EVENTS THIS WEEK

"AFTERNOON OF A FAUN," DANCE FILM, JAN. 8

DanceAbility International, in association with Lane Performing Arts, Eugene Ballet company, Ballet Fantastique, and the Northwest screendance exposition, will present the film "Afternoon of a Faun," the story of the legendary ballerina Tanaquil Le Clercq, this Friday, Jan. 8 at 7:00 p.m. in the Blue Door Theater. Tanny's work with famed choreographers George Balanchine and Jerome Robbins in the 1950s presented ballet in a new light. At the very height of her career, she was stricken with polio. The film follows her life, demonstrating the fleeting nature of ballet, and the resilience of the human spirit. Admission is free, but you should reserve a seat at www.lanecc.edu/tickets. About half the seats have been reserved as of Tuesday morning. For information, contact John Watson at watsonj@lanecc.edu or ext. 5161.

When: Wednesday, January 20, 3-4 p.m.; or Thursday, Jan. 21, 4-5 p.m. Where: Northwest Commons, Center Building 2nd Floor. Submitted by Jennifer Falzerano.

SOCIAL SECURITY SEMINAR, JAN. 20 AND 21

Social Security Seminar, Wed, Jan 20 and Thurs. Jan. 21, both from 12:00 n - 1:00 pm. Both sessions located in Forum 309. Anna Pomykala from Foresters Financial will hold two seminars on Social Security changes. We have talked in the past about how to maximize your social security benefits while coordinating benefits with your spouse. Now that's all changing, as the Bipartisan Budget Act of 2015 will close two major loop holes: file and suspend<<http://links.horseshmouth.mkt6441.com/ctt?kn=18&ms=MjQyMDkyOTQs1&r=MTU2NDYyNTExNDYzS0&b=0&j=NzAxMDY1MTUyS0&mt=1&rt=0>> and the restricted application.

These changes will require baby boomers to be very careful in determining who can still file a restricted application when they turn FRA, and whether it is the best move. The more immediate phase-out of file-and-suspend (April 30, 2016) will, however, put a crimp in some individuals' plans.

In addition, at this workshop you will learn: factors to consider when deciding When to apply for benefits / When it makes sense to delay benefits / How to estimate your benefits / Rules for spousal,

survivor and ex-spousal benefits / Annual earnings test / Taxation of benefits / How to coordinate social security with other income sources

Please RSVP to Anna at 800-394-6620 ext. 277 or email: anna.pomykala@foresters.com

Door prizes will be provided! Submitted by Kathy Alexander, Human Resources, ext. 5586

LANE HIRES HEAD COACH FOR THE NEW MEN'S SOCCER TEAM

Lane Community College is pleased to announce the appointment of John Galas as the Head Coach of the new Men's Soccer Team. Coach Galas brings a wealth of experience from coaching at both the collegiate and professional levels.

Coach Galas is currently the Head Coach of Lane United FC of the United Soccer Leagues Premier Development League here in Eugene and adding the coaching duties at Lane "is a natural step" according to Galas.

Coach Galas' prior professional coaching experience includes helping guide the Portland Thorns to a national Championship, Goalkeeping Coach with the Portland Timbers and working with the Real Salt Lake Academy.

At the collegiate level Coach Galas has worked with Florida State University, University of Oregon and the University of Arizona that resulted in multiple appearances in the NCAA Tournament.

"We have hired an excellent coach who brings a wealth of experience at both the intercollegiate and professional levels", said Greg Sheley, Lane CC Director of Athletics. "Coach Galas will be able to step right in and help our student athletes academically and athletically, putting Lane CC Men's Soccer in a great position to be successful".

In addition to his breadth of coaching experience, Coach Galas also carries some impressive credentials that include a United States Soccer Federation "A" License and a National Soccer Coaches Association of America "Premier" Diploma. He received his MBA from the University of Liverpool, specializing in Football (soccer) Industries and his Bachelor's Degree from the University of Oregon.

Coach Galas will be getting right into the recruiting process as there have been dozens of potential student athletes that have registered their interest in playing for Lane CC through the Lane Titans website and reaching out directly to Lane CC Athletic staff. Any interested student athletes can access this interest form at <http://www.lanetitans.net/recruits/>.

The Lane Community College Men's Soccer program has the maximum number of Grant-In-Aid financial aid awards that are allowable under NWAC rules. This puts Lane CC in a strong place to compete for the best student athletes and offer them an opportunity to continue their education and their love of volleyball at a reduced tuition cost.

For more information please contact Greg Sheley, Lane CC Director of Athletics at 541.463.5548.

Social Security seminars will be held on Jan 20, 21, March 8, 10, and April 6, 7; PERS seminars will be held Feb. 21, 22 and April 12, 13; Health Care in Retirement seminar will be held Feb 3, 4. SOCIAL SECURITY SEMINAR, JAN. 20

A Social Security seminar will be held Wednesday, Jan. 20 from 12-1 p.m. in Forum 309. Anna Pomykala from Foresters Financial will hold two seminars on Social Security changes. We have talked in the past about how to maximize your social security benefits while coordinating benefits with your spouse. Now that's all changing, as the Bipartisan Budget Act of 2015 will close two major loop holes: file and suspend:

These changes will require baby boomers to be very careful in determining who can still file a restricted application when they turn FRA, and whether it is the best move. The more immediate phase-out of file-and-suspend (April 30, 2016) will, however, put a crimp in some individuals' plans.

PLANNING FOR HEALTH CARE EXPENSES IN RETIREMENT: Q&A, FEB. 3 AND 4

Wednesday, Feb. 3, from 4-5 p.m. and Thursday, Feb. 4 from 12-1 p.m., both in Forum 309.

Organized by David Hausam, SELCO Investment & Retirement Services representative, who will speak on health care expenses in retirement.

Did you know that health insurance will probably cost you more in retirement than it does today? If retirement is in your near future, now is a good time to plan for retirement health care costs. Your monthly premium for Medicare may be higher than you pay for health insurance at LCC. If you retire before age 65, health care may cost even more. In this Q & A you will learn about: 1) developing a personal health insurance cost plan, 2) Medicare's cost to you, and 3) using supplemental or medi-gap health plans.

Learn more about retirement health insurance costs today. Then enjoy your retirement... you'll be glad you did.

WOULD YOU LIKE TO PARTICIPATE IN A FREE ONLINE CLASS IN DIGITAL STORYTELLING?

I participate with an online cadre called DS (digital storytelling) 106. DS 06 was a class originating five years ago out of UMW. It originally was a face to face to class with an online presence. For free, anyone online could participate in the class.

Now a teacher, Alan Levine is running a free online section of DS106 using a Western theme. It costs nothing to participate; it's all done out of a motivation to sharpen up your multi-media skills:

"The Western106 experience will require you to both design and build an online identity and narrate your process throughout the ten week semester. Given this, you will be expected to openly frame this process and interact with one another throughout the course as well as engage and interact with the

world beyond. You will explore and interrogate the meaning and interpretation of the Western genre. In many ways this course will be part storytelling workshop, part technology training and, most importantly, critical interrogation of the digital landscape all around us that is increasingly defining the way we communicate with one another."

"What is this this Western106?" <http://106tricks.net/western106/what>

ANNOUNCEMENTS

GUIDANCE FOR FACULTY AND STAFF REQUESTING ASSISTANCE FROM ENROLLMENT AND STUDENT FINANCIAL SERVICES

As I am preparing for my departure from Lane Community College as of February 16, 2016 to assume the University Registrar and Chief Officer for Enrollment Information Services at the University of Washington I am tracking the emails that are coming to me personally in my capacity as Dean of Enrollment Management Systems from Lane faculty and staff colleagues.

Many of these are from colleagues wanting personal assistance from me to help answer registration questions, to understand their student bills, and to assist wide variety of requests.

While I have enjoyed working with everyone directly on these requests the majority of the time I forward these questions on to one of our teams for assistance and response.

Enrollment and Student Financial Services has three Enrollment Services Advisors to respond to the enrollment and billing needs of 100% students who attend Lane, and cannot respond to the incoming phone calls and in person questions as quickly as we would prefer. We have discovered that by referring Lane colleagues and students to use our proxy emails below, which are reviewed and responded to by several team members, we actually are able to respond to questions far faster than we are to those calling or coming in.

We encourage you as Lane colleagues with questions about your own personal student registration and billing needs, as well as for those from students you are assisting, to email these teams to provide you with the fastest service and response.

PLANNING FOR HEALTH CARE EXPENSES IN RETIREMENT: Q&A, FEB. 3

Wednesday, Feb. 3, from 4-5 p.m. and Thursday, Feb. 4 from 12-1 p.m. Both seminars located in Forum 309. Organized by David Hausam, SELCO Investment & Retirement Services Representative. He will speak on health care expenses in retirement.

Did you know that health insurance will probably cost you more in retirement than it does today?

If retirement is in your near future, now is a good time to plan for retirement health care costs. Your monthly premium for Medicare may be higher than you pay for health insurance at LCC. If you retire before age 65, health care may cost even more. In this Q & A you will learn about: 1) developing a personal health insurance cost plan, 2) Medicare's cost to you, and 3) using supplemental or medi-gap. Learn more about retirement health insurance costs today. Then enjoy your retirement... you'll be glad you did. Contact: April Cody, (541) 684-6220, acody@selco.org or dhausam@selco.org

GED TESTING RECALIBRATED

Today, the GED Testing Service announced a recalibration to the GED test passing score and the addition of two new performance levels. In most states, the passing score for high school equivalency is moving from 150 to 145. The GED program will also include two optional levels above high school equivalency to signify college readiness, and for some test-takers the opportunity to earn college credits. The scoring enhancement is driven by a detailed analysis of educational outcomes of GED program graduates compared to high school graduates over the past 18 months. As always, the passing score of the GED test will continue to be used to measure high school equivalency and to award a state's GED credential. The two additional performance levels will be called GED College Ready, used to signify readiness to enter credit-bearing college courses; and GED College Ready + Credit, which may qualify students for up to ten hours of college credit. CHAMBER CHOIR PARTICIPATES IN RESIDENCY WITH ROOM FULL OF TEETH

The Lane Chamber Choir recently participated in a residency and concert with Room Full of Teeth, the Pulitzer Prize winning/Grammy nominated a cappella ensemble from New York City, at Marylhurst College in Portland. This two-day residency exposed students to the talent and teaching of one of the most exciting a cappella ensembles in choral music today. Students learned about vocal techniques from various world traditions and collaborated with Room Full of Teeth and the Marylhurst University Chamber Choir in a concert.

The choir also performed at Willamette High School as part of its yearly recruitment efforts in local high schools. The choir prepared for many months for the residency and tour and played a significant role in community outreach, recruitment, and engagement for our music program. Thanks to all for your continued support of our program and all the Arts at Lane. Contact: Matthew Svoboda.

EXMS AND PTA STUDENTS WORK WITH ACTIVE SENIORS

EXMS and PTA students recently worked together in an authentic learning experience to foster communication, patient/client monitoring, fitness assessment, and data interpretation, working directly with active senior volunteers from the YMCA. Kari Porter at the Y is instrumental in recruiting volunteers and the students were able to see how clinical and fitness professions share skills and goals. Volunteers ranged in age from 67 to 81 years old and they all remarked on how they were impressed with the level of professionalism, conduct, and care from our students during this activity.

Kari Porter, Senior Director Healthy Living at the Eugene Family YMCA, wrote: "Our Y members loved coming up to the college today and being the volunteers on this special testing day. We have hosted something similar, on an annual group bases here at the Y; so they are accustomed to it. They especially like the experience because it offers more one-to-many students attention, directed on them solely. Everyone had smiles and appreciation when they came back to the Y after the trip. We were glad to be out there for our second annual time doing this event and look forward to doing it again next year." Lane's EXMS students and instructor Jenni and her colleagues deserve congratulations for integrating this opportunity into the curriculum. Everybody wins! Contact: Christina Howard.

BUILDING 16 MATH AND SCIENCE SUCCESS! WITH 'TURN IT OFF-MAKING GOOD CHOICES' ENERGY SAVING SHOWCASE

In 11 weeks Math and Science staff held off large energy use increases by keeping overall energy use within 1% of Building 16's 2014 electrical energy usage. The team held the line on increasing energy costs to under \$90 dollars for the term and saved energy in November. How did they do that?

The Institute for Sustainable Practices (ISP) gives a big shout out to staff in the Math and Science areas for bringing their green to work every day. By consistently turning off their un-needed lighting and equipment plug loads Building 16 Math & Science staff made a big difference with small steps. College staff turned area lights off, changed procedures for turning on and off computers, and encouraged and educated staff and students to 'Turn It Off' during their showcase success.

You can help Lane Community College make a difference in turning the tide against climate change. Participate in the college wide 'Turn It Off ' campaign which targets lighting and equipment plug loads by encouraging people to take small steps at work to save energy and make a big difference. Take a virtual tour at <http://www.energystar.gov/buildings/tools-and-resources/bring-your-green-work-interactive-cubicle> to find out more about how Math and Science lowered their electrical energy use.

Energy savings success starts here! Submitted by Anna E Scott.

TEACHING READING AND WRITING IN THE DIGITAL AGE WITH DR. DEBORAH HEALEY, FEB. 12

Date: February 12, Time: 2:00-4:00. Location: Center Building, Room 308

The ESL department is excited to invite you to a professional development opportunity with Dr. Deborah Healey, from the University of Oregon. Dr. Healey will be at Lane CC to present a talk on the use of technology for teaching reading and writing skills.

Technology is often alternately accused of destroying literacy and saving it. Learners need not only Twitter and chat (little to read and write) but also blog or fan sites (lots to read and write). One thing is clear – technology can be a medium for learning and for practicing. This talk will demonstrate some tools and how they might be used in teaching and learning reading and writing in the digital age.

Speaker Biography: Dr. Deborah Healey teaches online teacher education courses at the University of Oregon’s American English Institute and Linguistics Department. She is a member of the Board of Directors of TESOL International. She writes and presents extensively internationally on appropriate use of technology in language teaching.

We hope you will be able to join us. Contact: Anna Gates Tapia.

CAREER OPPORTUNITIES IN THE HIGH-TECH INDUSTRY

At the Career Center, one of the things we do is help individuals identify their career goals. High-tech occupations are very appealing to many people because of job opportunities, wages, and a desire to be part of something innovative and cutting-edge.

The high-technology sector in Oregon, otherwise known as the Silicon Forest, is growing briskly, and thriving development in Portland is also lifting other cities, such as Eugene. In Lane County, growth is especially apparent in software publishing, which is growing faster here than in Oregon or the U.S. It is a small sector in comparison to health care and manufacturing, but has the highest average wage in the targeted industry sectors at \$65,281. Oregon has been a leader in hardware, but now, the software side of the sector is bringing in new firms, new investment, and more jobs.

There are 3000 tech jobs in Lane County. The top 5 job titles are Programmer Analyst, Senior QA Analyst, Network & Systems Engineer, IT Services Manager, and Application Software Developer.

“ON BOOKS AND PHOTOGRAPHY” OPENS FEB. 16

The Lane Art Gallery is proud to present, “On Books and Photography,” an exhibition featuring the works of artist Julia Bradshaw. This body of work is part of a larger photographic series about the production properties of photography and books.

Artist’s Statement: On Books and Photography...questions the veracity of the photographic image at a time when both photography and books have gone through an inflexion point – moving from the physical object to the electronic. Along with more lofty objectives, the project also addresses the realization that a large part of my knowledge and skills, once deemed essential, are now Instagram filters.

Photography and books are both at inflection points. For photography, the proliferation of digital images created by camera-phones has transformed the distribution and meaning of photographic images. For books, electronic devices have changed how one acquires and reads books. This project takes a look at both mediums, interrogating their properties and their innate characteristics.

Likewise, with the electronic transmission of books, how one reads is also at an inflexion point.

Nostalgically, the project reminds readers of the marks on the page left by fingernails or water and of a time when book designers colored the top, bottom and fore-edge of some paperback books. By creating

life-size stacks of books, the images become characters - taking on the traces and characteristics of their readers - and at the same time the impossibly tall stacks of books make uncertain the veracity of photographic images.

The show runs from February 16 to March 9. There will be a lecture on Thursday, March 3 at 11 a.m. with a reception immediately following. The reception is free and open to the public. The galleries are located in building 11 on main campus. There is no charge for admission. For more information call Art & Applied Design at ext. 5409. Contact: Jennifer Salzman.

DRAFTING GRAD SAYS THANKS

A drafting student recently sent the following thank-you to instructor Jon Bridges:

"I can't believe it's been some eight months since graduation. I hope that you had a great summer and holidays. It has been one of the busiest and most exciting times in my life. The new job/career has been so amazing it's hard to explain. They have taken a liking to me as much as I have taken a liking to them. It feels like both the principal and BIM/IT manager have kind of taken me under their wing to mentor and guide. The fact that they have that much confidence in me is a testament to how much I learned from you. I truly feel like I am second in command here for REVIT and BIM management. The amount of new REVIT skills that I've learned over the last 8 months has been a huge eye opener as to how much there is and still to learn. The company has already signed me up for several design training conferences over the next year in different places across the country. I very much hope to keep in contact with you and if there is anything I can do to help give back please don't hesitate to ask. Thank you so very much again!"

"If you look at the ramifications of good education coverage, it has to be one of the most important things that journalism takes on," says Sanchez. "I think our measure of success should be whether we take the time to really put together pieces that speak to the average American, not the ivory tower." Submitted by Gayle Chisholm.

DRAFTING GRAD SAYS THANKS

A drafting student recently sent the following thank-you to instructor Jon Bridges:

"I can't believe it's been some eight months since graduation. I hope that you had a great summer and holidays. It has been one of the busiest and most exciting times in my life. The new job/career has been so amazing it's hard to explain. They have taken a liking to me as much as I have taken a liking to them. It feels like both the principal and BIM/IT manager have kind of taken me under their wing to mentor and guide. The fact that they have that much confidence in me is a testament to how much I learned from you. I truly feel like I am second in command here for REVIT and BIM management. The amount of new REVIT skills that I've learned over the last 8 months has been a huge eye opener as to how much there is and still to learn. The company has already signed me up for several design training conferences over the next year in different places across the country. I very much hope to keep in contact with you and if there is anything I can do to help give back please don't hesitate to ask. Thank you so very much again!" Contact: Pat O'Connor.

KLCC BRINGS NPR EDUCATION CORRESPONDENT CLAUDIO SANCHEZ TO EUGENE, MARCH 2

KLCC 89.7 FM is bringing NPR Education Correspondent Claudio Sanchez to Eugene. He will speak about the "3 P's of Education Reform: Politics, Policy & Pedagogy," at the Knight Law Center, Room 175, on Wednesday, March 2 at 7 p.m. The public is invited to this free event.

Former elementary and middle school teacher Claudio Sanchez is one of the leading education journalists in the United States. In recent months he has reported for NPR on Common Core, President Obama's proposal for free community college tuition, No Child Left Behind, teacher contracts, charter schools, the National Education Association, student loans, tenure, and much more.

From student debt to educational equity, curriculum reform to teacher training, Sanchez helps the public get a better understanding of educational issues.

"If you look at the ramifications of good education coverage, it has to be one of the most important things that journalism takes on," says Sanchez. "I think our measure of success should be whether we take the time to really put together pieces that speak to the average American, not the ivory tower."

MAIN CAMPUS ELECTRICAL SHUTDOWN, MARCH 20

The EWEB automatic transfer switch at Lane's main campus has been broken for several months and has resulted in multiple power outages over that time period. On Sunday, March 20, EWEB will replace that switch. All main campus electricity will be down from 6:00 a.m. until about noon. Lane's electricians will be onsite to ensure that the backup generators are working. This repair will result in more reliable power. Additionally, electricity will be down in Building 12 from 10:00 p.m. on Saturday, March 19 to approximately 6:00 p.m. on Sunday, March 20. Since the Central Plant is in Building 12, the systems that provide campus heating water and domestic hot water will also be down during this time period. Heating and domestic hot water will be restored on Sunday evening for normal operation on Monday morning. Please contact Jennifer Hayward with any question or concerns at ext. 5594 or haywardj@lanecc.edu

ATTENTION: PRINT SUPPLIES WARNING

A reminder to everyone: If you have a networked printer or copier (with a CTX or POA sticker on it), your supplies (white paper and toner) and repair are covered under our service contract, and are stocked and distributed through the LCC Warehouse.

Do not accept toner cartridges that are delivered by any outside sources. There appears to be a toner scam where a person will call a department and attempt to solicit permission or even the name of a staff member for the purposes of creating an invoice for toner at an above market price.

If you do see an invoice whether it is from CTX or any other company, please send it to Tony Sanjume at the Titan Store. As always, if you do require toner or paper please call or email David Macon at macond@lanecc.edu or ext. 5575.

CONTACT PUBLIC SAFETY FOR GRAFFITI REMOVAL

If you see graffiti on campus, please report it to Public Safety at ext. 5558. Please do not attempt to remove the graffiti yourself. When graffiti is removed by campus community members, it leaves a mark on the wall or partition. Facilities' painters then need to repair the wall or partition. The process for this wall repair is more expensive and time-consuming than the process for graffiti removal. Please help save the college time and money by reporting graffiti rather than removing it yourself. For more information see:

CENTER FOR ACCESSIBLE RESOURCES TIP: Communicating with CAR

The Center for Accessible Resources (CAR) sends important information regarding student academic accommodations via email. Due to FERPA and confidentiality concerns, CAR will only send messages to @lanecc.edu emails. CAR is not able to correspond with faculty using their

personal email addresses. If faculty members are concerned they are not getting messages from CAR, please see the troubleshooting communications page:

<https://www.lanecc.edu/disability/troubleshooting-automated-communications>. Renee Mackey

CENTER FOR ACCESSIBLE RESOURCES TIP: Retroactive accommodations

CAR is not able to provide accommodations for students retroactively. If a student discloses they have a disability to a faculty member, the faculty member should direct the student to contact CAR. While CAR cannot provide retroactive accommodations, CAR can take immediate and swift action to support the student and instructor in the learning environment and navigating the accommodation process. AAWCC HIGHLIGHTS KEY PEOPLE AND EVENTS FOR WOMEN'S HISTORY MONTH

In celebration of Women's History Month, AAWCC's Lane Chapter is highlighting some of the leaders and accomplishments of women's movements in Oregon starting with...

* Week 1: Abigail Scott Duniway:

Abigail Scott Duniway is remembered as Oregon's "Mother of Equal Suffrage" and "the pioneer Woman Suffragist of the great Northwest." As lecturer, organizer, writer, and editor, Duniway devoted over forty years to the cause of women's rights. Duniway was honored when Governor Oswald West asked her to write the Oregon Woman Suffrage Proclamation in 1912, but she did not live to see the Nineteenth Amendment grant suffrage to all women. On October 11, 1915, a few days before her eighty-first birthday, she died in a Portland hospital. Read more...

http://oregonencyclopedia.org/articles/abigail_scott_duniway/#.VsZYEvkrLGI

* Week 2: Women's Suffrage in Oregon:

Did you know that women in Oregon were granted full suffrage- after five failed attempts- in 1912? At this time, Oregon was only the seventh state to grant women full voting rights. Eventually, Oregon was one of 15 states that had full suffrage for women prior to the ratification of the 19th amendment in 1920.

There were three phases of the suffrage movement in Oregon.

From 1870 to 1900- early action, organization, and attempts to pass woman suffrage legislation in the state.

From 1900 to 1912, a new generation of suffragists used modern techniques of coalition building and mass advertising

From 1912 to 1920, after Oregon women had secured the right to vote, Oregon suffragists were a part of national suffrage organizations leading to the ratification of the 19th Amendment.

Here is a link to an interesting article on the stages of the Oregon women's suffrage movement by Dr. Kimberly Jensen:

http://centuryofaction.org/index.php/main_site/essays/woman_suffrage_in-oregon

* Week 3: Lola Baldwin:

The nation's first policewoman- and an Oregonian to boot! -

Lola Baldwin's trailblazing career path began with her work with the YWCA in Portland. She became involved with the organization shortly after moving to the city in 1904. By 1905, her organizational skills and value as an advocate for vulnerable young women landed her a paid position during the city's Lewis and Clark Centennial Expo as a "traveler's aide" - with arrest authority. Her work during the expo greatly aided the Portland Police Department. Once the Expo ended, she organized the Portland Juvenile Court and became a probation officer for young girls. She was recognized as an invaluable asset to the force and was sworn in as the nation's first policewoman in 1908. She formed and headed up the Women's Protective Division and dedicated her life to serving vulnerable populations of women. Many of her initiatives around community and preventative policing are still in practice today. Baldwin was also an early advocate for pay equity and a suffragette- no surprises there!

NEWS AND ANNOUNCEMENTS

JOSIE SKEERS RETIRES

After 29 years with Lane, Josie Skeers spent her last days prior to retirement doing what she's been doing for years, sharing her time with the people she's supported and served as a Developmental Disabilities Specialist. Josie started working at Lane in 1986 in Food Services. Three years later, she joined what is now Specialized Support Services in the laundry, and began working with student workers from S3. She worked in various programs and worksites: laundry, downtown deli, cafeteria, community inclusion activities, community retention employment services, and just about anywhere that she's needed. Her busy schedule also included teaching First Aid/CPR & Food Handler classes, chairing the Safety program and of course, coordinating all the picnics and holiday student worker parties. Josie never lost her passion for helping others and was always the first to raise her hand if she knew there was a need at fulfill.

On Thursday, March 24 during spring break, Josie orchestrated her last student worker bingo party in the cafeteria as her parting farewell.

Josie has been a great asset to Specialized Support Services and to LCC and will be missed. If you'd like to send Josie a special thought or sentiment as Josie begins her new life in retirement, send an email to skeersi@lanecc.edu or leave a voice message at ext. 5090.

ABSE STUDENTS THRIVE IN SERVICE LEARNING PROJECT WITH HELP FROM RECYCLING

Basic level math students at ABSE and I want to thank Recycling and Surplus Property Coordinator Becky Thill and Connect2Complete/Americorps Peer Advocate Rosella Cobiskey for their work with our class this term. Becky set up a service learning project where math students helped the college reduce waste and increase recycling by collecting, organizing and analyzing data telling the story of the waste stream at Building 11, learning not only about data, chart-making and reading, decimal number sense, benchmark fractions, decimals and percentages along the way. Rosella, a future K12 teacher, supported the students in creating 3D representations of the data in art form, learning about communicating data, the creative process and how math and art are connected. We could say that students made huge gains in learning outcomes in this engaging service learning project, or we could say: Wow! Thanks Becky and Rosella! Submitted by Lu Warner, ABSE Faculty.

SALGADO MARANHÃO AND ALEXIS LEVITIN, AN EVENING OF POETRY, APRIL 19

Salgado Maranhão is the best known poet of his generation in Brazil. He and Alexis Levitin, translator of Maranhão's poetry and stories from the Portuguese, will be featured at Lane on Tuesday, April 19, from 7-9 p.m. at the Center for Meeting and Learning. Here in the U.S., Maranhão's bilingual collection *Blood of the Sun* (Milkweed Editions) was published in 2012. His second book, published this past fall, is *Tiger Fur* (White Pine Press, 2015). Maranhão may be of special interest as an Afro-Brazilian success story, having risen from rural impoverishment to the peak of poetic achievement in his country. He is also well-known for his song lyrics and recordings with some of Brazil's leading jazz and pop musicians. This event is co-sponsored by Lane's Cultural Competency Professional Development Committee and Lane's Honors Program. Contact: Greg Evans, Sarah Lushia, Ce Rosenow, or Lynn Nakamura.

She also will have an opportunity to be invited directly into OBT2--the second company of Oregon Ballet Theater! But this program costs much more than an Enrollment Services Advisor can afford! LET'S KEEP THE WILD TURKEYS WILD

You may have noticed an increasing number of wild turkeys enjoying our inner campus.

Although beautiful and entertaining to many, they are causing more and more problems for our facilities and also causing safety hazards to our staff and students due to slips and falls from

turkey droppings. Please note that our COPPS procedure related to animals (<https://www.lanecc.edu/copps/documents/animals>) has the following message concerning wild turkeys:

"There shall be no intentional or unintentional feeding of wild turkeys and the college will utilize the guidance in the Oregon Department of Wildlife's Considerations for Coexisting with Wild Turkeys."

An excerpt from the Oregon Department of Wildlife:

"Like all wildlife, urban dwelling species are best left as wild as possible. Animal foraging, resting, disease transmission, and populations may be altered when people interact with wildlife. These changes may result in undesirable consequences to wildlife, people, and pets." Please, let's all help to keep the wild turkeys wild! Submitted by the Safety Committee.

PARKING CITATION APPEALS COMMITTEE IS LOOKING FOR NEW MEMBERS

The Parking Citation Appeals Committee is looking for new members! Faculty and Staff are encouraged to apply for this committee. The work entails meeting for an hour or so every two weeks and reviewing written or in-person appeals to determine whether fines should be suspended, moderated, or remain in place.

Meetings alternate and are held on either Wednesdays at 10 a.m. and Thursdays at 2 p.m.

Members could choose to attend all or some of the meetings.

This is extremely important work and this committee operates independently of Public Safety.

Volunteers should be fair-minded and seek reasonable solutions to the issues that arise. To volunteer for this committee, please send an email to Jace Smith (smithjl@lanecc.edu).

This is a practical way to influence parking enforcement on campus!

Thank you. Jace L. Smith.

LET'S KEEP THE WILD TURKEYS WILD

You may have noticed an increasing number of wild turkeys enjoying our inner campus. Although beautiful and entertaining to many, they are causing more and more problems for our facilities and also causing safety hazards to our staff and students due to slips and falls from turkey droppings. Please note that our COPPS procedure related to animals (<https://www.lanecc.edu/copps/documents/animals>) has the following message concerning wild turkeys:

“There shall be no intentional or unintentional feeding of wild turkeys and the college will utilize the guidance in the Oregon Department of Wildlife’s Consideration for Coexisting with Wild Turkeys”.

An excerpt from the Oregon Department of Wildlife:

“The typical wild turkey home range is several square miles ... Behavioral changes frequently begin with alterations to foraging habits. Intentional and unintentional turkey feeding is the catalyst that first alters foraging habits, then increases flock size, changes roosting behavior, and can turn wild birds into semi-domesticated birds. Feeding encourages turkeys to remain in a smaller area. Home range size can decline to a few acres.”

Please, let’s all help to keep the wild turkeys wild!

HELP WITH EARTHQUAKE RELIEF: A 7.8-magnitude earthquake struck Ecuador on 4/16. The epicenter was on the Ecuadorian coastline, where many African Ecuadorian and indigenous communities had been directly affected. At this time, there are 654 deaths, at least 155 people are missing, more than 8,340 injured, and 25,376 have lost their homes. Unfortunately the government have centralized their efforts on major cities and the small communities are not getting much help. A group of Ecuadorian residents in Eugene are organizing events to collect donations for non-profit organizations working with these communities. Currently there is an urgent need for: Adhesive bandages (various sizes); gauze roll and pads; adhesive tape; elastic bandage for wrapping wrist, elbow, ankle and knee injuries (3-4 in wide); triangular bandages to make arm slings; sterile cotton balls; swabs; anti-biotics such as Dicloxacilina 500 mg; Neosporin; Ibuprofen for children and adults; topical anti inflammatory (i.e. Diclofenac). You can drop them with Elizabeth Andrade in building 3 second floor.

“Collegiality, Diversity, And Mentorship: Understanding, Exploration, And Engagement For A More Successfully, Satisfying Faculty Work Life”

Dr. Rosemarie Tillman coauthored Navigating Academia: A Guide for Women and Minority STEM Faculty. Dr. Tillman is a Speech and Communication Studies part-time instructor at a few Oregon Community Colleges. Additionally, at Lane, she has been active in a variety of faculty professional development programs and serves on various committees, including the Steering Committee for Faculty Connections.

She will discuss collegiality as the unofficial fourth criteria of the hiring and promotion of higher education faculty. The American professoriate has embraced collegiality as an essential element of faculty work life.

A brief presentation on how essential collegiality, diversity, and mentorship have become to faculty work life will be followed by activities, exercises, and role playing to heighten our awareness of how abstract these terms are. Emphasis will be placed on how important it is for us to acknowledge and articulate what these terms mean to us individually, professionally, and as a community. Submitted by Liz Coleman

CENTER FOR ACCESSIBLE RESOURCES TIP: VIDEO CAPTIONING

1. All videos shown in class must have captions. Video captions are not an accommodation for students with disabilities—accessible, accurate, and easy-to-read captions are required for any video shown or provided.
2. Be aware YouTube's closed captioning service is often inaccurate and requires further editing. If faculty members choose to use the captioning service on YouTube they must take the time to review and edit the text. Editing is only available on videos someone "owns" (i.e. has uploaded to YouTube). It is not sufficient to "turn on" the captions on YouTube—follow this link to a Bill Nye video, turn on the captions, and count the errors:
<https://www.youtube.com/watch?v=BdAqq-wEQV0> For more information see the Academic Technology Center's page on YouTube captioning:

<https://help.lanecc.edu/ATC/Knowledgebase/Article/View/938/0/closed-captioning-using-youtube>

3. The Academic Technology Center can caption videos. Faculty members may send videos (MP4 files are best) to Media Services/Academic Technology Center via email (atc@lanecc.edu) or drop of a flash drive. For more information on captioning video please visit the ATC Faculty Support page: <https://help.lanecc.edu/ATC/Knowledgebase/Article/View/922/0/closed-captioning-an-overview>

CENTER FOR ACCESSIBLE RESOURCES TIP: What is the official definition of “disability”? In section 504 of the Rehabilitation Act—the legislation that guarantees specific rights to people with disabilities—there is no list of disabilities. This is how a disability is defined: the individual (1) has a physical or mental impairment that substantially limits one or more major life activities, (2) has a record of such impairment, or (3) is regarded as having such impairment. The law is written for broad coverage. The Center for Accessible Resources (CAR) and LCC serve a wide range of students with disabilities, including medical and psychological conditions, mobility and neurological impairments, hearing and vision loss, and learning disabilities. Please see this handout from the Office of Civil Rights: <http://www2.ed.gov/documents/news/section-504.pdf>

IMPROVING YOUR ONLINE COURSE - QUALITY MATTERS WORKSHOP BEGINS JULY 12

The "improving your online course" (iyoc) online workshop explores the qm rubric and provides a framework to improve the quality of online and blended courses. Participants use the QM Rubric to review their own courses and come away with a plan for course improvement, so enrolling in the workshop with a pre-developed online or blended course is required.

(Workshop is designed for those who have online teaching experience.) QM suggests that participants block out 8-10 hours per week for this two-week workshop that begins July 12. This workshop will be facilitated by QM-trained faculty from PCC and Chemeketa Community Colleges and is funded by the Oregon Community College Distance Learning Consortium. There are a limited number of seats available. There is also some additional funding if you have interest in other QM workshops available directly from QM. To read workshop descriptions, see

<https://www.qualitymatters.org/professional-development/courses>. To enroll in IYOC or other online QM workshops, contact Audrey Mills, millsa@lanecc.edu, 541-463-5368.

CENTER FOR ACCESSIBLE RESOURCES TIP: Furniture accommodations—there's more than ADA chairs

Furniture accommodations are provided by the Center for Accessible Resources (CAR) with support from LCC facilities. Furniture accommodations are listed on a student's Letter of Accommodation, and students must request this accommodation as early as possible. Chairs that meet the American with Disability Act requirements (sometimes referred to as ADA chairs) are marked with gold paint on the bottom of the chair. However, chairs are not the only furniture that makes the classroom accessible to some students. Other examples are adjustable height tables, stools, and podiums. For more information on furniture accommodations for students with disabilities, please see CAR's Information for Faculty on Student Accommodations page: <https://www.lanecc.edu/disability/information-faculty-student-accommodations#furniture> Contact: Renee Mackey.

COMMENCEMENT INFORMATION

Graduation is Saturday, June 18. Any questions? Go online at <https://www.lanecc.edu/studentlife/graduation-information> Contact: Tina Lymath, 5336, lymatht@lanecc.edu

CENTER FOR ACCESSIBLE RESOURCES TIP: Security when testing with CAR

Students with testing accommodations have a safe, quiet, and secure place to take their exam at the Center for Accessible Resources testing center. When testing at CAR the student must provide a photo ID and leave their cellphones and belongings in a separate secure area away from the exam desk. Students sit in their own booth and are not able to see desks or computer screens of other testers. The center also has closed-circuit cameras overhead. Teachers may request how they want the exam returned and paper exams, while at CAR, are locked behind a double lock system. These measures protect against any dishonest behavior while test taking and provides students with a safe place to complete their exams. Contact: Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: Plan ahead to incorporate universal design for fall term!

Preparing your fall curriculum? This is a great time to incorporate universal design elements into your course! Universal design makes as many products and environments as possible as usable as possible by as many people as possible regardless of age, ability, or situation. Many elements in the classroom can be created using universal design. For example, did you know posting detailed notes to a website (such as Moodle) is a universal design strategy? Other universal design strategies include captioning videos, using accessibility checkers on programs like Microsoft word and PowerPoint, using visual and tactile aids, and encouraging cooperative learning. Find more information on universal design here: <https://www.lanecc.edu/disability/universal-design> Contact: Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: Students requesting coursework exceptions
If a student requests a modification to the course at any point in the term, even close to the end of the term, direct them to the Center for Accessible Resources (CAR). While directly providing alterations to the student may be well intentioned and seen as a more expedited or direct approach, this can lead to issues later and leave the college open to liability due to strict ADA/504 regulations. Remember that CAR is not able to provide retroactive accommodations, but if notified as soon as the faculty member is aware the student desires accommodations, CAR can take immediate and swift action to support the student and faculty member. Contact: Renee Mackey.

STUDENT CLUB HIGHLIGHTS

Ever Wonder What Student Clubs do? Here are a couple of highlights from this term. These clubs were initiated by students and supported through Student Life.

* The Titan Disc Golf Club did well enough at the regional championships to qualify for the National Collegiate Disc Golf Championship in North Augusta SC this year. The Council of Clubs funded their trip where they placed 1st on day one! They fell to 40th by the end of the tournament but made their mark. Focusing on the success of their performance, they would like to note they beat 9 teams including Alabama, Central Michigan, UC Santa Cruz, Iowa and West Virginia! Please see the photo attached. The four students on this team are Adam "Skippy" Clairmont, James Dawalt, Brandon Green, Warren Hollinshead.

* The Titan Fencing Club has just competed in the regional championship tournaments in Salem and in Seattle. Four of them have qualified for the National Championship Tournament in Dallas TX June 30-July 4. The students traveling to represent Lane Community College are Melinda "Mindy" Parks, Tim Bruno, Armondo Gonzalez, and Carl Knoch. Their trip to the tournament is being funded by the Council of Clubs. I urge you to take five minutes to watch a short documentary made by another Lane student about Mindy's life as a fencer:

THANKS FROM CHRIS HAINLEY, SR.

From Chris Hainley, Sr.: On May 14 I received my master of arts degree in Theology from Franciscan University. I would like to thank the LCC community, especially CPDT, whose assistance was greatly appreciated over that last four years in helping me to achieve this goal of a masters' degree. I have been accepted into the diaconate program for the Portland

Archdiocese and, God willing (and the creek don't rise), I will be accepted and eventually ordained as a permanent deacon. Again many thanks to CPDT for the tremendous help. Submitted by Casandra Rhay for Chris Hainley, Sr.

CPDT THANK YOU TO MANAGERS

Thank you to Craig Taylor, Wendy Jett, Helen Faith, Anna Gates Tapia, Greg Holmes, Alyse Stone, Jerry DeLeon, Sandy Cutler, Barb Delansky, Tony Sanjume, and Ian Coronado for encouraging your classified staff to participate in the Classified Professional Development Team over this past year. You have graciously donated the resource of time, and because of you, the CPDT has been able to assist with professional development, educational reimbursement funding, stewardship, and more! Thank You! Submitted by Heather Lee.

FIND OUT MORE ABOUT CPDT

Managers, want to find out more about the CPDT and ways your department's classified staff members can get involved? The staff time donated is limited to approximately 1-4 hours per month (depending on what your classified staff is able to do), a two-day planning retreat in May or June, and a one-hour meeting every three months. The positions we have open are fun, varied, and our team is committed to bringing more offerings to all our Lane family. Come Join Us! #LCCommUNITY

CENTER FOR ACCESSIBLE RESOURCES TIP: Universal design—what is it?

Universal design is an approach to the design of all products and environments to be as usable as possible by as many people as possible regardless of age, ability, or situation. The idea is to reframe the concept of accessibility from “special features for a few” to good design for all. Many elements in the classroom can be created using universal design. For example, did you know posting detailed notes to an accessible website (such as Moodle) is a universal design strategy? Other universal design strategies are using large visual and tactile aids, encouraging cooperative learning, and ensuring physical access to facilities. CAR encourages all faculty members to use universal design principals when creating course material. Please keep this in mind as you create or plan materials for Summer and Fall terms. Find more information on universal design here: <https://www.lanecc.edu/disability/universal-design> Submitted by Renee Mackey.

Are you ready to adopt OER for your upcoming courses? Apply for curriculum development funds to convert your course from a traditional textbook to OER. Complete the form at <http://goo.gl/forms/U1VFewAfU1Rcf5Dq2> before July 1. Awardees will be notified in early July in order to complete work over the Summer. Questions? Contact Ian Coronado at coronadoi@lanecc.edu

CENTER FOR ACCESSIBLE RESOURCES TIP: Updates to tests during finals week

If updated instructions, clarifications or other directions are given to any exam/test/final they must be provided to students with disabilities at the same time. Please remember to immediately communicate any changes to students testing in alternate environments. If they are testing in the Center for Accessible Resources please stop by our office (LCC01 218), email (accessibleresources@lanecc.edu) or call (X5150) to provide the updates. Submitted by Renee Mackey.

SUMMER JOBS FOR STUDENTS

For the remainder of Spring term, the Career Center Job Club will be focusing on seasonal and part-time employment opportunities that may be a good match for students who are interested in Summer jobs. The Job Club will provide job leads, assist with job applications, and teach job search strategies and techniques. It is held every Monday morning from 9:00 - 11:00 in Building 19, Room 260. All job seekers are welcome! Contact: Randa Law; ext. 5861.

CENTER FOR ACCESSIBLE RESOURCES TIP: General communication with students with disabilities

As a new term approaches, more students will be coming to discuss their accommodations with you. This may be their first time having a conversation of this manner in the college environment. During these and all interactions, it is imperative to treat people with disabilities with the same respect as others. There are no rules for talking to students with disabilities, but these tips may be useful. Ask before providing assistance; talk directly to the person with a disability instead of through their companion or interpreter. Only refer to a person's disability if it is relevant to the conversation—if it is, put the person before the disability. For example: "a student who is deaf" instead of "a deaf student." Refrain from speaking negatively about a person's disability. Do not interact with a person's service animal. If you have any questions regarding communicating with a student with disabilities please contact our office. Submitted by Renee Mackey.

BUSINESS OWNER TRAINING

Lane's Small Business Development Center (SBDC) is currently accepting registrations for its award winning Small Business Management (SBM) Program. This business management program runs from September 2016 through June 2017.

All Small Business Management Programs are designed in the Lane SBDC's recognizable formula of education, business coaching and peer interaction. SBM covers business management topics through a customized curriculum, helping business owners or entrepreneurs identify and prioritize outcomes and devise plans to achieve them.

Small Business Management–Foundations consists of three modules: Marketing, Financial and Operations. Business coaching is vital to the success of businesses and helps business owners apply what is taught during class sessions. The SBM's first year cohort meets for a series of 15 classes over a 10-month period.

SBM programs, supported by community funding, are offered for considerably less than an equivalent private business consultant. The SBM Foundations program cost is \$539, with \$209 for an additional business associate. This low cost is made possible through community, state

and federal funding that saves participants over \$2000 per person. The links for the SBM registration form are:

IMPROVING YOUR ONLINE COURSE: QUALITY MATTERS WORKSHOP BEGINS JULY 12

The "Improving Your Online Course" (IYOC) online workshop explores the QM Rubric and provides a framework to improve the quality of online and blended courses. Participants use the QM Rubric to review their own courses and come away with a plan for course improvement, so enrolling in the workshop with a pre-developed online or blended course is required. (Workshop is designed for those who have online teaching experience.) QM suggests that participants block out 8-10 hours per week for this two-week workshop that begins July 12. This workshop will be facilitated by QM-trained faculty from PCC and Chemeketa Community Colleges and is funded by the Oregon Community College Distance Learning Consortium. There are a limited number of seats available. There is also some additional funding if you have interest in other QM workshops available directly from QM. CENTER FOR ACCESSIBLE RESOURCES: What is “alt text”?

Alt text, or alternative text, is a description of an image on a digital document or website that conveys to screen readers the content of the image. All images used for course material must have alt text. The alt text entered must communicate the relevance of the image to the material; it should not simply be a description of the image. If the image is simply decorative, the alt text should reflect this, but alt text must still be entered. Often alt text is added by right clicking on an image and selecting “format image,” however it varies based on the word processing program or website designer. Submitted by Renee Mackey.

SUMMER JOBS FOR STUDENTS

For the remainder of Spring term, the Career Center Job Club will be focusing on seasonal and part-time employment opportunities that may be a good match for students who are interested in Summer jobs. The Job Club will provide job leads, assist with job applications, and teach job search strategies and techniques. It is held every Monday morning from 9:00 - 11:00 in Building 19, Room 260. All job seekers are welcome! Contact: Randa Law; ext. 5861. ``

CENTER FOR ACCESSIBLE RESOURCES TIP: Communicating with students who are blind or have low vision

When a student has low or no vision it is important to use descriptive language when communicating. Instead of describing an object as “over there” use phrases like, “The computer is about two feet to your left.” Speak all content presented in class with slides or other visuals. For digital communication, such as Microsoft Word documents or PDFs, run the accessibility checker on the document and amend any non-accessible features. See the Lane CC Accessibility Quick Guide for more tips on creating accessible materials:

CALL FOR WORDS

Do you ooze wisdom? Do you have a short, motivating quotation that would be inspiring for students at Lane? This summer, we will be designing some support curriculum for incoming students receiving the Oregon Promise grant and want to give Lane employees a very personal way to introduce themselves and their perspectives! Original quotes by Lane staff would be preferred, but quotations from outside Lane would be considered. (Example: "Show up, do your best work, and participate actively" -Skip Downing; or "Vulnerability is the prerequisite to Badassery" -Brene' Brown; or "Don't step in the turkey turds" -Lane Housekeeping . Submit your suggestions, name, role, and department to Jill Siegfried, Counseling, via email siegfriedj@lanecc.edu Thank you!

CENTER FOR ACCESSIBLE RESOURCES: New testing request timeline

In response to feedback that we have received from instructors and students, CAR's time-line for requesting tests has been reduced. Students now only need to request tests/quizzes/questions/finals/exams three business days prior. This will cut the previous time-line of five days down and ensure that the barriers to CAR's services are minimized. Since this will minimize the window of time that CAR has to coordinate exams, it is even more critical that all testing agreements and tests are submitted in a timely manner. Thank you to all who provided feedback that has allowed us to continue to refine our processes!

CENTER FOR ACCESSIBLE RESOURCES TIP: How to suggest CAR to a student

If it is unclear if a student has a disability, a faculty member should not assume or directly ask the student. Faculty can discuss any concerns with the student and she or he may choose to share disability information. If the student discloses a disability, direct them to the Center for Accessible Resources (CAR). If the student does not disclose a disability, give them a list of campus resources including CAR. For suggestions on how to discuss these issues with a student, please see CAR's Strategies for Working with Students page.

NEWS AND ANNOUNCEMENTS

SUMMER TEMPERATURE GUIDELINES

Summer is here; Yay! With summer comes warmer weather. Lane's indoor summer temperature standards are 74 to 77 degrees F. These were developed to create comfortable conditions for the greatest number of students and staff and to balance a comfortable learning

and working environment with energy conservation. Some spaces may be cooler than that, however our Facilities Management and Planning staff try to maintain the 74 to 77 degrees F temperatures because of research that shows the range is more comfortable for people who are transitioning from outdoors to indoors and who are wearing warm weather clothes.

Here are some reminders and tips for you to use to keep cool and save energy this summer:

- Wear lighter clothing if it is warm in your area.
- Hydrate! Drink water during the day.
- Close your blinds during the hottest parts of the day or if the sun is directly hitting the window.
- Use a portable fan or adjust your ceiling fan speed to help cool your body. Please make sure you turn the fan off before you leave work for the day.
- Keep your lights off when you can.
- If you believe that it is hotter than 77 degrees F in your area and you are uncomfortable, please submit a work request to have equipment inspected. Instructions for submitting a work request are here: <https://www.lanecc.edu/facilities/work-requests> .

From: Facilities Management and Planning and the Institute for Sustainable Practices. Contacts: Jennifer Hayward and Anna Scott.

UPDATED INSTRUCTIONS FOR FACILITIES WORK ORDER SYSTEM ARE NOW ONLINE

New and updated instructions for using Lane's Facilities work order system (MegaMation) are now on the Facilities webpage. Go to <https://www.lanecc.edu/facilities> . Click on "Work Requests" in the left side bar menu. A drop down menu will appear with the options of "Submitting Work Requests," "MegaMation Instructions," "Frequently Asked Questions," and "Contact." The information in the "Submitting Work Requests" link is basic info for new users and people who want to become new users. The information in the "MegaMation Instructions" link is step-by-step instructions for entering a work order on MegaMation. The "Frequently Asked Questions" link includes instructions to find out answers to questions like "What is the status of my work order?" and "What is the priority of my work order?" This new section of the website is meant to be useful for you, so please let me know if you have suggestions for improving it. Contact: Jennifer Hayward.

FLIGHT AVIATION ADMINISTRATION TESTING DISCONTINUED

Lane Community College will no longer offer Flight Aviation Administration Testing effective immediately. The need to provide the tests has diminished in such a way that it is no longer feasible. If you have any questions, please contact Lora Dietmeyer in the Testing Office.

CENTER FOR ACCESSIBLE RESOURCES: Faculty members cannot change accommodations. Even if a student agrees, a faculty member should provide only the accommodations listed on a student's LOA. If a faculty member has any questions or concerns about a student's listed accommodations, they should contact the Center for Accessible Resources (CAR). Please see CAR's Information for Faculty on Student Accommodations page for information on accommodations that may be listed on an LOA: <https://www.lanecc.edu/disability/information-faculty-student-accommodations> Submitted by Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: Planning accessible field trips

Students may have disabilities that affect participation in field trips (mobility, vision, hearing, etc.) Instructor should plan field work/trips to be as accessible as possible. Accommodations that may need to be considered when planning accessible field trips are scheduling accessible transportation, scheduling an interpreter, and coordinating with a service provider. Please consult with the Center for Accessible Resources (CAR) for information and ideas, and visit CAR's Strategies for Working with Students page for more:

IMPROVING YOUR ONLINE COURSE: QUALITY MATTERS WORKSHOP BEGINS JULY 12

The "Improving Your Online Course" (IYOC) online workshop explores the QM Rubric and provides a framework to improve the quality of online and blended courses. Participants use the QM Rubric to review their own courses and come away with a plan for course improvement, so enrolling in the workshop with a pre-developed online or blended course is required.

(Workshop is designed for those who have online teaching experience.) QM suggests that participants block out 8-10 hours per week for this two-week workshop that begins July 12. This workshop will be facilitated by QM-trained faculty from PCC and Chemeketa Community Colleges and is funded by the Oregon Community College Distance Learning Consortium. There are a limited number of seats available. There is also some additional funding if you have interest in other QM workshops available directly from QM. To read workshop descriptions, see <https://www.qualitymatters.org/professional-development/courses>. To enroll in IYOC or other online QM workshops, contact Audrey Mills, millsa@lanecc.edu or 541-463-5368.

REFUGEE RESETTLEMENT COALITION of Lane County is looking for volunteer Arabic, Kurdish and Farsi translators to help our first families periodically, as they settle into their new lives. Please share this e-mail to contacts in the Eugene area or others who might be able to help, speak these languages or know someone who speaks these languages. We are looking for volunteers, but may also be able to pay a fee. Fundraising is underway to support the needs of refugees. The Refugee Resettlement Coalition of Lane County (RRCLC) is a coalition of community volunteers who have banded together to support the Catholic Community Services' newly-launched program to resettle refugees in Lane County. Working in concert with Catholic Community Services, our coalition will be supporting the ongoing resettlement of refugees who already have a family tie here in the area. The Refugee Resettlement Coalition's English Language Learning committee's goal is to get these individuals into ELL classes, provide them with extra-curricular learning opportunities, and to locate appropriate translators for them. We would greatly appreciate your support with this effort. Thank you very much for any help you can give to our resettlement effort. Please don't hesitate to contact me with ideas, thoughts and suggestions at: indirabakshi2@gmail.com or my lane e-mail.

NEWS AND ANNOUNCEMENTS

LANE ALUM CYRUS HOSTETLER TAKES FIRST IN JAVELIN

From The Register-Guard, July 5, 2016: "Making the Olympic team almost seemed secondary for Cyrus Hostetler, perhaps because that seemed almost assured before he threw a javelin Monday at Hayward Field. So what made the day special for the former Lane Community College and University of Oregon thrower was that his mark of 273 feet, 1 inch in the U.S. Olympic Track & Field Trials was not only a meet record but made him a national champion for the first time in his career."

Hostetler broke Lane's javelin record by nearly 30 feet in 2008 with a throw of 241 feet 7 inches. He graduated that year with a 3.30 GPA.

KLCC DEBUTS EXPANDED OREGON NEWS AND NEW WEEKDAY LINEUP

KLCC and OPB have collaborated to bring "Think Out Loud" to the KLCC audience, providing expanded Oregon news to listeners of both stations. This addition brings changes to KLCC's weekday broadcast schedule beginning today, July 5.

Produced at OPB, "Think Out Loud" is the "show that's talking about what the Northwest is talking about." Host Dave Miller and his team present stories with civil, engaged, far-ranging dialogue informed first and foremost by experience. Now the KLCC news team will contribute stories from the Southern Willamette Valley.

The first two shows on July 5 and 6 will broadcast from the KLCC studio in Eugene. "Think Out Loud" will air on KLCC weekdays at noon.

Furniture accommodations are listed on a student's Letter of Accommodation, and students must request this accommodation as early as possible. Registered students should meet at the LCC Florence Center campus, 3149 Oak Street by 8:45 a.m. Bring a fishing license, bucket and flat-edged shovel (not a razor clam shovel). MUSEUM OF MENTAL HEALTH TRIP, AUGUST 3

There are still spots available for the LCC Florence Continuing Education program's visit to the Museum of Mental on Wednesday, August 3 in Salem. Registration deadline is July 20.

Dennie Brooks, daughter of former Oregon State Hospital superintendent, Dean Brooks will be our tour guide during our visit to this eclectic museum. The hospital was the setting for the Academy Award-winning film based on Ken Kesey's novel, "One Flew Over the Cuckoo's Nest."

During our visit, we'll learn about patients' role in the production and more about the memorial to patients who died on the site. The discovery of forgotten cremains housed at the hospital led to Pulitzer Prize-winning reporting and legislative action to improve mental health funding in the state of Oregon. There will be a pick up spot in either Veneta or Eugene. Contact Marsha Sills at sillsm@lanecc.edu prior to registration. Employees may be eligible for tuition exemption. HEALTH INSURANCE OPEN ENROLLMENT FOR CLASSIFIED AND MANAGEMENT EMPLOYEES:
JULY 19-AUGUST 10

Open enrollment begins now and will continue through August 10, 2016, for a September 1, 2016 effective date. Any changes in employee and employer contributions will impact payroll checks beginning August 25, 2016. During this open enrollment period changes to medical and dental plan elections, as well as changes to dependents currently enrolled, can be made. If you have questions, please contact your Benefits Analyst: Kali Polizzi (last names beginning with A-L) at ext. 5589 or Heidi Morales (last names beginning with M-Z) at ext. 5592.

Managers - All managers are required to submit a new form this year. This is due in part to the fact that there are now four medical plan options. Form(s) and information on the various plans is available at <https://www.lanecc.edu/hr/benefits/management-benefits> Additionally, information sessions are being scheduled and will be announced when the dates and times are finalized. These sessions will be a great opportunity for managers to ask questions about the different provider networks, as well as to learn about the changes in alternative care benefits that are effective September 1, 2016.

IT NOTICE: TEST YOUR ARGOS REPORTS BY JULY 21

Due to Oracle's de-support of Discoverer, and our need to upgrade to a more current version, Discoverer reports will stop working on Thursday, August 11 at 5 p.m. Please review the Discover to Argos Financial Reporting Crosswalk to find the Argos reports that correspond to the Discoverer reports you use. Go online at:

<https://docs.google.com/spreadsheets/d/1WLSff53t0S9ili-qNCVP7GebgwPb7e4doKZRk2ThbBo/edit?usp=sharing>

It is important that you test the Argos Reports as soon as possible (not later than Thursday, July 21) to ensure they deliver the information you need. Why? Because, although the Argos reports have been around for awhile, many employees are still using Discoverer. If any modifications or changes are needed for any of the Argos Reports, we would like to do them prior to August 1, so there is time to test Report changes before Discoverer goes away on August 11.

Thank you for your help in this important matter. Please contact Sue Iverson with any Argos Report modification requests. Please contact Leanne Guthrie if you need training or help with Argos. Contact: Bill Schuetz.

BOARD ADOPTS COMPREHENSIVE FIVE-YEAR STRATEGIC PLAN

Lane Community College has educated and trained Olympic champions, multi-million dollar business owners, broadcasters, physicists, civil rights leaders—you name it. The question is, can they continue a comprehensive mission in an era of challenge? The answer is yes, as detailed in a new five-year strategic plan adopted by 7-0 vote at the July 13 Lane Board of Education meeting.

The 2016-2021 Strategic Plan is the culmination of an 18-month planning process that gathered input from across the college and the communities it serves, including community meetings held by the board and hundreds of hours of work by employees and students.

FY 2015-16 GIFT-IN-KIND FORMS DUE ASAP

If your department has received any in-kind gifts (tangible items) and you have not submitted a Gift-in-Kind Form to the LCC Foundation (Bldg 19, Rm 270), please get them turned in as soon as possible so we can close fiscal year 2015-16.

For your convenience, forms are located on our website at:

https://www.lanecc.edu/sites/default/files/foundation/gik_test_template.pdf

Gifts-in-Kind are gifts of property that are voluntarily transferred by a donor to Lane Community College without compensation. These gifts may include equipment, materials, supplies, artwork, and other personal property a donor might give to Lane for use in its educational programs. Gifts of services are not considered to be a tax-deductible contribution. If the value of the in-kind item is over \$5,000, an appraisal from an authorized appraiser is required.

To find out more information on Gifts-in-Kind, please refer to

<https://www.lanecc.edu/foundation/kind-donation-form-and-instructions>

MOODLE UPDATE COMPLETE

Our Moodle update to Moodle 3.0 is now complete. Please see previous notifications about the upgrade for details:

and <https://classes.lanecc.edu/mod/forum/discuss.php?d=322386>

Moodle My Courses: Please note the Moodle homepage is the largest change. Once users login they will now land on a page that organizes their courses in a much more user friendly format. If you click the star in the top right corner of a courses icon it will "favorite" that course for you and always display it on the top of your lists.

Users will now see deadlines, items to grade (instructors only), Alerts, Messages, and recent forum posts from this initial landing page.

We are moving to this format because the previous theme (Express) was less accessible and not mobile friendly. Analytics on our site show 10-30% of all users connecting via mobile devices. We work hard to keep Moodle updated in a way that best serves our students and faculty. Though it is a different experience on the Moodle homepage we hope you enjoy it and see its benefits.

If you have any questions or would like help learning the new homepage interface please let me know. Our student interns in the ATC are also here to help.

CENTER FOR ACCESSIBLE RESOURCES TIP: What actions are considered discrimination under the law?

In section 504 of the Rehabilitation Act—the legislation that guarantees specific rights to people with disabilities—there is information about what discriminatory behavior against individuals with disabilities looks like. It is illegal to discriminate against an individual because of a disability. Examples of discrimination are: (1) denying a qualified individual admission into a program because of their disability, (2) excluding a student from a class or an educational program because of a disability, and (3) telling a student they should consider a more restrictive career than other students. Need clarification or want more information on the legal definition of discrimination against individuals with disabilities? CENTER FOR ACCESSIBLE RESOURCES TIP: Making Coursework More Accessible

Reminder: Not all students with disabilities reach out to CAR for assistance; therefore, it is important to follow these guidelines when preparing learning materials for class whenever possible:

- * Avoid using green or red text.
- * Avoid using "all caps" or italics when possible. Students using screen readers have difficulty using this technology if text jumps around too much on the page (textboxes, cartoons, thought bubbles, etc.).
- * Image tags need to be included on learning materials containing illustrations or graphics.
- * Headings, a feature in MS Word, must be used when preparing learning materials. This format is the most effective and provides the highest quality translation for students using screen readers.

In addition to these guidelines, required accessibility statements must be included per the LCC College Online Policy and Procedure System. Link:

<https://www.lanecc.edu/copps/documents/disabilities-accessibility-statements-students-and-community>

For more information on how to make coursework more accessible for all students check out our guidelines: <https://www.lanecc.edu/disability/making-course-material-accessible>

Submitted by Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: Interactive Accessibility Map

CAR has worked closely with IT to add an accessibility layer to the interactive LCC map! A shortcut to the map can be found at the bottom of every LCC page next to the MyLane and Moodle shortcuts. Simply check the box for the Accessibility layer and you'll be able to see all the accessibility features, such as elevators, accessible parking spaces, and accessible ramps, and their location on campus. You can move around the map, zoom in and out, and get directions to each accessibility feature by clicking on it. Happy trails! You can find the map at <https://map.lanecc.edu/map/index.php?id=780#!ct/11008,10696>

Want to learn the best spots in Florence to dig for mud clams? Retired state park ranger Mike Bones will take folks out to one of his favorite clam digging spots and share recipes on Saturday, July 23 from 9 a.m. to noon as part of the LCC Florence Continuing Education program.

Registered students should meet at the LCC Florence Center campus, 3149 Oak Street by 8:45 a.m. Bring a fishing license, bucket and flat-edged shovel (not a razor clam shovel). Mike also recommends clothing and shoes you don't mind getting muddy. (He also recommends a change of clothes and shoes and a plastic bag for your phone and personal items, if you plan to bring them into the mud with you.) Employees may be eligible for tuition exemption. Contact Marsha Sills at sillsm@lanecc.edu prior to registration.

The discovery of forgotten cremains housed at the hospital led to Pulitzer Prize-winning reporting and legislative action to improve mental health funding in the state of Oregon. There will be a pick up spot in either Veneta or Eugene. Contact Marsha Sills at sillsm@lanecc.edu prior to registration. Employees may be eligible for tuition exemption. IMPROVE EMPLOYEE MANAGEMENT SKILLS AND INTERACTIONS

The Lane Community College Small Business Development Center (SBDC) is currently accepting registration for their Employee Management Program, designed for small business owners or managers in larger organizations who want to improve their skills and interactions with their

employees. This program, taught through a process of peer-to-peer, one-on-one and business coaching, will teach you how to locate and hire the best employees, increase employee effectiveness and improve employee relations. Finally, learn to apply the lessons taught during class to help ensure the success of each owner/manager. The program meets for a series of 10 classes over a 10-month period from September 2016 through June 2017 at a cost of \$999 for new clients with price breaks for SBM clients. This low cost is made possible through community, state and federal funding that saves participants over \$2000 per person. All Small Business Management Programs are designed in the Lane SBDC's recognizable formula of: education, business coaching and peer interaction. Employee Management Program covers employee management topics through a customized curriculum, helping business owners or managers identify and prioritize outcomes and devise plans to achieve them. The Lane SBDC is located across from the Eugene Public Library, at 101 W. 10th Ave, Suite 304, Eugene, OR 97401. NEWS AND ANNOUNCEMENTS

W.K. KELLOGG FOUNDATION AWARDS \$100,000 FOR DENTAL THERAPIST STUDY

Lane has received a one-year, \$100,000 grant from the W.K. Kellogg Foundation to conduct a feasibility study for establishing an accredited Dental Therapist two-year degree program.

"This is an emerging field," says Sharon Hagan, Lane's Dental Hygiene program coordinator who will lead the grant efforts. "Dental therapists have become necessary because of a scarcity of dentists in rural areas," Hagan says.

Dental therapists perform basic clinical treatment and preventative services under the general and indirect supervision of dentists. This includes restorative dental treatment, disease prevention and oral health promotion and procedures such as exposing radiographs/X-rays, administering local anesthetic and nitrous oxide, applying topical prophylactic agents, preparations and restorations of primary and permanent teeth, repair of defective prosthetic devices, and recementing permanent crowns.

A major effort of the grant will be outreach to Hispanic and Native American communities to familiarize them with dental therapy as a potential employment option and to help identify potential student recruits.

As part of the feasibility study, project staff will survey dental care providers to identify the level of support for a dental therapist education program in Oregon. Employers, government

officials, and regulatory and licensing entities will be advised and surveyed about graduate employment opportunities, community needs and how they see this profession can meet the needs of their communities.

Contact: Sharon Hagan, Dental Hygiene Coordinator, hagans@lanecc.edu or 5206.

CENTER FOR ACCESSIBLE RESOURCES TIP: Assistive Listening Devices (ALD) in the Classroom
Students with hearing loss may have difficulty hearing the lecture, classroom comments, or questions without assistance. CAR may provide these students with Assistive Listening Devices (ALD). The purpose of the ALD is to amplify the sound of the speaker for the listener. Faculty may need to wear a clip microphone, attached to clothing near the mouth, ex. lapel (or ask for a headset mic), and a small transmitter (put in a pocket, or attach to waistband), and turn it on. If small group discussion is part of the coursework, the student can ask for a "conference" mic, which will amplify the voices of all group participants. To learn more visit our webpage for faculty information on accommodations: <https://www.lanecc.edu/disability/information-faculty-student-accommodations#equipment> Contact: Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: ADA Furniture

The Center for Accessible Resources (CAR) works closely with Facilities to make sure students who have alternate furniture accommodations have adequate chairs, etc. Alternate furniture needs, such as chairs and tables, must be requested through CAR and listed on the student's Letter of Accommodation (LOA). Important information for faculty: ADA (Americans with Disabilities Act) chairs are marked at the base with faint gold paint. There may be multiple chairs in a classroom as the number of students with an alternate accommodation may vary by class section. Please don't move or relocate these chairs. If you notice that you have a chair with gold paint in your office, please return it to the classroom. If you have any issues, contact CAR (x 5150) instead of Facilities. Find more information about ADA furniture on our faculty webpage: <https://www.lanecc.edu/disability/information-faculty-student-accommodations#furniture> Contact: Renee Mackey.

ANNOUNCING ENHANCED ACCESS TO GROUPWISE

Staff and faculty using a non-GroupWise email client to access GroupWise can now take advantage of a more secure connection that will enable sending and receiving email from anywhere. This enhanced method of accessing GroupWise ensures that only users providing a valid GroupWise ID and password can connect, and encrypts the connection between GroupWise and the non-GroupWise email client. Before this change, users accessing GroupWise using non-GroupWise email clients were allowed to receive email anywhere, but could only send email when connected to the Lane network. By using this enhanced connection method, users will be able to send and receive email from anywhere using their favorite IMAP or POP3 capable email client.

To use the enhanced security, change your non-GroupWise email client settings to connect to IMAP using SSL on port 993 or POP3 using SSL on port 995, SMTP using STARTTLS on port 587,

and use your GroupWise email address and password. The non-GroupWise email client should be configured to use either IMAP or POP3 (not both). The preferred method of accessing GroupWise with a non-GroupWise email client is IMAP using SSL on port 993. The current insecure access to GroupWise will remain available until January 2017, so please update your email client before then.

NOTE: Accessing GroupWise email using Webmail or the GroupWise desktop client for Windows or Macintosh has always been encrypted and is not affected by this change. For more information about accessing GroupWise using IMAP or POP3 over SSL, or to receive assistance configuring your IMAP or POP3 capable email client, please contact the IT HelpDesk by phone (541) 463-4444, by email at helpdesk@lanecc.edu, or on the web at <https://help.lanecc.edu/ITHD>

WOMEN'S STAFF LOCKER ROOM UPDATE

We have added an electronic key-pad lock to both doors that lead into the women's staff locker room. This will help provide an additional layer of security. These doors will now require a code to unlock. This code will change (annually). If you need the current code, please see somebody at the Exchange Window (5/102) or email lockerroom@lanecc.edu

CENTER FOR ACCESSIBLE RESOURCES TIP: LOA and Accommodations

If a faculty member receives a Letter of Accommodation (LOA) that outlines disability accommodations, the faculty member should provide those accommodations. If a student asks for an accommodation but does not provide an LOA, faculty should not provide the requested accommodation. Please refer the student to CAR for more information about the accommodation process. Note that the accommodation process may take several weeks to complete; students should be encouraged to apply well before they anticipate needing academic accommodations. Learn more about the Letter of Accommodation: <https://www.lanecc.edu/disability/letter-accommodation-loa>

CENTER FOR ACCESSIBLE RESOURCES TIP: Volunteer Notetakers

Students are asked to identify classmates who are willing to function as volunteer notetakers. CAR can provide NCR paper (carbonless paper). This paper should be used by the volunteer notetaker and a copy shared with the student. The student may ask the faculty member for assistance in identifying a volunteer notetaker. The faculty member may approach a specific student for this task or make a general statement to the class. Suggested statement: "There's a need for a volunteer notetaker who will share notes with another student. Please notify me at the break if you are available for this." Do not specify which student needs the notes or that they are needed as a disability accommodation. If no volunteer notetaker can be identified, it is the student's responsibility to return to Center for Accessible Resources and ask for further assistance. For more information check out our Guide for Faculty: <https://www.lanecc.edu/disability/information-faculty-student-accommodations#inclass>

YOU KNOW YOU NEED ICS TRAINING—NOW YOU CAN ATTEND AN IN-PERSON WORKSHOP

Managers and other employees have long heard that they should have basic training in ICS, the Incident Command System, to prepare for emergencies. ICS is the FEMA-developed protocol all agencies now follow when responding to an emergency from earthquakes to wildfires to shootings. ICS allows fast, coordinated response and return to safety. In the past, courses have been available free online, but now, Lane employees can sign up for an in-person workshop with local expert Krista Dillon of the University of Oregon. She is a certified ICS instructor who has done 100 in-person trainings before. Lane's ICS workshop will be held Wednesday, November 2, from 9 a.m.-12 p.m., room TBA. Don't miss this opportunity! Sign up today by contacting Public Safety at 5558. Submitted by Joan Aschim and Jace Smith on behalf of the Emergency Planning Team.

CENTER FOR ACCESSIBLE RESOURCES HAS MOVED

The Center for Accessible Resources has moved to LCC19 231. The new location is more accessible to students and will allow us to provide better services. If you have any CAR materials that reference our previous location please let us know.

CENTER FOR ACCESSIBLE RESOURCES TIP: The Role of Faculty

The role of faculty in the accommodation process has four parts: to provide disability statement in course syllabus, include the Center for Accessible Resources' (CAR) contact information in student resources, work with CAR to implement disability accommodations upon receipt of Letter of Accommodation (LOA), and maintain student privacy and confidentiality. To learn

more information for faculty visit our webpage: <https://www.lanecc.edu/disability/information-faculty-student-accommodations> Submitted by Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: The Role of Accommodations

The accommodations listed on a student's Letter of Accommodation (LOA) are not in place to give the student an extra advantage or to change academic expectations. They are designed to provide access to the student with disabilities to the classroom environment and learning materials. Some students with disabilities may exhibit their knowledge, production, and other course expectations differently than their peers. For example, a student with a learning disability may read at a much slower rate than their peers, thus extra time to take an exam helps ensure the test is assessing the student's knowledge and not their reading speed. To learn more about student accommodations visit our faculty information page: <https://www.lanecc.edu/disability/information-faculty-student-accommodations> Submitted by Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: Disability-Related Absences

Some students may have absences during the term that are related to their disabilities. If this should happen, the Center for Accessible Resources (CAR) requests some flexibility on your part: to work with the student to allow the opportunity to make up missed assignments and/or adjusting attendance policies where possible. CAR acknowledges that attendance is crucial to student success in your class, and you are not required to fundamentally alter the nature of the course. However, flexibility is appreciated. It is the student's responsibility to keep you informed as to when flare-ups prevent the student from attending, and to negotiate arrangements for completing course requirements. To learn more, visit our faculty information page: <https://www.lanecc.edu/disability/information-faculty-student-accommodations#absences> Submitted by Renee Mackey.

ANNOUNCING ENHANCED ACCESS TO GROUPWISE

Staff and faculty using a non-GroupWise email client to access GroupWise can now take advantage of a more secure connection that will enable sending and receiving email from anywhere. This enhanced method of accessing GroupWise ensures that only users providing a valid GroupWise ID and password can connect, and encrypts the connection between GroupWise and the non-GroupWise email client. CENTER FOR ACCESSIBLE RESOURCES TIP: Universal Design Strategies

Universal Design Strategies help faculty make coursework more accessible for all their students. These strategies include: creating and posting detailed notes on an accessible Website, providing periodic breaks during long sessions, allowing time for questioning and clarification throughout presentation, presenting written exercises as group work; and using at least 18-point font (Arial, Tahoma) on solid background using simple, intuitive language. For more strategies take a look at our Universal Design page: <https://www.lanecc.edu/disability/universal-design>

CENTER FOR ACCESSIBLE RESOURCES TIP: Recording Lectures

Students with a range of disabilities may choose to record lectures for a variety of reasons, such as: having difficulty or being unable to take or read notes, sight problems, or memory problems. It may not be appropriate to record when personal information is being shared by classmates. Students are required to sign an audio recording agreement that specifies: "I (the student) agree not to release this course lecture recording, or otherwise hinder the instructor's ability to obtain a copyright of this lecture content. If this course involves other students' personal sharing that would be inappropriate to record, I understand that I should be prepared to pause the recorder occasionally upon request. I also agree to destroy the recording at the end of the term."

CENTER FOR ACCESSIBLE RESOURCES TIP: Removal of Service Dogs

Staff should direct handlers to remove a Service Dog under the following conditions: the service dog is out of control and the handler does not take effective action to control it, the service dog is not housebroken, or the service dog presents a substantial and direct threat to the health and/or safety of the Handler/Partner or others. Where a service dog is properly removed pursuant to this procedure, the Center for Accessible Resources will work with the handler to determine reasonable alternative opportunities to participate in the service, program, or

activity without having the service dog on the premises. For more information on Service Animals see LCC College Online Policy and Procedures on Service Animals.

MEET OUR OREGON PROMISE STUDENTS. SEPT. 15 AND 19

Do you have 30 minutes to connect with new students? We're looking for Lane faculty and staff to help us create a welcoming and engaging experience on campus for a cohort of new fall students - recent high school graduates receiving funding through the new Oregon Promise program. With a small group of students, you can show them some of your favorite places on campus, share things you like about Lane, and tell your story. Oregon Promise Seminars continue Thursday, Sept. 15, and Monday, Sept. 19. Your commitment would be from 3:00-3:30 p.m. on one of those days...you choose! Please share your interest and availability in the Doodle poll <http://doodle.com/poll/z38smtkr3zwvebiy> Questions? Contact Tammy Walters, Advisor, Career Center, x5296.

OEGB has sent open enrollment announcements and information via regular mail or email, depending upon the communication selection you previously chose. You can review and change your chosen communication method(s) through MyOEGB.

Following are some helpful web site links to use during the open enrollment process:

CENTER FOR ACCESSIBLE RESOURCES TIP: Staff Inquiries Regarding Service Dogs

College staff inquiries to determine whether a dog qualifies as a service dog must be limited to: whether or not the dog is required because of a disability; and what work or task the dog is trained to perform. No documentation, such as proof that the dog has been certified, trained, or licensed as a service dog, is required. For more information on Service Animals see LCC College Online Policy and Procedures on Service Animals.

<https://www.lanecc.edu/copps/documents/disabilities-service-animals>

Contact: Renee Mackey

CENTER FOR ACCESSIBLE RESOURCES TIP: Students' Responsibility

If students want the school to provide an academic adjustment, they must identify themselves as having a disability. They must let the school know about their disability if they want to ensure that they are assigned to accessible facilities. Their disclosure of a disability is always voluntary. They must inform the school that they have a disability and need an academic

adjustment. The school requires students to provide documentation showing that they have a current disability and need an academic adjustment. If a student reports to you that they have a disability, direct them to CAR and notify us that you've done so.

CENTER FOR ACCESSIBLE RESOURCES TIP: School Responsibility

To determine an appropriate academic adjustment, the school will review a student's request in light of the essential requirements for the relevant program. It is important to remember that the school is not required to lower or waive essential requirements. If a student has requested a specific academic adjustment, the school may offer that academic adjustment, or it may offer an effective alternative. The school may also conduct its own evaluation of the student's disability and needs at its own expense. Students should expect their school to work with them in an interactive process to identify an appropriate academic adjustment. They should not expect their postsecondary school to invite their parents to participate in the process or to develop an IEP for them.

CENTER FOR ACCESSIBLE RESOURCES TIP: Universal Design for Fall Term

Preparing your fall curriculum? This is a great time to incorporate universal design elements into your course! Universal design makes as many products and environments as possible as usable as possible by as many people as possible regardless of age, ability, or situation. Many elements in the classroom can be created using universal design. For example, did you know posting detailed notes to a website (such as Moodle) is a universal design strategy? Other universal design strategies include captioning videos, using accessibility checkers on programs like Microsoft word and PowerPoint, using visual and tactile aids, and encouraging cooperative learning. NEWS AND ANNOUNCEMENTS

BOARD ENDORSES BALLOT MEASURE 97

The Lane Community College Board of Education became the first community college board in Oregon to formally endorse Ballot Measure 97. The board passed a resolution supporting the measure by unanimous vote at its Sept. 20 meeting.

Board member Tony McCown read the resolution statement aloud:

“Whereas the State of Oregon faces an historic revenue shortfall in the 2017-18 biennium, which may require massive spending cuts to education and social services in order to balance the state budget, the Lane Community College Board of Directors resolves to formally endorse and urge community support of Measure 97. In doing so, the Lane Community College Board joins the ‘A Better Oregon’ coalition effort to raise the corporate minimum tax on the largest corporations doing business in Oregon — C Corporations with more than \$25 million in Oregon sales — to fund education and social services in Oregon.”

BM 97 is a \$3 billion corporate gross receipts tax proposal. Under Measure 97, the state would charge certain C corporations a 2.5 percent tax on their gross annual sales in Oregon above \$25 million. Submitted by the editor.

LANE WELCOMES OREGON PROMISE STUDENTS

Almost 500 Oregon Promise students attended our First Year Experience Success Seminars on Sept. 12, 15, and 19. It was a “big deal,” with Senator Mark Hass and a local delegation speaking with students at the first event. These new students participated in activities related to college success, career exploration, and the “mindset” of successful college students...activities designed to engage them with each other and with Lane.

Thank you to everyone who supported us and/or participated in these huge events: Desiree Woodruff, Bruce Nichols, Jon Davie, Carolyn Philes, Lea Barsocchini, Eila Sontag, Paula Westgate, Mung Nguyen, Lori Brenden, Von Young, Lida Herburger, Kerry Levett, Helen Faith, Sarah Lushia, Matthew Svoboda, Rosie Kirwin, Brian Kelly, Kristina Holton, Grant Matthews, Rosa Maria Banuelos-Uribe, Fiora Starchild-Wolf, Liz Coleman, Camilla Dussinger, Cassie Zimmerlee, Phil Martinez, Deron Fort, Lori Wamsley, Cynthia Kocsis, Tammy Burbee, Lane Foundation, Outreach Office, and the culinary and hospitality staff who responded graciously to our last minute needs. Finally, here’s a special thank you and welcome to Lane’s new Success Coaches who will be engaging with and supporting our Oregon Promise students: Mira Mason-Reader, Erin McGladrey, Jake Powers, and Amy Sanderson.

LANE EARNS TOP BOND RATING FROM MOODY’S

Moody's Investors Service has assigned an initial A1 underlying rating to Lane Community College District for its \$17.7 million in Full Faith and Credit Refunding Obligations, Series 2016. Moody's has also affirmed the Aa3 general obligation rating on Lane’s outstanding \$14.1 million GO debt. The Aa3 rating reflects the district’s large tax base, a local economy anchored by the presence of the University of Oregon, moderate resident wealth, currently healthy financial position, and low debt and pension liabilities. The rating also incorporates the college’s falling enrollment and the expectation of significant draws on reserves.

For more information go online at: https://www.moodys.com/research/Moodys-assigns-A1-to-Lane-Community-College-District-ORs-FFC--PR_903602897

"This is what we expected," said Chief Financial Officer Greg Holmes.

ENROLLMENT NUMBERS DECLINE TO 2.9%

Thanks to all who have been working to reduce our enrollment decline for the fall registration cycle which began at 16.8%. The Enrollment Huddle has been working on strategies and actions, departments have been calling students, Outreach and Recruitment has been brining in new students, and our Promise Team has welcomed our first cohort of students.

We have more work to do to keep the number below 5% and as close to 0 as possible. The Enrollment Huddle work group will resume Monday meetings at 8:15 a.m. on October 17 in the Boardroom. Save the dates for our winter term registration events November 8 and 9 and 29 and 30. Winter term registration opens for continuing students on October 31, so break out those Register Now T-shirts the week before. Contact: Kerry Levett.

STUDENT AFFAIRS IS TRANSFORMING

After three terms of planning, Student Affairs is starting to transform to a new structural model launching June 19, 2017. As we engaging in this exciting work, we are hosting Transition meetings the first Fridays during the fall term. We will be meeting in the Boardroom with a session from 3-4 p.m. on a training module, followed by a Transition Forum from 4-5 p.m. All are welcome. Contact: Kerry Levett.

HELP SPREAD THE WORD TO STUDENTS THAT TUTOR CENTERS ARE REOPENING

Studies show that students who use tutoring resources early in the term succeed at a higher rate than those who do not. Thank you for what you do to help our students. We are putting a yellow flyer which lists all the tutor centers (including what tutors will and will not do) for your reference in your mailbox as well as several blue 3x4 sticky note pads with tutor center locations and a place for you to make a note, should you want to. There are 25 pages in each pad so please distribute these sticky notes freely to students. Also, the new information includes online tutoring which we had hoped to launch in July, but have had to postpone until January. In the meantime, our website www.lanecc.edu/tutor does have a series of links called Online Resources at <https://www.lanecc.edu/tutor/web-resources> that allow students to help themselves with videos and interactive websites. Questions? Please contact Liz Coleman at ext. 5783 or colemanl@lanecc.edu

SUPPORT THE WARMING CENTER THROUGH THE EMPLOYEE CAMPAIGN

Thank you to everyone who renewed their Foundation employee giving campaign gift at the fall in-service and thank you to all employees who made new pledges to support students, scholarships, and programs at Lane. Your employee giving campaign gift to the Foundation or the United Way can help make a difference in the lives of the students we serve.

Please consider donating to the Lane Community College Warming Center during this year's employee giving campaign. The money will be used to purchase food, first aid items, personal care goods, and equipment for individuals that stay overnight in the Warming Center. LCC's Warming Center has a Foundation account so please just write-in "Warming Center" and your donation will help community volunteers meet the needs of those without shelter this fall/winter. The Warming Center operates any time the temperature drops to 30 degrees or colder. LCC's shelter is associated with Egan Warming Centers. To renew or make a new employee campaign pledge, please visit employee giving campaign page:

Thank you! Contact: Phillip Hudspeth.

IT'S ELECTIONS SEASON

ASLCC student government, in conjunction with the Oregon Student Association, will be launching the "Vote OR Vote" get out the vote campaign. Please support this student led "Vote OR Vote" effort, encourage your students to get involved, and consider inviting student speakers to "class raps" to encourage civic participation. You may be contacted once at the beginning of term, and once later in the term regarding class raps. The college supports non-partisan, student led peer-to-peer voter registration drives, which have historically proven to be the most effective way to reach student populations, and recognizes the voter registration efforts led by the Associate Students of Lane Community College (ASLCC) in partnership with the Oregon Student Association. ACCESSIBILITY STATEMENTS

Accessibility statements must be on your syllabi, publications and field trip/event fliers. These statements provide effective methods for communicating information to the college community about the Center for Accessible Resources, accommodations, and access to Lane's campuses, programs, websites, and encourage students and community members to speak up about disability issues without being asked (which can violate their privacy). You can find the college's official accessibility statements in the faculty section of our website: <https://www.lanecc.edu/copps/documents/disabilities-accessibility-statements-students-and-community> Contact: Renee Mackey.

HOW TO REFER STUDENTS TO CAR

When students have difficulties but it's unclear whether it's a disability, a faculty member may not assume or directly ask the student if she or he has a disability. However, faculty can discuss the issues of concern with the student and she or he might choose to share disability information. If the student discloses a disability, inform the Center for Accessible Resources (CAR) and direct the student to CAR. If the student does not indicate a disability, give them a list of campus resources and include CAR on the list. Below are some suggestions about discussing this with the student. Focus on observed behavioral symptoms or problems rather than the diagnosis. Find more information at: [Tips for Suggesting CAR to Students](https://www.lanecc.edu/sites/default/files/disability/tipsforsuggestingcar.pdf): <https://www.lanecc.edu/sites/default/files/disability/tipsforsuggestingcar.pdf> Contact: Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: Personal Care Attendants

Note: LCC does not provide personal care attendants or aides to assist students with disabilities in carrying out personal functions or physically navigating campus. Personal Care Attendants (PCAs) are not LCC Staff or students. PCAs may accompany a student if there are specific personal assistance needs and should not participate in the class rather only attend to the personal needs of the student. This is contingent upon faculty approval for an additional, non-student to be in the classroom and is should be considered based on enrollment numbers and classroom space. Questions: contact the Center for Accessible Resources.

CENTER FOR ACCESSIBLE RESOURCES TIP: Testing Security

CAR takes the security of all tests seriously. Some of our testing security measures are: all tests are held in a secure, locked location, during testing, students are monitored at all times by trained CAR staff, students are separated from their belongings, photo ID is checked prior to the student testing, and if a student is witnessed using unauthorized material, or breaking any other established procedures, an incident report form will be completed and sent to the faculty member to determine consequences. Want to know more about our testing security or procedures? Contact us! Or find more information at:

<https://www.lanecc.edu/disability/information-faculty-student-accommodations#testing>

Contact: Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES: Unlimited Occupational Opportunities means Unlimited Educational Opportunities

EMPLOYEE GIVING CAMPAIGN CONTINUES

Thank you to everyone for your continued support of the Foundation's annual employee giving campaign! Your gift helps promote student success at Lane, and help support scholarships and programs. You can direct your gift to the LCC Foundation, the United Way, or both; options for giving include payroll deduction, credit card, cash or check.

If you have not completed your employee giving form, please stop by the Foundation table at the Employee Benefits Fair on Wednesday Oct. 12th to complete your giving form.

One place that employees can direct their gift for this year's campaign is CoderDojo. CoderDojo teaches elementary, middle, and high school students develop age appropriate code training skills in a college environment. The Dojo provides an opportunity for underserved youth to learn how to create technology instead of just consume it, and learn useful career development skills, for free. The Dojo encourages youth to pursue careers in the tech industry in Lane County. The LCC Downtown Campus hosts CoderDojo.

Please visit the online giving form: <https://www.lanecc.edu/foundation/we-care-employee-campaign> to make your gift today.

Congratulations to Neal Gallagher of the Aviation Academy, the first winner of the employee prize sweepstakes, a sweatshirt provided by the Titan Store. Thank you to Tony and the Titan Store team for their support of the annual employee giving campaign.

Check next week's Lane Weekly for another winner. Contact: Phillip Hudspeth.

IT'S EASY TO SAY THANK YOU

FALL 2016 WRITING CENTER SUPPORT

The Writing Center is here to support you and your students. We are trained peers and professionals ready to coach students through writing assignments and projects in all classes. Our goal is to support students in their development as interdependent, collaborative, rhetorically-savvy writers. We coach students at any stage of the writing process and tell students: come early; come often!

- Find us in Center 211 for drop-in tutoring Monday through Thursdays 9:00 a.m. – 4:00 p.m. and Fridays 9:00 a.m. – 2:00 p.m.
- Bring your class to visit us in Tutor Central, or request a 10- to 15-minute coaching session demonstration during your class time. To arrange one of these options, email

writingtutor@lanecc.edu with your name, class name/title, class location, a short description of anything specific that you want, and date and time options for your request.

- Help us improve our support by contributing to our internal writing assignment archive. We are working to build a stronger connection between your classes and our services to improve our work with students. In this spirit, we are creating an assignment archive. Please consider adding to the archive, which will be used exclusively to assist during coaching sessions and for staff training, by sending your assignments as an attachment to writingtutor@lanecc.edu. We appreciate your contributions and any associated commentary you have time to provide.
- Send students to us and/or offer credit to students who visit. If you include us into assignments, please give us a week's notice to help our staff prepare. Having a copy of your assignment as part of our writing assignment archive will help tremendously.
- Request class presentations about specific writing-related topics, and share ideas about ways we can support you and your students. The new Writing Center Coordinator, Casey Reid, welcomes these requests and your input by email at reidc@lanecc.edu or in person in Center 216.

New! Let students know about our new Online Writing Coach Feedback option. Here is information to share with students:

Want someone else to look over your writing projects but don't have time or resources to see a Writing Coach in person? Go to myLane, and add/register for CRN 23491. It's free! KLCC STEALTH DRIVE REACHES \$250,000 FALL GOAL

KLCC completed its fall drive on Oct. 5 raising 75 percent of the goal during the "Stealth Drive," an under-the-radar method of fundraising that does not interrupt programming. This was KLCC's third Stealth Drive, instantly embraced by listeners as a better way to support KLCC. The success of Stealth Drive prompted a very short on-air drive, raising the final 25 percent of the goal in only a day-and-a-half. Former on-air drives, known as Radiothon, took eight days or longer. Listeners and staff alike are finding the innovative Stealth Drive to be a transformational and painless approach to reaching KLCC's fundraising goals.

KLCC relies on listeners and the local community for two-thirds of its operating budget. Listener support is essential to bringing NPR and KLCC's award winning programming to the KLCC audience. Over 2,000 households contributed to KLCC during the Stealth Drive and brief Radiothon.

KLCC 89.7 FM serves over 90,000 listeners each week throughout western and central Oregon, providing thoughtful news and enlightened entertainment from NPR, KLCC, and other sources. KLCC is grateful to the listening community for its continued support. Contact: Gayle Chisholm.

INDIGENOUS PEOPLES DAY

Lane Weekly thanks the readers who wrote in to point out that referring to Columbus Day in yesterday’s special weather edition, which talked about a historic storm in 1962, was offensive to the memory of what indigenous people suffered from the holiday’s namesake. These thoughtful readers encourage Lane to join other agencies working to change this holiday to "Indigenous Peoples Day" as reported in this KLCC story yesterday: <http://klcc.org/post/first-time-city-eugene-formally-recognizes-today-indigenous-peoples-day> Submitted by Joan Aschim.

THINKING ABOUT BUYING AN ELECTRIC VEHICLE?

Save money on transportation costs and charge your vehicle at Lane's Solar Electric Vehicle Charging Station in Lot B!

Register for rEV Up Eugene and get a major discount on a 2016 Leaf. See the attached flyer or click on the website to learn more.

Over 30 people attended the first workshop at the UO last week to learn more about transitioning to an electric vehicle and the new rEV Up Eugene discount program. The next workshop is Thursday, October 13th at 6:00 pm. The presentation covers the environmental benefits of EV ownership and potential cost savings. Electric vehicles are cheaper to operate because they are virtually maintenance free and because electricity is a less expensive fuel source than gasoline. According to the U.S. Department of Energy, for the cost of a gallon of gas, you can drive 113 miles in an electric vehicle compared to under 30 miles in a gas-powered car. Put another way, the average local driver could save about \$850 in fuel costs per year.

People who attend the workshop can then take advantage of a steep discount being offered at Lithia Nissan on the 2016 LEAF. The pre-negotiated group discount and federal tax credit will take about \$15k off the sticker price of the car. Plus, EWEB is now offering a \$200 incentive towards the purchase of a qualifying all-electric vehicle through the end of the year (capped at \$20,000).

Still, EVs aren't for everyone. If you want to learn more and possibly take advantage of this program, go to www.DriveOregon.org/EugeneEV to register for an upcoming workshop. The rEV Up Eugene program is available to any area resident who has completed the workshop.

EMPLOYEE GIVING CAMPAIGN CONTINUES

Thank you to everyone who stopped by the Foundation table at the employee benefits fair and made a gift of support through the employee giving campaign. Your gift helps promote student success at Lane, and help fund important scholarships and programs. Last year the Foundation paid over \$2.7 million directly to or on behalf of LCC to benefit programs, services and scholarships.

One scholarship that receives support from the annual employee giving campaign is the Shining Star. The Shining Star Scholarship is one of the most inclusive scholarships offered at Lane, and is available to any full-time student. There are no restrictions on recipients based on either program or financial need. Each recipient has a unique situation and story; each has their own hope for individual achievement and how they may one day contribute to their community. Because of your generous support, the Foundation offered Shining Star Scholarships to 42 deserving Lane students this school year.

Please visit the Foundation's employee giving page: <https://www.lanecc.edu/foundation/we-care-employee-campaign> today to fill-out the online giving form.

Congratulations goes to Stephen Selph of the Mathematics Department, the second winner of the employee prize sweepstakes! This week's prize is a fabulous Halloween-themed gift basket. You can direct your gift to the LCC Foundation, the United Way, or both; options for giving include payroll deduction, credit card, cash or check.

Thank you for your continued support of the annual employee giving campaign. Contact: Phillip Hudspeth.

SUPPORT CHINUK WAWA AT LANE

nayka NaNunk-saXali Nayka. That means in bastfn-wawa that "you are very important to me," or "I hold you in honor," or, more literally, "I lift/hold you up." That's our phrase of the week, and you can support a local indigenous language and raise awareness of our chinuk wawa language program at LCC by it. Please contact Drew Viles with questions about chinuk wawa at LCC at vilesa@lanecc.edu or 541.463.5480. Special thanks to Tony Johnson, Zeke Zahir, and Jerome Viles for their help with this week's phrase.

CENTER FOR ACCESSIBLE RESOURCES TIP: Testing agreements

If you have a student with approved accommodations that will be provided by one of CAR's Testing Centers, we understand that the testing agreement may not fit all testing circumstances. If you have alternate testing circumstances such as weekly quizzes that have different exam lengths, please email our testing staff at CARTesting@lanecc.edu and we will be happy to make the necessary arrangements. As a reminder if a student is testing in one of CAR's Testing Centers, while including instructions with a test is helpful, the testing agreement still needs to be filled out. This ensures that we get the answers to all of our questions and opens our processes for the student to schedule their exam in the CAR's Testing Centers.

CENTER FOR ACCESSIBLE RESOURCES TIP: Alternate Furniture

There may be multiple chairs in a classroom as the number of students with an alternate accommodation may vary by class section. Please don't move or relocate these chairs. If you notice that you have an ADA chair, please return it to the classroom. If you have any issues, contact CAR (x 5150) instead of Facilities. EMPLOYEE GIVING CAMPAIGN CONTINUES

Thank you for your support of the annual employee giving campaign. Your gift of support helps promote student success at Lane, and helps fund important scholarships and programs. Last year the Foundation paid over \$2.7 million directly to or on behalf of LCC to benefit programs, services and scholarships.

One program that receives support from the annual employee giving campaign is the Rainy Day Food Pantry. The Rainy Day Pantry provides students in need with the opportunity to stock-up on groceries and basic toiletry supplies. The Pantry is open to all Lane students; in 2015 the Pantry served an average of 30 to 40 students per week.

You can direct your gift to the LCC Foundation, the United Way, or both; options for giving include payroll deduction, credit card, cash or check. For United Way gift forms, please contact the Foundation office.

Please visit the Foundation's employee giving page: <https://www.lanecc.edu/foundation/we-care-employee-campaign> today to complete your online giving form.

Thank you for your continued support of the annual employee giving campaign.

PARTY RESPECTFULLY THIS HALLOWEEN

Public Safety shares this Halloween safety message from the Eugene Police Downtown Public Safety Station:

Historically, the Halloween holiday has produced lively parties and high volume foot traffic in the near-campus and downtown neighborhoods. Eugene Police and University of Oregon Police will be out in numbers ensuring safety and enforcing laws on the weekend prior to Halloween. We would like to remind people that there are a few ways to minimize problems while still having fun. Here are some Party Management Tips:

- * Respect your neighbors. Find ways to celebrate that do not infringe upon your neighbors and that are alcohol-free.
- * Control the guest list. "Come one, come all" parties usually result in police contact. Have a door monitor to screen guests. Don't let random people who walk around looking for parties, into your house.
- * Adults only. If you choose to serve alcohol, ensure that you only serve to persons 21 years of age or older.
- * Plan ahead. Notify neighbors well in advance of the date, times and location of the party. Give them a telephone number and the name of the person to contact if there is a problem (and be responsive to their calls!).
- * Monitor noise levels. Keep doors and windows closed to reduce outside noise levels. If you can hear it from the street, it is probably loud enough to hear inside your neighbor's home.
- * Discourage drinking games. Have a non-drinking person serving alcohol and don't let people carry alcoholic beverages outside of your party.
- * Clean it up. Your neighbors may be more tolerant of your next party if you clean up promptly after this one. Clean up debris from your yard or the street.
- * Safety first. If you are concerned for a friend's medical safety—such as suspected alcohol poisoning—call 9-1-1 immediately.
- * Prevent drunk driving. Arrange for transportation by a designated driver before anyone drinks. Make sure arrangements are understood by everyone. Ensure people don't drive under the influence (a person riding a bicycle under the influence may also be arrested for DUII). As the party host, you are also liable. The Designated Driver Shuttle (DDS) will pick you up from a party and take you home, no questions asked. DDS runs from 10:00 p.m.–2:30 a.m. Call 541-346-RIDE.
- * If your party gets out of hand, call the police. EPD will come out and help you regain control.
- * Respond positively if a police officer comes to your house. The officer most likely is responding to a complaint. Make sure the person interacting with police officers at the front door is sober and able to be responsive to officers' requests. Citing the Unruly Gathering Ordinance: it is an affirmative defense to a citation issued for a violation that the person who organized or hosted an unruly gathering contacted the police as soon as any of the violations or offenses listed in the definition of "unruly gathering" occurred.
- * Interfering with police officers makes a bad situation worse. Use common sense and be cooperative.

* When a police officer asks you to clear an area, leave right away. If you stick around to see what's happening, you may be in a situation where you are interfering with a police officer. If police warn that they are going to use tear gas, you need to quickly get as far away as you can.

"The City's Unruly Gathering ordinance went into effect on March 2, 2013. This ordinance holds individuals and property owners accountable for unruly events or social gatherings. The ordinance does not target a particular group of people and applies equally to all, regardless of where one lives in the City. The law applies when alcohol is served or consumed, and where any two or more of the following behaviors occur on the property where the gathering took place or on adjacent property:

violations that involve laws relating to sale, service, possession or consumption of alcohol; assault, menacing, harassment, intimidation, disorderly conduct, noise disturbance, criminal mischief, public urination or defecation, littering

"The ordinance will apply only when multiple violations of existing laws are taking place. It applies equally to all, regardless of where one lives in the City. A tenant or host would have to be breaking the law in more ways than one to be liable for penalties. The law does not prevent hosting parties or social gatherings. It just expects that the hosting will be done responsibly with respect to other neighbors."

To report non-emergency concerns to the Eugene Police Department, call 541-682-5111. For emergencies, always call 9-1-1.

To report safety or security concerns on the UO campus, call UOPD at 541-346-2919.

WINTER TERM PROMOTION KICKS OFF THIS WEEK

Winter term registration is kicking off this week for continuing students. Keeping current students enrolled from term to term is vital to our overall enrollment numbers. The Enrollment Huddle group is asking people to bring out their Registration T-shirts, and encouraging students to register early for winter term. We will be increasing messaging each week during November with a goal of having most continuing students registered by December 1. You can help by asking students you encounter if they are registered, and if not, encourage them to register soon to get their best schedule for winter term. We will also be putting up and sending out signage for strategic locations to get the message out.

Let me know if you have questions. Contact: Kerry Levett.

CENTER FOR ACCESSIBLE RESOURCES TIP: What is "Alt Text"?

Alt text, or alternative text, is a description of an image on a digital document or website that conveys to screen readers the content of the image. All images used for course material must have alt text. The alt text entered must communicate the relevance of the image to the material; it should not simply be a description of the image. If the image is simply decorative, the alt text should reflect this, but alt text must still be entered. Often alt text is added by right clicking on an image and selecting "format image," however it varies based on the word processing program or website designer. Contact: Renee Mackey.

PALOMA IS AN AWESOME DOG and is looking for her forever home. She was found abandoned in Mexico and we feared she would die if we left her there, so we brought her back to Oregon to find her a great home. She is as sweet as they come and gets along great with all people, including children, and dogs. She is a little over a year old, spayed, all vaccinations are up to date, she was tested for heart worm and she is negative. She is very healthy and very happy. She knows how to sit, stay and lay down and needs a little work in the "come" department, but she is getting better. She walks well on a leash if she is by herself, but pulls if other dogs are

being walked as well. (We have two other dogs.) She loves the dog park and gets along great with all sized dogs there. She is a sleek and muscular 70 pounds. Since she is food possessive, we always feed her separately from our other dogs. She would do well as the only dog since she LOVES people, or would also thrive in a multi dog family. She likes to chase our cats, so a cat free home would probably be best. Contact Bob Robertson at Babsrob@gmail.com Submitted by Alyse Stone.

NEWS AND ANNOUNCEMENTS

STUDENT PUBLICATIONS WIN PRESTIGIOUS NATIONAL AWARDS

Lane's student-produced graphic design publication, The Bleed Magazine, won a prestigious Associated Collegiate Press (ACP) Pacemaker Award at this year's annual conference. The Pacemaker is known as the "Pulitzer Prize" of collegiate publications, says graphic design instructor Tom Madison. "It is considered to be the highest honor that can be bestowed on a college publication. Ninety-six magazines from universities and colleges across the country were submitted. Only 19 Pacemakers were awarded." Competitors included UCLA and the UO, among others. The Bleed also won third place in the Best of Show competition; the only community college to place in this category. Bleed is created solely by graphic design students who provide all photography and illustrations, get permissions to show images of featured artists and their work, and write all copy, design and layout the 52-page magazine—all inside of eight weeks. Kim Crooks (formerly Boswell), co-editor-in-chief of The Bleed, placed seventh in the nation for best design for her illustrations.

The Torch was also a finalist for a Pacemaker award in its division and Joey Brobeck placed eighth for illustrations in The Torch. André Casey, last year's editor-in-chief of The Torch, was also on the Bleed staff.

Madison said, "I am awed, overwhelmed and overjoyed. The students really kill themselves over this project each year." Submitted by the editor.

PRESIDENT MARY SPILDE WINS HIGHEST AWARD FOR OREGON COMMUNITY COLLEGE CEOS

President Mary Spilde won the Howard Cherry Award for Outstanding Administrator at the 2016 Oregon Community College Association annual conference on Nov. 4. The announcement brought attendees to their feet with whoops, cheers and a long round of affirming applause. The Howard Cherry Award is given annually to an outstanding administrator, advocate, and board member. The awards are named for the late Dr. Howard Cherry, a lifelong advocate and leader in the community college movement. Spilde was nominated by fellow Oregon presidents, and members of the college and local community.

"Mary earned this award many times over, both in terms of what she has accomplished at Lane Community College and even more so for what she has accomplished and contributed to all of us as a collective of community colleges," wrote Presidents Greg Hamann of Linn-Benton Community College and Camille Preus Blue Mountain Community College. They added, "As sterling as her educational and employment credentials are, they don't describe the enormous impact Mary has had on community colleges within Oregon and across the nation. Nearly every important activity involving higher education and workforce policy in the past two decades has her name associated as a participant, speaker, facilitator, or leader."

Also at the conference, Lane Board of Education Chair Sharon Stiles and member Gary LeClair received 2016 Dedicated Service Awards for eight years of service each on Lane's board.

LCC ART GALLERY OPENS TWO EXHIBITS; RECEPTIONS NOV. 17 AND 30

The LCC Art Gallery opens a two-person exhibit on Nov. 14 featuring Lane faculty Jan Halvorsen and Andrea Ciaston, faculty member of the Department of Art and Applied Design, working in the Media Arts and Fine Arts areas respectively.

Jan says, "I work on wood panels that I prepare with a surface that is deliberately irregular. The unpredictability of that surface and the surprises encountered there appeal to me. I do start with a clear idea for my composition, but much of what happens after that is influenced by the surface, the media, and of course... the conversations."

Andrea says, "I explore the intersection of minimal imagery, materials, and emotion in my artistic practice. This work is the third in a seasonal cycle; evocative of the days of the dead. The title is an excerpt from a letter written by Catholic Priest T. Merton, upon learning his brother was killed in World War II. This work is my visual metaphor for the emotions evoked in this letter and by this time of year."

The show runs until December 7. There will be an artist Q&A on Thursday, Nov. 17 at 4:00 pm with a reception immediately following.

Also on Nov. 14, the gallery opens the group exhibit, "Diverse Journeys Through Art" featuring the work of local artists Karen Myers, Christine Paige and Laree Morgenstern. All three women have a long history of art-making and strong connection to the Lane Community College Art Department. They say of this exhibit, "For all of us, art is a connection to the world, nature, and the societies that they encompass. Through our art, we express emotions and hope to engender reactions as we explore life in different mediums."

The show runs until December 7. There will be a reception on Wednesday, Nov. 30 from 4:30-6 p.m. The LCC Art Galleries are located in Building 11 on main campus. There is no charge for admission. For more information contact the Art and Applied Design Department at ext. 5409. Contact: Jennifer Salzman.

EMPLOYEE CAMPAIGN—SUPPORT A SHINING STAR SCHOLARSHIP

Last year, 45% of LCC employees pledged over \$80,000 to the Foundation to support scholarships and programs, and pledged over \$12,000 to support community programs through the United Way. Your gift of support for the Shining Star scholarship can help LCC full-time students in any program at Lane. Are you interested in learning how a Shining Star Scholarship helped a LCC student? Meet, Tiffany Duncan, a second-year dental hygiene student.

<https://www.lanecc.edu/foundation/success-stories> With your support, the Foundation can help deserving students like Tiffany.

Thank you to all the department representatives who are helping with this year's employee giving campaign. It is easy to give or renew your gift of support to the Foundation or United Way. Foundation Giving Forms are also available online:

https://www.lanecc.edu/sites/default/files/foundation/employee_giving_form_2017.pdf

There will be at least three more employee campaign prize giveaways. To be eligible, be sure to get your employee giving form submitted to the Foundation Office.

Again, thank you for your support of the annual employee giving campaign. Contact: Phillip Hudspeth.

STILL TIME TO GET YOUR FLU SHOT

This is still a great time to get your flu shot as flu season is just beginning. We still have flu shots available at the health clinic; call 5665 to make an appointment.

Cold season is upon us! While colds can make you feel miserable, usually the best remedies are simple things you can do for yourself at home. These include drinking plenty of fluids, getting adequate rest, using saline spray or irrigation (neti pot) for a stuffy nose, drinking tea with lemon and honey, and possibly using select over the counter medications. Most cold-like symptoms are caused by viruses and viruses are not treatable with antibiotics. Unless you have a chronic medical condition such as asthma, diabetes, or an immune deficiency, you generally do not need to seek medical attention for the typical symptoms of a cold such as runny nose, stuffy nose, mild sore throat, cough, and low grade fever; all lasting less than 5-7 days. If you are not getting better after 5-7 days, have a chronic condition such as diabetes or asthma, or

have a sore throat with a fever and NO cough (possible strep throat), please make an appointment at the health clinic or your health care provider. If you have difficulty breathing, severe pain, or a combination of headache, fever, and/or neck stiffness, go to the emergency department.

And most importantly, avoid getting sick by washing your hands frequently and getting plenty of sleep!

Please remember, we do not routinely write excuses for students who miss class when they are sick. For more information on our sick note policy:

SAFETY IN ACTION GETS RESULTS

Kudos to Sharon Daniel and Heidi Morales of Human Resources for their ongoing work with our SAIF partners and Lane's loss control consultant, Bryan Burnette, to control workers compensation losses and manage claims in the best interest of supporting employees and returning injured workers to active employment.

Kudos as well to Lane's Safety Committee and the many, many Lane managers and employees who have made huge contributions to Lane's safety initiatives during the past several years.

The great news is that these safety efforts have resulted in the reduction of Lane's workers compensation claims experience to a factor of 0.60 (1.0 is "average" claims experience; 0.60 is a very good claims experience) for the past three years.

These efforts save Lane Community College hundreds of thousands of dollars in workers compensation insurance premium payments and support a safer work and learning environment for all Lane employees and students.

Thanks to all for the productive and meaningful focus on safety in our work and learning environments. Submitted by Dennis Carr.

SAVE THE DATE: 2ND ANNUAL LCC RESOURCE FAIR, JAN. 25

Last years Resource Fair was so successful, with almost 500 attendees and over 35 programs & services represented, that the Career Center has decided to coordinate the event again this year. A cross-departmental team has been established to plan and implement the event, which has been scheduled for Jan. 25 from 10:00-2:00 in the NW Haugland Commons in the Center Building. Plans are to expand upon the overall number and variety of resources, and to include some community based services in addition to the many LCC resources. Mark your calendar for this exciting event, and if your department or program is interested in reserving a table at the event, please contact Tammy Walters at walterst@lanecc.edu or ext. 5296.

PALOMA IS AN AWESOME DOG and is looking for her forever home. She was found abandoned in Mexico and we feared she would die if we left her there, so we brought her back to Oregon to find her a great home. She is as sweet as they come and gets along great with all people, including children, and dogs. She is a little over a year old, spayed, all vaccinations are up to date, she was tested for heart worm and she is negative. She is very healthy and very happy. She knows how to sit, stay and lay down and needs a little work in the "come" department, but she is getting better. She walks well on a leash if she is by herself, but pulls if other dogs are being walked as well. (We have two other dogs.) She loves the dog park and gets along great with all sized dogs there. She is a sleek and muscular 70 pounds. Since she is food possessive, we always feed her separately from our other dogs. She would do well as the only dog since she LOVES people, or would also thrive in a multi dog family. She likes to chase our cats, so a cat free home would probably be best. HELP SUPPORT CHINUK WAWA AT LANE COMMUNITY COLLEGE

Here's the phrase of the week: ʔush msayka yeʔlan msayka uk-san. In translation, that literally means "good if you all help you all today." A less literal translation is "you folks should help each other today." You are invited to use this phrase with friends and family, at work and at home, when the sun shines and when the moon's up and at most any other time or place you

can imagine. Please contact Drew Viles (541.463.5480 or vilesa@lanecc.edu) to find out more about chinuk wawa at Lane. Thanks to Jerome Viles and Zeke Zahir for their help with this week's phrase.

GIVE TO SCHOLARSHIPS

Scholarships help make an education accessible and affordable. The many services Lane offers students help them succeed in the classroom and be better prepared for the workforce. Meet Chris, a student in Lane's Health Information Management program. Because of scholarships, Chris is attending classes at Lane and with the help from Center for Accessibility Resources and the TRiO Learning Center, Chris is a 4.15 GPA student. To see Chris's story and the story other Lane Foundation scholarship recipients visit: <https://www.lanecc.edu/foundation/success-stories>

Don't forget there are prizes! All participants in the annual giving campaign will be enrolled for prize giveaways. Prizes include passes for two to the Newport Seafood and Wine Festival (four sets of passes to give away); lunch for two at the Renaissance Room, a jeroboam of Castellani wine and a Titan Sweatshirt. In addition, Nov. 16, Nov. 30, and Dec. 7, the Foundation will deliver a basket of muffins for participant in this year's employee giving campaign.

Annually more LCC employees participate in the annual employee giving campaign than employees at other two-year and four-year institutions. Let's keep this trend going, it starts with you making your gift of support. Make your gift today:

ADA 504 COMPLIANCE COMMITTEE MEETING, DEC. 2

The ADA 504 Compliance Committee will be meeting on Friday, Dec. 2 from 10 a.m.-12 p.m. in Building 19, Room 260. This will be a brown bag meeting, you are welcome to bring your lunch. Any interested students, faculty, staff and community members are invited to attend all or part of this meeting to share ideas and concerns, or to learn more about accessibility issues at Lane Community College. For more information, contact Renee Mackey at 541-463-5662 or Leanne

Guthrie at (541) 463-5746. To request disability-related accommodations that will facilitate your full participation in this event, please contact the Center for Accessible Resources a week in advance: (541) 463-5150 (voice); 711 (relay); Building 1, 218; or accessibleresources@lanecc.edu

CENTER FOR ACCESSIBLE RESOURCES TIP: Who do I talk to if a student asks for accommodations that were not in their Letter of Accommodation (LOA)?

Adjustments in academic accommodations are common as the effects of disabilities may ebb and flow and because the disabilities themselves or classes and learning environments change. Instruct the student to contact their CAR primary advisor to discuss any accommodation changes they may need to their Letter of Accommodation. Find more information: <https://www.lanecc.edu/disability/letter-accommodation-loa> Contact: Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: What services does CAR provide for my students?

The Center for Accessible Resources (CAR) provides academic accommodations and tools for students, faculty and staff. We strive to educate and increase awareness of disability issues. We work with students with disabilities to figure out what accommodations or adjustments will be useful to improve access to the learning environment, for both credit and noncredit classes. We also assist students in developing learning strategies that can be used while attending college. Find more information: <https://www.lanecc.edu/disability/information-faculty-student-accommodations> Contact: Renee Mackey.

We are seeing a lot of contamination in the paper recycling across campus.

Here is a list of things that belong in the paper recycling: any notebook paper, office paper, envelopes (plastic windows OK), paperboard from packaging, post its, posters, fliers, books, paper bags (not contaminated with food). Cardboard may be put in the cardboard container in your building. If you need to know where that is please send an email to thillb@lanecc.edu

Items that DO NOT belong in paper recycling: ANY KIND OF PLASTIC, paper plates, paper cups, Candy wrappers, Kleenexes, paper towel, the plastic strap that comes on the paper box, reem wrappers that are not paper, can you tear it and see the fibers?

CENTER FOR ACCESSIBLE RESOURCES TIP: EXTENDED TESTING TIME FOR ALL STUDENTS

Historically some instructors have attempted to proactively accommodate all students by providing extra testing time to all students intending to eliminate the need for extended time accommodations. Example: if the instructor feels the exam should take one hour they allow two hours for all students. While this is well intended, it cannot be used as a substitute for extended time accommodations. If a student has been deemed to receive 1.5x or 2x extended time accommodation on a Letter of Accommodation, they must be given this extended time in addition to the time being provided to all students. This ruling has been handed down repeatedly and consistently by the Office of Civil Rights. Additionally the students' performance in the class or grade can never be reason to withhold or determine accommodations such as extended time are not needed. Submitted by Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: Concerns with accommodations?

Students with a Letter of Accommodation (LOA) have been determined to be entitled to use some or all of the stated accommodations and are legally entitled to them. If an instructor has concerns over the accommodations or the impact they may have on the learning outcomes they must be discussed with the Center for Accessible Resources. Instructors may not decide themselves to withhold or refuse to provide any accommodations. CAR advisors are always happy to discuss accommodation or provision concerns and potential alternate solutions. Please direct your questions or concerns directly to the student's CAR advisor that is listed on their LOA or to AccessibleResources@lanecc.edu Submitted by Renee Mackey.

"STAMPED FROM THE BEGINNING: DEFINITIVE HISTORY OF RACIST IDEAS IN AMERICA," NOV. 30

Ibram X. Kendi presents "Stamped from the Beginning: The Definitive History of Racist Ideas in America," on Wednesday, Nov. 30 at 3 p.m. in the Knight Library Browsing Room at the University of Oregon. Kendi won the 2016 National Book Award for nonfiction. In this deeply researched and fast-moving narrative, Kendi chronicles the entire story of anti-Black racist ideas and their staggering power over the course of American history. He argues that if we have any hope of grappling with this stark reality, we must first understand how racist ideas were developed, disseminated, and enshrined in American society. Kendi is an assistant professor of contemporary African American history at the University of Florida. In addition to "Stamped from the Beginning," he authored "The Black Campus Movement: Black Students and the Racial Reconstitution of Higher Education," 1965-1972. Submitted by Greg Evans.

IMPROVING YOUR ONLINE COURSE - QUALITY MATTERS 2-WEEK WORKSHOP BEGINS JAN. 24

The "Improving Your Online Course" (IYOC) online workshop explores the QM Rubric and provides a framework to improve the quality of online and blended courses. Participants use the QM Rubric to review their own courses and come away with a plan for course improvement, so enrolling in the workshop with a pre-developed online or blended course is required. (Workshop is designed for those who have online teaching experience.) QM suggests that participants block out 8-10 hours per week for this two-week workshop that begins January 24. The workshop will be facilitated by QM-trained faculty from Columbia Gorge and Chemeketa Community Colleges and is funded by the Oregon Community College Distance Learning Consortium. There are a limited number of seats available. To enroll in IYOC, contact Audrey Mills at millsa@lanecc.edu or 541-463-5368.

CENTER FOR ACCESSIBLE RESOURCES TIP: Accessible Tables

All classrooms are equipped with an adjustable table. These tables may look like a regular table but can be adjusted for height with a hand-crank. These tables need to be kept free of clutter. Please help us to ensure that Universal Design items such as this in place for students are available for use. Contact: Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: Strategies for working with students with Autism or Asperger's Syndrome

Let them know that asking for help demonstrates intelligence. Model how to cope with frustration, i.e. staying calm. Help students shift their attention by bringing closure to a previous process. Emphasize that we learn from our mistakes; errors are opportunities to learn. For group projects, help students find a role that will be comfortable (i.e. doing background

research or a PowerPoint vs. doing a verbal presentation). Students may need to sit in a specific part of the classroom to minimize distractions and sensory stimulation. Suggest possible resources to students: the Tutoring Center or the Center for Accessible Resources. Find more information:

https://www.lanecc.edu/sites/default/files/disability/working_with_asd_students.pdf

Contact: Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: Retroactive Accommodations

The Center for Accessible Resources (CAR) is not able to provide accommodations for students retroactively. If a student discloses they have a disability to a faculty member at any point in the term, the faculty member should direct the student to contact CAR. While CAR cannot provide retroactive accommodations, CAR can take immediate and swift action to support the student and instructor in the learning environment and in navigating the accommodation process.

WISHING YOU A HEALTHY HOLIDAY

Winter break is almost here! Break can be a time to rest, rejuvenate, and spend extra time with family and friends. It also is a time of year to take good care of yourself to avoid getting the winter crud. There are many simple things that can help you prevent getting sick. Make sure to get plenty of rest, drink lots of fluids and keep active. It can be easy to want to veg out during the break, but even a brisk walk every day can help keep you healthy. Wash your hands frequently. It is not too late to get your flu shot! You can make an appointment at the health clinic to get your flu shot before the break starts and your travels begin. From all of us at the Health Clinic we hope you have a relaxing and healthy winter break and look forward to seeing you in the New Year. Contact: Carly Policha.

WHITEAKER COMMUNITY THANKSGIVING DINNER THANKS

Heartfelt thanks to Chef Clive Wanstall and the many Culinary Arts students and graduates and Brian Kelly and the Center for Meeting and Learning staff for cooking the 1,500 pounds of turkey and almost all the other food that was served to more than 2,200 men, women, and children who attended the free dinner. Also everyone who helped with the many hours of food preparation activities. Thanks to all who donated to this year's sleeping bag drive. Special thanks to Sue Thompson retired from the Health, PE, and Athletics and her great Lane group of staff, students, and friends who distributed the much needed items early Thanksgiving morning to the many waiting guests. It is hard to describe the looks on peoples' faces as they receive a new sleeping bag or blanket. Many of our guests spent the cold night waiting in line. Thank you to Gee Thomas from Counseling Department for coordinating the organization and distribution of clothing and other needed items in the "Free Store." Again, thank you to all the Lane staff, students, and friends who shared in this experience of community caring and sharing.

IMPROVING YOUR ONLINE COURSE - QUALITY MATTERS 2-WEEK WORKSHOP BEGINS JAN. 24
The "Improving Your Online Course" (IYOC) online workshop explores the QM Rubric and provides a framework to improve the quality of online and blended courses. Participants use the QM Rubric to review their own courses and come away with a plan for course improvement, so enrolling in the workshop with a pre-developed online or blended course is required. (Workshop is designed for those who have online teaching experience.) QM suggests that participants block out 8-10 hours per week for this two-week workshop that begins January 24. The workshop will be facilitated by QM-trained faculty from Columbia Gorge and Chemeketa Community Colleges and is funded by the Oregon Community College Distance Learning Consortium. There are a limited number of seats available. To enroll in IYOC, contact Audrey Mills at millsa@lanecc.edu or 541-463-5368.

TRAUMA-INFORMED LEARNING, JAN. 27 AT LCC DOWNTOWN

The need to identify, address and provide resources for trauma-informed learning in higher education is gaining momentum as awareness of the impact of developmental trauma on adult learning comes into greater focus. Faculty members have the unique opportunity to assist these learners who often feel displaced and outside of the typical learning process and help them anchor and engage in the classroom in ways that allow them to persist and attain their educational goals. Come join the conversation and collaboration as we explore the differences between shock trauma and developmental trauma, how to identify developmental trauma in students, how to implement trauma-aware strategies in the classroom, share times you've witnessed developmental trauma issues emerge in your classroom and hear from a panel of students who will share their experiences and insights as learners with developmental trauma.

WANTED: Egg cartons with a dozen egg capacity. Please call Lee at x3356 or 541-683-6247.

I WAS RECENTLY RESCUED from Mexico. My foster parents found me wandering the neighborhood and tried for a month to find my owners, with no luck. So they brought me back to Oregon to save my life and find me my forever home. My name is Paloma which means Dove in Spanish. I am a very sweet, healthy and happy girl, about one and a half year old with the cuteness of puppy still in me, I'm spayed and fully vaccinated and heart worm negative. I get along great with all dogs and people. Everyone always says what a pretty dog I am when my foster parents take me on a walk or to the dog park. I love playing with my foster's other dogs, so I would be great in a family with other dogs, but I also love my people time and really love hanging out with my foster parents. I am house trained, rarely bark and I know basic commands like sitting, staying, lay down and I am getting better at 'come.' I am very interested in my foster's cats and I like to chase them, but I can probably learn to leave them alone. (I'm getting much better at that.) I walk well on a leash when I am the only dog being walked, but still pull on the leash when I get excited. I LOVE children, but I get so excited around them I may jump on them sometimes. I am getting better at that too. I look like I am part Shepherd and part Dalmatian (I have spots on my skin and a few on ears.) Despite my size (65 pounds) I am a gentle spirit and have an extremely sweet disposition. Come meet me. I'm sure you'll fall in love with me like my foster parents have. They would keep me if they could! (They already have two dogs.) Call for more info, videos and pictures. Barbara 541 359-7531 or babsrob23@gmail.com

LAST WEEK OF THE SCHOOL SUPPLY COLLECTION!

Are you planning to do some bargain hunting this holiday weekend? If so, you might want to pick up some school supplies for our LCC students that will be distributed Winter Term (a time when many students are more stretched for resources after the holidays and with higher heating bills).

The classified (LCCEF) and faculty (LCCEA) unions have joined together in a solidarity event to collect new or gently used school supplies for LCC students. We have kicked this collection off by putting donation locations around campus and will continue collection through December 16. We are working with the Student Association (ASLCC) who will manage all that is collected. Currently, we have the following designated donation/drop off spots:

- Building 1, Financial Aid, Contact: Casandra Rhay
- Building 1, Room 210-ASLCC Offices, Contact: Robert Kirkpatrick
- Building 1, Room 215, Contact: Sara Fox
- Building 5, Room 205, Contact: Paula Sena
- Building 6, Room 204, Contact: Marla Norton
- Building 11, Rooms 201 & ALS Workroom, Contact: Tracy Henninger-Willey
- Building 19, Room 266, Contact: Randa Law
- Building 30, Room 103, Contact: Tammy Burbee
- Center Building, Library Circulation Desk, Contact: Linda Crook

More locations are welcome, so if your department or building is not represented above, please consider "hosting" a collection location.

The items collected will be taken to ASLCC at the end of the collection period. ASLCC, with the help of some volunteers, will create supply bundles to distribute Winter term to students. High-need items include binders, dividers, paper, folders, post-it notes, highlighters, pens, and pencils. However, any item will be welcomed and find a home.

If you have any questions or would like to add a collection location, please contact Sara Fox, foxs@lanecc.edu LCCEF Recording Secretary or Tracy Henninger-Willey, henningert@lanecc.edu LCCEA Secretary.

CENTER FOR ACCESSIBLE RESOURCES: Student Confidentiality

Information about a student's disability must only be shared with someone who has a legitimate "need to know." A student's privacy must be balanced with their interest—only share information if the student has given their expressed permission or in consultation with an appropriate CAR staff member. Please do not speak about a student's disability or their accommodations with other students or in public settings (e.g. the classroom). Contact: Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES: Making the new term accessible

It's important for every student to be able to read and understand all course materials! When preparing for the upcoming term, take the time to make your coursework as accessible as possible. It only takes a minute to make these easy changes, it makes the term easier for everyone! Making these changes now ensures that you won't have to make changes later in the

term to accommodate students with disabilities, saving time for everyone. Some strategies include: Use instructional videos that already have closed captioning so that all students can understand the information being processed, make all handout text Arial font, at least 12pt and easy to read, provide printed copies of overheads and slides and upload copies to moodle, and include image tags for pictures in online documents. Visit our webpage on making course material accessible for more information. <https://www.lanecc.edu/disability/making-course-material-accessible> Contact: Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES

The Center for Accessible Resources will be closed Wednesday, Dec. 14 for our annual staff retreat and training. December 23rd-January 2nd for Winter Break. Services will resume for students on January 3rd. Contact: Renee Mackey.

THE REFUGEE RESETTLEMENT COALITION OF LANE COUNTY is looking for volunteer Arabic, Kurdish and Farsi interpreters and translators to help refugee families periodically during the first 90 days of transitioning into a new life in Eugene. Please share this with contacts in the Eugene area who speak these languages or know someone who speaks these languages. We are especially looking for Farsi interpreters in the near future. We are looking for volunteers, but may also be able to pay a small honorarium for interpretation in official situations. Fundraising is underway to support the needs of refugees. The Refugee Resettlement Coalition of Lane County (RRCLC) is a coalition of community volunteers who have banded together to support the Catholic Community Services' newly-launched program to resettle refugees in Lane County. Working in concert with Catholic Community Services, our coalition supports the ongoing resettlement of refugees who already have a family tie here in the area. The Refugee Resettlement Coalition's Language Support Group's goal is to get these individuals into ELL classes, provide them with extra-curricular learning opportunities, and to locate appropriate translators for them. We would greatly appreciate your support with this effort. Thank you very much for any help you can give to our resettlement effort. Please don't hesitate to contact me. indirabakshi2@gmail.com We will provide a brief interpreter training on Jan. 7th. You may also volunteer to help the effort or donate by visiting Catholic Communities Services website and follow links to the donation and volunteer applications.

NEWS AND ANNOUNCEMENTS

HOMELESS MAN ALSO VOLUNTEERS AT LANE WARMING CENTER

The Lane Warming Center works because volunteers give their time. Consider Tom Campbell, for instance. Tom is himself homeless but he often volunteers to cover the 2-7 a.m. shift. He told Lane's Dawn Rupp that he decided to train as a volunteer last year when "he got frostbite so bad that he had to have part of his foot amputated and wanted to help make sure this didn't happen to anyone else." The frostbite left him with ongoing and severe nerve pain, but he makes it a point to volunteer at Lane and to make sure the warming center is open.

So far this winter, Lane's center has opened six times on Dec. 6, 12, 14, 16, 17, and 18. The number of guests have ranged from two to 25 per night, with an average of 14, including an average of four students. The center operates in Building 4, Room 104, from 6 p.m. to 7 p.m. Guests are provided with sleeping mats, dinner, and hot showers. Donations of toiletries are always welcome. Lane staff members like Dawn and Lisa Rupp, students, and community members like Tom, volunteer to keep the center operating. Want to be part of it? Contact Dawn at dawnprupp@icloud.com The Lane Warming Center is part of the Egan warming center network. For more information about Egan, go online at <http://www.eganwarmingcenter.com>

WARMING CENTER OPEN TONIGHT AND WILL REMAIN ON STANDBY

Lane's Warming Center is open tonight and is on standby for Wednesday, Dec. 21. Lane is part of the Egan Warming Center network. If you have questions or can help, contact Dawn Rupp at (541) 521-5893. For more information check the Egan website at <http://www.eganwarmingcenter.com>

WHEN THANK YOU IS NOT ENOUGH

TRAUMA-INFORMED LEARNING, JAN. 27 AT LCC DOWNTOWN

The need to identify, address and provide resources for trauma-informed learning in higher education is gaining momentum as awareness of the impact of developmental trauma on adult learning comes into greater focus. Faculty members have the unique opportunity to assist these learners who often feel displaced and outside of the typical learning process and help them anchor and engage in the classroom in ways that allow them to persist and attain their educational goals. Come join the conversation and collaboration as we explore the differences between shock trauma and developmental trauma, how to identify developmental trauma in students, how to implement trauma-aware strategies in the classroom, share times you've witnessed developmental trauma issues emerge in your classroom and hear from a panel of students who will share their experiences and insights as learners with developmental trauma. When: Friday, Jan. 27, 9 a.m.-4 p.m.

Where: Lane Community College Downtown Campus, 101 W. 10th Ave, Eugene

Who: Full-time and part-time faculty from all disciplines

Presenter: Cara DiMarco, Women in Transition Program Faculty, Lane Community College

Sponsored by the Oregon Student Success Center, this event is free but you are asked to RSVP your attendance and any dietary restrictions to elizabeth@occa17.com by Jan. 18. Efforts are underway to provide live streaming of the event; information for virtual attendance will be sent once that is confirmed. The Career Center is excited to announce the second Annual Resource Fair at Lane Community College. This free event is created for students to learn about the resources available to help them be successful. It is your opportunity to showcase your services with hundreds of students. Last year's fair was very popular, with 500 attendees, so this year we are expanding to include some off-campus community resources as well. We invite you to join us! The Resource Fair is scheduled for Jan. 25, from 10 a.m.-2 p.m. in the Haugland Commons, second floor of the Center Building. To reserve a table for your program/department, please contact Tammy Walters no later than Jan. 12 at ext. 5296 or walterst@lanecc.edu We look forward to hearing from you!

TRAUMA-INFORMED LEARNING, JAN. 27

The need to identify, address and provide resources for trauma-informed learning in higher education is gaining momentum as awareness of the impact of developmental trauma on adult learning comes into greater focus. Faculty members have the unique opportunity to assist these learners who often feel displaced and outside of the typical learning process and help them anchor and engage in the classroom in ways that allow them to persist and attain their educational goals. Come join the conversation and collaboration as we explore the differences between shock trauma and developmental trauma, how to identify developmental trauma in students, how to implement trauma-aware strategies in the classroom, share times you've witnessed developmental trauma issues emerge in your classroom and hear from a panel of students who will share their experiences and insights as learners with developmental trauma.

When: Friday, Jan. 27, 9 a.m.-4 p.m.

Where: Lane Community College Downtown Campus, 101 W. 10th Ave, Eugene

Weather Closure Q&A

Q. How do we know if Lane is closed due to weather?

A. When a decision is made to close any Lane Community College location, or delay classes due to severe weather, the college sends a LaneAlert emergency message, notifies news media, and posts announcements on the college home page, Facebook and Twitter pages, switchboard, and FlashAlert.net. Do not call news stations directly—this delays their ability to bring you the latest information. Closures or delays may impact one or more Lane locations. Messages specify affected locations.

LaneAlert is the fastest way to get information. Students and employees are automatically signed up to receive LaneAlert emails and should sign up for LaneAlert text messages via the myLane icon on the LCC home page.

Q. When will we know that Lane is closed?

A. Closures or delays can be announced at any time as conditions change; however, every effort is made to announce morning closures or delays by 6:30 a.m., and evening closures by 3 p.m.

Q. If there's a delay, when do I report to class?

A. If the opening of classes is delayed, report to class at the new starting time if at least 50 minutes of class/lab time remains. For example, if opening is delayed to 10 a.m., classes and labs that normally begin at 10 a.m. or are already in session at 10 a.m. would meet, but only if the normal ending time for that class or lab is 10:50 a.m. or later. The remainder of the day would continue on the regular schedule.

If you miss class due to the weather or for any reason beyond your control, talk to your instructor or department head.

Q. What routes are best for driving?

A. When 30th Avenue is icy, some people drive in from the east via Franklin.

Q. What about LTD?

A. In general, LTD operates buses to Lane when Lane is open; however, drivers may choose alternate routes. An LTD route change or cancellation does not necessarily indicate a college closure.

Q. What about snow and ice removal on main campus?

A. When snow and ice accumulate on main campus, warning signs are posted at entrances and work crews sprinkle or spray ice melter on sidewalks and traffic lanes. Snow plows clear the main south parking lots and traffic lanes connecting Eldon Schafer Drive and Gonyea Road. Since the Eugene area is fairly temperate and does not experience extreme, reoccurring winter conditions, the Lane facilities department has limited equipment and resources to clear sudden accumulating snow or widespread icy conditions. It is very important that everyone use appropriate footwear, wear gloves, use handrails, take extra precautions in wintry conditions, and expect slick spots on cold mornings. Call Facilities Management and Planning at (541) 463-5000 to report unsafe conditions or concerns.

Q. If Lane is closed, should staff report for work?

A. When a college location is closed, classes and activities at the facility are canceled. Staff who work there should not report for work or come to the work site, unless they receive specific instructions otherwise from their supervisor, or hear such instructions in news announcements. If some facilities are closed and others are open, staff who work at the open facilities should report to work as usual.

Q. Will staff get paid?

A. Review the College Online Policy and Procedure System (COPPS) policy on "Pay: School Closure" for guidelines on compensation.

Q. How are weather closure decisions made?

A. Lane administrators, safety and facilities staff work as a team and collaborate with school districts, other higher education institutions, and public agencies including cities, the county, LTD and ODOT, in making weather closure decisions. Lane conducts real-time monitoring of developing weather, road and campus conditions. These and other factors are considered—

- What are conditions on campus?
- What are road conditions like?
- What is the weather forecast?
- Are temperatures expected to fall or rise?
- Are local schools delaying or closing?
- Are buses running on time?

- How will this affect student-parents with kids in school?
- How will this affect students who commute from a significant distance?

Closures may be announced at any time as conditions change but every effort is made to announce morning closures by 6:30 a.m., and evening closures by 3 p.m. Updates are posted as soon as possible.

Each decision is likely to inconvenience someone. Lane does its best to ensure safety and accessibility for as many students as possible and encourages individuals to use caution and make the best decisions they can for themselves, whether confronting bad weather or other challenges.

Experience shows that delays often create more confusion than closing for the day or remaining open for the day. Individual school districts may still delay depending on changing conditions in their vicinities.

Q. What if I have other questions?

A. Employees may refer to the Employee Emergency Manual. For a copy of the manual, send an email to barthd@lanecc.edu .
