garden hose, two water features and underground PVC pipes are all part of the water system used primarily for irrigation. The six-car concrete drive way has been removed, making way for edible landscaping.

The grassy yard has become garden front and back. There is edible landscaping all over. A south facing patio has been closed in to become a passive solar source of heat for the rest of the house. There are water features, green house, chickens, detached passive solar accessory building and other features that all add up to a good example of home economics - taking care of more needs closer to home.

The presentation will also touch on kindred projects in the nearby neighborhood and the 2015 Northwest Permaculture Convergence to be held August 28, 29 and 30 at the River Road Rec Center in Eugene's River Road Neighborhood. For info see: www.northwestpermaculture.org

The ideal for this 15-year project is to reduce the eco footprint, make visible the idea of home economics and show what a suburban property can become. Jan will explain much of what he has done but more important, he will explain the implications learned over 15 years -- transforming, or more appropriately, "repairing" suburbia, has enormous economic and culture changing potential, nationwide. With a bit of luck, in the near future, many people will earn a decent income, repairing suburbia. You can see many before and now images, photo galleries and more on Jan's website at www.suburbanpermaculture.org Submitted by Roger Ebbage, Energy and Water Programs.

The purpose of this workshop is to share ideas on quality content, effective teaching practices, and institutional needs in order to move OER from a great idea to implementation. Faculty, administrators, librarians, and other community college stake holders are invited to attend a lively discussion on setting achievable targets and reaching those milestones in this important effort to support student success.. Please attend if you are new to OER, have found ways to reduce student costs in your course, or already the greatest champion of open resources on your campus - we want to talk with you!

Bring your ideas, teammates, and laptop to discuss your real needs for planning and support in order to redesign courses and programs around high-quality, freely available materials.

Keynote speaker Paul Golisch is a developmental math instructor as well as Dean of Information Technology at Paradise Valley Community College. He is an instructional technology innovator and advocate for open educational resources, co-leading the district-wide Maricopa Millions project that aims to save students \$5 million in 5 years. Paul is currently working with Lumen Learning in Portland while on sabbatical from PVCC.

Please register by April 13 for first consideration.

QUALITY MATTERS ONLINE WORKSHOP OPPORTUNITIES BEGIN MAY 5

Another session of "Applying the Quality Matters Rubric" online workshop will begin Tuesday, May 5. The workshop is free and is being facilitated by Oregon CC faculty. This workshop is designed for instructors who have taught online and has a duration of two weeks. Participants need to block out an average two hours a day over the two week period, or about 16-20 hours total.

This workshop explores the Quality Matters Rubric and provides a framework to improve the quality of online courses. This is the QM foundation workshop for anyone who might be interested in participating on a peer review team in the future, and participants will be able to apply the strategies to their own online course design. During this workshop participants have the opportunity to explore many standards of the Quality Matters rubric in depth, and to apply those standards to a demo course.

There is also a limited amount of funding available if you are interesting participating in other Quality Matters online professional development workshops. View the list at <https://www.qualitymatters.org/professional-development/courses>. To register in either the free APPQMR session or in a different workshop, or need more information, please contact Audrey Mills, Academic Technology, millsa@lanecc.edu, x5368.

URBAN SUSTAINABLE LIVING LECTURE, APRIL 23

Jan Spencer is giving a guest lecture in Greg Butler's Stormwater Best Management Practices class on Thursday, April 23 at 4 p.m. in Building 16, Room 140. Students and faculty interested in permaculture, solar design, rain water harvesting systems, edible landscaping and "home economics" are encouraged to attend. The presentation will be a show and tell of Jan's 15-year permaculture transformation of a quarter acre suburban property in Eugene's River Road Neighborhood. An interview and video tour of the property made eight years ago and put on you tube was the first entry in the category "suburban permaculture."

<https://www.youtube.com/watch?v=mWjCnwbb5yc>

The property is stormwater friendly. Three large rain water tanks adding up to 6,500 gallons, several smaller barrels, garden hose, two water features and underground PVC pipes are all part of the water system used primarily for irrigation. The six-car concrete drive way has been removed, making way for edible landscaping.

The grassy yard has become garden front and back. There is edible landscaping all over. A south facing patio has been closed in to become a passive solar source of heat for the rest of the house. There are water features, green house, chickens, detached passive solar accessory building and other features that all add up to a good example of home economics - taking care of more needs closer to home.

The presentation will also touch on kindred projects in the nearby neighborhood and the 2015 Northwest Permaculture Convergence to be held August 28, 29 and 30 at the River Road Rec Center in Eugene's River Road Neighborhood. For info see: www.northwestpermaculture.org

The ideal for this 15-year project is to reduce the eco footprint, make visible the idea of home economics and show what a suburban property can become. Jan will explain much of what he has done but more important, he will explain the implications learned over 15 years -- transforming, or more appropriately, "repairing" suburbia, has enormous economic and culture changing potential, nationwide. With a bit of luck, in the near future, many people will earn a decent income, repairing suburbia. You can see many before and now images, photo galleries and more on Jan's website at www.suburbanpermaculture.org Submitted by Roger Ebbage, Energy and Water Programs.

NEWS AND ANNOUNCEMENTS

LANE AWARDED \$182,900 READY TO WORK GRANT FROM WALMART FOUNDATION

Walmart Foundation funding of Lane's Ready to Work grant will allow for staff from the new Lane Career Center to help low and middle skilled Lane County residents become more employable. The ultimate goal of this grant is for participants to find employment. The grant targets populations with multiple barriers to employment, such as veterans, dislocated workers, people 50 years and older, and ex-offenders. In Ready to Work, a student may be able to take ABE or GED prep courses, a basic computer skill course; learn customer service and communication skills, career development, and job search preparation, as well as prepare and test for the National Career Readiness Certificate. Contact: Kathy Thomas, 5853.

DEFAULT RATE IMPROVED

From President Mary Spilde's report to the board at its last meeting: "I am very pleased to report that we have received notice from the Education Department that our Loan Servicing Appeal for FY2011 was reviewed and our default rate was revised down to 27.4 percent. What this means is that we are in good standing. Our staff submitted 42 accounts for review, and the ED admitted that 37 of those lacked evidence for default. So our three-year rates for 2009, 2010 and 2011 respectively, are 19.5 percent, 30.6 percent, and 27.4 percent. Kudos to Kerry Levett, Helen Faith, and to all the staff in Financial Aid for their exhaustive work and commitment in setting the record straight, with special thanks to Luna Lacey who did most of the legwork for the loan servicing appeal."

AMY BURBEE HONORED

At the 11th Annual United Way of Lane County Volunteer of the Year Award Luncheon held on April 16, Amy Burbee was named Education and Schools Volunteer of the Year for her work with the Pleasant Hills High School Booster Club and the local community. TORNADO THANKS AND UPDATE

The college Emergency Planning Team wants to thank everyone who helped respond to the rare tornado on main campus last week and who provided feedback on communications. Special thanks to Public Safety, Facilities, Counseling, Public Information, and C-CERT for a quick response, and to the others who stepped forward to help.

Here are some take-aways that will help us continue to improve emergency preparedness and response at Lane.

* Our mass notification system (public address) was used to broadcast an emergency shelter-in-place message. It worked well in some buildings but included only flashing lights and no voice message in others. Facilities met with the equipment vendor immediately to assess this. A hardware disconnect, such as a switch or relay, was tracked to a communications port and the vendor is further researching this issue. Public address equipment in most buildings appeared to work, but rigorous testing will continue until we are satisfied with the system.

* LaneAlert was not used because the event was highly localized and was over quickly. However, in future events we will try to issue a LaneAlert for localized events to inform the broader campus community when there is likely to be interest, and to supplement the mass notification system until we are satisfied with its performance.

You're part of the team. Learn about emergency preparedness and keep letting us know when things work or don't work so we can continue to improve.

COMPUTER POWER MANAGEMENT TRIAL INFORMATION FOR BUILDING 1 STUDENT SERVICES, APRIL 15 TO MAY 15

Information Technology (IT) and the Institute for Sustainable Practices (ISP) are on the case of the zombie computer! Concerns about work computers being on in the morning even though staff turned them off in the evening were raised during the Building 1 Student Services Winter Term 'Turn It Off' energy saving showcase. Following this lead, IT is looking to further reduce waste by deploying a four-week trial in Building 1 Student Services of a more robust energy management software during spring term. We are performing a trial for 125 computers in one building in order to determine if this energy management software is a solution for over 2,000 of Lane's computers, without interfering in your ability to work. It's trickier than it looks! If you are in Building 1 and have questions about the energy saving computer software during the trial period from April 15 to May 15 contact Anna Scott at 5805 or scottae@lanecc.edu

Not a part of the Building 1 trial and concerned about your work computer being on in the morning? The easy part is in your hands. Simply turning off your computer and monitor after working hours reduces our energy costs per computer by \$14 to \$41 annually. For over 2,000 computers that a savings that adds up quickly! Submitted by Anna E Scott, 5805.

WE'RE MAKING HISTORY EVERY DAY

Last week's tornado may have felt like a remarkable historical event on campus but we're making history every day here at Lane Community College. Lane's historical archives collects material to help tell our story to future generations, not just the big breaking news stories but the little everyday stories too. Examples of the kinds of material we collect are publications, posters, photographs, oral history recordings, personal papers, committee records, and memorabilia. If you have material that you would like to have included in our historical archives, check out our website at <http://www.lanecc.edu/archives> or contact Kristin Gustafson at archives@lanecc.edu for more information.

CHAMBER CHOIR STUDENTS ROCK

In March, the Lane Chamber Choir toured to four high schools in our region and sang for hundreds of prospective Lane students. Touring is a vital part of our choir season and serves a significant role in community outreach, recruitment, and engagement for our students. Most importantly, the experience reaffirmed for all the powerful sense of community that happens when we come together to share of ourselves in the service of music.

Several of the students commented on the experience. Here are a few quotes:

"The Chamber Choir tour was an incredible growing experience; not only personally, but relationally. You only get to know people so well within a classroom dynamic, but leaving the campus and spending a day singing and traveling together allows you to discover how many wonderful people are in the choir. The tour has definitely been my favorite part of each year singing at Lane." -- Matt Reeves, Baritone

"Singing in the Chamber Choir at Lane has been an incredible experience. Matt's passion drives our own and helps create the amazing atmosphere that we are so fortunate to sing in. We have been blessed with the opportunity to share our music with high school students around the state, and I hope that our passion and love for music is an inspiration to them." --

Karissa Sinclair, Soprano

"Being a part of an ensemble is like being a part of a family where everyone has their individual roles but we function as a unit. Opportunities that foster togetherness are extremely valuable when building a community like ours. I love my choir family and I'm blessed to be able to create something so beautiful with them!" -- Sarah Griffin, Soprano

The choir is now preparing Requiem by the French master, Gabriel Fauré and is looking forward to performances in Eugene and Florence later this spring. For more information contact Matthew Svoboda, Director of Choral Activities.

DISABILITY HAS ALWAYS BEEN, AND WILL LIKELY ALWAYS BE, A PART OF THE HUMAN CONDITION

The Disability History Exhibit will be on display at Lane Community College from Monday, May 4 through Wednesday, May 6. The exhibit explores the perception of disability through history beginning with the early Greeks and Romans, the Renaissance, eugenics in Nazi Germany (and the United States) through the Jerry Lewis Muscular Dystrophy telethons, the Deaf President Now movement at Gallaudet University, and the role each has played in the fight for civil rights. The exhibit looks at changing societal, moral viewpoints, involvement by persons with disabilities, and the responses to disability while considering the medical and social viewpoints, the impact of religion, stereotypes and connections to different times in history (plagues, famines, etc.). The exhibit reflects upon people with developmental and intellectual disabilities, mental illness, physical deformities, institutionalization, sensory loss, and wartime injuries such as amputation.

Please take a bit of time out of your day to explore the exhibit in the gallery in Building 10. The Center for Accessible Resources (formerly known as Disability Resources) will host a reception with refreshments from 11 a.m.-1 p.m. on Monday, May 4. Submitted by Cathie Reschke.

TRAININGS

PLANNING FOR HEALTH CARE EXPENSES IN RETIREMENT: APRIL 21 AND 22

Organized by David Hausam, - SELCO Investment & Retirement Services

Tuesday, April, 21, 4-5 pm and Wednesday, April 22, 12-1 pm. Both seminars will be held in Bldg. 17, Room 309, representatives from SELCO Investment & Retirement Services, will speak on health care expenses in retirement.

Did you know that health insurance will probably cost you more in retirement than it does today?

If retirement is in your near future, now is a good time to plan for retirement health care costs. Your monthly premium for Medicare may be higher than you pay for health insurance at LCC. If

you retire before age 65, health care may cost even more. In this Q & A you will learn about: 1) developing a personal health insurance cost plan, 2) Medicare's cost to you, and 3) using supplemental or medi-gap health plans.

Presenters: David Hausam, Ted Rubin & Nick Manley, SELCO Investment & Retirement Services
Contact: David Hausam at 541.684.6219, dhausam@selco.org

*Non-deposit investment products and services are offered through CUSO Financial Services, L.P. ("CFS"), a registered broker-dealer (Member FINRA/SIPC) and SEC Registered Investment Advisor. Products offered through CFS: are not NCUA/NCUSIF or otherwise federally insured, are not guarantees of obligations of the credit union, and may involve investment risk including possible loss of principal. Investment Representatives are registered through CFS. SELCO Community Credit Union has contracted with CFS to make non-deposit investment products and services available to credit union members.

BE A CHAMPION! USE OPEN RESOURCES TO REDUCE STUDENT COSTS, APRIL 24

Register here: <http://goo.gl/5z0jzi>

Friday, April 24, 9:00 a.m.

Open Educational Resources - materials that are freely available on the web or in the library - benefit students immediately through cost savings and can be a great vehicle for faculty looking for new ways to refocus their teaching. The purpose of this workshop is to share ideas on quality content, effective teaching practices, and institutional needs in order to move OER from a great idea to implementation. Faculty, administrators, librarians, and other community college stake holders are invited to attend a lively discussion on setting achievable targets and reaching those milestones in this important effort to support student success.. Please attend if you are new to OER, have found ways to reduce student costs in your course, or already the greatest champion of open resources on your campus - we want to talk with you!

Bring your ideas, teammates, and laptop to discuss your real needs for planning and support in order to redesign courses and programs around high-quality, freely available materials.

Keynote speaker Paul Golisch is a developmental math instructor as well as Dean of Information Technology at Paradise Valley Community College. He is an instructional technology innovator and advocate for open educational resources, co-leading the district-wide Maricopa Millions project that aims to save students \$5 million in 5 years. QUALITY MATTERS ONLINE WORKSHOP OPPORTUNITIES BEGIN MAY 5

Another session of "Applying the Quality Matters Rubric" online workshop will begin Tuesday, May 5. The workshop is free and is being facilitated by Oregon CC faculty. This workshop is designed for instructors who have taught online and has a duration of two weeks. Participants

This is the QM foundation workshop for anyone who might be interested in participating on a peer review team in the future, and participants will be able to apply the strategies to their own online course design. During this workshop participants have the opportunity to explore many standards of the Quality Matters rubric in depth, and to apply those standards to a demo course.

There is also a limited amount of funding available if you are interesting participating in other Quality Matters online professional development workshops. View the list at <https://www.qualitymatters.org/professional-development/courses>. LANE FEATURED IN AASHE HIGHER ED REVIEW

Lane Community College is featured in an annual review by the AASHE (Association for the Advancement of Sustainability in Higher Education). AASHE describes the review as "a big picture look at trends" that "highlights campus sustainability success stories and implementation tips from colleges and universities in Canada, Denmark, Singapore and the United States." The report mentions 11 colleges and universities including Lane.

Lane was noted for its success with its green revolving fund to achieve sustainability goals and formalize a process to identify energy efficiency projects. "The fund averages a 22.9 percent return on investment and has achieved a total of \$113,087 in savings to date. At the time of the fund's creation, few institutions of higher education were tracking and adapting energy use on campus, and Lane was the only community college," according to the report. TIPS FOR GIFT DEPOSITS TO THE LCC FOUNDATION

Please encourage donors to send their donations directly to the Foundation. We recognize this is not always possible, and sometimes a department or staff member may collect donations directly. Below are some important tips to help ensure the safeguarding of donations when you or your department receive them directly from a donor:

- 1) Never send checks, credit card information, or cash through campus mail.
- 2) Never drop cash donations/deposits in the foundation drop box.
- 3) Don't just hand the checks/cash to someone else in your office without documenting that hand off. Remember, if there is no documentation, then you are still responsible for the money you accepted.
- 4) Whenever possible, deliver gift deposits in person to the Foundation and make contact with a Foundation staff member. These gift deposits should be made as soon as possible, preferably within 24 hours of receiving the donor's personal check, credit card information or cash. When this is not possible, donations/deposits should be kept in a locked location or a safe within your office.
- 5) All gift deposits/deliveries of checks, credit card information, or cash must be accompanied by an Foundation Gift Transmittal. The Foundation staff member accepting your deposit will go over the deposit with you so that you mutually agree on the deposit amount, and then the Foundation staff member will sign the LCC Foundation Gift Transmittal and give you a copy. You can find the LCC Foundation Gift Transmittal at:
https://www.lanec.edu/sites/default/files/foundation/lcc_foundation_gift_transmittal.pdf
- 6) Only after you receive a copy of LCC Foundation Gift Transmittal that has been signed off by a Foundation staff member, will your responsibility for the safeguarding of the donation cease. If you have questions or concerns, please contact the Foundation Director at (541) 463-5804.

DISABILITY RESOURCES TIP: FIELD TRIPS

Have you wondered how to manage field trips where disabilities (mobility, vision, hearing, etc.) may impact student participation? We know that many instructors plan their field work/trips to be as accessible as possible, which includes access to buildings, walkways, and arranging for accessible vans where needed. In some cases, field work activities may not be accessible by their very nature (e.g. coastal tide pools). In these situations, DR recommends utilizing alternate activities/exercises that have the same or similar learning objectives. Ideas:

Disability Resources advisors would be happy to confer with you about potential accommodations. You may contact DR at ext. 5150, or disabilityresources@lanecc.edu

DISABILITY HISTORY EXHIBIT OPENS MAY 4

The Disability History Exhibit will be on display at Lane Community College from Monday, May 4 through Wednesday, May 6. The exhibit explores the perception of disability through history beginning with the early Greeks and Romans, the Renaissance, eugenics in Nazi Germany (and the United States) through the Jerry Lewis Muscular Dystrophy telethons, the Deaf President Now movement at Gallaudet University, and the role each has played in the fight for civil rights. The exhibit looks at changing societal, moral viewpoints, involvement by persons with disabilities, and the responses to disability while considering the medical and social viewpoints, the impact of religion, stereotypes and connections to different times in history (plagues, famines, etc.). The exhibit reflects upon people with developmental and intellectual disabilities, mental illness, physical deformities, institutionalization, sensory loss, and wartime injuries such as amputation.

Please take a bit of time out of your day to explore the exhibit in the gallery in Building 10. The Center for Accessible Resources (formerly known as Disability Resources) will host a reception with refreshments from 11 a.m.-1 p.m. on Monday, May 4. Submitted by Cathie Reschke.

"FEARLESSNESS AND COMPASSION" WITH DR. GESHE THUPTEN JINPA, MAY 10

<http://www.lanecc.edu/newsroom/n/nr1899>

The Lane Community College Peace Center and the Palmo Center for Peace and Education are honored to announce that Geshe Thupten Jinpa, Ph.D., highly acclaimed thought leader and the longtime English translator for the Dalai Lama, will present "Fearlessness and Compassion: Cultivating the Courage to Transform Our Lives and Our World," on Sunday, May 10, from 3:30-5:30 p.m., in the Ragazzino Hall, Building 6, main campus.

Two years ago, on May 10, 2013, the Palmo Center for Peace and Education along with the University of Oregon hosted international luminary, His Holiness the Dalai Lama, at Mathew Knight arena. The Dalai Lama spoke on "The Path to Peace and Happiness in the Global Society." Geshe Thupten Jinpa is now returning to Eugene to further our understanding of how powerful compassion can be. "FIGURES AND FORMS" FEATURES ANNA STEHLE AND DOUGLAS WILTSHIRE; LECUTRE MAY 13

<http://www.lanecc.edu/newsroom/n/nr1901>

The Lane Community College Art Gallery is proud to present "Figures and Forms," a two-person exhibition featuring Anna Stehle and Douglas Wiltshire. They are Lane's current studio technician. Douglas works in the sculpture studio and Anna works in the ceramics studio. The exhibition includes both sculpture and ceramics.

When asked to reflect on his current work, Douglas stated, "The human form has always fascinated me and how it relates to the perception of the self verses how we perceive man-

made objects in nature. They are two different things yet the question of why we value things more than our own fragile existences eludes me. People can always make more stuff, but we cannot recreate our own individual selves."

Focusing specifically on her ceramic endeavors, Anna discusses her work as creating "a simple clean design with the surface but fire it in a soda kiln that predicts the final results. The black line is dictated by shape of the pot and the surface is determined by the placement of the work in the kiln and the path the flame travels carrying soda ash over the surface of the form during the firing. The slim black line on the pots surface was inspired from the ornate wrought iron fences and giant iron ship cargo cranes I walked past and could see from my bedroom window every day growing up. Something I didn't realize I was missing until a recent visit to Brooklyn and seeing them again as an adult. I didn't have to go far to have access to it but yet it is something that I did not take notice of in passing every day. I use the Korean Mishima technique to interpret the bent iron to the surface of my pots."

The show runs through May 20. There will be an artists' talk on Wednesday, May 13 at 4:30 pm with a reception immediately following. The gallery is located in building 11 on the main campus, 4000 E. 30th Avenue. There is no charge for admission. The Art and Applied Design Department phone number is 541-463-5409.

"LOCUS," EXHIBIT BY LAURA AHOLA-YOUNG, OPEN; RECEPTION IS MAY 20

<http://www.lanecc.edu/newsroom/n/nr1902>

The Lane Community College Art Gallery is proud to present LOCUS, a painting exhibition featuring works from Idaho-based artist Laura Ahola-Young. Laura is originally from the Midwest, spent time teaching at Lane, and is now an Assistant Professor of Art at Idaho State University. She says:

"When Painting, I am actively creating while simultaneously destroying. I thoroughly develop meanings and imagery in paintings and then cover and rework with glazes, scraping and mark making. What remains the same throughout the painting process is the structure they are forced upon. The structure is both paper and an open narrative. I leave evidence of my search for a completed work – enough of layer that I begin to believe in a structure's identity and memory. They have a history, casualties and moments of clarity.

Metaphors and images cease to exist to allow the possibility of change and new discoveries. It is this - what is possible and what must be destroyed- that has led me to research visually and intellectually this phenomenon in the natural world. Cells and stars, the miniscule to vast, must experience destruction for life to exist, as we know it.

My work reflects my desire for absolutes and claims none. For me, knowledge is always asking additional questions. I have named this collection of paintings Prodrumes in relation to an internal, structural and organizational system of signage and warnings. Through paint, I am attempting to capture these instances of signs as symptoms: fleeting, a speck, a circumstance, and a neural, biological, philosophical, sensory occasion."

The show runs from through May 20. There will be a closing lecture and reception on Wednesday, May 20 at 3 p.m. in the Gallery, Building 11. There is no charge for admission. For more information contact Art and Applied Design Department at 5409.

NEWS AND ANNOUNCEMENTS

FA DIRECTOR HELEN FAITH BREAKS IMPASSE IN NEGOTIATION; STUDENTS WILL BENEFIT

Last Thursday in Washington D.C., Lane Financial Aid Director helped a federal rule-making panel reach an 11th hour consensus on a proposal that will benefit student loan borrowers nationwide. The new plan will allow borrowers to lower their monthly payments and qualify for loan forgiveness sooner, regardless of when they took out their loans.

Faith, a member of the National Association of Student Financial Aid Administrators, was nominated by the association to serve as a negotiator representing two-year institutions on the negotiated rulemaking committee.

As reported in a NASFAA newsletter, "The consensus hinged on a compromise proposal offered by NASFAA member Helen Faith." The Department of Education wanted to tier loan forgiveness between 20 and 25 years, based on the amount of debt owed, but nonfederal negotiators wanted alternatives that including tying loan forgiveness to the total amount borrowed, rather than owed. "A compromise presented by Faith proved to appease all parties: borrowers with only undergraduate debt will be granted forgiveness after 20 years. Borrowers with any graduate debt, whether on its own or in combination with undergraduate debt, will pay down their loans for 25 years before forgiveness. The solution will be both a money saver for the federal government and a move toward greater simplicity for students and financial aid administrators, negotiators agreed."

The proposal is part of a package of regulatory changes developed to address President Obama's directive to the Education Department to expand income-based repayment option for some 5 million existing borrowers across the country.

The new regulatory language will be published in the Federal Register for public comment. The new rules which would take effect in December 2015.

“FIGURES AND FORMS” FEATURES ANNA STEHLE AND DOUGLAS WILTSHIRE; LECUTRE MAY 13
<http://www.lanecc.edu/newsroom/n/nr1901>

The Lane Community College Art Gallery is proud to present “Figures and Forms,” a two-person exhibition featuring Anna Stehle and Douglas Wiltshire. They are Lane's current studio

technician. Douglas works in the sculpture studio and Anna works in the ceramics studio. The exhibition includes both sculpture and ceramics.

When asked to reflect on his current work, Douglas stated, "The human form has always fascinated me and how it relates to the perception of the self verses how we perceive man-made objects in nature. They are two different things yet the question of why we value things more than our own fragile existences eludes me. People can always make more stuff, but we cannot recreate our own individual selves."

Focusing specifically on her ceramic endeavors, Anna discusses her work as creating "a simple clean design with the surface but fire it in a soda kiln that predicts the final results. The black line is dictated by shape of the pot and the surface is determine by the placement of the work in the kiln and the path the flame travels carrying soda ash over the surface of the form during the firing. The slim black line on the pots surface was inspired from the ornate wrought iron fences and giant iron ship cargo cranes I walked past and could see from my bedroom window every day growing up. Something I didn't realized I was missing until a recent visit to Brooklyn and seeing them again as an adult. I didn't have to go far to have access to it but yet it is something that I did not take notice of in passing every day. I use the Korean Mishima technique to interpret the bent iron to the surface of my pots."

The show runs through May 20. There will be an artists' talk on Wednesday, May 13 at 4:30 pm with a reception immediately following. The gallery is located in building 11 on the main campus, 4000 E. 30th Avenue. There is no charge for admission. The Art and Applied Design Department phone number is 541-463-5409.

“LOCUS,” EXHIBIT BY LAURA AHOLA-YOUNG, OPEN; RECEPTION IS MAY 20

<http://www.lanecc.edu/newsroom/n/nr1902>

The Lane Community College Art Gallery is proud to present LOCUS, a painting exhibition featuring works from Idaho-based artist Laura Ahola-Young. Laura is originally from the Midwest, spent time teaching at Lane, and is now an Assistant Professor of Art at Idaho State University. She says:

"When Painting, I am actively creating while simultaneously destroying. I thoroughly develop meanings and imagery in paintings and then cover and rework with glazes, scraping and mark

making. What remains the same throughout the painting process is the structure they are forced upon. The structure is both paper and an open narrative. I leave evidence of my search for a completed work – enough of layer that I begin to believe in a structure's identity and memory. They have a history, casualties and moments of clarity.

Metaphors and images cease to exist to allow the possibility of change and new discoveries. It is this - what is possible and what must be destroyed- that has led me to research visually and intellectually this phenomenon in the natural world. Cells and stars, the miniscule to vast, must experience destruction for life to exist, as we know it.

My work reflects my desire for absolutes and claims none. For me, knowledge is always asking additional questions. I have named this collection of paintings Prodrômes in relation to an internal, structural and organizational system of signage and warnings. Through paint, I am attempting to capture these instances of signs as symptoms: fleeting, a speck, a circumstance, and a neural, biological, philosophical, sensory occasion."

The show runs from through May 20. There will be a closing lecture and reception on Wednesday, May 20 at 3 p.m. in the Gallery, Building 11. There is no charge for admission. For more information contact Art and Applied Design Department at 5409.

SPA PRESENTS BROADWAY'S BILL BOWERS IN "BEYOND WORDS" MAY 30 IN THE RAGOZZINO PERFORMANCE HALL, MAY 30

Student Production Association of Lane Community College presents the one-man show "Beyond Words" featuring Broadway actor Bill Bowers on Saturday May 30 at 7:00 pm. Mr. Bowers will also be teaching a "movement for the actor" workshop on Wednesday May 27 from 7:00-9:00 pm. The workshop is free and open to the public!

One the most acclaimed multi-disciplinary artists in America today, Bill Bowers employs an eloquent mixture of music, monologues, and mime in his on-going investigation of the silence surrounding the enigmatic matters of gender in our culture today. Often compared to Chaplin and Keaton, he has performed throughout the U.S., Europe, and Asia.

For "Beyond Words," Bowers draws his characters from life and moves beyond mere anecdotes to create a vibrant and visual poetry. With both audacity and compassion, he explores how culture informs gender, what it means to be a male, and the messages we receive on our way to becoming men. "Beyond Words" is an evening of honestly earned laughter linked to surprisingly powerful emotions; words, movement, and mime are yoked to remarkably striking effect. He can call himself a mime, but, in truth, Bill Bowers is in a category all by himself.

The New York Times has called "Beyond Words," "Fascinating. Affecting. Engaging to the eye and ear." The Dallas Arts Examiner says, "'Beyond Words' is one of the most poignant, fresh, absorbing, empathic, hilarious, and ingenious pieces I've ever seen. Bowers transforms the stage into a realm of revelation and transfiguring." The New York Post says: "He presents a portrait of small-town America filtered through his own experiences that's both moving and funny. Bowers effortlessly brings us to laughter and tears, often at the same time."

More information about the show and Mr. Bowers can be found at www.Bill-Bowers.com

Mr. Bowers will be in residence at Lane all week. He will be teaching in the acting classes and hosting a Question and Answer session Thursday May 28 from 4:00-5:00 in the Blue Door theatre. And on Wednesday, May 27 he will be teaching a "movement for the actor" workshop from 7:00-9:00 pm. The public is invited to attend the Q and A and participate in the movement workshop. To reserve a space for the workshop contact Brian Haimbach at the phone or e-mail below.

Tickets for "Beyond Words" are \$10.00 for students and seniors and \$20.00 for general admission. High School students may always attend SPA presentations for free. Tickets may be purchased at lanecc.edu/tickets or reserved by calling 541-463-5648.

Please contact Brian Haimbach at haimbachb@lanecc.edu or 541-463-5648 for more information.

CENTER FOR ACCESSIBLE RESOURCES TIP: CHAIR ACCOMMODATIONS

The Center for Accessible Resources (formerly Disability Resources) works closely with Facilities to make sure that students who have an alternate chair accommodation have adequate seating. (Chairs are marked at the base with gold paint.) Alternate chair accommodations need to be requested and facilitated through the Center for Accessible Resources and listed on the student's Letter of Accommodation (LOA). Note: there may be multiple chairs in a classroom as the number of students with an alternate accommodation may vary by class section. If you have a chair with gold paint in your office, please return them to the classroom. If there are any issues surrounding alternate chairs in your classroom or with your students, please direct them to the Center for Accessible Resources as opposed to Facilities. Call: x5150.

TIPS FOR GIFT DEPOSITS TO THE LCC FOUNDATION

Please encourage donors to send their donations directly to the Foundation. We recognize this is not always possible, and sometimes a department or staff member may collect donations directly. Below are some important tips to help ensure the safeguarding of donations when you or your department receive them directly from a donor:

- 1) Never send checks, credit card information, or cash through campus mail.
- 2) Never drop cash donations/deposits in the foundation drop box.
- 3) Don't just hand the checks/cash to someone else in your office without documenting that hand off. Remember, if there is no documentation, then you are still responsible for the money you accepted.
- 4) Whenever possible, deliver gift deposits in person to the Foundation and make contact with a Foundation staff member. These gift deposits should be made as soon as possible, preferably within 24 hours of receiving the donor's personal check, credit card information or cash. When this is not possible, donations/deposits should be kept in a locked location or a safe within your office.
- 5) All gift deposits/deliveries of checks, credit card information, or cash must be accompanied by an Foundation Gift Transmittal. The Foundation staff member accepting your deposit will go over the deposit with you so that you mutually agree on the deposit amount, and then the Foundation staff member will sign the LCC Foundation Gift Transmittal and give you a copy. You can find the LCC Foundation Gift Transmittal at:
https://www.lanecc.edu/sites/default/files/foundation/lcc_foundation_gift_transmittal.pdf
- 6) Only after you receive a copy of LCC Foundation Gift Transmittal that has been signed off by a Foundation staff member, will your responsibility for the safeguarding of the donation cease. If you have questions or concerns, please contact the Foundation Director at (541) 463-5804.

IT UPDATE: CONTINUING GROUPWISE WEB ACCESS ISSUES

Following an upgrade to GroupWise earlier this year, we discovered a bug in the GroupWise web access client. This bug causes the GroupWise web access client to stop refreshing the display when items are deleted or moved to a folder.

In an effort to resolve the refresh bug, we installed a patch from Novell on May 1, 2015 during the standard Friday night maintenance window. Unfortunately, this patch has introduced a new problem which causes the Webmail system to run out of memory, resulting in Webmail being unavailable for small periods of time over the last two weeks.

Information Technology has been in constant contact with Novell, the manufacturer of GroupWise, and has been working with their technical support to resolve the issue as quickly as possible. As part of this effort, we subsequently applied another patch on Friday, May 8th, 2015 during the standard Friday night maintenance window. Sadly, this patch also failed to correct the memory error or the refresh problem and GroupWise Webmail was unavailable again for a short period time on Saturday evening and a few minutes Monday morning. We are also expecting that GroupWise Webmail will be down for maintenance again during the standard Friday night maintenance window on May 15th 2015.

Information technology has also been working behind the scenes to increase the reliability of the GroupWise system by bolstering the GroupWise infrastructure. Regrettably, these infrastructure changes, which will be put into place soon, were not ready in time to help with the current GroupWise Webmail issues.

Please be assured that Information Technology is working hard to resolve the issues with GroupWise Webmail as quickly as possible and appreciate your continued patience as we work toward a permanent resolution.

MEMORIAL BENCH FOR NANCY HART

Nancy Hart, former Associate Dean of Disability Resources and a tireless mentor and advocate here on campus, passed away last fall after a 2-year battle with cancer. The Center for Accessible Resources is planning to erect a bench and plaque in her memory -- as a lasting tribute to the courage, spirit, and grace she exemplified. We envision the bench as a place of serenity and rejuvenation on campus. To that end, we are seeking ideas from students and staff on the most appropriate site for the bench, as well as recommendations for the actual wording of the plaque. If you have any thoughts to share with us, please contact Jane Engert at EngertJ@lanecc.edu by April 1. Contact: Renee Mackey, Project Coordinator, Center for Accessible Resources.

TUTORING HELPS STUDENTS SUCCEED

Even through construction of the Center Building, and the temporary break up of Tutor Central, students are receiving tutoring assistance across campus. The drop-in centers in Business, Computers, Math, Music, Sciences, Spanish, and Writing have registered 726 students so far at week 6. We are right on track to our average 1,000 students registered per term. Remember to inform your students of the free assistance available. Our webpages www.lanecc.edu/tutor will lead students to the on campus locations as well as online resources. Liz Coleman, Tutoring Services

CENTER FOR ACCESSIBLE RESOURCES TIP: SERVICE ANIMALS IN THE CLASSROOM

Some students have service animals to assist with tasks related to their disabilities. Tasks can include: hearing assistance, seizures, navigating campus, retrieving items, or emotional support. In a classroom setting at Lane, only service animals/dogs (& miniature horses) are allowed.

- * If a service animal is not listed on the student's "Letter of Accommodation"(LOA), refer the student to the Center for Accessible Resources (formerly Disability Resources/DR).

- * If there is a question regarding a student's LOA from the Center for Accessible Resources (DR), faculty should privately discuss it with the student.

- * Identifying markers are not required (e.g. special harnesses or vests).

- * Dogs must be on a leash within 12-18 inches, under full control, healthy, & relatively clean.

- * Cats, rodents, reptiles, parrots, sugar gliders, etc. are not service animals.

Aggressive or disruptive dog:

Faculty may ask the student to remove the dog if it is disruptive or aggressive (e.g. blocking access, barking, growling, whining, drooling, excessive odor, panting, and/or scratching).

- Say, for example, "I understand the dog is a service animal. However, you will need to remove the dog because the odor/noise/behavior is disruptive. You are welcome to return without the dog."

- * Contact Public Safety if staff or students feel threatened or the student is unwilling to remove the dog from the classroom (541-463-5555)

- * Refer the student to the Center for Accessible Resources (DR)

- * Inform the Center for Accessible Resources (DR) about the incident

Consult with the Center for Accessible Resources (DR) about specific incidents, even while they are happening (541-463- 5150).

TIPS FOR GIFT DEPOSITS TO THE LCC FOUNDATION

Please encourage donors to send their donations directly to the Foundation. We recognize this is not always possible, and sometimes a department or staff member may collect donations directly. Below are some important tips to help ensure the safeguarding of donations when you or your department receive them directly from a donor:

- 1) Never send checks, credit card information, or cash through campus mail.
- 2) Never drop cash donations/deposits in the foundation drop box.
- 3) Don't just hand the checks/cash to someone else in your office without documenting that hand off. Remember, if there is no documentation, then you are still responsible for the money you accepted.
- 4) Whenever possible, deliver gift deposits in person to the Foundation and make contact with a Foundation staff member. These gift deposits should be made as soon as possible, preferably within 24 hours of receiving the donor's personal check, credit card information or cash. When this is not possible, donations/deposits should be kept in a locked location or a safe within your office.
- 5) All gift deposits/deliveries of checks, credit card information, or cash must be accompanied by an Foundation Gift Transmittal. The Foundation staff member accepting your deposit will go over the deposit with you so that you mutually agree on the deposit amount, and then the Foundation staff member will sign the LCC Foundation Gift Transmittal and give you a copy. You can find the LCC Foundation Gift Transmittal at:
https://www.lanecc.edu/sites/default/files/foundation/lcc_foundation_gift_transmittal.pdf
- 6) Only after you receive a copy of LCC Foundation Gift Transmittal that has been signed off by a Foundation staff member, will your responsibility for the safeguarding of the donation cease. If you have questions or concerns, please contact the Foundation Director at (541) 463-5804.

CHAMBER CHOIR PERFORMS FAURÉ REQUIEM CONCERT, JUNE 1

On Monday, June 1st, the Lane Chamber Choir from Lane Community College will perform Requiem by the French master Gabriel Fauré, at Central Presbyterian Church, located at 555 E. 15th Ave. in Eugene. This choral work of exquisite beauty features soprano and baritone soloists, SATB chorus, organ, and violin under the direction of Matt Svoboda, Director of Choral Activities at LCC.

Fauré's Requiem is an intimate setting of the Requiem Mass, one that emphasizes light and eternal rest through subtle shifts in dynamics and harmony. Fauré himself saw death "as a happy deliverance, an aspiration towards the happiness of the hereafter, rather than as a painful passing away," and his music expressively captures this vision of peaceful deliverance.

The Lane Chamber Choir is comprised of 30 singers from Lane Community College. The select choir works with special guest artists, tours throughout the state of Oregon, and frequently performs chamber music from the Medieval era to the present.

This concert is free to the public, though donations to support the Lane Chamber Choir program are appreciated. For more information, contact Matthew Svoboda

She was accepted by audition to their 5-week International Summer Dance Intensive, as well as placed on a wait-list for their year-round Trainee program! LANE SYMPHONIC BAND TO PERFORM MODERN WIND BAND MUSIC, MAY 28

The Lane Symphonic Band, under the direction of Paul Krueger, will perform a program of "Modern Wind Band Music" on Thursday, May 28, at 7:30 p.m. in the Ragozzino Performance Hall on the LCC main campus.

The program will consist of:

"Mechanism" Todd Stalter
"Lincoln" John Williams/arr. Jay Bocook
"On An American Spiritual" David Holsinger
"Sheltering Sky" John Mackey
"Foundry" John Mackey

The oldest piece in this set was composed in 1991. "Mechanism" and "Foundry" are both very industrious, percussion heavy pieces. "Foundry" actually gets its name from the idea that many of the percussion instruments are "found," such as wooden bowls or metal objects. "Lincoln" is an arrangement of the music from the recent film "Lincoln". The composer, John Williams, also scored the music to "The Cowboys," "Star Wars," "Indiana Jones," "Jurassic Park," and much more. "Sheltering Sky" is another John Mackey piece, but very lyrical and beautiful, in contrast to the industrious "Foundry."

Tickets are \$5 general admission, \$3 for students and seniors 55 and over. Advance tickets may be purchased online at lanecc.edu/tickets. For more information, contact John Watson at (541) 463-5161.

CHAMBER CHOIR PERFORMS FAURÉ REQUIEM CONCERT, JUNE 1

– On Monday, June 1, at 7:30 p.m., the Lane Chamber Choir will perform Requiem by the French master Gabriel Fauré, at Central Presbyterian Church, located at 555 E. 15th Ave. in Eugene. This choral work of exquisite beauty features soprano and baritone soloists, SATB chorus, organ, and violin under the direction of Matt Svoboda, Director of Choral Activities at LCC.

Fauré's Requiem is an intimate setting of the Requiem Mass, one that emphasizes light and eternal rest through subtle shifts in dynamics and harmony. Fauré himself saw death "as a happy deliverance, an aspiration towards the happiness of the hereafter, rather than as a painful passing away," and his music expressively captures this vision of peaceful deliverance. The Lane Chamber Choir is comprised of 30 singers from Lane Community College. The select choir works with special guest artists, tours throughout the state of Oregon, and frequently performs chamber music from the Medieval era to the present.

This concert is free to the public, though donations to support the Lane Chamber Choir program are appreciated.

For more information, contact Matthew Svoboda, Director of Choral Activities, svobodam@lanecc.edu or 541.463.5736

NEWS AND ANNOUNCEMENTS

LANE STUDENT JOSLYN JONES TAKES FIRST IN LEAGUE'S NATIONAL ART COMPETITION

Joslyn Jones, a student at Lane, has won first place in the League for Innovation National Art Competition. The piece she won with is a sculpture called "Broken Bones." She created it in a foundry class taught by Andreas Salzman and later assembled it for competition in an independent study class with Lee Imonen. Joslyn says, "I find the majority of my inspiration through the pain in my life. When it comes to my art I look for the 'shock factor.' I want people to be drawn to my art and unable to look away because of the emotion that it can bring over someone. I want the viewer and allow them self to feel their own life though the work." For more information contact Jennifer Salzman, Art and Applied Design Gallery Director.

BUILDING 1 STUDENT SERVICES COMPUTER POWER MANAGEMENT TRIAL GRATITUDE AND SAVINGS REPORT

Looking to further reduce energy waste an energy saving computer software trial to turn off computers and monitors when they are not being used for work was successfully conducted on 111 computers in Building 1 Student Services from April 15 to May 15. Information Technology (IT) and the Institute for Sustainable Practices (ISP) would like to extend their gratitude to all the trial participants in the BLD 1 team and give special appreciation to the patient and understanding staff in Counseling and Advising. Thanks to active feedback from the Building 1 trial group we have learned a lot about what it will take to implement a better computer power saving solution in the future for Lane's work groups. Estimated savings for the four week computer power management trial helped drive up BLD 1's 'Turn It Off' overall energy savings by 9 percent above their record breaking March 2015. That translates into an estimated additional \$200 per month for the trial computer power management software out of a total of approximately \$780 in electrical energy savings, (compared to the baseline energy use in 2005), for the four weeks of the Building 1 'Turn It Off' computer power management trial. You can keep up the great 'Turn It Off' work too. Simply turning off your computer and monitor after working hours reduces our energy costs per computer by \$14 to \$41 annually. For over 2,000 computers that a savings that adds up quickly! Submitted by Anna E Scott, x5805

MEMORIAL BENCH FOR NANCY HART

Nancy Hart, former Associate Dean of Disability Resources and a tireless mentor and advocate here on campus, passed away last fall after a 2-year battle with cancer. The Center for Accessible Resources is planning to erect a bench and plaque in her memory -- as a lasting tribute to the courage, spirit, and grace she exemplified. We envision the bench as a place of serenity and rejuvenation on campus. To that end, we are seeking ideas from students and staff on the most appropriate site for the bench, as well as recommendations for the actual wording of the plaque. If you have any thoughts to share with us, please contact Jane Engert at EngertJ@lanecc.edu by June 1.

CENTER FOR ACCESSIBLE RESOURCES FACULTY TIP: ALLOWANCES/ACCOMMODATIONS FOR TESTING

CAR encourages students to work directly with instructors related to testing accommodations. In some cases, students may ask for accommodations that are not listed on the Letter of Accommodation (LOA). If you as the instructor are willing to make that allowance, you may go ahead and do that. Otherwise, you can refer them to CAR to discuss options. We would advise caution in suggesting what a solution might be as that may set up expectations for the student. CAR may or may not be able to provide it as an accommodation or add it to the LOA. Please contact CAR with any questions or concerns at 5150.

Lane's Career Pathways program is featured in the current issue of the Community College Journal. The article includes comments from Dawn DeWolf and Rosa Lopez. You can find it online at: <http://www.ccjournal-digital.com/ccjournal/20150405#pg50>

In addition, Lane was awarded the National Counsel for Workforce Education Exemplary Program Award for the Early Childhood Education VESL Career Pathway Certificate Program. The award will be presented at the NCWE annual conference in October in Portland and the program will be highlighted on the home page of the NCWE website. CHRISTOPHER HAINLEY RETIREMENT RECEPTION, JUNE 16

Please join us in celebrating Christopher Hainley's retirement on Tuesday, June 16 at 4 p.m. in the Boardroom, Building 3! Chris is retiring from the Financial Aid Office after 27 years of service to Lane students. In this time, he has processed a veritable mountain of financial aid applications, given countless hours of presentations on financial aid, helped tens of thousands of students receive financial aid, and supported his colleagues as a world-class team player and self-appointed class clown. He has been married for 36 years to Sharon Hainley, who works in Lane Veterans Services and is an amazing cook. To burn all the excess calories from Sharon's culinary delights, Chris spends many a lunch break sweating in the Fitness Education Center or out on the jogging trails with his running partner, Alen Bahret. In his retirement, he plans to volunteer at his parish as he completes his master's degree in theology, after which he will pursue becoming a permanent deacon for the Archdiocese of Portland. Congratulations, Chris! You will be greatly missed. Contact: Helen Faith.

NEWS

FAREWELL FROM MAURICE HAMINGTON, EXECUTIVE DEAN SCHOOL OF ARTS AND SCIENCES
Over the weekend, Maurice Hamington shared news that he is leaving Lane to take a position at Portland State University as the Director of University Studies (their nationally recognized integrated general education program) and a full professor of Philosophy.

"With sadness, I am announcing that I am leaving Lane Community College at the end of August. I did not think my time at Lane would be so short but I have accepted an incredible opportunity. I am sorry for the disruption and inconvenience my departure causes. Please know, however, that Lane is a nationally recognized educational leader with an impeccable mission and incredible personnel. I know you will continue to thrive. In particular, I have the highest appreciation and respect for our Executive Team and know they will move forward with wisdom and care."

Best wishes to you, Maurice.

ANNOUNCEMENTS

AL FRESCO! CIDER & BOUNTY

Lane and Wildcraft Cider Works team up for "Al Fresco! Cider & Bounty in the Garden," a fundraiser for the Lane's Learning Garden and Center for Meeting and Learning, will be held Wednesday, July 29 with a reception at 5:30 p.m. and seating for dinner at 6:30 p.m. in the student Learning Garden on the southwest corner of main campus.

Now in its second year after a resoundingly successful launch last year, Al Fresco offers a one-of-a-kind outdoor culinary adventure for guests, featuring bounty from the Learning Garden, a social hour pairing foods with ciders, and a dinner featuring cider-infused entrées and sides prepared by Lane culinary students and Center for Meeting and Learning chefs Tim Hill and Adam Hammel.

The event provides relevant and unique opportunities for Culinary Arts and Hospitality Management students to gain skills in food pairing, menu planning and hands-on experience in the execution of large, outdoor events. Students apply for this opportunity and only 13 are awarded positions.

For the social hour, guests will experience four ciders paired with four bites with fresh ingredients harvested from the Learning Garden and served by students. For dinner, the students will infuse cider into the main entrée and sides. The event will include music and a silent auction as well as the family style dinner.

Proceeds will support the Learning Garden and help upgrade equipment for the Center for Meeting and Learning. Tickets are \$75 each and may be purchased online at <http://www.brownpapertickets.com/event/1691352> For more information contact the Center for Meeting & Learning at (541) 463-3500.

Please join Specialized Support Services at a reception in honor of Gale Bingham's retirement on June 30 in Room 128, Building 11 on Tuesday, June 30, from 12-3 p.m. Gale has worked for Lane the past 17 years providing training and support to our student workers. COLLEGE PAYS TRIBUTE TO LONGTIME BOARD MEMBER BOB ACKERMAN

Bob Ackerman won a prolonged standing ovation from the Lane Community College Board of Education and the audience at the board's June meeting. Ackerman is retiring from the board after four terms reaching back 50 years to his election to Lane's first board in 1965 and three more successful elections in 1999, 2007 and 2011.

Ackerman also served in the Oregon House of Representatives for three terms where he was an active member of the community college caucus. Locally, he was a highly respected and well known civil rights attorney and diversity advocate.

The board named the college's tutoring center in his honor, as the Robert L. Ackerman Tutor Central, and held a reception to present a video describing the highlights of Ackerman's career. The video is online at <https://www.youtube.com/watch?v=ZC3nOy5sJ24>

Lane Archives features an oral history with Ackerman who bucked hay bales in 1957 on the property that became main campus. That history is online at <https://www.lanecc.edu/archives/bob-ackerman-history> Contact: Joan Aschim.

GRANTS HELP STUDENTS SAVE MONEY ON TEXTBOOKS

Two Lane programs have received funding to help students save money on textbooks by developing open educational resources (OER).

* The Geology and Environmental Science sequence redevelopment under the leadership of instructor Alex Geddes will examine the textbooks and other materials associated with seven courses offered in the department of Earth and Environmental Science at Lane. The project leads, along with the adjunct instructors who teach classes in those departments, and the expert assistance of Lane library staff, will adopt OER materials for Environmental Science 181, 182, 183, 184 and Geology 101, 102, 103. The courses will be realigned to flow better with those materials while maintaining the highest academic and pedagogical standards. The project team will work together with instructors to generate support materials which might be lacking in the OER textbooks and materials, including both in-class and independent study materials for students. Up to 500 students will save approximately \$50,000-75,000 per year once the project is complete. The department aims to convert to primarily using open resources within two years. Contact: Alex Geddes.

* An Oregon Writing Open Educational Resources (OWOER) Collection, coordinated by English Instructor Jenn Kepka, will lay the groundwork for writing instructors to easily adopt OER for writing courses in the future. Kepka will gather English instructors to create a usable and scalable collection of currently used OWOER for first- and developmental-level composition courses while also supporting collaboration between institutions to fill gaps. The project will support three phases. First, the outcomes for Writing 95, Writing 115, and Writing 121-equivalent courses will be gathered and posted to an accessible web site. In phase two, instructors will meet in-person and through webinars to contribute existing OERs, then create materials to fill gaps. Project funding or faculty professional development funds at each participating school may be available for interested instructors. A one-day write-in will be held to identify gap areas and create needed materials. In phase three, the OWOER coordinator and representatives will present the collected materials at department meetings before fall 2016 textbook adoptions. Contact: Jenn Kepka.

NEWS AND ANNOUNCEMENTS

GREAT SAFETY PERFORMANCE BY LANE EMPLOYEES

On behalf of the college, Lane HR managers received some very good news from SAIF concerning our workers compensation claims experience during the past three years and the premium renewal rates for 2015/2016. Claims during the past three years have been relatively low (actually very low!) and time loss

claims have been very carefully managed such that Lane Community College will be placed in a "preferred premium" category for the workers compensation coverage renewal in 2015/2016. Credit for this exceptional safety performance goes to the entire Lane community including all our employees and students! A very special thanks and congratulations to members of the College Safety Committee, Facilities, Management & Planning staff, Public Safety staff, the College Wellness Program, Bond Leadership Team, and HR Manager Sharon Daniel and the HR benefits team who provide oversight and claims management support. Thanks for maintaining an intense focus on workplace safety as well as employee safety and health! KUDOS to all for a job very well done! Contact: Dennis Carr, Chief Human Resource Officer.

Joyce was an art instructor at Lane for 25 years and is best known for his monumental flying people mural "Flight Patterns" at the Eugene Airport.

MARTA EFFINGER-CRICHLOW SPEAKS AT LCC NEH SUMMER INSTITUTE, JULY 15

Marta Effinger-Crichlow, Ph.D., associate professor and chair of literature and theater in the African American Studies Department at the City College of Technology in New York, will give a lecture entitled, "Mapping Black New York: An Interdisciplinary Search for Home," on Wednesday, July 15, at 6 p.m. in the Lane Community College Downtown Center at 101 W. 10th Avenue in Eugene.

Effinger-Crichlow is the author of "Staging Migrations Toward an American West: From Ida B. Wells to Rhodessa Jones" (University Press of Colorado: 2014).

This public keynote address is part of Lane's National Endowment for the Humanities Advanced Topics in the Digital Humanities Summer Institute. It is free and open to the public.

NEWS AND ANNOUNCEMENTS

UO INFORMATION SERVICES NAMED CO-OP EDUCATION EMPLOYER OF THE YEAR

With one of the nation's most respected, largest and oldest cooperative education internship programs, Lane Community College honors one outstanding employer every year. At the July Board of Education meeting, Lane President Mary Spilde awarded the Cooperative Education Employer of the Year Award for 2014-2015 to the University of Oregon Information Services.

"We attribute the success of this internship program to the vision of UO Chief Information Officer Melissa Woo and her dedicated team, including HR Manager Jenna Rakes and Systems Director Micah Sardell," said President Spilde.

UO Information Services (IS) has accepted at least two interns from the Lane Community College Computer Information Technology program every term since becoming a co-op partner with Lane in 2013. Students are placed in the IS Windows, Linux, Storage and Virtualization, and Technology Help Desk unit.

"They give our students a superior internship experience in a large, complex IT enterprise environment," said LCC co-op coordinator Gerry Meenaghan.

The internships are paid and include free access to professional development trainings as well as resume review and interview training to help prepare students for employment after graduation. Outside of the workplace, IS staff make themselves available to talk with students or to speak at pre-internship and career preparation seminars. The University of Oregon has hired three LCC graduates since joining Lane's co-op employer network.

AUDITIONS FOR "THE PILLOWMAN" JULY 27 -28

Student Productions Association of Lane Community College will hold auditions for their production of Martin McDonagh's *The Pillowman* on July 27 and 28. Tara Wibrew, Associate Producer for Oregon Contemporary Theatre and former SPA president, directs. Auditions will be held at Oregon Contemporary Theatre, located at 194 W Broadway in downtown Eugene, from 5:30–7:00 pm; no need to sign up for an audition time. Please bring a resume and recent photo. Auditions will consist of reading from the script; no additional monologues necessary.

With echoes of Stoppard, Kafka, and the Brothers Grimm, *The Pillowman* centers on a writer in an unnamed totalitarian state who is being interrogated about the gruesome content of his short stories and their similarities to a series of child murders. The result is an urgent work of theatrical bravura and an unflinching examination of the very nature and purpose of art.

Roles are available for all types, genders, and ages. Auditions are open to students and community members. Rehearsals begin mid-September, with performances November 13-21, 2015. All rehearsals and performances will take place in the Blue Door Theatre on LCC's Main Campus.

Please contact Brian Haimbach at haimbachb@lanecc.edu or 541-463-5648 for more information.

AL FRESCO! CIDER & BOUNTY, JULY 29

Lane and Wildcraft Cider Works team up for "Al Fresco! Cider & Bounty in the Garden," a fundraiser for the Lane's Learning Garden and Center for Meeting and Learning, will be held Wednesday, July 29 with a reception at 5:30 p.m. and seating for dinner at 6:30 p.m. in the student Learning Garden on the southwest corner of main campus.

Now in its second year after a resoundingly successful launch last year, Al Fresco offers a one-of-a-kind outdoor culinary adventure for guests, featuring bounty from the Learning Garden, a social hour pairing foods with ciders, and a dinner featuring cider-infused entrées and sides prepared by Lane culinary students and Center for Meeting and Learning chefs Tim Hill and Adam Hammel.

The event provides relevant and unique opportunities for Culinary Arts and Hospitality Management students to gain skills in food pairing, menu planning and hands-on experience in the execution of large, outdoor events. Students apply for this opportunity and only 13 are awarded positions.

For the social hour, guests will experience four ciders paired with four bites with fresh ingredients harvested from the Learning Garden and served by students. For dinner, the students will infuse cider into the main entrée and sides. The event will include music and a silent auction as well as the family style dinner.

Proceeds will support the Learning Garden and help upgrade equipment for the Center for Meeting and Learning. Tickets are \$75 each and may be purchased online at <http://www.brownpapertickets.com/event/1691352> For more information contact the Center for Meeting and Learning at 3500.

CENTER FOR ACCESSIBLE RESOURCES TIP: CHEMICAL/FRAGRANCE SENSITIVITIES (7/21/15)

There may be students in the classroom who experience sensitivities to strong scents and odors, which may result in asthma/respiratory difficulties or trigger migraines, etc. Should a student express concerns of this nature, please take them seriously and work with that student and the Center for Accessible Resources toward a reasonable resolution. One option is for instructors to request that students in a class voluntarily refrain from wearing perfumes/aftershave or other fragrance products in order to minimize the risk for reactions (without naming the student). While it is not possible to eliminate all strong odors in the surrounding environment, we can all work to minimize or eliminate the use of substances that trigger reactions. If you have concerns, questions or ideas, please contact CAR at ext. 5150.

Tara Wibrew, former SPA president and current Associate Producer at Oregon Contemporary Theatre, will direct.

“Cymbeline” by William Shakespeare directed by Bill Hulings

Auditions TBA

Performances: April 22-May 1, 2016 in the Ragozzino Performance Hall on Lane’s Main Campus

“Cymbeline” has been called an “action-adventure fairy tale.” Princess Imogen’s stepmother wants to kill her, and her love thinks she has been unfaithful. So, in true Shakespearean style, she cross-dresses and explores the wilds of ancient Britain in an effort to set everything aright. Fans of the Bard will relish the opportunity to see this rarely produced play, and audiences new to Shakespeare will see and hear a tale of adventure as compelling today as it was 500 years ago. Professional actor and director Bill Hulings will direct. SPA is thrilled to be working with one of the most respected theatre professionals in Eugene.

NEWS AND ANNOUNCEMENTS

DIGITAL DOJO EARNS NATIONAL RECOGNITION FOR PROMOTING DIGITAL EQUITY
Eugene’s Digital Dojo Coding Team Project was named the Community Broadband Digital Equity Project of the Year today by the National Association of Telecommunications Officers and Advisors (NATOA) Board of Directors.

The Dojo launched in last fall as a pilot program partnership between Lane Community College, the City of Eugene, and Eugene School District 4J. Located in Lane’s Downtown Campus, the Dojo is a nationally connected and locally developed open source computer coding program enabling middle and high school students from multiple cities to receive code training in a college environment. The program aims to create an interest in the field of computer science early in students’ school career – especially among young women and underrepresented youth.

Since 2007, NATOA has been recognizing exceptional leaders and innovative programs that champion community interests in broadband deployment and adoption in local communities nationwide. Recipients will receive their awards at NATOA's 35th Annual Conference, to be held in San Diego, CA September 8-11.

The Digital Dojo partnership brings together instructional specialists with expertise in computer science from LCC and 4J and a state of the art classroom in LCC’s Downtown campus with funding from City of Eugene telecommunications project program funds and critical participation from LCC, UO, area schools, and area tech businesses. This demonstration program has one more year of pilot funding from the City. For more information contact Deron Fort.

OYA HONORS CAMP FLORENCE VOLUNTEER ROBERT ESTILL

Robert Estill, a Camp Florence volunteer known affectionately as Dr. Bob, recently was honored by the Oregon Youth Authority as Volunteer of the Year.

Estill is a math instructor at Lane Community College and Siuslaw High School in Florence. In addition to teaching, he helps students develop an appreciation for collaboration and a strong work ethic.

Estill received his doctorate at the University of Hawaii and retired as an executive at Chevron.

He has worked in many foreign countries and is a technical consultant for clients around the world, most recently in Bangladesh.

Estill offered to volunteer for OYA two years ago after meeting at-risk youth at a Lane Community College outreach program, where many of them are college math students. He said he immediately recognized their desire to change and improve. Estill made himself available to visit Camp Florence seven days a week.

In his first year as a volunteer at Camp Florence, Estill's knowledge of the oil industry helped guide a camp youth to enter the petroleum engineering program at the University of Alaska.

Dr. Bob's down-to-earth approach, enthusiasm for teaching and passion for working with at-risk youth greatly benefit Camp Florence and the entire agency, said Marc Barnum, camp vocational coordinator.

Estill believes ample face time with students helps his effectiveness as a teacher.

He also believes academic progress is crucial to a student's development.

"We need to understand we're evaluated on results, not merely activity in the business world, so it's important our students learn this early," Estill said.

He and his wife live in Florence. He keeps physically active with distance running and swimming.

Camp Florence is one of 10 secure facilities and camps for at-risk youth operated by OYA, the state's juvenile justice agency. [Story courtesy of The Siuslaw News; article originally appeared in the May 9, 2015, edition.]

CONCERNED ABOUT THE REALLY BIG ONE?

Many people have read the recent New Yorker Magazine article The Really Big One by Kathryn Schulz (<http://www.newyorker.com/magazine/2015/07/20/the-really-big-one>).

This article describes the frightening, yet real, potential for a catastrophic earthquake from the Cascadia Subduction zone off the WA-OR-northern CA coastline. While awareness of the Cascadia earthquake history has increased in the past 30 years, few are prepared for the scenarios that could happen. Want to learn more about plate tectonics, earthquakes and your planet? Consider taking a geology course here at Lane! This Fall, the Earth and Environmental Science discipline is offering G148 Geologic Hazards, a hybrid course that meets once a week, Monday from 4:00 - 5:50p (Shelley Mort) and two sections of G101 Earth's Dynamic Interior, with a MWF section 12:00 - 1:50p (Mary Baxter) and a MW 2:00- 4:50p section (Claudia Owen). All three of these classes will address earthquake hazards and preparedness, among other geologic topics. We are also offering G147 National Parks Geology MW 9:00-11:50 (Andrea Rice). All these courses are suitable for degree-seeking students and also for the general public. Submitted by Sarah Ulerick and Paul Ruscher.

OREGON PERFORMANCE LAB TO HOST RESIDENCY READING OF "SPILL" AUG. 14 & 15

Oregon Performance Lab hosts a residency reading of "Spill" written and directed by Leigh Fondakowski, August 14 and 15 at 7 p.m. in the Ragozzino Performance Hall on main campus. On April 20, 2010, the BP owned oil rig Deepwater Horizon exploded off the shores of Louisiana, killing 11 and sending millions of barrels of oil into the Gulf of Mexico. With a dramatic story spun from hundreds of personal interviews with oil industry employees, fishermen, politicians, cleanup workers, scientists, and the families of those lost, "Spill" probes into a vivid behind-the-news narrative of the largest environmental disaster in U.S. history from the Head writer of the "Laramie Project." Oregon native visual artist Reeve Wortel conducted the interviews with Fondakowski and also painted life-sized portraits of many of the interviewees. Wortel will share images from this collection and share insights into the process in a talk-back following the Saturday reading.

EVENTS THIS WEEK

OFAM OPENING NIGHT GALA LIVE ON KLCC, AUG. 11

KLCC 89.7 FM will broadcast Oregon Festival of American Music's "Rhapsody In Blue" this evening, Tuesday, August 11, from 7:30-10 p.m.

The performance is part of this year's festival "Fine and Dandy, in the Age of Jazz 1921-1934" and will sample the best of the 1920s, from the earnest emotional strains of the waning years of vaudeville and the scintillating playfulness of the emerging American musical comedy, to the hot and exotic jazz both uptown and down, and the vocalists who were bringing the threads of jazz, the blues and other musical impulses to mainstream popular culture on the stage, radio and shellac. A special counterpoint of the evening will be a tribute to the extraordinary Boswell Sisters, whose late '20s, early '30s sides backed by the studio-only Dorsey unit are wonderful examples not only of the 1920s Age of Jazz but of the Age of Swing to come. KLCC will broadcast the performance in its entirety beginning at 7:30 p.m. KLCC's Eric Alan and Cina Kraft will host the event from The Shedd Institute for the Arts, located at Broadway and High in Eugene. Contact: Gayle Chisholm.

SCHOLARSHIP PROGRAM CHANGES

Jackie Bryson, academic advisor, is retiring at the end of August. Jackie has worked at Lane for almost 15 years. During her time at Lane, Jackie has also worked as a career and employment advisor. She became an expert on advising students about scholarships, leading scholarship workshops and coordinating events. For many years Jackie has given Lane students scholarship application advice that has helped them raise millions of dollars for their education. Jackie's expertise will be missed. Thank you, Jackie.

Kathy Thomas, grant writer, is taking on some aspects of Jackie's work. Kathy will not be working directly with students. She will handle oversight of some scholarship tasks and will provide scholarship workshops. To coordinate your work with Kathy, contact her at x 5853 or thomask@lanecc.edu She plans to expand the scholarship website to provide a broader explanation of how students can find and apply for private scholarships. LEARNING COMMONS UPDATE

We are getting excited for completion of the CLASS PROJECT! That's from Liz Coleman, Tutoring Services Coordinator and the members of the Learning Commons Ad-Hoc Planning Committee. The CLASS PROJECT is moving right along, and The Learning Commons within it is planning to greet all new Lane Community College students and employees as classes resume in September! Our new Center building will provide an open, beautiful, inclusive, space in the heart of campus that will join many student and staff services into a comprehensive, welcoming learning environment. One can grab a coffee or lunch at food services, visit the ATC or Student Help Desk (SHED), meet with a librarian, or find necessary library materials, get tutoring in writing, basic math, or computers, use the small group study rooms or quiet study area, meet

with others in student groups, take a test, socialize a bit, and enjoy the fantastic view of the hills out the north windows.

The Learning Commons team hopes to move in mid-September, and is currently organizing a Welcome Week "passport" activity during the first two weeks of fall classes. Upon completion of the passport, students will be entered into a raffle offering fantastic prizes! The project team is working hard and fast so we can occupy the space in fall. Thank you and we wish them well!

NEWS AND ANNOUNCEMENTS

JENNIFER FRIE NAMED INTERIM EXECUTIVE DEAN

Jennifer Frie has been hired as the Interim Executive Dean for the School of Arts and Sciences, replacing Maurice Hamington. Maurice accepted a position at Portland State University. Jennifer is currently serving as Lane's Dean of Social Science, a position she has held since 2014. She has a Ph.D. in Social and Personality Psychology from the University of California, Davis, an MA in Psychology from California State University, Sacramento, and a BA in Psychology from the University of California, Davis.

Jennifer has many years of experience in higher education administration. Prior to coming to Lane she was the Director of Academic Affairs, and the Chair of the College of Social Sciences at the University of Phoenix, Sacramento Valley Campus. She has also had an extensive career as a full and part time faculty member. The college will recruit and hire an Interim Dean of Social Science. The position will be posted internally soon. Please join me in welcoming Jennifer to her new position, which she will assume mid September. Submitted by Dawn DeWolf.

JIM LINDLY RETIRES FROM SMALL BUSINESS DEVELOPMENT CENTER

Jim Lindly has retired as the Lane SBDC Director effective September 1. Jim Lindly has been at the college since April 1, 1997 and has served many roles within the college including SBDC faculty, trainer and director. On behalf of the SBDC program and Lane Community College we want to thank Jim Lindly for his many years of service and wish him the best in his retirement. Sandy Cutler will continue to serve as Interim SBDC Director and work with the College during the transition. Submitted by Dennis Carr.

GEORGIA BARTLETT MOVES DOWNTOWN

Georgia Bartlett, Specialized Support Services, moves to the Downtown Campus effective today, September 1, and wishes to sincerely thank all of the great folks on Main Campus for the many years of friendly and supportive interactions plus all of the beautiful smiles and nods in passing, through our

travels around this large and lovely campus. I wish you all well in the new school year and beyond and hope our paths will cross again someday. Feel free to send me an e-mail if you'd like to stay in contact. Enjoy that new Center Building! Georgia Bartlett.

FACILITIES MANAGEMENT AND PLANNING HAS NEW PHONE NUMBER

As of September 1, the Facilities Management and Planning main phone number is 541-463-5000. This replaces 541-463-5216. If you dial the old phone number (541-463-5216) over the next several months, there will be a voicemail message that provides the new phone number. Most requests to Facilities should still be made by submitting a Megamation work request. For items needing immediate attention, call ext. 5000. The reason for this change is to make the main phone number something that is easier to remember. Contact: Jennifer Hayward.

FIRE ALARM AND FIRE SYSTEMS TESTING CONTINUES

In order to comply with fire and life safety regulations, Lane is doing comprehensive annual fire systems testing. Testing and repairs of any deficiencies have begun and will continue through September 11. This work will be taking place at every Lane facility except for the Florence Center. Building occupants may briefly hear things like bells and whistles. One example of work that contractors will be doing is testing smoke alarms with an enclosed smoke alarm test system. The enclosed system should prevent smoke from getting into buildings but there is a small chance that occupants may notice a smoke odor from this test. It is also possible that a fire alarm will be triggered in the course of this testing. Our fire marshal has instructed us to evacuate the building even if it is just a test. The reason is that there may be a fire alarm test happening and, simultaneously, there may also be a fire in the building. Please evacuate the building, even if you believe it is just a test, and remain outside until the alarm turns off. Thank you for your understanding and cooperation as FMP performs this important and mandatory work. Contact: Jennifer Hayward.

GRAVEL PARKING LOT PAVING UPDATE

The gravel parking lot to the south of Public Safety in Building 13 will be paved. The project will begin on Tuesday, September 8 and is expected to be completed by September 25. The accessible route to Building 13 during the construction will be from the wooden ramp that starts near the northeast corner of Building 16 and runs along the north side of Building 13. There will be no parking allowed in this parking lot during this time. This project will provide better access to Public Safety. Contact: Jennifer Hayward.

MOODLE UPDATES

As promised, the Blackboard Collaborate module has been updated to Blackboard Collaborate Ultra. Blackboard Collaborate Ultra is a web conferencing integration within Moodle that is perfect for any online, hybrid, or traditional course. Blackboard Collaborate Ultra is perfect for online lectures, office hours, tutoring, online meetings, etc. What is the Blackboard Collaborate Ultra Experience? See:

<https://youtu.be/UWX2kRazC-s>

Because we still have some courses running session on the old Blackboard Collaborate we will continue supporting the old plugin through the Fall term. We will no longer support the old version of Blackboard Collaborate starting Winter term. If you need training on how to manage the new Blackboard Collaborate Ultra plugin please contact the ATC for training opportunities.

When adding a Blackboard Ultra session please make sure to select "Collaborate" and not "Blackboard Collaborate Session." We understand the naming convention is confusing and are working to edit the plugin names to something more intuitive.

If you have questions or would like to request training please contact the ATC at atc@lanecc.edu

KLCC TRIES SOMETHING NEW

We listened to our listeners! They told us they love KLCC, and know fundraising is essential, but wonder if it's possible to make it happen without interrupting the programs they love. Our response: For the next three weeks KLCC will be have a Stealth Drive, a brief under-the-radar fund drive with no interruption of programming. This is the fall drive! If KLCC reaches the goal of \$250,000 by October 5, the traditional radiothon will not happen. Extra Incentive: KLCC is giving away a \$500 Visa gift card every Friday during the drive -- Sept 18, 25 and Oct 2. Everyone who gives stays in the pool for each drawing! KLCC encourages listeners to contribute to KLCC today and silence Radiothon. KLCC thanks the listening community for their loyal and ongoing support of intelligent, quality programming. KLCC serves over 80,000 listeners each week. Two-thirds of KLCC funding comes from the community. Submitted by Gayle Chisholm.

UCC STRONG

#IamUCC CAMPAIGN; GROUP PHOTO TODAY AT 11 A.M.

In an effort to show solidarity with our colleagues and students at Umpqua Community College , we are joining institutions nationwide in the #IamUCC campaign. If you would like to participate, please borrow a sign from the President's Office, take your pictures and email them to simmst@lanecc.edu. There will also be an organized group photo outside the south entrance of Building 3 at 11 a.m. today, Oct. 6

PRESIDENT'S STATEMENT FROM VIGIL

President Mary Spilde shared a statement about the tragedy at Umpqua Community College at Lane's main campus vigil Oct. 2, although she could not attend in person. If you too could not attend, here is her statement:

"Yesterday, a tragedy occurred at Umpqua Community College in Roseburg. We are deeply saddened by these events, and our thoughts and prayers are with all those affected by the shooting. This is not the first time this has happened but it takes on a more real quality when it is so close to home. Many have questions for which we do not have the answers; in the coming days we will learn more and there will be more discussion and more political conversations, but today and in the near future our focus must be on the victims and their families and taking care of each other.

"When things like this happen we all react differently. It's important to allow for the different emotions that will play out over the next days and weeks – anger, helplessness, despair, profound sadness. It's even more important under these circumstances to be there for each other, to care for each other, to support one another.

"There is not much that is good that comes out of these kinds of situations but senseless violence like this does remind us about what really matters in our lives. Life is so fragile, as we saw yesterday, which makes it even more important that we create conditions of caring and support.

At fall in-service this year, I quoted Mary Oliver: "Tell me, what is it you plan to do with your one wild and precious life?"

"The victims made a choice with their precious lives to get or provide an education. That their lives were cut short in that pursuit is tragic. I have said before that our students are heroes. Against many odds they come to community colleges to learn something, to make a better life for themselves and their families. The students at Umpqua were doing the same, coming to get an education; similarly, teachers and staff are called to the noble work of education and should not expect their lives to be endangered in this way. What a waste of these wild and precious lives.

Today, while we offer condolences and healing to the Umpqua community we can also reach out to one another, make peace with each other, make a commitment to create the caring community that we so desperately need.

"Today, I hope we will all reach out to our loved ones and talk to them, hug them, and hold them and the Umpqua community in our hearts."

NEWS AND ANNOUNCEMENTS

ANNUAL CLERY CAMPUS SECURITY REPORT AVAILABLE

Attention Lane Community Employee, Students and Prospective Students:

In compliance with federal law, this is to inform you that Lane Community College prepares an annual report on campus security programs and services. Originally enacted in 1990, the federal law was amended in 1998 and renamed the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. A copy of the 2015 Lane Community College Annual Security Report (reflecting information through 2014) is available online at <http://www.lanecc.edu/sites/default/files/psd/clery.pdf> This report includes statistics for the previous three years concerning reported campus crimes that occurred on campus; in certain off-campus buildings or property owned or controlled by Lane Community College; and on public property within or immediately adjacent to and accessible from the campus. The report also includes institutional policies concerning campus security such as policies regarding alcohol and drug use, crime prevention, the reporting of crimes, sexual assault, and other matters.

In addition, the Higher Education Opportunity Act information may be found at <https://www.lanecc.edu/sites/default/files/psd/fire.pdf>

This report includes information on Fire Safety in the Titan Court residential facility.

You can obtain a copy of this report by accessing the above website, or by contacting the Lane Community College Public Safety Office at (541) 463-5558, or writing to us at 4000 East 30th Avenue, Eugene, OR 97405. Contact: Jace Smith.

NEW REGISTRATION WEB-BASED INTERFACE COMING SOON

Students enrolled for fall term 2015 and all staff will be notified in October that the old registration Add/Drop tools will be replaced by a far easier to use web-based interface.

The announcement will refer them to view an eight minute instructional video at <https://www.lanecc.edu/esfs/registration> which walks them through how to use the new tool. Eventually, we will be rolling out additional features to replace tools such as the "When Can I Register?" page, but for now we are going to start with implementing the Add/Drop and schedule change features. Fellow institutions using this tool found that students were able to easily figure out on their own how to search for classes and manage their schedule changes and that very few students ever sought assistance on how to use it. We continue to offer students who need in person assistance help from the Titan Peer Associates in the lobby of Building #1, and we believe the video provides enough information to assist students on using the tool. Please direct questions to Helen B. Garrett, Dean of Enrollment Management Systems, x5686, garretth@lanecc.edu

FROM ELLEN JONES

Thank you to all who have offered me congratulations and expressed their heartfelt praise for what I consider a privilege to have been an integral, positive presence in their lives.

It is not without some misgivings that I leave my position as VA Certifying Official at Lane CC after 29 years. The opportunity to exercise my skills in serving our former Armed Forces members and their spouses and dependents through the VA maze while they receive the maximum benefit entitlement they so deserve, while attaining the knowledge to go on to a future career, is also a matter of pride on my part.

Thank you veterans, families, drilling Guard and reservists, and those others whose vocations play an integral part for serving this very special population. There are also so many Lane staff who have been not only personal touchstones for me, but also stopped, dropped, and rolled to help me resolve issues

totally outside their norm. I plan to send a personal note to each and every one of you. It's been a wonderful ride, Ellen.

GREAT OREGON SHAKEOUT EARTHQUAKE DRILL, 10/15 AT 10:15

Hang on to those hats and glasses! The Great Oregon Shakeout is coming. Lane Community College will participate in this annual earthquake drill on Thursday, October 15 at 10:15 A.M..

During the drill, Lane Alert will be utilized and the mass announcement system in campus buildings will be tested. Members of the Campus Community Emergency Response Team (C-CERT), Emergency Planning Team, and Public Safety will assist and observe in some buildings.

Here's what you can do on 10/15 at 10:15:

...Drop, Cover, and Hold On: Faculty, staff and students should Drop to the ground, take Cover under a table or desk, and Hold On to it as if a major earthquake were happening (stay down for at least 60 seconds). Practice now so your staff and students will know immediately how to protect themselves during earthquakes! For people with disabilities or access and functional needs, download the preparedness guide at:

http://www.shakeout.org/downloads/AFNPreparednessGuide_10-6-2011.pdf

... While still under the table, or wherever you are, look around and imagine what would happen in a major earthquake. What would fall on you or others? What would be damaged? What would life be like afterwards? What will you do before the actual earthquake happens to reduce losses and quickly recover?

It is a great opportunity to open discussion on emergency preparedness. Last year, I received info that several faculty members incorporated the drill in to their lesson for the day. I also got some great photos of faculty, staff and students as they dropped and covered. Whether you decide to participate or not, please notify your students that the drill will be happening.

Thanks for helping to make Lane a safer place to work and learn.

NEWS AND ANNOUNCEMENTS

IN MEMORY: HERMAN WELA

Specialized Support Services is deeply saddened to report that Herman Wela, who worked for the Lane Community College Faculty Union and as a volunteer for the Senior Companion Program, died Monday September 28, of a heart attack, at his home in Eugene. Herman retired from Lane in 2011. He traveled around Eugene and the coastal areas of Oregon, spending valued time with friends and his much loved family members. He enjoyed visiting with other Lane Community College retirees, especially the students in the Specialized Support Services program, and keeping his Union affiliations current. Herman was a charming, outgoing and generous fellow. He loved the OSU Beavs and begrudgingly supported the Ducks when fellow Hawaiian Marcus Mariota entertained us with his stunning athletic performance.

Herman was beloved by colleagues, LCC students and faculty, and his family. Our lives are inspired and made rich by his presence.

Cards can be sent to his family at: Pulani Kanui, 31460 Gowdyville Road, Cottage Grove, OR 97424. Contact: Kim Hayes, Specialized Support Services, x5719 or Hayesk@lanecc.edu

IN MEMORY: BILL MCNAIR

Specialized Support Services is saddened to inform our Lane Community College family that Bill McNair, retiree and long time employee of Specialized Support Services, passed away on Sunday, September 20, after a long illness.

Bill worked for S3 in the Center Building and through our campus as the "Food Service Tray, Dish and Silverware Wrangler" for 22 years. Hi was that friendly guy who would show up at the offices and break rooms in the Center Building to pick up Food Service trays, stacking them on his wheelchair and returning them to Food Service.

Bill retired in 2013 and enjoyed fishing, swimming, and making birdhouses and tile art, which he would sell in the LCC Cafeteria Dining Hall.

There will be a Celebration of Life at his home on Saturday, October 17, from 12-4 PM. You may join us or send cards to: McNair House Independent Environments, 946 Coburg Rd., Eugene OR 97401. Contact: Kim Hayes Specialized Support Services x.5719 or hayesk@lanecc.edu

KIM HAYES RETIRING

This is to announce that Kimberly Hayes of Specialized Support Services, having worked at Lane for more than 40 years, has retired effective September 30, 2015. However, she has opted to remain working on a time sheet capacity until the end of the year to ensure that her crew is well established with the new Food Services environment and her successor properly and effectively trained with the new system. This is another reflection of just how deep her sense of responsibility and her love of her work and vocation truly are.

So those of you who have known Kim through out her years of employment at LCC may still personally wish her well on this new phase of life as you see her at the Cafeteria going about her business of supporting the S3 student workers she supervises. Or you

may send her e-mails of well wishes or cards which I encourage you to do. Let's inundate her mail box with these.

Kim is one of the pioneers in the early 1970s of the department we know now as Specialized Support Services (S3) when it was still a floundering activity center. She started as a work study supporting high school transition students teaching them vocational and social skills. She was later permanently employed by the LCC Work Activity Center which S3 was known then and worked under a succession of directors the latest of which is Alyse Stone.

Some of her achievements include being the recipient of the February 2010 Classified Employee of the month as well as the ORA (Oregon Rehabilitation Association) Support Staff Person of the Year in 2014. Kim will be truly missed. She has gained a reputation of being a beacon of compassion and support among her peers, home providers and parents and most importantly, the student workers she supports. We all wish her the very best. Josie Skeers, Specialized Support Services, 5090.

KLCC REACHES FUNDRAISING GOAL IN RECORD TIME WITH INNOVATIVE APPROACH

KLCC reached its Fall Fundraising Goal of \$250,000 in the shortest amount of time in station history. A three week "Stealth Drive" brought in 90 percent of the goal, and a four hour on-air Radiothon finished the job. The goal was reached at 10:30 a.m. on October 6.

The Stealth Drive emphasized no interruption of programming, with direct requests for donations taking place during natural breaks between programs. Email and US Mail requests were also sent to listeners during the three week Stealth Drive.

KLCC's previous fund drives involved up to 8 weeks of pre-Radiothon mail requests and 8 days of on-air Radiothon, which required segments of programming to be replaced with fundraising pitches. The Stealth Drive shortened this process to three weeks and almost succeeded in replacing the on-air portion altogether. KLCC listeners responded with enthusiasm! When Radiothon began the morning of October 6, only \$9000 was left to raise. The goal was met in just over 4 hours.

KLCC relies on listeners and the local community for two-thirds of its operating budget. Listener support is essential to bringing NPR and KLCC's award winning programming to the KLCC audience. Over 2500 listeners contributed to KLCC during the Stealth Drive and the mini Radiothon.

KLCC serves over 80,000 listeners each week throughout western and central Oregon, providing thoughtful news and enlightened entertainment from NPR, KLCC, and other sources.

KLCC is appreciative and grateful to the listening community for responding to this new, innovative approach to fundraising.

NEWS AND ANNOUNCEMENTS

BOND PROJECT UPDATE; FORUMS BEGIN OCT. 21

We come to the final punch list items for the completion of the Center Building CLASS Project after months of noise, rattling and dust. The final bond project is beginning with the remodel of the second floor of Building 18 for the Media Arts program. But wait! There could be more projects in our future.

The Board of Education and the Bond Leadership Team are exploring the option of returning to the voters to ask for new money to continue the work of restoring and rebuilding Lane for students.

Our current 15 year bond from 2008 will not be paid off until 2023. If the board elects to move forward with an additional bond, it will require an additional investment from the voters.

How many projects and the total cost of these projects need to be vetted and decided between now and the end of fall term as we look forward to the General Election in November of 2016.

There is a project list developing of needs and ideas to improve the learning environment at all of our campus locations in addition to projects that will protect the campuses structurally.

We need your help in this decision making process. The Bond Leadership Team, in conjunction with the Facilities Council, is hosting a series of forums during the next two weeks to get bond construction ideas and needs.

There have been several project categories identified so far: Instructional Spaces, Instructional/Entrepreneurial Spaces, Operational Spaces. Sustainability/Living Lab and Seismic Upgrades and others to be added throughout this process. Please join in on one of the scheduled forums on:

- * Wednesday, October 21 from 1-4 p.m., Center for Meeting and Learning Room 103
- * Thursday, October 29 from 1-4 p.m., Center for Meeting and Learning Room 103
- * Join virtually online using the streaming viewing and blog system. The URL for the virtual blog will be provided soon.

Forum format: At the top of the hour, for about 15 minutes, a brief overview of the Bond Feasibility project will be presented in person and through the blog.

Time will then be available for the next 45 minutes for input via flip chart or the blog.

The forums are structured as an open house format so come as time permits in your schedule. Campus input is important and the Bond Leadership Team and the Facilities Council look forward to your participation during the next couple of weeks.

WOMEN'S VOLLEYBALL, MEN'S SOCCER TO JOIN SPORTS LINEUP

News release: <https://www.lanecc.edu/newsroom/n/nr1952> KEZI 9 News:

http://www.kezi.com/news/Lane_Community_College_Adds_New_Sports_Teams.html

Lane Community College will add women's volleyball and men's soccer to its successful lineup of collegiate athletic teams in 2016.

"We heard the demand from the community, we have seen the growing popularity of these two sports, and we look forward to welcoming these new student athletes to the Lane family," said Chris Hawken, division dean of Health, Physical Education and Athletics at Lane. "Our student athletes have a history of success both on and off the field, with great support from our athletics and academic programs."

Studies at Lane show that enrolling student athletes attracts additional students. The new teams are expected to draw 100 new full-time student athletes taking 4,500 credits

a year, plus 110 additional students taking at least 3,950 credits. Student athletes are also more likely to come from different backgrounds, helping to grow diversity at Lane. Tuition and fees plus state reimbursement are projected to exceed expenses. Interested students should contact Lane through the Prospective Student-Athlete Questionnaire, which can be found at <http://www.lanetitans.net>. Prospective coaches can find information about the open positions on the Lane employment website at <http://www.lanecc.edu/hr/lane-employment-online>. Contacts: Chris Hawken and Grady O'Connor.

EMPLOYEE CAMPAIGN A GREAT WAY TO HELP STUDENTS

The Employee Campaign is well underway. It is a great opportunity to support students, scholarships, projects and programs at Lane Community College, or to donate to community programs through the United Way. The Shining Star Scholarship is just one example of an area employees can direct their gift to. The Shining Star Scholarship is open to all LCC students, and supports programs across Lane.

Onto the exciting news: the results of the first raffle are in! Congratulations to:

1. Michael Samano, from the Social Science Department, who won a bottle of Legendre Cellars Arrastre wine, donated by Cathy Lindsley!
2. Sara Barnes, from Health Professions, who won \$20 Lane Dining Dollars, donated by Jenette Kane!
3. Katie Morrison-Graham, from the Science Department, who won a Euphoria chocolate bar, donated by the Foundation!
4. Tom Garrett, from Facilities, who won a Euphoria chocolate bar, donated by the Foundation!

There will seven more raffles throughout the campaign - plenty of chances to win prizes for donating! The next raffle will be held next Thursday, Oct. 22. Remember, the earlier you get your donation in, the more chances you have to win a prize!

We also want to congratulate Child & Family Education for starting the campaign with exceptional participation. Great job!

As a reminder, we encourage LCC employees go paperless and donate online through our electronic giving page, found at: <https://www.lanecc.edu/foundation/we-care-employee-campaign>

LOOKING FOR FOREVER HOME: This wonderful kitty's current address is our back porch, but he wants to find a permanent home before the weather deteriorates. Our vet, after looking at a picture, is "90 percent sure" this is a fixed male. He showed up awhile ago, very skinny and frightened before we began feeding him. Now he is quite affectionate, purrs and meows quite a bit, and has taken to sleeping in a carrier we placed on the porch. The kitty is small, probably young. He would make a wonderful pet. We cannot keep him because we have two indoor cats who have been with us for many years. If interested, or you know someone who would like a new wonderful kitty companion, call David and Christina at 541-484-6695, or 541-844-9185 or email: davinew@comcast.net

LYNDSAY RICE EXHIBIT "CHROMATIC EMBELLISHMENT" OPEN; LECTURE OCT. 28

Photo at: <https://www.lanecc.edu/newsroom/n/nr1956>

The Lane Art Gallery is proud to present "Chromatic Embellishment," an exhibition featuring works from 3-D artist Lyndsay Rice. Lyndsay is a recent graduate of the jewelry and metalsmithing MFA program at the University of Oregon and is currently teaching at Earlham College, Indiana.

Artist's Statement: I am interested in natural patterning and its relationship to communication in the natural world such as warning or attractant... I am curious about the translation of this natural imagery and its application in the human world. What is lost in translation? What is gained? Ornament is a visual embellishment attached to structure, whether that structure is the architectural facade of a building, or jewelry on the human form. Ornamentation is a representation of natural forms, such as plants or animal skins. In this installation, I intend to explore these aspects of ornamentation, where the work is derived of natural imagery, wearable, and offers optical engagement. The show runs from through November 12. There will be a lecture on Wednesday, October 28 at 2 p.m. with a reception immediately following. The galleries are located in building 11 on main campus, 4000 E. 30th Avenue. There is no charge for admission. For more information call Art and Applied Design at ext. 5409.

"TENTH AND YAMHILL, A PAINTING NARRATIVE" OPEN, LECTURE OCT. 29

Photos at: <https://www.lanecc.edu/newsroom/n/nr1955>

The Lane Community College Art Gallery is proud to present "Tenth and Yamhill, A Painted Narrative," an exhibition featuring the works of regional artist Margaret Coe. Margaret Coe, a longtime resident of Eugene and much exhibited artist, received her MFA from the University of Oregon in 1978. She studied with David McCosh, Andy Vincent, and Frank Okada, and has been influenced by Northwest artists, including Nelson Sandgren, Charles Heaney, and C.S. Price. She taught art for many years at the University of Oregon, Lane Community College, and the Maude Kerns Art Center. Artist's Statement: Margaret Coe spent the past year-and-a-half traveling with her daughter through the illness and eventual death of her two-year-old grandson, Marcus. The work that emerged from this period expresses the intensity of this most human experience, and invites the viewer to consider it in all its immediacy.

In a parallel to the grieving process itself, Coe begins each piece with a stark, black canvas. Shades of gray are introduced, and then gradually color comes back into the picture. Unlike her recent work, these sixteen 20" x 20" paintings are not only smaller, but are unframed with wrapped canvas edges, giving the viewer a direct, unmitigated encounter with the image.

The series has a narrative quality. A cast of forms are assembled to populate the surreal and threatening stage. People and objects, buildings and cars recombine and interact with the desperate mother and child, huddling away from danger. The paintings become more and more abstract; the mother and child disappear; and the screen fades to black. Coe has undertaken a brave exploration of pain and loss.

The show runs from October 26 to November 12. There will be a lecture on Thursday, October 29 at 3:15 pm with a reception immediately following.

The galleries are located in building 11 on main campus, 4000 E. 30th Avenue. There is no charge for admission. The Art and Applied Design Department phone number is 541-463-5409.

MAKE COMPUTER POWER MANAGEMENT WORK WITH THE "Turn It Off" CAMPAIGN

Concerned about your work computer being on in the morning even though you are sure you turned it off? Information Technology (IT) and the Institute for Sustainable Practices (ISP) are on the case of the zombie computer! Here is what IT is doing to protect your computer from harm and waste:

- * Lane's IT staff already implements power savings for over 2,000 computers by purchasing Energy Star computer and monitors and setting up all end user machines and/or monitors with integrated power saving features.
 - * IT is working with the ISP to enhance its capacity to turn computers off after important upgrades are done weekly by waking up computers after working hours to minimize disruption to your computer work during the day. Upgrades include scripts that are remotely deployed to protect against malevolent software such as CryptoLocker.
 - * IT is looking to further reduce waste by deploying better energy management schemes without interfering in your ability to work. It's trickier than it looks!
 - * The easy part is in your hands. Simply turning off your computer and monitor after working hours reduces our energy costs per computer by \$14 to \$41 annually. For over 2,000 computers that a savings that adds up quickly!

SPA PRESENTS MARTIN MCDONAGH'S "THE PILLOWMAN," NOV 13-21

Photos at: <https://www.lanecc.edu/newsroom/n/nr1954>

Martin McDonagh has been called "the Quentin Tarantino of the theatre." The Student Production Association of Lane is proud to open their season with his dark comedy *The Pillowman* in the intimate Blue Door theatre on Lane's campus.

Katurian, a writer in a totalitarian state, is interrogated about his short stories, the content of which are eerily similar to a series of murders in the area. With both the writer and his brother held captive, the police work to ferret out the truth--but is that what they're really after? Martin McDonagh's brutal dark comedy examines the nature of fairy tales, family, and consequences. Influenced by the Brothers Grimm, Franz Kafka, and Antonin Artaud, *The Pillowman* is a dark, twisty, and unforgettable masterpiece from one of Ireland's most celebrated contemporary writers.

Tara Wibrew, Associate Producer at Oregon Contemporary Theatre and former SPA board president, is pleased to return to Lane to direct. According to Wibrew, "We're raised on two-dimensional stories of right and wrong, good and evil. And that kind of storytelling continues in plenty of movies, books, television--even the news. The Pillowman explores how life--and art--is multifaceted and multidimensional. As soon as we draw a line between black and white, we discover the spectrum of gray between." The cast consists of Lane Theatre majors: Taylor Freeman, Aaron Smart, David Arnold, Cash McAllister, Dakota Berman, Tyra Potter, John Kerns, and Rebecca Blanchard. Set design is by Amy Dunn, Master Carpenter at Oregon Contemporary Theatre. Lighting Design is by Lane's Technical Director James McConkey. Tickets for The Pillowman are \$5.00 for students and seniors and \$10.00 for the general public. All profits from all SPA presentations go directly to pay for tuition for theatre students at Lane. High School students may always attend SPA presentations for free. Tickets may be purchased in advance at www.lanecc.edu/tickets or reserved by calling 541-463-5648. This production is recommended for audiences ages 16 and up. Please contact Brian Haimbach at haimbachb@lanecc.edu or Error! Hyperlink reference not valid. for more information.

LOOKING FOR FOREVER HOME: This wonderful kitty's current address is our back porch, but he wants to find a permanent home before the weather deteriorates. Our vet, after looking at a picture, is "90 percent sure" this is a fixed male. He showed up awhile ago, very skinny and frightened before we began feeding him. Now he is quite affectionate, purrs and meows quite a bit, and has taken to sleeping in a carrier we placed on the porch. The kitty is small, probably young. He would make a wonderful pet. We cannot keep him because we have two indoor cats who have been with us for many years. If

ARE PURE WATER, CLEAN AIR AND A HEALTHY ENVIRONMENT A CONSTITUTIONAL RIGHT? FIND OUT NOV. 9

As drought changes the landscapes and future of Oregon and the nation, the Watershed Science Technician program at Lane is hosting a presentation by the Delaware Riverkeeper Network of Pennsylvania on "Pure Water, Clean Air, and a Healthy Environment." The presentation will be Monday, November 9, at 7 p.m. in the Center for Meeting and Learning at Lane's Downtown Campus, 101 W. 10th Avenue, Eugene.

Speaker Maya van Rossum will talk about the Delaware Riverkeeper Network project in Pennsylvania and how it could potentially become part of a national movement. In particular, Oregon is one of many states in which their network is reaching out to provide more public information and answer questions.

In Pennsylvania, Peoples' rights to pure water, clean air and a healthy environment have been recognized by the Commonwealth's highest court as inherent and indefeasible rights to be protected by all levels of government for both present and future generations, according to the Network. "Environment rights should be recognized and protected by every state in the nation

with as much conviction as our rights to free speech and the other political rights we hold dear. Oregon has no environmental rights provision in its constitution," says van Rossum. The event is free and the public is invited. Contact: Paul Ruscher, ext. 5447 or ruscherp@lanecc.edu

MAPLE ELEMENTARY IN NEED OF CHILDREN'S SCHOOL CLOTHES: Maple Elementary in Springfield needs children's school clothes, size 6-10 for their clothes closet (especially pants) and gently used shoes children's size 10 and up. My daughter is a speech therapist at Maple, a high poverty school. Staff set up the clothes closet so when children spill or have accidents during the day, there's a supply of changes of clothes so they can finish out the day clean, dry and unembarrassed. (Accidents have been more frequent while the new kindergartners get used to full-day school.) We're labeling clothes so parents can return items to be washed and reused. I can patch rips and holes and cover up stains, so "well-loved" clothes are welcome. E-mail or call me and I'll pick up from your office or drop items off at 11-245B. Cathy Lindsley (lindsleyc@lanecc.edu) and x5441.

HELP SPREAD THE WARMTH: As the temperatures lower we think even more about people who need our help. Lane staff and students are starting to collect blankets and warm clothing for this year's free Whiteaker Community Thanksgiving Dinner on November 26 for 2,500 men, women and children. We need 1,000 rain gear and warm coats, especially large sizes. Our goal is to have 400 sleeping bags and 300 blankets that will distribute during the dinner. People can sponsor sleeping bags for \$15 each and blankets for \$10 each. Tax-deductible checks may be made to Whiteaker Community Dinners. Donations may be sent or dropped off to Beverly Farfan at the Cooperative Education office building 19, Room 231. Volunteers are still needed. For more information and how to get involved go to www.wcdinner.org or contact Beverly Farfan at farfanb@lanecc.edu or cell 541-912-2228."

NEED A PET/HOUSE-SITTER OVER THE HOLIDAYS? I have a recommendation if you need a great house and/or pet sitter. For contact info., call Patsy at x5298 or email raneyp@lanecc.edu

LOOKING FOR ALL-AROUND HANDYMAN: Anyone know someone who is dependable, reasonable, hard working, and wanting to work? I'm looking for someone to clean off roof, gutters, and do other outside chores. Marla x3108 "

RESULTS FOR BLDG 16 MATH & SCIENCE OCT ENERGY SAVINGS SHOWCASE
Hot on the trail savings goal! - The results are in! Efforts targeting lighting and equipment plug loads with a 'Turn It Off – Making Good Choices' attitude brought the Building 16 Math & Science team within five percent of their goal to reduce energy use below the 2014 baseline year for the month of October. The big surprise? Electrical usage data for October 2015 verses October 2005 indicates that there is a reduction of 13 percent compared to ten years ago.

Let's help the college say goodbye to leave-it-on habits and join Building 16 staff and students as they continue to chase their energy savings baseline by taking small steps at work to save energy and make a big difference.

Take action! Are your plug loads partying all night long? Turn off lights, computers, monitors, printers, and other plug loads when not in use.

LANE'S IT TEAM HITS ENERGY SAVINGS HOME RUN WITH FASTLANE

Lane Community College's Information Technology (IT) department isn't letting the grass grow under their feet when it comes to knocking down energy savings goals. Our IT department is actively pursuing the college's ENERGY STAR Low Carbon IT goal of installing power saving settings on over 2000 computers and monitors without interfering in your ability to work. Last week IT team member Paul Bunch hit a home run helping Lane achieve 35 percent of our goal in just seven months since making our Energy Star Low Carbon IT pledge. The estimated annual savings for deploying this improved energy management scheme on more than 800 FastLane computers and monitors is \$33,000 and the power saved is the equivalent for 21 average Lane County residential houses.

Stay tuned as IT and Paul are not finished with their good work bringing computer power management savings into the FastLane.

Want to help Lane with our Low Carbon IT campaign and not a FastLane computer user? No worries! Simply turning off your computer and monitor after working hours

reduces our energy costs per computer by \$14 to \$41 annually. For more than 2,000 computers that a savings that adds up quickly!

LCC FILM FOLLOWS DANCE CREATION USING HORSES AND YOUNG ADULTS WITH AUTISM

The Dance Program at Lane Community College will present the documentary HÅSTDANS på HOVDALA (Horse Dance on Hovdala) on Tuesday, November 17, 2015 at 7:30pm in the Ragozzino Performance Hall on the LCC main campus. Admission is by donation.

HÅSTDANS på HOVDALA is a film about a unique creation process. In July 2013, choreographer JoAnna Mendl Shaw's The Equus Projects spent three weeks in a Swedish forest creating an evening length theatre work that brought together four dancers, four horses and a cast of Swedish performers with autism. Filmmaker David Fishel follows the progression of the creation process, the equine training and the deepening connection that developed between the Swedish, American and equine performers. HÅSTDANS på HOVDALA, choreographed by Shaw, was commissioned by Klinten Kultur, a Swedish Theatre company that produces ground-breaking performance works with young adults with autism.

JoAnna Mendl Shaw, who will be the guest artist of the LCC Dance Program, Nov. 16-20, is the recipient of two Choreographic Fellowships from the National Endowment for the Arts.

MAPLE ELEMENTARY IN NEED OF CHILDREN'S SCHOOL CLOTHES: Maple Elementary in Springfield needs children's school clothes, size 6-10 for their clothes closet (especially pants) and gently used shoes children's size 10 and up. My daughter is a speech therapist at Maple, a high poverty school. Staff set up the clothes closet so when children spill or have accidents during the day, there's a supply of changes of clothes so they can finish out the day clean, dry and unembarrassed. (Accidents have

been more frequent while the new kindergartners get used to full-day school.) We're labeling clothes so parents can return items to be washed and reused. I can patch rips and holes and cover up stains, so "well-loved" clothes are welcome. E-mail or call me and I'll pick up from your office or drop items off at 11-245B. Return your gifts by December 4. Student Life and the Women's Center are sponsoring the annual Holiday Giving Tree in Building 1, outside of Room 206. The tree is full of names of children on Lane students. If you can, please take a tag and buy a gift or two for these kids who could use a little extra this season. We now have less than twenty tags left on the tree (THANK YOU SO MUCH). We are asking that gifts be returned by December 4 or by finals week at the very latest so students do not have to make an extra trip to get them home as some of them do not have vehicles. This project has been running successfully for over 30 years. Parents appreciate every bit of it too. We appreciate your giving spirit and thoughtfulness. If you have any questions please contact either Marci Parker at extension 5353 or Tina Lymath at extension 5336.

MEET LANE'S VETERANS SERVICES TEAM

Enrollment and Financial Services is proud to introduce to you the new Veterans Services team in the Veterans Services suite, Building 19, Room 233.

SAM EVANS is Lane's new full-time Veterans Educational Benefits Certifying Official. He can be reached at (541) 463-5663. Sam joined the Veterans Services team on November 19. Here's a hello from him:

"Hello Lane CC students and colleagues. I'm excited to join Stacey and Sharon on the Veterans Services team. I am coming to you after completing a 26-year career in the Air Force. For those of you familiar with the military rank structure, I was an E-8, Senior Master Sergeant. My military background was Financial Management along with a three-year special duty as a First Sergeant. I have a strong education background and I began that journey at a community college similar to Lane. I know my military background and passion for education will benefit Lane CC and students entitled to GI benefits. I will work hard in the coming months to get up to speed on the Veterans Services program and I welcome your suggestions, complaints, and kudos. Stacey, Sharon, and I will provide a first-class Lane experience for veterans and dependents."

SHARON HAINLEY is our Veterans Services Part-time Administrative Specialist. She can be reached at (541) 463-5684. Here is what Sharon wants you to know about her:

"I'm starting my 28th year at Lane - I was here before e-mail, and have regularly worked out every term in the Fitness Education Center since winter term 1997. I've gotten to know a lot of people there, many of them among our veteran students! My work assignments at Lane began in Health Services, then to English, Foreign Language and Speech (now Language, Literature and Communications), then to Institutional Research and Planning, then to Music, Dance and Theatre Arts, and finally in July 2012 coming to Veterans Services. It is an honor and a privilege to work here. "

STACEY VASQUEZ, our part-time Veterans Educational Benefits Certifying Official. Her number is (541) 463-5683. Here's what Stacey wants to share:

"As a 2014 Lane Community College graduate and proud Navy Seabee wife, I understand first-hand the unique challenges veteran and military students face when transitioning into an academic setting. Most people who have met me, have described me as a walking Veterans Day and 4th of July parade, rolled into one.

And a note from me, Helen Garrett, Dean of Enrollment Management Services and proud manager of the Veterans Services team: "I want to give a special note of gratitude to our veterans and students receiving VA chapter benefits who may have been impacted by the transition from Ellen Jones, after a fabulous career of serving students with chapter benefits, from October 1, 2015, to when Sam came on board.

"We believe that all students at Lane receive an enhanced educational experience by learning among veterans and we are grateful that you chose to use your benefits at Lane Community College.

"When corresponding with Sam and Stacey regarding VA chapter benefits, please use the new VAEDBenefits@lanecc.edu email so they can both see your emails and respond to you more quickly.

Most importantly, if you complete the contact information form at <https://www.lanecc.edu/va/inquiry-form> we can take care of you even more efficiently. You can write to Sharon directly at hainleys@lanecc.edu Thank you!"

NEWS AND ANNOUNCEMENTS

SANDY JENSEN, BOB ESTILL WIN FACULTY RECOGNITION AWARDS

Two outstanding faculty were presented with fall 2015 Faculty Recognition Awards last week.

Congratulations to Sandy Brown Jensen, Lane's digital story-telling genius, and Bob Estill, sought-after math instructor at LCC at Florence.

One of Sandy's students wrote, "I had never thought of myself as someone who was artistic, I could not draw much more than stick figures and I was less than confident in my own writing. Then Sandy guided us through making digital stories and she did so much more than show me a new art medium or a way of telling a story. What she did was ignite a passion."

One of Bob's students wrote, "I have never encountered a professor who was so committed and dedicated to the success of his students. He sees hidden potential people and strives to draw it out. He believed in me more than I believed in myself."

Congratulations, Sandy and Bob. For information on Faculty Recognition Awards contact Joseph Colton.

DIGGING DEEP FOR ENERGY SAVINGS: BLDG 16 MATH/SCIENCE RACE TO BREAK THEIR RECORD

One week left in their fall term "Turn It Off – Making Good Choices" showcase finds the Building 16 Math/Science staff digging deep to mine energy savings by consistently turning off their un-needed lighting and equipment plug loads. By encouraging people to continue to take small steps at work to save energy their results are making a big difference posting double digit (about 14 percent) in electrical energy and redoubling their efforts for solid waste reductions by composting for the last weeks of the 2015 term over the baseline year of 2014. Stay tuned for the "Turn It Off – Making Good Choices" Building 16 showcase's wrap up trivia contest and prizes. Way to "Turn It Off & Make Good Choices"

FROM THE CAREER CENTER: MILLENNIALS TAKE CONTROL OF THE JOB MARKET

Have you ever heard the notion that Millennials are taking over the job market? We've got news for you—it happened! Apparently, it took place in the first quarter of 2015. For decades, the Baby Boomer generation has dominated the labor market as the largest generation. In 2012, just as the oldest Baby Boomers (like Bill Clinton and George W. Bush) were turning 66, Generation X became the largest generation in the labor market. As one of the smaller generations, Gen X only held the title for a short while until earlier this year when Millennials officially became the largest generation in our job market; a title they are likely to hold for decades! Today, there are virtually no Greatest Generation workers in the job market, 2 percent are in the Silent Generation, 29 percent are Baby Boomers, 34 percent are Gen X'ers, 34 percent are Millennials and an emerging 1 percent are Post-Millennials. DID YOU HAPPEN TO RECORD THE PERFORMANCE of the Lane Chamber Choir in Building 1 on Wednesday, December 2? If you or anyone you know happened to get a recording of the Lane Chamber Choir's performance in Building 1 on Wednesday December 2 at approximately 11:30 am, I would really love to get a copy of it. We sang Hark I Hear the Harps Eternal and Tomorrow Shall Be My Dancing Day and I saw several people in the audience recording with their phones. Our own recording of it fell through. Can you please share it with me? Thanks and best wishes, Matthew Svoboda.

People across the world are taking to the streets to make sure the people, not the politicians, have the last word. In Eugene, people will gather on Saturday Dec. 12 at 11:00 a.m. inside Lane Events Center lobby at Holiday Market for one hour in solidarity with activists worldwide. PHOTOGRAPHY EXHIBIT FEATURING CAMILLA DUSSINGER AND JOHN WATSON OPENS JANUARY 4

The Lane Community College Art Gallery is proud to present a two-person photo exhibition, "The Verge and 18th Century Gowns" by Camilla Dussinger and "John, A Tale of Two Photographers," by John Watson.

Camilla Dussinger and John Watson are both faculty within the Department of Art and Applied Design. Both work in photography as their primary medium but approach subject matter very differently.

Camilla Dussinger, Artist Statement:

The two series of work in this exhibit explore various ideas behind beauty, desire and identity. The larger color photographs deal with the body in repose and attempt to reveal a state of surrender and vulnerability that one may experience during sleep, while the black and white photographs are a result of a fortuitous encounter with a fashion designer and her male models wearing 18th century gowns and wigs.

While the photos of the latter follow a more traditional sense of portraiture, The Verge photos are glimpses of sleeping figures shrouded in some sort of liquid glaze. The flowing liquid movement is obtained during the making of the prints in the darkroom. No two prints are exactly alike, because of how the manipulation is applied. In some of the images, the colors sweep across the surface blurring and distorting the figure. In others, a veil of liquid covers the sleeping figure as if the body is suspended in gelatin. While half the process of creating the images occurs while shooting in the studio, the other half lies in the elements of surprise that develop in the darkroom.

John Watson: Artist Statement:

On one day I may be documenting an event, and suddenly see something. My mind shifts gears and I transition from documentarian to artist. But aren't there beautiful photos of places and events? True, but when the intent of the photographer changes, the results can be dramatically different.

Why the juxtaposition of these particular images? The images of the churches document an all-encompassing obsession with the Divine. This obsession is realized most graphically in churches of the borderlands and on into southern Mexico. The religion, a syncretic combination of 16th century Catholic faith with the old Aztec gods and goddesses, wraps you like a cloak, sometimes keeping you safe, sometimes becoming a spiritual albatross, keeping you from the life you imagined for yourself.

The cyanotype images of the Girl (from the series "The Girl and God") convey what it is to abandon the faith you were raised with, only to find that it is in your DNA and you may never be truly free of it. The nakedness of the female figure in the church speaks to the flaunting of "freedom" from God. But as with Eve in Eden, she finds herself physically naked, facing an evil world without protection. The separation from her Maker isn't quite working out the way she planned.

Taken together, the series of images speak of the currents and undercurrents of life under the shell of religion. The interiors of these churches are beautiful, and beckon one to spend time with the Creator. The coldness of the cyanotypes reflects the world outside of the church, a coldness one feels even as

one sits inside of one of these marvelous places. Will she return to the fold, or find the strength to move on?

The show runs from January 4 to February 11 with an artist lecture and reception on Thursday, January 14 at 3:00 pm. The gallery is located in building 11 on the main campus. There is no charge for admission. The Art and Applied Design Department phone number is 541-463-5409.

LEAGUE FOR INNOVATIONS JUROR'S EXHIBIT OPENS JANUARY 4

The Lane Community College Art Gallery is proud to present the exhibition, Variations, featuring Rob Beishline, Fred Herbst and Rick Love, our League Jurors from the 29th Annual League for Innovations Art Catalog, produced by Lane Community College in the spring of 2015. All three artists served as our panel of jurors for the League for Innovation National Competition. Their task was to select winners from works submitted by 17 community college art programs from across the country.

Rob Beishline is a professor of Art and Department Chair for Visual and Performing Arts and Humanities at Whatcom Community College in Bellingham Washington. Rick Love is an Assistant Professor of Art and Design at University of Northwestern in St. Paul Minnesota. Fred Herbst is a Professor of Art at Corning Community College in Corning, New York.

Rob Beishline Artist Statement:

My studio work focuses on the intersection between functional and sculptural forms in ceramics. While my core influences are the waters and woods of the Northwest, everyday forms like radios, camper trailers, and cars take their place amidst the earthy pottery forms. My current exploration of screen printing, and image transfer techniques on clay and paper is influenced by my interest in poetry and narrative, and by a desire to express the stories and mythology I see in the lives of people around me. I enjoy elevating these characters through decoration inspired by Turkish Ottoman decorative patterns, and Dutch Delft decoration.

Fred Herbst, Artist Statement:

My current functional work references organic shapes found in the gardens I have tended throughout my life. A variety of vegetal forms have become the inspiration for the jars, bottles, bowls, teapots and other functional forms I create. As an artist, I draw influence from the bounty of shapes and work to make permanent these plant forms that are vital to nourishing us. In turn, my utilitarian forms become the host to the foods that spark their inspiration.

Rick Love, Artist Statement:

This is a series of sixty-six screen prints that were inspired by the Mississippi River. I live in St. Paul Minnesota and the Mississippi is two miles from my house. I see it frequently on my runs, while driving around town and occasionally I drive over it to visit Minneapolis. The inspiration for this piece came from the idea that the river is always moving, always changing, always similar yet never the same. To help me express this idea, I turned to Math. I created a word problem then set out to solve it visually. Here it is: How many unique images can you make using three different images and three separate colors? What you see in front of you are all the options, all the one colors, all the two colors, all the three colors. You can see the answer, it is the sixty-six prints, each one unique but very similar to the others, like the river.

The show runs from January 4 to February 11 with an artist lecture and reception on Thursday, January 21 at 3:00 pm. The gallery is located in building 11 on the main campus. There is no charge for admission. The Art and Applied Design Department phone number is 541-463-5409.

EVENTS THIS WEEK

HAZMAT TEAM MEETING AND TRAINING, DEC. 29

The Hazmat Team will be having its third team meeting on December 29. Lane faculty, staff and students are invited to join us in Building 16, Room 217 from 1:30-3 p.m. Contact: Christopher M. Hanneson, Public Safety.

ROOFTOP EMERGENCY ALARM SYSTEM TEST, DEC. 30

Lane will test and calibrate a new rooftop emergency alarm system on Wednesday, Dec. 30 between 1 and 4 p.m. It will be an alarm tone followed by a voice message.

The alarm will be audible in the Bloomberg and Oakhill areas adjacent to campus. It is estimated to be about 65 decibels (dB) in the Bloomberg Road neighborhood, about 92 dB at Oak Hill School, and about 101 dB at the source. By comparison, a typical lawnmower or hand drill emits about 90 to 93 dBs.

According to OSHA, 101 dB is the limit for safe exposure for up to 1.5 continuous hours.

The alarm will be installed on the top of the Center Building in the middle of main campus. The alarm will augment the college's ability to issue emergency communications and warnings.

For more information contact Jennifer Hayward in the LCC Facilities, Management and Planning Department at (541) 463-5594 or haywardj@lanecc.edu

LANE HIRES HEAD COACH FOR THE NEW MEN'S SOCCER TEAM

Lane Community College is pleased to announce the appointment of John Galas as the Head Coach of the new Men's Soccer Team. Coach Galas brings a wealth of experience from coaching at both the collegiate and professional levels.

Coach Galas is currently the Head Coach of Lane United FC of the United Soccer Leagues Premier Development League here in Eugene and adding the coaching duties at Lane "is a natural step" according to Galas.

Coach Galas' prior professional coaching experience includes helping guide the Portland Thorns to a national Championship, Goalkeeping Coach with the Portland Timbers and working with the Real Salt Lake Academy.

At the collegiate level Coach Galas has worked with Florida State University, University of Oregon and the University of Arizona that resulted in multiple appearances in the NCAA Tournament.

"We have hired an excellent coach who brings a wealth of experience at both the intercollegiate and professional levels", said Greg Sheley, Lane CC Director of Athletics. "Coach Galas will be able to step right in and help our student athletes academically and athletically, putting Lane CC Men's Soccer in a great position to be successful".

In addition to his breadth of coaching experience, Coach Galas also carries some impressive credentials that include a United States Soccer Federation "A" License and a National Soccer Coaches Association of America "Premier" Diploma. He received his MBA from the University of Liverpool, specializing in Football (soccer) Industries and his Bachelor's Degree from the University of Oregon.

Coach Galas will be getting right into the recruiting process as there have been dozens of potential student athletes that have registered their interest in playing for Lane CC through the Lane Titans website and reaching out directly to Lane CC Athletic staff. Any interested student athletes can access this interest form at <http://www.lanetitans.net/recruits/>.

The Lane Community College Men's Soccer program has the maximum number of Grant-In-Aid financial aid awards that are allowable under NWAC rules. This puts Lane CC in a strong place to compete for the best student athletes and offer them an opportunity to continue their education and their love of volleyball at a reduced tuition cost.

PHOTOGRAPHY EXHIBIT FEATURING CAMILLA DUSSINGER AND JOHN WATSON OPENS JANUARY 4

The Lane Community College Art Gallery is proud to present a two-person photo exhibition, "The Verge and 18th Century Gowns" by Camilla Dussinger and "John, A Tale of Two Photographers," by John Watson.

Camilla Dussinger and John Watson are both faculty within the Department of Art and Applied Design. Both work in photography as their primary medium but approach subject matter very differently.

Camilla Dussinger, Artist Statement:

The two series of work in this exhibit explore various ideas behind beauty, desire and identity. The larger color photographs deal with the body in repose and attempt to reveal a state of surrender and vulnerability that one may experience during sleep, while the black and white photographs are a result

of a fortuitous encounter with a fashion designer and her male models wearing 18th century gowns and wigs.

While the photos of the latter follow a more traditional sense of portraiture, The Verge photos are glimpses of sleeping figures shrouded in some sort of liquid glaze. The flowing liquid movement is obtained during the making of the prints in the darkroom. No two prints are exactly alike, because of how the manipulation is applied. In some of the images, the colors sweep across the surface blurring and distorting the figure. In others, a veil of liquid covers the sleeping figure as if the body is suspended in gelatin. While half the process of creating the images occurs while shooting in the studio, the other half lies in the elements of surprise that develop in the darkroom.

John Watson: Artist Statement:

On one day I may be documenting an event, and suddenly see something. My mind shifts gears and I transition from documentarian to artist. But aren't there beautiful photos of places and events? True, but when the intent of the photographer changes, the results can be dramatically different.

Why the juxtaposition of these particular images? The images of the churches document an all-encompassing obsession with the Divine. This obsession is realized most graphically in churches of the borderlands and on into southern Mexico. The religion, a syncretic combination of 16th century Catholic faith with the old Aztec gods and goddesses, wraps you like a cloak, sometimes keeping you safe, sometimes becoming a spiritual albatross, keeping you from the life you imagined for yourself.

The cyanotype images of the Girl (from the series "The Girl and God") convey what it is to abandon the faith you were raised with, only to find that it is in your DNA and you may never be truly free of it. The nakedness of the female figure in the church speaks to the flaunting of "freedom" from God. But as with Eve in Eden, she finds herself physically naked, facing an evil world without protection. The separation from her Maker isn't quite working out the way she planned.

Taken together, the series of images speak of the currents and undercurrents of life under the shell of religion. The interiors of these churches are beautiful, and beckon one to spend time with the Creator. The coldness of the cyanotypes reflects the world outside of the church, a coldness one feels even as one sits inside of one of these marvelous places. Will she return to the fold, or find the strength to move on?

The show runs from January 4 to February 11 with an artist lecture and reception on Thursday, January 14 at 3:00 pm. The gallery is located in building 11 on the main campus. There is no charge for admission. The Art and Applied Design Department phone number is 541-463-5409.

LEAGUE FOR INNOVATIONS JUROR'S EXHIBIT OPENS JANUARY 4

The Lane Community College Art Gallery is proud to present the exhibition, Variations, featuring Rob Beishline, Fred Herbst and Rick Love, our League Jurors from the 29th Annual League for Innovations Art Catalog, produced by Lane Community College in the spring of 2015. All three artists served as our panel of jurors for the League for Innovation National Competition. Their task was to select winners from works submitted by 17 community college art programs from across the country.

Rob Beishline is a professor of Art and Department Chair for Visual and Performing Arts and Humanities at Whatcom Community College in Bellingham Washington. Rick Love is an Assistant Professor of Art and Design at University of Northwestern in St. Paul Minnesota. Fred Herbst is a Professor of Art at Corning Community College in Corning, New York.

Rob Beishline Artist Statement:

My studio work focuses on the intersection between functional and sculptural forms in ceramics. While my core influences are the waters and woods of the Northwest, everyday forms like radios, camper trailers, and cars take their place amidst the earthy pottery forms. My current exploration of screen printing, and image transfer techniques on clay and paper is influenced by my interest in poetry and narrative, and by a desire to express the stories and mythology I see in the lives of people around me. I enjoy elevating these characters through decoration inspired by Turkish Ottoman decorative patterns, and Dutch Delft decoration.

Fred Herbst, Artist Statement:

My current functional work references organic shapes found in the gardens I have tended throughout my life. A variety of vegetal forms have become the inspiration for the jars, bottles, bowls, teapots and other functional forms I create. As an artist, I draw influence from the bounty of shapes and work to make permanent these plant forms that are vital to nourishing us. In turn, my utilitarian forms become the host to the foods that spark their inspiration.

Rick Love, Artist Statement:

This is a series of sixty-six screen prints that were inspired by the Mississippi River. I live in St. Paul Minnesota and the Mississippi is two miles from my house. I see it frequently on my runs, while driving around town and occasionally I drive over it to visit Minneapolis. The inspiration for this piece came from the idea that the river is always moving, always changing, always similar yet never the same. To help me express this idea, I turned to Math. I created a word problem then set out to solve it visually. Here it is: How many unique images can you make using three different images and three separate colors? What you see in front of you are all the options, all the one colors, all the two colors, all the three colors. You can see the answer, it is the sixty-six prints, each one unique but very similar to the others, like the river.

The show runs from January 4 to February 11 with an artist lecture and reception on Thursday, January 21 at 3:00 pm. The gallery is located in building 11 on the main campus. There is no charge for admission. The Art and Applied Design Department phone number is 541-463-5409.
