

TAX LEVY REDUCED 14%

NEXT SCHOOL YEAR AT LCC

- About 52% more individuals expected to enroll
- 14% less local property tax asked

Voters are being asked next Thursday, June 1, between the hours of 2 p.m. to 8 p.m., to approve an operating property tax levy of \$490,000 for next college year at LCC.

The total is 14 per cent less than this year's operating levy. It is 11½ per cent less than the proposed \$553,828 tax levy which voters vetoed at the May 1 election by a 10,773 to 9,423 vote.

The sharp cut comes in spite of a predicted 52 per cent increase in individuals expected to enroll next college year as full and part-time students. (See table at left.)

HOW HAS THE REDUCTION BEEN MADE?

Prior to the May 1 election the Budget Committee moved nearly all of the capital outlay items to the continuing levy fund. After the May 1 tax levy defeat, the Committee reduced the proposed operating fund tax levy another \$63,828 by adjusting administrative positions and salaries \$7,707, reducing the contingency fund \$20,000, taking advantage of a \$27,400 windfall in new state appropriations, and reducing the amount allowed for uncollected taxes \$8,721 because of the lower proposed levy.

WHAT IS IN NEXT YEAR'S OPERATING BUDGET?

Most of the money (75.5 per cent) goes to finance activities directly related to instruction--such as teacher salaries and teaching supplies. In contrast to most of Oregon's public schools, there were no overall faculty salary adjustments this year at LCC. The college next year is operating according to the same salary guide as this year.

The remainder of the operating funds underwrite the administrative and business offices, utilities and maintenance. None of this operating levy will go toward construction of the new 30th Avenue campus.

WHAT WILL PASSAGE OF THIS LEVY COST IN LOCAL PROPERTY TAXES?

The owner of a home worth \$16,000 would contribute about 1.36 mills for the operating fund next fiscal year. This is expected to cost \$5.44, which is \$1.36 less than the same homeowner is paying this college year to underwrite LCC's operating expenses. (It should be pointed out that voters previously approved capital construction levies which amount to an estimated 2.5 mills outside of this proposed operating fund levy.)

WHO DEVELOPED LCC'S BUDGET FOR NEXT YEAR?

The reduced operating budget represents the thinking of a 14-member committee of property owners. They spent five sessions reviewing and revising an initial proposal presented by the college president and clerk-controller.

Members are: Chairman Robert Campbell of Eugene, administrator with Lane Human Resources Inc.; Vice Chairman Marie Mull of Eugene, homemaker; Secretary Roger Detering, Harrisburg farmer; Johan Mehlum, Mapleton banker; Charles Stewart, Eugene accountant; Richard Williams of Eugene, hospital administrator; Carlton Woodard, Cottage Grove corporation executive.

Also on the budget committee are members of the college Board, including: Chairman Lyle Swetland, Eugene printer; Vice Chairman Dean Webb, Cottage Grove dentist; Robert Ackerman, Springfield attorney; Albert Brauer, Florence physician; William Bristow Jr., Eugene jeweler; Olga Freeman, retired public official; Clifford Matson, Junction City dentist.

Leaders call for voter support

Dale Parnell
President
Lane Community College

The citizens of the college district have demonstrated many times and in many ways their overwhelming support of LCC.

I am optimistic that people will approve this operating tax levy if the facts can become widely known. Experience indicates that citizens will support a public agency when they know the problems and needs of the public body.

The elected Board and appointed Budget Committee members have spent many hours deliberating and developing the 1967-68 proposed College budget and proposed property tax levy to balance this budget. These people are solid citizens giving freely of their time and they are known for their wise use of the dollar.

In view of the fact that the 1967-68 LCC unduplicated headcount enrollment is anticipated to increase by 52% for 1967-68 and the operating fund tax levy to support this enrollment is anticipated to decrease by 14% (largely made possible by increased State appropriations) it seems likely that the citizens will approve this proposition.

The major problems in this election appear to be lack of suf-

Lyle Swetland
Chairman, Board of Education
Eugene printer

I am proud to be connected with LCC. During the past three years as a member of the Board of Education, I have seen the development of programs that in terms of dollars have been real bargains. The offerings at LCC fill many needs for people in business and industry. Meeting these needs is a must for the area. I urge the voters to support with a 'yes' vote the levy election June 1.

If all the people knew the facts and the values received from this kind of educational program, there could be little doubt as to the positive support.

Lack of concern or indifference could cause a negative vote which would seriously hamper the fine start that LCC has made.

Be concerned and vote on June 1, 1967.

Efficient concern by the average citizen and difficulty in informing the citizen on the needs of LCC. It appears from this prospective the election result will be determined in large measure by the extent to which these two problems can be surmounted.

This means that staff and friends of LCC must develop concerns strong enough to stir them to action during the next seven days.

Robert Campbell
Chairman of Budget Committee,
Chief of Manpower Programs
Lane Human Resources, Inc.

I urge voters to approve LCC's operating expense levy on June 1. There is a critical unemployment rate in Lane County of well over six per cent. The jobs are available but workers haven't the training to fill them. It is particularly appropriate that we do all we can to help our people meet the demands of the labor market.

In providing technical training, the Board of Education and administration of LCC are doing an outstanding job of blending conservative spending with meeting the most crucial needs. I can do nothing but commend them for their efforts at making only necessary expenditures while carefully screening out the unnecessary. This is evident in the June 1 request for less operating money for next year than the present year, in spite of an expected increase in students enrolled. This kind of attempt to stretch tax dollars deserves our support.

**Be sure
to vote
June 1**

ADULT EDUCATION PROGRAM (USUALLY EVENING CLASSES)

THESE CLASSES DO NOT CARRY COLLEGE CREDIT

FORUM, PUBLIC EVENTS, GENERAL EDUCATION

Part of the function of the Adult Education Office is to establish and maintain a college forum and public events program. The general philosophy is to offer informational and service programs of quality to the lay as well as college community. Some examples of the programs provided are lectures of national acclaim in academic and occupational areas; information on job search; veterans rights and responsibilities; and information on common areas of interest to assist the process of day-to-day living. This facet of the Office of Adult Education will supply the administrative vehicle for cooperating with any public or private agency or group to facilitate arrangements for speakers, displays, and other events. The scope of this function of the Office of Adult Education is always available for utilization and suggestion. The breadth of participation is limited only by quality and good taste. Possible future events are a family information series, trade fairs and occupational displays, and political events of originality.

ADULT EDUCATION

The Adult Education Program offers certain regular classes each year, but is always willing and usually able to establish classes in any demand area. Classes are set up where the greatest number of people reside when a sufficient number are interested. The administration would rather send a teacher to the group than bring the group to the teacher. Persons interested in taking classes through the Adult Education Program should remember that in addition to all the classes listed in the catalog, classes to meet a group's needs will be started anywhere in the district and at any time of day or night.

Enrollment in the Adult Education Program is open to anyone interested in learning for his or her own benefit except in certain areas which are covered by specific prerequisites.

Class schedules are available prior to the start of each term. The basic program is similar from year to year. The specific course presented at any one time may vary from those given in the previous term.

HIGH SCHOOL COMPLETION PROGRAM

The High School Completion Program offers the opportunity for people who have not completed high school to enter into a program leading to a diploma. Primarily, the program is limited to persons 19 years of age or older.

APPRENTICE TRAINING

Lane Community College Adult Education Program cooperates with the State Division of Vocational Education and the state and federal Bureaus of Labor through the State Apprenticeship and Training Council in conducting classes. Classes are established upon the request of the local trade committee when such a committee notifies the school that it has a sufficient number of indentured apprentices to justify a class.

Included in the apprenticeship programs are the following trades:

Carpentry
Floor Covering
Industrial Maintenance Electrician
Inside Wireman
Maintenance Electrician
Meterman
Painters
Plasterer
Plumber
Power Lineman
Roofers
Sheet Metal
Station Wireman
Steamfitter

Counseling and Guidance Services. One of the advantages offered by Lane Community College is having counselors available to help students in planning toward maximum self-development. Counselors are continuously and conveniently available to all who are seeking educational and vocational guidance.

SPECIAL MANPOWER

OCCUPATIONAL TRAINING PROGRAMS

Auto Service Mechanics	16 weeks
Bookkeeping	24 weeks
Building Maintenance	6 weeks
Clerk-Steno	36 weeks

Teacher Aides	36 weeks
Welding	9 weeks

STUDY SKILLS CENTER. The Study Skills Center, located adjacent to the Eugene Campus at 662 Cheshire, has been provided as an educational evaluation center where students, staff, and members of the community may come to obtain professional aid in the removal of educational barriers impeding the progress of the individual toward personal goals.

Specially trained personnel are available at the Study Skills Center to provide assistance in the areas of reading, mathematics, writing, oral communications, study habits, memory training, typing, shorthand, use of foreign language tapes, and in use of programmed materials in many academic disciplines.

False Economy

Perhaps the best comment made about the May 1 shocking defeat of the Lane Community College 1967-68 budget levy came from a tradesman who said: "The people spoke, all right — and proved they hadn't been doing much thinking."

Rejection of the LCC levy was foolish. The amount involved would have required a lower tax levy than was approved for operation of the community college this year. This is so even though the 1967-68 levy was calculated to take care of a big enrollment increase—that is, to provide more bargain-priced educational and job training opportunities for more residents of this area.

It also was calculated to give LCC money it will need to make practical use of the first buildings to be completed on a new multimillion-dollar campus which district voters last year agreed to help finance with a \$9.9 million special bond issue. That bonding measure was approved by a 3-to-1 vote margin!

It seems that Lane County voters turned down the 1967-68 LCC levy request for no better reason than that the majority were determined to register objections to property tax rates they believed were too high. Certainly, they could not have been reckoning how foolish it would be for LCC's new campus buildings to stand idle or to be used only part-time next year. Certainly, they could not have believed much fat could be cut out of the proposed LCC levy, one which would have cost the owner of a \$16,000 home only \$6.40 in 1967-68 taxes.

The community college's board of directors now has voted to trim the request, and it has been determined that LCC will receive more state financial help than had been originally anticipated. Now a slightly slimmer community college budget levy will be resubmitted to the voters—probably on June 1. But all of this is simply proof of how right the tradesman's comment was. The revised LCC levy request totals \$490,000. Its adoption will make the 1967-68 property tax on a \$16,000 home barely \$1 less than the May 1 proposal!

If LCC is to continue operating as one of the best and most rapidly growing community colleges in Oregon, voters of this area must stop and think. They must recall that in terms of full-time enrollment equivalents, LCC will serve some 2,650 students next year, many of whom could not afford a big tuition increase. And they must recognize that a big tuition boost is the only possible alternative means of keeping LCC going next year if its modest tax levy is not approved.

SAMPLE BALLOT

for

LANE COUNTY AREA EDUCATION DISTRICT

[LANE COMMUNITY COLLEGE]

for Tax Levy to exceed 6% limitation held in
Lane County Area Education District of Lane, Linn,
Benton, and Douglas Counties, Oregon, on June 1, 1967

Question submitted to the legal voters of said district:

Shall the Lane County Area Education District (Lane Community College) levy a district tax for the purpose of operating the district and all other lawful purposes connected therewith which will exceed the 6% limitation provided in Section 11, Article XI, Oregon Constitution, in the amount of \$490,000.00. The reason for the levy is that the district has no tax base and said funds are necessary for the operation of the district (Lane Community College).

THE TORCH

Published Thursdays during the school year, except on holidays and during vacation periods and exam weeks, by the students of Lane Community College, 200 N. Monroe St., Eugene, Ore. 97402. Views expressed

are those of the writers and not necessarily those of the LCC Board of Education, administration or faculty.

Co-Editors
Debbie Jo Briggs
Vicki Merrill

MARK X HERE

1 ☐ Yes, I vote for the proposed levy.

2 ☐ No, I vote against the proposed levy.
