## Add a Library Widget to Your Moodle Courses!

A widget is a small app that you can add to your Moodle course to add functionality. We have a small Library widget. Take a look:

See, with this widget in your class Moodle site, students can search our catalog right from your class site. They also have one-stop access to our databases page, our citation guides, and our chat reference service (Research Help). There are also links to our contact information, our hours, and a link where students can log into their Library account. To find out how to install the Library widget into your Moodle courses, please visit our website:

## Get Your Vote On!

Two important elections are happening in Oregon: the primary in May and the Federal election in November. We've put together a poster display in the Library to encourage voting, and how to register. Visit the poster display or our handy [Voter Guide](#) to learn more.

## LinkedIn Learning for Students or Professional Dev.

Use [LinkedIn Learning](#) (formerly known as Lynda.com) to acquire new professional or personal skills. LinkedIn Learning is a collection of online video courses taught by industry experts in software, creative, and business skills. You can browse through an [overview of their content here](#). There are some surprising courses, including our most popular, "[Grammar Foundations](#)." Link to individual items, or embed entire LinkedIn Learning courses into your Moodle class. Sponsored by the LCC Library. Instructors should contact the Academic Technology Center ([atc@lanecc.edu](mailto:atc@lanecc.edu)) for help incorporating LinkedIn Learning items into Moodle.
