ART GALLERY FEATURES FIBER ART, PHOTOGRAPHY EXHIBITS

The Lane Community College Art Gallery is proud to present two outstanding exhibitions in January. "Body Language" features the works of Minneapolis based fiber artist Erica Spitzer Rasmussen. "Photos from the Imperfect World" features the works of Oakland, California photographer Ed Aust. Both shows open January 9 and run through February 9.

Rasmussen is a nationally and internationally acclaimed artist specializing in fiber-based sculpture and artist books often of a garment base. Her work is renowned for its detail and beauty as well as its hard hitting messages through the use of metaphor. On her website she writes, "I use clothing as subject matter because it allows me a ground on which to investigate identity and corporeality ... My garments are metaphors."

In his statement, Aust writes, "I'm fascinated by the photograph's persuasive power, calling us to pay attention to what we would normally overlook. A good photograph can make the familiar strange and the strange familiar. It can infuse the mundane with mystery or oddness, and show us that the world in which we exist is fraught with both peculiarity and holy significance. All of the photos in this exhibition were taken within the past two years and consist of people and cultural artifacts I've encountered on my intentional photo walks." There will be a lecture with Aust on Thursday, January 19 at 3 p.m. in the gallery with a reception immediately following.

CENTER FOR ACCESSIBLE RESOURCES: Faculty Newsletter Winter 2016

CENTER FOR ACCESSIBLE RESOURCES TIP: Accessibility Statements

Accessibility Statements must be on your syllabi, publications and field trip/event fliers. These statements provide effective methods for communicating information to the college community about the Center for Accessible Resources, accommodations, and access to Lane's campuses, programs, websites, and encourage students and community members to speak up about disability issues without being asked (which can violate their privacy). You can find the College's official accessibility statements in the Accessibility Statements section of our website. Submitted by Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: How to Refer Students to CAR

When students have difficulties but it's unclear whether it's a disability, a faculty member may not assume or directly ask the student if she or he has a disability. However, faculty can discuss the issues of concern with the student and she or he might choose to share disability information. If the student discloses a disability, inform the Center for Accessible Resources (CAR) and direct the student to CAR. If the student does not indicate a disability, give them a list of campus resources and include CAR on the list. Below are some suggestions about discussing this with the student. Focus on observed behavioral symptoms or problems rather than the diagnosis. Tips for Suggesting CAR to Students:

Come join the conversation and collaboration as we explore the differences between shock trauma and developmental trauma, how to identify developmental trauma in students, how to implement trauma-aware strategies in the classroom, share times you've witnessed developmental trauma issues emerge in your classroom and hear from a panel of students who will share their experiences and insights as learners with developmental trauma.

CENTER FOR ACCESSIBLE RESOURCES: Faculty Newsletter Winter 2016

CAR is happy to provide you with our Winter 2016 Electronic Faculty Newsletter. In these Newsletters we respond to faculty concerns and frequently asked questions. Also, we provide in-depth information on working with CAR and students with disabilities. To view the newsletter visit:

CENTER FOR ACCESSIBLE RESOURCES TIP: Accessibility Statements

Accessibility Statements must be on your syllabi, publications and field trip/event fliers. These statements provide effective methods for communicating information to the college community about the Center for Accessible Resources, accommodations, and access to Lane's campuses, programs, websites, and encourage students and community members to speak up about disability issues without being asked (which can violate their privacy). You can find the College's official accessibility statements in the Accessibility Statements section of our website. Submitted by Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: How to Refer Students to CAR

When students have difficulties but it's unclear whether it's a disability, a faculty member may not assume or directly ask the student if she or he has a disability. However, faculty can discuss the issues of concern with the student and she or he might choose to share disability information. If the student discloses a disability, inform the Center for Accessible Resources (CAR) and direct the student to CAR. If the student does not indicate a disability, give them a list of campus resources and include CAR on the list. Below are some suggestions about discussing this with the student. Focus on observed behavioral symptoms or problems rather than the diagnosis. Tips for Suggesting CAR to Students:

ED AUST LECTURE IN THE ART GALLERY, JAN. 19

The Lane Community College Art Gallery is proud to present two outstanding exhibitions in January. "Body Language" features the works of Minneapolis based fiber artist Erica Spitzer Rasmussen. "Photos from the Imperfect World" features the works of Oakland, California photographer Ed Aust. Both shows open January 9 and run through February 9.

Rasmussen is a nationally and internationally acclaimed artist specializing in fiber-based sculpture and artist books often of a garment base. Her work is renowned for its detail and beauty as well as its hard hitting messages through the use of metaphor. On her website she writes, "I use clothing as subject matter because it allows me a ground on which to investigate identity and corporeality ... My garments are metaphors."

In his statement, Aust writes, "I'm fascinated by the photograph's persuasive power, calling us to pay attention to what we would normally overlook. A good photograph can make the familiar strange and the strange familiar. It can infuse the mundane with mystery or oddness, and show us that the world in which we exist is fraught with both peculiarity and holy significance. All of the photos in this exhibition were taken within the past two years and consist of people and cultural artifacts I've encountered on my intentional photo walks." There will be a lecture with Aust on Thursday, January 19 at 3 p.m. in the gallery with a reception immediately following.

The gallery is located in building 11 on LCC main campus, 4000 E. 30th Avenue. There is no charge for admission. The Art and Applied Design Department phone number is (541) 463-5409. Contact: Jennifer Salzman, ext. 3431, salzmanj@lanecc.edu

CENTER FOR ACCESSIBLE RESOURCES TIP: Confidentiality

Rules governing disability services are different in college than in K-12, which can be an adjustment for many students. Here at Lane Community College, the entire accommodation process must be student-initiated. The student is responsible for his or her own accommodation requests and disability-related decisions. Confidentiality laws prohibit CAR staff from discussing students' information with any staff that do not have a "need to know" and anyone outside of the institution without written consent. Choosing whether or not to obtain disability accommodations is one of the valuable experiences students will gain in college. Contact: Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: Where do I go if I need to fill out or edit a testing agreement?

When a student requests a test to be taken through CAR, an email is sent to your lanecc.edu email address with a link where you can fill out the testing agreement. If you need to make changes to your testing agreement or you need help filling it out, call CAR at x5280. Reminder: This form is not to be filled out for one (1) exam or specifically customized to one (1) student. This information should pertain to all of the tests/quizzes/exams/finals etc. that are given in your course and the customized information for each student (ex: extended time) will be added by our systems after your completion of the form. Contact: Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: What to do in an emergency for students with mobility difficulties

In cases of emergency evacuations, faculty members must be aware of options for students and staff with mobility difficulties. There is an "Area of Rescue" in Building 16 Room 229. Emergency evacuation devices (Evacu-Tracs) are located in the Center Building on the 4th floor and basement, in building 30 and on the downtown campus.

ED AUST LECTURE IN THE ART GALLERY, JAN. 19

The Lane Community College Art Gallery is proud to present two outstanding exhibitions in January. "Body Language" features the works of Minneapolis based fiber artist Erica Spitzer Rasmussen. "Photos from the Imperfect World" features the works of Oakland, California photographer Ed Aust. Both shows open January 9 and run through February 9.

Rasmussen is a nationally and internationally acclaimed artist specializing in fiber-based sculpture and artist books often of a garment base. Her work is renowned for its detail and beauty as well as its hard hitting messages through the use of metaphor. On her website she writes, "I use clothing as subject matter because it allows me a ground on which to investigate identity and corporeality ... My garments are metaphors."

In his statement, Aust writes, "I'm fascinated by the photograph's persuasive power, calling us to pay attention to what we would normally overlook. A good photograph can make the familiar strange and the strange familiar. It can infuse the mundane with mystery or oddness, and show us that the world in which we exist is fraught with both peculiarity and holy significance. All of the photos in this exhibition were taken within the past two years and consist of people and cultural artifacts I've encountered on my intentional photo walks." There will be a lecture with Aust on Thursday, January 19 at 3 p.m. in the gallery with a reception immediately following.

The gallery is located in building 11 on LCC main campus, 4000 E. 30th Avenue. There is no charge for admission. The Art and Applied Design Department phone number is (541) 463-5409. Contact: Jennifer Salzman, ext. 3431, salzmanj@lanecc.edu

CENTER FOR ACCESSIBLE RESOURCES TIP: Confidentiality

Rules governing disability services are different in college than in K-12, which can be an adjustment for many students. Here at Lane Community College, the entire accommodation process must be student-initiated. The student is responsible for his or her own accommodation requests and disability-related decisions. Confidentiality laws prohibit CAR staff from discussing students' information with any staff that do not have a "need to know" and anyone outside of the institution without written consent. Choosing whether or not to obtain disability accommodations is one of the valuable experiences students will gain in college. Contact: Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: Where do I go if I need to fill out or edit a testing agreement?

When a student requests a test to be taken through CAR, an email is sent to your lanecc.edu email address with a link where you can fill out the testing agreement. If you need to make changes to your testing agreement or you need help filling it out, call CAR at x5280. Reminder: This form is not to be filled out for one (1) exam or specifically customized to one (1) student. This information should pertain to all of the tests/quizzes/exams/finals etc. that are given in your course and the customized information for each student (ex: extended time) will be added by our systems after your completion of the form. Contact: Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: What to do in an emergency for students with mobility difficulties

In cases of emergency evacuations, faculty members must be aware of options for students and staff with mobility difficulties. There is an "Area of Rescue" in Building 16 Room 229. Emergency evacuation devices (Evacu-Tracs) are located in the Center Building on the 4th floor and basement, in building 30 and on the downtown campus.

TRAUMA INFORMED LEARNING, JAN. 27

The need to identify, address and provide resources for trauma-informed learning in higher education is gaining momentum as awareness of the impact of developmental trauma on adult learning comes into greater focus. Come join the conversation and collaboration as we explore the differences between shock trauma and developmental trauma, how to identify developmental trauma in students, how to implement trauma-aware strategies in the classroom, share times you've witnessed developmental trauma issues emerge in your classroom and hear from a panel of students who will share their experiences and insights as learners with developmental trauma.

2017 HARVEST DINNER GUEST CHEF FOT HIS START AT LANE

The Lane Community College Foundation, in partnership with Culinary Arts and Hospitality Management and the Center for Meeting and Learning, is pleased to announce the guest chef for the 15th annual Harvest Dinner on Wednesday, October 25, 2017.

LCC culinary arts alumnus, Maximillian Petty, has agreed to be this year's guest chef. Max is a 2011 Lane graduate.

Max worked at King Estate Winery, then in Austin, Texas, where he was honored by Zagat, a restaurant ratings firm, with a 30 under 30 award. He also won an Austin under 40 award for culinary arts from the from Austin Young Women's Alliance/Austin Men's Business League. Max, a Seattle native, returned to his hometown and opened his restaurant, Eden Hill, in the Queen Anne section of Seattle in 2015. The Seattle Times name Eden Hill as one of Seattle's 10 best new restaurants in 2016. Recently Max received a top culinary recognition as a semifinalist for the James Beard Rising Star of the Year. Eden Hill is a small restaurant which features seasonal, avant-garde, New American cuisine.

The Harvest Dinner is the Foundation's annual fundraiser to support students, scholarships, and programs at LCC. The 2016 Harvest Dinner raised over \$400,000 including \$126,000 for additional support of Shining Star Scholarships.

As guest chef, Max will collaborate with Culinary Arts faculty to design the Harvest Dinner menu, then guide Culinary Arts and Hospitality Management faculty and students in the production and service of a multi-course meal for 400 guests in the Center for Meeting and Learning.

Thank you to Chef Chris Crosthwaite and Division Dean Mat Kline for their input and assistance. For more information contact Phillip Hudspeth, Annual Gifts & Corporate Relations Officer, Lane Community College Foundation.

KLCC RECEIVES GIFT FROM LOCAL BREWERS: THE FIRST AND ONLY KLCC 50TH ANNIVERSARY COLLABORATION BREW; BREWFEST IS FEB. 10

In honor of KLCC's Golden (50th) Anniversary, 14 local brewers are collaborating to create nine one-of-a-kind golden brews which will be available for two days only at the 2017 KLCC Brewfest, February 10-11. The golden theme is carried through the golden ingredients used to create these special brews such as Golding hops varieties, golden grains, golden beets, marigolds, and more.

Eugene's first public radio station, KLCC, celebrates its 50th year on the air as of February, 17, 2017. The year of festivities kick off with the 2017 KLCC Brewfest to be held at Lane Events Center on February 10-11. The KLCC 50th Anniversary Collaboration Brews will be featured

along with 200 other beers and ciders from 87 West Coast breweries in what will be the largest KLCC Brewfest in the event's 16-year history.

In 1967 a small group of volunteers from LCC's electronics department had the idea of starting a music station. Inspired by the socio-political unrest of the last 60s, KLCC aimed to heal the world through music.

KLCC first day of broadcasting was February 17, 1967 with 440 watts of power and about 200 Eugene listeners. Today, 50 years later, KLCC's 81,000 watts of power serve over 90,000 weekly listeners throughout western and central Oregon. Ten transmitters provide service west to the Oregon coast, east to Bend, north to Salem, and south to Roseburg, and all the communities in between.

Originally a music-only station, KLCC became a charter member of National Public Radio in 1968 and began adding national and international news to its lineup. Through the years, KLCC evolved to meet the changing needs of its audience by increasing NPR programming, deepening local news coverage, and expanding its geographic reach.

Once available only on FM radio, KLCC can now be streamed online and also heard via the KLCC app. News and information make up the majority of KLCC daytime programming while preserving an eclectic range of music programming in the evenings and on weekends.

ENROLLMENT HUDDLE REVIEW

On most Monday mornings around 8:15 a.m., a group huddles together in the Boardroom with an agenda focused on positively impacting enrollment. We've been meeting for well over a year, including in the summers, using data points to craft strategies to reduce our enrollment decline. Data has come from IRAP, such as weekly year-to-year registrations and registrations by type of student (new, continuing, returning), and from our Student Banner Team, such as a student hold report for the current term. This group has generated some great ideas. Our short-term activities have included:

- * Contacting students with no holds through targeted emails and phone calls.
- * Providing contact lists for departments.
- * Offering small incentive to register.
- * Registration events and branding (tent events, signs, t-shirts, stickers). (see the picture of the Counseling and Advising Department Staff rocking the Register Now t-shirts)

We have also worked to develop longer-term strategies:

- * Repurposing and modifying one of our buses to be a mobile enrollment unit. (Thanks Pat O'Connor for taking the lead on this.)
- * Developing and delivering a "stop-out" survey.

In addition to the Enrollment Huddle, some other work has been underway impacting both new and continuing enrollment:

- * Creating a new credit admissions application (target roll out is late winter/early spring).
- * Creating a strategic plan for utilizing summer term.
- * Establishing a quarterly articulation meeting.

Our thanks to all who have joined us in the work. The Enrollment Huddle group began work on spring term on January 23. Stay tuned for more to come. Submitted by Kerry Levett, Ed. D. Executive Dean Student Affairs.

STUDENT AFFAIRS TRANSFORMATION

The Student Affairs unit is undergoing a transformation after a two-term discussion last year on how we might be organized to facilitate student success. The discussion yielded a new organizational structure with assigned interventions and goals to three new divisions organized around how students progress through Lane.

This year we are working on making our transformation to this new structure and new way of doing business. We have created 10 project teams with specific tasks to break down decisions and elicit ideas to help with this massive transformation. We currently have over 60 people in and beyond Student Affairs engaged in our project teams! We have also created a Guiding Coalition of partners outside of Student Affairs providing feedback, ideas for the Student Affairs managers, and helping us to identify and understand potential unintended consequences for our proposed decisions.

We are celebrating the work of our staff as we are transitioning with the Terrific Titan Award. This is recognition for those who are championing change and providing exemplary service. Our Terrific Titans so far include: Leanne Guthrie (ASA), Gwen Polk (TRiO), Gee Thomas (Counseling and Advising), Marci Parker (Women's Center) and Desiree Woodruff (Financial Aid).

Congratulations and thanks for all the work you do to support student success.

This is a large redesign, and rollout will be phased over the next year. You can expect to see changes in where people work and how we work with you and our students. We are excited to bring change to Lane and look forward to improved student experiences. Submitted by Kerry Levett, Ed.D., Executive Dean, Student Affairs.

CENTER FOR ACCESSIBLE RESOURCES: New resources for accessible technology help!

CAR is excited to announce new weekly drop-in hours and a technology workshop! These are for CAR students who have received accessible technology as an accommodation and need additional assistance learning how to use their equipment, troubleshooting, or who want to know more about their equipment's features. Please help us spread the word about these new resources for students. Additional information is on our website. Submitted by Renee Mackey.

CENTER FOR ACCESSIBLE RESOURCES TIP: What is the official definition of "disability"?

In section 504 of the Rehabilitation Act—the legislation that guarantees specific rights to people with disabilities—there is no list of disabilities. This is how a disability is defined: the individual (1) has a physical or mental impairment that substantially limits one or more major life activities, (2) has a record of such impairment, or (3) is regarded as having such impairment.

The law is written for broad coverage. The Center for Accessible Resources (CAR) and LCC serve a wide range of students with disabilities, including medical and psychological conditions, mobility and neurological impairments, hearing and vision loss, and learning disabilities. What this may mean is that student's disabilities may not be visible or readily apparent. If you have questions about a student receiving accommodations it is important to not question them regarding their diagnosis or disability but to contact us. Please see this handout from the Office of Civil Rights. Submitted by Renee Mackey.

PC MAGAZINE FEATURES ANNE MCGRAIL'S WORK ON DIGITAL HUMANITIES

Dr. Anne McGrail was featured in an article on digital humanities in the Jan. 13 issue of PC Magazine. In an article titled, "Digital Humanities: The Most Exciting Field You've Never Heard Of," contributing editor William Fenton said McGrail spoke directly to the challenges of practicing digital humanities at community colleges. "RICK WILLIAMS, EMERGENCE: AN ARTS JOURNEY" OPENS FEB. 13

The Lane Community College Art Gallery is proud to present, "Emergence: An Arts Journey with Rick Williams." Williams, a native Texan and former arts division dean at Lane, is a local artist whose career as both a photographer and author have earned him national recognition. He is

an active and valued member of the Eugene arts community. He has made many contributions to the arts and arts education over the years, pursuing excellence in both areas.

Artist Statement: My photographic work generally falls into two categories, both embracing paradoxes of everyday life. One body of work reflects spontaneity — images I make with whatever camera I am carrying during my daily life. I always have a camera within reach.

Typically these images are of people I am interacting with or things I just see, as exemplified by about half of the images in this exhibition. I have done this work for fifty years. A consistent theme that emerges is that the images tell the stories of other people and their lives at particular moments, while also reflecting an intuitive, unconscious voice as it guides me to search for expressions of integrative balance among the paradoxes and chaos of daily life.

These images are as much an expression of my inner self as they are of the people and objects I photograph. This balance of grace and power enriches and informs all of my work.

The other photographs in this exhibition are a more intentional ethnographic, documentary body of work. I call it Working Hands because I travel to get to know and photograph workers as they go through their daily routines, including both on the job and during leisure time. For twenty years I photographed in and around the small towns of Texas on ranches and oil rigs and in urban, high-tech clean rooms to observe, get to know, interact with and photograph people of the basic work forces of Texas — cowboys, roughnecks and technology workers. My interest is in how the work both follows and creates the social/economic/cultural scape of Texas as it has changed from primarily agrarian to mechanical to technological. This work tells the stories of people's lives in a direct reportage format. But the images also reveal the ways people interact with facets of grace and power as they struggle to balance the paradoxical realities of ranches, oil rigs and technology clean rooms sharing Texas land, spaces and resources.

These two approaches to photography manifest my way of embracing and integrating the multiplicity of realities inherent in the paradoxes of living.

Though these images are of time and place, the concepts they explore, the truths they suggest and the questions they ask are global and are universally applicable across personal, cultural and geographical boundaries.

The show runs from February 13 to March 9. There will be an artist talk and opening reception on Thursday, February 16 from 4-6:30 p.m.

The galleries are located in building 11 on main campus, 4000 E. 30th Avenue. There is no charge for admission. The Art and Applied Design Department phone number is 541-463-5409. Contact: Jennifer Salzman, ext. 3431, salzmanj@lanecc.edu

AUTHOR SHARON SCHUMAN TO DISCUSS "DIALOGIC FREEDOM" AT LCC, FEB. 21

The Lane Honors Program and its partners will host Sharon Schuman, author of *"Freedom and Dialogue in a Polarized World"* (U. Delaware, 2014), on Tuesday, Feb. 21. A lecture and discussion will be held from 3-4 p.m. followed by an optional half-hour exercise in dialogic freedom, in the Haugland Commons, second floor of the Center Building, main campus.

Students, faculty, staff and the community are invited to attend this free event.

Schuman's interactive presentation introduces key arguments from her book about the power of dialogic freedom. Schuman argues that this concept can help diminish the most polarizing conflicts now shaping our political world.

Schuman has a bachelor of arts from Stanford, a master of arts from San Francisco State, and a doctorate from the University of Chicago. She has taught Shakespeare, Elizabethan poetry and drama, Chaucer, Milton, world literature, and political theory and literature. She has published academic papers on Shakespeare, poetry, writing, and dialogic freedom. She contributes to local and regional newspapers. For more information about Schuman and her book, go online at dialogicfreedom.weebly.com

This event is co-sponsored by the Lane Library; the departments of Communication, English, and Philosophy; and Student Life and Leadership Development. For more information go online at <http://libraryguides.lanecc.edu/freedomdialogue>

INNOVATION OF THE YEAR NOMINATIONS DUE FEB. 24

Each year, Lane holds a competition to identify projects that embody a spirit of innovation envisioned by past president Eldon F. Schafer. The Schafer Innovation Awards will be selected in collaboration with The Innovation of the Year, sponsored by the League for Innovation in the

Community College. Awards are given to an individual or group of individuals who have designed and implemented a significant innovation at Lane. The innovation should not be more than five years old in the institution, and must have been around long enough to have been tested. The selected innovations will be awarded funds to continue implementation of the innovation.

Please submit any significant innovation that you have implemented; the committee would like to recognize the work that you have done to enhance the learning at Lane. The process for application and the selection criteria are available at <https://www.lanecc.edu/league/innovation-year>. The deadline for submission is February 24 at 5:00 p.m. Contact Dawn DeWolf, VP of Academic and Student Affairs. dewolfd@lanecc.edu or (541) 463-5302.

DOWN IN THE MUMPS

You may have heard that there have been multiple outbreaks of mumps in the past couple of years. Mumps is a vaccine preventable disease but many people are not vaccinated against it. While symptoms can be mild, serious complications can include deafness, infertility, inflammation of the brain, or inflammation of the spine. If you have not received two doses of MMR vaccine in your lifetime, now is the time to either start or complete the series to protect yourself from mumps, measles, and rubella! Please don't wait until an outbreak occurs in our area- it is much better to act now. Here is where you can get the vaccine:

- 1) LCC Health Clinic (free if you have Trillium or DMAP or \$80 if you do not)
- 2) A local pharmacy (they can bill your insurance which will likely pay for your MMR)
- 3) Your primary care provider (may be able to bill your insurance)
- 4) Lane County Public Health (free if you have MODA or PacificSource or if you are 18 or younger)

Call the Health Clinic at 541-463-5665 to schedule an appointment for your MMR or if you have any questions. Submitted by Carly Policha.

ONLINE TUTORING AVAILABLE TO CREDIT AND ABSE STUDENTS

Lane has joined the Western eTutoring Consortium (WeTC) and our students have been added to the platform. Because there are 46 other colleges and universities in the western region, content will be available in subjects we have not been able to offer in our drop-in centers, and the hours extend later into the evening and on the weekends. Students can access it at the following link:

https://www.etutoring.org/login.cfm?institutionid=427&returnPage=&institution=LANE_COMMUNITY_COLLEGE. They will log in with L# and temporary password "laneonline", and set up their individual profile with a new passphrase. Among the options of services for students is to join a synchronous chat, post a paper to a writing tutor, post an eQuestion, and more. A video is available on the site that outlines the program. Watch for workshops in the ATC (for both students and staff) to practice navigating the website. This is in addition to our drop-in centers. Thank you for spreading the word to your students and encouraging use of tutors for maximum academic success. Direct questions to Liz Coleman, Tutoring Services Coordinator, at colemanl@lanecc.edu or by phone at ext. 5783.

THANK YOU TO A COUPLE OF STAFF members who donated wood stoves to Community Supported Shelters Safe Spot Camps last year. Not hard to imagine how much they were appreciated this last month. We are now in need of two additional wood stoves for two more camps. Because they are replacing outdoor fire pits they do not need to be DEQ certified.. Very best would be the old style one door Fisher, but will gladly consider anything. Also happy just to

share information about these city approved Safe Spot Camps if you are just curious. John Winquist, retired, johnwinquist@gmail.com, 541-344-1125

AUDITIONS FOR SPA'S PRODUCTION OF "THE ORESTEIA PROJECT," MARCH 7

* 20 roles to be cast for production blending contemporary music, rock 'n' roll and cannibalism
Student Production Association of Lane Community College will hold auditions for its production of "The Oresteia Project" directed by Brian Haimbach in the Ragazzino Performance Hall on Lane's main campus on Tuesday, March 7, from 5-8 p.m.

SPA is looking for actors and singers for an original musical production based on the trilogy of ancient Greek tragedies by Aeschylus. This show will have it all: contemporary music, rock 'n' roll production values, and cannibalism. This show will be a combination rock concert, Broadway musical, and Greek tragedy.

The show is more of a response than an adaptation of the story that depicts Agamemnon's return from the Trojan war and all the vengeance that ensues (as only a Greek tragedy can do revenge). Eventually Athena has to come down from Mount Olympus to settle things by creating jurisprudence. Considering today's political climate, this show is an excellent vehicle to investigate the abuse of power.

Auditions are open to students and community members. Singers are needed, but there are many parts for non-singing actors too. Actors may arrive between 5:00–8:00 p.m., but showing up at 5:00 p.m. is encouraged; no need to sign up for an audition time. To schedule an alternate audition time, contact Brian Haimbach (below). Singers should prepare to sing a few bars from a song a capella; no need to prepare otherwise, actors will read from the script.

Up to 20 roles are available for actors of every age, race, gender, and level of experience.

Rehearsals will begin in late March and performances are April 27 to May 7. Rehearsals will be scheduled based on actor availability.

Please contact Brian Haimbach at haimbachb@lanecc.edu or (541) 463-5648 for more information.

LONG-RANGE FINANCIAL PLAN: PLANNING AND INFORMATION SESSIONS BEGIN FEB. 21

Finance Council is developing a long-range financial plan—and we need your help! We are seeking the very best thinking within our campus community to both identify and address strategic issues and opportunities related to college financial planning and structures over the long haul. Please join us for one of the first series of planning and information sessions:

- Tuesday, February 21, 3-5 p.m., CML 214
- Friday, February 24, 3-5 p.m., CML 214
- Wednesday, March 1, 3-5 p.m., CML 214

Please note that the ending time has been extended from 4:30 to 5:00 p.m. to allow for discussion time.

The final (March 1) session will be live-streamed, and provide access to an online, real-time discussion blog.

Session Agenda:

The focus of these sessions is to seek college-wide feedback around the questions (below), after a brief introduction, framing and orientation to the revenue and expenditure components within any long range plan:

1. Welcome and Introductions
2. Framing: Planning Principles, Planning Process, Planning Framework
3. Revenue and Expense Components (overview of major elements)
4. Discussion Questions:
 - What are we missing in our current modeling and analysis? How can we think differently about this?
 - What would an effective long-range financial plan and planning system do to both: best support your work in your department or division, and support the college's strategic directions? What would it look like if we "hit it out of the park" with our long-range financial plan?
 - How will we measure and assess the effectiveness of our plan?

The Takeaway:

The Planning Subcommittee of the Finance Council will post information from these sessions online and encourage additional feedback and ideas through the conversation website. This information will be analyzed and organized into themes to inform scenario planning, priorities and criteria collegewide.

For additional information about the long-range financial plan, visit:

NEWS AND ANNOUNCEMENTS

IN MEMORY: SHIRL MEADS

It is with sadness that I share the passing of Shirl Meads. Shirl was hired as a non-credit instructor in Training and Development on September 28, 1998. In December of that year, she was hired as the full-time Administrative Coordinator in that department and later reclassified to a Project Coordinator. In August 2006, as a result of budget reductions, Shirl was transferred to the SBDC as a Project Coordinator and worked there until her retirement in December 2012. Shirl was committed to the staff, students and community members that she served over the 14 years she worked at Lane. Shirl brought energy and creativity to her work and, for those of us lucky enough to work with her, she always paved the way for others to be successful. Shirl was happiest when she was with her family and was enjoying the freedom of retirement to spend more time traveling with her husband and enjoying her children and grandchildren. A service will be held at 3 p.m. on Sunday, Feb. 26 at Calvary Open Bible, 1116 Centennial Blvd. in Springfield. In lieu of flowers, donations can be made to Calvary Open Bible Church community food pantry. Submitted by Anna Kate Malliris.

PTA PROGRAM PILOTS FIRST COMPETENCY BASED CERTIFICATION COURSE FOR MANUAL THERAPY FOR LICENSED PTAS IN THE U.S.

Lane's Physical Therapy Assistant program recently hosted a continuing education course for PTAs. Two-thirds of the registrants were employees of Therapeutic Associates Incorporated (TAI), a LOCAL company with a strong reputation and a national presence. Lane has partnered with the North American Institute of Orthopedic Manual Therapy to provide the first competency based certification course for manual therapy for licensed PTAs offered in the U.S. The response NAIOMT received from the pilot with Lane has resulted in offering the curriculum in Washington and Colorado. The decision to partner is based on the needs of employers and the relationship between LCC faculty and NAIOMT faculty and has been in development for at least two years to reach the pilot state. Lane is grateful to TAI for actively supporting PTAs to continue their education through the NAIOMT partnership at Lane. This is an example of "how LCC is responsive to the needs of the workforce and healthcare and is creating innovative competency-based educational continuing education programs that advance skills needed in rehabilitation," says program coordinator, Christina Howard. ART CLASS: PAINTING FROM SKETCHES BY JERRY ROSS. Location: Web Picture Frames, 411 W. 4th behind REI. Dates: Two 3-hour sessions, Saturdays March 11 and March 18. Fee: \$95. Description: Learn to paint directly from your drawings. This class will empathize use of sketches made from nature as the basis for further elaboration into finished paintings, using whatever paint mediums you prefer to use. Your instructor for this class, Jerry Ross, has studied the Italian I Macchiaioli groups' theories on painting. These 19th century painters sought the spontaneity and freshness of the sketch in the finished painting. The sketch made from nature contains coded information in a shorthand form that can be used to ensure that the finished painting retains its vitality. Students will learn how to apply these I Macchiaioli techniques using their own sketches. To register send an email message to pittore44@yahoo.com Submitted by Jerry Ross, CIT.

STUDENT AFFAIRS TRANSFORMATION

We are in the thick of making plans about transforming our work centered on improving student success. We have 11 project teams doing great work. - Space Exploring (Karen Ash – Financial Aid)
- Service Mindset (Desiree Woodruff – Financial Aid)
- OR Promise & First Year Experience (Jill Siegfried – Counseling and Advising)
- Launch Party (Stacie Vazquez – Veterans Services)
- Advising (Mary Parthemer – TRiO/TRiO STEM)
- Counseling (Grant Matthews – ABSE/ALS)
- Student Migrations (Beth Pfeiffer – TRiO and Casey Reid – Writing Center)
- Cross Divisional Relationships (Claudia Ruimallo – Counseling and Advising)
- Technology (Kyle Schmidt – IT)
- New Student Transitioning (Casandra Rhey – Financial Aid)
- Student Affairs Assessment (Kerry Levett – ASA)

Highlights of Project Team discussions include focus on:

- Overcoming work siloes
- How to improve communication (with students and staff)
- Where should we have “touch points” with students
- How technology can improve experience
- What are student learning and experiencing

We also have open meetings one Friday a month, First Fridays. April’s learning topic is on Lane’s equity lens. We also are recognizing great transformative work with the Terrific Titan Award. February’s Terrific Titan was Jill Siegfried (Counseling and Advising) for her great work and team leadership with OR Promise and developing a sustainable First Year Experience model. Our March Terrific Titan is Renee Mackey (Center for Accessible Resources). Renee always goes above and beyond for students, staff and the college community. As a result of number of Renee’s initiatives and dedication CAR saw an 18% increase in the number of

students we served in fall 2016, as well as an increase in graduation and transfer rates of CAR students in spring 2016. These change agents are an integral part of student affairs team and students' success at Lane. Thank you both for your good work.

YOU'RE INVITED: FRONT-LINE CUSTOMER SERVICE- HOW TO HANDLE ESCALATED COMPLAINTS AND DISRUPTIVE BEHAVIORS (WEBINAR)– MARCH 14, 10AM-11AM, BOARDROOM

Disruptive or escalated behavior is, unfortunately, not that uncommon on our campuses; often students, parents, faculty, or community members become unhappy about something and then don't cope well with their frustration. In most instances, main line staff can handle these frustrations and get the customer back on track. But sometimes, the situation can't be resolved or is too difficult for a front desk person to handle, and that person "bumps it up" to you. So, you are asked to handle the more difficult situations with an assumption that you are more skilled at this kind of interaction than others. But are you? This training will specifically look at how supervisors and more experienced staff can work through these "next level" escalations and get the customer back to the work of finding a solution to the problem. This webinar will explore tools for de-escalation, coping with broadsides and meltdowns, creating a process to evaluate when a situation is solvable and deciding when you need to call in your own support.

Objectives:

- Learn methods to identify the core conflict
- Explore how to address the core conflict to effectively de-escalate the situation
- Utilize go-to actions in times of stress or conflict
- Understand how to create a plan and policies that support your efforts
- Examine working within a holistic model of customer support that helps to prevent and lessen the impact of these situations

ART CLASS: PAINTING FROM SKETCHES BY JERRY ROSS. Location: Web Picture Frames, 411 W. 4th behind REI. Dates: Two 3-hour sessions, Saturdays March 11 and March 18. Fee: \$95. Description: Learn to paint directly from your drawings. This class will empathize use of sketches made from nature as the basis for further elaboration into finished paintings, using whatever paint mediums you prefer to use. Your instructor for this class, Jerry Ross, has studied the Italian I Macchiaioli groups' theories on painting. These 19th century painters sought the spontaneity and freshness of the sketch in the finished painting. The sketch made from nature contains coded information in a shorthand form that can be used to ensure that the finished painting retains its vitality. Students will learn how to apply these I Macchiaioli techniques using their own sketches. To register send an email message to pittore44@yahoo.com Submitted by Jerry Ross, CIT. ``

WHO WON? LANE'S LIVING GREEN FUND ANNOUNCES FIRST PROJECT AWARD

Our Winter Term 17 Living Green Fund project review team proudly announces that the first project award for \$700 goes to a student submission called "Tunnel LED upgrade project." Using the college facilities as a learning lab, students identified this energy efficient project to replace all incandescent and compact fluorescent lamps in the maintenance tunnels at the 30th with light emitting diodes (LED) lamps. The money saved from implementing this lighting retro-fit will be used to pay for the project's costs in around three years. During the rest of the life of the project the energy savings will be used to help the college fund other resource wise projects. Students from different term classes will be involved in measuring and verifying this project's savings. Submitted By: Anna E Scott, Institute for Sustainable Practices, x5805.

CENTER FOR ACCESSIBLE RESOURCES TIP: Grading considerations

At the end of the term, faculty often wonder how to grade students who have a disability. Students with disabilities should be held to the same evaluation and grading standards as those for all other students. Therefore, you should grade the work of a student who has a disability as you would grade the work of any other student. These guidelines apply whether or not a student utilizes CAR resources. Contact: Keelie Daquilanto.

CENTER FOR ACCESSIBLE RESOURCES TIP: Technology Workshops

WELCOME TO GIGABIT CITY

Welcome to Gigabit City, home of the Eugene CoderDojo co-founded by Lane Community College and one of the many reason the Mozilla Foundation is offering \$150,000 for local education and workforce initiatives that increase participation in gigabit technologies. Other Gigabit Cities named by Mozilla include Lafayette, LA, Austin, TX, Chattanooga, TN, and Kansas City, MO.

“This is exciting news with regard to innovative technology in the Eugene region,” says Deron Fort of High School Connections. “Lane Community College and the High School Connections Office have been involved in this project through development of the Eugene CoderDojo, which currently operates out of Lane’s Downtown Campus, as well as our ongoing collaborative efforts to grow computer science education in the region.”

Grant awards of \$5,000 to \$30,000 are expected to fund a variety of local projects aimed at increasing participation in technology innovation.

Eugene CoderDojo is housed at Lane’s Downtown Campus and offers hands-on opportunities for local youth to learn coding and other technologies. It is volunteer run, open sourced, locally developed and nationally recognized.

JENNIFER FALZERANO QUOTED IN INTERNATIONAL PROGRAMS NEWSLETTER

Jennifer Falzerano, director of International Programs at Lane, was quoted in The PIE News, a newsletter for professionals in international education, in an article titled, “Easing Access to the US: community colleges go global.” Falzerano says Lane’s 400 international students are attracted by “many of the same reasons domestic students are: smaller class sizes, being taught by a professor rather than a graduate assistant, and lower tuition costs.” Read the whole story online at <https://thepienews.com/analysis/easing-access-us-community-colleges-go-global>

CIVIC DISCUSSIONS ROUNDTABLE, APRIL 13

You are invited to a Roundtable on Civic Discussions on Thursday, April 13 from 12-1:30 p.m. in Building 3, Room 114. Civility in our country's political discourse has clearly declined, and the political climate has become increasingly bitter. As academics, we want to explore the issues of the day with our students and each other, but worry about how to keep those discussions from turning into shouting matches or worse. But what can be done? Is there a way to elevate the tone of dialogue in our lives? Can we bring back civility?

The deliberative dialogue process is one way to explore the differing viewpoints surrounding an issue. This process tends to get us closer to the reality of how people struggle with issues.

You will hear an overview about LCC's collaboration with the Kettering Foundation and The Democracy Commitment, how we can use deliberative dialogue in the classroom as well as the

community, plus learn about the upcoming training program at the May "Speak Out" Event on Saturday, May 13.

Sponsored by Faculty Connections. Snacks will be provided, and feel free to bring your lunch.

Please reserve a spot at the following link, so we can provide enough food and tea.

PARTNERSHIP LEADS TO NEW CERTIFICATION FOR MANUAL THERAPY FOR PTAs

Until recently, physical therapist assistants (PTAs) haven't had the same opportunities as physical therapists to advance their skills, says Christina Howard, coordinator for the Lane Community College Physical Therapist Assistant Program.

But that's all changing, she says, now that Lane has partnered with the North American Institute of Orthopaedic Manual Therapy (NAIOMT) to provide the first U.S. competency-based program in manual therapy for PTAs.

Howard volunteered to pilot the curriculum, which is designed to comply with Oregon Administrative Rules governing the practices of physical therapy.

FINANCE COUNCIL PLANNING FORUM, APRIL 18

The Finance Council Planning Subcommittee is seeking broad participation in our next planning forum, where we will be looking at our current budget development principles, criteria and data elements and asking the following questions:

- 2) How can budget development principles and criteria be stated, organized and applied to support clear, transparent, consistent budgetary decisions?
- 3) How can we develop meaningful systems and tools for strategically addressing basic budget scenarios (e.g. investments, reductions) at Lane?

Now is the time for you to help us improve our decade-old structure.

Tuesday, April 18, 3-5 p.m., CML 214

MARA FIELDS' "THE WEAVER'S LIGHT" IS RELEASED: Former Lane employee Mara Fields has released "The Weaver's Light," a speculative fiction novel available April 18 at all online bookstores, in softcover and electronic form. A Master Weaver with Nothing Left to Lose. An Orphan with No One to Care for Her. An Enemy So Powerful Its Victims Deny Its Existence. With the loss of his wife and son, master weaver Callan Vellus has fallen into an emotional darkness from which he might never escape, until a bizarre vision of violence and fire shakes him from his stupor. Pashi, an orphan with strange abilities, witnesses the burning of her city by invaders no one else seems to remember. Callan and Pashi start their improbable friendship in this city when they realize they are the only people who know the truth behind the terrible destruction. They scramble to uncover clues before it is too late, and in the process, discover more than they'd bargained for. A compelling story of courage borne of adversity, The Weaver's Light reminds us that defining and accepting love, loyalty, and family are often ultimately the choices that save us. 25LIVE TIPS & TRICKS

Do you book spaces in 25Live? Here's some tips to remember:

1. Try not to use acronyms in your event Title, not everyone checking the calendar knows what they mean.
2. Booking through Events scheduling is FREE, so even if you use your own calendar, booking in 25live ensures your room won't be double booked.
3. Need parking for outside guests? Parking lots can also be reserved in 25Live – ask me how!
4. Cars can be reserved by entering VEH in the “search by location name” box – all vehicles will come up in the preview box below.

These few things will make it easier for your participants to find their events, and will allow staff to help those lost wandering souls to find their event location.

If you would like one-one training, or a refresher, or just info on doing a particular type of request, I am available to come to your office to help with your specific needs. Contact Barbara Bailey at ext. 5576 or baileyb@lanecc.edu

FLOURESCENT LAMP RECYCLING

PLEASE DON'T REMOVE CONSTRUCTION AND MAINTENANCE BARRIERS

Please help Facilities Management and Planning be as efficient as possible by not removing barriers that isolate construction and maintenance areas. Occasionally, Facilities needs to place barriers to eliminate use of restrooms or other areas. If barriers are up, please do not remove them and use the area. Using the area often results in facilities staff having to redo repair and maintenance work. Submitted by Jennifer Hayward.

CENTER FOR ACCESSIBLE RESOURCES TIP: Submitting Materials to Alternate Format

There are many different ways instructors can submit items to Alternate Format for conversion for students. The easiest way is to email the materials to AlternateFormat@lanecc.edu. If you submit materials on a CD or flash drive, please provide them in Microsoft Word with the material saved in Rich Text Format or Plain Text if possible. We prefer materials to be submitted digitally for ease of access, however if you only have them in hard copy we can accept that as well. For more information about how to submit hard copy items visit our website at <https://www.lanecc.edu/disability/information-faculty-student-accommodations#alternate>. If you have any other questions regarding submitting materials to alternate format you can email us at AlternateFormat@lanecc.edu or call us at (541) 463-5150. Submitted by Keelie Daquilanto.

CENTER FOR ACCESSIBLE RESOURCES TIP: CAR Emails

Do you use a personal email address rather than your LCC email address? If so, you may not be receiving CAR emails. Due to FERPA, CAR is only able to send information pertaining to LCC students to @lanecc.edu email accounts. This includes the Letter of Accommodations. Be sure to keep checking your LCC email for communication from CAR. If you are concerned that you may not be receiving CAR emails to your LCC email address you can refer to our website for information about troubleshooting email communications:

MARA FIELDS' "THE WEAVER'S LIGHT" IS RELEASED: Former Lane employee Mara Fields has released "The Weaver's Light," a speculative fiction novel available April 18 at all online bookstores, in softcover and electronic form. A Master Weaver with Nothing Left to Lose. An Orphan with No One to Care for Her. An Enemy So Powerful Its Victims Deny Its Existence. With the loss of his wife and son, master weaver Callan Vellus has fallen into an emotional darkness from which he might never escape, until a bizarre vision of violence and fire shakes him from his stupor. Pashi, an orphan with strange abilities, witnesses the burning of her city by invaders no one else seems to remember. Callan and Pashi start their improbable friendship in this city when they realize they are the only people who know the truth behind the terrible destruction. They scramble to uncover clues before it is too late, and in the process, discover more than they'd bargained for. A compelling story of courage borne of adversity, The Weaver's Light reminds us that defining and accepting love, loyalty, and family are often ultimately the choices that save us. GRADY O'CONNOR, CROSS COUNTRY/TRACK AND FIELD COACH, STEPS DOWN

After 20 years of coaching at Lane, Grady O'Connor will step down from his role as head coach after the end of this season, and move to full-time instructor.

"It is with a heavy heart that I step away, but it is time to hand over the reins to my successor," O'Connor said. "Over the past 20 years, I have met some of the most amazing young athletes and it has been my privilege to help nurture and develop them."

O'Connor has been a part of eight NWAC Cross Country and Track and Field Championships over his Lane coaching tenure. His programs are viewed as the most formidable in the state and beyond, winning 37 regional titles, including 13 straight for the Titan men. He has produced over 400 Junior College All-Americans, set 24 event school records and earned 10 NWAC Coach of the Year awards.

O'Connor's impact runs deep in the sport. He has helped hundreds of student athletes transfer to four-year schools, including the University of Oregon, Oregon State University, University of Alabama, Michigan State University, among others. Some of the more notable Titans under O'Connor's tenure have included Jordan McNamara, Cyrus Hostetler and Dakarai Hightower. McNamara ran a school record 3 minutes, 41 seconds and qualified for USA Nationals as a Lane freshman and is now a highly successful professional runner. Hostetler is a two-time Olympian who qualified for the 2008 USA Olympic Trials as a Lane athlete, throwing 241 feet. More recently, as a sophomore at Lane, Dakarai Hightower placed sixth in the 2016 USA Olympic Trials, qualifying with a school record jump of 7 feet, 5 inches.

Beyond the athletic accolades, O'Connor has been instrumental in securing and transforming Lane's track into an Olympic-caliber facility thanks to voter support of Lane's 2008 bond measure. O'Connor and staff hosted and directed many special community events at this updated facility. Most notably, the OSAA State Cross Country Championships, along with All-Comers meets and NCAA and USA championship practice events.

Before O'Connor officially ends his head coaching duties, he will be working for Lane's fifth NWAC title in a row next month, May 22-23 at Mt. Hood Community College.

FOUNDATION HONORS AN INDIVIDUAL, A BUSINESS, AND A FOUNDATION FOR SUPPORT OF STUDENT SUCCESS

The Lane Community College Foundation will award the President's Circle Award for Philanthropy to an individual, a corporation, and a foundation at the President's Circle reception on May 4.

The President's Circle Award for Philanthropy recognizes donors for their ongoing financial support, their advocacy for Lane's mission through their leadership and/or volunteer service, and their support of philanthropy in the community.

- President's Circle Award for Philanthropy—Individual will be awarded to Julie Aspinwall-Lamberts and James Ellison. Both Julie and Jim worked at LCC for more than 20 years. Julie is one of the founders of Womenspace, and established an endowed scholarship at Lane in support of survivors of domestic violence. She says, "If I can give a sliver of hope for one person, it will be worth it. Education may be the only opportunity they have to change things around." Jim passed away in November 2016 from causes related to Alzheimer's Disease, but his legacy at LCC lives on through the James Ellison Endowed Diversity Scholarship.
- President's Circle Award for Philanthropy—Corporation will be awarded to PeaceHealth Oregon Region. For the past 15 years PeaceHealth has generously provided faculty support for Lane's Nursing Program. PeaceHealth has made significant donations of medical equipment to

train students, and were major donors to the construction of the Health & Wellness Building. They also offer clinical placements for students in Lane's Nursing program.

- President's Circle Award for Philanthropy—Foundation will be awarded to The Tykeson Family Charitable Trust. The Tykeson Family Charitable Trust has a long history of supporting Lane Community College. They were significant supporters in the transformation of the college's Center Building into a 21st century learning commons at the heart of Lane's main campus as well as lead donors towards the creation of the Health and Wellness Building. The Trust has also supported scholarships, the Harvest Dinner and the Art Gallery at LCC.

"We are thrilled to be able to honor these generous donors whose history of support has had a tremendous impact on the lives of students and Lane County residents," said Wendy Jett, Director of Lane Community College Foundation.

FIRST ANNUAL LCC SPEAK-OUT, MAY 13

Join us for a delightful day of exploring communication strategies to affirm democratic principles in a polarized society, Saturday, May 13, Fourth Floor Center Building.

* 9:00-12:00 Deliberative Dialogue Training, Featuring Kara Dillard, PhD, University of Washington

* 12:00 Lunch provided for participants

* 12:30-4:00 Three Rounds of Flash Debate

* 4:00 Deliberative Dialogue Showcase

* 5:00-6:00 Debate Final Round and Awards

What is Deliberative Dialogue?

The Deliberative Dialogue process is a way to explore the differing viewpoints surrounding an issue. The process tends to get us closer to the reality of how people struggle with issues by discovering a flow of meaning that, like music, reflects a synergy of perspectives that includes but also transcends the contribution of each participant.

What is Flash Debate?

Participants draw their partners in the morning, then draw topics and sides ½ hour before each debate. Topics are Trump quotes.

This event is open to LCC students and the community. For free registration and further information, email Daniel Henry at henryd@lanecc.edu

KLCC AND THE PRESIDENTIAL LECTURE SERIES PRESENT: AN EVENING WITH JOHN HOCKENBERRY, MAY 23

John Hockenberry, award-winning host of public radio's The Takeaway, will speak at the Ragozzino Performance Hall on Tuesday, May 23 from 7-9 p.m.

Hockenberry has been invited in celebration of KLCC's 50th Anniversary, as the inaugural speaker of the Lane Community College Presidential Lecture Series.

His talk will be immediately followed by a reception celebrating KLCC's 50th Anniversary. Program Director Don Hein and News Director Tripp Sommer will be honored, as both are retiring after long notable careers at KLCC.

Hockenberry got his start in journalism as a news volunteer at KLCC in 1979. A UO student at the time, he called KLCC to complain about a news story, and Don Hein encouraged him to "come to the station and see if you can do better." He did.

Hockenberry has over three decades of broad experience as a journalist and commentator. He is the anchor of the public radio morning show The Takeaway which airs on KLCC every week day. He has reported from all over the world, in virtually every medium, having anchored programs for network, cable and radio. The Takeaway was John's return to his roots in public radio, where he was one of the medium's original innovators after 15 years in network and cable television. His reporting at Dateline NBC and ABC News earned him four Emmy Awards, three Peabody Awards, an Edward R. Murrow Award, and a Casey Medal. Hockenberry has also been recognized for his pioneering online content, hosts the award-winning public radio series The DNA Files, and currently sits as a Distinguished Fellow at the prestigious MIT Media Lab. Hockenberry was one of the first Western broadcast journalists to report from Kurdish refugee camps in Northern Iraq and Southern Turkey. During the first Gulf War, he reported from Israel,

Tunisia, Morocco, Jordan, Turkey, Iraq and Iran. Hockenberry also spent two years as a correspondent based in Jerusalem during the most intensive conflict of the Palestinian uprising. In an email correspondence to KLCC about his upcoming visit, Hockenberry expressed his excitement with, "You-Gene here I come!" KLCC is pleased to welcome John back to his journalistic roots.

This event is free to the public, but all attendees must have a ticket. Free tickets are available at klcc.org

The Presidential Lecture Series brings scholars and speakers to Lane Community College to enrich the educational experience of our students and our Oregon community. Funding is provided by the Roberta Konnie Fund of the Lane Community College Foundation.

For more information call KLCC at 541-463-6000. Submitted by Gayle Chisholm.

LANE'S INDIGENOUS LANGUAGE PROGRAM

munk-skukum mayka iłwəl uk-san—"strengthen your body today" is the English translation of this week's chinuk wawa phrase of the week. FLOURESCENT LAMP RECYCLING

Lane does not accept waste fluorescent lamps from employees, students or community member homes. Small quantities of fluorescent lamps can be taken to any local hardware store for recycling. It is a free and convenient service offered in our community. Contact: Jennifer Hayward.

PLEASE DON'T REMOVE CONSTRUCTION AND MAINTENANCE BARRIERS

Please help Facilities Management and Planning be as efficient as possible by not removing barriers that isolate construction and maintenance areas. Occasionally, Facilities needs to place barriers to temporarily eliminate use of restrooms or other areas. If barriers are up, please do not remove them and use the area. Using the area often results in facilities staff having to redo repair and maintenance work. Contact: Jennifer Hayward.

CAREER AND TECHNICAL EDUCATION FACULTY INTERNSHIP OPPORTUNITIES AVAILABLE

Limited Perkins grant funds are available for paid faculty internships beginning summer term 2017 for CTE faculty to work with local businesses/agencies related to their teaching discipline. The purpose of these internships is for instructors to work with local employers to stay current with industry standards and emerging technology to strengthen the skills of CTE students. Internships are paid at the curriculum development rate and must be approved by division deans. Applicants are responsible for making internship arrangements. For Perkins Internship Guidelines and application, contact Carol Woodman at woodmanc@lanecc.edu or 463-5509.

CENTER FOR ACCESSIBLE RESOURCES TIP: Students Do Not Have to Disclose a Disability

As per the Americans with Disabilities Act (ADA), a student is not required to disclose if they have a disability. However, if the student wishes to utilize academic accommodations in classes, they must follow college procedures by completing the CAR application, intake, and submission

of medical documentation for review and accommodation assessment. If the student wants to discuss their accommodations, it is important for faculty to do this in a private meeting for confidentiality purposes. Faculty are not permitted to ask a student if they have a disability. If you have additional questions regarding this, you can contact us at 5150.

CENTER FOR ACCESSIBLE RESOURCES TIP: Note Takers

CAR has replaced the accommodation of note takers with allowing qualifying students to audio record lectures. Over time we have found that an audio recording tends to be more accurate, eliminates the need for another student to be responsible for taking notes, and allows for the student to have access to the notes right away. If a student has questions about this, please direct them to CAR. If you have any additional questions regarding this, you can contact us at x5150.

"THE ORESTEIA PROJECT" EARNS RECOGNITION FROM KENNEDY CENTER ORGANIZATION

"The Oresteia Project," recently presented by the Student Production Association, earned high praise from the Kennedy Center American College Theatre Festival. The KCACTF organization supports theatre in colleges and universities across the country through professional responses to productions and conferences. The Theatre program at LCC enters productions at the associate level each year, which makes the cast and

crew eligible for professional feedback, Irene Ryan acting competition nominees and design recognition.

"The Oresteia Project" earned certificates of merit for the following students: Gordon McFarland and Emily Bolivar for lighting design; Isabella Lattion for stage management, Justin Dennis for sound technology. Dr. Brian Haimbach, director, and Cullen Vance, composer were also recognized with certificates of merit. Certificates of merit are awarded at the discretion of the professional respondent and are awarded selectively. Two student actors, Taelor Warner and Alexandra Tigie were nominated to compete at the national Irene Ryan acting competition. The two actors will select other LCC students to serve as their scene partners for the competition next February. All the nominees and awardees are invited to attend the KCACTF regional conference and present their work.

"The Oresteia Project" ran from April 27-May 7 in the Ragozzino Performance Hall on main campus. Director and Lead Theatre Faculty Brian Haimbach said, "working on the show was a privilege. Attendance was much higher than normal and the collaboration between community professionals and students was very rewarding and extremely educational for the students." Plans are in the works to take the show to theatre festivals on the west coast and have the material published.

UPCOMING EVENTS AND DEADLINES

VETERANS SERVICES TO SCREEN "PROJECT 22" FILM ABOUT VETERAN SUICIDE, MAY 23
Lane Community College Veteran Services will host a screening of the documentary "Project 22: A Message of Hope" about suicide among veterans, on Tuesday, May 23 at 10 a.m., in the Center for Meeting and Learning, Building 19, Room 226, main campus. The screening will be followed by a panel discussion including student veterans and community partners. The event is free and everyone's welcome.

The documentary was produced by two veterans who went on a road trip across the United States to raise awareness that 22 veterans commit suicide every day, says Stacey Vasquez, Veterans Administration Certifying Official for Lane. Vasquez wants to help educate students who will be working with veterans throughout their career.

Lane has about 375 student veterans registered for VA benefits.

According to the most recent "VA Suicide Prevention Program Report" from July 2016, and Veteran Suicide Statistics from 2001-2014, an average of 22 veterans die from suicide each day. Vasquez says it is important to note that 6 of the 22 were users of VA services, and the statistic does not include service members denied VA benefits, those who refused VA healthcare due to the lack of care, or those who were never in the VA system because they had private insurance or were eligible to continue other insurance. "The actual rate is much higher. The new statistic released by the VA Report of July 2016 shows that approximately 32 to 35 veterans a day die by suicide."

NEWS AND ANNOUNCEMENTS

IN MEMORY: DALE PARNELL

From President Mary Spilde to all employees on Monday, May 22:

“Good Morning Colleagues,

“It is with deep sadness that I share the passing of Lane's first president, Dr. Dale Parnell. Dale's long and storied career had a huge impact on education in Oregon and community colleges nationally. He served as State Superintendent of Public Instruction, Community College Commissioner, Professor at Oregon State University in addition to president at Lane. I first met Dale in 1983 when he served as President and CEO of the American Association of Community Colleges in Washington DC. On his return to OSU he served on my doctoral committee and was a great friend and mentor.

“Perhaps Dale's greatest contribution was his commitment to Career and Technical Education and connections between community colleges and local high schools. His book ‘The Neglected Majority’ focused on providing opportunity to high school students who were not on a baccalaureate track. One of the themes he talked about when he was campaigning for the start of Lane was his ‘within reach’ philosophy. He wanted our college to be within reach geographically, financially, psychologically and academically.

“You can read more here www.ccdaily.com/2017/05/passing-community-college-visionary or at www.lanecc.edu/archives/dale-parnell-oral-history

“Dale was a visionary and through his work left an amazing legacy to community colleges. His legacy lives on at Lane in countless ways. He will be missed.”

CENTER FOR ACCESSIBLE RESOURCES TIP: Who do I talk to if a student asks for accommodations that were not in their Letter of Accommodation (LOA)?

Adjustments in academic accommodations are common, as the effects of disabilities may ebb and flow, and because the disabilities themselves, or classes and learning environments change. Instruct the student to contact their CAR primary accommodation specialist to discuss any changes they may need to their LOA.

Contact: Keelie Daquilanto.

If you need to make changes to your testing agreement or you need help filling it out, call CAR at x5150. If you are concerned you are not getting CAR emails, please visit our website:

BRIAN SCHAUDT NAMED INTERIM TRACK AND FIELD COACH

Lane Community College Athletics has appointed Brian Schaudt to a one-year, interim position as track and field coach.

"We are very excited to have Brian accept this position," said Athletic Director Greg Sheley. "We have confidence he will keep our track and field programs very competitive and at the top of the NWAC."

Schaudt has been heavily involved in collegiate track and field in Eugene since his graduation as a student athlete from the University of Oregon in 2012. Since then he has spent time assisting UO head coach Robert Johnson and associate head coach Curtis Taylor as a volunteer in the sprints, jumps and hurdles for three seasons, as well as the head track and cross country coach at New Hope Christian College, and most recently the assistant cross country and track/head strength and conditioning coach at Lane. While at the UO from 2013-15, he was a part of seven men's and women's indoor and outdoor national championships, working with athletes such as English Gardner, Jenna Prandini, Jasmine Todd, Phyllis Francis and more recently Raevyn Rodgers, Marcus Chambers and Ariana Washington, while being guided by Johnson and Taylor. At New Hope, Schaudt progressed the New Hope Deacons to their first national championship in 2016 (javelin), first All-American in 2015 (javelin) and first national championship scorer in 2014 (steeple chase).

This year in his current position at LCC under head coach Grady O'Connor, who returns to teaching at the end of this season, Schaudt assisted the men's cross country team in winning the Northwest Athletic Conference title for the first time in 31 years, the men's track team in winning their fifth consecutive NWAC title, and has coached the school record holder in the triple jump.

SELECTION OF FACULTY AUTHORED TEXTS PROCEDURE

The procedure for the Selection of Faculty Authored Texts was adopted in April 2017. Please review the procedure at <https://www.lanecc.edu/cops/documents/selection-faculty-authored-texts>. The purpose of the procedure is to protect faculty from violating the Oregon government ethics laws and a conflict of interest under circumstances in which a faculty-written text or other instructional resources ("texts") is assigned to students and the sale of the text or resources results in a financial benefit to the faculty author. It is important that the institution have procedures to protect faculty members from this conflict of interest as public employees, and to support a process for faculty developed materials. SPA PRESENTS NEW PLAY "NEIKEANS" JUNE 10 AND 11

The Student Production Association of Lane Community College is proud to present a brand new show, "Neikeans," from June 10 through June 11, on Saturday at 7:30 p.m. and Sunday at 2:00 p.m., in the Blue Door Theatre in building 6.

This brand new one-act show is written by Cairo Smith, a second-year student at Lane. "I'm elated to have the chance to write and direct at this level, with such talented co-creators," said Cairo. The show is performed and produced completely by students with mentorship from Theater Director Brian Haimbach.

Cairo says, "The trust and freedom of the department has given us a chance to make something incredibly honest, bold, and authentic. A lot of the millennial stereotypes are inconsistent, or contradictory. I think, in many ways, we're an enigma, and finding the truth within each one of those incompatible archetypes was my main goal in writing "Neikeans." The nekeia were the Greek goddesses of argument. They were fated to chase each other in circles eternally, with the effect of moving very quickly while failing to get anywhere."

Tickets are \$5.00 suggested donation. Anyone is welcome to attend for free – nobody will be turned away. All students and Lane employees always get in for free. Tickets may be purchased at www.lanecc.edu/tickets or by calling (541) 463-5648. Contact: Brian Haimbach, Theater Director, (541) 463-5648, haimbachb@lanecc.edu

HELP FOR AN ASYLUM SEEKER: I am trying to help a individual seeking asylum in the US find a 1 bedroom apartment or studio in Eugene. Or possibly a room in a house with a family or couple. Ideally, something in West Eugene (close to Churchill High School) or South Eugene (close 30th and Hilyard) for transportation to and from work and LCC. Assistance for housing from a local church is available and the budget is no more that \$600/month. Some barriers to renting are showing more than 6 months employment and having an income of 2-3x rent. Looking for a landlord who would be sympathetic to helping an immigrant get established in Eugene. If you can help provide or locate housing for this individual, or if you'd like more information, please contact me at indirabakshi2@gmail.com

EXPECT ROLLING SLOWDOWNS ON I-5 THIS WEEK

Travelers should expect rolling slowdowns on Interstate 5 approaching the I-5/OR 569 Randy Papé Beltline intersection (milepost 195) for the placement of bridge girders the next two nights.

* Between 10 p.m., Tuesday, June 6 and 4 a.m., Wednesday, June 7: Southbound I-5 will have rolling slowdowns between the I-5 Coburg southbound onramp at milepost 199 to the construction site at milepost 195. Traffic delays may be up to 20 minutes.

* Between 10 p.m., Wednesday, June 7 and 4 a.m., Thursday, June 8: Northbound I-5 will have rolling slowdowns between the OR 126 exit at milepost 194 and the construction site at milepost 195. Traffic on the OR 126 northbound onramp will be held by flaggers as needed. Traffic delays may be up to 20 minutes.

In a rolling slowdown, traffic is slowed by pilot vehicles to allow a gap in traffic flow. The bridge girders can then be safely moved into place by crane, one at a time, without fully closing the roadway. Submitted by the editor from an ODOT news release.

KLCC'S BRIAN BULL TO RECEIVE PRNDI/NEFE AWARD

KLCC's Brian Bull will receive this year's PRNDI/NEFE Excellence in Consumer Financial Reporting Award. Bull's story, "Robust Eugene-Springfield Housing Market Subject To Potential Downturns," showcased a couple moving from the rural east coast to Oregon and the tough financial decisions they faced while trying to buy a home in a more expensive housing market.

This year marks the third year that Public Radio News Directors Inc. (PRNDI) has partnered with the National Endowment for Financial Education (NEFE) to highlight consumer financial journalism produced in public media.

"Brian Bull and KLCC offer in-depth storytelling on how one family carefully considered their budget when buying a home in a competitive marketplace. Our hope in presenting this award with PRNDI is to recognize reporting that effectively chronicles the real-life financial challenges that people from all walks of life face," said Paul Golden of NEFE.

"KLCC's winning entry is another prime example of how to successfully report on this important topic."

Bull will attend the 2017 PRNDI conference in Miami in June. He will receive his award at PRNDI's annual banquet on June 24. Submitted by Gayle Chisholm.

RESULTS FOR APRIL'S GREEN TEAM ENERGY SAVINGS CHALLENGE & DESSERT CONTEST

The results are in! Efforts targeting lighting and equipment plug loads with a 'Turn It Off' attitude brought Marcia Koenig, Career Pathways Advisor in Building 11 a \$20 gift card to Sweet Life for turning off plug load equipment left on when not needed. Marcia used a plug load meter plug strip to see how much energy she used in her office during a typical week in April. Then she got busy turning off those 'Plug loads' (appliances like computer monitors, lights, printers, speakers, cup warmers, etc.) to find out if she could make a difference in her energy bottom line for the rest of the month. And she did!

Thank you to everyone who took April's Energy Savings Challenge.

Let's help the college say goodbye to leave it on habits and join Marcia and others like her as they continue to chase their energy savings baseline by taking small steps at work to save energy and make a big difference.

Take action! Are your plug loads partying all night long? Turn off lights, computers, monitors, printers, and other plug loads when not in use. Submitted by Anna E Scott, 5805.

CENTER FOR ACCESSIBLE RESOURCES TIP: Accommodations for Students for Graduation
If students or their guests let you know that they need accommodations for graduation please instruct them to contact the Center for Accessible Resources at least one week in advance at (541) 463-5150 or by email at AccessibleResources@lanecc.edu Contact: Keelie Daquilanto.

CENTER FOR ACCESSIBLE RESOURCES TIP: Online Courses

When planning courses for the next term, there may be some confusion when knowing who is responsible for making certain parts of online courses accessible. To understand what role you can play in making sure your course is accessible to all students, refer to this handout: www.lanecc.edu/sites/default/files/disability/lcc508-responsibilites.pdf Contact: Keelie Daquilanto.

CENTER FOR ACCESSIBLE RESOURCES TIP: Grading Considerations

At the end of the term, faculty often wonder how to grade students who have a disability. Students with disabilities should be held to the same evaluation and grading standards as those for all other students. Therefore, you should grade the work of a student who has a disability as you would grade the work of any other student. These guidelines apply whether or not a student utilizes CAR resources. Contact: Keelie Daquilanto.

UPCOMING EVENTS AND DEADLINES

SPA PRESENTS NEW PLAY "NEIKEANS" JUNE 10 AND 11

The Student Production Association of Lane Community College is proud to present a brand new show, "Neikeans," from June 10 through June 11, on Saturday at 7:30 p.m. and Sunday at 2:00 p.m., in the Blue Door Theatre in building 6.

This brand new one-act show is written by Cairo Smith, a second-year student at Lane. "I'm elated to have the chance to write and direct at this level, with such talented co-creators," said Cairo. The show is performed and produced completely by students with mentorship from Theater Director Brian Haimbach.

Cairo says, "The trust and freedom of the department has given us a chance to make something incredibly honest, bold, and authentic. A lot of the millennial stereotypes are inconsistent, or contradictory. I think, in many ways, we're an enigma, and finding the truth within each one of those incompatible archetypes was my main goal in writing "Neikeans." The nekeia were the Greek goddesses of argument. They were fated to chase each other in circles eternally, with the effect of moving very quickly while failing to get anywhere."

Tickets are \$5.00 suggested donation. Anyone is welcome to attend for free – nobody will be turned away. All students and Lane employees always get in for free. Tickets may be purchased at www.lanecc.edu/tickets or by calling (541) 463-5648. Contact: Brian Haimbach, Theater Director, (541) 463-5648, haimbachb@lanecc.edu

Training for the participants will be Wednesday and Thursday, July 12 and 13, in Building 12. On Thursday, July 13, Building 12 will be closed to campus members for scenario training. Two drill scenarios will follow on Friday, July 14, in the Center Building. The Center Building will be closed for this drill. All events will occur between 8 a.m. and 5 p.m. The purpose of the drill is to increase first responder expertise and experience for Public Safety and partner agencies. Thirty individuals from the FBI, LCC Public Safety, LCC C-CERT (Campus-Community Emergency Response Team), Lane County Sheriff's Office, Oregon State Police, University of Oregon Police, Oakridge Police Department, and the Confederated Tribes of Coos, Lower Umpqua and Siuslaw Indians Police Departments are expected to participate. The drill will include the use of real weapons that fire simunitions (paint cartridges) and flash bangs. C-CERT volunteers will play the parts of injured victims and Public Safety volunteers will play the role of "shooters" during the Friday, July 14 training day in the Center Building. The college is closed on Fridays which will limit the number of passers-by for the Center Building drill. The building will be secured, and Public Safety officers and signage will be posted to alert passers-by that this is only a drill, to avoid the area, and to prevent entry into Building 12 and the Center Building. One of the early architects of Lane main campus, Grant Seder, passed away in June at age 92. His son Mark, also an architect, visited campus lately to have a look around in his father's memory. Lane was founded in 1964 by a 5-1 vote margin. In the college history titled "The Parnell Years" by Larry Romine, Lane's first director of public relations and later a board member, wrote, "Facing an urgent need to have a campus ready by fall 1968, when leases

expired on temporary facilities, the board got planning underway in fall 1965. The Eugene architectural firm of Balzhiser, Seder & Rhodes was hired in September to plan the campus."

CENTER FOR ACCESSIBLE RESOURCES TIP: DEFINITION OF "DISABILITY"

In section 504 of the Rehabilitation Act the legislation guarantees specific rights to people with disabilities. A disability is defined as: the individual (1) has a physical or mental impairment that substantially limits one or more major life activities, (2) has a record of such impairment, or (3) is regarded as having such impairment. The law is written for broad coverage. CAR and LCC serve a wide range of students with disabilities, including students with medical and psychological conditions, mobility and neurological impairments, hearing and vision loss, and learning disabilities. For more information contact: Keelie Daquilanto.

CENTER FOR ACCESSIBLE RESOURCES TIP: WORKING WITH STUDENTS WITH HEARING LOSS

Students with hearing loss can vary widely in their preferred styles of communication. Here are some tips for communicating with students that may have hearing loss:

- Face the student while talking.
- Gain the attention of the student before speaking.
- Speak clearly and naturally without exaggerating lip movements or volume.
- If the student utilizes an interpreter, make sure to still speak to the student, and not to the interpreter. The interpreter may voice for the student, but it is important communication and eye contact is still directed at them. For more information contact: Keelie Daquilanto.

CENTER FOR ACCESSIBLE RESOURCES TIP: WHAT DOES “ADA” MEAN?

When talking about student accommodations, the acronym “ADA” is referred to frequently. What exactly does this mean? The Americans with Disabilities Act (ADA) is a federal law that is designed to give civil rights protections to individuals with disabilities to stop discrimination. Title II of the ADA states that public colleges and universities are required to provide auxiliary aids and services to qualified students with disabilities. Providing these services does not mean these students get special treatment, but rather ensures equal opportunity to participate in classes and activities offered by the college. HOW TO AVOID STARTING A WILDFIRE DURING YOUR #ECLIPSE2017 TRAVELS

From Oregon Dept. of Transportation:

The August 21 Solar Eclipse is certain to be memorable. With this worldwide event heading to Oregon during the peak of fire season, ODOT and the Oregon Department of Forestry want to make sure YOUR memories don't include starting a wildfire.

In the days surrounding the event, an estimated one million eclipse enthusiasts from all over the world are expected to travel within Oregon's path of totality. And with 70% of wildfires caused by people, the odds are not in our favor.

Luckily, you can do your part to better the odds and prevent wildfires by taking a few precautions:

1. Secure tow chains. Make sure all vehicle parts are secure and not dragging. A loose safety tow chain or muffler striking a rock or pavement can send a shower of sparks into dry vegetation.
2. Check your tires and make sure they receive regular maintenance. Once a flat tire shreds, the bare wheel can shower sparks on roadside vegetation.
3. Maintain your exhaust system. A worn-out catalytic converter can cast off extremely hot pieces of material into dry roadside vegetation.
4. Check underneath your car. Make sure it's free of oil leaks and that fuel and brake lines are intact.
5. Stay off the grass. Avoid parking or idling on dry grass. Vehicle exhaust and dry vegetation is a dangerous combination.
6. Stay on the road. Off-road driving is prohibited in most areas during fire season.
7. Be prepared. Keep a cell phone, water, a shovel and fire extinguisher with you in case a fire starts.

Of course, always follow recreational forest laws (www.oregon.gov/ODF/Fire/Pages/Restrictions.aspx). Report fires immediately to 911. Use TripCheck.com or call 511 to check your planned route. For more eclipse travel tips and links, visit www.oregon.gov/ODOT/Pages/Eclipse.aspx Submitted by the editor.

CENTER FOR ACCESSIBLE RESOURCES TIP: Department or Personal Instructor Websites

If you are an instructor that utilizes their own website or are in charge of your department's website, it is important that these page are accessible to all students. Here are some general tips to follow:

- * Avoid using green or red text and using "all caps" or italics when possible.
- * Students using screen readers have difficulty using this technology if text jumps around too much on the page (text boxes, cartoons, thought bubbles, etc.).
- * Utilize multiple sensory options for your content.

HOW TO BEAT THE HEAT DURING #ORECLIPSE

- Arrive early; stay put; leave late
- Stay cool; stay hydrated; stay informed

The Aug. 21 eclipse is expected create major traffic challenges. Being stuck in traffic under high heat conditions without enough cold air and cool water could lead to heat exhaustion or even heat stroke—which can be life threatening. We are now one month away from the big day, and ODOT and OHA have six suggestions to help you beat the heat.

1. Stay cool: Make sure your car's air conditioning is working properly—you may need it in Oregon in August, especially if you're in central or eastern Oregon.
2. Stay hydrated: Make sure you're traveling with plenty of water for everyone in your car—including your pets.
3. Stay informed about your planned travel path: Use www.TripCheck.com and its 400 highway cameras to check travel conditions on your route in real time. Listen to your radio to keep up with the changing temperature, humidity and heat index.

4. Avoid traveling at the expected peak times—Sunday and Monday. Treat this 3-hour event like it's a 3-day event because of the large crowds on the roads: It is NOT anything like a college football game day.

5. Have a plan B: Where can you get off the highway to get into air conditioning and refill your water, if necessary?

6. Learn the signs and symptoms of heat-related illnesses so you can react appropriately at the right time. Visit

<http://www.oregon.gov/oha/PH/Preparedness/Prepare/Pages/PrepareForExtremeHeat.aspx> to read some basic information.

NEWS AND ANNOUNCEMENTS

LCC ONE OF 11 COLLEGES NATIONALLY SELECTED FOR STEM MENTORSHIP PROJECT

Lane Community College and Roger Ebbage are one of 11 colleges and faculty selected as mentors for the 2017-2019 MentorLinks Project sponsored by the American Association of Community Colleges. The two-year project is funded by a \$20,000 grant from the National Science Foundation.

Established in 2002, MentorLinks pairs experienced community college mentors with extensive experience in planning and implementing advanced technology programs with colleges seeking support to build, strengthen, and sustain new or existing science, technology, engineering, or mathematics (STEM) technician education programs.

The colleges and individual mentors were selected through a competitive peer review process and represent innovative projects in advanced manufacturing, engineering technology, environmental technology, information technologies, agricultural technology and cybersecurity. Mentors will work closely with their college teams on activities such as curriculum development or redesign, industry engagement, faculty development, student recruitment and retention, and internships/experiential learning experiences development for both faculty and students. AACC has managed the MentorLinks project since 2002. Since then, assistance to 44 colleges has resulted in the creation of more than 140 new courses, 21 new associate degrees, and 30 new certificates; development of several industry partnerships and internship sites; reported STEM program enrollment increases ranging from 14 percent to 350 percent; and the leveraging of over \$4.5 million in additional grant funding.

WE HAVE MONEY: LOOKING FOR A FEW GOOD GREEN ENTERPRISE AND ACHIEVER PROJECTS FOR LANE'S LIVING GREEN LOAN FUND AWARDS

Planning for an office or classroom remodel or executing a major capital project to transform lives through learning? Unsure how to integrate the college's sustainability core value? Go to <https://www.lanecc.edu/sustainability/living-green-fund-request-form> to apply for resource wise Green Enterprise or Achiever project money and technical assistance from Lane's Living Green Revolving Loan fund and the Institute for Sustainable Practices.

Did you know that integrating sustainable measures can result in money saved from technology to use energy, water, or solid resources more effectively (efficiency) or by the implementation of a change in behavior to use less (conservation)? That's the key to how our Living Green loan fund works. The money not spent to purchase utility or waste hauling resources for a standard system due to the savings for installing energy efficient, water conserving, or waste reduction measures will be used to pay for the project's costs. During the rest of the life of the project the savings will be used to help the college fund other resource wise projects.

Check out some examples of measures eligible for a Lane's Living Green Revolving Loan:

- Water Efficiency - low flow water fixtures, dish washers, rain water harvesting, storm water systems, pervious pavement, etc.
- Energy Efficiency - efficient lighting; day-lighting, LED lighting, lighting controls, plug load controls; timers, occupancy sensors, heating/cooling, refrigeration, equipment and/or controls; insulation, weather-stripping, etc.; active or passive solar thermal solar heating and/or cooling systems.
- Resource Efficiency/Materials Management and Purchasing - furniture; composting-recycling systems; paper management systems, etc.
- Renewable Energy - solar electric generation, geothermal systems for heating, cooling and hot water; wind generation systems.

Due date for Round I Larger Enterprise & Achiever projects (\$10,000 and up) is November 30, 2017 for the FY19 construction season. To apply visit:

CENTER FOR ACCESSIBLE RESOURCES TIP: Identifying ADA Chairs

CAR offers alternative or "ADA" chairs for qualifying students. To know if a chair in your classroom is an ADA chair, look on the base. If it is marked with faint gold paint, it is an ADA chair and should not be removed from the classroom. There may be a number of chairs in one classroom to accommodate multiple students, who may be in other sections or courses in the same room at different times. If you have any questions or concerns, please contact CAR at ext. 5150. Submitted by Keelie Daquilanto. ``

CENTER FOR ACCESSIBLE RESOURCES TIP: Testing Security

When students test with CAR, maintaining test security is very important to our department. Here are just some of the security measures we take when testing: All students are held in a secure, locked location. During testing, students are monitored at all times by trained CAR staff. If a student is witnessed using unauthorized material, or breaking any other established procedures, an incident report form will be completed and sent to the faculty member to determine consequences. TRAININGS AND CLASSES

CULTURAL COMPETENCY PROF. DEVELOPMENT SUMMER WORKSHOP SERIES AUG 8-10, 2017

- WORKSHOP 1 – Race, Ethnicity, Nationality, Culture and Language, Tuesday, August 8, 3-5pm and 5 -7pm, Bldg. 3/Rm. 216. Participants will come away with an introductory understanding of Race, Ethnicity, Nationality (Both Geographic and Ethnic), culture and language applicable to the workplace. Workshop will include video, reflection and introspection elements. Presenters Indira Bakshi and Mark Harris.
- WORKSHOP 2 – Intersectionality: What is Intersectionality? Wednesday, August 9, 3-5pm and 5 -7pm Bldg. 3/Rm. 216. A brief presentation will start with an attempt to understand the basic definition of the term coined in the late 80's / early 90's by Kimberle Williams Crenshaw. The term continues to evolve around and explore the dynamics and dimension of oppression, power, and privilege. Intersectionality shows us that everyone could do better, that every anti-discrimination attempt could work harder and be more inclusive. After the presentation, we will engage in some brief activities, exercises, and role playing to heighten our awareness that intersectionality needs refining as a tool. Emphasis will be placed on how important it is for us to acknowledge and articulate that people are more than a simple label. Hopefully we will start to unpack what intersectionality means to us individually, professionally, and as a community. Must intersectionality be at odds with or could it work in tandem with social justice. Presenter Rose Marie Tillman.
- WORKSHOP 3 – Age, Ability, Accessibility, and Mental Health, Thursday, August 10, 3-5pm and 5 -7pm, Bldg. 3/Rm. 216. Mark Harris, Coordinator of the Recovery Center, will deliver Age, Ability, Accessibility, and Mental Health, one of the Cultural Competency Professional

Development workshops developed for Lane staff. The two deliveries of this two hour introductory workshop will cover many aspects of what staff need to know to both serve students and the community, and maintain good self-care in the challenges that we face daily. Presenter Mark Harris. Submitted by Greg Evans

WE HAVE MONEY: LOOKING FOR A FEW GOOD GREEN ENTERPRISE AND ACHIEVER PROJECTS FOR LANE'S LIVING GREEN LOAN FUND AWARDS

Planning for an office or classroom remodel or executing a major capital project to transform lives through learning? Unsure how to integrate the college's sustainability core value?

Go to <https://www.lanecc.edu/sustainability/living-green-fund-request-form> to apply for resource wise Green Enterprise or Achiever project money and technical assistance from Lane's Living Green Revolving Loan fund and the Institute for Sustainable Practices.

Did you know that integrating sustainable measures can result in money saved from technology to use energy, water, or solid resources more effectively (efficiency) or by the implementation of a change in behavior to use less (conservation)? That's the key to how our Living Green loan fund works. The money not spent to purchase utility or waste hauling resources for a standard system due to the savings for installing energy efficient, water conserving, or waste reduction measures will be used to pay for the project's costs. During the rest of the life of the project the savings will be used to help the college fund other resource wise projects.

Check out some examples of measures eligible for a Lane's Living Green Revolving Loan:

- Water Efficiency - low flow water fixtures, dish washers, rain water harvesting, storm water systems, pervious pavement, etc.
- Energy Efficiency - efficient lighting; day-lighting, LED lighting, lighting controls, plug load controls; timers, occupancy sensors, heating/cooling, refrigeration, equipment and/or controls;

insulation, weather-stripping, etc.; active or passive solar thermal solar heating and/or cooling systems.

- Resource Efficiency/Materials Management and Purchasing - furniture; composting-recycling systems; paper management systems, etc.
- Renewable Energy - solar electric generation, geothermal systems for heating, cooling and hot water; wind generation systems.

Due date for Round I Larger Enterprise & Achiever projects (\$10,000 and up) is November 30, 2017 for the FY19 construction season. To apply visit:

TRAININGS AND CLASSES

CULTURAL COMPETENCY PROF. DEVELOPMENT SUMMER WORKSHOP SERIES AUG 8-10, 2017

- WORKSHOP 1 – Race, Ethnicity, Nationality, Culture and Language, Tuesday, August 8, 3-5pm and 5 -7pm, Bldg. 3/Rm. 216. Participants will come away with an introductory understanding of Race, Ethnicity, Nationality (Both Geographic and Ethnic), culture and language applicable to

the workplace. Workshop will include video, reflection and introspection elements. Presenters Indira Bakshi and Mark Harris.

- WORKSHOP 2 – Intersectionality: What is Intersectionality? Wednesday, August 9, 3-5pm and 5 -7pm Bldg. 3/Rm. 216. A brief presentation will start with an attempt to understand the basic definition of the term coined in the late 80's / early 90's by Kimberle Williams Crenshaw. The term continues to evolve around and explore the dynamics and dimension of oppression, power, and privilege. Intersectionality shows us that everyone could do better, that every anti-discrimination attempt could work harder and be more inclusive. After the presentation, we will engage in some brief activities, exercises, and role playing to heighten our awareness that intersectionality needs refining as a tool. Emphasis will be placed on how important it is for us to acknowledge and articulate that people are more than a simple label. Hopefully we will start to unpack what intersectionality means to us individually, professionally, and as a community. Must intersectionality be at odds with or could it work in tandem with social justice. Presenter Rose Marie Tillman.

- WORKSHOP 3 – Age, Ability, Accessibility, and Mental Health, Thursday, August 10, 3-5pm and 5 -7pm, Bldg. 3/Rm. 216. Mark Harris, Coordinator of the Recovery Center, will deliver Age, Ability, Accessibility, and Mental Health, one of the Cultural Competency Professional Development workshops developed for Lane staff. The two deliveries of this two hour introductory workshop will cover many aspects of what staff need to know to both serve students and the community, and maintain good self-care in the challenges that we face daily. Presenter Mark Harris. Submitted by Greg Evans

ECLIPSEALYPSE NEWS

ECLIPSE GLASSES AT NO COST TO YOU, WHILE THEY LAST

Information about the eclipse on Monday the 21st can be found on

<https://eclipse2017.nasa.gov> including safety information and a link to weather information. If viewed from campus, the eclipse will not reach totality but it still is not safe to view the eclipse at any time without using approved glasses or an indirect method such as NASA suggests.

While camping is fully reserved at Linn-Benton, there are activities Sunday evening and Monday

morning, where the eclipse will reach totality. (Transportation is your responsibility.) More information at <https://www.linnbenton.edu/eclipse>

The Science Division has eclipse viewing glasses to be used when the eclipse is not total, supplied by the Division and also by the Oregon NASA Space Grant Consortium, of which Lane is a member. These eclipse glasses are available today and Wednesday from 8 a.m.-3 p.m., when the Science office is open. Because the office is closed Thursday and Monday, remaining glasses will also be available Monday morning in the life sciences stockroom.

LCC IS OPEN AUG. 21

Heard it on the grapevine—students are asking if Lane will be open on the day of the eclipse, Monday, Aug. 21. Yes we will. Spread the word!

TIPS AND ONLINE RESOURCES—

From Lane County and other regional agencies:

The total solar eclipse on Monday, Aug. 21, is predicted to bring 1 million visitors to Oregon. If you're traveling into the Path of Totality, or even if you're staying put, here are some tips and online resources to help you make wise decisions.

Tips—

- Staying put is better than being stuck in traffic. You can enjoy the August 21 eclipse from a place near you: backyard, front yard, balcony, parking lots, etc. NASA has great tips for eclipse viewing and for being a citizen scientist! <https://nasa.tumblr.com/post/163689163784/whats-up-for-august-2017>
- Lane County is on the “path to the path” of totality. Roads on and off major highways might be busier than usual August 16–23 so be sure to pack your patience!
- Keep your cool and shine your kindness in crowds and traffic. It's sort of like a busy holiday that only comes once every 100 years or so. (The next total solar eclipse to cross Oregon will happen in 2169!)
- Don't get stuck! Bypass the lines by filling up your gas tank and grocery shopping early in the week before the eclipse
- Be patient with the internet, the ATM and your cell phone. With the increased number of visitors, internet and cellular service may become slow or overwhelmed (especially on Monday).
- Did you know that when the sun disappears behind the moon there will be a sudden change in daylight and the air will become cooler? Learn more at <https://www.space.com/36637-what-you-will-see-during-a-total-solar-eclipse.html>

<https://twitter.com/NASA/status/892494193490317313>

- Don't fall for a fake: wear certified glasses made to protect your eyes from an eclipse. Learn more from NASA at <https://eclipse2017.nasa.gov/safety>

MAIN CAMPUS EVACUATION DRILL SET FOR SEPT. 18

The LCC Emergency Preparedness Team will conduct an evacuation drill for main on Monday, September 18th at 2 p.m. The mass notification system will be utilized for this drill. An "all-clear" will be sounded using the outdoor public address system after everyone has had a sufficient amount of time to evacuate.

This drill is a part of efforts to remain Clery compliant, and allows a complete testing of mass notification systems. In future years, drills may be conducted during class time (when a greater number of students and staff will be impacted).

Thank you in advance for your cooperation. When people have safely and quickly exited all buildings, the drill will be completed and a notification will be sent out.

HOST FAMILY NEEDED

Are you interested in meaningful cultural exchange and engagement, or in connecting with the international community? If so, the Friendship Foundation for International Students (FFIS) Homestay Program is for you.

Participation is easy: The Homestay Program is a short-term (five-day) cultural exchange program to connect new international students with local community members. Students sign up to stay with a host family for a few days prior to moving into the residence halls or off-campus housing. The host family meets their student at the airport and helps them ease into life in Eugene while they recover from jet lag and find their bearings.

The relationship you build with your student beyond the brief homestay is up to you and your student. For many students, the FFIS Homestay Program is not only their first introduction to American culture, but is also the start of many lifelong friendships.

This fall, we have a record number of incoming students signing up for an FFIS Homestay and need as many families and individuals as possible to host. The dates for the fall homestay program are Sept. 9 -13. If you're interested in hosting a student this fall, please fill out the FFIS Volunteer Application. For more information about FFIS and our other programs please visit our website.

CENTER FOR ACCESSIBLE RESOURCES TIP: Universal Design for Fall

Are you preparing course materials for Fall Term? This is a great time to incorporate universal design elements into your curriculum! Universal design makes as many products and environments as possible usable by most students regardless of age, ability, or situation. For example, posting detailed notes to a website (such as Moodle) is a universal design strategy. Other universal design strategies include captioning videos, using accessibility checkers on programs like Microsoft Word and PowerPoint, using visual and tactile aids, and encouraging

cooperative learning. Find more information on CAR's Universal Design page:
<https://www.lanecc.edu/disability/universal-design> Submitted by Keelie Daquilanto.

CENTER FOR ACCESSIBLE RESOURCES TIP: Accessibility Statements

As a reminder, all announcements/publications for Lane events or activities (e.g., non-classroom activities such as performing arts productions, community workshops, special events, field trips, etc.) must contain the event access statement. Font should be Arial 12 point (or larger) and easy to read. To locate this and other accessibility statements visit our website:
<https://www.lanecc.edu/disability/strategies-working-students-disabilities> Submitted by Keelie Daquilanto.

CENTER FOR ACCESSIBLE RESOURCES TIP: CAR Emails

Before fall term begins, it is important to make sure that you are receiving CAR emails. Due to FERPA, CAR is only able to send information pertaining to LCC students to @lanecc.edu email accounts. This includes the Letter of Accommodations. Be sure to keep checking your LCC email for communication from CAR. If you are concerned that you may not be receiving CAR emails to your LCC email address you can refer to our website for information about troubleshooting email communications: <https://www.lanecc.edu/disability/troubleshooting-automated-communications> Submitted by Keelie Daquilanto.

HOST FAMILY NEEDED

Are you interested in meaningful cultural exchange and engagement, or in connecting with the international community? If so, the Friendship Foundation for International Students (FFIS) Homestay Program is for you.

Participation is easy: The Homestay Program is a short-term (five-day) cultural exchange program to connect new international students with local community members. Students sign up to stay with a host family for a few days prior to moving into the residence halls or off-campus housing. The host family meets their student at the airport and helps them ease into life in Eugene while they recover from jet lag and find their bearings.

The relationship you build with your student beyond the brief homestay is up to you and your student. For many students, the FFIS Homestay Program is not only their first introduction to American culture, but is also the start of many lifelong friendships.

This fall, we have a record number of incoming students signing up for an FFIS Homestay and need as many families and individuals as possible to host. The dates for the fall homestay program are Sept. 9 -13. If you're interested in hosting a student this fall, please fill out the FFIS Volunteer Application. For more information about FFIS and our other programs please visit our website. IN MEMORY: PHOEBE ANDERSON

Phoebe Anderson, administrative specialist in Cooperative Education, passed away Aug. 20 at age 68. Phoebe was well known for her warmth, compassion and positive energy. She shared this energy with everyone she interacted with, and her loss is greatly felt.

Phoebe started at Lane as a Learn and Earn (L&E) employee in Academic Learning Skills (ALS) in June 2004. She worked hourly in ALS after her L&E assignment in 2004-05. In May, 2005 Cooperative Education was fortunate to have Phoebe join their team. She retired from Cooperative Education this past June, but continued working post-retirement in the department.

INFORMATION FOR UPCOMING EVACUATION DRILL SEPT. 18

In preparation for the evacuation drill occurring for main campus on September 18 , keep these tips in mind.

1. Yes, you do need to leave the building. This is a federal requirement and we need to have compliance. We will be testing our interior and exterior messaging capabilities to let you know when it is ok to return.
2. A good rule of thumb for evacuation safety is to move away from your building to a distance equal to one and one half times the height of the building.
3. For a specific meeting location for your building, look at the back of your employee emergency manual. The designated meeting points are on the map. Find your manual and more information online at: <https://www.lanecc.edu/safety/safety-committee-employee-safety-information>

The Emergency Planning Team appreciates your cooperation. This is not only a requirement, but also a test of our protocols to keep you safe in the event of an emergency. Questions? Contact Dawn Barth, barthd@lanecc.edu

TIP: MAKE SURE YOUR URLs HOTLINK

Did you know that if a URL web address includes a period at the end of a sentence or any other extraneous punctuation in text, that it won't hotlink? Weekly staff try to catch this during editing, but it's best just to leave off a period or any other punctuation in your e-mails. It might look funny, but it's better to have your link work. CENTER FOR ACCESSIBLE RESOURCES TIP: Retroactive Accommodations

If a student discloses that they have a disability, attempts to provide medical documentation, or asks for any kind of accommodations (without an official CAR Letter of Accommodation), they should be directed to CAR. CAR can take immediate action to support the student and the instructor in navigating the accommodation process. It is important this be done as soon as possible as CAR cannot provide retroactive accommodations. Submitted by Keelie Daquilanto.

INNOVATION LAW LAB: TRAINING LAWYERS FOR ASYLUM SEEKERS: The Refugee Resettlement Coalition of Lane County has been working on getting more low cost help to refugees, asylum seeker and other immigrants in need of legal services. The umbrella organization, Catholic Community Services, has opened a new law services program connected with Immigration Legal services in Portland. What we are learning is that many of the non-profits and even the private for profit lawyers are backed up with cases or no longer taking cases. The change to the new administration has increased demand for immigration attorneys. One of the members, a practicing lawyer, is arranging to have someone from the Innovation Law Lab come to Eugene in September and do a training/workshop to train lawyers (current practicing attorneys in other areas of law, retired or non-practicing attorneys) to do asylum cases pro-bono. The need is high. Many lawyers will charge \$3,000 to take a case and many say it may cost up to \$6,000 or more to complete a case. This is a huge financial burden for many individuals seeking asylum in the US, because they may not work legally for 6-8 months after filing, and must file within one year of arrival. If you could share this with attorneys you know, I would be so thankful. The attorney arranging the training in the Eugene area is Christine Zeller-Powell and she can be contacted at cezeller@hotmail.com For more information about the Innovation Law Lab go online at <https://innovationlawlab.org> Submitted by Indira Marie Bakshi, bakshii@lanecc.edu

The schedule of when testing and repairs will happen in each building is shown in the attached. Building occupants may briefly hear things like bells and whistles. Fire alarms and strobes will be triggered in the course of this testing. Before each fire alarm and strobe test there will be an announcement over the building annunciator that the alarm is a test. INFORMATION FOR UPCOMING EVACUATION DRILL ON SEPT. 18

In preparation for the evacuation drill occurring for main campus on September 18, keep these tips in mind.

1. Yes, you do need to leave the building. This is a federal requirement and we need to have compliance. We will be testing our interior and exterior messaging capabilities to let you know when it is ok to return.
2. A good rule of thumb for evacuation safety is to move away from your building to a distance equal to one and one half times the height of the building.
3. For a specific meeting location for your building, look at the back of your employee emergency manual. The designated meeting points are on the map. Find your manual and more information online at: <https://www.lanecc.edu/safety/safety-committee-employee-safety-information>

The Emergency Planning Team appreciates your cooperation. This is not only a requirement, but also a test of our protocols to keep you safe in the event of an emergency. Questions? Contact Dawn Barth, barthd@lanecc.edu

INNOVATION LAW LAB: TRAINING LAWYERS FOR ASYLUM SEEKERS: The Refugee Resettlement Coalition of Lane County has been working on getting more low cost help to refugees, asylum seeker and other immigrants in need of legal services. The umbrella organization, Catholic Community Services, has opened a new law services program connected with Immigration Legal services in Portland. What we are learning is that many of the non-profits and even the

private for profit lawyers are backed up with cases or no longer taking cases. The change to the new administration has increased demand for immigration attorneys. One of the members, a practicing lawyer, is arranging to have someone from the Innovation Law Lab come to Eugene in September and do a training/workshop to train lawyers (current practicing attorneys in other areas of law, retired or non-practicing attorneys) to do asylum cases pro-bono. The need is high. Many lawyers will charge \$3,000 to take a case and many say it may cost up to \$6,000 or more to complete a case. This is a huge financial burden for many individuals seeking asylum in the US, because they may not work legally for 6-8 months after filing, and must file within one year of arrival. If you could share this with attorneys you know, I would be so thankful. The attorney arranging the training in the Eugene area is Christine Zeller-Powell and she can be contacted at cezeller@hotmail.com For more information about the Innovation Law Lab go online at <https://innovationlawlab.org> Submitted by Indira Marie Bakshi, bakshii@lanecc.edu

HOST FAMILY NEEDED: Are you interested in meaningful cultural exchange and engagement, or in connecting with the international community? If so, the Friendship Foundation for International Students (FFIS) Homestay Program is for you.

Participation is easy: The Homestay Program is a short-term (five-day) cultural exchange program to connect new international students with local community members. Students sign up to stay with a host family for a few days prior to moving into the residence halls or off-campus housing. The host family meets their student at the airport and helps them ease into life in Eugene while they recover from jet lag and find their bearings.

The relationship you build with your student beyond the brief homestay is up to you and your student. For many students, the FFIS Homestay Program is not only their first introduction to American culture, but is also the start of many lifelong friendships.

This fall, we have a record number of incoming students signing up for an FFIS Homestay and need as many families and individuals as possible to host. The dates for the fall homestay program are Sept. 9 -13. If you're interested in hosting a student this fall, please fill out the FFIS Volunteer Application. For more information about FFIS and our other programs please visit our website. Submitted by Tomomi Kurosaki kurosakit@lanecc.edu

NEWS AND ANNOUNCEMENTS

WEEKLY TO FEATURE REGULAR ENROLLMENT UPDATES

Beginning this week, the Weekly will provide regular updates of college enrollment numbers and provide stories and examples from departments and programs on what they're doing to increase numbers. We hope this provides you with a better understanding of Lane's overall enrollment situation. We'd love to hear from you. If you have examples of what your department or program is doing to help increase enrollment, please send them to marketing@lanecc.edu Submitted by Brett Rowlett.

STRATEGIC ENROLLMENT MANAGEMENT UPDATE

For fall term 2017, as of yesterday (9/11/17), after 16 weeks of registration (and 2 weeks before fall classes begin), total registrations across all classes is down 5.8% compared to the same time last fall. Total unduplicated student headcount is 3.3%. Submitted by Craig Taylor.

ENROLLMENT TIP OF THE WEEK

Have you updated or reviewed you department web pages lately? Is all of your information up to date? Current and prospective students get their information through the Lane website and out of date information not only looks bad, it confuses students. Make sure to ask: Are ALL of your department pages updated and relevant? If not, that's a missed opportunity to make a positive impression. Contact Brett Rowlett at rowlett@lanecc.edu, or Lori Brenden at brendenl@lanecc.edu for more information.

CENTER FOR ACCESSIBLE RESOURCES TIP: Grading Considerations

As the last section of summer classes ends, faculty may wonder how to grade students who have a disability. Students with disabilities should be held to the same evaluation and grading standards as those for all other students. Therefore, you should grade the work of a student who has a disability as you would grade the work of any other student. These guidelines apply whether or not a student utilizes CAR resources. Submitted by Keelie Daquilanto.

CENTER FOR ACCESSIBLE RESOURCES TIP: Students Do Not Have to Disclose a Disability

As per the Americans with Disabilities Act (ADA), a student is not required to disclose if they have a disability. However, if the student wishes to utilize academic accommodations in classes, they must follow college procedures by completing the CAR application, intake, and submission of medical documentation for review and accommodation assessment. If the student wants to discuss their accommodations, it is important for faculty to do this in a private meeting for confidentiality purposes. Faculty are not permitted to ask a student if they have a disability. If you have additional questions please contact CAR. Submitted by Keelie Daquilanto.

CENTER FOR ACCESSIBLE RESOURCES TIP: Medical Documentation

As the fall term approaches, students are getting ready to use accommodations in their classes. If a student approaches you and attempts to give you medical documentation to support their request for accommodations, please refer them to CAR. All provisions of academic accommodations is facilitated by CAR. If you have additional questions, please contact us. Submitted by Keelie Daquilanto.

INNOVATION LAW LAB: TRAINING LAWYERS FOR ASYLUM SEEKERS: The Refugee Resettlement Coalition of Lane County has been working on getting more low cost help to refugees, asylum

seeker and other immigrants in need of legal services. The umbrella organization, Catholic Community Services, has opened a new law services program connected with Immigration Legal services in Portland. What we are learning is that many of the non-profits and even the private for profit lawyers are backed up with cases or no longer taking cases. The change to the new administration has increased demand for immigration attorneys. One of the members, a practicing lawyer, is arranging to have someone from the Innovation Law Lab come to Eugene in September and do a training/workshop to train lawyers (current practicing attorneys in other areas of law, retired or non-practicing attorneys) to do asylum cases pro-bono. The need is high. Many lawyers will charge \$3,000 to take a case and many say it may cost up to \$6,000 or more to complete a case. This is a huge financial burden for many individuals seeking asylum in the US, because they may not work legally for 6-8 months after filing, and must file within one year of arrival. If you could share this with attorneys you know, I would be so thankful. The attorney arranging the training in the Eugene area is Christine Zeller-Powell and she can be contacted at cezeller@hotmail.com For more information about the Innovation Law Lab go online at <https://innovationlawlab.org> Submitted by Indira Marie Bakshi, bakshii@lanecc.edu

HOST FAMILY NEEDED: Are you interested in meaningful cultural exchange and engagement, or in connecting with the international community? If so, the Friendship Foundation for International Students (FFIS) Homestay Program is for you.

Participation is easy: The Homestay Program is a short-term (five-day) cultural exchange program to connect new international students with local community members. Students sign up to stay with a host family for a few days prior to moving into the residence halls or off-campus housing. The host family meets their student at the airport and helps them ease into life in Eugene while they recover from jet lag and find their bearings.

The relationship you build with your student beyond the brief homestay is up to you and your student. For many students, the FFIS Homestay Program is not only their first introduction to American culture, but is also the start of many lifelong friendships.

This fall, we have a record number of incoming students signing up for an FFIS Homestay and need as many families and individuals as possible to host. The dates for the fall homestay program are Sept. 9 -13. If you're interested in hosting a student this fall, please fill out the FFIS Volunteer Application. For more information about FFIS and our other programs please visit our website. Submitted by Tomomi Kurosaki kurosakit@lanecc.edu

ENROLLMENT TIP—USE ASKLANE

Students can get help with enrollment, financial aid, and much more in Building 1. But did you know about AskLane at <https://lanecc.intelliresponse.com> ?

Take a minute to familiarize yourself with this great, intuitive resource and try it out next time you have a question. Submitted by Deborah Butler for the Enrollment Huddle Team.

HOW ARE YOU BOOSTING ENROLLMENT?

What is your department doing to boost enrollment? We want to hear about it! Email marketing@lanecc.edu to share your events and initiatives. Submitted by Brett Rowlett for the Enrollment Huddle Team.

ENROLLMENT HUDDLE NEWS

The Enrollment Huddle Team has been working on two primary areas this summer.

1. Fall registration. We are currently focused on connecting with students (new and returning) who have not yet registered for fall. All offices and departments are closed this Thursday to participate in fall in-service. Students can still register after Wednesday if they have completed their steps to enroll, as there will NOT be placement or advising sessions on Friday. Staff and faculty will be available to respond to student registration issues on Friday.

The Huddle is also looking forward supporting recruiting opportunities coming up this fall.

2. Communicating our work. This group does great work and we want to share out the good work going on around campus. Look for some short stories and ideas about how you are supporting enrollment, as well as some important data points in upcoming Lane Weeklies.

The Enrollment Huddle will be taking a hiatus until October 9 in order to support the launch of the fall term. Contact: Kerry Levett, Ed. D., Executive Dean Student Affairs.

"NOW I AM YOUR NEIGHBOR," an original play telling the true stories of courage, hopefulness and resilience of Lane County immigrants, will be produced as a staged reading at the Very Little Theatre Stage Left Friday and Saturday, September 22 and 23 at 7:30 p.m. and Sunday, September 24 at 2 p.m. ASL interpretation is available at the Sunday performance. Tickets are available at the door only, with a suggested donation of \$5-\$25, and no one will be turned away for lack of funds. Most proceeds will be donated to Centro Latino Americano for immigrant support services, and to the Islamic Cultural Center.

Produced by Community Alliance of Lane County (CALC) and Minority Voices Theatre (MVT) and sponsored in part by the City of Eugene Human Rights Commission and the Lane Arts Council, the play consists of stories of some of the most targeted and marginalized groups, including Muslims, undocumented immigrants, DREAMers and Syrian refugees that were woven together in a creative narrative by local playwright Nancy Hopps. Directed by Carol Dennis with original music by Ricardo Cardenas, husband of Lane staff member Claudia Riumallo, the play will be produced as a staged reading by readers who are immigrants themselves or very close to the immigrant experience. Readers include Lane student Isabel Smythe and Lane faculty member Berri Hsiao.

The one-hour play will be followed by a community discussion. The play will be also accompanied by the recently updated "We Are Neighbors" photography exhibit featuring photographs of Lane County immigrants from the original collection, which first premiered in 1996, and eight new photographs.

INNOVATION LAW LAB: TRAINING LAWYERS FOR ASYLUM SEEKERS: The Refugee Resettlement Coalition of Lane County has been working on getting more low cost help to refugees, asylum seeker and other immigrants in need of legal services. The umbrella organization, Catholic Community Services, has opened a new law services program connected with Immigration Legal services in Portland. What we are learning is that many of the non-profits and even the private for profit lawyers are backed up with cases or no longer taking cases. The change to the new administration has increased demand for immigration attorneys. One of the members, a practicing lawyer, is arranging to have someone from the Innovation Law Lab come to Eugene in September and do a training/workshop to train lawyers (current practicing attorneys in other areas of law, retired or non-practicing attorneys) to do asylum cases pro-bono. The need is high. Many lawyers will charge \$3,000 to take a case and many say it may cost up to \$6,000 or more to complete a case. This is a huge financial burden for many individuals seeking asylum in the US, because they may not work legally for 6-8 months after filing, and must file within one year of arrival. If you could share this with attorneys you know, I would be so thankful. The attorney arranging the training in the Eugene area is Christine Zeller-Powell and she can be contacted at cezeller@hotmail.com For more information about the Innovation Law Lab go online at <https://innovationlawlab.org> Submitted by Indira Marie Bakshi, bakshii@lanecc.edu ``

HOST FAMILY NEEDED: Are you interested in meaningful cultural exchange and engagement, or in connecting with the international community? If so, the Friendship Foundation for International Students (FFIS) Homestay Program is for you.

Participation is easy: The Homestay Program is a short-term (five-day) cultural exchange program to connect new international students with local community members. Students sign up to stay with a host family for a few days prior to moving into the residence halls or off-campus housing. The host family meets their student at the airport and helps them ease into life in Eugene while they recover from jet lag and find their bearings.

The relationship you build with your student beyond the brief homestay is up to you and your student. For many students, the FFIS Homestay Program is not only their first introduction to American culture, but is also the start of many lifelong friendships.

This fall, we have a record number of incoming students signing up for an FFIS Homestay and need as many families and individuals as possible to host. The dates for the fall homestay program are Sept. 9 -13. If you're interested in hosting a student this fall, please fill out the FFIS Volunteer Application. ENROLLMENT

FIRST DAY OF CLASSES ENROLLMENT UPDATE

As of Monday, Sept. 26, total registrations for all classes is down 6.1 percent compared to the same point in the registration/term cycle for fall 2016 classes (total registrations are 24,660). Total unduplicated student headcount is down 4.5 percent compared to the same point for fall 2016 (total headcount is 9,251). ENROLLMENT TIP—WALK STUDENTS TO THEIR DESTINATIONS

When you have time, walk students to their destinations rather than just give directions. Positive personal interactions, however brief, can help students feel more supported and connected to our institution. This can lead to a greater persistence from term to term. Check out the interactive campus map to familiarize yourself with the locations of gender inclusive restrooms, accessible routes, and other important locations on campus so you can offer assistance when asked. Even better, bookmark the map on your phone so you will have a quick reference at our fingertips anytime: <https://map.lanecc.edu/map/?id=780#!ct/11008,10696>

COOKIES FOR CONTRACTORS

Last week, Pat O'Connor, dean of Advanced Tech and Culinary Arts & Restaurant, Tourism, Hospitality Management, and Joan Aschim, public information officer, worked together last week to deliver cookies to thank the GBC Construction team that's been furiously working to complete an ADA remodel of the restrooms on the second floor of building 3 in time for the start of fall term. Pat brought the cookies give to workers, admired their work, and let them know about opportunities in Advanced Tech. This story is a great example of creative outreach to potential students, including those we may encounter in the course of our working day. Who are the potential students for your program? Where are they, and how can you reach them?

AUDITION FOR "THE BIRTHDAY PARTY," SEPT. 27-28

Student Production Association of Lane Community College will hold auditions for its production of "The Birthday Party" directed by Cullen Vance on Wednesday and Thursday, Sept. 27 and 28. Auditions will be held at The Blue Door Theater.

SPA is looking for actors this "comedy of menace" by Harold Pinter. Contemporary writers such as David Lynch and Quentin Tarantino owe a debt of Pinter's use of language and silences. This classic of dramatic literature offers actors and audience members an opportunity to investigate power dynamics in light of past and current politics. Strangers show up at a birthday party and the results are surprising in their "horror-comedy". Contact Brian Haimbach at ext. 5648 or haimbachb@lanecc.edu for more information.

In English, this thought, which originated with the Shawnee leader Tecumseh, appears thus: "A single twig breaks, but the bundle of twigs is strong."

The workshops in Eugene, Cottage Grove, and Florence will be essentially identical, and the workshops in Portland will focus on an introductory overview and "cloudspotting" in back to back Saturday afternoon sessions. For more information, please visit our program web page at <http://www.lanecc.edu/science/globe-program> where you will find registration links. Here are the dates, times and locations:

- Monday, October 9 at LCC Cottage Grove campus (2-6 PM)
- Tuesday, October 10 at LCC Main Campus (Bldg 16), 4-6:30 PM
- Thursday, October 12 at LCC Florence Campus, 2-6 PM
- Saturday, October 14 at OSTA - PCC Sylvania Campus - 1-3:30 PM

These workshops are being conducted in cooperation with the GLOBE program

(<http://www.globe.gov/>) and the American Geosciences Institute (AGI) as part of Earth Science Week, with more information at <http://www.earthsciweek.org>

These workshops are appropriate for teachers who've already carried out some GLOBE work, as well as those who are new to (or curious about) GLOBE. GLOBE is supported in the US by NASA, NSF, NOAA, and internationally by the State Department and science/education directorates in over 110 other nations. Pre-service teachers and informal science educators are also welcome! Please feel free to share this information in your networks, and if you have any questions, please do not hesitate to contact me for more information. Thanks and I hope to see you soon! INNOVATION LAW LAB: TRAINING LAWYERS FOR ASYLUM SEEKERS: The Refugee Resettlement Coalition of Lane County has been working on getting more low cost help to refugees, asylum seeker and other immigrants in need of legal services. The umbrella organization, Catholic Community Services, has opened a new law services program connected with Immigration Legal services in Portland. What we are learning is that many of the non-profits and even the private for profit lawyers are backed up with cases or no longer taking cases. The change to the new administration has increased demand for immigration attorneys. One of the members, a practicing lawyer, is arranging to have someone from the Innovation Law Lab come to Eugene in September and do a training/workshop to train lawyers (current practicing attorneys in other areas of law, retired or non-practicing attorneys) to do asylum cases pro-bono. The need is high. Many lawyers will charge \$3,000 to take a case and many say it may cost up to \$6,000 or more to complete a case. This is a huge financial burden for many individuals seeking asylum in the US, because they may not work legally for 6-8 months after filing, and must file within one year of arrival. If you could share this with attorneys you know, I would be so thankful. The attorney arranging the training in the Eugene area is Christine Zeller-Powell and she can be contacted at cezeller@hotmail.com For more information about the Innovation Law Lab go online at <https://innovationlawlab.org> Submitted by Indira Marie Bakshi, bakshii@lanecc.edu ``

HOST FAMILY NEEDED: Are you interested in meaningful cultural exchange and engagement, or in connecting with the international community? If so, the Friendship Foundation for International Students (FFIS) Homestay Program is for you.

Participation is easy: The Homestay Program is a short-term (five-day) cultural exchange program to connect new international students with local community members. Students sign up to stay with a host family for a few days prior to moving into the residence halls or off-campus housing. The host family meets their student at the airport and helps them ease into life in Eugene while they recover from jet lag and find their bearings.

The relationship you build with your student beyond the brief homestay is up to you and your student. For many students, the FFIS Homestay Program is not only their first introduction to American culture, but is also the start of many lifelong friendships.

This fall, we have a record number of incoming students signing up for an FFIS Homestay and need as many families and individuals as possible to host. The dates for the fall homestay program are Sept. 9 -13. If you're interested in hosting a student this fall, please fill out the FFIS Volunteer Application. For more information about FFIS and our other programs please visit our website. Submitted by Tomomi Kurosaki kurosakit@lanecc.edu ``

ENROLLMENT

ENROLLMENT TIP OF THE WEEK

Our admissions team rocks! If you know of an upcoming event that might be a good opportunity for our Lane Office of Admissions (aka Recruitment and Outreach) to connect with prospective students, let them know! If your department will be attending an event and would like to act as Lane ambassadors, contact Admissions for information, swag, and talking points: banuelos-uriber@lanecc.edu

and has abundant resources for teachers (like those in Oregon!) who are implementing the Next Generation Science Standards.

The workshops in Eugene, Cottage Grove, and Florence will be essentially identical, and the workshops in Portland will focus on an introductory overview and "cloudspotting" in back to back Saturday afternoon sessions. For more information, please visit our program web page at <http://www.lanecc.edu/science/globe-program> where you will find registration links. Here are the remaining dates, times and locations:

- Thursday, October 12 at LCC Florence Campus, 2-6 PM
- Saturday, October 14 at OSTA - PCC Sylvania Campus - 1-3:30 PM

These workshops are being conducted in cooperation with the GLOBE program

(<http://www.globe.gov/>) and the American Geosciences Institute (AGI) as part of Earth Science Week, with more information at <http://www.earthsciweek.org>

These workshops are appropriate for teachers who've already carried out some GLOBE work, as well as those who are new to (or curious about) GLOBE. GLOBE is supported in the US by NASA, NSF, NOAA, and internationally by the State Department and science/education directorates in over 110 other nations. Pre-service teachers and informal science educators are also welcome! Please feel free to share this information in your networks, and if you have any questions, please do not hesitate to contact me for more information. Thanks and I hope to see you soon! GOT A GREEN ENTERPRISE OR ACHIEVER PROJECT? NEED \$10K OR MORE \$\$\$? APPLY BY NOVEMBER 30th to LANE'S LIVING GREEN LOAN FUND

Planning for an office or classroom remodel or executing a major capital project to transform lives through learning? Unsure how to integrate the college's Sustainability core value? Go to <https://www.lanecc.edu/sustainability/living-green-fund-request-form> to apply for resource wise Green Enterprise or Achiever project money and technical assistance from Lane's Living Green Revolving loan Fund and the Institute for Sustainable Practices.

Did you know that integrating sustainable measures can result in money saved from technology to use energy, water, or solid resources more effectively (efficiency) or by the implementation of a change in behavior to use less (conservation)? That's the key to how our Living Green loan fund works. The money not spent to purchase utility or waste hauling resources for a standard system due to the savings for installing energy efficient, water conserving, or waste reduction measures will be used to pay for the project's costs. During the rest of the life of the project the savings will be used to help the college fund other resource wise projects.

Check out some examples of measures eligible for a Lane's Living Green Revolving Loan:

- Water Efficiency - low flow water fixtures, dish washers, rain water harvesting, storm water systems, pervious pavement, etc.
- Energy Efficiency - efficient lighting; day-lighting, LED lighting, lighting controls, plug load controls; timers, occupancy sensors, heating/cooling, refrigeration, equipment and/or controls. Insulation, weather-stripping, etc. Active or passive solar thermal solar heating and/or cooling systems.
- Resource Efficiency/Materials Management & Purchasing - furniture; composting/recycling systems; paper management systems, etc.
- Renewable Energy - solar electric generation, geothermal systems for heating, cooling & hot water; wind generation systems.

Due date for Round I Larger Enterprise & Achiever projects (\$10,000 and up) is November 30, 2017 for the following construction season (FY19). To apply visit:

NETWORK OUTAGE FRIDAY EVENING, OCT. 13

Our normal Friday evening Outage window will be extended next Friday to handle some required router and switch infrastructure upgrades. Our normal outage window is from 6-10pm on Friday nights. However, on Friday, October 13th (yes I know it is Friday the 13th, and Murphy's Law applies) we will have an extended outage going from 6pm - midnight and perhaps into the early morning Saturday. All internal networks and systems will be unavailable beginning as early as 5pm on Friday (i.e. GroupWise, Lanecc.edu, banner, myLane, SARS, Argos, and Degreeworks) so the router and switch upgrade can start at 6 PM. Please plan to finish your banner related work prior to 5pm on Friday, OCT. 13. Moodle, LaneAlerts, and Orgsync should be unaffected. Please ensure that students and staff are alerted to this outage by posting on our website, Lane Weekly, Facebook, MyLane, Orgsync, and our digital signs.

SCIENCE WEEK EVENTS, OCT.10-14

It's Earth Science Week and Lane's Science Division is sponsoring several GLOBE introductory workshops. GLOBE provides exceptional resources for teachers who wish to bring environmental data collection and analysis into their earth, life, and physical science classes, and has abundant resources for teachers (like those in Oregon!) who are implementing the Next Generation Science Standards.

The workshops in Eugene, Cottage Grove, and Florence will be essentially identical, and the workshops in Portland will focus on an introductory overview and "cloudspotting" in back to back Saturday afternoon sessions. For more information, please visit our program web page at <http://www.lanecc.edu/science/globe-program> where you will find registration links. Here are the remaining dates, times and locations:

- Tuesday, October 10 at LCC Main Campus (Bldg. 16), 4-6:30 PM
- Thursday, October 12 at LCC Florence Campus, 2-6 PM
- Saturday, October 14 at OSTA - PCC Sylvania Campus - 1-3:30 PM

These workshops are being conducted in cooperation with the GLOBE program (<http://www.globe.gov/>) and the American Geosciences Institute (AGI) as part of Earth Science Week, with more information at <http://www.earthsciweek.org>

These workshops are appropriate for teachers who've already carried out some GLOBE work, as well as those who are new to (or curious about) GLOBE. GLOBE is supported in the US by NASA, NSF, NOAA, and internationally by the State Department and science/education directorates in over 110 other nations. Pre-service teachers and informal science educators are also welcome! Please feel free to share this information in your networks, and if you have any questions, please do not hesitate to contact me for more information. Thanks and I hope to see you soon! "THE POWER OF THE PRESS; I DIDN'T REALIZE PRINTING COULD BE SO DANGEROUS!" OCT. 1-DEC. 8

Printing equipment and ephemera from the Underground Press Syndicate and other free press counter-culture newspaper movements from across the United States, circa 1963 to 1975, is a collection from the archives of Eugene area printer and social justice activist, Sean O'Reilly. The collection is on display on main campus in the Haugland Commons, on the northwest second floor corner of the Center Building. The exhibit began October 1 and runs through December 8.

O'Reilly's collection from circa 1963 to 1975 includes news articles on cultural and political topics of the time that were either not covered or suppressed by the mainstream news. Features are articles about the Weather Underground, Black Panther movement, the American

Indian Movement, the Gay Liberation movement, the Women's Liberation movement, the Vietnam War resistance movement, as well as the psychedelic drug movement. Also exhibited are selected pages from Sean O'Reilly's own FBI file from when he was under surveillance here in Eugene from 1971-75.

Many articles in the collection mirror current issues and movements. O'Reilly's message to young people now is to keep working for the positive change that you want in order to make the world a better place. DON'T GIVE UP! In our youth we were so intense and passionate about the movements we were involved in for our effort towards positive social change. However, there is still so much work to do towards peace and equality in the world. Without our continued struggle and participation, there will be no change.

A public lecture by Sean O'Reilly will be announced.

This exhibit was organized by Susan Lowdermilk, LCC Art & Applied Design Instructor, lowdermilks@lanecc.edu and Eugene Printmakers, www.eugeneprintmakers.org

DOCUMENTARY ABOUT THAI SILK KING JIM THOMPSON PREMIERES AT LCC, OCT. 20

“Who Killed Jim Thompson The Thai Silk King,” a 45-minute documentary about the disappearance and murder of OSS agent Jim Thompson in 1967, will be shown on Friday, October 20, from 7-9 p.m. in the Ragozzino Hall, Building 6, main campus. Admission is free and open to the public. Seating is first come, first seated.

The premiere is a worldwide exclusive that solves a 50 year-old mystery. Thompson was a famous American businessman who revitalized the Thai silk industry. Born in 1906, he disappeared under mysterious circumstances in 1967. (See Wikipedia at: https://en.wikipedia.org/wiki/Disappearance_of_Jim_Thompson)

“Who Killed Jim Thompson The Thai Silk King” is directed by Neil Hollander, a successful independent filmmaker who lives in Paris. He will visit Eugene to attend the premiere and give a director's talk from 11:00 a.m. to 12:30 p.m. prior to the evening premiere for Lane Community College and University of Oregon students, and members of the Asian community. His lecture is part of Lane's Media Arts Department Visiting Artist Series, now in its second year.

“Neil is a good match with our students,” says media arts faculty member Teresa Hughes. Hollander sailed around the world filming, "The Last Sailors: The Final Days of Working Sail," narrated by Orson Welles. He has worked with other celebrities including Angelica Houston and

Stacy Keach. He is noted for raising realistic budgets for his films. His commitment to filmmaking put him on the front lines of the war in Burma – filming under hostile fire. “Real bullets and real death around him,” says Mike Dilley Executive Director of the Eugene International Film Festival. Hollander has a doctorate in communications from the University of Washington. He is multilingual, and champions human rights, arts and culture, and education.

“The festival is thankful for the support received from the community to make this LCC premiere possible, and for the filmmaker’s willingness to meet with students and community members,” adds Mike Dilley.

The premiere is sponsored by Lane Community College Media Arts, the Eugene International Film Festival, the Eugene Airport, Direct Travel and Imagination International.

Time permitting, Lane may show a couple of additional short films by Lane students.

GET LANEALERT FOR FAST EMERGENCY INFORMATION

LaneAlert is the fastest way to learn about emergencies at Lane so you can be safe. You won't get LaneAlert, though, if your phone number and e-mail in myLane are out of date. Students have it figured out—a text message is absolutely the fastest way to get information.

Make sure your phone numbers and e-mail addresses are correct in myLane: login from the home page icon, go to the Personal Information menu, and select the LaneAlert Emergency Notification link. For the best communications, enter your cell number so you get text messages from LaneAlert. LaneAlert is used only for emergency safety notifications such as severe weather, school closures, and emergency warnings.

Employees are not required to opt-in for LaneAlert but it makes the most sense. The world has changed. Violence is on the rise, climate change is driving more storms. Protect yourself, your students, and your families. Get emergency information fast so you can take quick, appropriate action. INSTRUCTORS HELP THEIR STUDENTS SUCCEED

There are many ways in which instructors help their students including referring them to Tutoring Services. Fifty percent of students surveyed in our tutor centers last spring heard about tutoring from their instructors. Twenty-one percent heard about tutoring from their friends. Faculty can continue to help by encouraging students to meet in tutor centers with a study buddy or for a group study project. Look for a sticky note pad in your mailbox listing all the free drop-in centers on main campus. Liz Coleman, Tutoring Services Coordinator. www.lanecc.edu/tutor

LANE'S FIRST YEAR EXPERIENCE HAS LAUNCHED THEIR NEW PROGRAM

Lane's First Year Experience has launched their new program with 1728 new, credit, degree-seeking students!

Lane's First Year Experience (FYE) is a non-credit, tuition-free curriculum which guides first-year, degree-seeking students in their transition to and engagement with Lane Community College. Through online and in-person activities, the FYE exposes students to a variety of opportunities to help them make sound decisions in career, academic and financial arenas. Success coaches and peer mentors provide a welcoming, accessible environment (both in-person and online), where students can access resources and college success strategies, as well as identify and overcome obstacles which could impede progression and goal attainment. Completion of Lane's First Year Experience is an expectation of Lane Community College and meets the FYE requirement for certain programs, including the Oregon Promise grant.

<https://oregonstudentaid.gov/oregon-promise-recipients.aspx>

During the 2017-2018 school year, students will have the opportunity to choose from a menu of activities related to career development (assessment, exploration, jobs/internships/volunteering, etc.), academic planning (advisement, goal-setting, motivation), and financial literacy (budgeting, understanding credit/loans, forecasting). Students will also receive weekly messages through Moodle containing timely information about Lane processes and opportunities as part of an ongoing orientation process. Lane's FYE does not take the place of existing services, courses or resources on the Lane campus. Instead, our mission is to connect students in meaningful and timely ways to all the goodness Lane has to offer!

For more information, watch for our website updates (coming soon) at

<https://www.lanecc.edu/firstyearexperience> or visit us in Building 1, Room 103 (FYE is co-located with Counseling and Career), call (541) 463-5771, or email

ARE THE ARTS VALUABLE TO OUR COMMUNITY?

A recent national study provides evidence that the arts and culture sector in Eugene is a significant industry generating \$62 million in total economic activity annually, and supports 2,400 full-time equivalent jobs. This impact is twice as significant to the Eugene economy compared to the median of similarly sized regions around the country. The study lays to rest the misconception that communities support arts and culture at the expense of local economic development. In fact, communities like Eugene that support the arts and culture not only enhance their quality of life—they also invest in their economic well-being. The arts mean business in the City of Eugene!

See what the Arts and Business Alliance of Eugene has to say about it at:

GOT A GREEN ENTERPRISE OR ACHIEVER PROJECT? NEED \$10K OR MORE? APPLY BY NOVEMBER 30 to LANE'S LIVING GREEN LOAN FUND

Planning for an office or classroom remodel or executing a major capital project to transform lives through learning? Unsure how to integrate the college's Sustainability core value?

Go to <https://www.lanecc.edu/sustainability/living-green-fund-request-form> to apply for resource wise Green Enterprise or Achiever project money and technical assistance from Lane's Living Green Revolving loan Fund and the Institute for Sustainable Practices.

Did you know that integrating sustainable measures can result in money saved from technology to use energy, water, or solid resources more effectively (efficiency) or by the implementation of a change in behavior to use less (conservation)? That's the key to how our Living Green loan fund works. The money not spent to purchase utility or waste hauling resources for a standard system due to the savings for installing energy efficient, water conserving, or waste reduction measures will be used to pay for the project's costs. During the rest of the life of the project the savings will be used to help the college fund other resource wise projects.

Check out some examples of measures eligible for a Lane's Living Green Revolving Loan:

- Water Efficiency - low flow water fixtures, dish washers, rain water harvesting, storm water systems, pervious pavement, etc.
- Energy Efficiency - efficient lighting; day-lighting, LED lighting, lighting controls, plug load controls; timers, occupancy sensors, heating/cooling, refrigeration, equipment and/or controls. Insulation, weather-stripping, etc. Active or passive solar thermal solar heating and/or cooling systems.
- Resource Efficiency/Materials Management & Purchasing - furniture; composting/recycling systems; paper management systems, etc.
- Renewable Energy - solar electric generation, geothermal systems for heating, cooling & hot water; wind generation systems.

Due date for Round I Larger Enterprise & Achiever projects (\$10,000 and up) is November 30, 2017 for the following construction season (FY19). To apply visit:

MINI AUSTRALIAN SHEPHARD – Female, 9 years old, spayed, all shots current, about 20 lbs. Life changes mean my daughter has had to move to an apartment that does not take pets. The dog is (was) house trained but has access to a doggie door the last several years. She is good around kids and cats, but after being attacked by larger dogs twice in her life should not be around larger animals. I would take her myself, but my yard is not fenced and neighbors have large dogs that often intrude. If interested, please email me at bells@lanecc.edu .

ENROLLMENT

ENROLLMENT TIP OF THE WEEK

Mid-term grades and progress reports are critical tools for student success because they provide valuable information to students about their progress. If you're an instructor, be sure that your students know their grades so those who may need extra assistance still have time to seek help from the many resources available. Regardless of your role on campus, you play a part in fostering a supportive learning environment by helping students feel connected and invested in the college experience, so ask students how they are doing with their classes. Submitted by Deborah Butler.

GET LANEALERT FOR FAST EMERGENCY INFORMATION

LaneAlert is the fastest way to learn about emergencies at Lane so you can be safe. You won't get LaneAlert, though, if your phone number and e-mail in myLane are out of date. Students have it figured out—a text message is absolutely the fastest way to get information. Make sure your phone numbers and e-mail addresses are correct in myLane: login from the home page icon, go to the Personal Information menu, and select the LaneAlert Emergency Notification link. For the best communications, enter your cell number so you get text messages from LaneAlert. LaneAlert is used only for emergency safety notifications such as severe weather, school closures, and emergency warnings. Employees are not required to opt-in for LaneAlert but it makes the most sense. The world has changed. Violence is on the rise, climate change is driving more storms. Protect yourself, your students, and your families. Get emergency information fast so you can take quick, appropriate action. INSTRUCTORS HELP THEIR STUDENTS SUCCEED

There are many ways in which instructors help their students including referring them to Tutoring Services. Fifty percent of students surveyed in our tutor centers last spring heard about tutoring from their instructors. Twenty-one percent heard about tutoring from their friends. Faculty can continue to help by encouraging students to meet in tutor centers with a study buddy or for a group study project. Look for a sticky note pad in your mailbox listing all the free drop-in centers on main campus. Liz Coleman, Tutoring Services Coordinator. www.lanecc.edu/tutor.

ACHIEVING THE DREAM

In follow-up to our message last week, Achieving the Dream at Lane (Dream) continues to focus on enhancing student success. As some of you may remember from spring, we asked members of the college community to complete a survey of Institutional Capacities (ICAT) and engage in subsequent discussions of the survey results with our Dream Coaches. Those results and notes from the discussions are posted on the Dream site

<https://www.lanecc.edu/planning/institutional-effectiveness-committee> .

ICAT results and participant discussions indicated that an area for improvement was for Lane to build Data and Technology capacity. Over the past couple years we have regularly published Timely Information to Promote Student Success (TIPSS) in order to share important student success data. The current TIPSS introduces the Key Performance Indicators (KPIs) that Dream will use to guide student success efforts. The data related to these KPIs will be the focus of an upcoming Dream Coaches visit and open conversations on Oct. 30 & 31. Please watch for more information. Submitted by The Dream Core Team.

LANE'S FIRST YEAR EXPERIENCE HAS LAUNCHED ITS NEW PROGRAM

Lane's First Year Experience has launched their new program with 1728 new, credit, degree-seeking students!

Lane's First Year Experience (FYE) is a non-credit, tuition-free curriculum which guides first-year, degree-seeking students in their transition to and engagement with Lane Community College. Through online and in-person activities, the FYE exposes students to a variety of opportunities to help them make sound decisions in career, academic and financial arenas. Success coaches and peer mentors provide a welcoming, accessible environment (both in-person and online), where students can access resources and college success strategies, as well as identify and overcome obstacles which could impede progression and goal attainment. Completion of Lane's First Year Experience is an expectation of Lane Community College and meets the FYE requirement for certain programs, including the Oregon Promise grant.

<https://oregonstudentaid.gov/oregon-promise-recipients.aspx>

During the 2017-2018 school year, students will have the opportunity to choose from a menu of activities related to career development (assessment, exploration, jobs/internships/volunteering, etc.), academic planning (advisement, goal-setting, motivation), and financial literacy (budgeting, understanding credit/loans, forecasting). Students will also receive weekly messages through Moodle containing timely information about Lane processes and opportunities as part of an ongoing orientation process. Lane's FYE does not take the place of existing services, courses or resources on the Lane campus. Instead, our mission is to connect students in meaningful and timely ways to all the goodness Lane has to offer!

For more information, watch for our website updates (coming soon) at

<https://www.lanecc.edu/firstyearexperience> or visit us in Building 1, Room 103 (FYE is co-located with Counseling and Career), call (541) 463-5771, or email

ARE THE ARTS VALUABLE TO OUR COMMUNITY?

A recent national study provides evidence that the arts and culture sector in Eugene is a significant industry generating \$62 million in total economic activity annually, and supports 2,400 full-time equivalent jobs. This impact is twice as significant to the Eugene economy compared to the median of similarly sized regions around the country. The study lays to rest the misconception that communities support arts and culture at the expense of local economic development. In fact, communities like Eugene that support the arts and culture not only enhance their quality of life—they also invest in their economic well-being. The arts mean business in the City of Eugene!

See what the Arts and Business Alliance of Eugene has to say about it at:

GOT A GREEN ENTERPRISE OR ACHIEVER PROJECT? NEED \$10K OR MORE? APPLY BY NOV. 30 to LANE'S LIVING GREEN LOAN FUND

Planning for an office or classroom remodel or executing a major capital project to transform lives through learning? Unsure how to integrate the college's Sustainability core value?

Go to <https://www.lanecc.edu/sustainability/living-green-fund-request-form> to apply for resource wise Green Enterprise or Achiever project money and technical assistance from Lane's Living Green Revolving loan Fund and the Institute for Sustainable Practices.

Did you know that integrating sustainable measures can result in money saved from technology to use energy, water, or solid resources more effectively (efficiency) or by the implementation of a change in behavior to use less (conservation)? That's the key to how our Living Green loan fund works. The money not spent to purchase utility or waste hauling resources for a standard system due to the savings for installing energy efficient, water conserving, or waste reduction measures will be used to pay for the project's costs. During the rest of the life of the project the savings will be used to help the college fund other resource wise projects.

Check out some examples of measures eligible for a Lane's Living Green Revolving Loan:

- Water Efficiency - low flow water fixtures, dish washers, rain water harvesting, storm water systems, pervious pavement, etc.
- Energy Efficiency - efficient lighting; day-lighting, LED lighting, lighting controls, plug load controls; timers, occupancy sensors, heating/cooling, refrigeration, equipment and/or controls. Insulation, weather-stripping, etc. Active or passive solar thermal solar heating and/or cooling systems.
- Resource Efficiency/Materials Management & Purchasing - furniture; composting/recycling systems; paper management systems, etc.
- Renewable Energy - solar electric generation, geothermal systems for heating, cooling & hot water; wind generation systems.

Due date for Round I Larger Enterprise & Achiever projects (\$10,000 and up) is Nov. 30, for the following construction season (FY19). To apply visit:

Oftentimes, there is a worry that a student's accommodations will compromise the integrity of a course. When providing accommodations, it is important that the essential learning outcomes of courses are still met. Providing accommodations are meant to give equal opportunity to the student to participate in the course. Students with accommodations should be graded as you would grade any other student. NEWS AND ANNOUNCEMENTS

FLU SEASON HAS BEGUN IN OUR AREA

PLEASE SLOW DOWN ON CAMPUS ROADWAYS AND IN CAMPUS LOTS

This past week we had the first person this term, lose control of their vehicle and slide into a ditch off of Gonyea. The driver suffered a black eye and her vehicle was totaled.

Please slow down when driving into campus and especially when coming in on Gonyea Road, (the lower campus access roadway).

Last year there were several accidents including a roll over and a vehicle that had the entire driver's side banged up.

In an effort to slow down cars on both Eldon Schaeffer and Gonyea, Public Safety has started the random deployment of patrol units each morning and has also started integrating RADAR in their patrol vehicles.

Save yourself, be mindful of others, and please slow down on the way to and from campus and while at LCC. FYI, on campus, speed limits are 15 MPH and should always be adjusted for pedestrians and road/weather conditions.

Thank you from Public Safety. For more information call ext. 5558.

https://video.lanecc.edu/media/Chinuk+Wawa+phrase+of+week+5/0_upnqt6g6

Jerome Viles and Dr. Henry Zenk helped with this week's phrase. Hayu masi, nsayka munk-kəmtəks-tilixam! (Thank you, teachers!)

KLCC REACHES \$300,000 FALL GOAL

KLCC completed its ambitious fall drive on October 18 at 9 a.m. Approximately 75% of the goal was raised during the 3 week "Stealth Drive" -- an under-the-radar method of fundraising that does not interrupt programming. The remaining 25% was raised on air with just 10 hours of a traditional pledge drive. KLCC listeners have highly embraced the Stealth Drive as a welcome alternative to week-long on air drives of the past. This was KLCC's largest Stealth Drive goal to date, achieved with minimal interruption of KLCC and NPR's quality programming. KLCC is grateful to the listening community for its continued support. Submitted by Gayle Chisholm.

ARTIST-IN-RESIDENCE CLOSING RECEPTION, SCREENING, PERFORMANCE, NOV. 9

Current artist-in-residence, Laura Elayne Miller, presents "Reading A Wave," a series of artworks inspired by Italo Calvino's novella, "Mr. Palomar" at 6:30 p.m. Thursday, Nov. 9 in the atrium of Building 10. Miller, an interdisciplinary artist based in Oakland, has spent the past few weeks working with students and in the community as part of Lane's President's Lecture Series. The series seeks to enrich the educational experience of students and the greater community through connections with visiting scholars and experts in their field. The event is free and open

to the public. A reception with light refreshments will follow the performance. From the artist's statement: "The project is about the impossibility of isolation: of a wave, of a moment, of oneself from the external world. It is reflective and investigative of the spaces between labor and meditation, divergence and convergence, physical and perceived space. Through sculptural installation, video, dance, and cyanotype photography, the complexities of the ocean are revealed through the singularity of its details." The event is free and open to the public. SHINING STAR SCHOLARSHIP OPEN TO ALL STUDENTS

The LCC Foundation's Shining Star Scholarship is open to all LCC students, regardless of their program. If they are studying a career technical education program, or they intend to transfer to a university, the Shining Star Scholarship can be available to those students. This year 838 students applied for the Shining Star Scholarship, unfortunately, the Foundation was only able to award 78 Shining Star Scholarships. Everyone who works at LCC know that financial need is the often the greatest obstacle our students struggle with to earn their education. You can do something about it. Support the Shining Star Scholarships through the annual employee giving campaign. Make a payroll deduction or a one-time only gift, but make a gift to help support LCC students today.

Meet Shining Star Scholarship recipient Katrina. Katrina is a second-year student who intends to transfer to Oregon State with the hope of going on to veterinary school. She says that becoming a veterinarian has always been her dream. Besides being a full-time LCC student, Katrina volunteers with Pro-Bone-O, a local non-profit that provides veterinary services to the pets of the homeless. When students are having difficulties in your course, but it is unclear if they have a disability, it is important that faculty do not assume or ask the student directly if they have a disability. The following handout provides examples of how to suggest CAR to students:

GREETINGS Lane employees and fellow co-workers: A month ago my 15 month grandson fell off his bear chair landing on the back of his head. During the fall he also fractured his skull and a bleed between the brain and skull. He was Life-Flighted to OHSU, to have surgery to stop the bleed. This saved his life. The doctor who performed the surgery said if my daughter had not taken him in, he would have died. Very scary circumstances. Hawkin's mom is off work now to care for him; Dr.'s orders 6-8 weeks. We have set up a go-fund me account if anyone would like to help out with medical bills. The account is at gofundme.com under "Helping Hawkins." If you questions please email me at ekbergm@lanecc.edu Thank you. Grandma Marsha.

SHINING STAR SCHOLARSHIP FUNDED BY EMPLOYEE GIVING

Kala, a second-year nursing student is a LCC Foundation Shining Star Scholarship recipient. Kala was inspired to become a nurse after having three different surgeries at a Shriners Hospital. She says the kindness and the compassion the nurses showed her inspired to want to become a nurse herself. After completion of her studies at LCC, Kala wants to begin her nursing career in the ICU. She says having a scholarship has helped lessen her financial stress and allowed her to concentrate more on her studies. See Kala's story:

<https://www.youtube.com/watch?v=SSF4VOYs9jY>

The LCC Foundation's Shining Star Scholarship is open to all LCC students, regardless of their program. If they are studying a career technical education program, or they intend to transfer to a university, the Shining Star Scholarship can be available to those students. This year 838 students applied for the Shining Star Scholarship, unfortunately, the Foundation was only able to award 78 Shining Star Scholarships. Everyone who works at LCC knows that financial need is the often the greatest obstacle our students struggle with to earn their education. You can do something about it. Support the Shining Star Scholarships through the annual Employee Giving Campaign. Make a payroll deduction or a one-time only gift, but make a gift to help support LCC students today.

The quickest way to make an employee campaign gift is online, please make your gift now.

CENTER FOR ACCESSIBLE RESOURCES TIP: The Purpose of Accommodations

The accommodations listed on a student's Letter of Accommodation (LOA) are designed to provide access to the classroom environment and learning materials. They are not meant to give the student an extra advantage or alter learning outcomes. Some students may exhibit their knowledge and other course expectations differently than their peers. For example, a student with a learning disability may read at a much slower rate than their peers. Thus, extra time to take an exam helps ensure the test is assessing the student's knowledge, and not their reading speed. Learn more about our website at <https://www.lanecc.edu/disability/car-101-faculty>. Submitted by: Keelie Daquilanto, ext. 3255, daquilantok@lanecc.edu

SHINING STAR SCHOLARSHIP FUNDED BY EMPLOYEE GIVING

Kala, a second-year nursing student is a LCC Foundation Shining Star Scholarship recipient. Kala was inspired to become a nurse after having three different surgeries at a Shriners Hospital. She says the kindness and the compassion the nurses showed her inspired to want to become a nurse herself. After completion of her studies at LCC, Kala wants to begin her nursing career in the ICU. She says having a scholarship has helped lessen her financial stress and allowed her to concentrate more on her studies. See Kala's story:

<https://www.youtube.com/watch?v=SSF4VOYs9jY>

The LCC Foundation's Shining Star Scholarship is open to all LCC students, regardless of their program. If they are studying a career technical education program, or they intend to transfer to a university, the Shining Star Scholarship can be available to those students. This year 838 students applied for the Shining Star Scholarship, unfortunately, the Foundation was only able to award 78 Shining Star Scholarships. Everyone who works at LCC knows that financial need is the often the greatest obstacle our students struggle with to earn their education. You can do something about it. Support the Shining Star Scholarships through the annual Employee Giving Campaign. Make a payroll deduction or a one-time only gift, but make a gift to help support LCC students today.

The quickest way to make an employee campaign gift is online, please make your gift now.

CENTER FOR ACCESSIBLE RESOURCES TIP: The Purpose of Accommodations
The accommodations listed on a student's Letter of Accommodation (LOA) are designed to provide access to the classroom environment and learning materials. They are not meant to give the student an extra advantage or alter learning outcomes. Some students may exhibit their knowledge and other course expectations differently than their peers. For example, a student with a learning disability may read at a much slower rate than their peers. Thus, extra time to take an exam helps ensure the test is assessing the student's knowledge, and not their reading speed. Learn more about our website at <https://www.lanecc.edu/disability/car-101-faculty>. Submitted by: Keelie Daquilanto, ext. 3255, daquilantok@lanecc.edu

NEWS AND ANNOUNCEMENTS

LCC PUBLIC SAFETY HONORED WITH REGIONAL CAMPUS LAW ENFORCEMENT AWARD

Lane Community College Public Safety has received the 2017 Department of the Year Award from the Western Association of Campus Law Enforcement Administrators at the association's recent conference in Portland. WACLEA is a campus police and security association serving Oregon, Washington, Idaho, Montana, Alaska, and British Columbia.

LCC Chief of Public Safety and Director of Emergency Preparedness Jace Smith accepted the award on behalf of his highly trained and dedicated team of about 30 full-time and part-time professionals as well as numerous college and high school students.

LCC Public Safety collaborates with college departments and community agencies to provide a safe learning and working environment. On campus, the department maintains safety systems, responds to criminal, fire, and medical incidents, enforces laws and regulations, and conducts safety and emergency training. The department partners with Lane's criminal justice program on a cadet program for students, and founded an Egan Warming Center on main campus for homeless students and others in need of shelter on freezing nights. The department has responded to a variety of incidents on campus and off, including a tornado on main campus in April 2015 and assisting Umpqua Community College in the aftermath the shooting in October 2015. Many of its staff are trained EMTs; one is a national expert in chemical hazardous materials response.

The department partners with agencies including the Lane County Sheriff's Office, Oregon State Police, Drug Enforcement Administration, Federal Bureau of Investigation, and other law enforcement and fire response agencies across the state.

Smith has been with the college since 2010. Prior to Lane he oversaw security for several hospitals in the private sector, led police officers with Minneapolis Police, worked in student affairs at the University of Wisconsin, and has been a consultant and lecturer. He has a master of arts in public policy from the University of Minnesota, a certificate in law enforcement from Metropolitan State University, and a bachelor's degree in political science and national security policy from Ohio State University. NEWS AND ANNOUNCEMENTS

LCC PUBLIC SAFETY HONORED WITH REGIONAL CAMPUS LAW ENFORCEMENT AWARD

Lane Community College Public Safety has received the 2017 Department of the Year Award from the Western Association of Campus Law Enforcement Administrators at the association's recent conference in Portland. WACLEA is a campus police and security association serving Oregon, Washington, Idaho, Montana, Alaska, and British Columbia.

LCC Chief of Public Safety and Director of Emergency Preparedness Jace Smith accepted the award on behalf of his highly trained and dedicated team of about 30 full-time and part-time professionals as well as numerous college and high school students.

LCC Public Safety collaborates with college departments and community agencies to provide a safe learning and working environment. On campus, the department maintains safety systems, responds to criminal, fire, and medical incidents, enforces laws and regulations, and conducts safety and emergency training. The department partners with Lane's criminal justice program on a cadet program for students, and founded an Egan Warming Center on main campus for homeless students and others in need of shelter on freezing nights. The department has responded to a variety of incidents on campus and off, including a tornado on main campus in April 2015 and assisting Umpqua Community College in the aftermath the shooting in October 2015. Many of its staff are trained EMTs; one is a national expert in chemical hazardous materials response.

The department partners with agencies including the Lane County Sheriff's Office, Oregon State Police, Drug Enforcement Administration, Federal Bureau of Investigation, and other law enforcement and fire response agencies across the state.

Smith has been with the college since 2010. Prior to Lane he oversaw security for several hospitals in the private sector, led police officers with Minneapolis Police, worked in student

affairs at the University of Wisconsin, and has been a consultant and lecturer. He has a master of arts in public policy from the University of Minnesota, a certificate in law enforcement from Metropolitan State University, and a bachelor's degree in political science and national security policy from Ohio State University. EMPLOYEE GIVING CAMPAIGN

"No act of kindness, however small, is ever wasted." – Aesop

Thank you all for your involvement in this year's employee giving campaign, your support of scholarships, services, and programs at LCC is appreciated.

Participation in employee giving can be an ongoing gift through payroll deduction or a one-time only gift, whatever participation means to you.

Gifts to the Foundation can be directed to specific scholarship funds depending on your interests. For example, the Carol Lynn Morse Memorial Scholarship is awarded each year to a student who is a parent with young children. Dr. Carol Lynn worked in the Lane Counseling Department for more than 35 years, touching countless lives and proving support to families and students throughout Lane County. After her death in 2004, the community banded together to create a memorial scholarship in her name, honoring her legacy and commitment to the success of Lane students. Thanks to generous donors like you, the Carol Lynn Morse Memorial Scholarship fund reached endowment level.

Congratulations to Margaret Robertson, Advanced Technology Division, and Gayle Smith, Mathematics, the most recent winners of those participating in the annual employee giving campaign. Gayle won a Winter term membership to the Fitness Education Center, and Margaret won a Thanksgiving themed

gift basket. The last prize drawing will be Thursday, November 30. The next set of prizes includes lunch for two at the Renaissance Room and a Holiday themed gift basket. You have to participate to be able to win. Contact: Phillip Hudspeth, ext. 5898.

GIVING TREE HELPS THE CHILDREN OF LANE STUDENTS

Thanks to all of you who have taken names off the Giving Tree. Presents are rolling in. Please make sure to have your gift returned to either the Multicultural Center or to the Gender Equity Center no later than Monday, Dec. 4, so that students can get their gifts picked up by the end of finals week. Your generosity is truly appreciated very much.

The Giving Tree is located in Building 1, second floor, and still has name tags of the children of our students. If you can, please grab a name and return the unwrapped gifts to the location on the tag no later than Dec. 6 (finals week). Parents have a harder time traveling in to campus to get their gifts after finals week.

The Giving Trees is a cooperative effort between the Multicultural Center/Clothing Stash and The Gender Equity Center. If you have any questions please contact either Tina Lymath at ext. 5336 or Marci Parker at ext. 5352. Your generosity and caring is much appreciated.

WINTER BREAK IS ALMOST HERE

Break can be a time to rest, rejuvenate, and spend time with family and friends. It's also the time of year to take good care of yourself. Avoid getting the winter crud by getting plenty of rest, drink lots of fluids, keep active, and wash your hands frequently. It can be easy to want to veg out during the break, but even a brisk walk every day can help keep you healthy. It's not too late to get your flu shot! Make an appointment at the health clinic before the break starts, and your travels begin. Submitted by: Rhonda Johnson.

CENTER FOR ACCESSIBLE RESOURCES TIP: Grading Considerations

At the end of the term, faculty often wonder how to grade students who have a disability. Students with disabilities should be held to the same evaluation and grading standards as those for all other students. Therefore, you should grade the work of a student who has a disability as you would grade the work of any other student. These guidelines apply whether or not a student utilizes CAR resources. See the CAR Website for more information:

ENROLLMENT

ENROLLMENT TIP

On-time submission of grades is important so that students can receive timely notification of barriers to financial aid or enrollment in future terms. Satisfactory Academic Progress Standards (SAPS) for federal financial aid eligibility and Lane's own Academic Progress Standards are determined only after all grades have been entered. Notifying students early about challenges to their eligibility gives them ample time to take action so they can stay on track toward their academic goals. A big thank you to faculty and support staff for their work to enter grades on time every term, which enables the college to better address potential barriers to student success. Submitted by Deborah Butler.

ENROLLMENT DATA UPDATE

As of December 4, continuing students accounted for 89.5% of all winter registrations, up from 88.7% last year at this time. Total registrations still are down at 3.8% but the unduplicated student headcount is only down 2.2% compared to this same point in time last year. Finishing up fall 2017, total registration for all courses are down 1.8% and unduplicated student headcount is down 2.4% however, College Now registrations are up 5.7% compared to fall 2016. Credit (non-College Now) registration status for fall 2017 is down 6.3% from last year and winter 2018 is down 3.1% from last year. Contact: Craig Taylor at taylorc@lanecc.edu

7,000 MORE STUDENTS WILL NOW GET LANEALERT TEXTS

President Hamilton recently asked for a briefing on how Lane deals with weather closures. This included a discussion of the LaneAlert emergency messaging system and the increasing need to reach students by text, although the college cannot legally require students to provide cell numbers. Dawn Barth and Pat Griffith took another look at the system and reasoned that most home numbers these days were probably cell numbers. A test verified that about 80% of student home numbers were in fact cell numbers. Originally, pulled only cell numbers for text messages. Pat wrote new code to pull home numbers as well. Now, nearly 7,000 more students will get LaneAlert texts about emergencies or safety issues. Submitted by the editor.

CENTER FOR ACCESSIBLE RESOURCES TIP: Universal design for winter term.

Are you preparing course materials for Winter Term? This is a great time to incorporate universal design elements into your curriculum! Universal design makes as many products and environments as possible usable by most students regardless of age, ability, or situation. For example, posting detailed notes to a website (such as Moodle) is a universal design strategy. Other universal design strategies include captioning videos, using accessibility checkers on programs like Microsoft Word and PowerPoint, using visual and tactile aids, and encouraging cooperative learning. NEWS AND ANNOUNCEMENTS

BOARD ENDORSES MEASURE 101

In a unanimous vote, the Lane Community College Board of Education passed a resolution endorsing a “yes” vote on Measure 101 at its Dec. 14 meeting.

“Oregon’s public schools have been on a financial starvation diet for too long,” said LCC Board Chair Rosie Pryor. “Last year we had to close a \$10 million gap in LCC’s budget. If Measure 101 fails, it’s estimated that over 350,000 Oregonians could lose their access to health care. But it will also have a domino effect on other budgets—including Lane’s.”

According to the Oregon Secretary of State’s office, If the measure is defeated there would be a reduction of \$210-\$320 million in state revenue, resulting in a possible reduction of \$630-\$960 million or more in federal Medicaid matching funds. The total revenue reduction to the 2017-19 state budget may be \$840 million-\$1.3 billion or more.

Such a reduction in the state budget would seriously threaten funding for education, said the board, besides harming health care for students and the community.

ATTENTION INB (INTERNET NATIVE BANNER) USERS

Do you have certain Banner programs that you run on a regular basis? Perhaps first thing in the morning when you get in? Or once a week or once a month? We now have a way to automate the running of most programs and schedule them to run at intervals that you choose. Ideally, these would be programs that run with most, if not all, parameters the same each time you run the program. If some parameters vary we still may be able to automate them; depending on what parameters vary. Also, if you have a series of programs that you run back to back, we can probably automate them to run, one after the other too! For any of the automated runs, we can send you an email (perhaps send a txt too) when they have completed and/or if we detect that they ran but had errors.

If you think you have something to automate and/or have questions about what is involved, please call Lee Hallin in IT at x3356.

OREGON TRANSFER DAYS, JAN. 17.

Lane is hosting the Oregon Transfer Day on Wednesday, January 17 from 10 a.m. to 1 p.m. in the Northwest Commons area of Center Building second floor. About 20 college admissions reps will be available to help students explore their four-year college options and apply for admission.

Transfer Days is a collaborative effort of Oregon's two-year colleges and four-year universities to help community college students learn how to transfer, whether they are actively planning to transfer, or just starting to consider their four-year degree opportunities.

Students will have the opportunity to meet with college and university representatives, and will learn more about each campus's offerings, admissions requirements, choosing courses wisely, navigating college costs and financial aid, and tools to make their transition as seamless as possible.

Oregon Transfer Days runs from January 16 to February 1 statewide. The tour is administered by a task force of Oregon Association of Collegiate Registrars and Admissions Officers (ORACRO).

More information is online at <http://oracrao.org/oregon-transfer-days>

ATTENTION INB (INTERNET NATIVE BANNER) USERS

Do you have certain Banner programs that you run on a regular basis? Perhaps first thing in the morning when you get in? Or once a week or once a month? We now have a way to automate the running of most programs and schedule them to run at intervals that you choose. Ideally, these would be programs that run with most, if not all, parameters the same each time you run the program. If some parameters vary we still may be able to automate them; depending on what parameters vary. Also, if you have a series of programs that you run back to back, we can probably automate them to run, one after the other too! For any of the automated runs, we can send you an email (perhaps send a txt too) when they have completed and/or if we detect that they ran but had errors. ``

If you think you have something to automate and/or have questions about what is involved, please call Lee Hallin in IT at x3356. ``
